Re: A Revised Estimate of Costs to Extend Existing Casing Ends on Texas Eastern's
30-in Natural Gas Pipeline for the Road Improvements to El Gato Rd., Hidalgo
Co., TX, TR-50 & -51

Dear Mr. Palacios:

Back in July of 2010 we were asked by R. Gutierrez Engineering Corp. to provide a cost estimate to modify our pipeline crossing for the proposed El Gato Road Improvement Project. We furnished that information and now we have been asked to update the original estimate. Texas Eastern is a wholly owned subsidiary of Spectra Energy.

As before, we anticipate that additional casing pipe will have to be installed to the existing cased crossing to accommodate the widening of the road Rights of Way. Since that time however several utility lines have been placed along El Gato Rd. that will require additional construction efforts to insure they are not left in an unsupported condition that might harm them, and the costs of materials have increased nearly 14% since then.

The estimated cost of this construction is approximately \$85,000. Should you wish for us to continue with the process please contact me and I will initiate the necessary paperwork, or please provide the proper forms that you require. The amount indicated above is not a precise estimate so the amount could vary. The actual reimbursement will be based on the final costs required to perform the modifications.

Please let me know if you wish to proceed.

Sincerely,

Stan T. Johnson

Subject: Spectra Energy Revised Estimate

Raul,

Attached is the revised estimate to extend the gas line casing on El Gato Road from Spectra Energy. The estimated cost has increased from \$65,000 to \$85,000. This is an estimate but the reimbursable cost will be the actual cost. In the letter, they explain that Texas Eastern is a wholly owned subsidiary of Spectra Energy. Let me know if you need anything else at this time.
