**RE: Military Parkway Roadway Extension Project – Outfall Channel Modification
City of Mission**

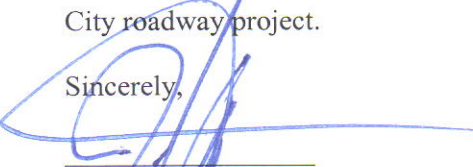

Dear Mr. Garza:

The City of Mission would like to request your approval to construct and modify the existing outfall drainage canal as proposed by the attached exhibits. The existing drainage canal will be enhanced to accommodate natural flows coming to the channel and affecting the proposed roadway project. This modification will be constructed within these two parcels under the HCDD #1 blanket easement authority. The remaining easement parcels needed for this project proposed outfall canal will be obtained from each pertinent owner.

As per coordination meeting dated June 4, 2010, our consultants have proceeded to coordinate and provide information to both parcel owners of the proposed drainage canal modification required by the aforementioned project. The attached meeting minutes attest to the coordination made to both owners.

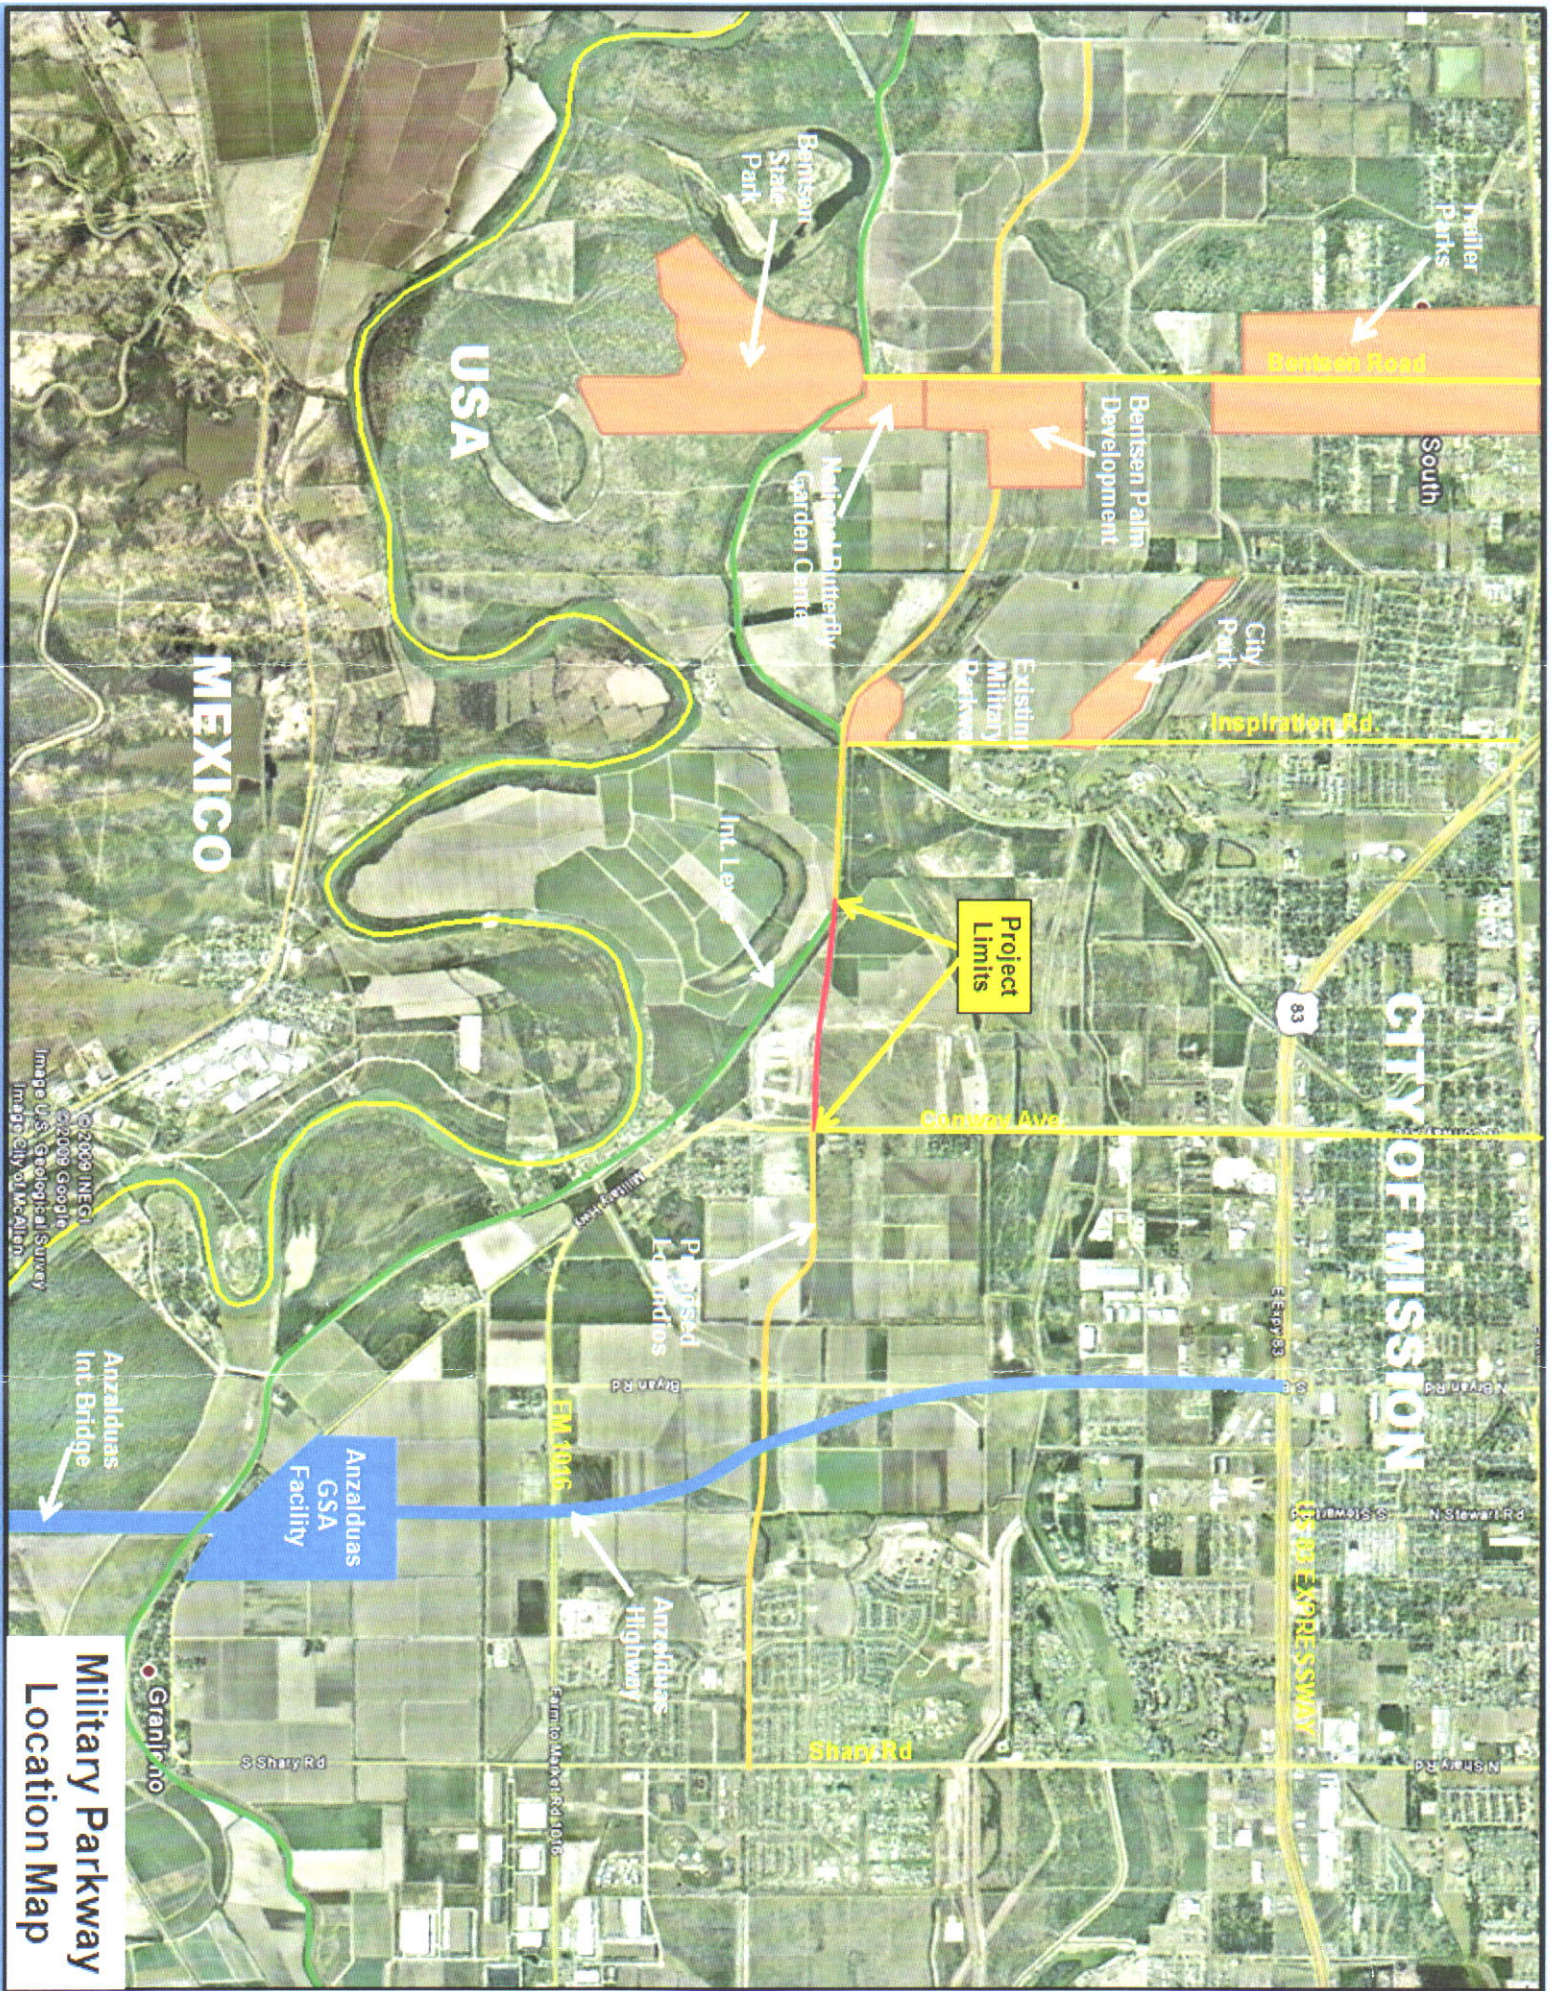

This project is very important for the City of Mission and would like your full consideration to approve this enhancement as soon as convenient, in order to proceed with the construction of this much needed City roadway project.

Sincerely,

Julio Cerda, P.E.
City of Mission – City Manager
