Comprehensive Planning

Broaddus & Associates' project approach has long centered on the critical aspect of accurate Pre-Project Planning. Whether preparing a set of design criteria for a specific building or defining a set of institutional design guidelines, the firm adheres to the principle that the greatest ability to influence project success is in its early planning stages.

Broaddus & Associates furthered its ideology on planning practice by responding to a need defined by an increasing number of clients demanding planning strategies that were visionary, yet realistic.

The firm's planning process concentrates on inclusion and multi-level participation at the earliest stages to identify the vision and objectives of its clients. This vision is captured, tested, refined and ultimately balanced in an implementation plan which is both financially feasible and physically constructible.

Broaddus & Associates assists its clients in the preparation of strategic plans, facilities needs assessments and projections, **master plans** and long-range capital programs plans that are achievable for individual owners.

Broaddus & Associates' comprehensive planning experience includes:

Master Planning Experience:

- Cooperative Oxford Laboratory Master Site Plan, Oxford, Maryland
- Henderson County Facilities Plan, Athens, Texas
- Seton Medical Center Master Plan, Austin, Texas
- Southwest Research Institute Campus Master Plan, San Antonio, Texas
- Texas State University-San Marcos Campus Master Plan, San Marcos, Texas
- Texas State Technical College Harlingen Campus Master Plan, Harlingen, Texas
- University of Texas M. D. Anderson Mid-Campus Master Plan, Houston, Texas
- University of Texas M. D. Anderson Backfill/Redevelopment Plan, Houston, Texas
- Williamson County Events Complex Master Plan, Georgetown, Texas
