Regulatory Notice: BuyBoard contract pricing does not include bonding or insurance. Each entity must assess their individual projects to determine the need for bonding and insurance, including any limitation such workers' compensation insurance as may be required by state or local law. If required, it is the responsibility of each entity to obtain such bonding and insurance or confirmation of coverage, as applicable, from the vendor.

Also, each entity must assess their individual projects to determine whether the project is subject to prevailing wage rate requirements under the federal Davis Bacon Act or state local law. If any such requirements apply, it is the responsibility of each entity to take appropriate action to determine compliance by the vendor.

The Texas Professional Services Procurement Act, Chapter 2254 of the Texas Government Code ("Act"), prohibits a governmental entity from using a competitive bid process that initially considers price in the procurement of professional services covered under the "Professional services" under the Act includes, but is not limited to, professional engineering, architecture, accounting, landscape architecture, land surveying, and real estate appraisal services. Additionally, the Texas Interlocal Cooperation Act provides that a governmental entity may not use an interlocal contract with a purchasing cooperative to procure engineering or architectural services (Texas Government Code, Section 791(h)). BuyBoard® contracts do not, and are not intended to, include professional services that must be procured in accordance with the Act. Cooperative members are reminded they must comply with the Act whenever a contract includes professional services as a component part, and may not procure engineering or architectural services through a BuyBoard contract.

Description

High class with smooth surface best describes the Perforated Style.

Seats & Back: 11 gauge die formed angle frame 1"x1-7/8" with 3" radius corners. 3/4" #9 steel expanded metal. 7 gauge x 1-1/2" flat bar center support and mounting bracket understructure. Electrically MIG welded.

Coating: Oven fused functionalized polyethylene copolymer-based thermoplastic. Fluidized bed coating application with superior mechanical performance, impact resistance and UV-stability.

Frame: 2-3/8" O.D. x 12 gauge pre-galvanized structural steel tubing. Seat/back support is bent over a mandrel through the bend radius producing a wrinkle free bend. Tube ends are pre-galvanized steel capped. Seat mounting points are 7 gauge x 1-1/2" die stamped steel flat bar. A 6" x 6" steel plate makes up the surface mount footing. The surface mount plate has four holes for stable mounting, and clipped corners for a more finished look. All electrically MIG welded.

Frame Coating: Electrostatic powder coated application oven cured.

Hardware: All stainless steel hardware fasteners.

Dimensions: 6' bench surface mount with back. Seats and backs are 12" wide x 72" long. Seat height is 18-1/4", seat back height is 35-1/4". Total depth of seat with back is 22-1/4".

Good afternoon Chuck,

Again, I apologize for bothering you, but I did some further research on the quote you submitted and noticed that either some of the prices were off meaning they were either over or under the catalog price. I have attached the quote and the changes that I made. Please contact me when you receive my email so we can go over it to better understand it.

Respectfully submitted,
