*4:06 PM*

Dear Judge Ramirez:

The above captioned project just recently incurred its final utility adjustment expenditure to be charged to this project. Attached find a breakdown which reflects your share of the cost incurred on this project. The final utility adjustment charge is \$11,077.83, the State will pay \$10,712.26 (96.7%) of the cost and Hidalgo County is responsible for its share of the cost participation which is \$365.57 (3.3%).

In accordance with the terms of the agreement (copy attached) negotiated with the State, please remit a check made payable to Texas Department of Transportation in the amount of \$365.57 within thirty days from the receipt of this letter to our South Region Right of Way staff housed at the Pharr District Office located at 600 West Expressway 83, Pharr, TX 78577-1717. To ensure that the check reaches our ROW staff addressed envelope to the attention of Pete Segundo, Right of Way Agent.

Letter to Judge Ramirez  
4-9-10

Federal Project No: N/A  
Highway: US Business 83

ROW CSJ No: 0039-02-054

This Agreement by and between the State of Texas, acting by and through the Texas Department of Transportation, hereinafter called the State, and the County of Hidalgo, Texas, acting by and through its duly authorized officials pursuant to an Ordinance or Order dated the 3rd day of September, 2004, hereinafter called the Local Government, shall be effective on the date of approval and execution by and on behalf of the State.

WHEREAS, the State and the Local Government hereby agree to enter into a contractual agreement to acquire right of way for a highway project on Highway No. US Business 83 with the following project limits:

(Phase II)

From: 0.345 Miles West of Showers Road

To: 0.064 Miles West of FM 1427; and

WHEREAS, the Local Government requests that the State assume responsibility for acquisition of all necessary right of way for said highway project; and

WHEREAS, the Local Government desires to voluntarily contribute to the State funding participation as defined in 43TAC, §15.55 for the cost of acquiring said right of way for the proper improvement of the State Highway System; and

WHEREAS, the Local Government requested and has been granted an Economically Disadvantaged County Adjustment from the Texas Transportation Commission on May 27, 2004 by virtue of Minute Order No. 109669 attached hereto and incorporated into this agreement, approving a Sixty Seven percent ( 67 %) adjustment to the required Ten percent ( 10%) local participation for this project, thereby resulting in a Local Government net contribution amount of Three and Three Tenths percent ( 3.3%) participation;

NOW, THEREFORE, in consideration of the foregoing premises and the mutual benefits to be derived therefrom, the Local Government shall contribute to the State an amount equal to Three and Three Tenths percent ( 3.3%) of the cost of the right of way to be acquired by the State and shall transmit to the State with the return of this agreement, duly executed by the Local Government, a warrant or check payable to the Texas Department of Transportation in the amount of Thirteen Thousand Two Hundred Dollars (\$13,200), which represents Three and Three Tenths percent ( 3.3%) of Four Hundred Thousand Dollars (\$ 400,000), the estimated total cost of the right of way. If however, it is found that this amount is insufficient to pay the Local Government's obligation, then the Local Government will within thirty (30) days after receipt of a written request from the State for additional funds, transmit to the State such supplemental amount as is requested. Upon completion of the highway project and in the event the total amount as paid by the Local Government is more than Three and Three Tenths percent ( 3.3%) of the actual cost of the right of way, any excess amount will be returned to the Local Government by the State.

In the event any existing, future, or proposed Local Government ordinance, commissioners court order, rule, policy, or other directive, including but not limited to those concerning outdoor advertising, are more restrictive than State law, policy, or directive, and thereby result in any increased costs, then the Local Government will pay one hundred percent (100%) of all such increased costs, even if the applicable county qualifies as an economically disadvantaged county. The amount of the increased costs associated with the existing, future, or proposed Local Government ordinance, order, rule, policy, or other directive will be determined by the State at its sole discretion.

Donations of real property may be credited to the Local Government's funding obligation for cost of right of way to be acquired for this project. Credit for all real property, other than property which is already dedicated and/or in use as a public road, donated by the Local Government to the State shall be based on the property's fair market value established as of the effective date of this agreement. The fair market value shall not include increases or decreases in value caused by the project

and should include the value of the land and improvements being conveyed, excluding any damages to the remainder. The Local Government will provide to the State all documentation to support the determined fair market value of the donated property. Such documentation shall include an appraisal of the property by a licensed appraiser approved by the Texas Department of Transportation, Right of Way Division, unless the Local Government determines that an appraisal is unnecessary because the valuation problem is uncomplicated and the fair market value is estimated at no more than \$10,000.00. The cost of appraisal will be the responsibility of the State. The State will review the submitted documentation and make a final determination of value; provided however, the State may perform any additional investigation deemed necessary, including supplemental appraisal work by State employees or employment of fee appraisers. Credit shall be given only for property transferred at no cost to the State after the effective date of this agreement and the State's issuance of a letter of funding authority, and only for property which is necessary to complete this project. Credit shall be in lieu of monetary contributions required to be paid to the State for the Local Government's funding share of the right of way to be acquired for this project. The total credit cannot exceed the Local Government's matching share of the right of way obligation under this agreement, and credits cannot be reimbursed in cash to the Local Government, applied to project phases other than right of way, nor used for other projects. In the event the Local Government's monetary contributions to the State for acquisition of right of way, when added to its donation credits, exceed the Local Government's matching share of the right of way obligation, there will be no refund to the Local Government of any portion of its contributed money.

The cost of providing such right of way acquired by the State shall mean the total value of compensation paid, either through negotiations or eminent domain proceedings, to the owners for their property interests, including but not limited to utility owners involving expenses related to the relocation, removal or adjustment of eligible utilities.

The Local Government shall maintain all books, papers, accounting records and other documentation relating to costs incurred under this agreement and shall make such materials available to the State and, if federally funded, the Federal Highway Administration (FHWA) or their duly authorized representatives for review and inspection at its office during the contract period and for four (4) years from the date of completion of work defined under this agreement or until any impending litigation, or claims are resolved. Additionally, the State and FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this agreement for the purpose of making audits, examinations, excerpts, and transcriptions. The State auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a subcontract under this agreement acts as acceptance of the authority of the State auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds.
