Any structures and facilities placed on said land by Lessee for operations hereunder and any well or wells on said land drilled or used for the injection of salt water or other fluids may also be used for Lessee's operations on other lands in the same area. Lessee shall have the right at any time during this lease to remove all property and fixtures placed by Lessee on said land, including the right to draw and remove all casing. When required by Lessor, Lessee will bury all pipelines below ordinary plow depth, and no well shall be drilled within two hundred (200) feet of any residence or barn now on said land without Lessor's consent.

8. The rights of either party hereunder may be assigned in whole or in part and the provisions hereof shall extend to the heirs, representatives, successors and assigns, but no change or division in ownership of the land or royalties, however accomplished, shall operate to enlarge the obligations or diminish the rights of Lessee. No such change or division in the ownership of the land or royalties shall be binging upon Lessee for any purpose until such person acquiring any interest has furnished Lessee with the instrument or instruments, or certified copies thereof, constituting the chain of title from the original Lessor. An assignment of this lease, in whole, or in part, shall, to the extent of such assignment, relive and discharge Lessee of any obligations thereunder, and, if Lessee or assignee of part or parts hereof shall fail to comply with any provision of this lease, such default shall not affect this lease insofar as it covers a part of said land upon which Lessee or any assignee thereof shall not be in default. Should more than six parties become entitled to royalties hereunder, Lessee may require the appointment of a single agent to receive payment for all and may withhold payment until such appointment has been made.

9. When drilling or other operations are delayed or interrupted by storm, flood or other act of God, fire war, rebellion, insurrection, riot strikes, differences with workmen, unavailability of material or equipment, failure of carriers to transportation, some order, requisition or necessity of the government or as a result of any cause whatsoever beyond the control of the Lessee, the time of such delay or interruption shall not be counted against Lessee, anything in this lease to the contrary notwithstanding. All express or implied covenants of this lease shall be subject to all Federal and State Laws. Executive order, rules or regulations and this lease shall not be terminated, in whole or in part, nor Lessee held liable in damages for failure to comply therewith if compliance is prevented by, or if such failure is the result of, any such law, order, rule or regulation. If from such causes Lessee is prevented from conducting drilling or reworking operations on, or producing oil or gas from said land or land pooled

therewith, the time while Lessee is so prevented shall not be counted against Lessee, and this lease shall be extended for a period of time equal to that during which such Lessee is so prevented from conducting drilling or reworking operations on. or producing oil or gas from said land or land pooled therewith, not withstanding any other provision hereof.

10. The breach by Lessee of any obligation arising hereunder shall not work a forfeiture or termination of this lease nor cause a termination or reversion of the estate created hereby nor be grounds for cancellation hereof n whole or in part. In the event Lessor considers that operations are not at any time being conducted in compliance with this lease, Lessor shall notify Lessee in writing of the facts relied upon as constituting a breach hereof, and Lessee, if in default, shall have sixty (60) days after receipt of notice in which to commence the compliance with the obligations imposed by virtue of this instrument. After the discovery of oil, gas or other mineral in paying quantities on said land, Lessee shall reasonably develop the acreage retained hereunder, but in discharging this obligation it shall in no event be required to drill more than one (1) well per forty (40)acres, plus an acreage tolerance not to exceed ten per cent (10%) of forty (40) acres of the area retained hereunder and capable of producing oil in paying quantities and one (1) well per six hundred forty (640) acres, plus an acreage tolerance not to exceed ten per cent (10%) of six hundred forty (640) acres of the area retained hereunder and capable of producing gas or other mineral in paying quantities.

11. Lessor hereby warrants and agrees to defend the title to said land, and agrees that Lessee, at its option, may discharge any tax, mortgage or other lien upon said land in the event of default of payment by Lessor, and in the event Lessee does so, it shall be subrogated to such lien with the right to enforce same and apply royalties accruing hereunder toward satisfying same. Without impairment of Lessee's rights under the warranty in the event of failure of title, it is agreed that, if Lessor owns an interest in said land less than the entire fee simple estate, whether stated herein above as a whole or partial interest, then the royalties to be paid Lessor shall be reduced proportionately. All royalty interest covered by this lease (whether or not owned by lessor) shall be paid out of the royalty herein provided. Should anyone or more of the parties named herein above as Lessors fail to execute this lease, it shall nevertheless be binding upon the party or parties executing the same.

12. Lessee, its successors and assigns, shall have the right at any time to surrender this lease, in whole or in part, to Lessor or Lessor's heirs, representatives, successors and assigns by delivering or mailing a release thereof to the Lessor, or by placing a release thereof of record in the county in which said land is situated; thereupon Lessee shall be relieved from all obligations, express or implied, of this agreement as to the acreage so surrendered, and thereafter the advance annual royalties payable hereunder shall be reduced in the portion that the acreage covered hereby is reduced by said release or releases.

13. Notwithstanding anything contained herein to the contrary, if, at the expiration of the primary term of this lease or any portion thereof, is not being maintained in effect in any manner provided herein, including, but not limited to operations upon or production from the leased premises or on land pooled therewith, or through the payment of shut-in gas royalties, Lessee shall have the exclusive right and option to renew and extend this lease as to the lands then covered thereby or any portion chosen by Lessee for an additional _____ ( ) year primary term, commencing_____, by payment or tender to Lessor or to the credit of Lessor in the above named depository bank, on or before said date, a sum of money equal to _____ Dollars ($.00) per net mineral acre, provided that such sum, shall be reduced under the applicable lease provisions, including but not limited to proportionate reduction based on ownership of Lessor.

IN WITNESS WHEREOF, this instrument is executed as of the date above written.

2. SPECIAL TERMS & CONDITIONS

Enclosed are Pages 26 and 27 of the Special Terms and Conditions.

Special Terms and Conditions

It is the intent of TIPS/TAPS to contract with a reliable, high performance vendor to supply commodities to government and educational agencies in the State of Texas. It is the experience of TIPS/TAPS that the following procedures provide TIPS/TAPS, the Vendor, and the participating agency the necessary support to facilitate a mutually beneficial relationship. The specific procedures will be negotiated with the successful vendor.

- **Automated Contract:** Some high-volume or web-site based contracts may be designated as an Automated Contract. This allows entities to purchase directly from awarded Vendor at contract price. All entities listed on the TIPS/TAPS membership list are hereinafter referred to as Members. All purchases from Members must be reported under the TIPS/TAPS account and submitted in the monthly sales report. Failure to do so may result in removal of Vendor from Program.
- **Non-Automated Contract:** All non-automated contract vendor purchase orders must go to the TIPS/TAPS-Region VIII ESC office at 2230 North Edwards, Mt. Pleasant, Texas 75456-1894 or fax 866.839.8472. Should an agency send an order direct to vendor, it is the vendor's responsibility to forward the order to TIPS/TAPS at the address/fax above within 24 business hours and confirm its receipt with TIPS/TAPS. Failure to do so may result in removal of Vendor from Program.
- **Promotion of Contract**: It is agreed that Vendor will encourage all eligible entities to purchase from the TIPS/TAPS Program. Encouraging entities to purchase directly from the Vendor and not through TIPS/TAPS contract is not acceptable to the terms and conditions of this contract and will result in removal of Vendor from Program. TIPS/TAPS and their Regional ESC partners host TIPS/TAPS Vendor Fairs throughout the year and attend various conferences around the state. Vendor is expected to support these conferences through attendance and/or donation of door prizes and product information. Vendor is expected to use marketing funds for the marketing and promotion of this contract.
- **Daily Order Confirmation**: Unless an Automated Contract, orders will be faxed twice daily from TIPS/TAPS to vendor and followed with an email confirmation. The vendor must confirm receipt of all orders within 24 business hours.
- **Monthly pricing (optional)**: for TIPS/TAPS web will be submitted electronically on TIPS/TAPS price list forms (unless alternate format agreed to by TIPS/TAPS) to TIPS/TAPS by the 1st of each month.
- **Vendor custom website for TIPS/TAPS**: If Vendor is hosting a custom TIPS/TAPS web site, then updated pricing must be posted by 1st of each month.
- **Back Ordered Products**: If product is not expected to ship within 3 business days, customer is to be notified within 24 hours and appropriate action taken based on customer request. See also Section 1.10.
- **Monthly Sales Report**: Vendor must submit a monthly sales report of all TIPS/TAPS Member purchases to TIPS/TAPS by the 5th business day of each month for all TIPS/TAPS sales invoiced the previous month. The TIPS/TAPS Two Percent (2%) invoice will be based off this report. Report fields must include:

ISD/Entity name	PO#, and	PO Total Sales Amount.
Example: XYZ ISD	PO#ABC123	$xxx.xx (order total)

- **Purchase Order Pricing/Product Deviation:** If a deviation of pricing/product on a purchase order occurs, TIPS/TAPS is to be notified within 24 hours of receipt of order.

1.1. Vendor Contact: Vendor shall designate a dedicated representative to this contract as the primary contact for all requests from TIPS/TAPS and Members. This person will be responsible for following through with request. TIPS/TAPS is to be notified by 9:00am CST if Vendor contact person will not be available for support that day and provide alternate contact info.

Additionally, CRRC personnel performed the transportation and disposal of 14 frac tanks of contaminated runoff.

Facility Response; International Forwarding House; October 1999:
CRRC personnel responded to a seizure of non-conforming waste materials for the Environmental Protection Agency, Region VI. Eight tractor-trailers of hazardous and regulated waste materials were detained due to improper and illegal packaging and loading of materials. CRRC

personnel relocated the truckloads of waste to an abandoned warehouse in an effort to secure the materials and establish an exclusion zone. Among the wastes and materials, six out of eight DOT hazard categories were present. Some chemicals included ketones, peroxides, nitrates, nitrocellulose compounds, ethers in metal containers, hydrofluoric acid, acids reacting with organic materials and combusting and igniting. CRRC personnel began segregating, consolidating, and sampling containers. Under the direction of CRRC personnel, a six-man HazCat team performed 297 HazCats over a four-day period. Once the materials were properly identified, they were packaged according to DOT regulations and segregated in the new warehouse by DOT hazard class with like materials. The total number of containers encountered during the project exceeded 500. The containers were stored at the new warehouse until the RP was able to facilitate the transportation and disposal of waste materials and the reassignment of the product. CRRC then performed the decontamination of the new warehouse.

Air Monitoring/Health and Safety Evaluation; Fixed Facility; August 1996:
CRRC personnel responded to an incident involving a leaking tank containing 1,500 lbs. of anhydrous ammonia. An early morning thunderstorm created a power shortage causing the compressors to shut down. This created a build-up of pressure and subsequent release from the tank. A monitoring plan was designed and facilitated via CRRC's CAMEO system. CRRC's personnel, working in conjunction with the local fire department and the TCEQ's on-scene coordinator, evacuated a four-block area (approximately 45 residents) based on air monitoring of the area. Team members then donned Level A protective gear and entered the hot zone to close the main leaking valve. The entry team successfully controlled and mitigated the release of ammonia into the atmosphere without injury.

Part IV Remediation & Field Services

Significant Project Examples:

Mold Remediation; Major School District; Texas; August 2004:
A major School District in Cameron County contracted CRRC to perform emergency remedial services (24 hours per day) including decontamination of mold contaminated surfaces and removal and disposal of contaminated sheetrock prior to the opening of the school year preventing the closure and relocation of students.

Mold Remediation; Major Hospital; Texas; March 2004:
A major hospital in Cameron County contracted CRRC to perform remedial services including removal and disposal of mold contaminated drywall, ceiling, flooring and HVAC system in offices near sensitive occupied areas.

Bio-medical Emergency Response; private; June, 2003:
A CRRC emergency response team responded to a call from a private residence to decontaminate areas affected by the death of an individual.

Mold Remediation; Health Clinic; Texas; November 2002:
CRRC was contracted by a County to perform remedial services including removal and disposal of mold contaminated drywall, ceiling, flooring and HVAC system in a free standing public health clinic.

Tank cleaning; Major Manufacturing Company; Texas; October 2002:
A major paper manufacturer contracted CRRC to perform remedial services to remove, transport and dispose of waste materials from an above-ground storage tank. Additionally, CRRC personnel performed the successful decontamination of the storage tank following removal of the wastes. CRRC has performed this service for this client several times to date.

Biological Emergency Response; Federal Courthouse; November, 2001:
CRRC dispatched an emergency response team at the request of the GSA to package materials and decontaminate exposed areas to a powder spill (suspect Anthrax) at a federal courthouse.

Biological Emergency Response; City of Harlingen; Texas; October 2001:
CRRC dispatched an emergency response team at the request of the City of Harlingen to package materials and decontaminate exposed areas to a powder spill (suspect Anthrax) at a residence, office and a vehicle.

Mold Remediation; Major Medical Clinic; Texas; May 2001:
A major medical clinic contracted CRRC to perform remedial services including removal and disposal of mold contaminated drywall, ceiling, flooring and the HVAC system in the Cardiology and Radiology Departments.

Mold Remediation; Hotel Suite; Texas; April 2001:
A new Hotel Suite contracted CRRC to perform remedial services including decontamination of affected surface areas in each suite.

Mold Remediation; Major Medical Center; Texas; December 2000:
A major medical center contracted CRRC to perform remedial services including removal and disposal of mold contaminated drywall in the emergency room area.

Comprehensive Site Assessment/Site Remediation/ Soil Stabilization; U.S. Government Agency; January 1997:
A government agency contacted CRRC personnel initially to perform a sub-surface investigation at a 4.4-acre construction site. During preliminary construction activities, the general contractor noticed small fragments of lead/acid batteries and subsequently retained CRRC for professional site investigation and consulting services.

CRRC's personnel, consisting of environmental engineers, hydro geologists, and technicians, mobilized to the site for an inspection of the location. The team developed an extensive subsurface design to fully delineate the vertical and horizontal extent of contamination at the site. CRRC personnel, utilizing its direct push-drilling rig, began extracting soil samples and establishing monitor wells per the established sampling plan. Analytical results indicated high levels of lead contamination throughout the site; however, the majority of the contamination was located in the subsurface parking garage of the facility. Therefore, the client requested that CRRC personnel excavate the basement area and other contaminated areas that were above lead background levels.

CRRC personnel excavated approximately 29,000 cubic yards of soil and 19,800 cubic yards were considered to be Class I, II or hazardous. CRRC's personnel excavated the basement to construction specifications in less than twelve days. During excavation activities, CRRC personnel performed perimeter and personnel monitoring to ensure that levels of airborne contaminates did not exceed regulatory standards. The contaminated soils were segregated according to hazard class and base line testing was performed to determine the most feasible treatment process to lower the hazard level in the soil.

This was done to save the client money during the waste disposal phase of the project. Bench testing indicated that soil stabilization was the most cost effective approach and the soil was treated and stabilized, leaving less than 500 cubic yards of Class I soil which saved the client hundreds of thousands of dollars in hazardous waste disposal. CRRC personnel are currently studying water treatment processes and options to mitigate any possible groundwater contamination.

Commodity Flow Studies; Bonding Agency; September 1996:
A bonding agency contacted CRRC personnel to perform a hazardous material route and feasibility study. The purpose of the study was to specifically determine the volume of hazardous material crossing the International Bridges in Laredo, Texas and to determine the feasibility of a private hazardous material toll road.

Lead Facility Decontamination: U.S. Border Patrol; March 1996:
CRRC personnel performed the removal and disposal of bulk lead ammunition and lead dust from interior surfaces of an indoor shooting range. The shooting range was a 4,500-sq./ft. facility and required technicians to perform wall washing and steam cleaning. CRRC completed the project below budget.

PCB Remediation; Utility Company; November 1996:
CRRC personnel provided emergency response, regulatory support, and site remediation services for a 25-gallon release of polychlorinated biphenyl's (PCBs). A flatbed trailer transporting 80 transformers was involved in a mishap that caused the transformers to collide, subsequently causing the release of PCB's from five of the transformers. CRRC personnel arrived within 16 minutes of notification and began containing the release.

The leaking transformers were unloaded from the flatbed, secured and transported separately to the utility company's yard. Team members excavated a 40 ft x 36 ft affected area at the incident site. Samples were taken and transported to an environmental laboratory for analysis. Upon confirmation that the spill had been remediated in compliance with the TCEQ guidelines, the excavation was backfilled and a hot mix was spread over the area.

Soil Oxidation; Major Railroad Company; May 1996:
CRRC personnel provided remediation services in response to a train derailment that caused gross diesel contamination to an area 200 feet by 200 feet and approximately to a depth of 30 inches. CRRC mobilized environmental engineers, technicians, and a proprietary delivery system to the site.

Upon arrival, personnel developed an in-situ remediation action plan consisting of soil oxidation and the injection of other nutrients to expedite the remediation process. The project duration was approximately 60 days and successfully reduced TPH levels from 350,000 mg/kg to less than 500 mg/kg, which saved the company thousands of dollars in remediation and disposal costs.

Window on State Government Susan Combs Texas Comptroller of Public Accounts

Search TXMAS Contracts: Search

Rebates: Pursuant to Texas Government Code § 2155.510(b), rebates generated from TXMAS contract purchases made using federal funds must be reported to the federal funding agency for reporting and reconciliation purchases. Each quarter of the State's fiscal year, TXMAS contractors rebate .75% of their TXMAS sales to the State of Texas via the Texas Comptroller of Public Accounts (CPA). It is the purchasing entity's responsibility to report the amount of rebate using the above percent based on the total dollar value of the TXMAS purchase order.

Example: A purchasing entity receives and uses federal funds of $50,000 to purchase items/services on a TXMAS contract. The purchasing entity must report to the federal fund-provider that a sales rebate of $375 ($50,000 * .75% = $375) will be paid to the State of Texas by the TXMAS contractor.

Effective Date: This Texas Multiple Award Schedule (TXMAS) contract is effective beginning 5/2/2008 through 10/1/2012 and is automatically renewed on the date that the General Services Administration (GSA) exercises the renewal option. All State of Texas terms and conditions will continue and apply to all renewal periods by mutual agreement. The contractor has certified that the prices reflected in the contractor's catalog are the same as the prices contained in the most current modification to GSA Contract No. GS-02F-0001U.

Placement of Orders: Purchasing entities must use both the instructions on the contractor's web page and the terms and

conditions in the federal supply schedule to place orders. Purchasing entities may use a either a departmental purchase order or the contractor's on-line ordering system to place orders. Purchasing entities may opt out of using the contractor's on-line ordering system if it is incompatible with the entity's purchasing procedures. The contractor is not required to accept orders below the minimum listed below. Orders between the minimum and maximum listed below are subject to GSA preferred customer pricing. For orders above the maximum, purchasing entities are entitled to negotiate for lower prices than those listed on the on-line federal supply schedule price list.

Order Limitation:
Minimum Order: $50
Maximum Order: NONE

Approved Products/Services: Only products or services listed in the CPA approved GSA contract may be purchased from this TXMAS contract, with one exception. Incidental, off-schedule items may be purchased as "best value, open market" items provided that they are necessary for product integration or product completeness. The purchasing entity is responsible for ensuring that the quoted price for such incidental items is fair and reasonable. These incidental items may be added to the TXMAS purchase order if they are clearly labeled as "open market (OM), best value" items.

THIS TXMAS CONTRACT IS ALSO LISTED ON TXSMARTBUY. Unless this company has TXMAS-authorized dealers (listed previously on this page), all purchasing entities wanting to purchase items/services available on this TXMAS contract **must** purchase through TxSmartBuy: www.txsmartbuy.com. If this contract has TXMAS-authorized dealers, those dealers may continue to accept purchase orders as they have been doing in their previous manner (fax, email, or hand carry). If you have questions, please contact richard.sanjose@cpa.state.tx.us (512-463-3421) or jackie.klaus@cpa.state.tx.us (512-463-8839).

State Contracts: All Texas Council for Purchasing from People with Disabilities contracts and Texas Correctional Industries (TCI) term contracts take precedence over this TXMAS contract. If similar products or services are listed on this TXMAS contract and a CPA term contract, a determination should be made that will result in a best value purchase.

Payment Due Date: Payment will be due on the thirtieth (30) calendar day after the later of: (a) the date the State actually receives a proper invoice at the office designated in the applicable purchase order to receive it; or (b) the date the State accepts the products or services. The post mark date on the envelope for the State warrant (State's equivalent to a check) or banking information showing when a direct deposit transaction was received will be considered the date payment is made. Interest starts accruing on the first day that payment is late. The rate of interest for late payments is set at one percent per month.

Special Note: The State of Texas, including but not limited to its Agencies, cooperative purchasing members and any local governmental entity authorized by law to use the Texas Multiple Award Schedule method for purchasing is not obligated to procure any products or services from this TXMAS contract. This schedule contract shall not be construed to prevent the State from purchasing products or services using other procurement methods as authorized by law.

ABOUT TIPS/TAPS

The Interlocal Purchasing System (TIPS/TAPS) is sponsored by the Region VIII Education Service Center (ESC8) located at 2230 North Edwards, Mt. Pleasant, Texas and is governed by the Region 8 ESC Board of Directors. The Interlocal Purchasing System is available for use by all public and private schools, colleges, universities, cities, counties, and other government entities in the states of Arkansas, Arizona, Illinois, Kansas, Louisiana, Missouri, New Mexico, Ohio, Oklahoma, Oregon, Tennessee, Texas, Virginia, and Washington. Coming soon to other states. TIPS/TAPS Awarded Vendors have submitted proposals under the Competitively Bid Process and received a Contract of Award through TIPS/TAPS. These Awarded Vendors have agreed to provide the best pricing, terms and conditions available to TIPS/TAPS Members.

The TIPS/TAPS Program takes PRIDE in providing a purchasing coop where **Awarded Vendors** and Members both benefit. With a successful award, a vendor can expedite an order for a member because all purchasing requirements are completed during the **RFP** process. A school district or other TIPS/TAPS Member can benefit from the cost savings of time and expense in competitively bidding each purchase.

The Purpose of TIPS/TAPS

Provide school districts and other governmental entities opportunities for greater efficiency and economy in acquiring goods and services.

Take advantage of state-of-the-art purchasing procedures to insure the most competitive contracts.

Provide competitively priced solicitation and bulk purchasing for multiple government entities that yields economic benefits unobtainable by individual entities.

Provide quick and efficient delivery of goods and services by contracting with "high performance" vendors.

Equalize purchasing power for smaller entities that are not able to command the best contracts for themselves.

Maintain credibility and confidence in business procedures by maintaining open competition for purchases and by complying with purchasing laws and ethical business practices.

Assist entities in maintaining the essential controls for budget and accounting purposes.

Hello Ms. Faz,

Yes, the lease structure you have requested and have been provided with is allowed because the TASB BuyBoard Contract #299-08 allows for Leasing Terms (36, 48 or 60 Months). This would be a 48 Month Lease with annual payments as requested by Hidalgo County.

Please let me know if you have any other questions or concerns.

Best regards,

PREMIUM PLUS MAINTENANCE AGREEMENT TERMS AND CONDITIONS

For maintaining the functionality of the base copier/fax equipment, Toshiba agrees to perform maintenance service in accordance with the following terms and conditions:

1) Toshiba will furnish all parts and labor for repairs and maintenance necessitated by normal usage of the walk-up copying/faxing function of the serialized equipment during normal business hours of 8:00 AM to 5:00 PM Monday through Friday, exclusive of holidays. Standard overtime rates of $185 per hour with a 2-hour minimum apply for all other times.

2) The term of this agreement will be for 1 (one) year or the designated number of copies. If this is a Designated Number of Copies billing option this contract may expire before the end of one year. This agreement will automatically renew at the end of the term and thereafter at the then prevailing rates, or as otherwise stated or agreed, unless cancelled by either party by providing written notice at least 30 days prior to the expiration date.

3) This agreement does NOT cover:

a. Service necessitated by the malfunction of Non-Original Manufacture's Equipment parts, supplies, attachments, or supplies not authorized by Toshiba.
b. Repairs or cleaning necessitated by the improper installation of toner, developer, or foreign agents.
c. Exterior hardware including: doors, covers, hinges, operational panel, stands, wheels castors, work tables, exit trays, document lids, ADF covers, staplers, paper cassettes, sheet by-pass, instruction manuals, drivers, etc. which may become broken, lost, or damaged.
d. Exterior or add-on copy counting or monitoring devices.
e. Major in-shop rebuilding for machines that have exceeded their manufacturer recommend life.
f. Circuit board failures unless an UL1449 or Toshiba approved surge protection device is installed inline with the listed equipment.
g. Replacement or repair of any network devices not directly involved with the walk-up copying process. (i.e., controllers (internal or external), memory, printing systems, storage devices (internal or external), drivers, harnesses, wiring, hard drives, mouse, monitors, keyboard, networking harnessing or cards.) A separate service agreement may be purchased for the items listed in 3) g.

4) Customer agrees to:

a. Provide suitable electrical service and maintain proper environmental conditions.
b. Pay for the special servicing that may be required to prepare the equipment for the movement or to reinstall and adjust after a movement.
c. Provide Toshiba with meter readings as needed and to accept estimated meter readings based on service history for billing purposes.
d. Pay additional **n/a** cents per scan, when scans exceed agreement minimum or actual print usage.
e. Pay for freight and special shipping charges when requesting parts and/or supplies.
f. Pay for any charges outside the scope of this Premium Plus Agreement.

5) The consumption of supplies provided in inclusive contracts, including toner or developer, exceeding 10% of the normal volume yield rate shall be chargeable at normal supply rates less a 15% discount.

6) Expenses incurred for supplies consumed in the course of service performed, damaged or misused by the customer or Toshiba technical personnel are non-recoverable and replenishment of such supplies is the sole responsibility of the customer.

7) Toshiba is not responsible for delays or service due to manufacturers' non-availability of parts or supplies necessary to complete such service as described in this agreement. Customer agrees to pay for any freight or special shipping charges when Customer requests emergency requisition of parts or supplies.

8) This agreement is non-transferable, non-refundable, and becomes void upon sale or transfer of the equipment. Toshiba may apply any unused portion of the annual maintenance charges toward future purchases with Toshiba.

9) Toshiba may withhold service or terminate this agreement if the Customer fails to comply with any of the items and conditions of this agreement, or acquires a past-due balance for services rendered, products sold or unpaid meter billings of more than 30 days from date of invoice. Past due balances will be assessed a 10% late fee.

10) This agreement will not apply to any equipment lost or damaged through accident, abuse, misuse, theft, neglect, acts of third parties, fire, water, casualty, or any other natural force or acts of nature, and any loss or damage occurring from uncontrollable circumstances. Services performed under these conditions will be chargeable outside of this agreement.

11) Customer specifically agrees that NO OTHER representation, constitutions or warranties other than those set forth in writing herein have been made or have been relied in the making of this agreement.

ACCEPTANCE (Must be signed by Director of Service Operations or an authorized Service Contract representative to be a valid contract.)

THE TERMS AND CONDITIONS HEREOF ARE PART OF THIS SERVICE AGREEMENT. BY SIGNING THIS CONTRACT, THE CUSTOMER ACKNOWLEDGES THAT THEY HAVE READ AND UNDERSTAND THESE TERMS.

Customer agrees to pay the Minimum Payment per transaction terms, plus any Excess Per Click Charges for the term of this Contract. When this Contract is signed by Customer and Toshiba, it shall constitute a binding contract and is non-cancelable.
