Understanding of the Project

Background

Hidalgo County Health and Human Services Department has established and maintained satellite clinics specifically to care for the well being of its citizens. An inventory of prescription and not prescription medications are stored at each satellite to be provided to residents pursuant a physician's order.

These satellite clinics are supported and supplied from the central office located in Edinburg, Texas. The clinics have medical, mid-level practitioners, nurses and supportive personnel that work together to care for the specific medical needs of Hidalgo County residents. In the course of caring for this population it becomes necessary to employ both prescription and nonprescription medications pursuant to a physician's order.

Project Needs

The Hidalgo County Health Department has a current Class D pharmacy license which allows the procurement, packaging and dispensing of the needed medications for each patient pursuant to a physician's order. The Class D pharmacy license, issued by the Texas State Board of Pharmacy, requires that there be a Pharmacist-in-Charge/Consultant Pharmacist to oversee and approve the procurement, packaging and provision of all medications. It further requires that the Pharmacist-in-Charge/Consultant develop policies and procedures to insure that the rules and regulations set forth by the Texas State Board of Pharmacy are being adhered to that the Class D pharmacy be in compliance of all rules and regulations.

This position can be held by an individual who has a current license to practice pharmacy in the State of Texas.

Work Required

The pharmacist, working with all supportive personnel at the Central Office and the satellite clinics will make visits to the Central Office and quarterly visits to each satellite clinic to insure that adopted policy and procedures pertaining to pharmacy are being adhered to. These include but are not limited to:

- Management of Pharmacy Services
 - Procurement of all Medications and Formulary Guidelines
 - Development and maintenance of Policy and Procedures
 - Dispensing of Medications Pursuant Physician's Orders
 - Training and Direction of all supportive personnel
- Accountability
 - Compliance with Federal and State Laws
 - Compliance with State Laws that govern the practice of pharmacy
 - Maintenance of all records and transactions as required
- Financial
 - Support Budget
 - Develop and implement cost savings measures whenever possible
 - Work with medical and administrative staff to bring about the efficient use of County Funds

Understanding the Services/Methodology

The Hidalgo County Health and Human Services department maintains a current Class D Pharmacy license issued by the Texas State Board of Pharmacy. This type of licensure allows the Class D Pharmacy license holder to contract for pharmacy services with a consultant. There are routine functions that are handled throughout a month's time by said consultant that include but are not limited to:

- Visits to Central Office
- Visits to Satellite Clinics (quarterly)
- Compounding of Medications
- Prepackaging and Labeling of Formulary Medications
- Drug Information
- Telephone Conferences
- In-servicing and training of personnel
- Accountability for all pharmacy functions and transactions
 - Record Keeping
 - Invoices
 - Record of visits
 - Prepackaging logs
 - Documentation
 - Labeling
 - Management of physician orders

Healthcare also brings immediate functions or efforts that require a quicker turnaround time. For these moments it is the responsibility of the consultant pharmacist to work closely with supportive and medical personnel to be available to respond, in a timely fashion, to the immediate demands of the patient load and pharmacy needs.

In my current practice I always work with the Class D pharmacy staff, training them to include me in all details of needed services. They are encouraged to take a proactive approach and provide sufficient lead time so that if immediate services are needed they can be handled efficiently to avoid delays in therapy and provide me with time to oversee, supervise and approve.

There are also times when the pharmacist's expertise is what is needed to discuss policy and budgetary items. Here the Administrative staff is encouraged by the consultant to set times that are mutually convenient for both parties to meet or telephone conferences can also be utilized to discuss the issues.

Site visits, posting of contact numbers (cell/home/work), training and telephone calls to clinics and personnel are methods that I use to keep informed and to keep services running smoothly.
