- C. No connection which allows water to be returned to the public drinking water supply is permitted.
- D. No pipe or pipe fitting which contains more than 8.0 percent lead may be used for the installation or repair of plumbing at any connection which provides water for human use.

These inspections shall be conducted by the MPU or its designated agent prior to initiating service and periodically thereafter. The inspections shall be conducted during the MPU normal business hours.
- C. The MPU shall notify the Customer in writing of any cross-connection or other undesirable plumbing practice which has been identified during the initial inspection or the periodic re-inspection.
- D. The Customer shall immediately correct any undesirable plumbing practice on his premises.
- E. The Customer shall, at his expense, properly install, test, and maintain any backflow prevention device required by the MPU. Copies of all testing and maintenance records shall be provided to the MPU.

**IV. ENFORCEMENT.** If the Customer fails to comply with the terms of the Service Agreement, the MPU shall, at its option, either terminate service or properly install, test, and maintain an appropriate backflow prevention device at the service connection.
