RE: “Sole Source Declaration”- Solid Waste Collection and Disposal Service –
City of Elsa

The City of Elsa in 2005, awarded a contract for the provision of waste collection services to BFI Waste Services of Texas, LP. “BFI” continues to be the contractor for the City of Elsa. The work under this agreement consists of commercial, industrial, construction, and residential solid waste collection and disposal, including all the supervision, material, equipment, labor and all other items necessary to complete said work.

Hidalgo County's Department of Health and Human Services provides services from a clinic located at 708 Edinburg Street within the City of Elsa, TX.

Hidalgo County must comply with City's contract award with BFI Waste Services of Texas, Inc.

Therefore, for all the facts contained herein, BFI Waste Services of Texas, LP is the Sole Source for the provision of waste collection services and the Hidalgo County Department of Health and Human Services requires the purchase of said services as long as BFI is the contracted provider for the City of Elsa.
