here is copy of invoice that I spoke to you about...work auth #2....i have spoken to Eric...i do not show a purchase order being initiated...but work has been done...i have plans in the office that were delivered last week for this project...had discussion w/ eric advising that no PO was issued and technically he was not authorized to do work...can you check w/ Marty and advise of the situation...maybe we can place on as claim being that a contract and work auth was in place...as to work auth#3,4,5, he has been advised that also no po's exist and he will find out if work was initiated for these during the short Cuellar tenure....
