Partner with the leader in wireless.

Experience wireless with a superior network, global reach and end-to-end solutions.

The power of Wireless WAN (WWAN) connectivity.

Now you have the flexibility to wirelessly enable your enterprise data network in locations where traditional wire line connections are not available or feasible in fixed or mobile environments. And, for backup connectivity, you can enjoy the added confidence of knowing that you have true diversity via AT&T's wireless data network.

AT&T's network has you covered.

AT&T has the largest national high-speed wireless data network, enabling WWAN connectivity in over 17,000 cities and towns and along over 40,000 miles of U.S. highways. And, AT&T is supercharging its network to deliver broadband speeds to better support the needs of your applications.

Flexible network-to-network connections and security options.

AT&T offers enterprise customers a number of options for extending host connectivity to mobile users or devices via Frame Relay or Network Initiated VPN.

The right wireless data plan for you.

Select from a range of data service plans to fit the needs of your WWAN application, including:

- **Telemetry**—low-usage pricing options for lower-bandwidth applications.
- **Capped**—pricing option that provides low costs in low-usage months, predictable and competitive high-end cost protection in higher-usage months.
- **Backup/Primary**—higher-usage pricing options with low overage.

AT&T can deploy an enterprise-class WWAN solution for your network quickly—wirelessly enabling your enterprise data network for primary or backup connectivity via the largest high-speed data network in the nation.
