Raise your productivity,
reduce costs, stay secure.

xerox 

Xerox Workflow Solutions take your WorkCentre 5700 series multifunction printer to a higher level of office optimization.

Your key to a simplified office.

Xerox Workflow Solutions connect users to the tools they need to make their information workflows faster, more efficient and more effective. Control access to information. Reduce the costs of information workflow and your organization's environmental impact. Enable new ways of working that streamline and accelerate business cycles and give you a competitive advantage.

Xerox Workflow Solutions give you measurably better ways of working with information no matter what industry, no matter how big or small your organization, and no matter where you operate.

Following are just a few examples of the many possible Xerox Workflow Solutions.

Xerox® Scan to PC Desktop®

Developed by Nuance and Xerox, Scan to PC Desktop software bridges the gap between Microsoft Office documents, PDFs and paper. It allows you to customize the scanning menus on your WorkCentre 5700 series multifunction printer directly from your desktop. This makes it easy to securely scan to specific folders on your desktop, turning a shared multifunction printer into your own personal multifunction printer.

Xerox® Secure Access Unified ID System®

Secure Access integrates with your existing employee ID badge solution, allowing users to simply swipe their badge at the WorkCentre 5700 series multifunction printer to unlock access to features. Usage data can then be made available to other solutions for tracking, accounting and regulatory purposes. Follow-You™ print, a feature of Secure Access, allows you to send a document to a secure print queue, walk up to any printer on the network equipped with Secure Access, swipe your ID card and access the document for printing.

ScanFlowStore®

ScanFlowStore software by Nuance® greatly reduces document processing time with its powerful Optical Character Recognition technology. Using template-based scanning, a user simply selects specific "zones" on a document from which data specific to industries such as healthcare, legal or financial, is captured and used for file naming, creating network folders, populating PDF properties, searching and retrieving, and routing scanned documents to their correct repositories.

Personalized solutions you access right from the touch screen interface.

Paper Input

- 1 100-sheet Duplex Automatic Document Feeder automatically scans documents as fast as 80 spm.
- 2 100-sheet Bypass Tray handles heavy paper up to 80 lb. cover.
- 3 Two 500-sheet universal trays are adjustable up to 11 x 17 in.

- 4 Optional Envelope Kit (replaces Tray 2) provides trouble-free feeding of 50 envelopes.
- 5 High-Capacity Tandem Tray holds a total of 3,600 sheets of letter-size paper.
- 6 4,000-sheet letter-size High-Capacity Feeder (optional) can increase total capacity to 8,700 sheets. Or add the 2,000-sheet Short-Edge Kit in either letter/legal size or 11 x 17 in. size.

Finishing Options

- 7 Multiple finishing options let you add the capabilities that are right for individual workgroups. Choose basic features like staple and hole punch, or advanced capabilities to produce paginated, saddle-stitched and folded booklets and Z and C-folded brochures.

- Secure access
- Audit log
- Device access password protection
- Hide job and user name display
- Analog fax and network isolation
- Smart Card authentication

Hard drive

- Image overwrite
- Encrypted disk drive

Network

- Network user authentication
- IEEE 802.1x protocol
- IPv6 network routing protocol
- IPSec
- SNMP v 3.0
- HTTPS
- Encrypted scan to email
- IP Filtering

Secure your information

WorkCentre 5700 series multifunction printers boast numerous security features and options that employ the latest advancements in data protection technologies, ensuring that sensitive information stays confidential.

- **Submitted for full system Common Criteria (ISO 15480) Certification** ensures that the entire device, not just individual components, conforms to the most stringent security standards and regulations.
- **Secure Print** prevents unauthorized viewers from seeing documents by holding jobs in the print queue until the user is authenticated.
- **Xerox Secure Access Unified ID System®** uses card-based identification to authenticate authorized users when they insert an ID card.
- **Follow-You Print** lets you submit print jobs to a secure print queue and print them at the device of your choice, after ID authentication.
- **Smart Card technology.** WorkCentre 5700 series multifunction printers support the Smart Card technology used by the U.S. Department of Defense for its Common Access Card (CAC)* system, which protects against unauthorized access.

Secure administration

Access device information and control enterprise-wide systems with an exceptional range of reporting and management tools.

- **Fast deployment and consistent uptime.** CentreWare® IS Embedded Web Server automates installation, troubleshooting, cloning and upgrading, providing virtually effortless device management. Plus, CentreWare® Web software manages an entire enterprise-wide print environment — regardless of manufacturer mix — and helps ensure all devices run smoothly and reliably.
- **Remote software upgrades.** Easily update your devices with the latest software and security patches and customize functionality to meet your business needs.
- **Third-party certification.** The WorkCentre 5700 series multifunction printers have received certified approval for use with software solutions from such industry leaders as Citrix Systems and MEDITECH.
- **Network authentication** restricts access to scan, email and network fax features by validating user names and passwords before use. Audit Log capabilities let you know who sent what, when.

* Available in the U.S. in certain configurations.
