**RE: Advance Funding Agreement – Amendment #1
CR 804 (Mi 12 N Rd) over Irrigation Canal
CSJ#0921-02-149**

Dear Judge García:

Back in August 2007 we executed an Advance Funding Agreement (AFA) for the subject project in order to move forward with project development in anticipation of receiving funding for replacement of the bridge. Unfortunately, this project has not received funding to date and it does not appear likely that it will anytime soon. As such, we will not be moving forward with project development and need to terminate the AFA. Note that the project does remain a candidate for funding and will continue to compete on a statewide basis for the limited funds available through the highway bridge program. Should the project receive funding in the future, we would enter into a new agreement at that point in time.

Attached, please find two originals of Amendment #1 to the AFA which terminates the agreement. Please sign and return both originals to the attention of Mr. Jody Ellington, our Director of Transportation Planning and Development, at the above address for further processing.

If you have any questions contact me or Jody Ellington at 702-6100.

Sincerely,

Mario R. Jorge, P.E.
Pharr District Engineer
