I have no other concerns. Again, my recommendation remains that once the program is established we need to meet with all stakeholders involved to discuss the procedures that will be followed to report the information to vendor and issue the payment.

According to Jason, we would be able to produce reports on a weekly or monthly basis. As stated in the contract we would pay the vendor on a quarterly basis, we would be able to verify these fees with the monthly reports generated. We feel confident this the program will enhance our current collection efforts. Again, please let us know when we are able to take this back to Commissioners'

You are saying that you have procedures in place at your Department to make sure we can report the cases to the vendor and once the County collects the entire amount owed by the defendant we can notify the vendor and submit the fee owed to them. If this is the case then I have no concerns.

Again, my concern/comment was that since this is a new program, procedures needed to be developed and implemented to make sure the County will only pay to the vendor the fees collected and owed to them and that this will only be done once the County had collected all funds due from the defendants.

Mr. Eufrazio,

Attached please find information on the OMNIBASE software. This information was put together by Jason in our office, we hope that this provides sufficient information to satisfy your concerns. Please advise us when it would be possible for us to take this matter to Commissioners' Court again.
