1,500 sqft. Engineered Wood Fiber	\$2,520.00	<input type="text" value="0"/>
2,250 sqft. Engineered Wood Fiber	\$3,320.00	<input type="text" value="0"/>

[Add to Cart](#) [Add to Quote](#)

Description

This product is manufactured from engineered, non-toxic, crushed wood fiber (comprised of softwoods or hardwoods), consisting of randomly sized wood fibers, the majority of which do not exceed 1.5"-3" in length, containing 10%-20% fine pieces to aid in compaction. (It is generally understood that the manufacturing process allows a few oversized pieces.)

Once the newly installed product has settled, it forms a "knitted" or compacted layer that will support a wheelchair, crutches, walkers, etc. It does not utilize any wood containing paint, chemicals or additives. The product has minimal bark and is free of twigs, leaf debris and other organic materials.

Wood fiber can be installed by volunteer labor, as well as by an installer. It gives your playground an attractive, natural look.

Description

The Cabot Cove includes two slides, one activity panel, three climbers and two plastic roofs.

The components of this playground are commercial grade and quality engineered to resist corrosion, fading and mildew. In addition, it is also designed in compliance with the public playground safety standards, ASTM and CPSC.

The posts are 3.5" in diameter, 12 gauge galvanized steel, powder coated for a superior high gloss finish, and backed by a limited lifetime warranty.

Plastic components are rotationally molded for superior strength and are UV stabilized to prevent fading. We offer an industry leading 15 year limited warranty on our plastic components.

You can rest assured your children are playing safely on our PVC-free playdecks. Our revolutionary polyethylene coating is lead free and even more durable than traditional plastisol coatings. Our decks carry a 15 year limited warranty.

Hundreds of color combinations are available to turn any playground into a one-of-a-kind stimulating play environment.
