# Certification by State or Local Official of PHA Plans Consistency with the Consolidated Plan

I, Ramon Garcia the County Judge of Hidalgo County certify that the Five Year and Annual PHA Plan of the Housing Authority of the County of Hidalgo is consistent with the Consolidated Plan of The County of Hidalgo, Texas prepared pursuant to 24 CFR Part 91.

Signed / Dated by Appropriate State or Local Official

| PHA 5-Year and Annual Plan | U.S. Department of Housing and Urban Development<br>Office of Public and Indian Housing | OMB No. 2577-0226<br>Expires 8/30/2011 |
|---|---|---|

**1.0 PHA Information**

PHA Name: Hidalgo County housing Authority PHA Code: TX497

PHA Type: ☐ Small ☐ High Performing ☒ Standard ☐ HCV (Section 8)

PHA Fiscal Year Beginning: (MM/YYYY): 07/01/2014

**2.0 Inventory** (based on ACC units at time of FY beginning in 1.0 above)

Number of PH units: 55 Number of HCV units: 716

**3.0 Submission Type**

☐ 5-Year and Annual Plan ☒ Annual Plan Only ☐ 5-Year Plan Only

**4.0 PHA Consortia** ☐ PHA Consortia: (Check box if submitting a joint Plan and complete table below.)

| Participating PHAs | PHA Code | Program(s) Included in the Consortia | Programs Not in the Consortia | No. of Units in Each Program | |
|---|---|---|---|---|---|
| | | | | PH | HCV |
| PHA 1: | | | | | |
| PHA 2: | | | | | |
| PHA 3: | | | | | |

**5.0 5-Year Plan.** Complete items 5.1 and 5.2 only at 5-Year Plan update.

**5.1 Mission.** State the PHA's Mission for serving the needs of low-income, very low-income, and extremely low income families in the PHA's jurisdiction for the next five years:

**5.2 Goals and Objectives.** Identify the PHA's quantifiable goals and objectives that will enable the PHA to serve the needs of low-income and very low-income, and extremely low-income families for the next five years. Include a report on the progress the PHA has made in meeting the goals and objectives described in the previous 5-Year Plan.

**6.0 PHA Plan Update**

(a) Identify all PHA Plan elements that have been revised by the PHA since its last Annual Plan submission:

(b) Identify the specific location(s) where the public may obtain copies of the 5-Year and Annual PHA Plan. For a complete list of PHA Plan elements, see Section 6.0 of the instructions.

Main Administration office of the PHA: 1800 N. Texas Blvd., Weslaco, Texas 78599

PHA Development Management office: 1102 Lilia Dr.,Weslaco, Texas 78599

1200 N. Standard, San Juan, Texas 78589

**7.0 Hope VI, Mixed Finance Modernization or Development, Demolition and/or Disposition, Conversion of Public Housing, Homeownership Programs, and Project-based Vouchers.** *Include statements related to these programs as applicable.*

**8.0 Capital Improvements.** Please complete Parts 8.1 through 8.3, as applicable.

**8.1 Capital Fund Program Annual Statement/Performance and Evaluation Report.** As part of the PHA 5-Year and Annual Plan, annually complete and submit the *Capital Fund Program Annual Statement/Performance and Evaluation Report,* form HUD-50075.1, for each current and open CFP grant and CFFP financing.

**8.2 Capital Fund Program Five-Year Action Plan.** As part of the submission of the Annual Plan, PHAs must complete and submit the *Capital Fund Program Five-Year Action Plan,* form HUD-50075.2, and subsequent annual updates (on a rolling basis, e.g., drop current year, and add latest year for a five year period). Large capital items must be included in the Five-Year Action Plan.

**8.3 Capital Fund Financing Program (CFFP).**

☐ Check if the PHA proposes to use any portion of its Capital Fund Program (CFP)/Replacement Housing Factor (RHF) to repay debt incurred to finance capital improvements.

**9.0 Housing Needs.** Based on information provided by the applicable Consolidated Plan, information provided by HUD, and other generally available data, make a reasonable effort to identify the housing needs of the low-income, very low-income, and extremely low-income families who reside in the jurisdiction served by the PHA, including elderly families, families with disabilities, and households of various races and ethnic groups, and other families who are on the public housing and Section 8 tenant-based assistance waiting lists. The identification of housing needs must address issues of affordability, supply, quality, accessibility, size of units, and location.

| | |
|---|---|
| 9.1 | **Strategy for Addressing Housing Needs.** Provide a brief description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. **Note: Small, Section 8 only, and High Performing PHAs complete only for Annual Plan submission with the 5-Year Plan.** |
| 10.0 | **Additional Information.** Describe the following, as well as any additional information HUD has requested.<br><br>(a) Progress in Meeting Mission and Goals. Provide a brief statement of the PHA's progress in meeting the mission and goals described in the 5-Year Plan.<br>(b) Significant Amendment and Substantial Deviation/Modification. Provide the PHA's definition of "significant amendment" and "substantial deviation/modification" |

| | |
|---|---|
| 11.0 | **Required Submission for HUD Field Office Review.** In addition to the PHA Plan template (HUD-50075), PHAs must submit the following documents. Items (a) through (g) may be submitted with signature by mail or electronically with scanned signatures, but electronic submission is encouraged. Items (h) through (i) must be attached electronically with the PHA Plan. **Note:** Faxed copies of these documents will not be accepted by the Field Office.<br><br>(a) Form HUD-50077, *PHA Certifications of Compliance with the PHA Plans and Related Regulations* (which includes all certifications relating to Civil Rights)<br>(b) Form HUD-50070, *Certification for a Drug-Free Workplace* (PHAs receiving CFP grants only)<br>(c) Form HUD-50071, *Certification of Payments to Influence Federal Transactions* (PHAs receiving CFP grants only)<br>(d) Form SF-LLL, *Disclosure of Lobbying Activities* (PHAs receiving CFP grants only)<br>(e) Form SF-LLL-A, *Disclosure of Lobbying Activities Continuation Sheet* (PHAs receiving CFP grants only)<br>(f) Resident Advisory Board (RAB) comments. Comments received from the RAB must be submitted by the PHA as an attachment to the PHA Plan. PHAs must also include a narrative describing their analysis of the recommendations and the decisions made on these recommendations.<br>(g) Challenged Elements<br>(h) Form HUD-50075.1, *Capital Fund Program Annual Statement/Performance and Evaluation Report* (PHAs receiving CFP grants only)<br>(i) Form HUD-50075.2, *Capital Fund Program Five-Year Action Plan* (PHAs receiving CFP grants only) |

This information collection is authorized by Section 511 of the Quality Housing and Work Responsibility Act, which added a new section 5A to the U.S. Housing Act of 1937, as amended, which introduced 5-Year and Annual PHA Plans. The 5-Year and Annual PHA plans provide a ready source for interested parties to locate basic PHA policies, rules, and requirements concerning the PHA's operations, programs, and services, and informs HUD, families served by the PHA, and members of the public of the PHA's mission and strategies for serving the needs of low-income and very low-income families. This form is to be used by all PHA types for submission of the 5-Year and Annual Plans to HUD. Public reporting burden for this information collection is estimated to average 12.68 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. HUD may not collect this information, and respondents are not required to complete this form, unless it displays a currently valid OMB Control Number.

**Privacy Act Notice.** The United States Department of Housing and Urban Development is authorized to solicit the information requested in this form by virtue of Title 12, U.S. Code, Section 1701 et seq., and regulations promulgated thereunder at Title 12, Code of Federal Regulations. Responses to the collection of information are required to obtain a benefit or to retain a benefit. The information requested does not lend itself to confidentiality

# Instructions form HUD-50075

**Applicability.** This form is to be used by all Public Housing Agencies (PHAs) with Fiscal Year beginning April 1, 2008 for the submission of their 5-Year and Annual Plan in accordance with 24 CFR Part 903. The previous version may be used only through April 30, 2008.

**1.0 PHA Information**
Include the full PHA name, PHA code, PHA type, and PHA Fiscal Year Beginning (MM/YYYY).

**2.0 Inventory**
Under each program, enter the number of Annual Contributions Contract (ACC) Public Housing (PH) and Section 8 units (HCV).

**3.0 Submission Type**
Indicate whether this submission is for an Annual and Five Year Plan, Annual Plan only, or 5-Year Plan only.

**4.0 PHA Consortia**
Check box if submitting a Joint PHA Plan and complete the table.

**5.0 Five-Year Plan**
Identify the PHA's Mission, Goals and/or Objectives (24 CFR 903.6). Complete only at 5-Year update.

**5.1 Mission.** A statement of the mission of the public housing agency for serving the needs of low-income, very low-income, and extremely low-income families in the jurisdiction of the PHA during the years covered under the plan.

**5.2 Goals and Objectives.** Identify quantifiable goals and objectives that will enable the PHA to serve the needs of low income, very low-income, and extremely low-income families.

**6.0 PHA Plan Update.** In addition to the items captured in the Plan template, PHAs must have the elements listed below readily available to the public. Additionally, a PHA must:

(a) Identify specifically which plan elements have been revised since the PHA's prior plan submission.

(b) Identify where the 5-Year and Annual Plan may be obtained by the public. At a minimum, PHAs must post PHA Plans, including updates, at each Asset Management Project (AMP) and main office or central off ice of the PHA. PHAs are strongly encouraged to post complete PHA Plans on its official website. PHAs are also encouraged to provide each resident council a copy of its 5-Year and Annual Plan.

**PHA Plan Elements.** (24 CFR 903.7)

1. **Eligibility, Selection and Admissions Policies, including Deconcentration and Wait List Procedures.** Describe the PHA's policies that govern resident or tenant eligibility, selection and admission including admission preferences for both public housing and HCV and unit assignment policies for public housing; and procedures for maintaining waiting lists for admission to public housing and address any site-based waiting lists.

2. **Financial Resources.** A statement of financial resources, including a listing by general categories, of the PHA's anticipated resources, such as PHA Operating, Capital and other anticipated Federal resources available to the PHA, as well as tenant rents and other income available to support public housing or tenant-based assistance. The statement also should include the non-Federal sources of funds supporting each Federal program, and state the planned use for the resources.

3. **Rent Determination.** A statement of the policies of the PHA governing rents charged for public housing and HCV dwelling units.

4. **Operation and Management.** A statement of the rules, standards, and policies of the PHA governing maintenance management of housing owned, assisted, or operated by the public housing agency (which shall include measures necessary for the prevention or eradication of pest infestation, including cockroaches), and management of the PHA and programs of the PHA.

5. **Grievance Procedures.** A description of the grievance and informal hearing and review procedures that the PHA makes available to its residents and applicants.

6. **Designated Housing for Elderly and Disabled Families.** With respect to public housing projects owned, assisted, or operated by the PHA, describe any projects (or portions thereof), in the upcoming fiscal year, that the PHA has designated or will apply for designation for occupancy by elderly and disabled families. The description shall include the following information: 1) development name and number; 2) designation type; 3) application status; 4) date the designation was approved, submitted, or planned for submission, and; 5) the number of units affected.

7. **Community Service and Self-Sufficiency.** A description of: (1) Any programs relating to services and amenities provided or offered to assisted families; (2) Any policies or programs of the PHA for the enhancement of the economic and social self-sufficiency of assisted families, including programs under Section 3 and FSS; (3) How the PHA will comply with the requirements of community service and treatment of income changes resulting from welfare program requirements. **(Note: applies to only public housing).**

8. **Safety and Crime Prevention.** For public housing only, describe the PHA's plan for safety and crime prevention to ensure the safety of the public housing residents. The statement must include: (i) A description of the need for measures to ensure the safety of public housing residents; (ii) A description of any crime prevention activities conducted or to be conducted by the PHA; and (iii) A description of the coordination between the PHA and the appropriate police precincts for carrying out crime prevention measures and activities.

9. **Pets.** A statement describing the PHAs policies and requirements pertaining to the ownership of pets in public housing.

10. **Civil Rights Certification.** A PHA will be considered in compliance with the Civil Rights and AFFH Certification if: it can document that it examines its programs and proposed programs to identify any impediments to fair housing choice within those programs; addresses those impediments in a reasonable fashion in view of the resources available; works with the local jurisdiction to implement any of the jurisdiction's initiatives to affirmatively further fair housing; and assures that the annual plan is consistent with any applicable Consolidated Plan for its jurisdiction.

11. **Fiscal Year Audit.** The results of the most recent fiscal year audit for the PHA.

12. **Asset Management.** A statement of how the agency will carry out its asset management functions with respect to the public housing inventory of the agency, including how the agency will plan for the long-term operating, capital investment, rehabilitation, modernization, disposition, and other needs for such inventory.

13. **Violence Against Women Act (VAWA).** A description of: **1)** Any activities, services, or programs provided or offered by an agency, either directly or in partnership with other service providers, to child or adult victims of domestic violence, dating violence, sexual assault, or stalking; **2)** Any activities, services, or programs provided or offered by a PHA that helps child and adult victims of domestic violence, dating violence, sexual assault, or stalking, to obtain or maintain housing; and **3)** Any activities, services, or programs provided or offered by a public housing agency to prevent domestic violence, dating violence, sexual assault, and stalking, or to enhance victim safety in assisted families.

**7.0 Hope VI, Mixed Finance Modernization or Development, Demolition and/or Disposition, Conversion of Public Housing, Homeownership Programs, and Project-based Vouchers**

(a) **Hope VI or Mixed Finance Modernization or Development.** **1)** A description of any housing (including project number (if known) and unit count) for which the PHA will apply for HOPE VI or Mixed Finance Modernization or Development; and **2)** A timetable for the submission of applications or proposals. The application and approval process for Hope VI, Mixed Finance Modernization or Development, is a separate process. See guidance on HUD's website at: http://www.hud.gov/offices/pih/programs/ph/hope6/index.cfm

(b) **Demolition and/or Disposition.** With respect to public housing projects owned by the PHA and subject to ACCs under the Act: **(1)** A description of any housing (including project number and unit numbers [or addresses]), and the number of affected units along with their sizes and accessibility features) for which the PHA will apply or is currently pending for demolition or disposition; and **(2)** A timetable for the demolition or disposition. The application and approval process for demolition and/or disposition is a separate process. See guidance on HUD's website at: http://www.hud.gov/offices/pih/centers/sac/demo_dispo/index.cfm
**Note:** This statement must be submitted to the extent that **approved and/or pending** demolition and/or disposition has changed.

(c) **Conversion of Public Housing.** With respect to public housing owned by a PHA: **1)** A description of any building or buildings (including project number and unit count) that the PHA is required to convert to tenant-based assistance or that the public housing agency plans to voluntarily convert; **2)** An analysis of the projects or buildings required to be converted; and **3)** A statement of the amount of assistance received under this chapter to be used for rental assistance or other housing assistance in connection with such conversion. See guidance on HUD's website at: http://www.hud.gov/offices/pih/centers/sac/conversion.cfm

(d) **Homeownership.** A description of any homeownership (including project number and unit count) administered by the agency or for which the PHA has applied or will apply for approval.

(e) **Project-based Vouchers.** If the PHA wishes to use the project-based voucher program, a statement of the projected number of project-based units and general locations and how project basing would be consistent with its PHA Plan.

**8.0 Capital Improvements.** This section provides information on a PHA's Capital Fund Program. With respect to public housing projects owned, assisted, or operated by the public housing agency, a plan describing the capital improvements necessary to ensure long-term physical and social viability of the projects must be completed along with the required forms. Items identified in 8.1 through 8.3, must be signed where directed and transmitted electronically along with the PHA's Annual Plan submission.

**8.1 Capital Fund Program Annual Statement/Performance and Evaluation Report.** PHAs must complete the *Capital Fund Program Annual Statement/Performance and Evaluation Report* (form HUD-50075.1), for each Capital Fund Program (CFP) to be undertaken with the current year's CFP funds or with CFFP proceeds. Additionally, the form shall be used for the following purposes:

(a) To submit the initial budget for a new grant or CFFP;

(b) To report on the Performance and Evaluation Report progress on any open grants previously funded or CFFP; and

(c) To record a budget revision on a previously approved open grant or CFFP, e.g., additions or deletions of work items, modification of budgeted amounts that have been undertaken since the submission of the last Annual Plan. The Capital Fund Program Annual Statement/Performance and Evaluation Report must be submitted annually.

Additionally, PHAs shall complete the Performance and Evaluation Report section (see footnote 2) of the *Capital Fund Program Annual Statement/Performance and Evaluation* (form HUD-50075.1), at the following times:

1. At the end of the program year; until the program is completed or all funds are expended;

2. When revisions to the Annual Statement are made, which do not require prior HUD approval, (e.g., expenditures for emergency work, revisions resulting from the PHAs application of fungibility); and

3. Upon completion or termination of the activities funded in a specific capital fund program year.

**8.2 Capital Fund Program Five-Year Action Plan**

PHAs must submit the *Capital Fund Program Five-Year Action Plan* (form HUD-50075.2) for the entire PHA portfolio for the first year of participation in the CFP and annual update thereafter to eliminate the previous year and to add a new fifth year (rolling basis) so that the form always covers the present five-year period beginning with the current year.

**8.3 Capital Fund Financing Program (CFFP).** Separate, written HUD approval is required if the PHA proposes to pledge any

portion of its CFP/RHF funds to repay debt incurred to finance capital improvements. The PHA must identify in its Annual and 5-year capital plans the amount of the annual payments required to service the debt. The PHA must also submit an annual statement detailing the use of the CFFP proceeds. See guidance on HUD's website at: http://www.hud.gov/offices/pih/programs/ph/capfund/cffp.cfm

**9.0 Housing Needs.** Provide a statement of the housing needs of families residing in the jurisdiction served by the PHA and the means by which the PHA intends, to the maximum extent practicable, to address those needs. (Note: Standard and Troubled PHAs complete annually; Small and High Performers complete only for Annual Plan submitted with the 5-Year Plan).

**9.1 Strategy for Addressing Housing Needs.** Provide a description of the PHA's strategy for addressing the housing needs of families in the jurisdiction and on the waiting list in the upcoming year. (Note: Standard and Troubled PHAs complete annually; Small and High Performers complete only for Annual Plan submitted with the 5-Year Plan).

**10.0 Additional Information.** Describe the following, as well as any additional information requested by HUD:

(a) **Progress in Meeting Mission and Goals.** PHAs must include (i) a statement of the PHAs progress in meeting the mission and goals described in the 5-Year Plan; (ii) the basic criteria the PHA will use for determining a significant amendment from its 5-year Plan; and a significant amendment or modification to its 5-Year Plan and Annual Plan. **(Note: Standard and Troubled PHAs complete annually; Small and High Performers complete only for Annual Plan submitted with the 5-Year Plan).**

(b) **Significant Amendment and Substantial Deviation/Modification.** PHA must provide the definition of "significant amendment" and "substantial deviation/modification". **(Note: Standard and Troubled PHAs complete annually; Small and High Performers complete only for Annual Plan submitted with the 5-Year Plan.)**

(c) PHAs must include or reference any applicable memorandum of agreement with HUD or any plan to improve performance. **(Note: Standard and Troubled PHAs complete annually).**

**11.0 Required Submission for HUD Field Office Review.** In order to be a complete package, PHAs must submit items (a) through (g), with signature by mail or electronically with scanned signatures. Items (h) and (i) shall be submitted electronically as an attachment to the PHA Plan.

(a) Form HUD-50077, *PHA Certifications of Compliance with the PHA Plans and Related Regulations*

(b) Form HUD-50070, *Certification for a Drug-Free Workplace* **(PHAs receiving CFP grants only)**

(c) Form HUD-50071, *Certification of Payments to Influence Federal Transactions* **(PHAs receiving CFP grants only)**

(d) Form SF-LLL, *Disclosure of Lobbying Activities* **(PHAs receiving CFP grants only)**

(e) Form SF-LLL-A, *Disclosure of Lobbying Activities Continuation Sheet* **(PHAs receiving CFP grants only)**

(f) Resident Advisory Board (RAB) comments.

(g) Challenged Elements. Include any element(s) of the PHA Plan that is challenged.

(h) Form HUD-50075.1, ***Capital Fund Program Annual Statement/Performance and Evaluation Report*** **(Must be attached electronically for PHAs receiving CFP grants only).** See instructions in 8.1.

(i) Form HUD-50075.2, *Capital Fund Program Five-Year Action Plan* **(Must be attached electronically for PHAs receiving CFP grants only).** See instructions in 8.2.

## Civil Rights Certification

### Annual Certification and Board Resolution

*Acting on behalf of the Board of Commissioners of the Public Housing Agency (PHA) listed below, as its Chairman or other authorized PHA official if there is no Board of Commissioner, I approve the submission of the Plan for the PHA of which this document is a part and make the following certification and agreement with the Department of Housing and Urban Development (HUD) in connection with the submission of the Plan and implementation thereof:*

The PHA certifies that it will carry out the public housing program of the agency in conformity with title VI of the Civil Rights Act of 1964, the Fair Housing Act, section 504 of the Rehabilitation Act of 1973, and title II of the Americans with Disabilities Act of 1990, and will affirmatively further fair housing.

Hidalgo County Housing Authority — PHA Name

TX497 — PHA Number/HA Code

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. Warning: HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

# Certification for a Drug-Free Workplace

U.S. Department of Housing and Urban Development

Applicant Name

Hidalgo County Housing Authority

Program/Activity Receiving Federal Grant Funding

Streamlined Annual PHA Plan

Acting on behalf of the above named Applicant as its Authorized Official, I make the following certifications and agreements to the Department of Housing and Urban Development (HUD) regarding the sites listed below:

I certify that the above named Applicant will or will continue to provide a drug-free workplace by:

a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Applicant's workplace and specifying the actions that will be taken against employees for violation of such prohibition.

b. Establishing an on-going drug-free awareness program to inform employees ---

(1) The dangers of drug abuse in the workplace;

(2) The Applicant's policy of maintaining a drug-free workplace;

(3) Any available drug counseling, rehabilitation, and employee assistance programs; and

(4) The penalties that may be imposed upon employees for drug abuse violations occurring in the workplace.

c. Making it a requirement that each employee to be engaged in the performance of the grant be given a copy of the statement required by paragraph a.;

d. Notifying the employee in the statement required by paragraph a. that, as a condition of employment under the grant, the employee will ---

(1) Abide by the terms of the statement; and

(2) Notify the employer in writing of his or her conviction for a violation of a criminal drug statute occurring in the workplace no later than five calendar days after such conviction;

e. Notifying the agency in writing, within ten calendar days after receiving notice under subparagraph d.(2) from an employee or otherwise receiving actual notice of such conviction. Employers of convicted employees must provide notice, including position title, to every grant officer or other designee on whose grant activity the convicted employee was working, unless the Federalagency has designated a central point for the receipt of such notices. Notice shall include the identification number(s) of each affected grant;

f. Taking one of the following actions, within 30 calendar days of receiving notice under subparagraph d.(2), with respect to any employee who is so convicted ---

(1) Taking appropriate personnel action against such an employee, up to and including termination, consistent with the requirements of the Rehabilitation Act of 1973, as amended; or

(2) Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;

g. Making a good faith effort to continue to maintain a drug-free workplace through implementation of paragraphs a. thru f.

**2. Sites for Work Performance.** The Applicant shall list (on separate pages) the site(s) for the performance of work done in connection with the HUD funding of the program/activity shown above: Place of Performance shall include the street address, city, county, State, and zip code. Identify each sheet with the Applicant name and address and the program/activity receiving grant funding.)

Check here ☐ if there are workplaces on file that are not identified on the attached sheets.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate.
**Warning:** HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

# Certification of Payments to Influence Federal Transactions

U.S. Department of Housing and Urban Development
Office of Public and Indian Housing

Hidalgo County Housing Authority
Applicant Name

Streamlined Annual PHA Plan
Program/Activity Receiving Federal Grant Funding

The undersigned certifies, to the best of his or her knowledge and belief, that:

(1) No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement.

(2) If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of an agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, Disclosure Form to Report Lobbying, in accordance with its instructions.

(3) The undersigned shall require that the language of this certification be included in the award documents for all subawards at all tiers (including subcontracts, subgrants, and contracts under grants, loans, and cooperative agreements) and that all sub recipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Section 1352, Title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each such failure.

I hereby certify that all the information stated herein, as well as any information provided in the accompaniment herewith, is true and accurate. **Warning:** HUD will prosecute false claims and statements. Conviction may result in criminal and/or civil penalties. (18 U.S.C. 1001, 1010, 1012; 31 U.S.C. 3729, 3802)

Estimate based on MOTOR CRASH ESTIMATING GUIDE. Unless otherwise noted all items are derived from the Guide DR2JP13, CCC Data Date 2/14/2014, and the parts selected are OEM-parts manufactured by the vehicles Original Equipment Manufacturer. OEM parts are available at OE/Vehicle dealerships. OPT OEM (Optional OEM) or ALT OEM (Alternative OEM) parts are OEM parts that may be provided by or through alternate sources other than the OEM vehicle dealerships. OPT OEM or ALT OEM parts may reflect some specific, special, or unique pricing or discount. OPT OEM or ALT OEM parts may include "Blemished" parts provided by OEM's through OEM vehicle dealerships. Asterisk (*) or Double Asterisk (**) indicates that the parts and/or labor information provided by MOTOR may have been modified or may have come from an alternate data source. Tilde sign (~) items indicate MOTOR Not-Included Labor operations. The symbol (<>) indicates the refinish operation WILL NOT be performed as a separate procedure from the other panels in the estimate. Non-Original Equipment Manufacturer aftermarket parts are described as Non OEM or A/M. Used parts are described as LKQ, RCY, or USED. Reconditioned parts are described as Recond. Recored parts are described as Recore. NAGS Part Numbers and Benchmark Prices are provided by National Auto Glass Specifications. Labor operation times listed on the line with the NAGS information are MOTOR suggested labor operation times. NAGS labor operation times are not included. Pound sign (#) items indicate manual entries.

Some 2014 vehicles contain minor changes from the previous year. For those vehicles, prior to receiving updated data from the vehicle manufacturer, labor and parts data from the previous year may be used. The CCC ONE estimator has a complete list of applicable vehicles. Parts numbers and prices should be confirmed with the local dealership.

The following is a list of additional abbreviations or symbols that may be used to describe work to be done or parts to be repaired or replaced:

SYMBOLS FOLLOWING PART PRICE:
m=MOTOR Mechanical component. s=MOTOR Structural component. T=Miscellaneous Taxed charge category. X=Miscellaneous Non-Taxed charge category.

SYMBOLS FOLLOWING LABOR:
D=Diagnostic labor category. E=Electrical labor category. F=Frame labor category. G=Glass labor category. M=Mechanical labor category. S=Structural labor category. (numbers) 1 through 4=User Defined Labor Categories.

OTHER SYMBOLS AND ABBREVIATIONS:
Adj.=Adjacent. Algn.=Align. ALU=Aluminum. A/M=Aftermarket part. Blnd=Blend. BOR=Boron steel. CAPA=Certified Automotive Parts Association. D&R=Disconnect and Reconnect. HSS=High Strength Steel. HYD=Hydroformed Steel. Incl.=Included. LKQ=Like Kind and Quality. LT=Left. MAG=Magnesium. Non-Adj.=Non Adjacent. NSF=NSF International Certified Part. O/H=Overhaul. Qty=Quantity. Refn=Refinish. Repl=Replace. R&I=Remove and Install. R&R=Remove and Replace. Rpr=Repair. RT=Right. SAS=Sandwiched Steel. Sect=Section. Subl=Sublet. UHS=Ultra High Strength Steel. N=Note(s) associated with the estimate line.

CCC ONE Estimating - A product of CCC Information Services Inc.

The following is a list of abbreviations that may be used in CCC ONE Estimating that are not part of the MOTOR CRASH ESTIMATING GUIDE:
BAR=Bureau of Automotive Repair. EPA=Environmental Protection Agency. NHTSA= National Highway Transportation and Safety Administration. PDR=Paintless Dent Repair. VIN=Vehicle Identification Number.

**Ot ers Present:**

| | | | |
|---|---|---|---|
| **Jaime Cardo a** | Edinburg | **Da n Rapo a** | McAllen |
| **Jorge L. Gon ale** | McAllen | | |

.

**Call to Order:** Arnoldo Becho called the meeting to order at 11:00 a.m.

**Re ie o Minutes:** *Hilda from Elsa made a Motion to approve the minutes as corrected and Yenni from Peñitas seconded the Motion. The Motion passes unanimously.*

**Old Business**

**HCLS Interlocals:** The Interlocals will be distributed after they have been approved at a Hidalgo County Commissioners' meeting. It looks likely that the Interlocal Agreement will be placed on the agenda of the next Commissioners' meeting. HCLS needs to send the minutes with a vote regarding fund distribution and expenditure.

*Kate Horan from McAllen then made a motion: The Hidalgo County Library System (HCLS) will divide the funds allocated by Hidalgo County, for the libraries in HCLS, equally among the libraries after paying for TLC. Letty Leija from Edinburg seconded the Motion. The Motion passed unanimously.*

HCLS may consider products for purchase as a consortium over the next year in order to perhaps use next year's County funds for these products. A discussion ensued about Overdrive, E-Books, and the best options available to create an E-book collection for HCLS. Other vendors and other services were also considered. Adolfo suggested formation of a committee to look into what other items or services we may be interested in. Adolfo was chosen to Chair that Committee.

**We site updates, Sc edule, By la s:** Adolfo supplied the information needed to update the website and Jaime has made some of those changes. Arnold asked that we look at the website and suggest corrections. Please send this information to Jaime and Arnold. Letty asked that we put information about FESTIBA on the website and

the librarians consented. Last year during FESTIBA HCLS had a booth and plans are being made to again attend FESTIBA as a group. FESTIBA is going to take place the 21st of March within the courtyard of Edinburg City Hall. Kate from McAllen will look for a banner for the HCLS booth. Letty will coordinate with libraries who wish to attend.

**Ne Business**

**ILL Issues and Na igator:** A discussion ensued on ILL issues. The Interlocal ILL (email/TLC) process was discussed. No official procedures exist and no understanding was found within the meeting. The libraries did agree to use the next 30 days to examine possible procedures for adoption next meeting.

**E-Rate Priority 2:** Priority 2 (equipment and maintenance) funding is being considered for denial by USAC. A discussion ensued on this item. Kate commented that we should write a letter from HCLS to the FCC Board, Congressman Hinojosa and Congressman Vela requesting support for Priority 2 funding.

**HCLS Secretary:** There was confusion about the secretary post for HCLS. At the last meeting, the President and Vice-President were elected but not the Secretary. The minutes, from the last meeting, state that Armandina from the San Juan Library is the Secretary and that the group would like her to remain as such, but there was no vote. *At this meeting Adolfo made a Motion for Armandina to stay as Secretary and Arnoldo seconded it. The Motion passed unanimously*.

**inio Consortium:** Edinburg, Mercedes, Mission, Pharr and Weslaco have begun building a magazine consortium through Zinio. Mayra from Mission will send the list of electronic magazines to all of the other libraries that are interested in joining. The platform fee is about $1,200.00 and the content cost is not known at this time. If more libraries join, the cost will be lower. On March 5th, a representative from Recorded Books will be at the Phar Library. Adolfo invited everyone to attend. The presentation will be at 11::00 a.m.

**Sc edule, Presenters, Wor s ops:** More workshops are being requested. The library hosting the meeting is responsible for presenting these workshops. A discussion ensued regarding CE credits. The Directors, as per the Sate Library, have to have 10 CE credits per year. Arnoldo will contact the State Library to find out which workshops and or webinars qualify for CE credits.

.

**By La s and ot er Agreements:** These items were tabled for our next meeting. *Adolfo made a Motion to adjourn the meeting and Armandina seconded. The meeting was adjourned at 1:25 p.m.*

**Addendum**

**In ormation Exc ange:** There was no information exchange.

**Zimbra** **monica.badillo@co.hidalgo.tx.us**

## RE: 2014 Interlocal w cities

Monica - the agreement is fine. Do you have a schedule for the amount allotted to each city? How have you done it in the past?

**THE STATE OF TE AS**

**COUNTY OF HIDALGO**

## INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF ALAMO, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF ALAMO, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Alamo, Texas
Attn: City Manager
420 N. Tower Road
Alamo, Texas 78516

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

## INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF DONNA, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF DONNA, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF EDINBURG, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF EDINBURG, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Edinburg, Texas
Attn: City Manager
415 W. University Dr.
Edinburg, Texas 78539

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms.

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

**THE STATE OF TE AS**

**COUNTY OF HIDALGO**

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF ELSA, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF ELSA, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Elsa, Texas
Attn: City Manager
216 E 4th Street
Elsa, Texas 78543

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF HIDALGO, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF HIDALGO, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

**INTERLOCAL COOPERATION AGREEMENT**
**BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF LA JOYA, TE AS**

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF LA JOYA, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

## INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF MCALLEN, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF MCALLEN, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be

allocated to County libraries in accordance with a formula established, reviewed and approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or

amendment thereof, contrary to which the parties have no legal right to contract, the latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of McAllen, Texas
Attn: City Manager
1300 Houston Ave
McAllen, Texas 78501

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

**COUNTY OF HIDALGO**

## INTERLOCAL COOPERATION AGREEMENT
## BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF MERCEDES, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF MERCEDES, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo

302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Mercedes, Texas
Attn: City Manager
400 S Ohio St
Mercedes, Texas 78570

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

## INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF MISSION, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF MISSION, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF PENITAS, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF PENITAS, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Penitas, Texas
Attn: City Manager
_____
P.O. Box 204
Peñitas, TX 78576

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. ## INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF PHARR, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF PHARR, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of Pharr, Texas
Attn: City Manager
118 S Cage Blvd
Pharr, Texas 78577

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF SAN JUAN, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF SAN JUAN, TEXAS hereinafter referred to as “City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

If to County: County of Hidalgo
Attention: Ramon Garcia, Hidalgo County Judge
302 W. University Dr.
Edinburg, Texas 78539

If to City: City of San Juan, Texas
Attn: City Manager
701 S Nebraska
San Juan , Texas 78589

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

11. Additional Documents. The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement.

12. Successors. This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

13. Assignment. This Agreement shall not be assignable.

14. Headings. The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

15. Gender and Number. All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

16. Authority to Execute. The execution and performance of this Agreement by City and County have been duly authorized by all necessary laws, resolutions corporate action, and this Agreement constitutes the valid and enforceable obligations of City and County in accordance with its terms

17. Governmental Purpose. Each party hereto is entering into this agreement for the purpose of providing for governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

18. Commitment of Current Revenues Only. In the event that, during any term, hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon ninety (90) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

# INTERLOCAL COOPERATION AGREEMENT BETWEEN COUNTY OF HIDALGO, TE AS AND CITY OF WESLACO, TE AS

This Agreement is made effective as of this 5th day of March, 2014, by and between HIDALGO COUNTY, TEXAS hereinafter referred to as "County," and the CITY OF WESLACO, TEXAS hereinafter referred to as 'City" pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

WHEREAS, the County has established the Hidalgo County Library System (hereinafter "HCLS");

WHEREAS, the County wishes to Contract with the City for library privileges from the City's established library;

WHEREAS, pursuant to Tex. Loc. Gov't Code Section 323.011 the City understands that the City's library will assume the functions of a County library within the County;

WHEREAS, pursuant to standard HCLS operating procedures, HCLS acquires library materials, supplies and services, electronic database services, audiovisual equipment, and computer hardware, software and other resources for library services for the free use of City's library by residents of rural areas of the County;

WHEREAS, the County and City desire to clarify the terms and conditions of the operation of HCLS, and to provide direct funding to City in certain circumstances;

WHEREAS, the County finds that the City is suitably organized to provide efficient and effective free library services to County residents under Chapter 323; and

WHEREAS, the County therefore desires to expend funds to assist City in with the expenses of establishing, operating and maintaining its free library in the County.

NOW THEREFORE, for and in good and valuable consideration the receipt and sufficiency of which are hereby acknowledged, the County and the City hereby agree as follows:

1. The County shall budget an estimated amount each year for the following fiscal year and allocate such amount from the County's General Fund as payment for various libraries of County of which City library is one. Such estimated amount will be allocated to County libraries in accordance with a formula established, reviewed and

approved by HCLS. This allocation formula shall be reviewed and approved annually at the beginning of the County fiscal year by HCLS meeting in regular-session. Funds disbursed to the City shall be in consideration for the City agreeing that the City's library will assume the functions of a county library within Hidalgo County. Funds disbursed to the City pursuant to this paragraph and HCLS provisions shall be used by City only for the City library to purchase contractual services and library materials, including but not limited to, books, supplies and services, Internet connectivity, electronic database services and connections, equipment and furnishings, and computer hardware and software.

2. The City agrees to maintain and operate its city library in accordance with the standards of the State of Texas, the State Library System Act and Local Government Code Chapter 323. The City specifically covenants to assure that the librarian of the City's library meets the minimum standards established by Texas State Library and Archives Commission ("State Library"), including any and all certification mandated by the State Library. The City further agrees to cooperate with the County in any programs, promotions or interlocal initiatives in furtherance of the purposes of HCLS.

3. The City agrees to supervise the activities and operation of its library and agrees to assume full responsibility and liability for any and all activities conducted under the terms of this Agreement.

4. The City library personnel shall not be entitled to any of the benefits of an employee of the County, including, but not limited to, County fringe benefits or the County Civil Service program.

5. This Agreement shall continue until December 31, 2014; or until amended, replaced or terminated in accordance with Chapter 323. Either party may terminate this Agreement by providing six (6) months' advance written notice to the other party. The parties agree that any property acquired under this Agreement is subject to division upon termination of this contract in accordance with Texas Local Government Code Section 323.011(c). Upon termination of this Agreement, any property acquired under this Agreement shall remain in the possession of the City in the City library and the City agrees to take any and all necessary measures to ensure that such property is safeguarded from theft and/or damage.

6. The City agrees to give County and its authorized representatives access to, and the right, to examine, excerpt and transcribe all books, accounts, records, reports, files and other papers, documents, things, or property belonging to or in use by the City in relation to its library operations for so long as such are maintained by City.

7. Conflict of Applicable Law: Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of their Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the

latter shall prevail, but in such event the affected provision(s) of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

8. No Waiver: No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

9. Entire Agreement: This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in writing executed by City and County, and not otherwise.

TEXAS LAW TO APPLY. THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATION OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

10. Notice. # MATERIAL SAFETY DATA SHEET

## 1. Product and Company Identification

| | |
|---|---|
| **Material name** | **UNLEADED GASOLINE** |
| **Version #** | 01 |
| **Revision date** | 10-23-2010 |
| **MSDS Number** | 002 |
| **Product use** | Motor fuels. |
| **Synonym(s)** | Regular/Premium/Midgrade - Unleaded Gasoline, RFG - Reformulated Unleaded Gasoline, Conventional Unleaded Gasoline, Oxygenated Unleaded Gasoline, Non-Oxygenated Unleaded Gasoline, CARB (California Air Resource Board) Unleaded Gasoline, RBOB - Reformulated Blendstock for Oxygenate Blending, CBOB - Conventional Blendstock for Oxygenate Blending, Petrol, Motor Fuel.<br>See section 16 for complete information. |
| **Manufacturer information** | Valero Marketing & Supply Company and Affiliates<br>P.O. Box 696000<br>San Antonio, TX 78269-6000<br>General Assistance 210-345-4593<br>24 Hour Emergency 866-565-5220<br>1-800-424-9300 (CHEMTREC USA) |

## 2. Hazards Identification

| | |
|---|---|
| **Physical state** | Liquid. |
| **Appearance** | Light straw to red clear liquid with characteristic strong odor of gasoline. |
| **Emergency overview** | DANGER!<br>Extremely flammable liquid and vapor - vapor may cause flash fire. Will be easily ignited by heat, spark or flames. Heat may cause the containers to explode.<br><br>Harmful if inhaled, absorbed through skin, or swallowed. Aspiration may cause lung damage. Irritating to eyes, respiratory system and skin. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea. Contains benzene. Cancer hazard - can cause cancer. Mutagen. May cause heritable genetic damage. May cause adverse reproductive effects - such as birth defects, miscarriages, or infertility. Toxic to aquatic organisms, may cause long-term adverse effects in the aquatic environment. |
| **OSHA regulatory status** | This product is considered hazardous under 29 CFR 1910.1200 (Hazard Communication). |
| **Potential health effects** | |
| **Routes of exposure** | Inhalation. Ingestion. Skin contact. Eye contact. |
| **Eyes** | Contact may irritate or burn eyes. Eye contact may result in corneal injury. |
| **Skin** | Harmful if absorbed through skin. Irritating to skin. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. |
| **Inhalation** | Harmful if inhaled. Irritating to respiratory system. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea. May cause breathing disorders and lung damage. May cause cancer by inhalation. Prolonged inhalation may be harmful. |
| **Ingestion** | Harmful if swallowed. Ingestion may result in vomiting; aspiration (breathing) of vomitus into lungs must be avoided as even small quantities may result in aspiration pneumonitis. Irritating to mouth, throat, and stomach. |
| **Target organs** | Blood. Eyes. Liver. Respiratory system. Skin. Kidneys. Central nervous system. |
| **Chronic effects** | Cancer hazard. Contains material which may have reproductive toxicity, teratogenetic or mutagenic effects. Liver injury may occur. Kidney injury may occur. May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion and blurred vision) and/or damage. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. |
| **Signs and symptoms** | Irritation of nose and throat. Irritation of eyes and mucous membranes. Skin irritation. Unconsciousness. Corneal damage. Narcosis. Cyanosis (blue tissue condition, nails, lips, and/or skin). Decrease in motor functions. Behavioral changes. Edema. Liver enlargement. Jaundice. Conjunctivitis. Proteinuria. Defatting of the skin. Rash. |
| **Potential environmental effects** | Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. |

## 3. Composition / Information on Ingredients

| Components | CAS # | Percent |
|---|---|---|
| Gasoline | 86290-81-5 | 0-100 |
| Toluene | 108-88-3 | 0-30 |
| Hexane (Other Isomers) | 96-14-0 | 5-25 |
| Xylene (o, m, p isomers) | 1330-20-7 | 0-25 |
| Octane (All isomers) | 111-65-9 | 0-18.5 |
| Ethanol | 64-17-5 | 0-10 |
| 1,2,4, Trimethylbenzene | 95-63-6 | 0-6 |
| n-Heptane | 142-82-5 | 1-5 |
| Pentane | 109-66-0 | 1-5 |
| Cumene | 98-82-8 | 0-5 |
| Ethylbenzene | 100-41-4 | 0-5 |
| Benzene | 71-43-2 | 0-4.9 |
| n-Hexane | 110-54-3 | 0-3 |
| Cyclohexane | 110-82-7 | 0-3 |

## 4. First Aid Measures

**First aid procedures**

**Eye contact** — Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention.

**Skin contact** — Remove contaminated clothing and shoes. Wash off immediately with soap and plenty of water. Get medical attention if irritation develops or persists. Wash clothing separately before reuse. Destroy or thoroughly clean contaminated shoes. If high pressure injection under the skin occurs, always seek medical attention.

**Inhalation** — Move to fresh air. If breathing is difficult, give oxygen. If not breathing, give artificial respiration. Get medical attention.

**Ingestion** — Rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. Do not give mouth-to-mouth resuscitation. If vomiting occurs, keep head low so that stomach content does not get into the lungs. Get medical attention immediately.

**Notes to physician** — In case of shortness of breath, give oxygen. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

**General advice** — If exposed or concerned: get medical attention/advice. Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show this safety data sheet to the doctor in attendance. Wash contaminated clothing before re-use.

## 5. Fire Fighting Measures

**Flammable properties** — Flammable by OSHA criteria. Containers may explode when heated.

**Extinguishing media**

**Suitable extinguishing media** — Water spray. Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

**Unsuitable extinguishing media** — Do not use a solid water stream as it may scatter and spread fire.

**Protection of firefighters**

**Specific hazards arising from the chemical** — Vapor may cause flash fire. Vapors can flow along surfaces to distant ignition source and flash back. Sensitive to static discharge.

**Protective equipment and precautions for firefighters** — Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask.

| | |
|---|---|
| **Fire fighting equipment/instructions** | Wear full protective clothing, including helmet, self-contained positive pressure or pressure demand breathing apparatus, protective clothing and face mask. Withdraw immediately in case of rising sound from venting safety devices or any discoloration of tanks due to fire. Fight fire from maximum distance or use unmanned hose holders or monitor nozzles. Move containers from fire area if you can do it without risk. In the event of fire, cool tanks with water spray. Cool containers exposed to flames with water until well after the fire is out. For massive fire, use unmanned hose holders or monitor nozzles; if this is impossible, withdraw from area and let fire burn. Vapors may form explosive air mixtures even at room temperature. Prevent buildup of vapors or gases to explosive concentrations. Some of these materials, if spilled, may evaporate leaving a flammable residue. Water runoff can cause environmental damage. Use compatible foam to minimize vapor generation as needed. |
| **Specific methods** | In the event of fire and/or explosion do not breathe fumes. Use water spray to cool unopened containers. |
| **Hazardous combustion products** | Carbon monoxide. Carbon Dioxide. Sulfur oxides. Nitrogen oxides (NOx). Hydrocarbons. |

## 6. Accidental Release Measures

| | |
|---|---|
| **Personal precautions** | Keep unnecessary personnel away. Local authorities should be advised if significant spills cannot be contained. Keep upwind. Keep out of low areas. Ventilate closed spaces before entering. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. See Section 8 of the MSDS for Personal Protective Equipment. |
| **Environmental precautions** | Gasoline may contain oxygenated blend products (Ethanol, etc.) that are soluble in water and therefore precautions should be taken to protect surface and groundwater sources from contamination. If facility or operation has an "oil or hazardous substance contingency plan", activate its procedures. Stay upwind and away from spill. Wear appropriate protective equipment including respiratory protection as conditions warrant. Do not enter or stay in area unless monitoring indicates that it is safe to do so. Isolate hazard area and restrict entry to emergency crew. Extremely flammable. Review Fire Fighting Measures, Section 5, before proceeding with clean up. Keep all sources of ignition (flames, smoking, flares, etc.) and hot surfaces away from release. Contain spill in smallest possible area. Recover as much product as possible (e.g. by vacuuming). Stop leak if it can be done without risk. Use water spray to disperse vapors. Use compatible foam to minimize vapor generation as needed. Spilled material may be absorbed by an appropriate absorbent, and then handled in accordance with environmental regulations. Prevent spilled material from entering sewers, storm drains, other unauthorized treatment or drainage systems and natural waterways. Contact fire authorities and appropriate federal, state and local agencies. If spill of any amount is made into or upon navigable waters, the contiguous zone, or adjoining shorelines, contact the National Response Center at 1-800-424-8802. For highway or railways spills, contact Chemtrec at 1-800-424-9300. |
| **Methods for containment** | Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Stop leak if you can do so without risk. This material is a water pollutant and should be prevented from contaminating soil or from entering sewage and drainage systems and bodies of water. Dike the spilled material, where this is possible. Prevent entry into waterways, sewers, basements or confined areas. |
| **Methods for cleaning up** | Use non-sparking tools and explosion-proof equipment.<br><br>Small Spills: Absorb spill with vermiculite or other inert material, then place in a container for chemical waste. Clean surface thoroughly to remove residual contamination. This material and its container must be disposed of as hazardous waste.<br><br>Large Spills: Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Prevent product from entering drains. Do not allow material to contaminate ground water system. Should not be released into the environment. |
| **Other information** | Clean up in accordance with all applicable regulations. |

## 7. Handling and Storage

| | |
|---|---|
| **Handling** | Wear personal protective equipment. Do not breathe dust/fume/gas/mist/vapors/spray. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Avoid prolonged exposure. Use only with adequate ventilation. Wash thoroughly after handling. The product is extremely flammable, and explosive vapor/air mixtures may be formed even at normal room temperatures. DO NOT handle, store or open near an open flame, sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. When using, do not eat, drink or smoke. Avoid release to the environment. |

**Storage**

Flammable liquid storage. Do not handle or store near an open flame, heat or other sources of ignition. This material can accumulate static charge which may cause spark and become an ignition source. The pressure in sealed containers can increase under the influence of heat. Keep container tightly closed in a cool, well-ventilated place. Keep away from food, drink and animal feedingstuffs. Keep out of the reach of children.

## 8. Exposure Controls / Personal Protection

### Occupational exposure limits

**US. ACGIH Threshold Limit Values**

| Components | Type | Value |
|---|---|---|
| 1,2,4, Trimethylbenzene (95-63-6) | TWA | 25 ppm |
| Benzene (71-43-2) | STEL | 2.5 ppm |
| | TWA | 0.5 ppm |
| Cumene (98-82-8) | TWA | 50 ppm |
| Cyclohexane (110-82-7) | TWA | 100 ppm |
| Ethanol (64-17-5) | STEL | 1000 ppm |
| Ethylbenzene (100-41-4) | STEL | 125 ppm |
| | TWA | 100 ppm |
| Gasoline (86290-81-5) | STEL | 500 ppm |
| | TWA | 300 ppm |
| Hexane (Other Isomers) (96-14-0) | STEL | 1000 ppm |
| | TWA | 500 ppm |
| n-Heptane (142-82-5) | STEL | 500 ppm |
| | TWA | 400 ppm |
| n-Hexane (110-54-3) | TWA | 50 ppm |
| Octane (All isomers) (111-65-9) | TWA | 300 ppm |
| Pentane (109-66-0) | TWA | 600 ppm |
| Toluene (108-88-3) | TWA | 20 ppm |
| Xylene (o, m, p isomers) (1330-20-7) | STEL | 150 ppm |
| | TWA | 100 ppm |

**US. OSHA Table Z-2 (29 CFR 1910.1000)**

| Components | Type | Value |
|---|---|---|
| Benzene (71-43-2) | Ceiling | 25 ppm |
| | STEL | 5 ppm |
| | TWA | 1 ppm |
| Cumene (98-82-8) | PEL | 50 ppm<br>245 mg/m3 |

**Engineering controls** Provide adequate general and local exhaust ventilation. Use process enclosures, local exhaust ventilation, or other engineering controls to control airborne levels below recommended exposure limits. Use explosion-proof equipment.

**Personal protective equipment**

**Eye / face protection** Wear safety glasses. If splash potential exists, wear full face shield or chemical goggles.

**Skin protection** Wear chemical-resistant, impervious gloves. Full body suit and boots are recommended when handling large volumes or in emergency situations. Flame retardant protective clothing is recommended.

**Respiratory protection** Use a properly fitted, air-purifying or air-fed respirator complying with an approved standard if a risk assessment indicates this is necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator. If workplace exposure limits for product or components are exceeded, NIOSH approved equipment should be worn. Proper respirator selection should be determined by adequately trained personnel, based on the contaminants, the degree of potential exposure and published respiratory protection factors. This equipment should be available for nonroutine and emergency use.

**General hygiene considerations** Consult supervisor for special handling instructions. Avoid contact with eyes. Avoid contact with skin. Keep away from food and drink. Wash hands before breaks and immediately after handling the product. Provide eyewash station and safety shower. Handle in accordance with good industrial hygiene and safety practice.

## 9. Physical & Chemical Properties

**Appearance** Light straw to red clear liquid with characteristic strong odor of gasoline.

**Color** Light straw to red clear.

**Odor** Characteristic Gasoline Odor (Strong).

**Odor threshold** Not available.

**Physical state** Liquid.

**Form** Liquid.

**pH** Not available.

**Melting point** Not available.

**Freezing point** 44 °F (6.67 °C) May start to solidify at this temperature. This is based on data for the following ingredient: Cyclohexane. Weighted average: -91.9 deg C (-133.4 deg F)

**Boiling point** 80.1 - 440.1 °F (26.7 - 226.7 °C)

**Flash point** -40 °F (-40 °C) (closed cup)

**Evaporation rate** 10 - 11 BuAc

**Flammability limits in air, upper, % by volume** 7.1 %

| | |
|---|---|
| **Flammability limits in air, lower, % by volume** | 1.3 % |
| **Vapor pressure** | 60.8 - 101.3 kPa (20°C) |
| **Vapor density** | 3 - 4 (Air=1) |
| **Specific gravity** | 0.66 - 0.75 (Water=1) (60°F) |
| **Solubility (water)** | Very slightly soluble. |
| **Partition coefficient (n-octanol/water)** | Not available. |
| **Auto-ignition temperature** | > 500 °F (> 260 °C) |
| **Decomposition temperature** | Not available. |
| **VOC** | 100 % |

## 10. Chemical Stability & Reactivity Information

| | |
|---|---|
| **Chemical stability** | Stable under normal temperature conditions and recommended use. |
| **Conditions to avoid** | Heat, flames and sparks. Ignition sources. Contact with incompatible materials. Do not pressurize, cut, weld, braze, solder, drill, grind or expose empty containers to heat, flame, sparks, static electricity, or other sources of ignition; they may explode and cause injury or death. |
| **Incompatible materials** | Strong oxidizing agents. |
| **Hazardous decomposition products** | Carbon oxides. Sulfur oxides. Nitrogen oxides (NOx). Hydrocarbons. |
| **Possibility of hazardous reactions** | Hazardous polymerization does not occur. |

## 11. Toxicological Information

**Toxicological data**

| Components | Test Results |
|---|---|
| Ethylbenzene (100-41-4) | Acute Dermal LD50 Rabbit: > 5000 mg/kg |
| Toluene (108-88-3) | Acute Oral LD50 Rat: 3500 mg/kg<br>Acute Oral LD50 Rat: 5.46 g/kg<br>Acute Dermal LD50 Rabbit: 14.1 ml/kg |
| Pentane (109-66-0) | Acute Inhalation LC50 Rat: 8000 mg/l 4 Hours<br>Acute Oral LD50 Rat: 2.6 g/kg<br>Acute Inhalation LC50 Rat: 364 mg/l 4 Hours |
| Cyclohexane (110-82-7) | Acute Oral LD50 Rat: 12705 mg/kg |
| Octane (All isomers) (111-65-9) | Acute Inhalation LC50 Rat: 118 mg/l 4 Hours |
| Xylene (o, m, p isomers) (1330-20-7) | Acute Oral LD50 Mouse: 1590 mg/kg |
| n-Heptane (142-82-5) | Acute Oral LD50 Rat: 6670 mg/kg<br>Acute Inhalation LC50 Rat: 103 mg/l 4 Hours |
| Ethanol (64-17-5) | Acute Inhalation LC50 Rat: 20000 ppm 10 hr |
| Benzene (71-43-2) | Acute Oral LD50 Rat: 6.2 g/kg<br>Acute Oral LD50 Rat: 3306 mg/kg |
| 1,2,4, Trimethylbenzene (95-63-6) | Acute Dermal LD50 Rabbit: > 3160 mg/kg |
| Cumene (98-82-8) | Acute Inhalation LC50 Rat: > 2000 mg/l 48 Hours<br>Acute Oral LD50 Rat: 6 g/kg<br>Acute Inhalation LC50 Mouse: 2000 mg/l 7 Hours |
| | Acute Inhalation LC50 Rat: 8000 mg/l 4 Hours<br>Acute Oral LD50 Rat: 1400 mg/kg<br>Acute Oral LD50 Rat: 2.91 g/kg |

**Acute effects** Harmful if inhaled, absorbed through skin, or swallowed. Harmful: may cause lung damage if swallowed. Irritating to eyes, respiratory system and skin. In high concentrations, vapors and spray mists are narcotic and may cause headache, fatigue, dizziness and nausea.

**Local effects**

**US ACGIH Threshold Limit Values: Skin designation**

| | |
|---|---|
| Benzene (CAS 71-43-2) | Can be absorbed through the skin. |
| n-Hexane (CAS 110-54-3) | Can be absorbed through the skin. |

**Sensitization**

This substance may have a potential for sensitization which may provoke an allergic reaction among sensitive individuals.

**Chronic effects**

Repeated exposure of laboratory animals to high concentrations of gasoline vapors has caused kidney damage and cancer in rats and cancer in mice. Gasoline was evaluated for genetic activity in assays using microbial cells, cultured mammalian cells and rat bone marrow cells. The results were all negative so gasoline was considered nonmutagenic under these conditions. Overexposure to this product or its components has been suggested as a cause of liver abnormalities in laboratory animals and humans. Lifetime studies by the American Petroleum Institute have shown that kidney damage and kidney cancer can occur in male rats after prolonged inhalation exposures at elevated concentrations of total gasoline. Kidneys of mice and female rats were unaffected. The U.S. EPA Risk Assessment Forum has concluded that the male rat kidney tumor results are not relevant for humans. Total gasoline exposure also produced liver tumors in female mice only. The implication of these data for humans has not been determined.

**Subchronic effects**

Subchronic inhalation of benzene by rats produced decreased white blood cell counts, decreased bone marrow cell activity, increased red blood cell activity and cataracts. Blood disorders may occur after prolonged inhalation, prolonged skin contact and/or ingestion. Liver and kidney damage may occur after prolonged and repeated exposure.

**Carcinogenicity**

**ACGIH Carcinogens**

| | |
|---|---|
| Benzene (CAS 71-43-2) | A1 Confirmed human carcinogen. |
| Ethanol (CAS 64-17-5) | A3 Confirmed animal carcinogen with unknown relevance to humans. |
| Ethylbenzene (CAS 100-41-4) | A3 Confirmed animal carcinogen with unknown relevance to humans. |
| Gasoline (CAS 86290-81-5) | A3 Confirmed animal carcinogen with unknown relevance to humans. |
| Toluene (CAS 108-88-3) | A4 Not classifiable as a human carcinogen. |
| Xylene (o, m, p isomers) (CAS 1330-20-7) | A4 Not classifiable as a human carcinogen. |

**IARC Monographs. Overall Evaluation of Carcinogenicity**

| | |
|---|---|
| Benzene (CAS 71-43-2) | 1 Carcinogenic to humans. |
| Ethylbenzene (CAS 100-41-4) | 2B Possibly carcinogenic to humans. |
| Gasoline (CAS 86290-81-5) | 2B Possibly carcinogenic to humans. |
| Toluene (CAS 108-88-3) | 3 Not classifiable as to carcinogenicity to humans. |
| Xylene (o, m, p isomers) (CAS 1330-20-7) | 3 Not classifiable as to carcinogenicity to humans. |

**US NTP Report on Carcinogens: Known carcinogen**

| | |
|---|---|
| Benzene (CAS 71-43-2) | Known carcinogen. |

**US OSHA Specifically Regulated Substances: Cancer hazard**

| | |
|---|---|
| Benzene (CAS 71-43-2) | Cancer hazard. |

**Epidemiology**

Contains benzene. Human epidemiology studies indicate that prolonged and/or repeated overexposure to benzene may cause damage to the blood-producing system and serious blood disorders, including leukemia. Animal tests suggest that prolonged and/or repeated overexposure to benzene may damage the embryo/fetus. The relevance of these animal studies to humans has not been fully established. Studies have shown a risk of spontaneous abortions in women exposed to high concentrations of organic solvents during pregnancy.

**Mutagenicity**

In in-vitro experiments, neither benzene, toluene nor xylene changed the number of sister-chromatid exchanges (SCEs) or the number of chromosomal aberrations in human lymphocytes. However, toluene and xylene caused a significant cell growth inhibition which was not observed with benzene in the same concentrations. In in-vivo experiments, toluene changed the number of sister-chromatid exchanges (SCEs) in human lymphocytes. Toluene may cause heritable genetic damage.

**Neurological effects**

Chronic exposure to high concentrations of various hydrocarbon blends may lead to polyneuropathy (peripheral nerve damage), characterized by progressive weakness and numbness in the extremities, loss of deep tendon reflexes and reduction of motor nerve conduction velocity. Numerous cases of polyneuritis have been reported following prolonged exposures to a petroleum fraction containing various isomers of heptane as major ingredients. May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue) and/or damage.

| | |
|---|---|
| **Reproductive effects** | Benzene, xylene and toluene have demonstrated animal effects of reproductive toxicity. Animal studies of benzene have shown testicular effects, alterations in reproductive cycles, chromosomal aberrations and embryo/fetotoxicity. Ethanol has demonstrated human effects of reproductive toxicity. May damage fertility or the unborn child. Can cause adverse reproductive effects - such as birth defects, miscarriages, or infertility. Avoid exposure to women during early pregnancy. Avoid contact during pregnancy/while nursing. |
| **Teratogenicity** | Abusive inhalation of toluene ("glue sniffing") has been reported to be associated with birth defects in the offspring of abusers. Rats exposed to benzene and xylene vapor during pregnancy showed embryo/fetotoxic effects. Ethanol has demonstrated human effects of teratogenicity. |
| **Further information** | Symptoms may be delayed. |

## 12. Ecological Information

**Ecotoxicological data**

| Components | Test Results |
|---|---|
| Ethylbenzene (100-41-4) | LC50 Rainbow trout,donaldson trout (Oncorhynchus mykiss): 4.2 mg/l 96 hours |
| Toluene (108-88-3) | LC50 Coho salmon,silver salmon (Oncorhynchus kisutch): 5.5 mg/l 96 hours |
| n-Hexane (110-54-3) | LC50 Fathead minnow (Pimephales promelas): 2.101 - 2.981 mg/l 96 hours |
| Cyclohexane (110-82-7) | LC50 Fathead minnow (Pimephales promelas): 3.961 - 5.181 mg/l 96 hours |
| n-Heptane (142-82-5) | LC50 Mozambique tilapia (Tilapia mossambica): 375 mg/l 96 hours |
| Ethanol (64-17-5) | EC50 Water flea (Daphnia magna): 7.7 - 11.2 mg/l 48 hours |
| | LC50 Fathead minnow (Pimephales promelas): > 100 mg/l 96 hours |
| Benzene (71-43-2) | LC50 Rainbow trout,donaldson trout (Oncorhynchus mykiss): 5.3 mg/l 96 hours |
| 1,2,4, Trimethylbenzene (95-63-6) | LC50 Fathead minnow (Pimephales promelas): 7.19 - 8.28 mg/l 96 hours |
| Cumene (98-82-8) | LC50 Rainbow trout,donaldson trout (Oncorhynchus mykiss): 2.7 mg/l 96 hours |

| | |
|---|---|
| **Ecotoxicity** | Contains a substance which causes risk of hazardous effects to the environment. |
| **Environmental effects** | The product contains a substance which is toxic to aquatic organisms and which may cause long-term adverse effects in the aquatic environment. |
| **Aquatic toxicity** | Toxic to aquatic organisms. May cause long-term adverse effects in the aquatic environment. |
| **Persistence and degradability** | Not available. |
| **Bioaccumulation / Accumulation** | No data available. |
| **Partition coefficient (n-octanol/water)** | Not available. |
| **Mobility in environmental media** | No data available. |

## 13. Disposal Considerations

| | |
|---|---|
| **Waste codes** | D001: Waste Flammable material with a flash point <140 °F<br>D018: Waste Benzene |
| **Disposal instructions** | Dispose in accordance with all applicable regulations. Dispose of this material and its container to hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways or ditches with chemical or used container. |

## 14. Transport Information

**DOT**

**Basic shipping requirements:**

| | |
|---|---|
| **UN number** | UN1203 |
| **Proper shipping name** | Gasoline |

| | |
|---|---|
| **Hazard class** | 3 |
| **Packing group** | II |
| **Labels required** | 3 |
| **Additional information:** | |
| **Special provisions** | 139, B33, B101, T8 |
| **Packaging exceptions** | 150 |
| **Packaging non bulk** | 202 |
| **Packaging bulk** | 242 |
| **ERG number** | 128 |

**IATA**

| | |
|---|---|
| **Basic shipping requirements:** | |
| **UN number** | 1203 |
| **Proper shipping name** | Gasoline |
| **Hazard class** | 3 |
| **Packing group** | II |
| **Additional information:** | |
| **ERG code** | 3H |

**IMDG**

| | |
|---|---|
| **Basic shipping requirements:** | |
| **UN number** | 1203 |

## 15. Regulatory Information

**US federal regulations**

This product is a "Hazardous Chemical" as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200.
All components are on the U.S. EPA TSCA Inventory List.

**US TSCA Section 12(b) Export Notification: Export Notification requirement/De minimis concentration**

| | |
|---|---|
| n-Heptane (CAS 142-82-5) | 1.0 % One-Time Export Notification only. |
| Pentane (CAS 109-66-0) | 1.0 % One-Time Export Notification only. |

**US EPCRA (SARA Title III) Section 313 - Toxic Chemical: De minimis concentration**

| | |
|---|---|
| 1,2,4, Trimethylbenzene (CAS 95-63-6) | 1.0 % |
| Benzene (CAS 71-43-2) | 0.1 % |
| Cumene (CAS 98-82-8) | 1.0 % |
| Cyclohexane (CAS 110-82-7) | 1.0 % |
| Ethylbenzene (CAS 100-41-4) | 0.1 % |
| n-Hexane (CAS 110-54-3) | 1.0 % |
| Toluene (CAS 108-88-3) | 1.0 % |
| Xylene (o, m, p isomers) (CAS 1330-20-7) | 1.0 % |

**US EPCRA (SARA Title III) Section 313 - Toxic Chemical: Listed substance**

| | |
|---|---|
| 1,2,4, Trimethylbenzene (CAS 95-63-6) | Listed. |
| Benzene (CAS 71-43-2) | Listed. |

|---|---|
| Benzene (CAS 71-43-2) | Special hazard. |

## 16. Other Information

**Further information**

HMIS® is a registered trade and service mark of the NPCA.

**Other information**

Note: This Material Safety Data Sheet applies to the listed products and synonym descriptions for Hazard Communication purposes only. Technical Specifications vary greatly depending on the products and are not reflected in this document. Consult specification sheets for technical information.

**HMIS® ratings**

Health: 2*
Flammability: 3
Physical hazard: 0

**NFPA ratings**

Health: 1
Flammability: 3
Instability: 0

**Disclaimer**

This Material Safety Data Sheet (MSDS) was prepared in accordance with 29 CFR 1910.1200 by Valero Marketing & Supply Co., ("VALERO"). VALERO does not assume any liability arising out of product use by others. The information, recommendations, and suggestions presented in this MSDS are based upon test results and data believed to be reliable. The end user of the product has the responsibility for evaluating the adequacy of the data under the conditions of use, determining the safety, toxicity and suitability of the product under these conditions, and obtaining additional or clarifying information where uncertainty exists. No guarantee expressed or implied is made as to the effects of such use , the results to be obtained, or the safety and toxicity of the product in any specific application. Furthermore, the information herein is not represented as absolutely complete, since it is not practicable to provide all the scientific and study information in the format of this document, plus additional information may be necessary under exceptional conditions of use, or because of applicable laws or government regulations.

**Issue date**

10-23-2010

# No. 2 Diesel Fuel

**Safety Data Sheet**

## Section 1: Identification of the substance or mixture and of the supplier

| | |
|---|---|
| **Product Name:** | No. 2 Diesel Fuel |
| **SDS Number:** | 001847 |
| **Synonyms/Other Means of Identification:** | CARB Diesel TF3; CARB Diesel; CARB Diesel 10%; CARB Diesel Ultra Low Sulfur - Dyed and Undyed; EPA Low Sulfur Diesel Fuel - Dyed and Undyed; EPA Off Road High Sulfur Diesel - Dyed; High Sulfur Diesel Fuel; Low Sulfur Diesel Fuel; No. 2 Diesel Fuel Oil; No. 2 High Sulfur Diesel - Dyed; No. 2 Low Sulfur Diesel - Dyed; No. 2 Low Sulfur Diesel - Undyed; No. 2 Low Sulfur Distillate; No. 2 Diesel with Renewable Diesel; No. 2 Ultra Low Sulfur Diesel - Dyed; No. 2 Ultra Low Sulfur Diesel - Undyed; Super Diesel Fuel; Super Diesel Fuel II-LS; Virgin Diesel Fuel; No. 2 Distillate; ULSD; Super Diesel Fuel; Super Diesel Fuel II-LS; Virgin Diesel Fuel; Distillate Blend Stock;#2 DSL ULS 15 NRLM D<br>Fuels, Diesel |
| **MARPOL Annex I Category:** | Gas Oils, Including Ship's Bunkers |
| **Intended Use:** | Fuel |
| **Manufacturer:** | ConocoPhillips<br>600 N. Dairy Ashford<br>Houston, Texas 77079-1175 |
| **Emergency Health and Safety Number:** | Chemtrec: 800-424-9300 (24 Hours) |
| **Customer Service:** | 800-527-5476 |

## Section 2: Hazard(s) Identification

**DANGER**

**NFPA**

**Flammable liquid and vapor. (H226)***
**Causes skin irritation. (H315)***
**May be fatal if swallowed and enters airways. (H304)***
**Harmful if inhaled. (H332)***
**May cause damage to organs through prolonged or repeated exposure. (H373)***
**Suspected of causing cancer. (H351)***
**Very toxic to aquatic life with long lasting effects. (H410)***

**Precautionary Statement(s):**
Obtain special instructions before use. (P201)*
Keep away from heat/sparks/open flames/hot surfaces. - No smoking. (P210)*
Do not breathe vapors or mists. (P260)*
IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician. (P301+P310)*
Do NOT induce vomiting. (P331)*
Dispose of contents/container to approved disposal facility. (P501)*

** (Applicable GHS hazard code.)*

## Section 3: Composition / Information on Ingredients

| Component | CASRN | Concentration[1] |
|---|---|---|
| Diesel Fuel No. 2 | 68476-34-6 | 95-100 |
| Renewable Diesel | Proprietary | 0-5 |
| Naphthalene | 91-20-3 | <1 |

**Total Sulfur:** < 0.1 wt%

[1] All concentrations are percent by weight unless ingredient is a gas. Gas concentrations are in percent by volume.

## Section 4: First Aid Measures

**Eye Contact:** If irritation or redness develops from exposure, flush eyes with clean water. If symptoms persist, seek medical attention.

**Skin Contact:** Remove contaminated shoes and clothing, and flush affected area(s) with large amounts of water. If skin surface is damaged, apply a clean dressing and seek medical attention. If skin surface is not damaged, cleanse affected area(s) thoroughly by washing with mild soap and water or a waterless hand cleaner. If irritation or redness develops, seek medical attention. Wash contaminated clothing before reuse. If product is injected into or under the skin, or into any part of the body, regardless of the appearance of the wound or its size, the individual should be evaluated immediately by a physician. (see Note to Physician)

**Inhalation (Breathing):** If respiratory symptoms or other symptoms of exposure develop, move victim away from source of exposure and into fresh air in a position comfortable for breathing. If symptoms persist, seek immediate medical attention. If victim is not breathing, clear airway and immediately begin artificial respiration. If breathing difficulties develop, oxygen should be administered by qualified personnel. Seek immediate medical attention.

**Ingestion (Swallowing):** Aspiration hazard: Do not induce vomiting or give anything by mouth because this material can enter the lungs and cause severe lung damage. If victim is drowsy or unconscious and vomiting, place on the left side with the head down. If possible, do not leave victim unattended and observe closely for adequacy of breathing. Seek medical attention.

**Notes to Physician:** When using high-pressure equipment, injection of product under the skin can occur. In this case , the casualty should be sent immediately to hospital. Do not wait for symptoms to develop. High-pressure hydrocarbon injection injuries may produce substantial necrosis of underlying tissue despite an innocuous appearing external wound. These injuries often require extensive emergency surgical debridement and all injuries should be evaluated by a specialist in order to assess the extent of injury. Early surgical treatment within the first few hours may significantly reduce the ultimate extent of injury.

**Medical Conditions Aggravated by Exposure:** Conditions which may be aggravated by exposure include skin disorders, blood disorders, liver disorders and immune system disorders.

## Section 5: Fire-Fighting Measures

**NFPA 704 Hazard Class**

**Health:** 1 **Flammability:** 2 **Instability:** 0 (0-Minimal, 1-Slight, 2-Moderate, 3-Serious, 4-Severe)

**Unusual Fire & Explosion Hazards:** Flammable. This material can be ignited by heat, sparks, flames, or other sources of ignition (e.g., static electricity, pilot lights, mechanical/electrical equipment, and electronic devices such as cell phones, computers, calculators, and pagers which have not been certified as intrinsically safe). Vapors may travel considerable distances to a source of ignition where they can ignite, flash back, or explode. May create vapor/air explosion hazard indoors, in confined spaces, outdoors, or in sewers. This product will float and can be reignited on surface water. Vapors are heavier than air and can accumulate in low areas. If container is not properly cooled, it can rupture in the heat of a fire.

**Extinguishing Media:** Dry chemical, carbon dioxide, or foam is recommended. Water spray is recommended to cool or protect exposed materials or structures. Carbon dioxide can displace oxygen. Use caution when applying carbon dioxide in confined spaces. Simultaneous use of foam and water on the same surface is to be avoided as water destroys the foam. Water may be ineffective for extinguishment, unless used under favorable conditions by experienced fire fighters.

**Fire Fighting Instructions:** For fires beyond the initial stage, emergency responders in the immediate hazard area should wear protective clothing. When the potential chemical hazard is unknown, in enclosed or confined spaces, a self contained breathing apparatus should be worn. In addition, wear other appropriate protective equipment as conditions warrant (see Section 8).

Isolate immediate hazard area and keep unauthorized personnel out. Stop spill/release if it can be done safely. Move undamaged containers from immediate hazard area if it can be done safely. Water spray may be useful in minimizing or dispersing vapors and to protect personnel. Cool equipment exposed to fire with water, if it can be done safely. Avoid spreading burning liquid with water used for cooling purposes.

**Hazardous Combustion Products:** Combustion may yield smoke, carbon monoxide, and other products of incomplete combustion. Oxides of nitrogen and sulfur may also be formed.

**See Section 9 for Flammable Properties including Flash Point and Flammable (Explosive) Limits**

## Section 6: Accidental Release Measures

**Personal Precautions:** Flammable. Spillages of liquid product will create a fire hazard and may form an explosive atmosphere. Keep all sources of ignition and hot metal surfaces away from spill/release if safe to do so. The use of explosion-proof electrical equipment is recommended. Stay upwind and away from spill/release. Avoid direct contact with material. For large spillages, notify persons down wind of the spill/release, isolate immediate hazard area and keep unauthorized personnel out. Wear appropriate protective equipment, including respiratory protection, as conditions warrant (see Section 8). See Sections 2 and 7 for additional information on hazards and precautionary measures.

**Environmental Precautions:** Stop spill/release if it can be done safely. Prevent spilled material from entering sewers, storm drains, other unauthorized drainage systems, and natural waterways. Use foam on spills to minimize vapors. Use water sparingly to minimize environmental contamination and reduce disposal requirements. If spill occurs on water notify appropriate authorities and advise shipping of any hazard. Spills into or upon navigable waters, the contiguous zone, or adjoining shorelines that cause a sheen or discoloration on the surface of the water, may require notification of the National Response Center (phone number 800-424-8802).

**Methods for Containment and Clean-Up:** Notify relevant authorities in accordance with all applicable regulations. Immediate cleanup of any spill is recommended. Dike far ahead of spill for later recovery or disposal. Absorb spill with inert material such as sand or vermiculite, and place in suitable container for disposal. If spilled on water remove with appropriate methods (e.g. skimming, booms or absorbents). In case of soil contamination, remove contaminated soil for remediation or disposal, in accordance with local regulations.

Recommended measures are based on the most likely spillage scenarios for this material; however local conditions and regulations may influence or limit the choice of appropriate actions to be taken.

## Section 7: Handling and Storage

**Precautions for safe handling:** Keep away from ignition sources such as heat/sparks/open flame – No smoking. Take precautionary measures against static discharge. Nonsparking tools should be used. Obtain special instructions before use. Do not handle until all safety precautions have been read and understood. Do not breathe vapors or mists. Use only outdoors or in well-ventilated area. Wear protective gloves/clothing and eye/face protection. Wash thoroughly after handling. Use good personal hygiene practices and wear appropriate personal protective equipment (see section 8).

Flammable. May vaporize easily at ambient temperatures. The vapor is heavier than air and may create an explosive mixture of vapor and air. Beware of accumulation in confined spaces and low lying areas. Open container slowly to relieve any pressure. Electrostatic charge may accumulate and create a hazardous condition when handling or processing this material. To avoid fire or explosion, dissipate static electricity during transfer by grounding and bonding containers and equipment before transferring material. The use of explosion-proof electrical equipment is recommended and may be required (see appropriate fire codes). Refer to NFPA-70 and/or API RP 2003 for specific bonding/grounding requirements. Do not enter confined spaces such as tanks or pits without following proper entry procedures such as ASTM D-4276 and 29CFR 1910.146. Do not wear contaminated clothing or shoes. Keep contaminated clothing away from sources of ignition such as sparks or open flames.

High pressure injection of hydrocarbon fuels, hydraulic oils or greases under the skin may have serious consequences even though no symptoms or injury may be apparent. This can happen accidentally when using high pressure equipment such as high pressure grease guns, fuel injection apparatus or from pinhole leaks in tubing of high pressure hydraulic oil equipment.

For use as a motor fuel only. Do not use as a solvent due to its flammable and potentially toxic properties. Siphoning by mouth can result in lung aspiration which can be harmful or fatal.

The use of hydrocarbon fuel in an area without adequate ventilation may result in hazardous levels of incomplete combustion products (e.g. carbon monoxide, oxides of sulfur and nitrogen, benzene and other hydrocarbons) and/or dangerously low oxygen levels.

Diesel engine exhaust contains hazardous combustion products and has been classified as a probable cancer hazard in humans.

Static Accumulation Hazard: Electrostatic charge may accumulate and create a hazardous condition when handling this material. To minimize this hazard, bonding and grounding of tanks, transfer piping, and storage tank level floats are necessary but may not, by themselves, be sufficient. Review all operations which have the potential of generating and accumulating an electrostatic charge and/or a flammable atmosphere (including tank and container filling, splash filling, tank cleaning, sampling, gauging, switch loading, filtering, mixing, agitation, and vacuum truck operations) and use appropriate mitigating procedures. Special care should be given to ensure that special slow load procedures for "switch loading" are followed to avoid the static ignition hazard that can exist when higher flash point material (such as fuel oil or diesel) is loaded into tanks previously containing low flash point products (such as gasoline or naphtha). For more information, refer to OSHA Standard 29 CFR 1910.106, 'Flammable and Combustible Liquids', National Fire Protection Association (NFPA 77, 'Recommended Practice on Static Electricity', and/or the American Petroleum Institute (API) Recommended Practice 2003, 'Protection Against Ignitions Arising Out of Static, Lightning, and Stray Currents'.

**Conditions for safe storage:** Keep container(s) tightly closed and properly labeled. Use and store this material in cool, dry, well-ventilated areas away from heat, direct sunlight, hot metal surfaces, and all sources of ignition. Store only in approved containers. Post area "No Smoking or Open Flame." Keep away from any incompatible material (see Section 10). Protect container(s) against physical damage. Outdoor or detached storage is preferred. Indoor storage should meet OSHA standards and appropriate fire codes.

"Empty" containers retain residue and may be dangerous. Do not pressurize, cut, weld, braze, solder, drill, grind, or expose such containers to heat, flame, sparks, or other sources of ignition. They may explode and cause injury or death. "Empty" drums should be completely drained, properly bunged, and promptly shipped to the supplier or a drum reconditioner. All containers should be disposed of in an environmentally safe manner and in accordance with governmental regulations. Before working on or in tanks which contain or have contained this material, refer to OSHA regulations, ANSI Z49.1, and other references pertaining to cleaning, repairing, welding, or other contemplated operations.

## Section 8: Exposure Controls / Personal Protection

| Component | ACGIH | OSHA | Other |
|---|---|---|---|
| Diesel Fuel No. 2 | TWA: 100 mg/m$^3$ | --- | --- |
| Naphthalene | STEL: 15 ppm | TWA: 10 ppm<br>TWA: 50 mg/m$^3$ | TWA: 0.2 mg/m$^3$ (as total of 17 PNA's measured by NIOSH Method 5506) (ConocoPhillips Guidelines) |

**Note: State, local or other agencies or advisory groups may have established more stringent limits. Consult an industrial hygienist or similar professional, or your local agencies, for further information.**

**Engineering controls:** If current ventilation practices are not adequate to maintain airborne concentrations below the established exposure limits, additional engineering controls may be required.

**Eye/Face Protection:** The use of eye protection that meets or exceeds ANSI Z.87.1 is recommended to protect against potential eye contact, irritation, or injury. Depending on conditions of use, a face shield may be necessary.

**Skin/Hand Protection:** The use of gloves impervious to the specific material handled is advised to prevent skin contact. Users should check with manufacturers to confirm the breakthrough performance of their products. Depending on exposure and use conditions, additional protection may be necessary to prevent skin contact including use of items such as chemical resistant boots, aprons, arm covers, hoods, coveralls, or encapsulated suits. Suggested protective materials: Nitrile

**Respiratory Protection:** Where there is potential for airborne exposure above the exposure limit a NIOSH certified air purifying respirator equipped with organic vapor cartridges/canisters may be used.

A respiratory protection program that meets or is equivalent to OSHA 29 CFR 1910.134 and ANSI Z88.2 should be followed whenever workplace conditions warrant a respirator's use. Air purifying respirators provide limited protection and cannot be used in atmospheres that exceed the maximum use concentration (as directed by regulation or the manufacturer's instructions), in oxygen deficient (less than 19.5 percent oxygen) situations, or under conditions that are immediately dangerous to life and health (IDLH).

**Other Protective Equipment:** Eye wash and quick-drench shower facilities should be available in the work area. Thoroughly clean shoes and wash contaminated clothing before reuse.

**Suggestions provided in this section for exposure control and specific types of protective equipment are based on readily available information. Users should consult with the specific manufacturer to confirm the performance of their protective equipment. Specific situations may require consultation with industrial hygiene, safety, or engineering professionals.**

## Section 9: Physical and Chemical Properties

**Note:** Unless otherwise stated, values are determined at 20°C (68°F) and 760 mm Hg (1 atm). Data represent typical values and are not intended to be specifications.

| | |
|---|---|
| **Appearance:** | Straw colored to dyed red |
| **Physical Form:** | Liquid |
| **Odor:** | Diesel fuel |
| **Odor Threshold:** | No data |
| **pH:** | Not applicable |
| **Vapor Pressure:** | 0.40 mm Hg |
| **Vapor Density (air=1):** | > 3 |
| **Initial Boiling Point/Range:** | 300-690°F / 149-366°C |
| **Melting/Freezing Point:** | No data |
| **Solubility in Water:** | Negligible |
| **Partition Coefficient (n-octanol/water) (Kow):** | No data |
| **Specific Gravity (water=1):** | 0.81-0.88 @ 60ºF (15.6ºC) |
| **Bulk Density:** | 7.08 lbs/gal |
| **Percent Volatile:** | Negligible @ ambient conditions |
| **Evaporation Rate (nBuAc=1):** | <1 |
| **Flash Point:** | 125 -180°F / 52 -82°C |
| **Test Method:** | Pensky-Martens Closed Cup (PMCC), ASTM D93, EPA 1010 |
| **Lower Explosive Limits (vol % in air):** | 0.3 |
| **Upper Explosive Limits (vol % in air):** | 10.0 |
| **Auto-ignition Temperature:** | 500°F / 260°C |

## Section 10: Stability and Reactivity

**Stability:** Stable under normal ambient and anticipated conditions of use.

**Conditions to Avoid:** Avoid high temperatures and all sources of ignition. Prevent vapor accumulation.

**Materials to Avoid (Incompatible Materials):** Avoid contact with strong oxidizing agents and strong reducing agents.

**Hazardous Decomposition Products:** Not anticipated under normal conditions of use.

**Hazardous Polymerization:** Not known to occur.

## Section 11: Toxicological Information

**Information on Toxicological Effects of Substance/Mixture**

| Acute Toxicity | Hazard | Additional Information | LC50/LD50 Data |
|---|---|---|---|
| **Inhalation** | Harmful if inhaled | | > 4.65 mg/L (mist) |

## Section 11: Toxicological Information

| | | | |
|---|---|---|---|
| **Skin Absorption** | Unlikely to be harmful | | > 4.1 g/kg |
| **Ingestion (Swallowing)** | Unlikely to be harmful | | > 5 g/kg |

**Aspiration Hazard:** May be fatal if swallowed and enters airways.

**Skin Corrosion/Irritation:** Causes skin irritation. Repeated exposure may cause skin dryness or cracking.

**Serious Eye Damage/Irritation:** Causes mild eye irritation.

**Signs and Symptoms:** While significant vapor concentrations are not likely, high concentrations can cause minor respiratory irritation, headache, drowsiness, dizziness, loss of coordination, disorientation and fatigue. Ingestion can cause irritation of the digestive tract, nausea, diarrhea, and vomiting.

**Skin Sensitization:** Not expected to be a skin sensitizer.

**Respiratory Sensitization:** No information available.

**Specific Target Organ Toxicity (Single Exposure):** Not expected to cause organ effects from single exposure.

**Specific Target Organ Toxicity (Repeated Exposure):** May cause damage to organs through prolonged or repeated exposure. Dermal application of a distillate fuel component at doses > 125 mg/kg, 5 d/wk, for 13 weeks resulted in decreased liver, thymus, and spleen weights, and altered bone marrow function. Microscopic alterations included liver hypertrophy and necrosis, decreased hematopoesis and lymphocyte depletion.

**Carcinogenicity:** Suspected of causing cancer. Petroleum middle distillates have been shown to cause skin tumors in mice following repeated and prolonged skin contact. Follow-up studies have shown that these tumors are produced through a non-genotoxic mechanism associated with frequent cell damage and repair, and that they are not likely to cause tumors in the absence of prolonged skin irritation.

**Germ Cell Mutagenicity:** Not expected to cause heritable genetic effects.

**Reproductive Toxicity:** Inadequate information available.

**Information on Toxicological Effects of Components**

**Naphthalene**

***Carcinogenicity:*** Naphthalene has been evaluated in two year inhalation studies in both rats and mice. The US National Toxicology Program (NTP) concluded that there is clear evidence of carcinogenicity in male and female rats based on increased incidences of respiratory epithelial adenomas and olfactory epithelial neuroblastomas of the nose. NTP found some evidence of carcinogenicity in female mice (alveolar adenomas) and no evidence of carcinogenicity in male mice. Naphthalene has been identified as a carcinogen by IARC and NTP.

## Section 12: Ecological Information

**Toxicity:** Experimental studies of gas oils show that acute aquatic toxicity values are typically in the range 2-20 mg/L. These values are consistent with the predicted aquatic toxicity of these substances based on their hydrocarbon compositions. They should be regarded as toxic to aquatic organisms, with the potential to cause long term adverse effects in the aquatic environment. Classification: H411; Chronic Cat 2.

**Persistence and Degradability:** Gas oils are complex combinations of individual hydrocarbon species. Based on the known or expected properties of individual constituents, category members are not predicted to be readily biodegradable. Some hydrocarbon constituents of gas oils are predicted to meet the criteria for persistence; on the other hand, some components can be easily degraded by microorganisms under aerobic conditions.

**Persistence per IOPC Fund definition:** Non-Persistent

**Bioaccumulative Potential:** Gas oil components have measured or calculated Log Kow values in the range of 3.9 to 6 which indicates a high potential to bioaccumulate. Lower molecular weight compounds are readily metabolized and the actual bioaccumulation potential of higher molecular weight compounds is limited by the low water solubility and large molecular size.

**Mobility in Soil:** Releases to water will result in a hydrocarbon film floating and spreading on the surface. For the lighter components, volatilization is an important loss process and reduces the hazard to aquatic organisms. In air, the hydrocarbon vapors react readily with hydroxyl radicals with half-lives of less than one day. Photoxidation on the water surface is also a significant loss process particularly for polycyclic aromatic compounds. In water, the majority of components will be adsorbed on sediment. Adsorption is the most predominant physical process on release to soil. Adsorbed hydrocarbons will slowly degrade in both water and soil.

**Other Adverse Effects:** None anticipated.

## Section 13: Disposal Considerations

The generator of a waste is always responsible for making proper hazardous waste determinations and needs to consider state and local requirements in addition to federal regulations.

This material, if discarded as produced, would not be a federally regulated RCRA "listed" hazardous waste. However, it would likely be identified as a federally regulated RCRA hazardous waste for the following characteristic(s) shown below. See Sections 7 and 8 for information on handling, storage and personal protection and Section 9 for physical/chemical properties. It is possible that the material as produced contains constituents which are not required to be listed in the MSDS but could affect the hazardous waste determination. Additionally, use which results in chemical or physical change of this material could subject it to regulation as a hazardous waste.

Container contents should be completely used and containers should be emptied prior to discard. Container residues and rinseates could be considered to be hazardous wastes.

**EPA Waste Number(s)**
- D001 - Ignitability characteristic

## Section 14: Transport Information

**U.S. Department of Transportation (DOT)**

**Shipping Description:** ***Aquatic toxicity studies indicate material may be classified as a Marine Pollutant. This classification impacts bulk and water shipments.***
NA1993, Diesel fuel, Combustible liquid, III
**Non-Bulk Package Marking:** Not Regulated ***[49 CFR 173.150(f)(2)]***
**Non-Bulk Package Labeling:** Not Regulated ***[49 CFR 173.150(f)(2)]***
**Bulk Package/Placard Marking:** Combustible / 1993
**Packaging - References:** None; None; 49 CFR 173.241
***(Exceptions; Non-bulk; Bulk)***
**Emergency Response Guide:** 128
**Note:** ***May also be shipped as:*** Diesel fuel, Combustible liquid, UN1202, III
***Bulk Package/Placard Marking would also be changed to:*** 1202
***Container(s) greater than 5 liters (liquids) or 5 kilograms (solids), shipped by water mode and ALL bulk shipments may require the shipping description to contain the "Marine Pollutant" notation [49 CFR 172.203(l)] and the container(s) to display the [Marine Pollutant Mark] [49 CFR 172.322].***
***The following alternate shipping description order may be used until January 1, 2013:*** **Proper Shipping name, Hazard Class or Division, (Subsidiary Hazard if any), UN or NA number, Packing Group**
***Other shipping description elements may be required for DOT compliance.***

**International Maritime Dangerous Goods (IMDG)**

**Shipping Description:** ***If flashpoint is >60° C closed-cup and the material meets the IMDG definition of a Marine Pollutant, an alternate shipping name such as "Environmentally hazardous substance, n.o.s." with hazard class 9 and PG III must be used.***
UN1202, Diesel fuel, 3, III, (FP° C cc), *[where FP is the material's flash point in degrees Celsius closed cup]*
**Non-Bulk Package Marking:** Diesel fuel, UN1202
**Labels:** Flammable liquid
**Placards/Marking (Bulk):** Flammable / 1202
**Packaging - Non-Bulk:** P001, LP01
**EMS:** F-E, S-E
**Note:** ***Proper Shipping name can be:*** Gas Oil ***or*** Diesel fuel ***or*** Heating Oil, light
***If transported in bulk by marine vessel in international waters, product is being carried under the scope of MARPOL Annex I.***
***If container(s) is greater than 5 liters (liquids) or 5 kilograms (solids), shipment may require the shipping description to contain the "Marine Pollutant" description [IMDG 5.4.1.4.3.5] and the container(s) to display the Marine Pollutant mark [IMDG 5.2.1.6].***

**International Civil Aviation Org. / International Air Transport Assoc. (ICAO/IATA)**

**UN/ID #:** ***Not regulated if flashpoint is >60° C closed-cup***
UN1202

## Section 14: Transport Information

**Proper Shipping Name:** Diesel fuel
**Hazard Class/Division:** 3
**Packing Group:** III
**Non-Bulk Package Marking:** Diesel fuel, UN1202
**Labels:** Flammable liquid
**ERG Code:** 3L
**Note:** ***If container(s) is greater than 5 liters (liquids) or 5 kilograms (solids), shipment may require the container to diplay the "Environmentally hazardous substance" mark [IATA 7.1.6.3].***

| | LTD. QTY | Passenger Aircraft | Cargo Aircraft Only |
|---|---|---|---|
| **Packaging Instruction #:** | Y344 | 355 | 366 |
| **Max. Net Qty. Per Package:** | 10 L | 60 L | 220 L |

## Section 15: Regulatory Information

**CERCLA/SARA - Section 302 Extremely Hazardous Substances and TPQs (in pounds):**
This material does not contain any chemicals subject to the reporting requirements of SARA 302 and 40 CFR 372.

**CERCLA/SARA - Section 311/312 (Title III Hazard Categories)**

**Acute Health:** Yes
**Chronic Health:** Yes
**Fire Hazard:** Yes
**Pressure Hazard:** No
**Reactive Hazard:** No

**CERCLA/SARA - Section 313 and 40 CFR 372:**
This material contains the following chemicals subject to the reporting requirements of Section 313 of SARA Title III and 40 CFR 372:

| Component | Concentration[1] | de minimis |
|---|---|---|
| Naphthalene | <1 | 0.1% |

**EPA (CERCLA) Reportable Quantity (in pounds):**
EPA's Petroleum Exclusion applies to this material - (CERCLA 101(14)).

**California Proposition 65:**
Warning: This material may contain detectable quantities of the following chemicals, known to the State of California to cause cancer, birth defects or other reproductive harm, and which may be subject to the requirements of California Proposition 65 (CA Health & Safety Code Section 25249.5):

| Component | Type of Toxicity |
|---|---|
| Naphthalene | Cancer |

**International Hazard Classification**

**GHS Classification:**
H226 -- Flammable liquids -- Category 3
H315 -- Skin corrosion/irritation -- Category 2
H304 -- Aspiration Hazard -- Category 1
H332 -- Acute toxicity, Inhalation -- Category 4
H373 -- Specific target organ toxicity (repeated exposure) -- Category 2
H351 -- Carcinogenicity -- Category 2
H410 -- Hazardous to the aquatic environment, chronic toxicity -- Category 1

**Canada:**
This product has been classified in accordance with the hazard criteria of the Controlled Products Regulations (CPR) and the MSDS contains all the information required by the Regulations.

WHMIS Hazard Class
B3 - Combustible Liquids
D1B
D2A
D2B

**National Chemical Inventories:**
All components are either listed on the US TSCA Inventory, or are not regulated under TSCA.

All components are either on the DSL, or are exempt from DSL listing requirements.

**U.S. Export Control Classification Number:** EAR99

## Section 16: Other Information

| | |
|---|---|
| **Date of Issue:** | 13-Jun-2011 |
| **Status:** | FINAL |
| **Previous Issue Date:** | 21-Dec-2010 |
| **Revised Sections or Basis for Revision:** | Handling and Storage information (Section 7) |
| **SDS Number:** | 001847 |

**Guide to Abbreviations:**
ACGIH = American Conference of Governmental Industrial Hygienists; CASRN = Chemical Abstracts Service Registry Number; CEILING = Ceiling Limit (15 minutes); CERCLA = The Comprehensive Environmental Response, Compensation, and Liability Act; EPA = Environmental Protection Agency; GHS = Globally Harmonized System; IARC = International Agency for Research on Cancer; IOPC = International Oil Pollution Compensation; LEL = Lower Explosive Limit; NE = Not Established; NFPA = National Fire Protection Association; NTP = National Toxicology Program; OSHA = Occupational Safety and Health Administration; PEL = Permissible Exposure Limit (OSHA); SARA = Superfund Amendments and Reauthorization Act; STEL = Short Term Exposure Limit (15 minutes); TLV = Threshold Limit Value (ACGIH); TWA = Time Weighted Average (8 hours); UEL = Upper Explosive Limit; WHMIS = Worker Hazardous Materials Information System (Canada)

**Disclaimer of Expressed and implied Warranties:**
The information presented in this Material Safety Data Sheet is based on data believed to be accurate as of the date this Material Safety Data Sheet was prepared. HOWEVER, NO WARRANTY OF MERCHANTABILITY, FITNESS FOR ANY PARTICULAR PURPOSE, OR ANY OTHER WARRANTY IS EXPRESSED OR IS TO BE IMPLIED REGARDING THE ACCURACY OR COMPLETENESS OF THE INFORMATION PROVIDED ABOVE, THE RESULTS TO BE OBTAINED FROM THE USE OF THIS INFORMATION OR THE PRODUCT, THE SAFETY OF THIS PRODUCT, OR THE HAZARDS RELATED TO ITS USE. No responsibility is assumed for any damage or injury resulting from abnormal use or from any failure to adhere to recommended practices. The information provided above, and the product, are furnished on the condition that the person receiving them shall make their own determination as to the suitability of the product for their particular purpose and on the condition that they assume the risk of their use. In addition, no authorization is given nor implied to practice any patented invention without a license.

**ERGON Asphalt & Emulsions, Inc.**

**CRS-2** **MSDS No. AE018**

## Section 3 – Hazards Information

### EMERGENCY OVERVIEW

HMIS
H-2
F-1
R-0
PPE*
* Sec.8

**POTENTIAL HEALTH EFFECTS**

**Primary Entry Routes:** Inhalation and absorption.

**Target Organs:** Mucous membranes, skin, and digestive tract.

**Acute Effects**

**Inhalation:** Irritating to mucous membranes and respiratory tract. May produce symptoms such as headache, dizziness, nausea, vomiting, and loss of coordination.

**Eye:** Highly irritating; a significant thermal hazard under normal usage due to high temperatures required for application.

**Skin:** Moderately irritating; hot asphalt will cause severe burns. May lead to photosensitization and drying of the skin.

**Ingestion:** Irritating to mucous membranes and gastrointestinal tract. May cause thermal burns as well as nausea, vomiting and diarrhea.

**Carcinogenicity:** IARC, NTP, and OSHA do not list this product as carcinogen.

**Medical Conditions Aggravated by Long-Term Exposure:** Dermatitis.

**Chronic Effects:** Prolonged and repeated skin contact may cause dermatitis, photosensitization, and melanosis. Evidence from animal studies suggest that asphalt left on the skin for long periods of time may result in local carcinomas, but there have been no reports of such effects on human skin that can be attributed to asphalt alone.

## Section 4 – First Aid Measures

**Inhalation:** Remove to fresh air. Apply artificial respiration if needed. Seek medical attention.

**Eye Contact:** Flush thoroughly with water for at least 15 minutes. If burning persists seek medical attention.

**Skin Contact:** If molten asphalt strikes the exposed skin, cool the skin immediately by quenching with cold water. Wash thoroughly with soap and water. Do not use harsh solvents to remove asphalt from skin. Lotion or hand cream may aid in the removal of asphalt. Cover with a sterile dressing. Seek medical attention if needed.

**Ingestion:** Do not induce vomiting and seek medical help.

***After first aid, get appropriate in-plant paramedic or community medical support.***

**Special Precautions/Procedures:** The petroleum hydrocarbons in this product are a complex mixture of paraffinic, naphthenic, and aromatic hydrocarbons. As with other petroleum products, the aromatic compounds are present in varying concentrations and structures. Some of these compounds may be those which have been shown to result in tumor formation in animals under laboratory conditions. The concentrations of aromatic compounds in this product require that the precautions outlined in this MSDS be followed to minimize personnel exposure.

Provide adequate ventilation to keep vapors below allowable exposure levels. Use PPE appropriate for the task.

## Section 5 – Fire Fighting Measures

**Flash Point:** 400°F (204°C)

**Flash Point Method:** COC

**Auto Ignition Temperature:** >700°F (>370°C)

**LEL:** NA

**UEL:** NA

**Flammability Classification:** Class IIIB

**NFPA**

**Extinguishing Media:** Dry chemical, foam and carbon dioxide.

**Unusual Fire or Explosion Hazards:** This product may ignite when sufficient heat is applied. Check for combustible vapors prior to and during welding or torch cutting on vessels or tanks. It has been found that in hot storage tanks low flash substances may accumulate in the vapor space. The flammability characteristics will not be detected by any flash point method. Keep ignition sources away from tank vents and prevent accumulation of pyrophoric iron sulfide.

**Hazardous Combustion Products:** Carbon monoxide, carbon dioxide, and sulfur dioxide.

**Fire-Fighting Instructions:** Use of foam or water may cause frothing. Do not release runoff from fire control methods to sewers or waterways. Use a water supply to cool fire-exposed containers.

**Fire-Fighting Equipment:** Use self-contained breathing apparatus in enclosed areas where heavy smoke may occur.

## Section 6 – Accidental Release Matters

**Spill/Leak Procedures:** Stop spill at source. Confine spill by diking or impoundment. Remove sources of heat or ignition. Clean-up spill but do not flush to sewer or surface water. Ventilate area and avoid breathing vapors or mists.

**Small Spills:** Stop spill at source if possible. Isolate and confine by diking, or similar method. Remove discharged material.

**Large Spills:**

**Containment:** For large spills, dike far ahead of liquid spill for later disposal. Do not release into sewers or waterways.

**Cleanup:** Allow material to cool. Mix with inert absorbent material such as soil, sand, or oil dry, to stabilize.

**Regulatory Requirements:** Notify local health and pollution control agencies as appropriate. Follow applicable OSHA regulations (29 CFR 1900.120). This material is not a hazardous waste as defined in RCRA. For disposal follow all federal, state, and local regulations regarding solid waste.

## Section 7 – Handling and Storage

**Handling Precautions:** This product is a mixture of water and asphalt. Heating this mixture above 190°F can cause the water portion to boil. This may result in frothing of the mixture causing hot asphalt to overflow the container. Hydrogen sulfide may be emitted from heated asphalt and may accumulate in storage tanks and bulk transport containers.

**Storage Requirements:** Ground and bond all transfer and storage equipment. Ventilation is required only in enclosed areas where the emulsion is subjected to severe conditions of heat or agitation.

**Regulatory Requirements:** None known.

## Section 8 – Exposure Controls / Personal Protection

**Engineering Controls:** Not applicable.

**Ventilation:** Provide general or local exhaust ventilation systems to maintain airborne concentrations below OSHA PELs (Sec. 2). Local exhaust ventilation is preferred because it prevents contaminant dispersion into the work area by controlling it at its source.

**Respiratory Protection:** Seek professional advice prior to respirator selection and use. Follow OSHA respirator regulations (29 CFR 1910.134) and, if necessary, wear a MSHA/NIOSH-approved respirator. Select respirator based on its suitability to provide adequate worker protection for given working conditions, level of airborne contamination, and presence of sufficient oxygen. Self-contained, positive-pressure breathing apparatus when used in confined or enclosed space or when exposure limits are exceeded or hydrogen sulfide is unknown or exceeds 20 ppm. Organic vapor respirators can be used with good ventilation when organic vapors are less than 1000 ppm or ten times permissible exposure limit, which ever is less. For emergency or nonroutine operations (cleaning spills, reactor vessels, or storage tanks), wear an SCBA. *Warning! Air-purifying respirators do not protect workers in oxygen-deficient atmospheres.* If respirators are used, OSHA requires a written respiratory protection program that includes: procedures for selecting respirators; medical evaluation; fit testing; use in routine and emergency situations; cleaning, disinfecting, storing, inspecting, repairing, discarding and maintaining respirators; adequate air quality, quantity and flow; training in respiratory hazards; training in use of respirators; evaluation of effectiveness of respiratory program.

**Protective Clothing/Equipment:** Wear protective gloves, boots, aprons, and gauntlets as need to prevent prolonged or repeated skin contact. Goggles and face shields should be used in areas where splashing may occur. Wear protective eyeglasses or safety goggles per OSHA eye- and face-protection regulations (29 CFR 1910.133). Contact lenses are not eye protective devices. Appropriate eye protection must be worn instead of, or in conjunction with contact lenses.

**Safety Stations:** Make emergency eyewash stations, safety/quick-drench showers, and washing facilities available in work area.

**Contaminated Equipment:** Separate contaminated work clothes from street clothes. Launder before reuse. Remove this material from your shoes and clean personal protective equipment.

**Comments:** Never eat, drink, or smoke in work areas. Practice good personal hygiene after using this material, especially before eating, drinking, or smoking.

## Section 9 – Physical and Chemical Properties

**Physical State:** Liquid
**Appearance and Odor:** Brown-black liquid with a mild odor
**Odor Threshold:** Tar odor
**Vapor Pressure:** <1 mm Hg at 70°F (20°C)
**Vapor Density (Air = 1):** >1
**Formula Weight:** Est. 250 lb/lb-mole
**Density:** 8.3-8.5 lb/gal
**Specific Gravity ($H_2O$ = 1, at 4°C):** 1.01
**pH:** 2.0– 4.0

**Water Solubility:** Slightly soluble.
**Other Solubilities:** No data.
**Boiling Point:** 212°F
**Freezing/Melting Point:** No data.
**Viscosity:** No data.
**Refractive Index:** No data.
**Surface Tension:** No data.
**% Volatile:** <2%
**Evaporation Rate:** <1

## Section 10 – Stability and Reactivity

**Stability:** Stable at room temperature in closed containers under normal storage and handling conditions.

**Polymerization:** Hazardous polymerization cannot occur.

**Chemical Incompatibilities:** Strong oxidizing agents; Anionic emulsions.

**Conditions to Avoid:** Do not overheat product.

**Hazardous Decomposition Products:** Primary decomposition products are carbon monoxide, carbon dioxide, and water. Combustion products may include sulfur oxides and hydrogen sulfide.

## Section 11 – Toxicological Information

**Eye Effects:** Vapors may cause a slight smarting of the eyes or respiratory system if present in high concentrations. The effect is temporary.

**Skin Effects:** Causes smarting of the skin and first-degree burns on short exposure; may cause secondary burns on long exposure.

**Acute Inhalation Effects:** Human, inhalation, $TC_{LO}$: No data.

**Acute Oral Effects:** Rat, oral, $LD_{50}$: 5 to 15 g/kg

**Carcinogenicity:** Not a known human carcinogen.

**Mutagenicity:** No data.

**Teratogenicity:** No data.

**Chronic Effects:** Prolonged and repeated skin contact may cause dermatitis, photosensitization, and melanosis. Evidence from animal studies suggest that asphalt left on the skin for long periods of time may result in local carcinomas, but there have been no reports of such effects on humans skin that can be attributed to asphalt alone.

## Section 12 – Ecological Information

**Ecotoxicity:** No data.

**Environmental Fate:**

**Environmental Transport:** No data.

**Environmental Degradation:** No data.

**Soil Absorption/Mobility:** No data.

## Section 13 – Disposal Considerations

**Disposal:** Contact your supplier or a licensed contractor for detailed recommendations. Follow applicable Federal, state, and local regulations.

**Disposal Regulatory Requirements:** Solidified waste material should not be a hazardous waste under RCRA guidelines. Follow Federal, state, and local regulations for disposal of solid waste.

**Container Cleaning and Disposal:** Recommend using a non-hazardous solvent to remove the product. Follow Federal, state, and local regulations for disposal of the waste material, regardless of its waste classification.

## Section 14 – Transport Information

**Shipping Name:** Asphalt Emulsion Not Regulated

**Shipping Symbols:** NA

**Hazard Class:** NA

**ID No.:** NA

**Packing Group:** NA

**Label:** NA

**Special Provisions (172.102):** NA

**Packaging Authorizations:**

**a) Exceptions:** NA

**b) Non-bulk Packaging:** NA

**c) Bulk Packaging:** NA

**Quantity Limitations:**

**a) Passenger, Aircraft, or Railcar:** NA

**b) Cargo Aircraft Only:** NA

**Vessel Stowage Requirements:**

**a) Vessel Stowage:** NA

**b) Other:** NA

## Section 15 – Regulatory Information

**EPA Regulations:**

**RCRA**

RCRA Hazardous Waste Number: Not listed.

RCRA Hazardous Waste Classification (40 CFR 261): This material should not be hazardous due to characteristics.

**CERCLA**

CERCLA: Not listed.

CERCLA Reportable Quantity (RQ): This material is not a listed hazardous substance and does not have a reportable quantity. However, if spilled into waters of the U.S., it may be reportable under the Clean Water Act.

**SARA**

SARA 311/312 Codes: Not Listed

SARA Toxic Chemical: Not listed.

SARA EHS (Extremely Hazardous Substance) (40 CFR 355): Not listed.

**OSHA Regulations**

Air Contaminant (29 CFR 1910.1000, Table Z-1, Z-1-A): See Table in Section 2.

OSHA Specifically Regulated Substance: No

**State Regulations:** Listed in state hazardous substance list for CA and MN as Asphalt (petroleum fumes; FL, MA, NJ, as Asphalt fumes; and PA as Asphalt.

## Section 16 – Other Information

**Revision Notes:**

**Additional Hazard Rating Systems:** NAS Hazard Rating for Bulk Water Transportation of asphalt: Fire – 1, Health – 2, Water Pollution – 1, Reactivity -0.

**Disclaimer:** ERGON ASPHALT & EMULSIONS, INC. (EAE) PROVIDES THIS INFORMATION FOR THE USER'S CONSIDERATION. EAE BELIEVES THIS INFORMATION IS ACCURATE, BUT NOT ALL INCLUSIVE IN ALL CIRCUMSTANCES. USER SHOULD ENSURE THAT USER HAS CURENT DATA RELEVANT FOR ITS PURPOSES. NO WARRANTY, EXPRESSED OR IMPLIED, INCLUDING MERCHANTABILITY, FITNESS OR OTHERWISE IS GIVEN.

# MATERIAL SAFETY DATA SHEET

## 1. Product and Company Identification

| | |
|---|---|
| **Material name** | **SS-1** |
| **Version #** | 02 |
| **Revision date** | 10-11-2011 |
| **CAS #** | Mixture |
| **Manufacturer:** | Ergon Asphalt & Emulsions, Inc. |
| **Address:** | P O Box 1639<br>Jackson MS 39215-1639 |
| **Contact Name:** | Mary Ellen Snow |
| **Telephone:** | 601-933-3540; 24-hour Customer Service 1-800-222-7122 |
| **E-mail:** | mary.snow@ergon.com |
| **CHEMTREC:** | 1-800-424-9300 |

## 2. Hazards Identification

| | |
|---|---|
| **Emergency overview** | Irritating to skin. Prolonged exposure may cause chronic effects. |
| **Potential health effects** | |
| **Routes of exposure** | Inhalation. Ingestion. Skin contact. Eye contact. |
| **Eyes** | Contact may irritate or burn eyes. |
| **Skin** | Irritating to skin. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. Avoid contact with the skin. |
| **Inhalation** | May be irritating. Prolonged inhalation may be harmful. |
| **Ingestion** | Do not ingest. |
| **Target organs** | Eyes. Skin. Central nervous system. |
| **Chronic effects** | Conjunctiva. May cause central nervous system disorder (e.g., narcosis involving a loss of coordination, weakness, fatigue, mental confusion and blurred vision) and/or damage. Frequent or prolonged contact may defat and dry the skin, leading to discomfort and dermatitis. |
| **Signs and symptoms** | Irritation of eyes and mucous membranes. Skin irritation. |

## 3. Composition / Information on Ingredients

| **Hazardous components** | **CAS #** | **Percent** |
|---|---|---|
| ASPHALT | 8052-42-4 | 50 - 100 |
| **Non-hazardous components** | **CAS #** | **Percent** |
| WATER | 7732-18-5 | 20 - 50 |
| Other components below reportable levels | | 0.0001 - 20 |

## 4. First Aid Measures

**First aid procedures**

| | |
|---|---|
| **Eye contact** | Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention immediately. |
| **Skin contact** | Wash off with warm water and soap. Get medical attention if irritation develops and persists. |
| **Inhalation** | If breathing is difficult, remove to fresh air and keep at rest in a position comfortable for breathing. Call a physician if symptoms develop or persist. |
| **Ingestion** | Rinse mouth thoroughly. Do not induce vomiting without advice from poison control center. If ingestion of a large amount does occur, call a poison control center immediately. |
| **Notes to physician** | Symptoms may be delayed. |
| **General advice** | If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. |

## 5. Fire Fighting Measures

**Flammable properties** Do not use forced stream as this could cause fire to spread.

**Extinguishing media**

**Suitable extinguishing media** Water. Water fog. Foam. Dry chemical powder. Carbon dioxide (CO2).

**Unsuitable extinguishing media** Do not use a solid water stream as it may scatter and spread fire.

**Protection of firefighters**

**Specific hazards arising from the chemical** Fire may produce irritating, corrosive and/or toxic gases. H2S

**Specific methods** In the event of fire and/or explosion do not breathe fumes. In the event of fire, cool tanks with water spray. Use water spray to cool unopened containers.

## 6. Accidental Release Measures

**Personal precautions** Ventilate closed spaces before entering them. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing.

**Environmental precautions** Prevent further leakage or spillage if safe to do so. Do not contaminate water.

**Methods for containment** ELIMINATE all ignition sources (no smoking, flares, sparks or flames in immediate area). Prevent entry into waterways, sewer, basements or confined areas.

**Methods for cleaning up** Dike far ahead of spill for later disposal.

Never return spills in original containers for re-use. Shovel the material into waste container.

## 7. Handling and Storage

**Handling** All equipment used when handling the product must be grounded. Do not get this material in contact with eyes. Avoid contact with skin. Do not use in areas without adequate ventilation. This product is a mixture of water and asphalt. Heating to temperatures above 190°F can cause the water portion to boil, causing excessive frothing resulting in hot asphalt overflow. Avoid prolonged exposure. Hydrogen sulfide (H2S) may be given off when this material is heated. Do not depend on sense of smell for warning. Wash thoroughly after handling. Avoid release to the environment.

**Storage** Keep away from heat and sources of ignition. Prevent electrostatic charge build-up by using common bonding and grounding techniques. Store in a well-ventilated place. Keep container tightly closed. Keep away from food, drink and animal feedingstuffs. Keep out of the reach of children. Use care in handling/storage.

## 8. Exposure Controls / Personal Protection

**Occupational exposure limits**

**ACGIH**

| Components | Type | Value | Form |
|---|---|---|---|
| ASPHALT (8052-42-4) | TWA | 0.5000 mg/m3 | Inhalable fraction. |

**Engineering controls** Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level.

**Personal protective equipment**

**Eye / face protection** Do not get in eyes. Chemical goggles are recommended.

**Skin protection** Avoid contact with the skin. Wear appropriate chemical resistant clothing. Chemical resistant gloves.

**Respiratory protection** If airborne concentrations are above the applicable exposure limits, use NIOSH approved respiratory protection.

**General hygiene considerations** When using do not smoke. Do not get in eyes. Avoid contact with skin. Keep away from food and drink. Handle in accordance with good industrial hygiene and safety practice.

## 9. Physical & Chemical Properties

**Appearance** Viscous liquid

**Color** Black.

| | |
|---|---|
| **Odor** | Mild Petroleum Odor |
| **Odor threshold** | Not available. |
| **Physical state** | Liquid. |
| **Form** | Liquid. |
| **pH** | 8.5 - 10.6 |
| **Melting point** | Not available. |
| **Freezing point** | Not available. |
| **Boiling point** | 212 °F (100 °C) |
| **Flash point** | Not available. |
| **Evaporation rate** | Not available. |
| **Flammability limits in air, upper, % by volume** | Not available. |
| **Flammability limits in air, lower, % by volume** | Not available. |
| **Vapor pressure** | Not available. |
| **Vapor density** | > 1 |
| **Specific gravity** | 1.01 |
| **Relative density** | Not available. |
| **Solubility (water)** | Not available. |
| **Partition coefficient (n-octanol/water)** | Not available |
| **Auto-ignition temperature** | > 700 °F (> 371.1 °C) |
| **Decomposition temperature** | Not available. |
| **VOC** | Not available. |
| **Percent volatile** | 2 % |

## 10. Chemical Stability & Reactivity Information

| | |
|---|---|
| **Chemical stability** | Stable under normal temperature conditions. |
| **Conditions to avoid** | Contact with incompatible materials. |
| **Incompatible materials** | Strong oxidizing agents. |
| **Possibility of hazardous reactions** | Hazardous polymerization does not occur. |

## 11. Toxicological Information

| | |
|---|---|
| **Local effects** | Components of the product may be absorbed into the body through the skin. Irritating to skin. Contact may irritate or burn eyes. |
| **Chronic effects** | Hazardous by OSHA criteria. Prolonged inhalation may be harmful. Repeated absorption may cause disorder of central nervous system, liver, kidneys and blood. Prolonged exposure may cause chronic effects. |
| **Carcinogenicity** | This product is not considered to be a carcinogen by IARC, ACGIH, NTP, or OSHA. |

**ACGIH Carcinogens**

| | |
|---|---|
| ASPHALT (CAS 8052-42-4) | A4 Not classifiable as a human carcinogen. |

**IARC Monographs. Overall Evaluation of Carcinogenicity**

| | |
|---|---|
| ASPHALT (CAS 8052-42-4) | 2B Possibly carcinogenic to humans.<br>3 Not classifiable as to carcinogenicity to humans. |

## 12. Ecological Information

| | |
|---|---|
| **Ecotoxicity** | Contains a substance which causes risk of hazardous effects to the environment. |
| **Environmental effects** | An environmental hazard cannot be excluded in the event of unprofessional handling or disposal. |
| **Persistence and degradability** | Not available. |

## 13. Disposal Considerations

**Disposal instructions** Dispose of this material and its container to hazardous or special waste collection point. Incinerate the material under controlled conditions in an approved incinerator. Do not allow this material to drain into sewers/water supplies. Dispose in accordance with all applicable regulations.

## 14. Transport Information

**DOT**

Not regulated as dangerous goods.

## 15. Regulatory Information

**CERCLA (Superfund) reportable quantity**

None

**Superfund Amendments and Reauthorization Act of 1986 (SARA)**

**Hazard categories** Immediate Hazard - No
Delayed Hazard - No
Fire Hazard - No
Pressure Hazard - No
Reactivity Hazard - No

**Section 302 extremely hazardous substance** No

**Section 311 hazardous chemical** No

**Inventory status**

| Country(s) or region | Inventory name | On inventory (yes/no)* |
|---|---|---|
| Australia | Australian Inventory of Chemical Substances (AICS) | Yes |
| Canada | Domestic Substances List (DSL) | Yes |
| Canada | Non-Domestic Substances List (NDSL) | No |
| China | Inventory of Existing Chemical Substances in China (IECSC) | No |
| Europe | European Inventory of Existing Commercial Chemical Substances (EINECS) | Yes |
| Europe | European List of Notified Chemical Substances (ELINCS) | No |
| Japan | Inventory of Existing and New Chemical Substances (ENCS) | Yes |
| Korea | Existing Chemicals List (ECL) | No |
| New Zealand | New Zealand Inventory | No |
| Philippines | Philippine Inventory of Chemicals and Chemical Substances (PICCS) | No |
| United States & Puerto Rico | Toxic Substances Control Act (TSCA) Inventory | Yes |

*A "Yes" indicates that all components of this product comply with the inventory requirements administered by the governing country(s)

**State regulations** WARNING: This product contains a chemical known to the State of California to cause cancer.

**US - California Proposition 65 - Carcinogens & Reproductive Toxicity (CRT): Listed substance**

ASPHALT (CAS 8052-42-4) Listed.

**US - California Proposition 65 - CRT: Listed date/Carcinogenic substance**

ASPHALT (CAS 8052-42-4) Listed: January 1, 1990 Carcinogenic.

**US - Pennsylvania RTK - Hazardous Substances: Listed substance**

ASPHALT (CAS 8052-42-4) Listed.

**US - Pennsylvania RTK - Hazardous Substances: Special hazard**

ASPHALT (CAS 8052-42-4) Special hazard.

## 16. Other Information

**Further information** HMIS® is a registered trade and service mark of the NPCA.

**HMIS® ratings** Health: 2
Flammability: 1
Physical hazard: 0

## Information

### CAPTION

Constable Pct. 3-LBSP (1284) :
1. Authorization and approval to accept the Local Border Security Program FY 2014 (LBSP-14) Grant Award No: LBSP-14-0030 in the amount of $46,000.00.
2. Authorization for County Judge, as authorized official, to sign grant award form and related documents.
3. Authorization to pay overtime reimbursable under the grant terms and conditions.
4. Approval of Certification of Revenues, as certified by the County Auditor, for the Local Border Security Program FY2014 (LBSP-14)
5. Approval to appropriate funds for LBSP-14 in the amount of $46,000.00.

### BACKGROUND

Authorization to apply for LBSP-14 (AI#41995) approved by Commissioners' Court on 12/03/13.
SAA Award Number: LBSP-14-0030
Grant Period: February 12, 2014 to August 31, 2014

## Fiscal Impact

**FISCAL YEAR:** 2014 **ACCT. #:** 4-1284-421-00-293-080-4-XXX

**FUNDS AVAILABLE Y/N?:** Y **MATCHING FUNDS Y/N?:** N

**BUDGETARY IMPACT:**

Acct#4-1284-334-10-293-080-4-000 Constable Pct.3 LBSP Revenues

Fringe benefits which include retirement, unemployment comp, workers comp, health & life attributed to the overtime hours are to be charged to the Constable Pct. 3 general fund budget (4-1100-421-00-293-001-0-XXX).

The signed Award with Terms and Conditions must be returned to SAA-LBSP@dps.texas.gov on or before this **Grant Acceptance Due Date**: March 31, 2014

# 2014 TERMS AND CONDITIONS

***Instructions:***

*The Recipient shall:*

1. *Fill in the information and sign the Grant Recipient Award;*
2. *Certify they have read and understand these Terms and Conditions;*
3. *Certify to the statements provided in Exhibits A and B located at the back of this document by filling in contact information and signing all exhibits, and*
4. *Return all documents via email to SAA-LBSP@dps.texas.gov on or before the date provided in the transmittal letter and/or in this Grant.*

## 1. Grant Recipient Agreement

This Grant Recipient Agreement (consisting of this 2014 Grant Recipient Award and these Terms and Conditions) is made and entered into by and between the Department of Public Safety / Texas Homeland Security State Administrative Agency, an agency of the State of Texas, hereinafter referred to as "DPS/THSSAA," and the funds recipient, hereinafter referred to as the "Recipient" or "Grantee." Furthermore, DPS/THSSAA and the Recipient are collectively hereinafter referred to as the "Parties." This Grant Recipient Agreement, or otherwise referred to herein as "this Grant" or "this Agreement", is only an offer until Recipient returns the signed copy of this Grant on or before the date provided in the transmittal letter and/or in this Grant Recipient Award.

The FY 2014 Local Border Security Program, hereinafter referred to as "LBSP-14," is funded by the Eighty-third Texas Legislature, Regular Session 2013, Senate Bill 1, Article V, Rider 35 of the Texas General Appropriations Act. The Texas Legislature has appropriated funds for:

a. Overtime and operational costs for increased patrol and investigative capacity for certified peace officers along with other law enforcement support personnel (i.e., Communications Officers/Dispatchers, Jailers); and

b. Certain operational costs incurred as part of these overtime patrols and investigations, such as fuel/mileage and additional costs for minor emergency repairs, such as tire repair, fan belt replacement for vehicles or equipment being used in the program operations (limited to a maximum of $150.00 per incident).

Recipient shall not assign or transfer any interest in this Grant without the express, prior written consent of DPS/THSSAA. If Recipient issues subawards as part of this Grant project, Recipient shall include and require its subawardees to comply with the terms and conditions of this Grant.

## 2. Overview and Performance Standards

All allocations and use of funds under this Grant must be in accordance with and shall comply with all provisions of the "Local Border Security Program Guide, FY 2014 (LBSP-14)" dated November 8, 2013, which is incorporated by reference herein. Recipient shall read, understand and by signature accept all terms of the Program Guide and these Terms and Conditions as binding.

Standard of Performance. Recipient shall perform all activities and projects which were approved by DPS/THSSAA. Any change to a project shall receive prior written approval by DPS/THSSAA. Recipient shall perform all activities in accordance with all terms and conditions, provisions and requirements set forth in this Grant, including but not limited to the following Exhibits:

1. Certifications, hereinafter referred to as "**Exhibit A**"
2. Assurances, hereinafter referred to as "**Exhibit B**"

## 3. Failure to Perform

In the event Recipient fails to comply with any and all required conference calls, meetings, financial reporting requirements, or any requirement of this Grant, in addition to the remedies specified in this Grant, Recipient is liable to DPS/THSSAA for the amount not to exceed the award amount of this Grant and may be barred from applying and receiving additional DPS/THSSAA grant program funds or any other program funds administered by DPS/THSSAA until repayment is made and any other compliance or audit finding is satisfactorily resolved. Failure to timely implement projects may reduce future funding in additional grant programs administered by DPS/THSSAA.

## 4. Funding Obligations

A. DPS/THSSAA will not be liable to Recipient for any costs incurred by Recipient that are not allowable costs.

B. Notwithstanding any other provision of this Grant, the total of all payments and other obligations incurred by DPS/THSSAA under this Grant shall not exceed the Total Award Amount listed on the Grant Recipient Award.

C. DPS/THSSAA will not be liable to Recipient for any cost incurred prior to execution of this Grant.

D. Recipient shall refund to DPS/THSSAA any sum of these Grant funds that has been determined by DPS/THSSAA to be an overpayment to Recipient or that DPS/THSSAA determines has not been spent by Recipient in accordance with this Grant. No refund payment(s) shall be made from local, state or federal grant funds unless repayment with Grant funds is specifically permitted by statute or regulation. Recipient shall make such refund to DPS/THSSAA within thirty (30) calendar days after DPS/THSSAA requests such refund.

E. Notwithstanding any other provisions, DPS/THSSAA's obligations under this Grant are contingent upon the receipt of adequate funds to meet DPS/THSSAA's liabilities hereunder, except as required by LBSP-14. DPS/THSSAA will not be liable to Recipient for costs which exceed the amount specified in this Grant.

## 5. Performance Period

The performance period for this Grant is listed on the Grant Recipient Award. All goods and services shall be received within the performance period AND all reimbursement requests shall be submitted to DPS/THSSAA within the performance period. Recipient shall have expended all Grant funds and submitted reimbursement requests and any invoices to DPS/THSSAA by the end of the performance period. DPS/THSSAA will not be obligated to reimburse expenses incurred or submitted after the performance period.

## 6. Uniform Administrative Requirements, Cost Principals and Audit Requirements

Except as specifically modified by law or this Grant, Recipient shall administer this Grant through compliance with the most recent version of all applicable laws and regulations, including but not limited to DPS/THSSAA program legislation, DPS/THSSAA program guidelines, and the terms and conditions of this Grant. A non-exclusive list is provided below.

**A. Administrative Requirements**

1. State of Texas Uniform Grant Management Standards as developed under the authority of Chapter 783, Texas Government Code

2. 44 C.F.R. Part 13, Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments (the A-102 Common Rule)

**B. Cost Principles**

1. 2 C.F.R. Part 225, Cost Principles for State, Local and Indian Tribal Governments (OMB Circular A-87)

2. OMB Circular A-133, Audits of State, Local Governments and Non-Profits

**C. Audit Requirements**

OMB Circular A-133, Audits of States, Local Governments and Non-Profit Organizations

**D. Grant Guidance**

The "Local Border Security Program Guide FY 2014 (LBSP-14)," available at
http://www.txdps.state.tx.us/director_staff/saa/2014LBSPGrantInfo.htm

## 7. State Requirements for Grants

Recipient shall comply with all federal, state, and local laws and regulations applicable to this Grant including but not limited to the laws and the regulations promulgated in Texas Government Code, Chapter 783, Uniform Grant and Contract Management, State Administrative Agency Information Bulletins, available at http://www.txdps.state.tx.us/director_staff/saa/information_bulletins.htm, Texas Uniform Grants Management Standards (UGMS) at governor.state.tx.us/files/state-grants/?UGMS062004.doc and the State Administrative Agency Sub-recipient Manual, available at http://www.txdps.state.tx.us/director_staff/saa/documents/subrecipientManual.pdf. Recipient shall, in addition to the assurances and certifications, comply and require each of its subcontractors employed in the completion of the project to comply with all applicable statutes, regulations, executive orders, OMB circulars, terms and conditions of this Grant, and the approved application.

Recipient shall comply with the State of Texas, General Appropriations Act, Art. IX, Part 4, as follows:

1. Grant funds may not be expended for a grant to a law enforcement agency regulated by Texas Occupations Code, Chapter 1701, unless the law enforcement agency requesting the grant is in compliance with all rules developed by the Commission on Law Enforcement Officer Standards and Education or the Commission on Law Enforcement Officer Standards and Education certifies that the requesting agency is in the process of achieving compliance with such rules.
2. Grant funds may not be granted to or expended by any entity which performs political polling. This prohibition does not apply to a poll conducted by an academic institution as part of the institution's academic mission that is not conducted for the benefit of a particular candidate or party.
3. Grant funds may not be expended to a unit of local government unless the following limitations and reporting requirements are satisfied:
   a. Texas General Appropriations Act, Art. IX, Parts 2 and 3, except there is no requirement for increased salaries for local government employees;
   b. Texas Government Code Sections 556.004, 556.005, and 556.006, including not using any money or vehicle to support the candidacy of any person for office; not influencing positively or negatively the payment, loan, or gift to a person or political organization for a political purpose; and not using grant funds to influence the passage or defeat of legislation including not assisting with the funding of a lobbyist, or using grant funds to pay dues to an organization with a registered lobbyist;
   c. Texas Government Code Sections 2113.012 and 2113.101 including not using grant funds to compensate any employee who uses alcoholic beverages on active duty plus Recipient may not use grant funds to purchase an alcoholic beverage and may not pay or reimburse any travel expense for an alcoholic beverage;
   d. Texas General Appropriations Act, Art. IX, Section 6.13 requiring Recipients to make every effort to attain key performance target levels associated with this grant award, including performance milestones, milestone time frames, and related performance reporting requirements; and
   e. General Appropriations Act, Art. IX, Sections 7.01 and 7.02, and Texas Government Code §2102.0091, including grant funds may only be expended if Recipient timely completes and files its reports.

## 8. Restrictions and General Conditions

A. Use of Funds. DPS/THSSAA grant funds may only used for the purposes set forth in this Grant, and shall be consistent with the authority for this Grant. Grant funds may not be used for matching funds for other Federal grants/cooperative agreements, lobbying, or intervention in Federal regulatory or adjudicatory proceedings. In addition, State funds may not be used to sue the State of Texas or any other government entity.

B. Lobbying Prohibited. No funds shall be expended by Recipient to pay any person to influence, or attempt to influence an officer or employee of any agency, a Member of State Legislature, an officer or employee of the State Legislature, or an employee of a Member of the State Legislature in connection with any State action concerning the award or renewal of any State contract, grant, loan, cooperative agreement. Tex. Gov't Code § 556.0055. Recipient shall not use any State funds, either directly or indirectly, in support of the enactment, repeal, modification or adoption of any law, regulation, or policy, at any level of government.

C. Transferring Funds. Recipient is prohibited from transferring funds between grant programs (such as SHSP, UASI, and OPSG) or between each year of this Grant

D. Notices. All notices or communications required or permitted to be given by either party hereunder shall be deemed sufficiently given if mailed by registered mail or certified mail, return receipt requested, or sent by overnight courier, such as Federal Express or Lone Star, to the other party at its respective address. For notice to DPS/THSSAA see address set forth below.

| P.O. Box 4087 |
| Austin, TX 78773-0220 |

F. Points of Contacts. Within 30 calendar days of any change, Recipient shall notify DPS/THSSAA of any change or correction to the chief elected official, program, and/or financial points of contact.

G. DUNS Number. Recipient confirms its Data Universal Numbering Systems (DUNS) Number is the number listed on this Grant. The DUNS Number is the nine digit number established and assigned by Dun and Bradstreet, Inc. If Recipient does not have a DUNS number, it may obtain one by calling 866/705-5711 or going to http://fedgov.dnb.com/webform.

H. Direct Deposit. If Recipient has not received LBSP reimbursements from DPS/THSSAA within the past eleven (11) months (prior to date of award), it shall forward a new/updated direct deposit form to DPS/THSSAA. Completed direct deposit forms from Recipient shall be emailed to SAA-LBSP@dps.texas.gov. The email subject line and attachment name shall include the jurisdiction name and identify the document attached (i.e. "*Sample County DD form*"). The direct deposit form is currently available at http://www.window.state.tx.us/taxinfo/taxforms/74-176.pdf. Recipient may simultaneously sign up for the Advance Payment Notification (APN) email feature which provides State of Texas payees with a one-business-day advance notice that a direct deposit payment has been sent to its financial institution. After receiving an APN, a payee may securely access its payment details online.

I. Procurements. Recipient shall comply with all applicable state, and local laws and requirements, including but not limited to proper competitive solicitation processes where required, for any procurement which utilizes state funds awarded under this Grant.

J. Use of DPS/THSSAA Seals and Non-Endorsement. Recipient shall obtain DPS/THSSAA's prior written approval before using its name, seal, logo, crest or reproductions. Funding of this Grant does not equate to endorsement of use of DPS/THSSAA's name.

K. Recipient shall submit the following reports:

1. Border Incident Assessment Report (BIAR): Recipient shall email, fax or hand deliver all BIARs to its supporting JOIC as soon as possible, but no later than 9:00 AM daily following each reporting period.

2 Steady State Report: Steady State activities are defined as normal patrol or investigative duties that do not use these Grant funds, but directly impact the overall LBSP mission. Recipient shall report this information to the Joint Operations and Intelligence Center.

3 Uniform Crime Reporting (UCR): Recipient shall submit UCR data to the Crime Records Division of the Texas Department of Public Safety on a monthly basis.

4 Criminal History Reporting: Recipient shall submit criminal history reporting data, including information on arrest, charges, and dispositions as required by Article 60 of the Texas Code of Criminal Procedure.

5 LBSP-14 Financial Reports. Recipient shall submit financial reports (reimbursement request) preferably on a monthly basis, but at least quarterly.

L. Unified Command (UC) Teleconferences/Meetings. Recipient shall participate in all scheduled UC teleconferences or meetings.

M. Site Visits. DPS/THSSAA, through its authorized representative, has the right at all reasonable times to make site visits to review project accomplishments and management control systems and to provide such technical assistance as may be required. If any site visit is made by DPS/THSSAA on the premises of Recipient or a contractor under this Grant, Recipient shall provide and shall require its contractors to provide all reasonable facilities and assistance for the safety and convenience of the government representatives in the performance of their duties. All site visits and evaluations shall be performed in such a manner that will not unduly delay the work.

N. Americans with Disabilities Act of 1990. Recipient shall comply with the requirements of Titles I, II, and III of the Americans with Disabilities Act, which prohibits Recipients from discriminating on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities. 42 U.S.C. §§ 12101-12213.

O. Public Dissemination of Sensitive Information. Recipient shall notify DPS/THSSAA of any workshops, conferences, seminars or other public venues at least one hundred (100) calendar days before presenting any potentially sensitive information regarding this project. No sensitive information may be presented by Recipient without DPS/THSSAA prior written approval.

P. Security Concerns/Violations. Recipient shall inform the DPS/THSSAA's Deputy Assistant Director in writing within two (2) calendar days of Recipient being made aware of any security concerns with individuals having access to government facilities or sensitive information. In the event that sensitive information is divulged in violation of Recipient's security procedures, Recipient shall immediately notify the DPS/THSSAA Deputy Assistant Director and take appropriate law enforcement and legal action.

## 9. Monitoring

DPS/THSSAA, or its authorized representative, reserves the right to perform periodic desk/office-based and/or on-site monitoring of Recipient's compliance with this Grant and of the adequacy and timeliness of Recipient's performance pursuant to this Grant. After each monitoring visit, DPS/THSSAA shall provide Recipient with a written report of the monitor's findings. If the monitoring report notes deficiencies in Recipient's performance under this Grant, the monitoring report shall include requirements for the timely correction of such deficiencies by Recipient. Failure by Recipient to take action specified in the monitoring report may be cause for suspension or termination of this Grant pursuant to the Suspension and/or Termination Section herein.

## 10. Audit

Audit of State Funds. Recipient shall arrange for the performance of an annual financial and compliance audit of funds received and performances rendered under this Grant as required by the Single Audit Act (OMB Circular A – 133; 44 C.F.R. 13.26). Recipient shall comply, as applicable, with Texas Government Code, Chapter 783, the Uniform Grant Management Standards (UGMS), the State Uniform Administrative Requirements for Grants and Cooperative Agreements.

Right to Audit. Recipient shall provide the Comptroller General of the United States, the Texas State Auditor, DPS/THSSAA, or any of their duly authorized representatives, access to and the right to conduct a financial or compliance audit of grant funds received and performances rendered under this Grant. Recipient shall permit DPS/THSSAA or its authorized representative to audit Recipient's records. Recipient shall provide any documents, materials or information necessary to facilitate such audit.

Recipient's Liability for Disallowed Costs. Recipient shall be liable to DPS/THSSAA for any costs disallowed pursuant to any financial or compliance audit(s) of these funds. Recipient further understands and agrees that reimbursement to DPS/THSSAA of such disallowed costs shall be paid by Recipient from funds that were not provided or otherwise made available to Recipient pursuant to this Grant.

Recipient's Facilitation of Audit. Recipient shall take such action to facilitate the performance of such audit(s) conducted pursuant to this section as DPS/THSSAA may require of Recipient. Recipient shall ensure that this clause concerning the authority to audit funds received indirectly by subcontractors through Recipient and the requirement to cooperate is included in any subcontract it awards.

State Auditor's Clause. Acceptance of funds under this Grant acts as acceptance of the authority of the State Auditor's Office to conduct an audit or investigation in connection with those funds. Recipient agrees to cooperate fully with the State Auditor's Office in the conduct of the audit or investigation, including providing all records requested. Recipient shall ensure that this clause concerning the State Auditor's Office's authority to audit funds and the requirement to cooperate fully with the State Auditor's Office is included in any subgrants or subcontracts it awards. Additionally, the State Auditor's Office shall at any time have access to and the rights to examine, audit, excerpt, and transcribe any pertinent books, documents, working papers, and records of Recipient relating to this Grant.

## 11. Retention and Accessibility of Records

Retention of Records. Recipient shall maintain fiscal records and supporting documentation for all expenditures of this Grant's funds pursuant to all applicable state and local laws, rules, and regulations, including but not limited to Tex. Loc. Gov't Code Ch. 203, UGMS §_42, and this Grant. Recipient shall retain these records and any supporting documentation for a minimum of three (3) years from the later of the completion of this project's public objective, submission of the final expenditure report, any litigation, dispute, or audit. Records shall be retained for three (3) years after any real estate or equipment final disposition.

Access to Records. Recipient shall give the United States Department of Homeland Security, the Comptroller General of the United States, the Texas State Auditor, DPS/THSSAA, or any of its duly authorized representatives, access to and the right to examine all books, accounts, records, reports, files, other papers, things or property belonging to or in use by Recipient pertaining to this Grant including records concerning the past use of DPS/THSSAA funds. Such rights to access shall continue as long as the records are retained by Recipient. Recipient shall maintain such records in an accessible location and provide citizens reasonable access to such records consistent with the Texas Public Information Act, Texas Government Code, Chapter 552.

Inclusion in Subcontracts. Recipient shall include the substance of the Retention of Records and Access to Records section herein in all subcontracts.

After Action Reporting. Recipient shall complete, deliver to the appropriate source, and retain copies of all after-action reports and certificates of completion for all training and exercises paid for by this Grant.

## 12. Legal Authority

Signatory Authority. Recipient assures and guarantees that Recipient possesses the legal authority to enter into this Grant, receive grant funds and to perform the project Recipient has obligated itself to perform pursuant to this Grant.

Authorized Representative. The person or persons signing and executing this Grant on Recipient's behalf do warrant and guarantee that he/she has been duly authorized by Recipient to execute this Grant on Recipient's behalf and to validly and legally bind Recipient to all terms and conditions and performance obligations.

Conflicts in Requirements. If conflict exists between federal, state, or local requirements, Recipient shall comply with the strictest requirement.

## 13. Notice of Litigation and Claims

Recipient shall provide DPS/THSSAA immediate notice in writing of any action or claim, including any proceeding before an administrative agency, filed against Recipient arising out of performance of this Grant. Except as otherwise directed by DPS/THSSAA, Recipient shall furnish immediately to DPS/THSSAA copies of all documentation or pleadings received by Recipient with respect to such action or claim.

## 14. No Liability for Employees and Officers

DPS/THSSAA shall have no liability whatsoever for the actions or omissions of an individual employed or contracted by Recipient, regardless of where the individual's actions or omissions occurred.

## 15. Non-Waiver of Defaults

Any failure of DPS/THSSAA, at any time, to enforce or require the strict keeping and performance of any provision of this Grant shall not constitute a waiver of such provision, and shall not affect or impair same or the right of DPS/THSSAA at any time to avail itself of same. A waiver does not become effective unless DPS/THSSAA expressly agrees to such waiver in writing. Any payment by DPS/THSSAA shall not constitute a waiver or otherwise impair or prejudice any right, power, privilege, or remedy available to DPS/THSSAA to enforce its rights, as such rights, powers, privileges, and remedies are specifically preserved.

## 16. Changes and Amendments

Modification. DPS/THSSAA may modify this Grant after an award has been made. Once notification has been made in writing, any subsequent request for funds indicates Recipient's acceptance of the changes to this Grant. Any alteration, addition, or deletion to this Grant by Recipient is not valid.

Written Amendment. Alterations, additions or deletions to this Grant, such as changes to period of performance and award amounts, must be made through an executed Grant Adjustment Notice (GAN).

Authority to Amend. During the period of performance for this Grant, DPS/THSSAA may issue policy directives that serve to establish, interpret or clarify this Grant's performance requirements. Such policy directives shall be promulgated by DPS/THSSAA in the form of Information Bulletins and Sub-recipient Manuals and shall have the effect of modifying this Grant and shall be binding upon Recipient as if written in this Grant.

Effect of Changes in State Laws. Any alterations, additions, or deletions to this Grant that are required by changes in state laws or regulations are automatically incorporated into this Grant without written amendment to this Grant and shall become effective upon the date designated by such law or regulation. In the event DPS/THSSAA determines that changes are necessary to this Grant after an award has been made, including changes to the period of performance or terms and conditions, Recipient shall be notified of the changes in writing. Once notification has been made, any subsequent request for funds will indicate Recipient's acceptance of the changes to this Grant.

## 17. Headings

Headings and captions of this Grant are only for convenience and reference. These headings and captions shall not affect or modify the terms and conditions or be used to interpret or assist in the construction of this Grant.

## 18. Venue

Venue shall lie in Travis County, Texas, and this Grant is governed by the laws of the State of Texas.

## 19. Suspension

In the event Recipient fails to comply with any term of this Grant, DPS/THSSAA may, upon written notification to Recipient, suspend this Grant, in whole or in part, withhold payments to Recipient and prohibit Recipient from incurring additional obligations of this Grant's funds.

## 20. Termination

DPS/THSSAA shall have the right to terminate this Grant, in whole or in part, at any time before the end of the Performance Period, if DPS/THSSAA determines that Recipient has failed to comply with any term of this Grant. DPS/THSSAA shall provide written notice of the termination and include:

1. The reason(s) for such termination;
2. The effective date of such termination; and
3. In the case of partial termination, the portion of this Grant to be terminated.

## 21. Enforcement

If Recipient materially fails to comply with any term of this Grant, whether stated in a federal or state statute or regulation, an assurance, in a state plan or application, a notice of award, or elsewhere, DPS/THSSAA may take one or more of the following actions, as appropriate in the circumstances:

1. Temporarily withhold cash payments pending correction of the deficiency by Recipient or more severe enforcement action by DPS/THSSAA;

2. Disallow, that is, deny both use of funds and matching credit for, all or part of the cost of the activity or action not in compliance;
3. Wholly or partially suspend or terminate this Grant for Recipient's program;
4. Withhold further awards for the program; or
5. Take other remedies that may be legally available.

The costs of Recipient resulting from obligations incurred by Recipient during a suspension or after termination of this Grant are not allowable unless DPS/THSSAA expressly authorizes them in the notice of suspension or termination or subsequently. Other Recipient costs during suspension or after termination which are necessary and not reasonably avoidable are allowable if:

1. The costs result from obligations which were properly incurred by Recipient before the effective date of suspension or termination, are not in anticipation of it, and in the case of a termination, are non-cancellable; and
2. The costs would be allowable if this Grant were not suspended or expired normally at the end of the funding period in which the termination takes effects.

The enforcement remedies identified in this section, including suspension and termination, do not preclude Recipient from being subject to "Debarment and Suspension" under E.O. 12549 or 44 C.F.R. §13.35.

## 22. Conflict of Interest

No employee, officer or agent of Recipient shall participate in the selection, or in the award or administration of a contract supported by State funds if a conflict of interest, real or apparent, is involved or otherwise creates the appearance of impropriety.

## 23. Closing of the Grant

A. DPS/THSSAA will close this Grant after receiving Recipient's final performance report indicating that all approved work has been completed and all funds have been disbursed, completing a review to confirm the accuracy of the reported information, and reconciling actual costs to award modifications and payments. If the close out review and reconciliation indicates that Recipient is owed additional funds, DPS/THSSAA will send the final payment automatically to Recipient. If Recipient did not use all the funds received, DPS/THSSAA will issue a Grant Adjustment Notice (GAN) to recover the unused funds. Recipient shall return the funds to the DPS/THSSAA within 30 calendar days of receiving the GAN.

B. At the completion of Recipient's performance period, DPS/THSSAA will de-obligate all uncommitted / unexpended funds, which shall be returned to DPS/THSSAA, and will no longer available to Recipient once de-obligated.

C. The closeout of this Grant does not affect:

1. DPS/THSSAA's right to disallow costs and recover funds on the basis of a later audit or other review;
2. Recipient's obligation to return any funds due as a result of later refunds, corrections, or other transactions;
3. Records retention requirements, property management requirements, and audit requirements, as set forth herein; and
4. Any other provisions of this Grant that impose continuing obligations on Recipient or that govern the rights and limitations of the parties to this Grant after the expiration or termination of this Grant.

## EXHIBIT A

**CERTIFICATIONS**

1. **DRUG-FREE WORKPLACE** - Recipient certifies that it will provide a drug-free workplace by:
   A. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession, or use of a controlled substance is prohibited in the Grantee's workplace and specifying the actions that will be taken against employees for violation of such prohibition.
   B. Establishing a drug-free awareness program to inform employees about:
      i. the dangers of drug abuse in the workplace;
      ii. Recipient's policy of maintaining a drug-free workplace;
      iii. any available drug counseling, rehabilitation, and employee assistance programs; and
      iv. the penalties that may be imposed upon employees for drug abuse violations.
   C. Requiring each employee to be engaged in the performance of this Grant be given a copy of the statement required by paragraph (A).
   D. Notifying the employee in the statement required by paragraph (A) that, as a condition of employment under this Grant, the employee shall:
      i. abide by the terms of the statement, and
      ii. notify the employer of any criminal drug statute conviction for a violation occurring in the workplace not later than five calendar days after such conviction.
   E. Notifying DPS/THSSAA within ten calendar days after receiving notice under subparagraph (D) (ii) from an employee or otherwise receiving actual notice of such conviction.
   F. Taking one of the following actions with respect to any employee who is so convicted:
      i. appropriate personnel action against such an employee, up to and including termination; or
      ii. requiring such employee to participate satisfactorily in drug abuse assistance or rehabilitation program approved for such purposes by a federal, state, or local health, law enforcement, or other appropriate agency.
   G. Making a good faith effort to continue to maintain a drug-free workplace through the implementation of this section.

2. **LOBBYING –** Recipient certifies that:
   A. It will not use grant funds, either directly or indirectly, in support of the enactment, repeal, modification, or adoption of any law, regulation or policy, at any level of government.
   B. If any non-grant funds have been or will be used in support of the enactment, repeal, modification, or adoption of any law, regulation or policy, at any level of government, it shall notify DPS/THSSAA to obtain the appropriate disclosure form.
   C. It will include the language of paragraphs (A) and (B_ of this section in the award documents for all sub-awards or sub-contracts at all tiers and will require all sub-recipients and subcontractors to certify accordingly.

***Please fill in the appropriate information and sign to certify this Exhibit A, if applicable.***

## EXHIBIT B

### ASSURANCES

As the duly authorized representative of Recipient, I certify that Recipient:

1. Shall comply with Texas Government Code, Chapter 573, by ensuring that no officer, employee, or member of Recipient's governing body or of Recipient's contractor shall vote or confirm the employment of any person related within the second degree of affinity or the third degree of consanguinity to any member of the governing body or to any other officer or employee authorized to employ or supervise such person. This prohibition shall not prohibit the employment of a person who shall have been continuously employed for a period of two years, or such other period stipulated by local law, prior to the election or appointment of the officer, employee, or governing body member related to such person in the prohibited degree.
2. Shall insure that all information collected, assembled, or maintained by Recipient relative to a project will be available to the public during normal business hours in compliance with Texas Government Code, Chapter 552, unless otherwise expressly prohibited by law.
3. Shall comply with Texas Government Code, Chapter 551, which requires all regular, special, or called meetings of governmental bodies to be open to the public, except as otherwise provided by law or specifically permitted in the Texas Constitution.
4. Shall comply with Section 231.006, Texas Family Code, which prohibits payments to a person who is in arrears on child support payments.
5. Shall not contract with or issue a license, certificate, or permit to the owner, operator, or administrator of a facility if Recipient is a health, human services, public safety, or law enforcement agency and the license, permit, or certificate has been revoked by another health and human services agency or public safety or law enforcement agency.
6. Shall comply with all rules adopted by the Texas Commission on Law Enforcement Officer Standards and Education pursuant to Chapter 1701, Texas Occupations Code, or shall provide the grantor agency with a certification from the Texas Commission on Law Enforcement Officer Standards and Education that the agency is in the process of achieving compliance with such rules if Recipient is a law enforcement agency regulated by Texas Occupations Code, Chapter 1701.
7. Shall follow all assurances. When incorporated into a grant award or contract, standard assurances contained in the application package become terms or conditions for receipt of grant funds. Administering state agencies and Recipients shall maintain an appropriate contract administration system to insure that all terms, conditions, and specifications are met. (See UGMS Section _.36 for additional guidance on contract provisions).
8. Shall comply with the Texas Family Code, Section 261.101, which requires reporting of all suspected cases of child abuse to local law enforcement authorities and to the Texas Department of Child Protective and Regulatory Services. Recipient shall also ensure that all program personnel are properly trained and aware of this requirement.
9. Shall comply with all federal statutes relating to nondiscrimination. These include but are not limited to: (a) Title VI of the Civil Rights Act of 1964 (P.L. 88-352), which prohibits discrimination on the basis of race, color, or national origin; (b) Title IX of the Education Amendments of 1972, as amended (20 U.S.C. §§1681-1683, and 1685-1686), which prohibits discrimination on the basis of sex; (c) Section 504 of the Rehabilitation Act of 1973, as amended (29 U.S.C. §794), which prohibits discrimination on the basis of handicaps and the Americans with Disabilities Act of 1990 including Titles I, II, and III of the Americans with Disability Act which prohibits recipients from discriminating on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing entities, 44 U.S.C. §§ 12101-12213; (d) the Age Discrimination Act of 1974, as amended (42 U.S.C. §§6101-6107), which prohibits discrimination on the basis of age; (e) the Drug Abuse Office and Treatment Act of 1972 (P.L. 92-255), as amended, relating to nondiscrimination on the basis of drug abuse; (f) the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (P.L. 91-616), as amended, relating to the nondiscrimination on the basis of alcohol abuse or alcoholism; (g) §§523 and 527 of the Public Health Service Act of 1912 (42 U.S.C. §§290dd-3 and 290ee-3), as amended, relating to confidentiality of alcohol and drug abuse patient records; (h) Title VIII of the Civil Rights Act of 1968 (42 U.S.C. §§3601 et seq.), as amended, relating to nondiscrimination in the sale, rental, or financing of housing; (i) any other nondiscrimination provisions in the specific statute(s) under which application for Federal assistance is being made; and (j) the requirements of any other nondiscrimination statute(s) which may apply to this Grant.
10. Shall comply, as applicable, with the provisions of the Davis-Bacon Act (40 U.S.C. §§276a to 276a-7), the Copeland Act (40 U.S.C. §276c and 18 U.S.C. §874), and the Contract Work Hours and Safety Standards Act (40 U.S.C. §§327-333), regarding labor standards for federally assisted construction sub-agreements.
11. Shall comply with the provisions of the Hatch Political Activity Act (5 U.S.C. §§7321-29), which limit the political activity of employees whose principal employment activities are funded in whole or in part with Federal funds.
12. Shall comply with the minimum wage and maximum hours provisions of the Federal Fair Labor Standards Act and the Intergovernmental Personnel Act of 1970, as applicable.
13. Shall insure that the facilities under its ownership, lease, or supervision which shall be utilized in the accomplishment of the project are not listed on the Environmental Protection Agency's (EPA) list of Violating Facilities and that it will notify the Federal grantor

agency of the receipt of any communication from the Director of the EPA Office of Federal Activities indicating that a facility to be used in the project is under consideration for listing by the EPA (EO 11738).

14. Shall comply with all State of Texas tax laws and are solely responsible for filing all required state and federal tax forms.
15. Shall comply with all applicable requirements of all state laws, executive orders, regulations, and policies governing this program.
16 Certifies that is and its principals are eligible to participate and have not been subjected to suspension, debarment, or similar ineligibility determined by any federal, state, or local governmental entity and it is not listed on a state or federal government's terrorism watch list as described in Executive Order 13224. Entities ineligible for federal procurement have Exclusions listed at https://www.sam.gov/portal/public/SAM/.
17. Shall adopt and implement applicable provisions of the model HIV/AIDS work place guidelines of the Texas Department of Health as required by the Texas Health and Safety Code, Ann., Sec. 85.001, et seq.

***Please fill in the appropriate information and sign to certify this Exhibit B.***

February 12, 2014

Dear Authorized Official,

Attached are FY2014 Local Border Security Program (LBSP) grant award documents for your jurisdiction/agency. This letter, and the attached documents, contain important information about the grant and provide instructions requiring your immediate action for grant acceptance.

Please follow the instructions at the top of the first page of the Terms and Conditions, and return all documents as instructed below to the Texas Department of Public Safety, Texas Homeland Security State Administrative Agency (THSSAA) **no later than March 31, 2014.**

The Grant Recipient Agreement (GRA) which includes the Grant Award, the Terms and Conditions, and attached Exhibits must be filled out, and signed by the person identified (Authorized Official) on the grant award. Signature by anyone else will only be accepted if a letter of designation from the governing body is attached that authorizes the person to sign for the Grantee. Letters of signature designation will be deemed as authorization for that person to sign any future documents related to the grant award unless the letter indicates otherwise.

**Return GRA via E-mail**

The FY2014 GRA documents should be returned via email to SAA-LBSP@dps.texas.gov by the date indicated above. Please title the subject line of your email "LBSP" and name of jurisdiction (i.e. LBSP El Paso, City of). Submit the executed (signed) GRA (including a signed Award and the signed Terms and Conditions) as an attachment to the email using the same naming convention (i.e. LBSP Hidalgo County.pdf).

Please retain the original copy of each document submitted to the THSSAA for your records. The grant awards may be withdrawn if all required documents are not completed and submitted to the THSSAA within the deadline established above.

**FY2014 LBSP Key Dates**

| | |
|---|---|
| February 12, 2014 | Date award Issued to Grantees |
| March 31, 2014 | Deadline for signed Grant Recipient Agreement (GRA) to be returned to the SAA |
| August 31, 2014 | End of Grantee's performance period |
| October 15, 2014 | Liquidation Date<br>(Final invoices/reimbursement requests are due to the THSSAA) |

If you have any questions regarding the LBSP grant, please contact Sherry Saba at 512-377-0024.

Sincerely,

Machelle Pharr
Deputy Assistant Director
Texas Homeland Security State Administrative Agency

**RE: Certification of Revenue**

Dear Judge and Commissioners:

Pursuant to Local Government Code § 111.0706 SPECIAL BUDGET FOR GRANT OR AID MONEY:

> The county auditor shall certify to the commissioners court the receipt of all public or private grant or aid money that is available for disbursement in a fiscal year but not included in the budget for that fiscal year. On certification, the court shall adopt a special budget for the limited purpose of spending the grant or aid money for its intended purpose.

I, Ray Eufracio, County Auditor of Hidalgo County, certify to the Hidalgo County Commissioners Court the receipt of an award from the Texas Department of Public Safety – Texas Homeland Security State Administrative Agency. These funds may now be made available by creating a new special budget or amending a current budget for its intended purposes.

**RE: BP2-LHD-76**

Ms. Long,

I wish to inform you of a funding change request for the following project: ***BP2-LHD-76*** Community Preparedness of Responder and Volunteer which was funded at $36,769.00 DSHS amount.

***BP2-LHD-76*** discretionary funded project's budget is being resubmitted for consideration, the changes are due to the type of equipment required to be utilized in a field operations environment and must have the capability to deal with such an event. The current equipment listed was limited to use in a controlled environment and is less reliable in a field setting. The change in equipment and pricing will represent an RFID system which will be more robust and effective. The overall scope and purpose of the project will remain the same. Your support in will be greatly appreciated.

The increase requested is $11,334.00 DSHS amount for a total revised DSHS funds amount of $48,103.00.

If you have any questions please do not hesitate to contact me at (956) 383-6221 Ext. 7211

See new budget worksheet.

Respectfully,

Eduardo "Eddie" Olivarez
Chief Administrative Officer
Hidalgo County Health and Human Services Dept.

**Cc:** DeLaFuente,Edith (DSHS)
**Subject:** OBH Funding for Community-based Healthy Border Initiatives
**Attachments:** CBHBI Funding Request Template.docx

**Importance:** High

Hi Mike,

We are working on our community-based healthy border initiatives work plans for the border health commission grant. This funding cycle (term 03/1/14 – 08/31/14), we have $6,500 available for the Hidalgo Reynosa Binational Health Council for projects. I understood there were some changes in personnel so I'm not sure who my point person is, so I would really appreciate if you could assist me with that. We would like to get a completed template within the next 30 days but if that is not possible, please let me know and we can work out a deadline.

I am attaching the funding request template. It works the same as in years past. The council meets and approves their projects, the lead completes the template and returns it to me and Edith deLafuente at edith.delafuente@dshs.state.tx. The template will then be reviewed by both of us and our recommendations will go to our Director for review and approval. Once approved, a PO will be issued and work may commence.

As for the type of projects, they can be any project that address the priorities of the U.S. – Mexico Border Health Commission. The priorities are (1) TB; (2) Obesity/Diabetes; (3) Infectious disease and public health emergencies; (4) Strategic planning; (5) Access to Care and research; and, (6) Data collection and academia alliances. The Commission does highlight the obesity/diabetes priority for the BBHW theme.

Please let me know if you have any questions.

Thanks,

Kathie Martinez

## PREFACE

Hidalgo County Health & Human Services - Environmental Division (HCHHS-ED) is authorized to enforce state and federal laws and rules adopted under state law concerning food service establishments, retail food stores, mobile food units, and roadside food vendors, pursuant to Texas Health and Safety Code Section 437.002(a), as amended. TEX. HEALTH & SAFETY CODE ANN. §§ 437.001 *et seq*., as amended. 25 TEX. ADM. CODE §§ 229.161-229.171,229.173 -229.175, as amended. HCHHS is a participating agency in the FDA Voluntary National Retail Food Regulatory Program Standards, 2011.

To enforce state law and rules adopted under state law, Hidalgo County by order may require food service establishments, retail food stores, mobile food units, and roadside food vendors in unincorporated areas of the county, including areas in the extraterritorial jurisdiction of a municipality, to obtain a permit from the County. TEX. HEALTH & SAFETY CODE ANN. §437.003, as amended. 25 TEX. ADM. CODE § 229.373, as amended.

Pursuant to Texas Administration Code Title 25, Chapter 229, Section 169(a)(1), Hidalgo County may impose additional requirements to protect against health hazards related to the conduct of food establishments as a mobile operation, may prohibit the sale of some or all potentially hazardous food, and when no health hazard will result, may waive or modify certain requirements relating to physical facilities. 25 TEX. ADM. CODE § 229 .169( a)( 1), as amended.

## I. PURPOSE

The purpose of these Rules is to safeguard public health and better assure that consumers obtain food that is safe, unadulterated, and honestly presented by establishing uniform monitoring for food establishments in the unincorporated areas of

Hidalgo County, including areas in the extraterritorial jurisdiction of a municipality, or a municipality that does not have a health department.

## II. DEFINITIONS

Words and phrases used in these Rules shall have the meanings provided in Health and Safety Code, Chapter 437 and Texas Administrative Code Title 25, Chapter 229. TEX. HEALTH & SAFETY CODE ANN. §§ 437.001 *et seq*., as amended. 25 TEX. ADM. CODE §§ 229.161 -229.171, and 229.173 -229.175, as amended.

## III. PERMITS

A. No person shall operate a food establishment in unincorporated areas of the county, including areas in the extraterritorial jurisdiction of a municipality, without having a permit issued by HCHHS-ED. Permits are not transferable from one person to another or from one location to another location, except as permitted by these Rules. A valid permit must be posted in or on every food establishment in a conspicuous place. Only a person who complies with the requirements of state law and regulations and these Rules shall be entitled to a permit.

B. A food establishment operated solely by a nonprofit organization is exempt from the permitting requirement of these Rules, but is not exempt from compliance with state law and regulations. An organization claiming exemption from these Rules as a nonprofit organization shall provide HCHHS-ED with such documentation as HCHHS-ED deems necessary to prove the establishment's current tax-exempt status as a nonprofit organization.

C. An establishment is not a food establishment for the purposes of these Rules if it is excluded from the definition of food establishment under Texas Administrative Code Title 25, Chapter 229, Section 162(40), as amended. 25 TEX. ADM. CODE § 229.162(40), as amended.

D. If an inspector finds that a food vendor is operating without a valid permit issued by HCHHS-ED, the food establishment will be closed for business until the permit is appropriately acquired by the vendor at HCHHS-ED.

1. 1st violation: Verbal and/or written notice to begin permitting process before next operational period.
   a. Establishment/vendor must close for business until permit is obtained.
2. 2nd violation: If same vendor continues to operate without a valid permit
   a. Vendor will be closed for business until valid permit is obtained.
   b. Voluntary destruction of food product will be requested by inspector. (Texas Food Establishment Rules 229.161 -175) and
   c. Citation issued to vendor

## IV. ISSUANCE OF PERMIT

A. Any person desiring to operate a food establishment must make a written application for a permit on forms provided by HCHHS. The application must contain the name and address of each applicant, the location and type of the proposed food establishment, the applicable fee, and signature of applicant(s). An incomplete application will not be processed, even if initially accepted. Failure to provide all required information or falsifying information required may result in denial or revocation of the permit. Payment for a permit by a check that is returned for insufficient funds may result in revocation of the permit. Renewals of permits are required on an annual basis, unless otherwise specified and the same information is required for a renewal permit as for an initial permit.

B. Prior to the approval of an initial permit or the renewal of an existing permit, HCHHS shall inspect the proposed food establishment to determine compliance with state law and local regulations. The applicant or permit holder must pay all applicable fees before a permit is issued.

C. Any person desiring to construct or extensively remodel a food establishment and whenever a fixed existing structure is converted to use as a food establishment, a person must comply with policies and procedures of the Hidalgo County Planning Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.

D. The person must present to HCHHS-ED: a routing sheet with approval from Planning Department, Environmental Health (OSSF Division), Environmental Compliance, and an approved inspection from Fire Marshal. No permit shall be issued until HCHHS-ED determines by final inspection that all construction, remodeling or conversion has been performed in accordance with the approved plans and specifications.

E. Whenever a food establishment is constructed or extensively remodeled, or whenever a fixed existing establishment is converted to a food establishment, at least one pre-opening inspection shall be made. The purpose of the pre-opening inspection(s) is to ensure compliance with the approved submitted plans, state law, federal regulations, and rules adopted by Hidalgo County.

1. Flea market facilities with a permanent restaurant must obtain a food establishment permit and comply with all requirements A-D.

F. There shall be an annual renewal, unless otherwise specified of a permit issued under these Rules. The renewal process shall be initiated by inspection to assure compliance with federal, state, and local regulations adopted by Hidalgo County.

G. Any false statement made in an application, inspection, and/or maintenance log is a basis for denial or revocation of the permit.

1. A mobile food vendor must present at every inspection a maintenance log of waste disposal and corresponding receipts.
2. The permit-holder shall maintain a log of all daily operational periods to include:
    a. date of operation
    b. time open for business
    c. time closed for business
    d. location of operation.

H. Prior to the issuance of a permit, the applicant or permit holder must pay all applicable fees, which may include a new facility inspection fee. HCHHS shall issue a permit to the applicant only if its inspection reveals that the food establishment complies with requirements of these Rules and state law and regulations.

J. An applicant or permit holder that does not comply with federal, state law and local regulations may be denied a permit or the renewal of a permit.

## V. ADDITIONAL REQUIREMENTS FOR MOBILE FOOD ESTABLISHMENTS. 25 TEX. ADM. CODE § 229.169 HIDALGO COUNTY COMMISSIONERS COURT

A. All mobile food establishments including pushcarts and roadside food vendors, shall be readily identifiable by business name, printed in bold black letters not less than three (3) inches in height, no less than one and one-half (1.5) inches in width, permanently affixed, and prominently displayed upon at least two (2) sides of the units.

B. Prior to the approval of the initial permit or renewal of an existing permit, the applicant or permit holder shall provide written details or plans regarding the systems installed for approved water source, distribution, delivery, and retention and for waste, sewage, and wastewater retention, drainage, and disposal or removal. In addition, a person must comply with policies and procedures of the Hidalgo County Planning Department, Right of Way Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.

C. The person must present to HCHHS-ED: a routing sheet with approval from Planning Department, Environmental Health (OSSF Division), Environmental Compliance, and an approved inspection from Fire Marshal. No permit shall be issued until HCHHS-ED determines by final inspection that all referenced County departments recommend approval for the mobile food vendor permit according to the proposed specifications listed on the application.

D. A pushcart unit shall not exceed four (4) feet in width, eight (8) feet in length, and eight (8) feet in height including a unit's shade umbrella. In the event of an emergency situation, the unit shall be easily movable, controllable, and maneuverable by one (1)

person when the unit is fully loaded. The bottom of the unit shall be at least one (1) foot from the ground. The unit shall not be self-propelled.

1. The unit must have at least 2 (two) reflective devices on each side to be seen in low-light conditions.
2. The unit must be affiliated with a certified commercial vendor.
3. The operator of the unit must wear a reflective safety vest at all times while the unit is in operation.
4. Shall only sell pre-packaged, sealed foods and/or beverages.
5. Shall not sell or prepare fresh food and/or beverages, hot or cold, on the unit.

E. Live animals shall be excluded from the immediate adjacent onsite or adjoining property within 100 feet of surrounding areas of all mobile food establishments.

F. If toilet facilities are not provided on a mobile food establishment, a toilet facility shall be located on an onsite or adjoining property within 300 feet of the mobile food establishment. Upon application for a permit hereunder, a mobile unit operator must provide HCHHS-ED with written and notarized permission by the owner of the toilet facility for use of restrooms by the permit holder and corresponding schedule every 120 days. A mobile unit may not operate when the facility providing the toilet facilities are not accessible. Restroom facilities must be located within a building and must include a flush-type toilet and hand lavatory supplied with hot and cold running water under pressure. Port-A-Cans or similar facilities are prohibited. This provision does not apply to push cart units (i.e., mobile units that do not engage in any food preparation.).

G. All motor vehicles and/or pull trailers operating as mobile food establishments upon open roads, streets, and highways shall maintain a current Texas motor vehicle inspection sticker and a current Texas motor-vehicle license-plate registration sticker.

1. All mobile units, including push carts, must comply with all Texas Traffic and Safety Laws while the unit is in operation; including Section 285.001 of the Texas Transportation Code, as amended.

H. All mobile vehicles must be commercial grade, generator-powered, and certified to meet all State health standards and Texas Department of Transportation standards.

I. If a mobile vendor is going to utilize electricity of an adjacent commercial business by plugging into an electrical outlet during hours of operation, the mobile vendor must submit a notarized letter of permission for use of electricity by the commercial business owner.

1. The letter should be updated every 120 days and be on file with HCHHS-ED.
2. Outlet must comply with Hidalgo County Fire Marshal, National Fire Protection Association, and International Code Council – International Fire Code rules, regulations, and standards.
3. Outlet must be a standard plug-in type and all cords readily removable.

J. All mobile vehicles shall be readily moveable.

1. All mobile food vendors, including push carts, shall not provide tables/seating, or any additional structures around or adjacent to the unit.

K. All mobile food vendors serving fresh food must do so in single-serve, single-use containers designed for transport.

L. . Flea market establishments allowing the sale of food:

1. Permanent structure food court must have:
    a. Restroom facilities within 300 feet
    b. Plumbing with hot and cold water
    c. Proper waste disposal and
    d. A permanent structure food court shall consist of at least two (2) or more food vendors operating from a permanent or semi-permanent structure (i.e., not readily moveable).
2. Mobile vendor food courts must have:
    a. Restroom facilities within 300 feet
    b. Paved parking space
    c. Electrical outlet and
    d. Waste disposal connection
    e. A mobile vendor food court shall consist of at least two (2) or more mobile food vendors (does not include push carts) operating simultaneously on the same tract or parcel of land.
3. All flea market food vendors regardless of type must be in compliance with Hidalgo County Planning Department, Right of Way Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.
4. Flea market owners with a permanent or mobile food court must maintain a current Food Manager's Certification at all times of operation.
5. All persons engaged in the sale and/or preparation of food must maintain a current Food Handler's Certification at all times of operation.

M. Mobile Vendor Food Courts

1. Mobile vendor food courts must have:
    a. Paved parking space
    b. Electrical outlet
    c. Waste disposal connection and
    d. Appropriate restroom facilities within 300 feet of mobile food vendor vehicles
    e. A mobile vendor food court shall consist of at least two (2) or more mobile food vendors (does not include push carts) operating simultaneously on the same tract or parcel of land.

## VI. ADDITIONAL REQUIREMENTS

A. As approved by Order by the Hidalgo County Commissioners Court, HCHHS may impose additional requirements for all food establishments, as follows:

*1. Food Manager's Certificate: The owner of the food establishment and the Manager of the food establishment must obtain a Food Manager's Certificate before a permit is issued.*

*2. Food Handler's Certificate: All employees of a food establishment must obtain a Food Handler's Certificate.*

*a. The Food Handler's Class will be conducted at HCHHS as scheduled.*

*b. The individual must call the HCHHS-ED to register for the class.*

*c. Term: The Food Handler's Certificate shall be valid for two (2) years from the date issued.*

*d. Fee: A fee of $20.00 (twenty dollars) shall be paid prior to attending the Food Handler's Class.*

*e. A picture identification card will be issued to each individual that satisfactorily completes all requirements of the Food Handler's Class.*

B. As approved by Order of the Hidalgo County Commissioners Court, HCHHS may impose additional requirements for all mobile food vendors, as follows:

*1. Display: A valid decal shall be displayed by a mobile food vendor.*

*a. Outside of the service window on the left or right side, used in connection with the mobile food vending operation.*

*b. On the trailer fender above the tailgate and license plate of an open, flat bed or enclosed trailer used in connection with the mobile food vending operation.*

*c. At the top right-hand corner on the front of a pushcart, used in connection with the mobile food vending operation.*

*d. Non-transferability: Mobile food vendor permits shall not be transferred or assigned to alternate units and shall be considered revoked should the character of the food vending operation be changed from that specified in the permit.*

*e. Fee: A fee of $5.00 (five dollars) shall be paid for each mobile unit decal in addition to the health permit.*

*2. Term: Mobile food vendor permits shall be valid for one (1) year from the date of issue unless sooner suspended or revoked.*

*a. Mobile food vendors shall be required to submit to a scheduled inspection every 120 days at Hidalgo County Health & Human Services Environmental Division. Failure to submit to scheduled inspection shall be grounds for suspension or revocation of vendor permit.*

*3. Notice: All mobile food vendors shall provide and maintain on file with HCHHS Environmental Division current hours of operation at all times.*

*a. All vendors are subject to random inspection during normal business hours.*

*4. Violation(s): during a scheduled or random inspection*

*a. Verbal and/or written notice to correct violation(s): May be issued at the discretion of the inspector depending on the type and severity of the violation(s).*

*1. 1st violation: Establishment must close for business until violations are corrected.*

*a. These violations must be fixed on-site or within the allotted time specified by the inspector.*

*b. Voluntary disposal of food product may be requested by the inspector.*

*c. Citation may be issued by inspector*

*2. 2nd violation: If vendor does not comply within the allotted time, the permit shall be suspended or revoked until violations are corrected.*

*a. Voluntary disposal of food product may be requested by the inspector.*

*b. Citation may be issued by inspector.*

## VII. APPLICATION AFTER REVOCATION

Whenever a revocation of a permit has become final, the holder of the revoked permit shall make written application for a new permit, and the food establishment may be required to submit plans and be subject to a pre-opening inspection.

## VIII. CRIMINAL PENALTY

A. A person commits an offense if the person operates a food service establishment, retail food store, mobile food unit, or roadside food vendor without a permit required by Hidalgo County. TEX. HEALTH & SAFETY CODE ANN. § 437.016, as amended.

B. An offense under this Section is a Class C Misdemeanor.

C. Each day on which a violation occurs constitutes a separate offense.

## IX. INJUNCTION

The District Attorney of Hidalgo County may sue in district court to enjoin a food establishment, retail food store, mobile food unit, or roadside food vendor from operating without a permit, if one is required. TEX. HEALTH & SAFETY CODE ANN. § 437.015, as amended.

## X. FEES

The following fees are to be paid in connection with applications submitted pursuant to these Rules for the issuance or renewal of a permit.

| Type of Establishment | Fee |
|---|---|
| *Temporary Food Permit (14 days) | $25.00 |
| **Mobile Food Vendor Permit (1 year) | $100.00 |
| Food Establishments with 1 – 10 employees | $100.00 |
| Food Establishments with 11 – 20 employees | $125.00 |
| Food Establishments with 21 or more employees | $150.00 |

*Separate businesses occupying the same booth must purchase individual permits. A business or individual who operates more than one booth at an event must designate the specific location of each booth at the event and must purchase a separate permit for each booth location.

**If a mobile food vendor has more than one (1) mobile unit to conduct the sale of food products, a separate permit must be obtained for each mobile unit.

## XI. ENFORCEMENT

The provisions of these Rules shall be enforced by the Chief Administrative Officer of HCHHS (the CAO) or the CAO's authorized representative. It shall be a violation of these Rules for any person in a food establishment to deny access to the CAO or authorized representatives in the performance of the CAO's duties.

HCHHS employees who are not police officers but who have been trained to enforce the health and safety laws relating to food, water, waste control, general sanitation, or vector control are authorized pursuant to Sections 121.031 and 121.032 of the Texas Health and Safety Code and these Rules by Order of Hidalgo County Commissioners Court, to issue citations for violations occurring in the unincorporated areas of Hidalgo County, including areas in the extraterritorial jurisdiction of a municipality. Such citations must state the name of the person cited, the violation charged, and the time and place the person is required to appear in court.

## XII. SEVERABILITY

If any section, subsection, clause, phrase, or portion of these Rules is, for any reason, held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision, and such holding shall not affect the validity of the remaining portions of these Rules.

Environmental Health

# Starting A Food Business in Hidalgo County

This guide is for prospective operators of Food Enterprises ( food establishments, retail food stores, food warehouse, and food processors) operating within the jurisdiction of Hidalgo County. These establishments fall under the regulatory responsibility of Hidalgo County Health and Human Services Department. Guidelines for Farmers markets, Mobile Vendors and temporary Food Events are found at 1304 S 25th St Edinburg, TX 78542, or at http://www.hchd.org/environmentalhealth

Hidalgo County is divided into 5 sections , each having a designated Health Inspector. Your Health Inspector will assist you with questions on pre-opening process for Food Enterprises. Contact the Health Department Plan Review Desk (956) 383-0111 for questions concerning your building plans. Staff is also available to assist with questions on Food manager Certification, Food Handler Registration and application & inspection payments. Call us at (956) 383-0111 to contact your designated Health Inspector or our administrative staff.

Some incorporated cities within Hidalgo County also have contracts for Food Enterprise inspections with HCHHSD. The city offices in the cities will advise you if this is the case where you are operating. Almost all categories of Food Enterprises require approval from HCHHSD.

## Home Preparation of Food Prohibited

Except for those business that meet the requirements of a Cottage Food Industry, home preparation of food for public consumption is prohibited. All food that is to be consumed by the public, whether free or for dale, must be prepared at a permitted establishment that is inspected by federal, state, or local Health Authority.

## Cottage Food Industry

A cottage food production operation is not required to have a Hidalgo County food permit. Before operating a food business, check with other Hidalgo County Departments to determine if there are laws or ordinances, such as zoning, that will affect your business. For information on the Cottage Food Industry visit: http://www.texascottagefoodlaw.com/

## Operating Permits – Food Enterprises

The Food Enterprise application is available at 1) Hidalgo County Health department – Environmental Division located at 1304 S. 25th St Edinburg, TX 78542 2) our website, http://www.hchd.org/environmentalhealth . We recommend you submit a fully completed application and fees one month prior to your anticipated opening date. This gives our staff the needed lead time to process it and schedule any needed pre-opening inspections. Our staff thoroughly reviews each form to ensure accuracy of info provided. Incomplete applications will delay your approval.

Food permits are in effect for one year from the first of the month of the month it was issue, and are renewable each year, thereafter, when the appropriate fee is paid and the enterprise remains in compliance with Health Dept regulations.

## Operating Permit: Posting Requirements

A permit holder or person in charge of a Food Enterprise shall post a permit required by Hidalgo County Code in a prominent public location clearly visible to the general public and to patrons. A permit is clearly visible to the general public and to patrons if it is:

1. Posted in the front window of the enterprise within 5 feet of the front door; or
2. Posted in a display case mounted on the outside front wall of the enterprise within 5 feet of the front door; or
3. Posted on the drive – through menu board of a drive – through enterprise, in addition to posting in locations 1 and 2 of this section; or
4. In the Food enterprise is operated in a space that prevents posting the permit as required in 1 and 3, the permit shall be posted in the initial patron contact area, on the menu board or counter of the enterprise, or in a location determined by the Health Authority to ensure proper notice to the general public and patrons.

## Permit Fees

1 to 10 employees $ 100.00

11 - 20 employees $ 125.00

21 or more employees $150.00

Temporary Food permit $ 25.00

Mobile Vendor $ 100.00

**Health Department Plan Notes**

1. **Refrigeration** All refrigerated units are to hold foods at or below 41 F.
2. **Restrooms** If the facility has only carry -out or seating for less than 20 people, and less than 10 employees, then only one employee restroom is required by the Health Dept. Two restrooms are required if alcohol is served on the premises or more than 20 seats are provided. Each restroom must have a hand sink with hot (at least 100º) and cold water, mechanical air ventilation to the outside, and a solid, self closing door. Restrooms may not ope directly into a kitchen. The total number of restrooms for a childcare facility is dependent on the "minimum standards" of the Texas Dept. of Family and Protective Services as it relates to childcare.
3. **Sinks A. Hand washing Sinks:**Shall be located to allow convenient use by employees in food preparation, food dispensing, ware wash areas, and any wait station where ice is dispensed, bar area or in a walk-in where meat is cut or trimmed. At least one hand sink will be required; additional, separate hand sinks may also be required. Small kitchens with small prep and ware washing in close proximity may be allowed to use one hand sink to serve both activities. Other hand sinks must be associated with restrooms. Provide at least 12" tall splash guards if a hand sink is located near food prep, open food, ice, or clean food contact surfaces. Otherwise, the hand sink must have at least 18" lateral separation from these. A sign or poster that notifies food employees to wash their hands shall be provided to all hand washing sinks and be clarity visible. A small, swinging door (as in a bar area) could separate a hand sink from a work area, otherwise no doors separating hand sink from work areas.

Each sink must be supplied with hot (100º) and cold water, soap and disposable towels. Childcare facilities must have hot water in the diaper changing area and kitchen. If plans do not provide sufficient hand sinks to meet the requirements of the facility you will be asked to provide a revised plan with additional hand sinks.

**B. Ware Wash Area:**A commercial dishwasher or 3 compartment sink is required in most cases. Dish machines must be able to effectively sanitize all equipment and utensils. They must dispense a chemical sanitizer or provide a final rinse of at least 180º F. (single, stationary rack machines are required to reach 165º in the sanitize cycle), Test strips are required. Above-the-counter dish machines are required to have type II vent-hood.

Were washing sinks shall be of sufficient size to immerse the largest piece of equipment. Cold and hot (100º minimum) water under pressure delivered through a mixing valve shall be provided. Provide at least 2 integral drain board and a mobile dish cart. Drying racks or shelves will aid in adequately air drying all wares. Facilities with very limited ware washing and using disposable containers may request a variance to install a 2 compartment sink (example: convenience store). These sinks are required to have a drain board.

**C. Solid Waste:**Dumpster and grease barrels shall rest on a machine laid or concrete pad. These containers must have a tight fitting lids and drain plugs in place.

**D. Outdoor Cooking facilities:** barbeque pits or smokers shall be enclose, and if screened in, at least 1/16" mesh screen is required. They shall rest on a concrete or asphalt pad. The meat may only be placed on the smoker; no food prep allowed in this enclosure. Any seasoning, cutting, etc. must take place inside the establishment. Outdoor bars and wait stations will be approved on a case by case basis by the dept.

**E. Water and Sewer Systems:** All private on site sewage facilities and wells serving a new Food Enterprise, an exclusively remodeled Food Enterprise, or a Food Enterprise coming under new ownership must meet current standards. These systems are required to be evaluated with respect to weather the system (a) meets current standards and (b) is adequate for the proposed use.

Contact the following agencies to ensure your system is adequate.

Environmental Health Division (956) 383-0111 and 0112

**F. Food Contact Surfaces:** Stainless steel, Formica, polished marble, corian, machined stone, approved ceramics or plastics may be used for food contact surfaces.

**Hidalgo County Food Enterprise Food Handler Registration**

Food handler registration is required for Food Enterprise employees.

At the time of your annual permit renewal Food Operators are notified to provide a list of all employees and shall indicate which are registered with Hidalgo County either as a Food Handler or Food Manager.

We offer classroom classes in English and Spanish.

**Exemptions**.

1. A nonprofit organization that serves food only to members of the organization;
2. A food processing plant that is inspected at least once a week by a state or federal food sanitation inspector or that only stores prepackaged food that is not potentially hazardous;
3. A mobile food establishment that offers only prepackaged food, if a certified food manager is in charged at a central preparation facility that supplies the products for the vending machine or mobile food establishment;
4. A Temporary Event;

## Hidalgo County Food Enterprise Food Manager Registration

A Food Manager Certificate is recognition that a person has received training in food sanitation.

The Hidalgo County requires the majority of permitted Food Enterprises in Hidalgo County to have one employee to be currently registered as a Certified Food Manager.

## Exemptions

1. A Food Enterprise that provides only beverages or prepackaged food that is not a potentially hazardous food.
2. A nonprofit organization that serves food only to members of the organization;
3. A food processing plant that is inspected at least once each week by a state or federal food sanitation inspector or that only stores prepackaged food that is not potentially hazardous.
4. A Mobile Food Establishment that offers only prepackaged food, if a certified Food Manager (CFM) is in charge at a Central Preparation Facility that supplies the products for the vending machines or Mobile Food Establishment.
5. A Temporary Event.

**Additional Permit Requirements for Mobile Vendors**

County of Hidalgo, Texas

The Information detailed below must be adhered to in addition to the statements made above for Mobile Food Vendors operating within the limits of Hidalgo County. Also, please contact Hidalgo County Planning Department at 956-318-2840 to determine if the site(s) used for vending is/are approved. Hidalgo County Health Department approval does not guarantee approval with other County Departments. These rules ***do not*** apply to the incorporated areas of Hidalgo County (City Limits). If any of the items below are missing from your application your permit may not be issue.

Vendor Staff

□ □ **Proof of Texas sales and use tax permit.** This permit application is available at: **http://www.window.state.tx.us/taxpermit**. For additional questions, call 1-800-252-5555.

□ □ **Itinerary Route.** This itinerary should include locations where sales occur. Your itinerary should be updated on a quarterly basis. For new operators, use your best judgment. A sample route sheet is attached for your convenience. This information may be submitted via fax to the health department if the location/route changes throughout the year.

□ □ **Written Permission to Use restrooms at Work Site.** If the vendor will be at one location for more than two hours, a written agreement shall be submitted to the health authority from a property owner within 300 feet of the mobile food establishment providing permission for use of restroom facilities with flushable toilets during all hours of operation. A copy of this agreement must be kept in the mobile unit for proof. Portable toilets may be accepted with an approved liquid waste hauler contract.

□ □ **Notarized statement from the Owner or Responsible Party of a Central** Preparation facility. These documents (found on pages ) are used to state that the mobile food establishment uses the facility as its base of operation. This statement should also indicate that the central preparation facility has the proper waste water capabilities for the type of food the mobile vendor will be preparing. Not required if owner owns both CPF and mobile unit.

□ □ **Documentation of Central preparation Facility** Use. Mobile vendors are required to document on a log sheet the dates and times that service visits are conducted to the approved CPF. This includes re-stocking your mobile unit, obtaining fresh water and discarding waste water. This log sheet shall be maintain at the CPF and be presented to any health official upon request and during permit renewal. If using an approved liquid waste hauler, copies of trip tickets will be required to be presented during routine inspections and at permit renewal. A sample log sheet has been provided. This item is NOT required during the initial permitting process.

□ □ **Hidalgo County Fire Marshall Department.** Prior to Health Department approval, an Hidalgo County Fire Marshall Inspection must be conducted and passed. If you mobile unit does not require an inspection , the Fire Marshall will notify the Health Department.

**Mobile Vending Unit Physical Inspection Checklist**

- License Plate – Present and current
- Adequate Clean & Waste water Capacities – Waste water tank must be sized with a minimum capacity of 15% larger than potable water tank's capacity.
- Water tank Security – All tanks must be permanently mounted to unit.
- Waste water tank Clean-out Valve – Clean -out valve must be located on the exterior of unit; diameter of clean out must be 1” in diameter or larger and may not be the same size as clean water fill up valve; clean-out valve must be located at height below clean water fill up valve.
- Clean Water tank Fill Valve – Fill valve must be located on exterior of unit; fill valve must be located at height above waste water clean-out valve; fill valve may not be the same size as waste water clean-out valve.
- Hand washing sink – hand wash sink present and available for convenience use.
- Ware Wash Sink – 3 compartment ware wash sink present; fill faucet able to reach all compartment for filling ; compartments capable of holding water; compartments must be large enough to fully submerge all food contact wares requiring regular washing.
- Splash Guard – A splash guard may be required between hand sink and ware washing sink to prevent possible contamination.
- Hot Water Heater – Water heating device present and secured in unit.
- Exterior Openings – All exterior openings such as doors, windows, ans vents must be provided with screening material to prevent pest or contaminant entry.

- Cold Hold Unit – Mechanical cooler/refrigerator present in unit; it is highly recommended that unit is equipped with commercial refrigeration unit; residential refrigeration units often lack the capability to maintain food items at appropriate temperature in mobile unit operating environment.

- Cleanable Surfaces - All interior surfaces must be constructed of smooth, durable, easily cleanable, non-absorbent materials.

- Physical Condition – No conditions present which may pose a risk to food or personal safety. The outdoor walking and driving areas shall be surfaced with concrete, asphalt, or gravel or other materials that have been effectively treated to minimize dust, facilitate maintenance, and prevent muddy conditions.

*This checklist is solely intended to provide guidance in adherence to the Texas Food Establishment Rules. This guidance is not all inclusive of the rules and regulations pertaining to mobile vending units.

## MOBILE FOOD VENDOR RESPONSIBILITIES

1. **NO HOME PREPARED FOOD MAY BE SERVED TO THE PUBLIC.**
2. **THE USE OF EXTERNAL FOOD PREPARATION AND STORAGE EQUIPMENT IS NOT ALLOWED.** All equipment **MUST** be contained within or on the mobile unit and **MUST** be properly enclosed.
3. **REFRIGERATION AND HEATING:** You must have adequate hot and cold food storage facilities to maintain food products at the required temperatures. Hot foods must be held at 135º or above. Cold foods must be stored at 41º or below. Inadequate refrigeration may result in permit suspension.
4. **THERMOMETER:** Metal stem dial thermometers with a range of 0-220ºF and accurate to =/-3ºF must be provided on mobile food units on which food is prepared in order to monitor food temperatures. Locate additional thermometers in all refrigeration units.
5. **LABELING:** All food must have complete and proper labels.
6. **MOBILITY:** The health authority **may prohibit alteration, removal,** attachments, placement or **change** in , under, or upon the mobile food establishment that would **prevent** or **otherwise reduce ready mobility.**
7. **WATER/UTILITIES:** All mobile food units that are required to have water supplies must have properly designed waste water holding tanks of a 15% greater capacity than the hot and cold water supply. The holding tank must be permanently installed in the unit and equipped with a drain valve to empty the tank on the outside of the vehicle. Leaking waste water tanks may result in permit suspension. At no time during operation is the mobile unit to be attached to a water hose or any other permanent water supply. Also, permanent utilities (i.e. gas, electricity) may not be attached to the mobile unit at **ANY** time.
8. **HOT AND COLD WATER:** If the mobile food unit's operation requires hot and cold water, it must be supplied and working at all times during operation. Failure to comply may result in permit suspension.

9. **HANDWASHING:** Soap and towels must be supplied to the hand sink of UNRESTRICTED type operations at all times.
10. **CERTIFIED FOOD MANAGER** / **FOOD HANDLER:** Mobile units are required to have at least (1) food manager certificate and all other employees registered as food handlers within 30 days of employment.

**I have read and understand the items of responsibility listed above, and I agree to comply with all of the requirements.**

_____ _____

Signature of Mobile Food Vending Owner / Operator Date

**MOBILE FOOD VENDING INFORMATION**

**GENERAL INFORMATION**

**RESTRICTED MOBILE FOOD VENDOR** means a Mobile Food Vendor offering only prepackaged food or prepackaged ice cream. A Restricted Vendor will fall under one of three categories:

1. if the vendor is purchasing food, the vendor must provide a copy of the commercial kitchen's Texas Food Manufacture's permit (or Meat Safety Assurance, if applicable) from the Texas Department of State Health Services, or;
2. The vendor is preparing their own food at a commercial kitchen and is an employee of the same kitchen,or;
3. The vendor is leasing space from a commercial kitchen and is **NOT** an employee. The vendor must apply for and obtain a Hidalgo County Health Permit at the leased space location.

**UNRESTRICTED MOBILE FOOD VENDOR** means a Mobile Food Vendor offering food that is packaged or prepared on the mobile unit, including the slicing or peeling of fruits and vegetables.

1. **Permits** for **Mobile Food Vendor** must be obtained before operating within Hidalgo County. Permit applications may be obtained at 1304 S. 25$^{th}$ St. Edinburg, TX 78542. Permits expired annually, one year after the day they are approved, and must be renewed on or before expiration date. An additional permit is required for vendors selling fresh seafood. Call the Texas Parks and

Wildlife Department at (800) 792-1112 for further information. All vehicles must have current State of Texas license plates. Mobile vending units equipped with water and waste water retention tanks must have an agreement with an approved liquid waste hauler. If your unit generates any grease or grease by products will need to have an approved and permitted grease trap / interceptor.

## GENERAL REQUIREMENTS FOR ALL MOBILE VENDING UNITS;

1. **Single service items:** Only disposable place settings are to be given to customers.
2. **Vehicle Construction (excluding pushcart):** The interior of the vehicle must be constructed of smooth, easily cleanable surfaces. The vehicle must be **completely enclosed.** N(No open truck beds; windows must be screened or kept closed.) The vehicle must be equipped with facilities to hold potentially hazardous foods at a temperature either above **135ºF.** Or below **41ºF.** Sterno is not an acceptable means of maintaining food temperatures. **NOTE:** it is a violation to take hot foods, place them in a Styrofoam or igloo-type cooler, and carry the cooler into a building to sell the food.
3. **Ice beds, when used:** No foods may be bedded in ice except for canned drinks and milk cartons. Foods may be placed in a container, and the container must be bedded in the ice. Ice used for this purpose may not be used in beverages and must drain to a **holding tank**, which is of at least 15% greater capacity than the ice beds.
4. **Trash Receptacles:** Must be provided for all mobile units.

## SPECIFIED REQUIREMENTS FOR VARIOUS TYPES OF MOBILE FOOD VENDING UNITS

## PUSHCART

1. **Cart construction:** The cart must be constructed of smooth, easily cleanable surfaces. The cart size is not part of the Health Department approval process. The cart must be equipped with facilities to hold potentially hazardous foods at a temperature either above **135ºF** or below **41ºF. Sterno** is not an acceptable means of maintaining food temperatures. A (small) **trash receptacle** must be provided on the cart. **Ice** used for bedding beverages must drain to a **holding tank**, which is of at least 15% greater capacity than the ice beds.
2. **Types of Food:** With the exception of hot dogs, snow cones or other foods approved by the health authority only **prepackaged** food may be sold from a pushcart. This means that the food must be prepared and wrapped at the approved kitchen facility, then transported to the cart. The prepackaged food must be either individually labeled, or a “blanket label(s)” may be placed on the cart, if the packaged food is handed to the customer by staff. Labels must include the following information:

    1. the name of the item
    2. a list of ingredients in order of predominance
    3. the net weight of the item
    4. the name and address of the product manufactured

3. **Unrestricted Food Carts:**Unrestricted food carts must have clear covers on top and three sides of the preparation area. Unrestricted food carts are also required to have a 3-compartment sink on the unit with hot and cold water supplied under pressure. The unit must be equipped with a retention/holding tank of at least 15% greater capacity than the water supply. The waste water connections must be below fresh water inlets.
4. **Condiments:** Condiments, if provided, must be in covered containers with service utensils or from squeeze or pour-type bottles with lids.
5. **Beverages:** beverages must either be canned or be dispensed from covered containers with spigots or pumps.

## PREPACKAGED FOODS

1. **Description:**All foods sold is prepackaged or pre-wrapped at an approved kitchen.
2. **Beverages:** must either be canned or be dispensed from covered containers with spigots or pumps.
3. **Condiments:** must be in covered containers with service utensils or from squeeze or pour-type bottles with lids.
4. **Type of food allowed:** Only prepackaged food may be sold. The food must be prepared and wrapped at an approved kitchen. Then transported to the unit. The prepackaged food must be either individually labeled, or a “blanket label(s)” may be placed on the cart, if prepackaged food is handed to the customers by staff. Labels must include the following information:
    1. the name of the item;
    2. a list of ingredients in order of predominance
    3. the net weight of the item
    4. the name and address of the product manufacturer.

## FOOT PEDDLERS (restricted Permit)

1. **Description:** All food sold is prepackaged at and prepared at an approve kitchen.
2. **Conveyance:** A specific type of convenience is required (I.e one ice chest or cooler).

    Farmer's market vendors may provide more than one conveyance at approved farmer's market venues only.

3. **Types of food allowed:** See Prepackaged Foods section above.

**FOOD PREPARATION UNRESTRICTED**

1. **Description:** The unit is a complete "Kitchen on wheels." The food may be prepared on the unit and does not need to be prepackaged.
2. **Sinks:** There must be a **three-bay sink** on the unit for utensil washing. A **separate sink for hand washing** is also required. Soap and single use towels (paper towels) must be supplied to the hand washing sink.
3. **Water: Hot** and cold or tempered water, under pressure, must be supplied to all sinks. The water must be supplied from an approved source.
4. **Retention/Holding Tank:** The unit must be equipped with a permanently mounted potable water tank and a retention/holding tank of at least 15% greater capacity that the combines water and ice supply. The waste water connections must be below the fresh water inlet.
5. **Certified Food Manager / Food Handler:** Unrestricted mobile units operating I Hidalgo County are required to have at least (1) food manager certificate and all other employees registered as food handlers within 30 days of employment.

NOTE: The purpose of this document is to provide only basic information and answer commonly asked questions. Call (956) 383-0111 for additional questions.

When your mobile vending unit meets all of the requirements, bring the mobile unit to 1304 S. 25th St Edinburg, TX 78542 in order to have the vehicle inspected. You do not have to bring the unit in with power source for permit inspections. If the unit passes inspection, a permit will be issue. If the unit does not meet the requirements, an additional inspection will be made.

DO YOU NEED A TEMPORARY FOOD EVENT PERMIT?

Festivals, parades, celebrations and other special events contribute to the quality of life in Hidalgo County. Most of these events also feature food for sale or distribution. These Temporary Food Events (TFE), such as traveling fairs and carnivals, circuses, multicultural celebrations, special interest fundraisers, restaurant food shows, and other gatherings, have become extremely popular and are held with increasing frequency in our community.

Many of these TFE can involve extensive preparation and processes that include the cooking and advanced preparation of food prior to service. Anytime food is being handled there is a possibility of the food becoming contaminated. Some foods such as raw meats and poultry can be contaminated prior to obtaining them. It is estimated that 76,000,000 cases of food borne illnesses occur every year in the U.S. and there are emerging illnesses and drug resistant bacteria that are increasing the hazards. No one wants to make anyone ill. With this in mind, the Hidalgo County Rules and the Texas Food

Establishment Rules (TFER) provide guidelines for permitting and food safety standards for all food establishments. The Health Department has established procedures that can

assist with the advanced planning and management of TFE. We ask for your support in promoting these food safety practices.

Individuals or organizations are required to obtain a temporary food service permit for any event in which they are offering food for public consumption.

**If you can answer "Yes" to any of the following questions you will need to** obtain a temporary food service permit.

1. Is the general public invited to the event?
2. Can a person other than a member of the organization and their family members or invited guest attend?
3. Have you advertised the event or sold tickets to the general public?
4. Are you serving open food, open container drinks (mixed drinks w/ ice, wine or keg beer) or food that requires refrigeration or to be held hot?

If you have additional questions, contact us at (9560 383-0111

## PREFACE

Hidalgo County Health & Human Services - Environmental Division (HCHHS-ED) is authorized to enforce state and federal laws and rules adopted under state law concerning food service establishments, retail food stores, mobile food units, and roadside food vendors, pursuant to Texas Health and Safety Code Section 437.002(a), as amended. TEX. HEALTH & SAFETY CODE ANN. §§ 437.001 *et seq*., as amended. 25 TEX. ADM. CODE §§ 229.161-229.171,229.173 -229.175, as amended. HCHHS is a participating agency in the FDA Voluntary National Retail Food Regulatory Program Standards, 2011.

To enforce state law and rules adopted under state law, Hidalgo County by order may require food service establishments, retail food stores, mobile food units, and roadside food vendors in unincorporated areas of the county, including areas in the extraterritorial jurisdiction of a municipality, to obtain a permit from the County. TEX. HEALTH & SAFETY CODE ANN. §437.003, as amended. 25 TEX. ADM. CODE § 229.373, as amended.

Pursuant to Texas Administration Code Title 25, Chapter 229, Section 169(a)(1), Hidalgo County may impose additional requirements to protect against health hazards related to the conduct of food establishments as a mobile operation, may prohibit the sale of some or all potentially hazardous food, and when no health hazard will result, may waive or modify certain requirements relating to physical facilities. 25 TEX. ADM. CODE § 229 .169( a)( 1), as amended.

## I. PURPOSE

The purpose of these Rules is to safeguard public health and better assure that consumers obtain food that is safe, unadulterated, and honestly presented by establishing uniform monitoring for food establishments in the unincorporated areas of

Hidalgo County, including areas in the extraterritorial jurisdiction of a municipality, or a municipality that does not have a health department.

## II. DEFINITIONS

Words and phrases used in these Rules shall have the meanings provided in Health and Safety Code, Chapter 437 and Texas Administrative Code Title 25, Chapter 229. TEX. HEALTH & SAFETY CODE ANN. §§ 437.001 *et seq*., as amended. 25 TEX. ADM. CODE §§ 229.161 -229.171, and 229.173 -229.175, as amended.

## III. PERMITS

A. No person shall operate a food establishment in unincorporated areas of the county, including areas in the extraterritorial jurisdiction of a municipality, without having a permit issued by HCHHS-ED. Permits are not transferable from one person to another or from one location to another location, except as permitted by these Rules. A valid permit must be posted in or on every food establishment in a conspicuous place. Only a person who complies with the requirements of state law and regulations and these Rules shall be entitled to a permit.

B. A food establishment operated solely by a nonprofit organization is exempt from the permitting requirement of these Rules, but is not exempt from compliance with state law and regulations. An organization claiming exemption from these Rules as a nonprofit organization shall provide HCHHS-ED with such documentation as HCHHS-ED deems necessary to prove the establishment's current tax-exempt status as a nonprofit organization.

C. An establishment is not a food establishment for the purposes of these Rules if it is excluded from the definition of food establishment under Texas Administrative Code Title 25, Chapter 229, Section 162(40), as amended. 25 TEX. ADM. CODE § 229.162(40), as amended.

D. If an inspector finds that a food vendor is operating without a valid permit issued by HCHHS-ED, the food establishment will be closed for business until the permit is appropriately acquired by the vendor at HCHHS-ED.

1. 1st violation: Verbal and/or written notice to begin permitting process before next operational period.
   a. Establishment/vendor must close for business until permit is obtained.
2. 2nd violation: If same vendor continues to operate without a valid permit
   a. Vendor will be closed for business until valid permit is obtained.
   b. Voluntary destruction of food product will be requested by inspector. (Texas Food Establishment Rules 229.161 -175) and
   c. Citation issued to vendor

## IV. ISSUANCE OF PERMIT

A. Any person desiring to operate a food establishment must make a written application for a permit on forms provided by HCHHS. The application must contain the name and address of each applicant, the location and type of the proposed food establishment, the applicable fee, and signature of applicant(s). An incomplete application will not be processed, even if initially accepted. Failure to provide all required information or falsifying information required may result in denial or revocation of the permit. Payment for a permit by a check that is returned for insufficient funds may result in revocation of the permit. Renewals of permits are required on an annual basis, unless otherwise specified and the same information is required for a renewal permit as for an initial permit.

B. Prior to the approval of an initial permit or the renewal of an existing permit, HCHHS shall inspect the proposed food establishment to determine compliance with state law and local regulations. The applicant or permit holder must pay all applicable fees before a permit is issued.

C. Any person desiring to construct or extensively remodel a food establishment and whenever a fixed existing structure is converted to use as a food establishment, a person must comply with policies and procedures of the Hidalgo County Planning Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.

D. The person must present to HCHHS-ED: a routing sheet with approval from Planning Department, Environmental Health (OSSF Division), Environmental Compliance, and an approved inspection from Fire Marshal. No permit shall be issued until HCHHS-ED determines by final inspection that all construction, remodeling or conversion has been performed in accordance with the approved plans and specifications.

E. Whenever a food establishment is constructed or extensively remodeled, or whenever a fixed existing establishment is converted to a food establishment, at least one pre-opening inspection shall be made. The purpose of the pre-opening inspection(s) is to ensure compliance with the approved submitted plans, state law, federal regulations, and rules adopted by Hidalgo County.

1. Flea market facilities with a permanent restaurant must obtain a food establishment permit and comply with all requirements A-D.

F. There shall be an annual renewal, unless otherwise specified of a permit issued under these Rules. The renewal process shall be initiated by inspection to assure compliance with federal, state, and local regulations adopted by Hidalgo County.

G. Any false statement made in an application, inspection, and/or maintenance log is a basis for denial or revocation of the permit.

1. A mobile food vendor must present at every inspection a maintenance log of waste disposal and corresponding receipts.
2. The permit-holder shall maintain a log of all daily operational periods to include:
    a. date of operation
    b. time open for business
    c. time closed for business
    d. location of operation.

H. Prior to the issuance of a permit, the applicant or permit holder must pay all applicable fees, which may include a new facility inspection fee. HCHHS shall issue a permit to the applicant only if its inspection reveals that the food establishment complies with requirements of these Rules and state law and regulations.

J. An applicant or permit holder that does not comply with federal, state law and local regulations may be denied a permit or the renewal of a permit.

## V. ADDITIONAL REQUIREMENTS FOR MOBILE FOOD ESTABLISHMENTS. 25 TEX. ADM. CODE § 229.169 HIDALGO COUNTY COMMISSIONERS COURT

A. All mobile food establishments including pushcarts and roadside food vendors, shall be readily identifiable by business name, printed in bold black letters not less than three (3) inches in height, no less than one and one-half (1.5) inches in width, permanently affixed, and prominently displayed upon at least two (2) sides of the units.

B. Prior to the approval of the initial permit or renewal of an existing permit, the applicant or permit holder shall provide written details or plans regarding the systems installed for approved water source, distribution, delivery, and retention and for waste, sewage, and wastewater retention, drainage, and disposal or removal. In addition, a person must comply with policies and procedures of the Hidalgo County Planning Department, Right of Way Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.

C. The person must present to HCHHS-ED: a routing sheet with approval from Planning Department, Environmental Health (OSSF Division), Environmental Compliance, and an approved inspection from Fire Marshal. No permit shall be issued until HCHHS-ED determines by final inspection that all referenced County departments recommend approval for the mobile food vendor permit according to the proposed specifications listed on the application.

D. A pushcart unit shall not exceed four (4) feet in width, eight (8) feet in length, and eight (8) feet in height including a unit's shade umbrella. In the event of an emergency situation, the unit shall be easily movable, controllable, and maneuverable by one (1)

person when the unit is fully loaded. The bottom of the unit shall be at least one (1) foot from the ground. The unit shall not be self-propelled.

1. The unit must have at least 2 (two) reflective devices on each side to be seen in low-light conditions.
2. The unit must be affiliated with a certified commercial vendor.
3. The operator of the unit must wear a reflective safety vest at all times while the unit is in operation.
4. Shall only sell pre-packaged, sealed foods and/or beverages.
5. Shall not sell or prepare fresh food and/or beverages, hot or cold, on the unit.

E. Live animals shall be excluded from the immediate adjacent onsite or adjoining property within 100 feet of surrounding areas of all mobile food establishments.

F. If toilet facilities are not provided on a mobile food establishment, a toilet facility shall be located on an onsite or adjoining property within 300 feet of the mobile food establishment. Upon application for a permit hereunder, a mobile unit operator must provide HCHHS-ED with written and notarized permission by the owner of the toilet facility for use of restrooms by the permit holder and corresponding schedule every 120 days. A mobile unit may not operate when the facility providing the toilet facilities are not accessible. Restroom facilities must be located within a building and must include a flush-type toilet and hand lavatory supplied with hot and cold running water under pressure. Port-A-Cans or similar facilities are prohibited. This provision does not apply to push cart units (i.e., mobile units that do not engage in any food preparation.).

G. All motor vehicles and/or pull trailers operating as mobile food establishments upon open roads, streets, and highways shall maintain a current Texas motor vehicle inspection sticker and a current Texas motor-vehicle license-plate registration sticker.

1. All mobile units, including push carts, must comply with all Texas Traffic and Safety Laws while the unit is in operation; including Section 285.001 of the Texas Transportation Code, as amended.

H. All mobile vehicles must be commercial grade, generator-powered, and certified to meet all State health standards and Texas Department of Transportation standards.

I. If a mobile vendor is going to utilize electricity of an adjacent commercial business by plugging into an electrical outlet during hours of operation, the mobile vendor must submit a notarized letter of permission for use of electricity by the commercial business owner.

1. The letter should be updated every 120 days and be on file with HCHHS-ED.
2. Outlet must comply with Hidalgo County Fire Marshal, National Fire Protection Association, and International Code Council – International Fire Code rules, regulations, and standards.
3. Outlet must be a standard plug-in type and all cords readily removable.

J. All mobile vehicles shall be readily moveable.

1. All mobile food vendors, including push carts, shall not provide tables/seating, or any additional structures around or adjacent to the unit.

K. All mobile food vendors serving fresh food must do so in single-serve, single-use containers designed for transport.

L. . Flea market establishments allowing the sale of food:

1. Permanent structure food court must have:
    a. Restroom facilities within 300 feet
    b. Plumbing with hot and cold water
    c. Proper waste disposal and
    d. A permanent structure food court shall consist of at least two (2) or more food vendors operating from a permanent or semi-permanent structure (i.e., not readily moveable).
2. Mobile vendor food courts must have:
    a. Restroom facilities within 300 feet
    b. Paved parking space
    c. Electrical outlet and
    d. Waste disposal connection
    e. A mobile vendor food court shall consist of at least two (2) or more mobile food vendors (does not include push carts) operating simultaneously on the same tract or parcel of land.
3. All flea market food vendors regardless of type must be in compliance with Hidalgo County Planning Department, Right of Way Department, the Office of Environmental Compliance, and the Office of the Fire Marshal including but not limited to the On-Site Sewage Facility (OSSF) policies and procedures.
4. Flea market owners with a permanent or mobile food court must maintain a current Food Manager's Certification at all times of operation.
5. All persons engaged in the sale and/or preparation of food must maintain a current Food Handler's Certification at all times of operation.

M. Mobile Vendor Food Courts

1. Mobile vendor food courts must have:
    a. Paved parking space
    b. Electrical outlet
    c. Waste disposal connection and
    d. Appropriate restroom facilities within 300 feet of mobile food vendor vehicles
    e. A mobile vendor food court shall consist of at least two (2) or more mobile food vendors (does not include push carts) operating simultaneously on the same tract or parcel of land.

## VI. ADDITIONAL REQUIREMENTS

A. As approved by Order by the Hidalgo County Commissioners Court, HCHHS may impose additional requirements for all food establishments, as follows:

*1. Food Manager's Certificate: The owner of the food establishment and the Manager of the food establishment must obtain a Food Manager's Certificate before a permit is issued.*

*2. Food Handler's Certificate: All employees of a food establishment must obtain a Food Handler's Certificate.*

*a. The Food Handler's Class will be conducted at HCHHS as scheduled.*

*b. The individual must call the HCHHS-ED to register for the class.*

*c. Term: The Food Handler's Certificate shall be valid for two (2) years from the date issued.*

*d. Fee: A fee of $20.00 (twenty dollars) shall be paid prior to attending the Food Handler's Class.*

*e. A picture identification card will be issued to each individual that satisfactorily completes all requirements of the Food Handler's Class.*

B. As approved by Order of the Hidalgo County Commissioners Court, HCHHS may impose additional requirements for all mobile food vendors, as follows:

*1. Display: A valid decal shall be displayed by a mobile food vendor.*

*a. Outside of the service window on the left or right side, used in connection with the mobile food vending operation.*

*b. On the trailer fender above the tailgate and license plate of an open, flat bed or enclosed trailer used in connection with the mobile food vending operation.*

*c. At the top right-hand corner on the front of a pushcart, used in connection with the mobile food vending operation.*

*d. Non-transferability: Mobile food vendor permits shall not be transferred or assigned to alternate units and shall be considered revoked should the character of the food vending operation be changed from that specified in the permit.*

*e. Fee: A fee of $5.00 (five dollars) shall be paid for each mobile unit decal in addition to the health permit.*

*2. Term: Mobile food vendor permits shall be valid for one (1) year from the date of issue unless sooner suspended or revoked.*

*a. Mobile food vendors shall be required to submit to a scheduled inspection every 120 days at Hidalgo County Health & Human Services Environmental Division. Failure to submit to scheduled inspection shall be grounds for suspension or revocation of vendor permit.*

*3. Notice: All mobile food vendors shall provide and maintain on file with HCHHS Environmental Division current hours of operation at all times.*

*a. All vendors are subject to random inspection during normal business hours.*

*4. Violation(s): during a scheduled or random inspection*

*a. Verbal and/or written notice to correct violation(s): May be issued at the discretion of the inspector depending on the type and severity of the violation(s).*

*1. 1st violation: Establishment must close for business until violations are corrected.*

*a. These violations must be fixed on-site or within the allotted time specified by the inspector.*

*b. Voluntary disposal of food product may be requested by the inspector.*

*c. Citation may be issued by inspector*

*2. 2nd violation: If vendor does not comply within the allotted time, the permit shall be suspended or revoked until violations are corrected.*

*a. Voluntary disposal of food product may be requested by the inspector.*

*b. Citation may be issued by inspector.*

## VII. APPLICATION AFTER REVOCATION

Whenever a revocation of a permit has become final, the holder of the revoked permit shall make written application for a new permit, and the food establishment may be required to submit plans and be subject to a pre-opening inspection.

## VIII. CRIMINAL PENALTY

A. A person commits an offense if the person operates a food service establishment, retail food store, mobile food unit, or roadside food vendor without a permit required by Hidalgo County. TEX. HEALTH & SAFETY CODE ANN. § 437.016, as amended.

B. An offense under this Section is a Class C Misdemeanor.

C. Each day on which a violation occurs constitutes a separate offense.

## IX. INJUNCTION

The District Attorney of Hidalgo County may sue in district court to enjoin a food establishment, retail food store, mobile food unit, or roadside food vendor from operating without a permit, if one is required. TEX. HEALTH & SAFETY CODE ANN. § 437.015, as amended.

## X. FEES

The following fees are to be paid in connection with applications submitted pursuant to these Rules for the issuance or renewal of a permit.

| Type of Establishment | Fee |
|---|---|
| *Temporary Food Permit (14 days) | $25.00 |
| **Mobile Food Vendor Permit (1 year) | $100.00 |
| Food Establishments with 1 – 10 employees | $100.00 |
| Food Establishments with 11 – 20 employees | $125.00 |
| Food Establishments with 21 or more employees | $150.00 |

*Separate businesses occupying the same booth must purchase individual permits. A business or individual who operates more than one booth at an event must designate the specific location of each booth at the event and must purchase a separate permit for each booth location.

**If a mobile food vendor has more than one (1) mobile unit to conduct the sale of food products, a separate permit must be obtained for each mobile unit.

## XI. ENFORCEMENT

The provisions of these Rules shall be enforced by the Chief Administrative Officer of HCHHS (the CAO) or the CAO's authorized representative. It shall be a violation of these Rules for any person in a food establishment to deny access to the CAO or authorized representatives in the performance of the CAO's duties.

HCHHS employees who are not police officers but who have been trained to enforce the health and safety laws relating to food, water, waste control, general sanitation, or vector control are authorized pursuant to Sections 121.031 and 121.032 of the Texas Health and Safety Code and these Rules by Order of Hidalgo County Commissioners Court, to issue citations for violations occurring in the unincorporated areas of Hidalgo County, including areas in the extraterritorial jurisdiction of a municipality. Such citations must state the name of the person cited, the violation charged, and the time and place the person is required to appear in court.

## XII. SEVERABILITY

If any section, subsection, clause, phrase, or portion of these Rules is, for any reason, held invalid or unconstitutional by any court of competent jurisdiction, such portion shall be deemed a separate, distinct, and independent provision, and such holding shall not affect the validity of the remaining portions of these Rules.

Environmental Health

Hidalgo County Health & Human Services Department

# Starting A Food Business in Hidalgo County

This guide is for prospective operators of Food Enterprises ( food establishments, retail food stores, food warehouse, and food processors) operating within the jurisdiction of Hidalgo County. These establishments fall under the regulatory responsibility of Hidalgo County Health and Human Services Department. Guidelines for Farmers markets, Mobile Vendors and temporary Food Events are found at 1304 S 25th St Edinburg, TX 78542, or at http://www.hchd.org/environmentalhealth

Hidalgo County is divided into 5 sections , each having a designated Health Inspector. Your Health Inspector will assist you with questions on pre-opening process for Food Enterprises. Contact the Health Department Plan Review Desk (956) 383-0111 for questions concerning your building plans. Staff is also available to assist with questions on Food manager Certification, Food Handler Registration and application & inspection payments. Call us at (956) 383-0111 to contact your designated Health Inspector or our administrative staff.

Some incorporated cities within Hidalgo County also have contracts for Food Enterprise inspections with HCHHSD. The city offices in the cities will advise you if this is the case where you are operating. Almost all categories of Food Enterprises require approval from HCHHSD.

## Home Preparation of Food Prohibited

Except for those business that meet the requirements of a Cottage Food Industry, home preparation of food for public consumption is prohibited. All food that is to be consumed by the public, whether free or for dale, must be prepared at a permitted establishment that is inspected by federal, state, or local Health Authority.

## Cottage Food Industry

A cottage food production operation is not required to have a Hidalgo County food permit. Before operating a food business, check with other Hidalgo County Departments to determine if there are laws or ordinances, such as zoning, that will affect your business. For information on the Cottage Food Industry visit: http://www.texascottagefoodlaw.com/

## Operating Permits – Food Enterprises

The Food Enterprise application is available at 1) Hidalgo County Health department – Environmental Division located at 1304 S. 25th St Edinburg, TX 78542 2) our website, http://www.hchd.org/environmentalhealth . We recommend you submit a fully completed application and fees one month prior to your anticipated opening date. This gives our staff the needed lead time to process it and schedule any needed pre-opening inspections. Our staff thoroughly reviews each form to ensure accuracy of info provided. Incomplete applications will delay your approval.

Food permits are in effect for one year from the first of the month of the month it was issue, and are renewable each year, thereafter, when the appropriate fee is paid and the enterprise remains in compliance with Health Dept regulations.

## Operating Permit: Posting Requirements

A permit holder or person in charge of a Food Enterprise shall post a permit required by Hidalgo County Code in a prominent public location clearly visible to the general public and to patrons. A permit is clearly visible to the general public and to patrons if it is:

1. Posted in the front window of the enterprise within 5 feet of the front door; or
2. Posted in a display case mounted on the outside front wall of the enterprise within 5 feet of the front door; or
3. Posted on the drive – through menu board of a drive – through enterprise, in addition to posting in locations 1 and 2 of this section; or
4. In the Food enterprise is operated in a space that prevents posting the permit as required in 1 and 3, the permit shall be posted in the initial patron contact area, on the menu board or counter of the enterprise, or in a location determined by the Health Authority to ensure proper notice to the general public and patrons.

## Permit Fees

1 to 10 employees $ 100.00

11 - 20 employees $ 125.00

21 or more employees $150.00

Temporary Food permit $ 25.00

Mobile Vendor $ 100.00

**Health Department Plan Notes**

1. **Refrigeration** All refrigerated units are to hold foods at or below 41 F.
2. **Restrooms** If the facility has only carry -out or seating for less than 20 people, and less than 10 employees, then only one employee restroom is required by the Health Dept. Two restrooms are required if alcohol is served on the premises or more than 20 seats are provided. Each restroom must have a hand sink with hot (at least 100º) and cold water, mechanical air ventilation to the outside, and a solid, self closing door. Restrooms may not ope directly into a kitchen. The total number of restrooms for a childcare facility is dependent on the "minimum standards" of the Texas Dept. of Family and Protective Services as it relates to childcare.
3. **Sinks A. Hand washing Sinks:**Shall be located to allow convenient use by employees in food preparation, food dispensing, ware wash areas, and any wait station where ice is dispensed, bar area or in a walk-in where meat is cut or trimmed. At least one hand sink will be required; additional, separate hand sinks may also be required. Small kitchens with small prep and ware washing in close proximity may be allowed to use one hand sink to serve both activities. Other hand sinks must be associated with restrooms. Provide at least 12" tall splash guards if a hand sink is located near food prep, open food, ice, or clean food contact surfaces. Otherwise, the hand sink must have at least 18" lateral separation from these. A sign or poster that notifies food employees to wash their hands shall be provided to all hand washing sinks and be clarity visible. A small, swinging door (as in a bar area) could separate a hand sink from a work area, otherwise no doors separating hand sink from work areas.

Each sink must be supplied with hot (100º) and cold water, soap and disposable towels. Childcare facilities must have hot water in the diaper changing area and kitchen. If plans do not provide sufficient hand sinks to meet the requirements of the facility you will be asked to provide a revised plan with additional hand sinks.

**B. Ware Wash Area:**A commercial dishwasher or 3 compartment sink is required in most cases. Dish machines must be able to effectively sanitize all equipment and utensils. They must dispense a chemical sanitizer or provide a final rinse of at least 180º F. (single, stationary rack machines are required to reach 165º in the sanitize cycle), Test strips are required. Above-the-counter dish machines are required to have type II vent-hood.

Were washing sinks shall be of sufficient size to immerse the largest piece of equipment. Cold and hot (100º minimum) water under pressure delivered through a mixing valve shall be provided. Provide at least 2 integral drain board and a mobile dish cart. Drying racks or shelves will aid in adequately air drying all wares. Facilities with very limited ware washing and using disposable containers may request a variance to install a 2 compartment sink (example: convenience store). These sinks are required to have a drain board.

**C. Solid Waste:**Dumpster and grease barrels shall rest on a machine laid or concrete pad. These containers must have a tight fitting lids and drain plugs in place.

**D. Outdoor Cooking facilities:** barbeque pits or smokers shall be enclose, and if screened in, at least 1/16" mesh screen is required. They shall rest on a concrete or asphalt pad. The meat may only be placed on the smoker; no food prep allowed in this enclosure. Any seasoning, cutting, etc. must take place inside the establishment. Outdoor bars and wait stations will be approved on a case by case basis by the dept.

**E. Water and Sewer Systems:** All private on site sewage facilities and wells serving a new Food Enterprise, an exclusively remodeled Food Enterprise, or a Food Enterprise coming under new ownership must meet current standards. These systems are required to be evaluated with respect to weather the system (a) meets current standards and (b) is adequate for the proposed use.

Contact the following agencies to ensure your system is adequate.

Environmental Health Division (956) 383-0111 and 0112

**F. Food Contact Surfaces:** Stainless steel, Formica, polished marble, corian, machined stone, approved ceramics or plastics may be used for food contact surfaces.

**Hidalgo County Food Enterprise Food Handler Registration**

Food handler registration is required for Food Enterprise employees.

At the time of your annual permit renewal Food Operators are notified to provide a list of all employees and shall indicate which are registered with Hidalgo County either as a Food Handler or Food Manager.

We offer classroom classes in English and Spanish.

**Exemptions**.

1. A nonprofit organization that serves food only to members of the organization;
2. A food processing plant that is inspected at least once a week by a state or federal food sanitation inspector or that only stores prepackaged food that is not potentially hazardous;
3. A mobile food establishment that offers only prepackaged food, if a certified food manager is in charged at a central preparation facility that supplies the products for the vending machine or mobile food establishment;
4. A Temporary Event;

## Hidalgo County Food Enterprise Food Manager Registration

A Food Manager Certificate is recognition that a person has received training in food sanitation.

The Hidalgo County requires the majority of permitted Food Enterprises in Hidalgo County to have one employee to be currently registered as a Certified Food Manager.

## Exemptions

1. A Food Enterprise that provides only beverages or prepackaged food that is not a potentially hazardous food.
2. A nonprofit organization that serves food only to members of the organization;
3. A food processing plant that is inspected at least once each week by a state or federal food sanitation inspector or that only stores prepackaged food that is not potentially hazardous.
4. A Mobile Food Establishment that offers only prepackaged food, if a certified Food Manager (CFM) is in charge at a Central Preparation Facility that supplies the products for the vending machines or Mobile Food Establishment.
5. A Temporary Event.

**Additional Permit Requirements for Mobile Vendors**

County of Hidalgo, Texas

The Information detailed below must be adhered to in addition to the statements made above for Mobile Food Vendors operating within the limits of Hidalgo County. Also, please contact Hidalgo County Planning Department at 956-318-2840 to determine if the site(s) used for vending is/are approved. Hidalgo County Health Department approval does not guarantee approval with other County Departments. These rules ***do not*** apply to the incorporated areas of Hidalgo County (City Limits). If any of the items below are missing from your application your permit may not be issue.

Vendor Staff

□ □ **Proof of Texas sales and use tax permit.** This permit application is available at: **http://www.window.state.tx.us/taxpermit**. For additional questions, call 1-800-252-5555.

□ □ **Itinerary Route.** This itinerary should include locations where sales occur. Your itinerary should be updated on a quarterly basis. For new operators, use your best judgment. A sample route sheet is attached for your convenience. This information may be submitted via fax to the health department if the location/route changes throughout the year.

□ □ **Written Permission to Use restrooms at Work Site.** If the vendor will be at one location for more than two hours, a written agreement shall be submitted to the health authority from a property owner within 300 feet of the mobile food establishment providing permission for use of restroom facilities with flushable toilets during all hours of operation. A copy of this agreement must be kept in the mobile unit for proof. Portable toilets may be accepted with an approved liquid waste hauler contract.

□ □ **Notarized statement from the Owner or Responsible Party of a Central** Preparation facility. These documents (found on pages ) are used to state that the mobile food establishment uses the facility as its base of operation. This statement should also indicate that the central preparation facility has the proper waste water capabilities for the type of food the mobile vendor will be preparing. Not required if owner owns both CPF and mobile unit.

□ □ **Documentation of Central preparation Facility** Use. Mobile vendors are required to document on a log sheet the dates and times that service visits are conducted to the approved CPF. This includes re-stocking your mobile unit, obtaining fresh water and discarding waste water. This log sheet shall be maintain at the CPF and be presented to any health official upon request and during permit renewal. If using an approved liquid waste hauler, copies of trip tickets will be required to be presented during routine inspections and at permit renewal. A sample log sheet has been provided. This item is NOT required during the initial permitting process.

□ □ **Hidalgo County Fire Marshall Department.** Prior to Health Department approval, an Hidalgo County Fire Marshall Inspection must be conducted and passed. If you mobile unit does not require an inspection , the Fire Marshall will notify the Health Department.

**Mobile Vending Unit Physical Inspection Checklist**

- License Plate – Present and current
- Adequate Clean & Waste water Capacities – Waste water tank must be sized with a minimum capacity of 15% larger than potable water tank's capacity.
- Water tank Security – All tanks must be permanently mounted to unit.
- Waste water tank Clean-out Valve – Clean -out valve must be located on the exterior of unit; diameter of clean out must be 1” in diameter or larger and may not be the same size as clean water fill up valve; clean-out valve must be located at height below clean water fill up valve.
- Clean Water tank Fill Valve – Fill valve must be located on exterior of unit; fill valve must be located at height above waste water clean-out valve; fill valve may not be the same size as waste water clean-out valve.
- Hand washing sink – hand wash sink present and available for convenience use.
- Ware Wash Sink – 3 compartment ware wash sink present; fill faucet able to reach all compartment for filling ; compartments capable of holding water; compartments must be large enough to fully submerge all food contact wares requiring regular washing.
- Splash Guard – A splash guard may be required between hand sink and ware washing sink to prevent possible contamination.
- Hot Water Heater – Water heating device present and secured in unit.
- Exterior Openings – All exterior openings such as doors, windows, ans vents must be provided with screening material to prevent pest or contaminant entry.

- Cold Hold Unit – Mechanical cooler/refrigerator present in unit; it is highly recommended that unit is equipped with commercial refrigeration unit; residential refrigeration units often lack the capability to maintain food items at appropriate temperature in mobile unit operating environment.

- Cleanable Surfaces - All interior surfaces must be constructed of smooth, durable, easily cleanable, non-absorbent materials.

- Physical Condition – No conditions present which may pose a risk to food or personal safety. The outdoor walking and driving areas shall be surfaced with concrete, asphalt, or gravel or other materials that have been effectively treated to minimize dust, facilitate maintenance, and prevent muddy conditions.

*This checklist is solely intended to provide guidance in adherence to the Texas Food Establishment Rules. This guidance is not all inclusive of the rules and regulations pertaining to mobile vending units.

## MOBILE FOOD VENDOR RESPONSIBILITIES

1. **NO HOME PREPARED FOOD MAY BE SERVED TO THE PUBLIC.**
2. **THE USE OF EXTERNAL FOOD PREPARATION AND STORAGE EQUIPMENT IS NOT ALLOWED.** All equipment **MUST** be contained within or on the mobile unit and **MUST** be properly enclosed.
3. **REFRIGERATION AND HEATING:** You must have adequate hot and cold food storage facilities to maintain food products at the required temperatures. Hot foods must be held at 135º or above. Cold foods must be stored at 41º or below. Inadequate refrigeration may result in permit suspension.
4. **THERMOMETER:** Metal stem dial thermometers with a range of 0-220ºF and accurate to =/-3ºF must be provided on mobile food units on which food is prepared in order to monitor food temperatures. Locate additional thermometers in all refrigeration units.
5. **LABELING:** All food must have complete and proper labels.
6. **MOBILITY:** The health authority **may prohibit alteration, removal,** attachments, placement or **change** in , under, or upon the mobile food establishment that would **prevent** or **otherwise reduce ready mobility.**
7. **WATER/UTILITIES:** All mobile food units that are required to have water supplies must have properly designed waste water holding tanks of a 15% greater capacity than the hot and cold water supply. The holding tank must be permanently installed in the unit and equipped with a drain valve to empty the tank on the outside of the vehicle. Leaking waste water tanks may result in permit suspension. At no time during operation is the mobile unit to be attached to a water hose or any other permanent water supply. Also, permanent utilities (i.e. gas, electricity) may not be attached to the mobile unit at **ANY** time.
8. **HOT AND COLD WATER:** If the mobile food unit's operation requires hot and cold water, it must be supplied and working at all times during operation. Failure to comply may result in permit suspension.

9. **HANDWASHING:** Soap and towels must be supplied to the hand sink of UNRESTRICTED type operations at all times.
10. **CERTIFIED FOOD MANAGER** / **FOOD HANDLER:** Mobile units are required to have at least (1) food manager certificate and all other employees registered as food handlers within 30 days of employment.

**I have read and understand the items of responsibility listed above, and I agree to comply with all of the requirements.**

_____ _____

Signature of Mobile Food Vending Owner / Operator Date

**MOBILE FOOD VENDING INFORMATION**

**GENERAL INFORMATION**

**RESTRICTED MOBILE FOOD VENDOR** means a Mobile Food Vendor offering only prepackaged food or prepackaged ice cream. A Restricted Vendor will fall under one of three categories:

1. if the vendor is purchasing food, the vendor must provide a copy of the commercial kitchen's Texas Food Manufacture's permit (or Meat Safety Assurance, if applicable) from the Texas Department of State Health Services, or;
2. The vendor is preparing their own food at a commercial kitchen and is an employee of the same kitchen,or;
3. The vendor is leasing space from a commercial kitchen and is **NOT** an employee. The vendor must apply for and obtain a Hidalgo County Health Permit at the leased space location.

**UNRESTRICTED MOBILE FOOD VENDOR** means a Mobile Food Vendor offering food that is packaged or prepared on the mobile unit, including the slicing or peeling of fruits and vegetables.

1. **Permits** for **Mobile Food Vendor** must be obtained before operating within Hidalgo County. Permit applications may be obtained at 1304 S. 25$^{th}$ St. Edinburg, TX 78542. Permits expired annually, one year after the day they are approved, and must be renewed on or before expiration date. An additional permit is required for vendors selling fresh seafood. Call the Texas Parks and

Wildlife Department at (800) 792-1112 for further information. All vehicles must have current State of Texas license plates. Mobile vending units equipped with water and waste water retention tanks must have an agreement with an approved liquid waste hauler. If your unit generates any grease or grease by products will need to have an approved and permitted grease trap / interceptor.

## GENERAL REQUIREMENTS FOR ALL MOBILE VENDING UNITS;

1. **Single service items:** Only disposable place settings are to be given to customers.
2. **Vehicle Construction (excluding pushcart):** The interior of the vehicle must be constructed of smooth, easily cleanable surfaces. The vehicle must be **completely enclosed.** N(No open truck beds; windows must be screened or kept closed.) The vehicle must be equipped with facilities to hold potentially hazardous foods at a temperature either above **135ºF.** Or below **41ºF.** Sterno is not an acceptable means of maintaining food temperatures. **NOTE:** it is a violation to take hot foods, place them in a Styrofoam or igloo-type cooler, and carry the cooler into a building to sell the food.
3. **Ice beds, when used:** No foods may be bedded in ice except for canned drinks and milk cartons. Foods may be placed in a container, and the container must be bedded in the ice. Ice used for this purpose may not be used in beverages and must drain to a **holding tank**, which is of at least 15% greater capacity than the ice beds.
4. **Trash Receptacles:** Must be provided for all mobile units.

## SPECIFIED REQUIREMENTS FOR VARIOUS TYPES OF MOBILE FOOD VENDING UNITS

## PUSHCART

1. **Cart construction:** The cart must be constructed of smooth, easily cleanable surfaces. The cart size is not part of the Health Department approval process. The cart must be equipped with facilities to hold potentially hazardous foods at a temperature either above **135ºF** or below **41ºF. Sterno** is not an acceptable means of maintaining food temperatures. A (small) **trash receptacle** must be provided on the cart. **Ice** used for bedding beverages must drain to a **holding tank**, which is of at least 15% greater capacity than the ice beds.
2. **Types of Food:** With the exception of hot dogs, snow cones or other foods approved by the health authority only **prepackaged** food may be sold from a pushcart. This means that the food must be prepared and wrapped at the approved kitchen facility, then transported to the cart. The prepackaged food must be either individually labeled, or a “blanket label(s)” may be placed on the cart, if the packaged food is handed to the customer by staff. Labels must include the following information:

    1. the name of the item
    2. a list of ingredients in order of predominance
    3. the net weight of the item
    4. the name and address of the product manufactured

3. **Unrestricted Food Carts:**Unrestricted food carts must have clear covers on top and three sides of the preparation area. Unrestricted food carts are also required to have a 3-compartment sink on the unit with hot and cold water supplied under pressure. The unit must be equipped with a retention/holding tank of at least 15% greater capacity than the water supply. The waste water connections must be below fresh water inlets.
4. **Condiments:** Condiments, if provided, must be in covered containers with service utensils or from squeeze or pour-type bottles with lids.
5. **Beverages:** beverages must either be canned or be dispensed from covered containers with spigots or pumps.

## PREPACKAGED FOODS

1. **Description:**All foods sold is prepackaged or pre-wrapped at an approved kitchen.
2. **Beverages:** must either be canned or be dispensed from covered containers with spigots or pumps.
3. **Condiments:** must be in covered containers with service utensils or from squeeze or pour-type bottles with lids.
4. **Type of food allowed:** Only prepackaged food may be sold. The food must be prepared and wrapped at an approved kitchen. Then transported to the unit. The prepackaged food must be either individually labeled, or a “blanket label(s)” may be placed on the cart, if prepackaged food is handed to the customers by staff. Labels must include the following information:
    1. the name of the item;
    2. a list of ingredients in order of predominance
    3. the net weight of the item
    4. the name and address of the product manufacturer.

## FOOT PEDDLERS (restricted Permit)

1. **Description:** All food sold is prepackaged at and prepared at an approve kitchen.
2. **Conveyance:** A specific type of convenience is required (I.e one ice chest or cooler).

    Farmer's market vendors may provide more than one conveyance at approved farmer's market venues only.

3. **Types of food allowed:** See Prepackaged Foods section above.

**FOOD PREPARATION UNRESTRICTED**

1. **Description:** The unit is a complete "Kitchen on wheels." The food may be prepared on the unit and does not need to be prepackaged.
2. **Sinks:** There must be a **three-bay sink** on the unit for utensil washing. A **separate sink for hand washing** is also required. Soap and single use towels (paper towels) must be supplied to the hand washing sink.
3. **Water: Hot** and cold or tempered water, under pressure, must be supplied to all sinks. The water must be supplied from an approved source.
4. **Retention/Holding Tank:** The unit must be equipped with a permanently mounted potable water tank and a retention/holding tank of at least 15% greater capacity that the combines water and ice supply. The waste water connections must be below the fresh water inlet.
5. **Certified Food Manager / Food Handler:** Unrestricted mobile units operating I Hidalgo County are required to have at least (1) food manager certificate and all other employees registered as food handlers within 30 days of employment.

NOTE: The purpose of this document is to provide only basic information and answer commonly asked questions. Call (956) 383-0111 for additional questions.

When your mobile vending unit meets all of the requirements, bring the mobile unit to 1304 S. 25th St Edinburg, TX 78542 in order to have the vehicle inspected. You do not have to bring the unit in with power source for permit inspections. If the unit passes inspection, a permit will be issue. If the unit does not meet the requirements, an additional inspection will be made.

DO YOU NEED A TEMPORARY FOOD EVENT PERMIT?

Festivals, parades, celebrations and other special events contribute to the quality of life in Hidalgo County. Most of these events also feature food for sale or distribution. These Temporary Food Events (TFE), such as traveling fairs and carnivals, circuses, multicultural celebrations, special interest fundraisers, restaurant food shows, and other gatherings, have become extremely popular and are held with increasing frequency in our community.

Many of these TFE can involve extensive preparation and processes that include the cooking and advanced preparation of food prior to service. Anytime food is being handled there is a possibility of the food becoming contaminated. Some foods such as raw meats and poultry can be contaminated prior to obtaining them. It is estimated that 76,000,000 cases of food borne illnesses occur every year in the U.S. and there are emerging illnesses and drug resistant bacteria that are increasing the hazards. No one wants to make anyone ill. With this in mind, the Hidalgo County Rules and the Texas Food

Establishment Rules (TFER) provide guidelines for permitting and food safety standards for all food establishments. The Health Department has established procedures that can

assist with the advanced planning and management of TFE. We ask for your support in promoting these food safety practices.

Individuals or organizations are required to obtain a temporary food service permit for any event in which they are offering food for public consumption.

**If you can answer "Yes" to any of the following questions you will need to** obtain a temporary food service permit.

1. Is the general public invited to the event?
2. Can a person other than a member of the organization and their family members or invited guest attend?
3. Have you advertised the event or sold tickets to the general public?
4. Are you serving open food, open container drinks (mixed drinks w/ ice, wine or keg beer) or food that requires refrigeration or to be held hot?

# Request for Applications – Specialty Court Programs

The Criminal Justice Division (CJD) of the Governor's Office is soliciting competitive applications for projects that support eligible specialty court programs during the state fiscal year 2015 grant cycle.

**Purpose:** The purpose of the program is to support specialty courts as defined in Chapter 121 of the Texas Government Code, which incorporate the essential characteristics of:

1) Family Drug Court Programs from Chapter 122 of the Texas Government Code;
2) Drug Court Programs from Chapter 123 of the Texas Government Code;
3) Veterans Court Programs from Chapter 124 of the Texas Government Code; or
4) Mental Health Court Programs from Chapter 125 of the Texas Government Code.

**A aila le Funding:** This solicitation may be funded from the following state funding sources:

1) Texas Code of Criminal Procedure, Section 102.0178 authorizes state funding for the purpose of funding drug courts and designates CJD as the administering agency. Funds received under this article are deposited to the credit of the specialty court account in the general revenue fund.
2) Texas Code of Criminal Procedure, Section 102.056 and Texas Government Code, Section 772.006 authorize the use of state funds to support criminal justice projects including specialty courts, and designate CJD as the administering agency. The source of funding is a biennial appropriation by the Texas Legislature from funds collected through court costs and fees. All awards are subject to the availability of funds appropriated by the Texas Legislature for the 2014-2015 biennium.

**Funding Le els**:
Minimum: $10,000
Maximum: None
Match Requirement: None

**Standards:** Grantees must comply with the standards applicable to this funding source cited in the *Texas Administrative Code* (1 TAC Chapter 3), and all statutes, requirements, and guidelines applicable to this funding.

**Pro i itions:** Grant funds may not be used to support the following services, activities, and costs:

1) inherently religious activities such as prayer, worship, religious instruction, or proselytization;
2) lobbying;
3) vehicles or equipment for government agencies that are for general agency use;
4) weapons, ammunition, explosives or military vehicles;
5) admission fees or tickets to any amusement park, recreational activity or sporting event;
6) promotional gifts;
7) food, meals, beverages, or other refreshments;
8) membership dues for individuals;
9) any expense or service that is readily available at no cost to the grant project or that is provided by other federal, state or local funds (e.g., supplanting);
10) fundraising;
11) construction, remodeling or renovation;
12) medical services;
13) transportation, lodging, per diem or any related costs for participants when grant funds are used to develop and conduct training; and
14) any other prohibition imposed by federal, state, or local law.

# Request for Applications – Specialty Court Programs

**Eligi le Applicants:**
1) Counties; and
2) Judicial districts

**Eligi ility Re uirements:**
1) Pursuant to Texas Government Code, Section 123.006, counties with populations of more than 200,000 are required to establish a drug court.
2) The court must be registered with CJD as required in the Texas Government Code, Section 121.002, and must maintain a current registration throughout the grant period.
3) The court must also be registered with the Texas Department of State Health Services, Clinical Management for Behavioral Health Services database. Information about registration procedures may be accessed at http://www.dshs.state.tx.us/cmbhs/default.shtm.
4) The presiding judge of a drug court funded through this program must be an active judge holding elective office, an associate judge or magistrate assigned to preside over drug court, or a retired judge available as a sitting judge.
5) Any portion of fees collected from program participants and retained by the grantee is considered generated program income (GPI) and must be applied to the grant through a grant adjustment. GPI must be used to offset project costs and must be expended prior to seeking payment from CJD.
6) In order for an applicant to be eligible, the county (or counties) in which the applicant is located must have a 90% average on both adult and juvenile criminal history dispositions to the Texas Department of Public Safety for calendar years 2008 through 2012. This requirement must be met by August 1, 2014.
7) Applicants must have a DUNS (Data Universal Numbering System) number assigned to its agency (to request a DUNS number, go to http://fedgov.dnb.com/webform/displayHomePage.do).
8) Eligible applicants must be registered in the federal System for Award Management (SAM) database located at https://www.sam.gov/portal/public/SAM/ and maintain an active registration throughout the grant period.

**Pro ect Period:** Grant-funded projects must begin on or after September 1, 2014, and expire on or before August 31, 2015.

**Application Process:** Applicants must access CJD's grant management website at https://egrants.governor.state.tx.us to register and apply for funding.

**Pre erences:** Preference will be given to mandated drug courts under Texas Government Code, Section 123.006.

**Closing Date or Receipt o Applications:** All applications must be submitted via CJD's eGrants website on or before February 28, 2014.

**Selection Process:** Applications will be reviewed and prioritized by the Specialty Courts Advisory Council (Council) who will make funding recommendations to CJD. CJD will make all final funding decisions based on eligibility, Council recommendations, reasonableness, availability of funding, and cost-effectiveness. A copy of the scoring elements to be used by the Council is available under the Forms link at https://egrants.governor.state.tx.us/updates.aspx.

**Contact Person**: If additional information is needed, contact the eGrants help desk at egrants@governor.state.tx.us or (512) 463-1919.

**Hidalgo County DWI Court**

**WHEREAS,** The Hidalgo County Commissioner's Court finds it in the best interest of the citizens of Hidalgo County, that the Hidalgo County DWI Court be operated for the 2015 year; and

**WHEREAS,** The Hidalgo County Commissioner's Court agrees that in the event of loss or misuse of the Criminal Justice Division funds, Hidalgo County Commissioner's Court assures that the funds will be returned to the Criminal Justice Division in full.

**WHEREAS,** Hidalgo County Commissioner's Court designates Rodolfo Perez, Assistant Director of the Hidalgo County CSCD as the grantee's authorized official. The authorized official is given the power to apply for, accept, reject, alter or terminate the grant on behalf of the applicant agency.

**NOW THEREFORE, BE IT RESOLVED** that Hidalgo County Commissioner's Court approves submission of the grant application for the Hidalgo County DWI Court to the Office of the Governor, Criminal Justice Division.

# Request for Applications – Justice Assistance Grant Programs

The Criminal Justice Division (CJD) of the Governor's Office is soliciting applications for projects that reduce crime and improve the criminal justice system during the 2015 grant cycle.

**Purpose**: The purpose of this solicitation is to reduce crime and improve the criminal justice system.

**A aila le Funding**: Federal funds are authorized under the Edward Byrne Memorial Justice Assistance Grant Program (JAG), 42 U.S.C. 3751(a). JAG funds are made available through a Congressional appropriation to the United States Department of Justice. All awards are subject to the availability of appropriated federal funds and any modifications or additional requirements that may be imposed by law.

**Funding Le els**:
Minimum: $10,000
Maximum: None
Match Requirement: None

**Standards**: Grantees must comply with the standards applicable to this funding source cited in the *Texas Administrative Code* (1 TAC Chapter 3), and all statutes, requirements, and guidelines applicable to this funding.

**Pro i itions**: Grant funds may not be used to support the following services, activities, and costs:

1) inherently religious activities such as prayer, worship, religious instruction, or proselytization;
2) lobbying;
3) any portion of the salary of, or any other compensation for, an elected or appointed government official;
4) non-law enforcement vehicles or equipment for government agencies that are for general agency use;
5) weapons, ammunition, explosives or military vehicles;
6) admission fees or tickets to any amusement park, recreational activity or sporting event;
7) promotional gifts;
8) food, meals, beverages, or other refreshments;
9) membership dues for individuals;
10) any expense or service that is readily available at no cost to the grant project or that is provided by federal, state, or local funds (i.e. supplanting);
11) fundraising;
12) construction, renovation or remodeling;
13) medical services;
14) transportation, lodging, per diem or any related costs for participants, when grant funds are used to develop and conduct training;
15) legal services for adult offenders; and
16) any other prohibition imposed by federal, state, or local law.

**Eligi le Applicants**:

1) State agencies;
2) Units of local government;
3) Independent school districts;
4) Native American tribes; and
5) Community supervision and corrections departments.

**Eligi ility Re uirements**:
1) Projects must focus on reducing crime and improving the criminal justice system.
2) Eligible applicants must provide law enforcement, corrections, or judicial services.
3) In order for an applicant to be eligible, the county (or counties) in which the applicant is located must have a 90% average on both adult and juvenile criminal history dispositions to the Texas Department of Public Safety for calendar years 2008 through 2012. This requirement must be met by August 1, 2014.
4) Eligible applicants operating a law enforcement agency must be current on reporting Part I violent crime data to the Texas Department of Public Safety for inclusion in the annual Uniform Crime Report (UCR) and must have been current for the three previous years.
5) Eligible applicants must have a DUNS (Data Universal Numbering System) number assigned to its agency (to request a DUNS number, go to http://fedgov.dnb.com/webform/displayHomePage.do).
6) Eligible applicants must be registered in the federal System for Award Management (SAM) database located at https://www.sam.gov/ and maintain an active registration throughout the grant period.

**Pro ect Period**: Grant-funded projects must begin on or after October 1, 2014, and expire on or before September 30, 2015. Grant-funded equipment only projects are generally awarded for a six month grant period. CJD will consider any other proposed changes to the start or end dates on a case-by-case basis.

**Application Process**: Applicants must access CJD's grant management website at https://eGrants.governor.state.tx.us to register and apply for funding.

**Pre erences**: Preference will be given to programs addressing one or more of the following areas which are listed in order of priority:
1) Crime Data – Enhancements to records management systems to allow local law enforcement to contribute appropriate data: a) to the National Data Exchange (N-DEx) through the Texas Data Exchange (TDEx) application hosted by the Texas Department of Public Safety (DPS), or b) to the National Incident-Based Reporting System (NIBRS) through the Uniform Crime Reporting section at DPS. (NOTE: Units of government providing law enforcement serves are encouraged to take advantage of funding under this priority in the event reporting crime data in the NIBRS format becomes an eligibility requirement for future funding.);
2) Trafficking – Projects that disrupt drug and human trafficking including areas along and near major state corridors;
3) Innovative or Evidence Based Programs – Projects that reduce crime and violence in areas with high crime rates or organized criminal activity;
4) Mental Health – Specialized training to increase the number of mental health officers and the ability of law enforcement to work with individuals diagnosed with mental illness;
5) System Improvements – Projects that promote efficiency, accuracy and credibility of law enforcement agencies and prosecutors.

**Closing Date or Receipt o Applications**: All applications must be certified via CJD's grant management website on or before February 28, 2014.

**Selection Process**:
1) For eligible local and regional projects:
   a) Applications will be forwarded by CJD to the appropriate regional council of governments (COG).

b) The COG's criminal justice advisory committee will prioritize all eligible applications based on state priorities, identified community priorities, cost and program effectiveness.
c) CJD will accept priority listings that are approved by the COG's executive committee.
d) CJD will make all final funding decisions based on eligibility, COG priorities, reasonableness, availability of funding, and cost-effectiveness.

2) For state discretionary projects, applications will be reviewed by CJD staff members or a review group selected by the executive director. CJD will make all final funding decisions based on eligibility, reasonableness, availability of funding, and cost-effectiveness.

**Contact In ormation**: If additional information is needed, contact the eGrants help desk at eGrants@governor.state.tx.us or (512) 463-1919.

**Hidalgo County Monitoring Compliance or Hig Ris O enders**

**WHEREAS,** The Hidalgo County Commissioner's Court finds it in the best interest of the citizens of Hidalgo County, that the Hidalgo County Monitoring Compliance for High Risk Offenders be operated for the 2015 year; and

**WHEREAS,** The Hidalgo County Commissioner's Court agrees that in the event of loss or misuse of the Criminal Justice Division funds, Hidalgo County Commissioner's Court assures that the funds will be returned to the Criminal Justice Division in full.

**WHEREAS,** Hidalgo County Commissioner's Court designates Rodolfo Perez, Assistant Director of the Hidalgo County CSCD as the grantee's authorized official. The authorized official is given the power to apply for, accept, reject, alter or terminate the grant on behalf of the applicant agency.

**NOW THEREFORE, BE IT RESOLVED** that Hidalgo County Commissioner's Court approves submission of the grant application for the Hidalgo County Monitoring Compliance for High Risk Offenders to the Office of the Governor, Criminal Justice Division.

# Request for Applications – Prostitution Prevention Programs

The Criminal Justice Division (CJD) of the Governor's Office is soliciting applications for projects that support eligible prostitution prevention programs during the state fiscal year 2015 grant cycle.

**Purpose:** The Prostitution Prevention Program supports programs as defined in Chapter 169A of the Texas Health and Safety Code, which incorporate the following essential characteristics:

1) The integration of services in the processing of cases in the judicial system;
2) The use of a non-adversarial approach involving prosecutors and defense attorneys to promote public safety, to reduce the demand for the commercial sex trade and trafficking of persons by educating offenders, and to protect the due process rights of program participants;
3) Early identification and prompt placement of eligible participants in the program;
4) Access to information, counseling, and services relating to sex addiction, sexually transmitted diseases, mental health, and substance abuse;
5) A coordinated strategy to govern program responses to participants' compliance;
6) Monitoring and evaluation of program goals and effectiveness;
7) Continuing interdisciplinary education to promote effective program planning, implementation, and operations; and
8) Development of partnerships with public agencies and community organizations.

**A aila le Funding:** State funding is authorized for these projects under Texas Code of Criminal Procedure, Section 102.056 and Texas Government Code, Section 772.006, which authorizes the use of state funds to support criminal justice projects and designates CJD as the administering agency. The source of funding is a biennial appropriation by the Texas Legislature from funds collected through court costs and fees. All awards are subject to the availability of funds appropriated by the Texas Legislature for the 2014-2015 biennium.

**Funding Le els**:
Minimum: $10,000
Maximum: $150,000
Match Requirement: None

**Standards:** Grantees must comply with the standards applicable to this funding source cited in the *Texas Administrative Code* (1 TAC Chapter 3), and all statutes, requirements, and guidelines applicable to this funding.

**Pro i itions:** Grant funds may not be used to support the following services, activities, and costs:

1) inherently religious activities such as prayer, worship, religious instruction, or proselytization;
2) lobbying;
3) vehicles or equipment for government agencies that are for general agency use;
4) weapons, ammunition, explosives or military vehicles;
5) admission fees or tickets to any amusement park, recreational activity or sporting event;
6) promotional gifts;
7) food, meals, beverages, or other refreshments;
8) membership dues for individuals;
9) any expense or service that is readily available at no cost to the grant project or that is provided by other federal, state or local funds (e.g., supplanting);
10) fundraising;
11) construction, remodeling or renovation;
12) medical services;

13) transportation, lodging, per diem or any related costs for participants when grant funds are used to develop and conduct training; and
14) any other prohibition imposed by federal, state, or local law.

**Eligi le Applicants:**
1) Counties;
2) Cities; and
3) Judicial districts

**Eligi ility Re uirements:**
1) Pursuant to Texas Health and Safety Code, Section 169A.002, the commissioners' court of a county or governing body of a municipality may establish a prostitution prevention program for defendants charged with an offense under Section 43.02(a) (1), Penal Code, in which the defendant offered or agreed to engage in or engaged in sexual conduct for a fee.
2) Pursuant to Texas Health and Safety Code, Section 169A.0055, counties with populations of more than 200,000, which do not contain a city with an established prostitution prevention program, are required to establish a prostitution prevention program if the county receives sufficient federal or state funding specifically for that purpose.
3) The program must be registered with CJD as required in the Texas Health and Safety Code, Section 169A.004, and must maintain a current registration throughout the grant period.
4) Any portion of fees collected from program participants and retained by the grantee is considered generated program income (GPI) and must be applied to the grant through a grant adjustment. GPI must be used to offset project costs and must be expended prior to seeking payment from CJD.
5) In order for an applicant to be eligible, the county (or counties) in which the applicant is located must have a 90% average on both adult and juvenile criminal history dispositions to the Texas Department of Public Safety for calendar years 2008 through 2012. This requirement must be met by August 1, 2014.
6) Applicants must have a DUNS (Data Universal Numbering System) number assigned to its agency (to request a DUNS number, go to http://fedgov.dnb.com/webform/displayHomePage.do).
7) Eligible applicants must be registered in the federal System for Award Management (SAM) database located at https://www.sam.gov/portal/public/SAM/ and maintain an active registration throughout the grant period.

**Pro ect Period:** Grant-funded projects must begin on or after September 1, 2014, and expire on or before August 31, 2015.

**Application Process:** Applicants must access CJD's grant management website at https://eGrants.governor.state.tx.us to register and apply for funding.

**Pre erences:** Preference will be given to mandated prostitution prevention programs under Texas Health and Safety Code, Section 169A.0055.

**Closing Date or Receipt o Applications:** All applications must be submitted via CJD's eGrants website on or before February 28, 2014.

**Selection Process:** Applications will be reviewed and prioritized by the Specialty Courts Advisory Council (Council) who will make funding recommendations to CJD. CJD will make all final funding decisions based on eligibility, Council recommendations, reasonableness, availability of funding, and cost-effectiveness.

**Contact Person**: If additional information is needed, contact the eGrants help desk at eGrants@governor.state.tx.us or (512) 463-1919.

**Hidalgo County Prostitution Pre  ention Court Program**

**WHEREAS,** The Hidalgo County Commissioner's Court finds it in the best interest of the citizens of Hidalgo County, that the Hidalgo County Prostitution Prevention Court Program be operated for the 2015 year; and

**WHEREAS,** The Hidalgo County Commissioner's Court agrees that in the event of loss or misuse of the Criminal Justice Division funds, Hidalgo County Commissioner's Court assures that the funds will be returned to the Criminal Justice Division in full.

**WHEREAS,** Hidalgo County Commissioner's Court designates Rodolfo Perez, Assistant Director of the Hidalgo County CSCD as the grantee's authorized official. The authorized official is given the power to apply for, accept, reject, alter or terminate the grant on behalf of the applicant agency.

**NOW THEREFORE, BE IT RESOLVED** that Hidalgo County Commissioner's Court approves submission of the grant application for the Hidalgo County Prostitution Prevention Court Program to the Office of the Governor, Criminal Justice Division.

Signed by:

County Judge

# Hurst Hose

1 message

**Gabe Labonte** < gabe@wilsonfirerescue.com> Thu, Feb 6, 2014 at 3:08 PM
To: Olga Rosas <orosas@cityofmercedes.net>

Olga,

The #353O022 30ft LP hose w/QD coupling has a list price of $800.00 per the Hurst price schedule. We listed this hose as an unpublished option on the HGAC bid due to it not being under the base bid or the published options.

Thanks,

Gabe Labonte

**Department:** URBAN COUNTY

## Information

### CAPTION

Urban County Program on behalf of the City of Progreso is requesting authority to purchase playground equipment for the Progreso City Park. Purchase will be made from American Parks Company (contract # 423-13), an approved vendor through Hidalgo County's membership and participation with State of Texas Buy Board. The total amount of purchase including installation is $42,000.00 (quote attached) for the Progreso City Park funded thru FY's 24 & 26 (2011 & 2013) Progreso – Park, Recreational Facilities funds.

### BACKGROUND

The playground equipment purchased will be utilized at the Progreso City Park. See attached quote.

Vendor: **American Parks Company**
Purchase Amount: **$42,000.00**

Funds Available: $ 2,648.79 FY 24 (2011) Park, Recreational Facilities
$40,000.00 FY 26 (2013) Park, Recreational Facilities
Total: $42,648.79

## Description

The Double Dutch commercial play structure is designed for children ages 2-12. This structure offers a big bang for the buck with 9 play activities. Play elements include a vertical access ladder, 2 slides, 3 climbers, a leg lift, and a 2 play-wheels. This play structure is ADA accessible.

The components of this playground are commercial grade and quality engineered to resist corrosion, fading and mildew. In addition, it is also designed in compliance with the public playground safety standards, ASTM and CPSC.

The posts are 3.5" in diameter, 12 gauge galvanized steel, powder coated for a superior high gloss finish, and backed by a limited 50 year warranty.

Plastic components are rotationally molded for superior strength and are UV stabilized to prevent fading. We offer an industry leading 15 year limited warranty on our plastic components.

You can rest assured your children are playing safely on our PVC-free play decks. Our revolutionary polyethylene coating is lead free and even more durable than traditional plastisol coatings. Our decks carry a 15 year limited warranty.

Hundreds of color combinations are available to turn any playground into a one of a kind exciting play environment.

# Engineered Wood Fiber

**Quick Overview**

Minimum Order, 750 Square Feet at 12" Depth

***PRICES SUBJECT TO CHANGE

Availability: In stock

| Product Name | Price | Qty |
|---|---|---|
| 750 sqft. Engineered Wood Fiber | $1,400.00 | 0 |
| 1,500 sqft Engineered Wood Fiber | $2,520.00 | 0 |
| 2,250 sqft. Engineered Wood Fiber | $3,320.00 | 0 |

Add to Cart | Add to Quote

## Description

This product is manufactured from engineered, non-toxic, crushed wood fiber (comprised of softwoods or hardwoods), consisting of randomly sized wood fibers, the majority of which do not exceed 1.5"-3" in length, containing 10%-20% fine pieces to aid in compaction. (It is generally understood that the manufacturing process allows a few oversized pieces.)

Once the newly installed product has settled, it forms a "knitted" or compacted layer that will support a wheelchair, crutches, walkers, etc. It does not utilize any wood containing paint, chemicals or additives. The product has minimal bark and is free of twigs, leaf debris and other organic materials.

Wood fiber can be installed by volunteer labor, as well as by an installer. It gives your playground an attractive, natural look.

**Re: Maiz Acres #5 Subdivision – Cul-De-Sac Variance Request**

Dear Mr. Sesin:

On behalf of the developer, RHRW, Ltd. (Rick & Evon Harbison), we are requesting a variance not to have to place a cul-de-sac midway along Maiz Street. The length of the cul-de-sac street is approximately 1,050.

Please consider this request and advise us as soon as possible on your decision. If you have any questions or comments, please contact our office. Thank you.

Sincerely,
MELDEN & HUNT, INC.

Fred L Kurth 2-19-14

Fred L. Kurth, P.E., R.P.L.S.

ENGINEERING REPORT FOR MAIZ ACRES #5
BY: FRED L. KURTH

WATER SUPPLY: DESCRIPTION, COST, AND OPERABILITY DATE:

MAIZ ACRES #5 SUBDIVISION WILL BE PROVIDED WITH POTABLE WATER BY NORTH ALAMO WATER SUPPLY CORPORATION (N.A.W.S.C.). THE SUBDIVIDER AND N.A.W.S.C. HAVE ENTERED INTO A CONTRACT IN WHICH N.A.W.S.C. HAS PROMISED TO PROVIDE SUFFICIENT WATER TO THE SUBDIVISION FOR AT LEAST 30 YEARS AND N.A.W.S.C HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

N.A.W.S.C. HAS AN EXISTING 8" DIAMETER WATER LINE RUNNING ALONG THE EAST SIDE OF THE RIGHT-OF-WAY OF VAL VERDE ROAD. THE WATER SYSTEM FOR MAIZ ACRES #5 CONSISTS OF AN 8" DIAMETER WATER LINE THAT TAPS INTO THE EXISTING 8" LINE. THIS 8" LINE THEN RUNS EAST ALONG THE SOUTH SIDE OF MAIZ STREET RIGHT-OF-WAY ENDING WITH A FIRE HYDRANT AT THE NORTHWEST CORNER OF LOT 16.

WATER DISTRIBUTION FOR THE MAIZ ACRES #5 CONSISTS OF FOURTEEN (14) -1" DIAMETER DUAL SERVICE LINES THAT RUN IN PAIRS TO LOTS BEFORE SPLITTING INTO ¾" DIAMETER SERVICE LINES AND ONE (1)-¾" DIAMETER SINGLE SERVICE LINE. SAID SERVICES TERMINATE AT THE WATER METER BOXES FOR EACH LOT. THE 8" LINE, THE DUAL SERVICES AND ¾" SINGLE SERVICES, AND THE METER BOXES HAVE ALREADY BEEN INSTALLED, AT A TOTAL COST OF $36,555.00, OR $1,260.52 PER LOT. IN ADDITION, THE SUBDIVIDER HAS PAID N.A.W.S.C. THE SUM OF $36,555.00, WHICH COVERS THE $1,260.52 COST PER LOT AS STATED IN THE 30 YEAR WATER SERVICE AGREEMENT WHICH SUM REPRESENTS THE TOTAL COST OF WATER METER, RIGHTS ACQUISITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO N.A.W.S.C. UPON REQUEST BY THE LOT OWNER, N.A.W.S.C. WILL PROMPTLY INSTALL AT NO CHARGE THE WATER METER FOR THAT LOT. THE SUBDIVIDER HAS INSTALLED THREE (3) FIRE HYDRANTS AT A UNIT COST OF $3,250.00 FOR A TOTAL COST OF $9,750.00. THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED AND ACCEPTED BY N.A.W.S.C. AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT.

SEWAGE FACILITIES DESCRIPTION; COST AND OPERABILITY DATES

SEWAGE FROM MAIZ ACRES #5 SUBDIVISION WILL BE TREATED BY INDIVIDUAL ON-SITE SEWAGE FACILITIES ("OSSF") CONSISTING OF A STANDARD DESIGN DUAL COMPARTMENT SEPTIC TANK AND A DRAIN FIELD ON EACH LOT. JOSE A. GONZALEZ PROFESSIONAL ENGINEER NO. 12258, HAS EVALUATED THE SUITABILITY OF THE SUBDIVISION SITE FOR OSSF AND SUBMITTED A REPORT CONCLUDING THAT THE SITE IS SUITABLE FOR OSSF. THE REPORT WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT. EACH LOT HAS ADEQUATE AREA FOR A REPLACEMENT DRAIN FIELD.

SOIL EVALUATION REPORT:

EACH LOT IN THE PROPOSED SUBDIVISION IS AT LEAST 1/2 ACRE IN SIZE. THE NATURAL RESOURCE CONSERVATION SERVICE SOIL SURVEY BOOK INDICATED A SANDY CLAY LOAM SOIL FOR THE AREA. AT LEAST TWO SOIL EXCAVATIONS WERE PERFORMED ON THE SITE, AT OPPOSITE ENDS OF THE PROPOSED DISPOSAL AREA. (ADDITIONAL BORINGS WERE UNNECESSARY BECAUSE THE SOILS ARE VERY UNIFORM WITHIN THIS LIMIT AREA). THE SOIL IS A UNIFORM SANDY CLAY LOAM EXTENDING UP TO 36" BELOW THE BOTTOM OF ANY PROPOSED EXCAVATIONS. THERE IS NO INDICATION OF GROUND WATER OR A RESTRICTIVE LAYER WITHIN 24" OF BOTTOM OF THE PROPOSED EXCAVATIONS. THE SUBDIVISION DRAINS WELL.

THE COST TO INSTALL A SEPTIC SYSTEM ON AN INDIVIDUAL LOT IS $ 1,200.00, INCLUDING THE COST FOR THE REQUIRED PERMIT AND LICENSE. ALL OSSFS HAVE BEEN INSTALLED AS OF THE TIME OF APPLICATION FOR FINAL PLAT APPROVAL AT A TOTAL COST OF $34,800.00 . THE HIDALGO COUNTY HEALTH DEPARTMENT HAS INSPECTED AND APPROVED THE INSTALLATION OF ALL OSSF ON _____ 20____ . LOTS __ THROUGH __ SHALL HAVE OFFS INSTALLED BY LOT OWNERS AT BUILDING PERMIT STAGE.

ENGINEER CERTIFICATION:

BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE SERVICE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE MODEL RULES ADOPTED UNDER SECTION 16.343, WATER CODE. I CERTIFY THAT THE COSTS TO INSTALL THE WATER AND THE UNCONSTRUCTED ON-SITE SEWAGE FACILITIES, DISCUSSED ABOVE, ARE AS FOLLOWS:

WATER FACILITIES – THESE FACILITIES FULLY CONSTRUCTED, WITH THE INSTALLATION OF WATER METERS, WILL COST A GRAND TOTAL OF $46,305.00 WHICH EQUALS TO $1,596.72 PER LOT.

SEWAGE FACILITIES – SEPTIC SYSTEM IS ESTIMATED TO COST $1,200.00 PER LOT (ALL INCLUSIVE), FOR A TOTAL OF $34,800,000 FOR THE ENTIRE SUBDIVISION.

REPORTE DE INGENIERIA DE MAIZ ACRES #5
POR: FRED L. KURTH

PROVISIÓN DE AGUA: DESCRIPCIÓN, GASTOS Y FECHAS DE INICIO

LA SUBDIVISIÓN MAIZ ACRES #5 RECIBIRÁ SU PROVISIÓN DE AGUA DE NORTH ALAMO WATER SUPPLY CORPORATION (LA COMPAÑÍA DE AGUA (N.A.W.S.C.). EL DUEÑO DE LA SUBDIVISIÓN Y N.A.W.S.C. HAN FIRMADO UN CONTRATO POR EL CUAL LA SUBDIVISIÓN RECIBIRÁ SU PROVISIÓN DE AGUA POR LOS PRÓXIMOS 30 AÑOS. N.A.W.S.C. HA PRESENTADO DOCUMENTACIÓN PARA DEMOSTRAR A LARGO PLAZO LA CANTIDAD Y CALIDAD DE AGUA ACCESIBLE PARA SERVIR EL FUTURO DESARROLLO DE LA SUBDIVISIÓN.

EL SISTEMA DE PROVISIÓN DE AGUA PARA LA SUBDIVISIÓN MAIZ ACRES #5 CONSISTE DE UN CONDUCTO DE AGUA DE 8 PULGADAS DE DIÁMETRO QUE PASA POR EL LADO ESTE DEL DERECHO DE VIADE (RIGHT OF WAY) DE LA CARRETERA VAL VERDE ROAD. EL SISTEMA DE PROVISIÓN DE AGUA DE LA SUBDIVISIÓN MAIZ ACRES #5 CONSISTE DE UN CONDUCTO DE AGUA DE 8 PULGADAS DE DIÁMETRO QUE SE CONECTA CON EL CONDUCTO DE AGUA EXISTENTE DE 8 PULGADAS. ESTA LÍNEA DE 8 PULGADAS CUAL SIGUE HACIA EL ESTE POR EL LADO SUR DEL DERECHO DE VÍADE DE LA CALLE _____, TERMINARA CON UNA VÁLVULA DE FLUJO DE 2" PULGADAS DE DIÁMETRO LOCALIZADA AL NORESTE DE LOTE 16.

EL CONDUCTO DE AGUA DE 8 PULGADAS SE PRODUCEN CATORCE CONDUCTOS DOBLES DE AGUA DE 1 PULGADA DE DIÁMETRO PARA CADA DOS LOTES. ESTOS CONDUCTOS SE SEPARAN PARA PRODUCIR DOS CONDUCTOS DE AGUA DE ¾ DE PULGADA DE DIÁMETRO PARA CADA LOTE Y UN CONDUCTO INDIVIDUALE DE AGUA DE ¾ DE PULGADA DE DIÁMETRO PARA CADA LOTE. YA SE HAN INSTALADO LOS CONDUCTOS DE AGUA DE 8 PULGADAS DE DIÁMETRO. LOS DOBLE-CONDUCTOS DE AGUA DE 1 PULGADA DE DIÁMETRO, EL CONDUCTO DE ¾ DE PULGADA DE DIÁMETRO, Y LOS MEDIDORES MECÁNICOS DE AGUA A UN COSTO TOTAL DE $36,555.00 O $1,260.52 POR LOTE. EL DUEÑO DE LA SUBDIVISIÓN TAMBIÉN LE HA PAGADO A LA COMPAÑÍA N.A.W.S.C. $36,555.00, QUE CUBRE EL COSTO DEL MEDIDOR MECÁNICO DE AGUA PARA CADA LOTE, $1,260.52. ESTE PRECIO INCLUYE EL COSTO DE LA INSTALACIÓN DE CADA MEDIDOR Y LOS GASTOS DE CONEXIÓN. CUANDO EL DUEÑO DE CADA LOTE SOLICITE UN MEDIDOR DE AGUA, LA COMPAÑÍA N.A.W.S.C. LO INSTALARA SIN ALGÓN GASTO AL DUEÑO. EL DUEÑO DE LA SUBDIVISIÓN TAMBIÉN HA INSTALADO 3 BOCAS DE RIEGO (FIRE HYDRANT) A UN COSTO DE $3,250.00 POR CADA UNO CUAL GASTA UNA CANTIDAD TOTAL $9,750.00. EL SISTEMA DE AGUA ESTARÁ EN FUNCIONAMIENTO COMPLETO ANTES O EN LA FECHA, EN LA CUAL LA SUBDIVISIÓN SEA REGISTRADA EN EL CONDADO DE HIDALGO.

DRENAJE: DESCRIPCIÓN, GASTOS Y FECHA DE INICIO PARA FACILITAR EL DRENAJE PARA LA SUBDIVISIÓN

SE INSTALARA UNA FOSA SÉPTICA EN CADA SOLAR. ESTA FOSA SETICA CONSISTE DE UN TANQUE SÉPTICO DE MODELO DUAL Y DE UN CAMPO DE DRENAJE PARA EL SOLAR. EL INGENIERO AUTOR DE ESTE DOCUMENTO HA EVALUADO EL ÁREA DONDE SE ENCUENTRA LA SUBDIVISIÓN Y HA PREPARADO UN REPORTE QUE CONCLUYE QUE ESTE TERRENO ES ADECUADO PARA ESAS FOSAS SÉPTICAS (OSSF). EL REPORTE FUE APROBADO POR EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO (HIDALGO COUNTY HEALTH DEPARTMENT) SEGÚN EL REPORTE.

CADA LOTE EN LA SUBDIVISIÓN MIDE MEDIO ACRE. SE HICIERON DOS ES EXCAVACIONES DE EVALUACIÓN EN LUGARES OPUESTOS EN LA SUBDIVISIÓN (EXCAVACIONES ADICIONALES NO FUERON NECESARIAS PORQUE EL TERRENO EN ESTA ÁREA ES SIGNIFICANTEMENTE UNIFORME). EL TERRENO ES UNIFORME (TERRENO ARENOSO ARCILLOSO Y SUELO FRANCO) Y SE EXTIENDE A 36 PULGADAS BAJO TODAS LAS EXCAVACIONES PROPUESTAS. NO EXISTE EVIDENCIA DE AGUA 24 PULGADAS MAS ARRIBA DE LO MAS BAJO DE LAS EXCAVACIONES PROPUESTAS. EL AGUA EN ESTA ÁREA FLUYE BIEN.

EL COSTO TOTAL PARA LA INSTALACIÓN DE UN SISTEMA INDIVIDUAL DE FOSAS SÉPTICAS POR SOLAR SON $1,200.00 DÓLARES, INCLUYENDO EL COSTO DEL PERMISO REQUERIDO Y LICENCIA. EN ESTOS MOMENTOS TODAS LAS FOSA SÉPTICAS HAN SIDO INSTALADAS EN EL PROCESO DE LA APROBACIÓN FINAL. A UN COSTO TOTAL DE $ $34,800.00. EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO HA INSPECCIONADO TODOS LAS FOSAS SÉPTICAS Y AH APROBADO LA INSTALACIÓN DE LAS FOSAS SÉPTICAS DESDE (FECHA DE INSPECCIÓN). LOTES ____ AL ____ SE LE INSTALARA LAS FOSAS SEPTICAS EN EL TEIMPO DEL PERMISO DE CONSTRUCCION.

CERTIFICACIÓN:

CON MI FIRMA, CERTIFICO QUE LOS SERVICIOS Y SISTEMAS DE AGUA Y DE DRENAJE, DESCRITOS EN ESTE DOCUMENTO CUMPLEN CON LAS MODEL SUBDIVISIÓN RULES (LAS REGLAS GOBERNANDO A LAS SUBDIVISIONES), ADOPTADAS EN LA SECCIÓN 16.343 DEL TEXAS WATER CODE (CÓDIGO DE AGUA DE TEXAS). CERTIFICO QUE LOS GASTOS PARA INSTALAR LOS SISTEMAS DE AGUA Y DE DRENAJE SON:

AGUA: EL SISTEMA/SERVICIO DE AGUA SERA INSTALADO Y COMPLETAMENTE CONSTRUIDO MENOS EL MEDIDOR MECÁNICO DE AGUA QUE COSTARA UN TOTAL DE $46,305.00 O $1,596.72 POR LOTE

DRENAJE: SE ESTIMA QUE LA FOSA SÉPTICA COSTARA $1,200.00 A UN COSTO TOTAL DE $34,800.00 TODA LA SUBDIVISIÓN.

N.T.S.

DRAINAGE STATEMENT
MAIZ ACRES # 5

MAIZ ACRES # 5 IS A 17.070 ACRES TRACT OF LAND SITUATED IN THE COUNTY OF HIDALGO, TEXAS, CONSISTING OF: 8.005 ACRES (8.00 ACRES DEED AND MAP CALLS) BEING ALL OF LOT 1, 4.553 ACRES OUT OF LOT 2, AND 4.512 ACRES OUT OF LOT 3, OF THE RESUBDIVISION OF BLOCK 16 OF THE VAL VERDE TRACT SUBDIVISION, ACCORDING TO THE PLAT THEREOF RECORDED IN VOLUME 2, PAGE 38, HIDALGO COUNTY MAP RECORDS. THE PROPERTY IS LOCATED ALONG THE EAST SIDE OF VAL VERDE ROAD AT THE INTERSECTION WITH MOORE ROAD. THE PROPERTY IS CURRENTLY FARM LAND WITH A PROPOSED USE OF 29 RESIDENTIAL LOTS. AND IS IN ZONE "B" AREAS BETWEEN LIMITS OF THE 100-YEAR FLOOD AND 500-YEAR FLOOD; OR CERTAIN AREAS SUBJECT TO 100-YEAR FLOODING WITH AVERAGE DEPTHS LESS THAN ONE(1) FOOT OR WHERE THE CONTRIBUTING DRAINAGE AREA IS LESS THAN ONE SQUARE MILE; OR AREAS PROTECTED BY LEVEES FROM THE BASE FLOOD. COMMUNITY-PANEL NUMBER: 480334 0425 C MAP REVISED: NOVEMBER 16, 1982.

THE SOILS ARE SANDY CLAY LOAM WHICH IS MODERATELY PERVIOUS WITH A RELATIVELY LOW PLASTICITY INDEX. THIS SOIL IS IN HYDROLOGIC GROUP "B". (SEE EXCERPTS FROM "SOIL SURVEY OF HIDALGO COUNTY, TEXAS")

EXISTING RUNOFF IS BY SURFACE FLOW IN A SOUTHERLY DIRECTION AND HAS A RUNOFF OF 4.12 C.F.S. DURING THE 10-YEAR STORM FREQUENCY AS PER THE ATTACHED CALCULATIONS.

THE EXISTING DRAINAGE FOR MAIZ ACRES # 5 CONSISTS OF SURFACE RUNOFF FROM THE LOTS INTO THE PROPOSED STREETS. THE STREET SHALL CHANNEL RUNOFF INTO A PROPOSED DRAINAGE SYSTEM OF TYPE "A" INLETS AND STORM PIPES RANGING IN SIZE FROM 18" TO 24" THAT FLOW EASTERLY AND DISCHARGE INTO AN EXISTING DONNA IRRIGATION DISTRICT DRAINAGE DITCH. THE DRAINAGE DITCH FLOWS SOUTH, ULTIMATELY DISCHARGING INTO THE MAIN FLOODWATER CHANNEL. (SEE ATTACHED EXHIBITS AND DETAILS)

IN ACCORDANCE WITH THE CITY OF DONNA DRAINAGE POLICY, THE PEAK RATE OF RUNOFF IN THE SUBDIVISION WILL NOT BE INCREASED DURING THE 10-YEAR RAINFALL EVENT DUE TO THE IMPROVEMENTS IN THIS SUBDIVISION. THEREFORE AS PER ATTACHED CALCULATIONS THE REQUIRED 28,254 CUBIC FEET OF DETENTION WILL BE PROVIDED WITHIN THE WIDENING OF EXISTING DRAIN DITCH ALONG THE EAST SIDE OF THIS SUBDIVISION. THE DRAINAGE AND DETENTION PLAN WILL BE REVIEWED BY THE HIDALGO COUNTY PLANNING DEPARTMENT PRIOR TO THE ISSUANCE OF THE BUILDING PERMIT.

CERTIFICATION:

BY MY SIGNATURE BELOW, I CERTIFY THAT THE 100 YEAR FLOODPLAIN AS DESCRIBED IN COMMUNITY PANEL NUMBER 480334 0425 C, REVISED NOVEMBER 16, 1982 IS CONTAINED WITHIN THE WIDENING OF EXISTING DRAIN DITCH ADJACENT TO THIS SUBDIVISION.

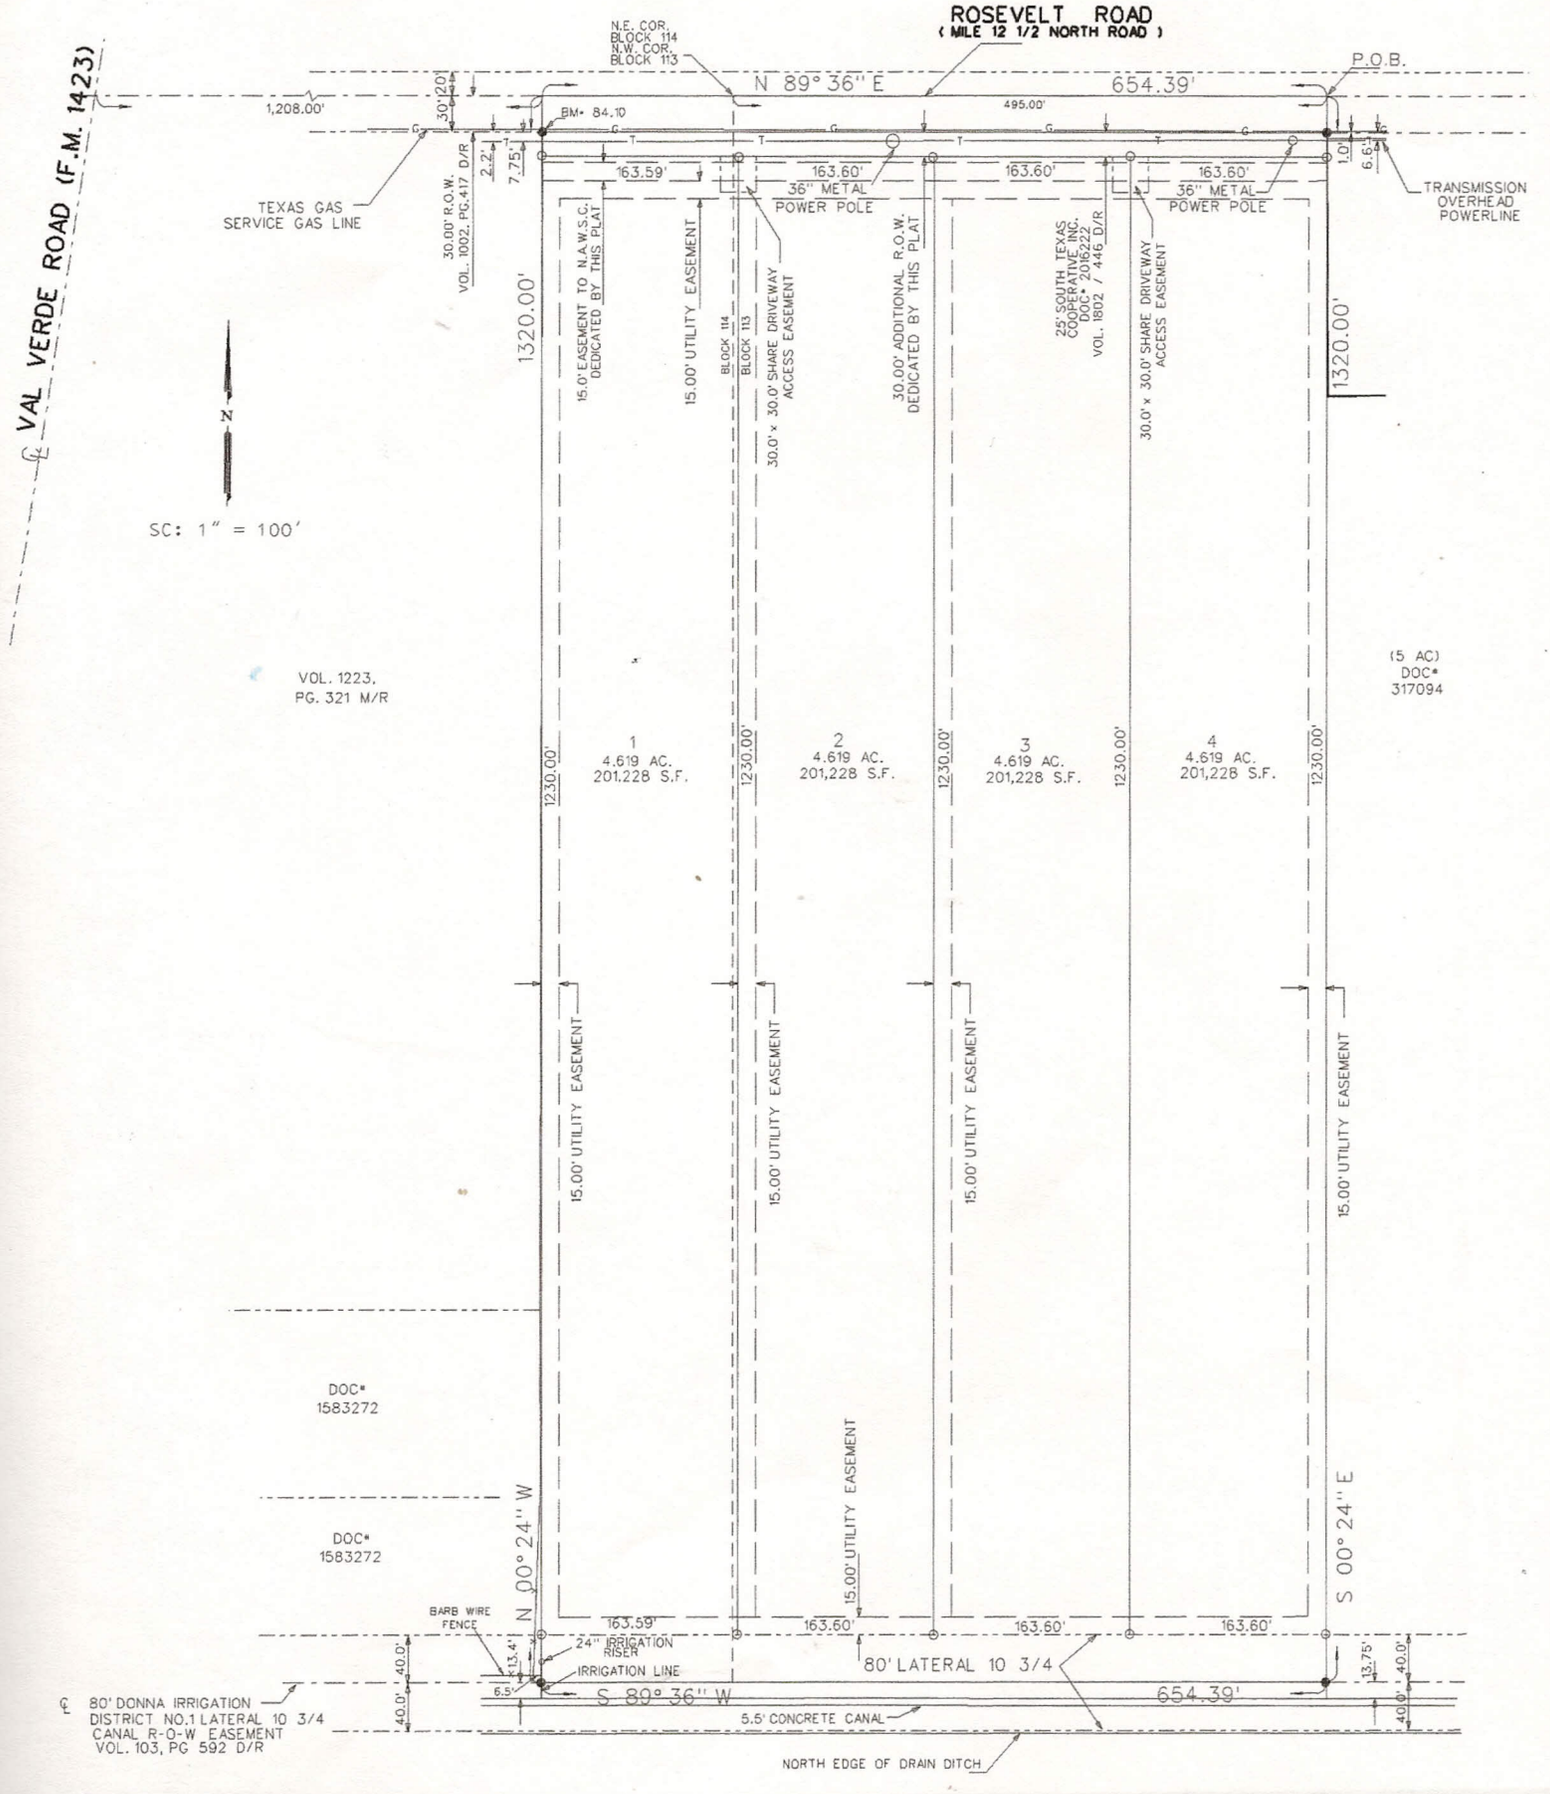
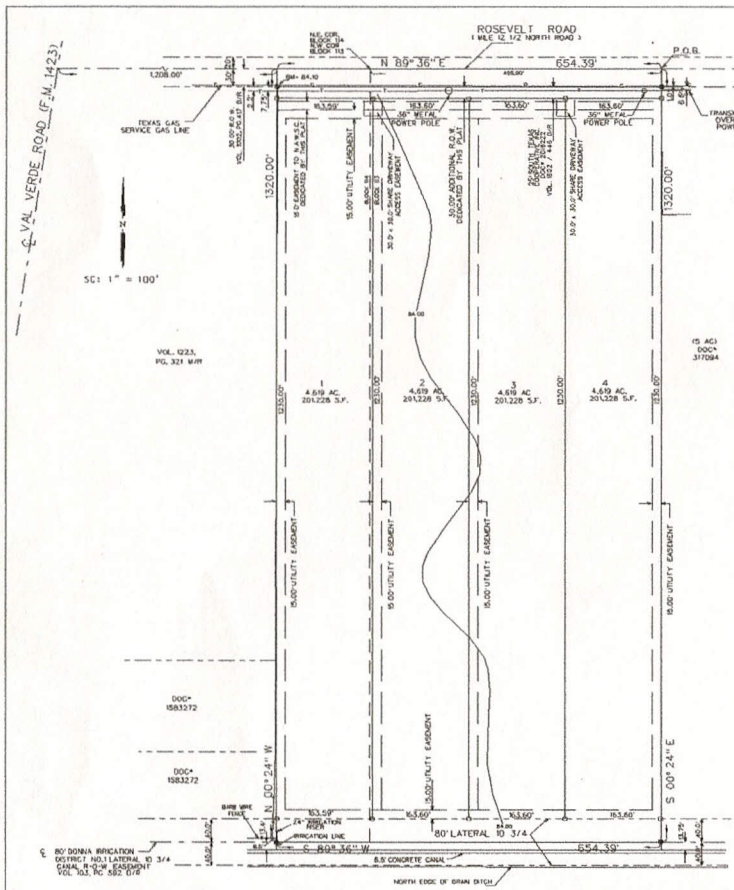
# CAMPBELL ESTATES

A 19.83 ACRE TRACT OF LAND BEING THE WEST 15.00 ACRES OF BLOCK 113 AND THE EAST 4.83 ACRE OF BLOCK 114, HILL HALBERT HALL FIFIELD TRACT, ACCORDING TO THE MAP RECORDED IN VOLUME 1, PAGE 35, MAP RECORDS, HIDALGO COUNTY, TEXAS.





# CAMPBELL ESTATES

A 19.83 ACRE TRACT OF LAND BEING THE WEST 15.00 ACRES OF BLOCK 113 AND THE EAST 4.83 ACRES OF BLOCK 114, HILL HALBERT HALL FIFIELD TRACT, ACCORDING TO THE MAP RECORDED IN VOLUME 1, PAGE 35, MAP RECORDS, HIDALGO COUNTY, TEXAS.

METES AND BOUNDS

A 19.83 ACRE TRACT OF LAND BEING THE WEST 15.00 ACRES OF BLOCK 113, AND THE EAST 4.83 ACRES OF BLOCK 114, HILL HALBERT HALL FIFIELD TRACT, ACCORDING TO THE MAP RECORDED IN VOLUME 1, PAGE 35, MAP RECORDS, HIDALGO COUNTY, TEXAS, AND BEING MORE PARTICULAR DESCRIBED BY METES AND BOUNDS AS FOLLOWS:

BEGINNING AT A POINT ON THE NORTH LINE OF BLOCK 113 AND IN THE CENTERLINE OF ROSEVELT ROAD (MILE 12 ½ ROAD) FOR THE NORTHEAST CORNER OF THIS TRACT, SAID POINT BEARS N 89°36'E, 485.00 FEET FROM THE NORTHEAST CORNER OF BLOCK 114 AND THE NORTHWEST CORNER OF BLOCK 113;

THENCE: S 00°24'E, PASSING A ½" IRON ROD FOUND AT 30.00 FEET FOR THE SOUTH R.O.W. LINE OF ROSEVELT ROAD (MILE 12 ½ NORTH ROAD), PASSING A ½" IRON ROD FOUND AT 1280.00 FEET FOR THE NORTH LINE OF A 80.00 FOOT DONNA IRRIGATION DISTRICT LATERAL 10 ¾ IRRIGATION CANAL R.O.W., A TOTAL DISTANCE OF 1320.00 FEET TO A POINT ON THE SOUTH LINE OB BLOCK 113 FOR THE SOUTHEAST CORNER OF THIS TRACT;

THENCE: S 89°36'W, ALONG THE SOUTH LINE OF BLOCK 113 AND 114, A DISTANCE OF 654.39 FEET TO A POINT FOR THE SOUTHWEST CORNER OF THIS TRACT;

THENCE: N 00°24'W, PASSING A ½" IRON ROD FOUND AT 40.00 FEET FOR THE NORTH LINE OF A 80.00 FOOT DONNA IRRIGATION DISTRICT LATERAL 10 ¾ CANAL R.O.W., PASSING A ½" IRON ROD FOUND AT 1280.00 FEET FOR THE SOUTH R.O.W. LINE OF ROSEVELT ROAD (MILE 12 ½ NORTH ROAD), A TOTAL DISTANCE OF 1320.00 FEET TO A POINT ON THE NORTH LINE OF BLOCK 114 AND THE CENTERLINE OF ROSEVELT ROAD (MILE 12 ½ NORTH ROAD) FOR THE NORTHWEST CORNER OF THIS TRACT;

THENCE: N 89°36'E, ALONG THE NORTH LINE OF BLOCK 114 AND 113, AND THE CENTERLINE OF ROSEVELT ROAD (MILE 12 ½ NORTH ROAD), A DISTANCE OF 654.39 FEET TO THE POINT OF BEGINNING AND CONTAINING 19.83 ACRES OF LAND MORE OR LESS.

GENERAL NOTES:

1. MIN. BUILDING SETBACK LINES:
FRONT 50.0'
SIDE 6.0' OR EASEMENT WHICH EVER IS GREATER
REAR 15.0' OR EASEMENT WHICH EVER IS GREATER
18.00 GARAGE / CAR PORT FRONT SET BACK

2. MINIMUM FINISH FLOOR NOTES:
MINIMUM FINISH FLOOR ELEVATION SHALL BE 18" ABOVE CENTERLINE OF STREET.
18" ABOVE NATURAL GROUND, WHICHEVER IS GREATER
ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME FOR APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISH FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.

3. ⊗ -DENOTES ½" IRON ROD FOUND UNLESS OTHERWISE NOTED.
○ -DENOTES ½" IRON ROD SET UNLESS OTHERWISE NOTED.
^ -DENOTES NAIL FOUND UNLESS OTHERWISE NOTED.

4. BENCHMARK ELEVATION: 84.10' TOP OF ½" IRON ROD LOCATED AT THE NORTHWEST CORNER OF THIS SUBDIVISION (NGVD 1988)

5. FLOOD ZONE DESIGNATION: ZONE "C"
AREAS OF MINIMAL FLOODING
C.P.N. 480334 0435 C
MAP REVISED: NOVEMBER 16, 1982

CONSTRUCTION OF RESIDENTIAL HOUSING WITHIN ANY OF THE SUBDIVISION THAT IS IN THE 100-YEAR FLOOD PLAIN IS PROHIBITED UNLESS THE HOUSING QUALIFIES FOR FOR INSURANCE UNDER THE NATIONAL FLOOD INSURANCE ACT OF 1968 (42 U.S.C. SECTIONS 4001 THROUGH 4127).

6. DRAINAGE:
IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF 42.241 CUBIC FEET - 0.97 ACRE-FEET) OF STORM WATER RUNOFF. DRAINAGE DETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS FOLLOWS: THE DRAINAGE FOR THIS DEVELOPMENT WILL BE SELF-CONTAINED WITH DETENTION AREA ON THE WEST SIDE OF THIS LOT

7. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT.
EASEMENTS SHALL BE KEPT CLEAR OF FENCES, BUILDINGS, SHEDS, SHRUBS TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

8. GENERAL NOTE FOR SINGLE FAMILY RESIDENCES:
NO MORE THAN ONE-SINGLE FAMILY DETACHED DWELLING SHALL BE LOCATED ON EACH LOT, ANY OTHER USE SHALL REQUIRE PLANNING DEPARTMENT, OFFICE OF ENVIRONMENTAL COMPLIANCE, HEALTH DEPARTMENT AND FIRE MARSHALL APPROVAL). APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT

9. ON-SITE SEWAGE FACILITIES (OSSF) NOTE:
THIS SUBDIVISION SHALL USE ON-SITE SEWAGE FACILITIES IN ACCORDANCE WITH TCEQ AND HIDALGO COUNTY REGULATIONS FOR SEWAGE DISPOSAL.
A. OSSF SYSTEM IS BEING DESIGNED FOR DISPOSAL OF DOMESTIC SEWERAGE ONLY. A SEPARATE DESIGN SHALL BE SUBMITTED FOR COMMERCIAL USE.
B. EACH LOT ON THIS PLAT COMPLIES WITH THE MINIMUM 21,780 SQUARE FEET LOT AREA FOR POTABLE WATER SUPPLY.
C. OSSF SYSTEM SHALL REQUIRE INSPECTION AND APPROVAL BY HIDALGO COUNTY AUTHORIZED DEPARTMENT
D. SOIL ANALYSIS HAVE BEEN SUBMITTED TO THE AUTHORIZED HIDALGO COUNTY DEPARTMENT AND EXCERPTS MAY BE ALSO SEEN ON THE UTILITY LAYOUT FOR THIS SUBDIVISION AS SUBMITTED TO THE HIDALGO COUNTY PLANNING DEPARTMENT. THE ENGINEER HAS DETERMINED THAT THE SOIL IS SUITABLE FOR A STANDARD SEPTIC TANK AND ABSORPTIVE DRAINFIELD SYSTEM.
E. APPROVED "OSSF" PERMIT APPLICATION IS REQUIRED INCLUDING INDIVIDUAL LOT PLANNING MATERIALS PRIOR TO OCCUPYING A LOT.
F. A SPECIAL DESIGN IS REQUIRED FOR ALL OSSF SYSTEMS LOCATED WITH IN A DESIGNATED FLOOD ZONE. THE DESIGN SHALL INCLUDE BUT NOT LIMITED TO THE FOLLOWING ITEMS:
1. ANCHORING OF SEPTIC TANK(s)
2. BACK FLOW VALVES
3. SEPTIC TANK COVER SHALL BE ABLE TO SEAL

10. THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES OF THIS SUBDIVISION

11. DAVID CAMPBELL- ALEXANDER CAMPBELL JR AND ERIC CAMPBELL., - THE OWNERS & SUBDIVIDERS CAMPBELL ESTATES RETAINS AN EASEMENT UPON EACH LOT FOR THE PURPOSE OF INSTALLING AN APPROVED OSSF ON THE LOT AS DESCRIBED ON SHEET No. 2 OF THIS PLAT.

12. EACH PURCHASED CONTRACT MADE BETWEEN A SUBDIVIDER AND PURCHASER OF A LOT IN THIS SUBDIVISION SHALL CONTAIN A STATEMENT DESCRIBING HOW AND WHEN WATER, SEWER, ELECTRICITY, AND GAS SERVICES WILL BE MADE AVAILABLE TO THE SUBDIVISION.

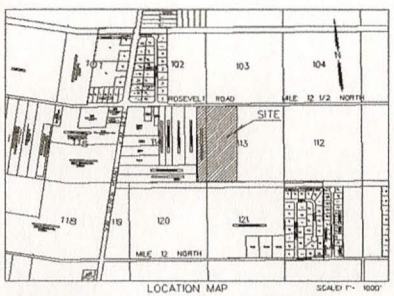
13. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE A MINIMUM WIDTH OF 15.00 FEET AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES. BY SIGNING THIS PLAT DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPANCY AN EASEMENT.

14. AN OFF-STREET PARKING LOT SITE PLAN & DRAINAGE PLAN APPROVAL BY THE HIDALGO COUNTY PLANNING DEPARTMENT, OFFICE OF ENVIRONMENTAL COMPLIANCE SHALL BE REQUIRED FOR COMMERCIAL AND INDUSTRIAL USE AT THE TIME OF APPLICATION FOR CONSTRUCTION PRIOR TO THE ISSUANCE OF A BUILDING AND/OR DEVELOPMENT PERMIT. NO WATER OR LIGHT CLEARANCES SHALL BE ISSUED UNTIL THE SITE PLAN, DRAINAGE PLAN AND OSSF PLAN ARE APPROVED AND PROPOSED IMPROVEMENTS ARE CONSTRUCTED IN ACCORDANCE WITH COUNTY AND STATE STANDARDS.

15. FIRE HYDRANTS INSTALLED WITHIN THE CORPORATION'S DISTRIBUTION SYSTEM ARE PROVIDED AT THE CONVENIENCE OF THE CORPORATION AND DO NOT IMPLY ANY RESPONSIBILITY ON THE PART OF THE CORPORATION TO MEET FIRE FLOW REQUIREMENTS.

16. IF THE PURCHASER(S) OF A LOT REQUIRES A COMMERCIAL LOT & SUBSEQUENTLY DETERMINE THAT A LARGER METER IS REQUIRED, THEN THE LUE WILL NEED TO BE CALCULATED AND APPROPRIATE FEES ON THE UPGRADE MUST BE PAID TO THE CORPORATION PRIOR TO THE INITIATION OF SERVICE ON SUCH LARGER METER(S). THE DEVELOPER WILL NEED TO ADVISE PURCHASERS OF THIS OBLIGATION.

17. NO INDIVIDUAL LOT DRIVEWAY ACCESS WILL BE ALLOWED FROM ROSEVELT ROAD ON TO LOTS 1 THROUGH 4. A 30.00 FOOT SHARED DRIVEWAY ENTRANCE SHALL BE CONSTRUCTED BY DEVELOPER BETWEEN LOTS 1 AND 2, AND 3 AND 4, TO PROVIDE INGRESS AND EGRESS FROM ROSEVELT ROAD



LOCATION MAP SCALED 1"= 1000'

LOCATION OF SUBDIVISION WITH RESPECT TO THE EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY

CAMPBELL ESTATES IS LOCATED WITHIN HIDALGO COUNTY PRECINCT No. 1 IN THE CENTRAL EAST OF HIDALGO COUNTY ON THE SOUTH SIDE OF ROSEVELT ROAD, 1.208 FEET EAST OF VAL VERDE ROAD. THE ONLY NEARBY MUNICIPALY IS THE CITY OF DONNA ACCORDING TO THE MAP IN THE OFFICE OF THE SECRETARY OF THE CITY OF DONNA (POPULATION 15,846 /2005 CENSUS), CAMPBELL ESTATES LIES APPROXIMATELY 3.0 MILES FROM THE CITY LIMITS OF DONNA AND LIES WITHIN THE CITY'S 5 MILE EXTRATERRITORIAL JURISDICTION (ETJ) UNDER LOCAL GOVERNMENT CODE § 42.021

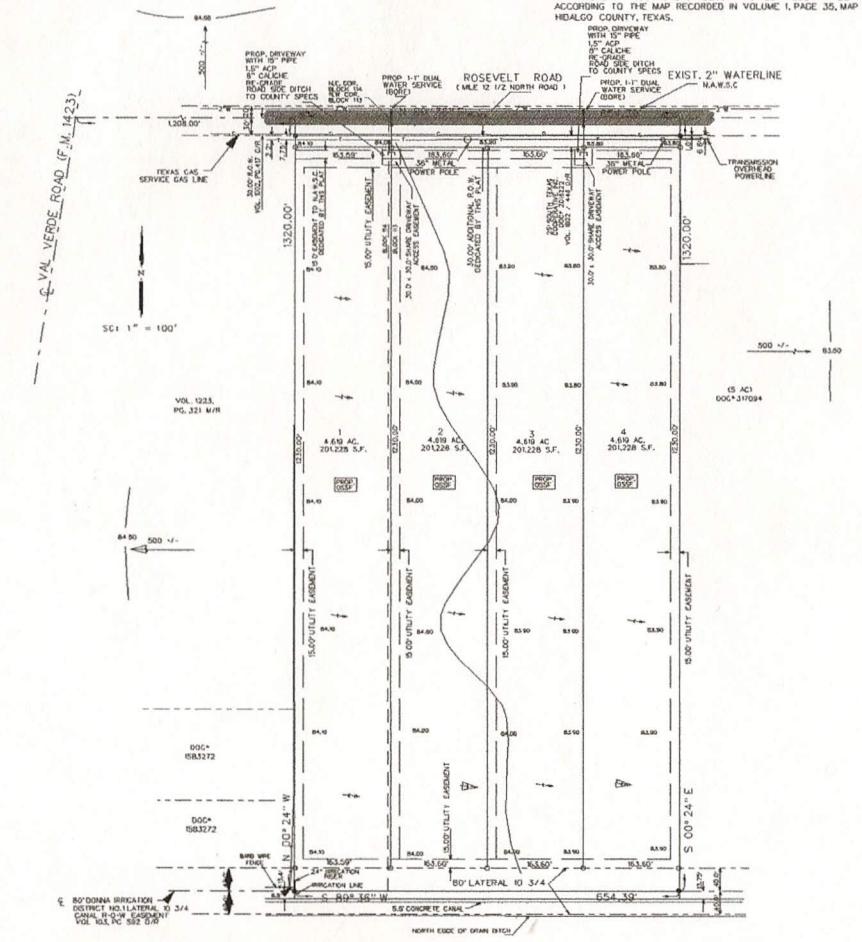
# CAMPBELL ESTATES

A 19.83 ACRE TRACT OF LAND BEING THE WEST 15.00 ACRES OF BLOCK 113 AND THE EAST 4.83 ACRE OF BLOCK 114, HILL HALBERT HALL FIFIELD TRACT, ACCORDING TO THE MAP RECORDED IN VOLUME 1, PAGE 35, MAP RECORDS, HIDALGO COUNTY, TEXAS.



EL COSTO TOTAL PARA LA INSTALACION DE UN SISTEMA INDIVIDUAL DE FOSAS SEPTICAS POR SOLAR SON $ 1,500.00 DOLARES, INCLUYENDO EL COSTO DEL PERMISO REQUERIDO Y LICENCIA, EN ESTOS MOMENTOS NINGUNA FOSAS SEPTICAS HA SIDO INSTALADA EN EL PROCESO DE LA APROVACION FINAL.

EN CUALQUIER MOMENTO DESPUES QUE EL TERRENO SEA VENDIDO, EL COMPRADOR PUEDE INICIAR LA INSTALACION DE UN SISTEMA SEPTICO ESCRIBIENDO O LLAMANDO AL DUENO DE LA SUBDIVISION Y ENTONCES ARCHIVANDO EN EL DEPARTAMENTO DE SALUD DEL CONDADO DE HIDALGO UNA APLICACION PARA UN PERMISO DE CONSTRUIR PARA UN SISTEMA SEPTICO. LAS FOSAS SEPTICAS DEBEN DE ESTAR INSTALLADAS ANTES QUE EL CONDADO DE HIDALGO PUEDA APROBAR LA AUTORIZACION DE LUZ Y AGUA.

CERTIFICATION:

CON MI FIRMA, CERTIFICO QUE LOS SERVICIOS Y SISTEMAS DE AGUA Y DE DRENAJE, DESCRITOS EN ESTE DOCUMENTO CUMPLEN CON LAS MODEL SUBDIVISION RULES (LAS REGLAS GOBERNANDO A LAS SUBDIVISIONES), ADOPTADAS EL LA SECCION 16.343 DEL TEXAS WATER CODE (CODIGO DE AGUA TEXAS). CERTIFICO QUE LOS GASTOS PARA INSTALAR LOS SISTEMAS DE AGUA Y DE DRENAJE SON:

AGUA: EL SISTEMA/SERVICIO DE AGUA SERA INSTALADO Y COMPLETAMENTE CONSTRUIDO MENOS EL MEDIDOR MECANICO DE AGUA QUE COSTARA UN TOTAL DE $ 6,500.00

DRENAJE: SE ESTIMA QUE LA FOSA SEPTICA COSTARA $ 1,500.00, AUN COSTO TOTAL DE $8,000.00 PARA TODA LA SUBDIVISION.

BEFORE ME, THE UNDERSIGNED NOTARY PUBLIC, ON THIS DAY PERSONALLY APPEARED DAVID CAMPBELL ALEXANDER CAMPBELL JR, AND ERIC CAMPBELL PROVED TO BE THROUGH THEIR TEXAS DEPARTMENT OF PUBLIC SAFETY DRIVER LICENSE TO BE THE PERSON WHOSE NAME IS SUBSCRIBED TO THE FOREGOING INSTRUMENT, WHO, BEING BY ME DULY SWORN, DECLARED THAT THEIR STATEMENTS THEREIN ARE TRUE AND CORRECT AND ACKNOWLEDGED THAT THEY EXECUTED THE SAME FOR THE PURPOSES AND CONSIDERATION THEREBY EXPRESSED.

NOTARY PUBLIC, FOR THE STATE OF TEXAS

FINAL WATER AND SEWER ENGINEERING REPORT

WATER SUPPLY: DESCRIPTION, COST, AND OPERABILITY DATE:

CAMPBELL SUBDIVISION WILL BE PROVIDED WITH POTABLE WATER BY THE NORTH ALAMO WATER SUPPLY (N.A.W.S.C.). THE SUBDIVIDER, AND N.A.W.S.C., HAVE ENTERED INTO A CONTRACT IN WHICH N.A.W.S.C. HAS PROVIDED TO PROVIDE SUFFICIENT WATER TO THE SUBDIVISION FOR AT LEAST 30 YEARS AND N.A.W.S.C. HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

N.A.W.S.C. HAS AN EXISTING 2" DIAMETER WATERLINE RUNNING ALONG THE NORTH RIGHT-OF-WAY OF ROSEVELT ROAD (MILE ½ NORTH ROAD)

WATER DISTRIBUTION FOR CAMPBELL ESTATES CONSIST OF A PROPOSED 2 - 1" DIAMETER DUAL WATER SERVICE VIA BORE ROSEVELT ROAD , SAID SERVICES TERMINATE AT THE WATER METER BOX, AND THE METER BOX HAVE ALREADY BEEN INSTALLED AT A TOTAL COST OF $ 2,500.00, IN ADDITION THE SUBDIVIDER HAS PAID N.A.W.S.C. THE SUM OF $ 4,000.00, WHICH COVERS THE COST FOR LOTS AS STATED IN THE 30 YEAR WATER SERVICE AGREEMENT WHICH SUM REPRESENTS THE TOTAL COST OF THE WATER METER, RIGHTS ACQUISITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO N.A.W.S.C., UPON REQUEST BY THE LOT OWNER, N.A.W.S.C., WILL PROMPTLY INSTALL AT NO CHARGE THE WATER METER.

THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED AND ACCEPTED BY N.A.W.S.C., AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT.

SEWAGE FACILITIES: DESCRIPTION, COSTS, AND OPERABILITY DATES:

SEWAGE FROM CAMPBELL ESTATES WILL BE TREATED BY INDIVIDUAL ON-SITE SEWAGE FACILITIES ("OSSF") CONSISTING OF A STANDARD DESIGN DUAL COMPARTMENTS SEPTIC TANK AND A DRAIN FIELD ON THIS LOT. THE SITE EVALUATOR JOSE A GONZALEZ REG. # 12258, HAS EVALUATED THE SUITABILITY OF THE SUBDIVISION SITE FOR OSSF AND SUBMITTED A REPORT CONCLUDING THAT THE SITE IS SUITABLE FOR OSSF. THE REPORT WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT. EACH LOT HAS ADEQUATE AREA FOR A REPLACEMENTS DRAIN FIELD

EACH LOT IN THE PROPOSED SUBDIVISION IS AT LEAST ½ ACRE IN SIZE, THE NATURAL RESOURCE CONSERVATION SERVICE SOIL SURVEY BOOK INDICATES A SANDY LOAM SOIL FOR THE AREA AT LEAST TWO SOIL EXCAVATIONS WERE PERFORMED ON THE SITE, AT OPPOSITE ENDS OF THE SOIL IS A TEXTURE CLASS IS SANDY LOAM BLOCKY EXTENDING UP TO 36" BELOW THE BOTTOM OF ANY PROPOSED EXCAVATIONS, THERE IS NO INDICATION OF GROUNDWATER OR A RESTRICTIVE LAYER WITHIN 24" OF BOTTOM OF THE PROPOSED EXCAVATIONS, THE SUBDIVISION DRAINS WELL.

THE ESTIMATED COST TO INSTALL A SEPTIC SYSTEM ON AN INDIVIDUAL LOTS IS $1,500.00, INCLUDING THE COST FOR THE REQUIRED PERMIT AND LICENSE ALL OSSF'S HAVE BEEN INSTALLED AS OF THE TIME OF APPLICATION FOR FINAL PLAT APPROVAL, WITH THE FILING OF THIS PLAT, THE SUBDIVIDER IS PROVIDING ADEQUATE FINANCIAL GUARANTEES OF PERFORMANCE IN THE FORM OF A (CASHIER'S CHECK OR PERSONAL CHECK)REPRESENTING A "CASH DEPOSIT TO BE HELD BY THE COUNTY OF HIDALGO IN ESCROW IN THE AMOUNT OF $ 6,000.00 WHICH IS THE ESTIMATED TOTAL COST TO INSTALL A SEPTIC TANK SYSTEM ON EACH LOT, THE SUBDIVIDER WILL INCLUDE THE COST OF A SEPTIC TANK SYSTEM IN THE SALE PRICE OF THE LOT.

AT ANY TIME AFTER THE LOTS IS SOLD, THE PURCHASER MAY INITIATE INSTALLATION OF AN OSSF SYSTEM BY WRITING OR CALLING THE SUBDIVIDER. SUBDIVIDER SHALL BE RESPONSIBLE TO FILE WITH THE HIDALGO COUNTY HEALTH DEPARTMENT AN APPLICATION FOR A PERMITTO INSTALL AN OSSF. THE OSSF SYSTEM SHALL BE INSTALLED ON THE LOT PRIOR TO THE COUNTY ISSUING A FINAL LIGHT AND WATER CLEARANCE.

ENGINEER CERTIFICATION:
BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE SERVICE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE MODEL RULES ADOPTED UNDER SECTION 16.343, WATER CODE. I CERTIFY THAT THE COST TO INSTALL THE WATER DISTRIBUTION SYSTEM AND ONSITE SEWAGE FACILITIES, DISCUSSED ABOVE, ARE AS FOLLOWS:

WATER FACILITIES - THESE FACILITIES FULLY CONSTRUCTED, WITH THE INSTALLATION OF WATER METERS, WILL COST A GRAND TOTAL OF $ 6,500.00
SEWAGE FACILITES - SEPTIC SYSTEM IS ESTIMATED TO COST $1,500.00 PER LOT FALL INCLUSIVE), FOR A TOTAL OF $6,000.00 FOR THE ENTIRE SUBDIVISION.

FINAL WATER AND SEWER ENGINEERING REPORT IN SPANISH

PROVISION DE AGUA: DESCRIPCION, GASTOS Y FECHA DE INICIO

LA SUBDIVISION DE CAMPBELL ESTATES RECIBIRA SU PROVISION DE AGUA DE NORTH ALAMO WATER SUPPLY. EL DUENO DE LA SUBDIVISION Y LA COMPANIA AGUA N.A.W.S.C. HAN FIRMADO UN CONTRATO POR EL CUAL LA SUBDIVISION RECIBIRA SU PROVISION DE AGUA POR LOS PROXIMOS 30 ANOS, N.A.W.S.C. HA PRESENTADO DOCUMENTACION PARA DEMOSTRAR A LARGO PLAZO LA CANTIDAD Y CALIDAD DE AGUA ACCESIBLE PARA SERVIR EL FUTURO DESARROLLO DE LA SUBDIVISION.

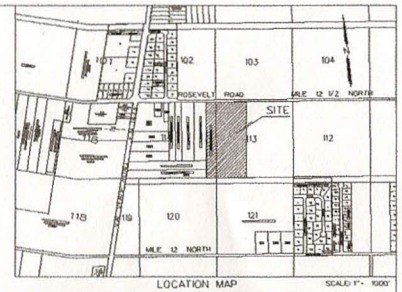
EL SISTEMA DE PROVISION DE AGUA PARA LA SUBDIVISION DE CAMPBELL ESTATES CONSISTE DE UN CONDUCTO DE AGUA EXISTENTE DE 2 PULGADAS DE DIAMETRO PASA POR EL LADO NORTE DEL DERECHO DE VIA (RIGHT-OF-WAY) DE LA CARRETERA ROSEVELT ROAD (MILE 12 ½ NORTH ROAD)

PARA LA DISTRIBUCION DEL AGUA PARA CAMPBELL ESTATES, SE INSTALARAN DOS CONDUCTOS DOBLE DE 1 PULGADA DIDIAMETRO PARA POR DEBAJO DE LA CARRETERA ROSEVELT ROAD (MILE 12 ½ NORTH ROAD) Y EL MEDIDOR MECANICO DE AGUA A UN COSTO TOTAL DE $ 2,500.00 EL DUENO DE LA SUBDIVISION TAMBIEN LE HA PAGADO A N.A.W.S.C. $ 4,000.00 POR LA SUBDIVISION QUE CUBRE EL COSTO DEL MEDIDOR MECANICO DE AGUA PARA CADA LOTE, ESTE PRECIO INCLUYE EL COSTO DE LA INSTALACION DEL MEDIDOR Y LOS GASTOS DE CONEXION CUANDO EL DUENO DEL LOTE SOLICITE EL MEDIDOR DE AGUA, LA COMPANIA DE N.A.W.S.C., LO INSTALARA SIN COSTO ALGUNO AL DUENO DE LA SUBDIVISION, EL SISTEMA DE AGUA ESTARA EN FUNCIONAMIENTO COMPLETO ANTES O EN LA FECHA, EN LA CUAL LA SUBDIVISION SEA REGISTRADA EN EL CONDADO DE HIDALGO.

DRENAJE: DESCRIPCION, GASTOS Y FECHA DE INICIO PARA FACILITAR EL DRENAJE PARA LA SUBDIVISION.

SE INSTALARA UNA FOSA SEPTICA EN CADA LOTE, ESTA FOSA SEPTICA CONSISTE DE UN TANQUE SEPTICO DE MODELO DUAL Y DE UN CAMPO DE DRENAJE PARA EL SOLAR, JOSE A GONZALEZ REG. #12258 HA EVALUADO EL AREA DONDE SE ENCUENTRA LA SUBDIVISION Y HA PREPARADO UN REPORTE QUE CONCLUYE QUE ESTE TERRENO ES ADECUADO PARA ESAS FOSA SEPTICAS (OSSF) EL REPORTE FUE APROVADO POR EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO (HIDALGO COUNTY HEALTH DEPARTMENT) SEGUN EL REPORTE.

CADA LOTE EN LA SUBDIVISION MIDE MEDIO ACRE, SE HICIERON DOS EXCAVACIONES DE EVALUACION EN LOS LUGARES OPUESTOS EN LA SUBDIVISION (EXCAVACIONES ADICIONALES NO FUERON NECESARIAS PORQUE EL TERRENO EN ESTA AREA ES SIGNIFICANTEMENTE UNIFORME) EL TERRENO ES UNIFORME (TERRENO ARCILLOSO Y SUELO FRANCO) Y SE EXTIENDE A 36 PULGADAS BAJO TODAS LAS EXCAVACIONES PROPUESTAS, NO EXISTE EVIDENCIA DE AGUA 24 PULGADAS MAS ARRIBA DE LO MAS BAJO DE LAS EXCAVACIONES PROPUESTAS, EL AGUA EN ESTA AREA FLUYE BIEN.



LOCATION MAP — SCALE 1" = 1000'

LOCATION OF SUBDIVISION WITH RESPECT TO THE EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY:

CAMPBELL ESTATE IS LOCATED WITHIN HIDALGO COUNTY PRECINCT No. 1 IN THE CENTRAL EAST OF HIDALGO COUNTY ON THE SOUTH SIDE OF ROSEVELT ROAD, 1,208 FEET EAST OF VAL VERDE ROAD, THE ONLY NEARBY MUNICIPALY IS THE CITY OF DONNA ACCORING TO THE MAP IN THE OFFICE OF THE SECRETARY OF THE CITY OF DONNA (POPULATION 15,845 /2005 CENSUS), CAMPBELL ESTATES LIES APPROXIMATELY 3.0 MILES FROM THE CITY LIMITS OF DONNA AND LIES WITHIN THE CITY'S 5 MILE EXTRATERRITORIAL JURISDICTION (ETJ) UNDER LOCAL GOVERNMENT CODE § 42.021

## DRAINAGE REPORT:

JANUARY 14, 2014
DRAINAGE REPORT:
BY: GUILLERMO A. ARRATIA, P.E.

CAMPBELL ESTATES
HIDALGO COUNTY, TEXAS

PROJECT LOCATION:
THE PROPERTY IS LOCATED ON TH SOUTH SIDE OF ROSEVELT ROAD (MILE 12 ½ NORTH ROAD) 1,208.00 FEET EAST OF VAL VERDE ROAD (FM 1423)

FLOOD PLAIN:
THE SUBJECT TRACT LIES IN ZONE "C", AREAS OF MINIMAL FLOODING.
IN ACCORDANCE WITH FEMA FIRM MAP NO. 480334 0425 C
MAP REVISED: NOVEMBER 16, 1988.

SOIL CONDITIONS:
A REVIEW OF THE SOIL SURVEY OF HIDALGO COUNTY INDICATES THE SUBJECT TRACT LIES IN AN AREA OF PREDOMINANTLY HIDALGO SANDY CLAY LOAM SOIL THAT HAS A POOR LOW SHRINK-SWALE POTENTIAL AND IS LISTED IN HYDROLOGICAL GROUP B

EXISTING CONDITIONS:
THE SUBJECT TRACT IS CURRENTLY DEVELOP, THE EXISTING TERRAIN HAS A GRADE OF APPROXIMATELY 0.10', EXISTING RUNOFF 17.55 CFS3 FROM THE SITE IS BY FORM OF SHEET FLOW RUNS TOWARDS THE EAST SIDE OF THIS TRACT.

PROPOSED CONDITIONS:
THE PROPOSED CONDITIONS FOR THIS SUBJECT TRACT CONSIST OF 4 RESIDENTAL/COMMERCIAL LOTS. THE STORM SEWER RUNOFF AFTER DEVELOPMENT TO BE 13.6 CFS, I HAVE CALCULATED THAT 42.24 CF OF STORM SEWER FOR A 10-YEAR DESIGN FREQUENCY AND WILL BE DETAINED WITHIN THE PROPERTY BY A DRAINAGE EXISTING NATURAL LOW AREAS, AND OUTFALLING INTO THE RE-GRADED ROAD SIDE DITCH, DRAINAGE PLAN TO BE APPROVED BY THE COUNTY OF HIDALGO AT THE TIME OF ISSUANCE OF BUILDING PERMIT.

CERTIFICATION:
BY MY SIGNATURE BELOW, I CERTIFY THAT THIS SUBDIVISION LIES IN A
THE SUBJECT TRACT LIES IN ZONE "C"
AREAS OF MINIMAL FLOODING.
IN ACCORDANCE WITH FEMA FIRM MAP NO. 480334 0425 C
MAP REVISED: NOVEMBER 16, 1988
BASED ON GRAPHICAL REPRESENTATION ON DATE SIGN.

PROPOSED **ROJAS** SUBDIVISION, PRECINCT No. **4 .**

ENGINEER: **R. E. GARCIA & ASSOC.** DEVELOPER: **RAFAEL A. ROJAS**

☒ PRELIMINARY APPROVAL ☐ FINAL APPROVAL ☐ FINAL APPROVAL WITH FINANCIAL GUARANTEE ☐ WITH VARIANCE

NUMBER OF LOTS: **2** ☒ *SINGLE FAMILY ___ ☐ *MULTI-FAMILY ___ ☐ COMMERCIAL ___ ☐ INSTITUTIONAL

LOCATION DESCRIPTION: **North of Aurora Rd. Approx. 300 feet East of Seminary Rd.**

SUBDIVISION LIES WITHIN THE: ☒ *ETJ of* **Edinburg** *and was approved administratively by said City.*

DRAINAGE REPORT WAS APPROVED BY HCDD#1: ON **10-02-13** PROPERTY LIES WITHIN FLOOD ZONE: **"X"** AS PER FEMA.

DRAINAGE DESIGN: **Detention will be accomplished by properly grading the landscape areas which will overflow on the Aurora Road side ditch.**

ROAD R.O.W. DEDICATION: **5 feet on Aurora Rd.**

H.C.R.O.W. FINAL APPROVAL DATE: **10-21-14** By, **Joe Ochoa** PCT. 4 R.O.W. AGENT

H.C.H.D. FINAL APPROVAL DATE: **01-29-14** By, **Elizardo "Chardo" Ramos,** Environmental Health Division Manager

☒ OSSF & SOIL ANALYSIS WERE CONDUCTED BY: **Raul E. Garcia, P.E.**

SEWER SYSTEM: ☐ OSSF HAVE BEEN INSTALLED AND INSPECTED BY HCHD ON: _____

WATER SERVICE PROVIDER: **City Of Edinburg** LINE SIZE: **2"** LOCATION: **Aurora Road**

H.C.O.E.C. FINAL APPROVAL DATE: **02-13-14 .**: By **Martin Ramirez,** Environmental Compliance Coordinator

☒ Less than 1 acre and project is not part of a larger common plan of development – Project will not need coverage under TPDES General Permit for Construction Activities (TXR150000). No further submittals are required.

STAFF RECOMMENDS:

☒ **Preliminary Approval** *subject to comments and future recommendations by planning, other departments and the approval of the City of* **Edinburg .**

☐ **Preliminary Approval** *subject comments and future recommendations by planning and other Departments*

☐ **Final Approval** *subject to recommendations other departments*

☐ **Final Approval** *with financial guarantee.*

*This subdivision plat has been reviewed and complies with the Hidalgo County Subdivision Rules,*

* *Texas Water Development Board Model Subdivision Rules and The Texas Local Government Code.*

# METES AND BOUNDS DESCRIPTION FOR A 1.38 ACRE TRACT

A 1.38 acre tract of land being a portion of Lot 12, Whittenburg and Looney Subdivision as recorded in Volume 8, Page 42, Map Records, Hidalgo County, Texas, also being that certain tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, and being more fully described by metes and bounds as follows:

BEGINNING at a set cotton picker spindle on the centerline of Aurora Road also being the being the south line of said Lot 12, being the southwest corner of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the southeast corner of that certain tract described in Warranty Deed recorded in Document # 573466, Official Records, Hidalgo County, Texas, for the southwest corner of herein described tract. Said point bears S 81 21' 00" E 331.43 feet from a found one-half inch iron rod being the southwest corner of said Lot 12.

THENCE N 08 39' 00" E along the west line of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the east line of said tract described in Warranty Deed recorded in Document # 573466, Official Records, Hidalgo County, Texas, being parallel to the west line of said Lot 12, pass at 20.00 feet a set one-half inch iron rod being the north Right-of-Way line of said Aurora Road and continuing for a total distance of 194.17 feet to a set one-half inch iron rod on the south line of that certain tract described in Warranty Deed recorded in Volume 1534, Page 486, Deed Records, Hidalgo County, Texas, being the northwest corner of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the northeast corner of said tract described in Warranty Deed recorded in Document # 573466, Official Records, Hidalgo County, Texas, the northwest corner of herein described tract.

THENCE S 81 31' 00" E 309.94 feet along said south line of tract described in Warranty Deed recorded in Volume 1534, Page 486, Deed Records, Hidalgo County, Texas, also being the north line of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, to a found one-half inch iron rod being the northeast corner of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the northwest corner of that certain tract described in Warranty Deed with Vendor's Lien recorded in Document # 863234, Official Records, Hidalgo County, Texas, for the northeast corner of herein described tract.

THENCE S 08 39' 00" W along the east line of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the west line of said tract described in Warranty Deed with Vendor's Lien recorded in Document # 863234, Official Records, Hidalgo County, Texas, being parallel to the west line of said Lot 12, pass at 175.07 feet a set one-half inch iron rod being the north Right-of-Way line of said Aurora Road and continuing for a total distance of 195.07 feet to a set cotton picker spindle on the centerline of said Aurora Road also being the south line of said Lot 12, being the southeast corner of said tract described in Warranty Deed recorded in Document # 1090532, Official Records, Hidalgo County, Texas, also being the southwest corner said tract described in Warranty Deed with Vendor's Lien recorded in Document # 863234, Official Records, Hidalgo County, Texas, for the southeast corner of herein described tract.

THENCE N 81 21' 00" W 309.94 feet along said centerline of Aurora Road also being the south line of said Lot 12 to the point of beginning and containing 1.38 acres of land, more or less.

## PLAT NOTES & RESTRICTIONS:

1. FLOOD ZONE STATEMENT:
FLOOD ZONE DESIGNATION: ZONE "X" SHADED
ZONE "X" SHADED IS DEFINED AS AREAS OF 500 YEAR FLOOD; AREAS OF 100-YEAR FLOOD WITH AVERAGE DEPTHS OF LESS THAN 1 FOOT OR WITH DRAINAGE AREAS LESS THAN 1 SQUARE MILEAND AREA PROTECTED BY LEVEES FROM 100-YEAR FLOOD

COMMUNITY-PANEL NO. 480334 0325 D EFFECTIVE DATE: JUNE 6, 2000, LOMR: MAY 30, 2001 OF THE FEDERAL EMERGENCY MANAGEMENT AGENCY MAPS FOR HIDALGO COUNTY, TEXAS AND THE LOCAL FLOOD PLAIN ADMINISTRATOR HAVE IDENTIFY AN AREA AS SHOWN ON THIS PLAT WITHIN THE PROPOSED SUBDIVISION TO BE WITHIN THE 100-YEAR FLOOD PLAIN.
CONSTRUCTION OF RESIDENTIAL HOUSING WITHIN ANY AREA OF THE SUBDIVISION THAT IS IN THE 100-YEAR FLOOD PLAIN IS PROHIBITED UNLESS THE HOUSING QUALIFIES FOR INSURANCE UNDER THE NATIONAL FLOOD INSURANCE ACT OF 1968 (42 U.S.C. SECTIONS 4001 THROUGH 4127).

2. SETBACKS:
FRONT: 40.00 FEET ON AURORA ROAD
REAR: 15.00 FEET OR EASEMENT, WHICHEVER IS GREATER
SIDE: 6.00 FEET OR EASEMENT WHICHEVER IS GREATER

3. GENERAL NOTE FOR SINGLE FAMILY RESIDENCES: NO MORE THAN ONE-SINGLE FAMILY DETACHED DWELLING SHALL BE LOCATED ON EACH LOT. THIS RESTRICTION SHALL BE PLACED IN ALL DEEDS AND CONTRACTS FOR DEEDS FOR REAL ESTATE SOLD WITHIN THE SUBDIVISION. (ANY OTHER USE SHALL REQUIRE PLANNING DEPARTMENT, OFFICE OF ENVIORMENTAL COMPLIANCE, HEALTH DEPARTMENT AND FIRE MARSHALL APPROVAL). APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT.

4. MINIMUM FINISH FLOOR NOTE: MINIMUM FINISHED FLOOR ELEVATION SHALL BE 24" ABOVE THE CENTER LINE OF STREET OR 24" ABOVE NATURAL GROUND, WHICHEVER IS GREATER. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME OF APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISHED FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.

5. BENCHMARK NOTE: THE FOLLOWING BENCHMARKS ARE IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS.
B.M.—1 ELEV. 78.31 N.G.V.D. 83
A BRASS DISK SET IN A 1' X 1' CONCRETE BLOCK APPROXIMATELY 35.00 FEET SOUTH AND 40.00 FEET EAST OF THE NORTH WEST CORNER OF LOT 1 OF THIS SUBDIVISION.

6. DRAINAGE: IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF 794 CUBIC-FEET (0.0182 ACRE-FEET) OF STORM WATER RUNOFF. DRAINAGE RETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS FOLLOWS: BY UTILIZING PROPERLY GRADED LANSCAPED AREAS.

7. ON-SITE SEWAGE FACILITIES (OSSF) NOTE: THIS SUBDIVISION SHALL USE ON-SITE SEWAGE FACILITIES IN ACCORDANCE WITH TCEQ AND HIDALGO COUNTY REGULATIONS FOR SEWAGE DISPOSAL. THE SUBDIVIDER IS RESPONSIBLE FOR PROVIDING AN OSSF ON ALL LOTS.

A. OSSF SYSTEM IS BEING DESIGNED FOR DISPOSAL OF DOMESTIC SEWERAGE ONLY. A SEPARATE DESIGN SHALL BE SUBMITTED FOR COMMERCIAL/MULTIFAMILY USE.

B. EACH LOT ON THIS PLAT COMPLIES WITH THE MINIMUM 21,780 SQUARE FEET LOT AREA WITH POTABLE WATER SUPPLY.

C. OSSF SYSTEM SHALL REQUIRE INSPECTION AND APPROVAL BY HIDALGO COUNTY AUTHORIZED DEPARTMENT

D. SOIL ANALYSIS HAVE BEEN SUBMITTED TO THE AUTHORIZED HIDALGO COUNTY DEPARTMENT AND EXCERPTS MAY BE ALSO SEEN ON THE UTILITY LAYOUT FOR THIS SUBDIVISION AS SUBMITTED TO THE HIDALGO COUNTY PLANNING DEPARTMENT. THE ENGINEER HAS DETERMINED THAT THE SOIL IS SUITABLE FOR A STANDARD SEPTIC TANK AND ABSORPTIVE DRAINFIELD SYSTEM.

E. APPROVED "OSSF" PERMIT APPLICATION IS REQUIRED INCLUDING INDIVIDUAL LOT PLANNING MATERIALS PRIOR TO OCCUPYING A LOT.

8. THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES ON THIS SUBDIVISION.

9. RAFAEL A. ROJAS & ESTELA G. ROJAS, THE OWNERS & SUBDIVIDERS OF ROJAS SUBDIVISION, RETAINS AN EASEMENT UPON EACH LOT FOR THE PURPOSE OF INSTALLING AN APPROVED OSSF ON THE LOT AS DESCRIBED ON SHEET NO.2 OF THIS PLAT.

10. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF FENCES, BUILDINGS, SHEDS, BRUSH/ TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

11. EACH PURCHASED CONTRACT MADE BETWEEN A SUBDIVIDER AND PURCHASER OF A LOT IN THIS SUBDIVISION SHALL CONTAIN A STATEMENT DESCRIBING HOW AND WHEN WATER, SEWER, ELECTRICITY, AND GAS SERVICES WILL BE MADE AVAILABLE TO THE SUBDIVISION.

12. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE A MINIMUM WIDTH OF 15.00 FEET AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES. BY SIGNING THIS PLAT DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPYING AN EASEMENT.

13. ALL EASEMENTS ON THIS PLAT ARE DEDICATED BY THIS PLAT UNLESS NOTED OTHERWISE.

14. AN OFF-STREET PARKING LOT SITE PLAN & DRAINAGE PLAN APPROVED BY THE HIDALGO COUNTY PLANNING DEPARTMENT & OFFICE OF ENVIORMENTAL COMPLIANCE SHALL BE REQUIRED FOR COMMERCIAL INDUSTRIAL & MULTIFAMILY USE AT THE TIME OF APPLICATION FOR CONSTRUCTION PRIOR TO THE ISSUANCE OF A BUILDING AND/OR DEVELOPMENT PERMIT. NO WATER OR LIGHT CLEARANCES SHALL BE ISSUED UNTIL THE SITE PLAN, DRAINAGE PLAN AND OSSF PLAN ARE APPROVED AND PROPOSED IMPROVEMENTS ARE CONSTRUCTED IN ACCORDANCE WITH COUNTY AND STATE STANDARDS.

### LOCATION OF SUBDIVISION WITH RESPECT TO THE EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY:

ROJAS SUBDIVISION IS LOCATED IN CENTRAL HIDALGO COUNTY IN H.C.P. #4 ON THE NORTH SIDE OF AURORA ROAD, APPROXIMATELY 330 FEET EAST OF THE INTERSECTION OF SEMINARY ROAD & AURORA ROAD. THE NEAREST MUNICIPALITY IS THE CITY OF EDINBURG. ACCORDING TO THE OFFICAL MAP LOCATED IN THE OFFICE OF THE SECRETARY OF THE CITY OF EDINBURG (75,544), ROJAS SUBDIVISION LIES APPROXIMATELY 1 1/2 MILE FROM THE CITY LIMITS AND IS INSIDE THE CITY'S ETJ ACCORDING TO LOCAL GOVERNMENT CODE SECTION 42.021.

# FINAL ENGINEERING REPORT FOR ROJAS SUBDIVISION
by Raul E. Garcia, P.E.

## FINAL WATER AND SEWER ENGINEERING REPORT
## WATER SUPPLY: DESCRIPTION, COST, AND OPERABILITY DATE:

ROJAS SUBDIVISION WILL BE PROVIDED WITH POTABLE WATER BY THE CITY OF EDINBURG (EDINBURG). THE SUBDIVIDER AND EDINBURG HAVE ENTERED INTO A CONTRACT IN WHICH EDINBURG HAS PROMISED TO PROVIDE SUFFICIENT WATER TO THE SUBDIVISION FOR AT LEAST 30 YEARS AND EDINBURG HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

EDINBURG HAS AN EXISTING 2" DIAMETER WATER LINE RUNNING ALONG THE WEST SIDE OF THE RIGHT-OF-WAY OF SHARP ROAD. THE WATER SYSTEM FOR ROJAS SUBDIVISION CONSISTS OF A SINGLE 3/4" DIAMETER WATER SERVICE LINE THAT TAPS INTO THE EXISTING 2" LINE. THIS 3/4" SERVICE LINE THEN RUNS EAST ACROSS SHARP ROAD AND ENDING IN A WATER METER.

WATER DISTRIBUTION FOR THE ROJAS SUBDIVISION CONSISTS OF A SINGLE ¾" DIAMETER SERVICE LINE. SAID SERVICE TERMINATE AT THE WATER METER BOXES FOR THE LOT. THE ¾" SINGLE SERVICE AND THE METER BOX HAVE ALREADY BEEN INSTALLED, AT A TOTAL COST OF $750.00. IN ADDITION, THE SUBDIVIDER HAS PAID EDINBURG. THE SUM OF $ 1,0000.00, WHICH COVERS THE $150.00 COST AS STATED IN THE 30 YEAR WATER SERVICE AGREEMENT WHICH SUM REPRESENTS THE TOTAL COST OF WATER METER, RIGHTS ACQUISITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO N.A.W.S.C. UPON REQUEST BY THE LOT OWNER, N.A.W.S.C. WILL PROMPTLY INSTALL AT NO CHARGE THE WATER METER FOR THAT LOT. THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED AND ACCEPTED BY N.A.W.S.C. AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT.

## SEWAGE FACILITIES DESCRIPTION; COST AND OPERABILITY DATES

SEWAGE FROM ROJAS SUBDIVISION WILL BE TREATED BY INDIVIDUAL ON-SITE SEWAGE FACILITIES ("OSSF") CONSISTING OF A STANDARD DESIGN DUAL COMPARTMENTS SEPTIC TANK AND A DRAIN FIELD ON EACH LOT. THE UNDERSIGNED PROFESSIONAL ENGINEER HAS EVALUATED THE SUITABILITY OF THE SUBDIVISION SITE FOR OSSF AND SUBMITTED A REPORT CONCLUDING THAT THE SITE IS SUITABLE FOR OSSF. THE REPORT WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT. EACH LOT HAS ADEQUATE AREA FOR A REPLACEMENTS DRAINFIELD.

## SOIL EVALUATION REPORT:

EACH LOT IN THE PROPOSED SUBDIVISION IS AT LEAST 1/2 ACRE IN SIZE. THE NATURAL RESOURCE CONSERVATION SERVICE SOIL SURVEY BOOK INDICATED A SANDY CLAY LOAM SOIL FOR THE AREA. AT LEAST TWO SOIL EXCAVATIONS WERE PERFORMED ON THE SITE, AT OPPOSITE ENDS OF THE PROPOSED DISPOSAL AREA. (ADDITIONAL BORINGS WERE UNNECESSARY BECAUSE THE SOILS ARE VERY UNIFORM WITHIN THIS LIMIT AREA). THE SOIL IS A DARK GRAYISH BROWN SANDY CLAY LOAM EXTENDING UP TO 36" BELOW THE BOTTOM OF ANY PROPOSED EXCAVATIONS. THERE IS NO INDICATION OF GROUNDWATER OR A RESTRICTIVE LAYER WITHIN 24" OF BOTTOM OF THE PROPOSED EXCAVATIONS. THE SUBDIVISION DRAINS WELL. THE SOIL IS A CLASS III SOIL.

THE COST TO INSTALL A SEPTIC SYSTEM ON AN INDIVIDUAL LOT IS $1,500.00, INCLUDING THE COST FOR THE REQUIRED PERMIT AND LICENSE. ALL OSSFS HAVE BEEN INSTALLED AS OF THE TIME OF APPLICATION FOR FINAL PLAT APPROVAL AT A TOTAL COST OF $1,500.000. THE HIDALGO COUNTY HEALTH DEPARTMENT HAS INSPECTED AND APPROVED THE INSTALLATION OF THE OSSF ON OCTOBER 12, 2014.

## ENGINEER CERTIFICATION:

BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE SERVICE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE MODEL RULES ADOPTED UNDER SECTION 16.343, WATER CODE. I CERTIFY THAT THE ESTIMATED COSTS TO INSTALL UNCONSTRUCTED WATER AND ON-SITE SEWAGE FACILITIES, DISCUSSED ABOVE, ARE AS FOLLOWS:

WATER FACILITIES – THESE FACILITIES FULLY CONSTRUCTED, WITH THE INSTALLATION OF WATER METERS, WILL COST A GRAND TOTAL OF $750.00.

SEWAGE FACILITIES – SEPTIC SYSTEM IS ESTIMATED TO COST $1,500.00 PER LOT (ALL INCLUSIVE), FOR A TOTAL OF $1,500.00 FOR THE ENTIRE SUBDIVISION.

# FINAL ENGINEERING REPORT FOR ROJAS SUBDIVISION
by Raul E. Garcia, P.E.

**PROVISIÓN DE AGUA: DESCRIPCIÓN, GASTOS Y FECHAS DE INICIO**

LA SUBDIVISIÓN DE LOS ACRES DE SOLIS SERÁ PROPORCIONADA AGUA POTABLE POR NORTH ALAMO WATER SUPPLY CORPORATION (N.A.W.S.C.). LOS SUBDIVIDER Y LOS N.A.W.S.C. HAN FIRMADO UN CONTRATO EN EL CUAL N.E.W.S.C. HA PROMETIDO PROPORCIONAR LA SUFICIENTE AGUA A LA SUBDIVISIÓN POR LO MENOS 30 AÑOS Y N.A.W.S.C. HA PROPORCIONADO LA DOCUMENTACIÓN PARA ESTABLECER SUFICIENTEMENTE LA CANTIDAD Y LA CALIDAD DE LARGO PLAZO DE LOS ABASTECIMIENTOS DE AGUA DISPONIBLES PARA SERVIR EL DESARROLLO COMPLETO DE ESTA SUBDIVISIÓN.

N.A.W.S.C. TIENE Un 2" EXISTENTE; LÍNEA DE AGUA DEL DIÁMETRO QUE FUNCIONA A LO LARGO DEL LADO OESTE DEL DERECHO DE PASO DEL CAMINO AGUDO. El CIRCUITO DE AGUA PARA lo SUBDIVISIÓN de los ACRES de SOLIS CONSISTE EN Un SOLO 3/4" LÍNEA de SERVICIO del AGUA del DIÁMETRO QUE GOLPEA LIGERAMENTE EN El 2" EXISTENTE; LÍNEA. ESTE 3/4" LA LÍNEA DE SERVICIO ENTONCES FUNCIONA AL ESTE A TRAVÉS DEL CAMINO AGUDO Y DE LA CONCLUSIÓN EN UN CONTADOR DEL AGUA.

LA DISTRIBUCIÓN DE AGUA PARA LOS ACRES DE SOLIS CONSISTE EN UN SOLO " DEL ½ LÍNEA DE SERVICIO DEL DIÁMETRO. EL SERVICIO DICHO TERMINA EN LAS CAJAS DEL CONTADOR DEL AGUA PARA LA PORCIÓN. El " del ½ EL SOLO SERVICIO Y LA CAJA DEL METRO HAN ESTADO INSTALADOS YA, EN UN COSTE TOTAL DE $750.00. ADEMÁS, EL SUBDIVIDER HA PAGADO A N.A.W.S.C. LA SUMA DE $ 1,0000.00, QUE CUBRE LOS $150.00 COSTADOS POR LA PORCIÓN SEGÚN LO INDICADO EN EL ACUERDO DE SERVICIO DEL AGUA DE 30 AÑOS QUE LA SUMA REPRESENTA EL COSTE TOTAL DEL CONTADOR DEL AGUA, LOS HONORARIOS DE LA ADQUISICIÓN DE LAS DERECHAS, Y TODA LA CALIDAD DE MIEMBRO U OTROS HONORARIOS ASOCIADOS A CONECTAR LAS PORCIONES DEL INDIVIDUO EN LA SUBDIVISIÓN CON N.A.W.S.C.A PETICIÓN POR EL DUEÑO DE LA PORCIÓN, N.A.W.S.C. INSTALARÁ PUNTUALMENTE EN NINGUNA CARGA EL CONTADOR DEL AGUA PARA ESA PORCIÓN. SE HAN APROBADO LAS INSTALACIONES DE AGUA ENTERAS Y ACEPTADO POR N.A.W.S.C.Y EL SISTEMA DE DISTRIBUCIÓN DICHO ES OPERABLE EN FECHA LA FECHA DE LA GRABACIÓN DEL PLAT.

**DESCRIPCIÓN DE LAS INSTALACIONES DE LAS AGUAS RESIDUALES;**

LAS AGUAS RESIDUALES DE LA SUBDIVISIÓN DE SOLIS SERÁN TRATADAS POR LAS INSTALACIONES EN SITIO INDIVIDUALES DE LAS AGUAS RESIDUALES (" OSSF") CONSISTIR EN UN TANQUE SÉPTICO DE LOS COMPARTIMIENTOS DUALES DEL DISEÑO ESTÁNDAR Y UN CAMPO DEL DREN EN CADA PORCIÓN. EL INGENIERO PROFESIONAL INFRASCRITO HA EVALUADO LA CONVENIENCIA DEL SITIO DE LA SUBDIVISIÓN PARA OSSF Y HA SOMETIDO UN INFORME QUE CONCLUÍA QUE EL SITIO ES CONVENIENTE PARA OSSF. EL INFORME FUE REPASADO Y APROBADO POR EL DEPARTAMENTO DE LA SALUD DEL CONDADO DEL HIDALGO. CADA PORCIÓN TIENE ÁREA ADECUADA PARA LOS REEMPLAZOS DRAINFIELD.

**INFORME DE EVALUACIÓN DEL SUELO:**

CADA PORCIÓN EN LA SUBDIVISIÓN PROPUESTA ES POR LO MENOS ACRE DEL 1/2 DE TAMAÑO. EL LIBRO DE LA ENCUESTA SOBRE SUELO DEL SERVICIO DE LA CONSERVACIÓN DEL RECURSO NATURAL INDICÓ UN SUELO DE LA MARGA DE LA ARCILLA DE SANDY PARA EL ÁREA. POR LO MENOS DOS EXCAVACIONES DEL SUELO FUERON REALIZADAS EN El SITIO, EN LOS EXTREMOS CONTRARIOS DEL ÁREA PROPUESTA DE LA DISPOSICIÓN. (LOS TALADROS ADICIONALES ERAN INNECESARIOS PORQUE LOS SUELOS SON MUY UNIFORMES DENTRO DE ESTA ÁREA DEL LÍMITE). El SUELO ES Una MARGA OSCURA de ARCILLA de SANDY del MARRÓN GRISÁCEO QUE EXTIENDE HASTA 36" DEBAJO DE LA PARTE INFERIOR DE CUAESQUIERA EXCAVACIONES PROPUESTAS. NO HAY INDICACIÓN DEL AGUA SUBTERRÁNEA O DE UNA CAPA RESTRICTIVA DENTRO DE 24' ' DE LA PARTE INFERIOR DE LAS EXCAVACIONES PROPUESTAS. LA SUBDIVISIÓN DRENA BIEN. El SUELO ES UN SUELO DE LA CLASE III.

EL COSTE PARA INSTALAR UN SISTEMA SEPTICO EN UNA PORCIÓN INDIVIDUAL ES $1.500.00, INCLUYENDO EL COSTE PARA EL PERMISO Y LA LICENCIA REQUERIDOS. TODOS LOS OSSFS HAN ESTADO INSTALADOS EN FECHA LA EPOCA DEL USO PARA EL FINAL PLAT LA APROBACIÓN EN UN COSTE TOTAL DE $1.500.000. El DEPARTAMENTO DE LA SALUD DEL CONDADO DEL HIDALGO HA EXAMINADO Y HA APROBADO LA INSTALACIÓN DEL OSSF ENCENDIDO 12 DE OCTUBRE DE 2011.

**CERTIFICACIÓN DEL INGENIERO:**

POR MI FIRMA ABAJO, CERTIFICO QUE EL AGUA Y LAS AGUAS RESIDUALES MANTIENEN LAS INSTALACIONES DESCRITAS ARRIBA ESTÁN DE ACUERDO CON REGLAS MODELO ADOPTADAS BAJO SECCIÓN 16.343, CÓDIGO DE AGUA. CERTIFICO QUE LOS COSTES ESTIMADOS PARA INSTALAR EL AGUA DE UNCONSTRUCTED Y LAS INSTALACIONES EN SITIO DE LAS AGUAS RESIDUALES, DISCUTIDAS ARRIBA, SON COMO SIGUE:

INSTALACIONES DE AGUA – ESTAS INSTALACIONES CONSTRUIDAS COMPLETAMENTE, CON LA INSTALACIÓN DE LOS CONTADORES DEL AGUA, COSTARÁN UN IMPORTE TOTAL DE $750.00.

INSTALACIONES DE LAS AGUAS RESIDUALES – EL SISTEMA SÉPTICO SE ESTIMA PARA COSTAR $1.500.00 POR LA PORCIÓN (TODO INCLUSIVA), PARA UN TOTAL DE $1.500.00 PARA LA SUBDIVISIÓN ENTERA.

# DRAINAGE STATEMENT FOR ROJAS SUBDIVISION

Rojas Subdivision consists of a 1.38 acre tract of land being a portion of Lot 12, Whittenburg and Looney Subdivision as recorded in Volume 8, Page 42, Map Records, Hidalgo County, Texas. The site is located on the north side of Aurora Road approximately 330 feet east of Seminary Road. The property is being subdivided into 2 residential lots. The tract is basically flat with a slight slope to south towards Aurora Road. The proposed subdivision is located in a Zone "X" Shaded Flood Hazard area as designated by FEMA FIRM Community Panel Number 480334 0325 D dated May 30, 2001. Zone "X" Shaded is defined as "areas of the 500-year flood; areas of 100-year flood with average depths of less than 1 foot or with drainage areas less than 1 square mile; and areas protected by levees from 100-year flood.

The soil for this property is a dark grayish brown sandy clay loam which is highly pervious. This soil is found to be in the Hydrologic Group "B" as determined by use of the Soil Survey of Hidalgo County. (See attachment). Currently the property is a single family residential residence.

The proposed subdivision will create two large single family residential lots which will not significantly impact the drainage discharge from the site. The minor amount of detention required will be achieved by utilizing properly grade landscaped areas which will overflow east into road ditches on Aurora Road. Aurora Road then flows east and discharges into a Hidalgo County Main Drain east of the site

In accordance with the Hidalgo County Drainage District # 1 Policy, a minimum of 1,903 cubic feet of storm runoff will be detained with a maximum discharge rate of 1.369 cfs. The peak rate of runoff will not be increased during the 10 year rainfall event.

**CERTIFICATION:**
**By my signature below, I certify that this subdvision lies in a Flood Zone "X" Shaded: areas between limits of the 100 year flood and 500 year flood: or certain areas subject to 100-year flooding with average depths less than one (1) foot or where the contributing drainage area is less than one square mile; or areas protected by levees from the base flood**

ENGINEERING REPORT FOR HUISACHE ACRES #10
BY: FRED L. KURTH

## WATER SUPPLY: DESCRIPTION, COST, AND OPERABILITY DATE:

HUISACHE ACRES #10 SUBDIVISION WILL BE PROVIDED WITH POTABLE WATER BY NORTH ALAMO WATER SUPPLY CORPORATION (N.A.W.S.C.). THE SUBDIVIDER AND N.A.W.S.C. HAVE ENTERED INTO A CONTRACT IN WHICH N.A.W.S.C. HAS PROMISED TO PROVIDE SUFFICIENT WATER TO THE SUBDIVISION FOR AT LEAST 30 YEARS AND N.A.W.S.C HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

N.A.W.S.C. HAS AN EXISTING 8" DIAMETER WATER LINE RUNNING ALONG THE NORTH SIDE OF THE RIGHT-OF-WAY OF ROOSEVELT ROAD. THE WATER SYSTEM FOR HUISACHE ACRES # 10 CONSISTS OF A 8" DIAMETER WATER LINE THAT TAPS INTO THE EXISTING 8" LINE. THIS 8" LINE THEN RUNS NORTH ALONG THE EAST SIDE OF ACACIA CIRCLE RIGHT-OF-WAY ENDING WITH A 8" TEE ON THE SOUTHEAST CORNER OF LOT 45. ANOTHER 8' LINE RUNS WEST ALONG THE NORTH SIDE OF ACACIA CIRCLE RIGHT-OF-WAY TO A 8" 90° ELBOW AT THE SOUTHWEST CORNER OF LOT 43, THEN TURNS NORTH ALONG THE EAST SIDE OF ACACIA CIRCLE TO AN 8" 90° ELBOW AT THE NORTHWEST CORNER OF 52, THEN TURNS EAST ALONG THE SOUTH RIGHT-OF-WAY OF ACACIA CIRCLE TO AN 8" 90° ELBOW AT THE NORTHEAST CORNER OF LOT 48, THEN TURNS SOUTH ALONG THE WEST RIGHT-OF-WAY OF ACACIA CIRCLE TO AN 8" 90° ELBOW AT THE SOUTHEAST CORNER OF LOT 47, THEN TURNS WEST ALONG THE NORTH RIGHT-OF-WAY OF ACACIA CIRCLE TO AN 8" TEE AT THE SOUTHEAST CORNER OF LOT 45.

WATER DISTRIBUTION FOR THE HUISACHE ACRES #10 CONSISTS OF TWENTY-THREE (23) -1" DIAMETER DUAL SERVICE LINES THAT RUN IN PAIRS TO LOTS BEFORE SPLITTING INTO ¾" DIAMETER SERVICE LINES AND SIX (6)-¾" DIAMETER SINGLE SERVICE LINES. SAID SERVICES TERMINATE AT THE WATER METER BOXES FOR EACH LOT. THE 8" LINE, THE DUAL SERVICES AND ¾" SINGLE SERVICES, AND THE METER BOXES HAVE ALREADY BEEN INSTALLED, AT A TOTAL COST OF $131,953.80, OR $2,538.57 PER LOT. IN ADDITION, THE SUBDIVIDER HAS PAID N.A.W.S.C. THE SUM OF $131,953.80, WHICH COVERS THE $2,538.57 COST PER LOT AS STATED IN THE 30 YEAR WATER SERVICE AGREEMENT WHICH SUM REPRESENTS THE TOTAL COST OF WATER METER, RIGHTS ACQUISITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO N.A.W.S.C. UPON REQUEST BY THE LOT OWNER, N.A.W.S.C. WILL PROMPTLY INSTALL AT NO CHARGE THE WATER METER FOR THAT LOT. THE SUBDIVIDER HAS INSTALLED 5 FIRE HYDRANTS AT A UNIT COST OF $ 3,325.00 FOR A TOTAL COST OF $ 16,625.00. THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED AND ACCEPTED BY N.A.W.S.C. AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT.

## SEWAGE FACILITIES DESCRIPTION; COST AND OPERABILITY DATES

SEWAGE FROM HUISACHE ACRES #10 SUBDIVISION WILL BE TREATED BY INDIVIDUAL ON-SITE SEWAGE FACILITIES ("OSSF") CONSISTING OF A STANDARD DESIGN DUAL COMPARTMENT SEPTIC TANK AND A DRAIN FIELD ON EACH LOT. JOSE A. GONZALEZ PROFESSIONAL ENGINEER NO. 12258, HAS EVALUATED THE SUITABILITY OF THE SUBDIVISION SITE FOR OSSF AND SUBMITTED A REPORT CONCLUDING THAT THE SITE IS SUITABLE FOR OSSF. THE REPORT WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT. EACH LOT HAS ADEQUATE AREA FOR A REPLACEMENT DRAIN FIELD.

## SOIL EVALUATION REPORT:

EACH LOT IN THE PROPOSED SUBDIVISION IS AT LEAST 1/2 ACRE IN SIZE. THE NATURAL RESOURCE CONSERVATION SERVICE SOIL SURVEY BOOK INDICATED A SANDY LOAM SOIL FOR THE AREA. AT LEAST TWO SOIL EXCAVATIONS WERE PERFORMED ON THE SITE, AT OPPOSITE ENDS OF THE PROPOSED DISPOSAL AREA. (ADDITIONAL BORINGS WERE UNNECESSARY BECAUSE THE SOILS ARE VERY UNIFORM WITHIN THIS LIMIT AREA). THE SOIL IS A UNIFORM SANDY LOAM EXTENDING UP TO 36" BELOW THE BOTTOM OF ANY PROPOSED EXCAVATIONS. THERE IS NO INDICATION OF GROUND WATER OR A RESTRICTIVE LAYER WITHIN 24" OF BOTTOM OF THE PROPOSED EXCAVATIONS. THE SUBDIVISION DRAINS WELL.

THE COST TO INSTALL A SEPTIC SYSTEM ON AN INDIVIDUAL LOT IS 1,500.00, INCLUDING THE COST FOR THE REQUIRED PERMIT AND LICENSE. ALL OSSFS HAVE BEEN INSTALLED AS OF THE TIME OF APPLICATION FOR FINAL PLAT APPROVAL AT A TOTAL COST OF $70,200.00 . THE HIDALGO COUNTY HEALTH DEPARTMENT HAS INSPECTED AND APPROVED THE INSTALLATION OF ALL OSSF ON – –2013. LOT 1 THROUGH 5 & 38 THROUGH 42 SHALL HAVE OFFS INSTALLED BY LOT OWNERS AT BUILDING PERMIT STAGE.

## ENGINEER CERTIFICATION:

BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE SERVICE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE MODEL RULES ADOPTED UNDER SECTION 16.343, WATER CODE. I CERTIFY THAT THE COSTS TO INSTALL THE WATER AND THE UNCONSTRUCTED ON-SITE SEWAGE FACILITIES, DISCUSSED ABOVE, ARE AS FOLLOWS:

WATER FACILITIES – THESE FACILITIES FULLY CONSTRUCTED, WITH THE INSTALLATION OF WATER METERS, WILL COST A GRAND TOTAL OF $131,953.80 WHICH EQUALS TO $2,537.57 PER LOT.

SEWAGE FACILITIES – SEPTIC SYSTEM IS ESTIMATED TO COST $1,500.00 PER LOT (ALL INCLUSIVE), FOR A TOTAL OF $ 70,200,000 FOR THE ENTIRE SUBDIVISION.

REPORTE DE INGENIERIA DE HUISACHE ACRES #10
POR: FRED L. KURTH

## PROVISIÓN DE AGUA: DESCRIPCIÓN, GASTOS Y FECHAS DE INICIO

LA SUBDIVISIÓN HUISACHE ACRES #10 RECIBIRÁ SU PROVISIÓN DE AGUA DE NORTH ALAMO WATER SUPPLY CORPORATION (LA COMPAÑÍA DE AGUA (N.A.W.S.C.). EL DUEÑO DE LA SUBDIVISIÓN Y N.A.W.S.C. HAN FIRMADO UN CONTRATO POR EL CUAL LA SUBDIVISIÓN RECIBIRÁ SU PROVISIÓN DE AGUA POR LOS PRÓXIMOS 30 AÑOS. N.A.W.S.C. HA PRESENTADO DOCUMENTACIÓN PARA DEMOSTRAR A LARGO PLAZO LA CANTIDAD Y CALIDAD DE AGUA ACCESIBLE PARA SERVIR EL FUTURO DESARROLLO DE LA SUBDIVISIÓN.

EL SISTEMA DE PROVISIÓN DE AGUA PARA LA SUBDIVISIÓN HUISACHE ACRES #10 CONSISTE DE UN CONDUCTO DE AGUA DE 8 PULGADAS DE DIÁMETRO QUE PASA POR EL LADO NORTE DEL DERECHO DE VIADE DE (RIGHT OF WAY) DE LA CARRETERA ROOSEVELT ROAD. EL SISTEMA DE PROVISIÓN DE AGUA DE LA SUBDIVISIÓN HUISACHE ACRES #10 CONSISTE DE UN CONDUCTO DE AGUA DE 8 PULGADAS DE DIÁMETRO QUE SE CONECTA CON EL CONDUCTO DE AGUA EXISTENTE DE 8 PULGADAS. ESTA LÍNEA DE 8 PULGADAS CUAL SIGUE HACIA EL NORTE POR EL LADO ESTE DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE, TERMINARA CON UNA TEE DE 8" PULGADAS CON DOS VÁLVULA DE PRESIÓN DE 8 PULGADAS DE DIÁMETRO LOCALIZADA AL SURESTE DE LOTE 45. OTRO CONDUCTO DE AGUA DE ↳ PULGADAS DE DIÁMETRO CONTINÚA CORRIENDO AL OESTE POR EL LADO NORTE DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE A UN CODO DE 90° DE 8" EN EL LADO SUROESTE DE LOTE 43, LUEGO VOLTIANDO AL NORTE EL LADO ESTE DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE A UN CODO DE 90° DE 8" EN EL LADO NORTEOESTE DE LOTE 52, LUEGO VOLTIANDO AL ESTE EN EL LADO SUR DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE A UN CODO DE 90° DE 8" EN EL LADO NORTEESTE DE LOTE 48, LUEGO VOLTIANDO AL SUR EN EL LADO OESTE DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE A UN CODO DE 90° DE 8" EN EL LADO SURESTE DE LOTE 47, LUEGO VOLTIANDO AL OESTE EN EL LADO NORTE DEL DERECHO DE VIADE DE LA CALLE ACACIA CIRCLE A UN TEE DE 8" EN EL LADO SUROESTE DE LOTE 45.

DEL CONDUCTO DE AGUA DE 8 PULGADAS SE PRODUCEN VENTETRES DOBLE-CONDUCTOS DE AGUA DE 1 PULGADA DE DIÁMETRO PARA CADA DOS LOTES. ESTOS CONDUCTOS SE SEPARAN PARA PRODUCIR DOS CONDUCTOS DE AGUA DE ¾ DE PULGADA DE DIÁMETRO PARA CADA LOTE Y SEIS CONDUCTOS INDIVIDUALES DE AGUA DE ¾ DE PULGADA DE DIÁMETRO PARA CADA LOTE YA SE HAN INSTALADO LOS CONDUCTOS DE AGUA DE 8 PULGADAS DE DIÁMETRO. LOS DOBLE-CONDUCTOS DE AGUA DE 1 PULGADA DE DIÁMETRO, EL CONDUCTO DE ¾ DE PULGADA DE DIÁMETRO, Y LOS MEDIDORES MECÁNICOS DE AGUA A UN COSTO TOTAL DE $131,953.80 O $ 2,537.57 POR LOTE. EL DUEÑO DE LA SUBDIVISIÓN TAMBIÉN LE HA PAGADO A LA COMPAÑÍA N.A.W.S.C. $131953.80, QUE CUBRE EL COSTO DEL MEDIDOR MECÁNICO DE AGUA PARA CADA LOTE. $2,601.37, ESTE PRECIO INCLUYE EL COSTO DE LA INSTALACIÓN DE CADA MEDIDOR Y LOS GASTOS DE CONEXIÓN. CUANDO EL DUEÑO DE CADA LOTE SOLICITE UN MEDIDOR DE AGUA, LA COMPAÑÍA N.A.W.S.C. LO INSTALARA SIN ALGÚN GASTO AL DUEÑO. EL DUEÑO DE LA SUBDIVISIÓN TAMBIÉN HA INSTALADO 5 BOCAS DE RIEGO (FIRE HYDRANT) A UN COSTO DE $ 3,325.00 POR CADA UNO CUAL GASTA UNA CANTIDAD TOTAL $ 16,625.00. EL SISTEMA DE AGUA ESTARÁ EN FUNCIONAMIENTO COMPLETO ANTES O EN LA FECHA, EN LA CUAL LA SUBDIVISIÓN SEA REGISTRADA EN EL CONDADO DE HIDALGO.

## DRENAJE: DESCRIPCIÓN, GASTOS Y FECHA DE INICIO PARA FACILITAR EL DRENAJE PARA LA SUBDIVISIÓN

SE INSTALARA UNA FOSA SÉPTICA EN CADA SOLAR. ESTA FOSA SÉPTICA CONSISTE DE UN TANQUE SÉPTICO DE MODELO DUAL Y DE UN CAMPO DE DRENAJE PARA EL SOLAR. EL INGENIERO AUTOR DE ESTE DOCUMENTO HA EVALUADO EL ÁREA DONDE SE ENCUENTRA LA SUBDIVISIÓN Y HA PREPARADO UN REPORTE QUE CONCLUYE QUE ESTE TERRENO ES ADECUADO PARA ESAS FOSAS SÉPTICAS (OSSF). EL REPORTE FUE APROBADO POR EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO (HIDALGO COUNTY HEALTH DEPARTMENT) SEGÚN EL REPORTE.

CADA LOTE EN LA SUBDIVISIÓN MIDE MEDIO ACRE. SE HICIERON DOS ES EXCAVACIONES DE EVALUACIÓN EN LUGARES OPUESTOS EN LA SUBDIVISIÓN (EXCAVACIONES ADICIONALES NO FUERON NECESARIAS PORQUE EL TERRENO EN ESTA ÁREA ES SIGNIFICANTEMENTE UNIFORME). EL TERRENO ES UNIFORME (TERRENO ARCILLOSO Y SUELO FRANCO) Y SE EXTIENDE A 36 PULGADAS BAJO TODAS LAS EXCAVACIÓNES PROPUESTAS. NO EXISTE EVIDENCIA DE AGUA 24 PULGADAS MÁS ARRIBA DE LO MAS BAJO DE LAS EXCAVACIONES PROPUESTAS. EL AGUA EN ESTA ÁREA FLUYE BIEN.

EL COSTO TOTAL PARA LA INSTALACIÓN DE UN SISTEMA INDIVIDUAL DE FOSAS SÉPTICAS POR SOLAR SON $ 1,500.00 DÓLARES, INCLUYENDO EL COSTO DEL PERMISO REQUERIDO Y LICENCIA. EN ESTOS MOMENTOS TODAS LAS FOSA SÉPTICAS HAN SIDO INSTALADAS EN EL PROCESO DE LA APROBACIÓN FINAL. A UN COSTO TOTAL DE $ $ 70,200.00. EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO HA INSPECCIONADO TODOS LAS FOSAS SÉPTICAS Y AH APROBADO LA INSTALACIÓN DE LAS FOSAS SÉPTICAS DESDE (FECHA DE INSPECCIÓN). LOTES 1 AL 5 & 38 AL 42 SE LE INSTALARA LAS FOSAS SÉPTICAS EN EL TIEMPO DEL PERMISO DE CONSTRUCCION.

## CERTIFICACIÓN:

CON MI FIRMA, CERTIFICO QUE LOS SERVICIOS Y SISTEMAS DE AGUA Y DE DRENAJE, DESCRITOS EN ESTE DOCUMENTO CUMPLEN CON LAS MODEL SUBDIVISIÓN RULES (LAS REGLAS GOBERNANDO A LAS SUBDIVISIONES), ADOPTADAS EN LA SECCIÓN 16.343 DEL TEXAS WATER CODE (CÓDIGO DE AGUA DE TEXAS). CERTIFICO QUE LOS GASTOS PARA INSTALAR LOS SISTEMAS DE AGUA Y DE DRENAJE SON:

AGUA: EL SISTEMA/SERVICIO DE AGUA SERA INSTALADO Y COMPLETAMENTE CONSTRUIDO MENOS EL MEDIDOR MECÁNICO DE AGUA QUE COSTARA UN TOTAL DE $131,953.80 O $ 2,537.57 POR LOTE

DRENAJE: SE ESTIMA QUE LA FOSA SÉPTICA COSTARA $1,500.00 A UN COSTO TOTAL DE $ 70,200.00 TODA LA SUBDIVISIÓN.

SUBDIVIDER CERTIFICATION

1. BY COMPLETING THE IMPROVEMENTS DESCRIBED ON THE PLAT, SUBDIVIDER WILL COMPLY WITH MINIMUM STATE STANDARDS AND THAT (a) WATER QUALITY AND CONNECTIONS INCLUDING WATER METERS AND OR WATER WELLS FOR EACH LOT(S) MEET SUCH STANDARDS AND (b) SEWER CONNECTIONS TO THE LOTS OR SEPTIC TANKS MEET OR WILL MEET SUCH STANDARDS AND WILL BE CONSTRUCTED IN ACCORDANCE WITH STATE AND COUNTY REGULATIONS.

SUBDIVIDER STATEMENT:

1. I, RICK HARBISON, SUBDIVIDER OF HUISACHE ACRES #10, HEREBY CERTIFY SEWER PERMITS HAVE BEEN PAID AND COPIES OF RECEIPTS ARE ON FILE WITH THE HIDALGO COUNTY HEALTH DEPARTMENT THAT ANY ADEQUATE DRINKING WATER SOURCE IS IMMEDIATELY AVAILABLE TO EACH LOT OF THE TYPE, QUALITY & QUANTITY TO ENABLE EACH PERSON PURCHASING A LOT HAVE ADEQUATE WATER TO COMPLY WITH THE REGULATIONS AND THE LAWS OF THE STATE AS REQUIRED BY STATE AND COUNTY REGULATIONS.

DRAINAGE STATEMENT
HUISACHE ACRES #10

**HUISACHE ACRES #10** IS A 36.970 ACRES TRACT OF LAND OUT OF BLOCK 100, HALL-FIFIELD SUBDIVISION, AS RECORDED IN VOLUME 1, PAGE 53, HIDALGO COUNTY MAP RECORDS, HIDALGO COUNTY, TEXAS. THE PROPERTY IS LOCATED ALONG THE NORTH SIDE OF ROOSEVELT ROAD (MILE 12 ½ NORTH) AND APPROXIMATELY 1,175 FEET WEST OF VAL VERDE ROAD (F.M. 1423). THE PROPERTY IS CURRENTLY OPEN AND IS LOCATED IN ZONE "C" IN FEMA'S FLOOD INSURANCE RATE MAP, COMMUNITY PANEL NO. 480334 0425 C, MAP REVISED NOVEMBER 16, 1982. ZONE "C" IS DEFINED AS "AREA OF MINIMAL FLOODING".

THE SOILS ARE HIDALGO SANDY CLAY LOAM AND RAYMONDVILLE CLAY LOAM, WHICH ARE IN HYDROLOGIC GROUP "B" & "C RESPECTIVELY. SOIL GROUP "B" & "C" IS MODERATELY PERVIOUS WITH A RELATIVELY LOW PLASTICITY INDEX. (SEE EXCERPTS FROM "SOIL SURVEY OF HIDALGO COUNTY, TEXAS"). FOR THE PURPOSE OF THIS REPORT, WE WILL USE SOIL TYPE "C", THE MOST COMMON SOIL ON THE SITE.

EXISTING RUNOFF IS BY SURFACE FLOW IN AN EASTERLY DIRECTION AND HAS A RUNOFF OF 14.76 C.F.S. DURING THE 10-YEAR STORM FREQUENCY AS PER THE ATTACHED CALCULATIONS.

THE PROPOSED DRAINAGE FOR **HUISACHE ACRES #10** SHALL CONSIST OF SURFACE RUNOFF FROM THE LOTS INTO PROPOSED STREETS FLOWING TO THE NORTHEAST AND SOUTHWEST CORNER OF THIS SUBDIVISION. RUNOFF FROM STREETS SHALL FLOW INTO THE DONNA IRRIGATION DISTRICT DITCH VIA TYPE "A" INLETS AND AN 18" TO 30" STORM DRAINAGE SYSTEM. THE EXISTING DONNA IRRIGATION DISTRICT DITCH FLOWS EAST ULTIMATELY DISCHARGING INTO THE DONNA LATERAL.

IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE POLICY, THE PEAK RATE OF RUNOFF IN THE SUBDIVISION WILL NOT BE INCREASED DURING THE 10-YEAR RAINFALL EVENT DUE TO THE IMPROVEMENTS IN THIS SUBDIVISION. THEREFORE, AS PER ATTACHED CALCULATIONS, 80,219 CUBIC FEET OF DETENTION WILL BE PROVIDED BY WIDENING THE DONNA IRRIGATION DISTRICT DITCH ALONG THE WEST SIDE OF THIS SUBDIVISION.

CERTIFICATION:

BY MY SIGNATURE BELOW, I CERTIFY THAT THE 100 YEAR FLOODPLAIN AS DESCRIBED IN COMMUNITY PANEL NUMBER 480334 0425 C, REVISED NOVEMBER 16, 1982 IS CONTAINED WITHIN THE DRAINAGE SWALES ALONG THE REAR OF ALL LOTS OF THE SUBDIVISION.

## HIDALGO COUNTY COMMISSIONERS COURT MEETING
**DATE: 03-04-2014**

PROPOSED **IDEA QUEST** SUBDIVISION, PRECINCT No. **4** .

ENGINEER: **MELDEN & HUNT, INC.** DEVELOPER: **IDEA PUBLIC SCHOOL (Wyatt Truschett, Chief Officer)**

☐ PRELIMINARY APPROVAL ☒ FINAL APPROVAL ☐ FINAL APPROVAL WITH FINANCIAL GUARANTEE ☐ WITH VARIANCE

NUMBER OF LOTS: ____ ☐ *SINGLE FAMILY ____ ☐ *MULTI-FAMILY ____ ☐ COMMERCIAL **1** ☒ INSTITUTIONAL

LOCATION DESCRIPTION: **Southwest corner of Rooth Rd. and Russell Rd.**

SUBDIVISION LIES WITHIN THE: ☒ *ETJ of* **McAllen** *and was approved by the P & Z and City Commission of said City*

DRAINAGE REPORT WAS APPROVED BY HCDD#1: ON **10-22-13** PROPERTY LIES WITHIN FLOOD ZONE: **"X"** AS PER FEMA.

DRAINAGE DESIGN: **Drainage will be accomplished by onsite detention swales.**

ROAD R.O.W. DEDICATION: **No dedication was necessary. Rooth Rd & Russell Rd comply with MPO Map Right of Way section.**

H.C.R.O.W. FINAL APPROVAL DATE: **02-06-14** : By, **Joe Ochoa** PCT 4 R.O.W. AGENT

H.C.H.D FINAL APPROVAL DATE: **02-05-14** by: **Elizardo "Chardo" Ramos,** Environmental Health Division Manager

SEWER SYSTEM: ☒ SANITARY SEWER BY **CITY OF MCALLEN** **LINE SIZE: 8"** **LOCATION: 31ST STREET**

WATER SERVICE PROVIDER: **S.W.S.C.** LINE SIZE: **8"** LOCATION: **on Rooth Road**

H.C.O.E.C. FINAL APPROVAL DATE: **02-07-14 .**: By **Martin Ramirez, Director of Office of Environmental Compliance**

☒ Less than 1 acre and project is not part of a larger common plan of development – Project will not need coverage under TPDES General Permit for Construction Activities (TXR150000). No further submittals are required.

PRELIMINARY APPROVAL FROM THE HIDALGO COUNTY COMMISSIONERS COURT ON: **DECEMBER 03, 2013**

STAFF RECOMMENDS: ☒ **Final Approval** *subject to recommendations other departments*

* *This subdivision plat has been reviewed and complies with the Hidalgo County Subdivision Rules, Texas Water Development Board Model Subdivision Rules and The Texas Local Government Code.*

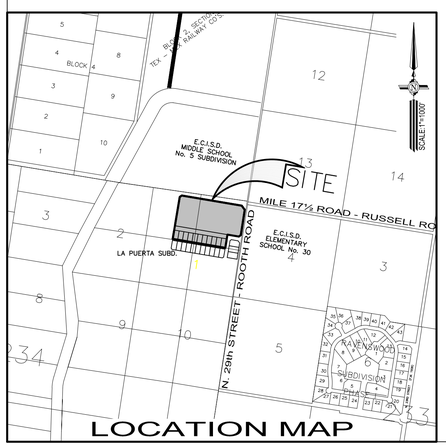
# IDEA QUEST SUBDIVISION

BEING A RESUBDIVISION OF 12.365 ACRES CONSISTING OF 9.181 ACRES BEING ALL OF LOT "A" 2.150 ACRES BEING ALL OF LOTS 158 THRU 168 AND 1.034 ACRES BEING THE PORTION OF TRAILBLAZER AVENUE ADJACENT SAID LOTS 158 THRU 168 LA PUERTA SUBDIVISION VOLUME 51, PAGES 62–67 H.C.M.R. HIDALGO COUNTY, TEXAS

LOCATION OF SUBDIVISION WITH RESPECT TO EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY:

IDEA QUEST SUBDIVISION IS LOCATED WITHIN HIDALGO COUNTY PRECINCT No. 4, IN THE NORTH SIDE OF HIDALGO COUNTY ON THE SOUTHWEST CORNER OF THE INTERSECTION OF RUSSEL RD. AND N. 29TH. STREET (ROOTH RD.), THE ONLY NEARBY MUNICIPALITY IS THE CITY OF MCALLEN, ACCORDING TO THE OFFICIAL MAP IN THE OFFICE OF THE SECRETARY OF THE CITY OF MCALLEN (POPULATION 133,742). IDEA QUEST SUBDIVISION LIES APPROXIMATELY 200 FEET FROM THE CITY LIMITS AND IS WITHIN THE CITY'S 5–MILE EXTRATERRITORIAL JURISDITION (ETJ) UNDER LOCAL GOVERNMENT CODE 42.021.



METES AND BOUNDS DESCRIPTION

A TRACT OF LAND CONTAINING 12.365 ACRES SITUATED IN THE COUNTY OF HIDALGO, TEXAS, CONSISTING OF:

9.181 ACRES BEING ALL OF LOT "A", LA PUERTA SUBDIVISION ACCORDING TO THE PLAT THEREOF RECORDED IN VOLUME 51, PAGES 62-67, HIDALGO COUNTY MAP RECORDS;

2.150 ACRES BEING ALL OF LOTS 158 THRU 168, LA PUERTA SUBDIVISION ACCORDING TO THE PLAT THEREOF RECORDED IN VOLUME 51, PAGES 62-67, HIDALGO COUNTY MAP RECORDS;

1.034 ACRES BEING THAT PORTION OF TRAILBLAZER AVENUE ADJACENT TO THE NORTH LINES OF SAID OF LOTS 158 THRU 168, LA PUERTA SUBDIVISION ACCORDING TO THE PLAT THEREOF RECORDED IN VOLUME 51, PAGES 62-67, HIDALGO COUNTY MAP RECORDS;

SAID 12.365 ACRES ALSO BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT A NO. 4 REBAR FOUND (NORTHING: 16645874.902, EASTING: 1072285.301), AT THE SOUTHEAST CORNER OF LOT 158, LA PUERTA SUBDIVISION FOR THE WESTERNMOST SOUTHEAST CORNER OF THIS TRACT;

1. THENCE, NORTH 80 DEGREES, 24 MINUTES, 51 SECONDS WEST (NORTH 80 DEGREES, 20 MINUTES, 00 SECONDS WEST RECORDED PLAT), ALONG THE SOUTH LINES OF SAID LOTS 158 THRU 168, LA PUERTA SUBDIVISION, A DISTANCE OF 745.00 FEET TO A NO. 4 REBAR FOUND (NORTHING: 16645998.961, EASTING: 1071550.714), AT THE SOUTHWEST CORNER OF LOT 168 FOR THE SOUTHWEST CORNER OF THIS TRACT;
2. THENCE, NORTH 09 DEGREES, 35 MINUTES, 09 SECONDS EAST (NORTH 9 DEGREES, 40 MINUTES, 00 SECONDS EAST RECORDED PLAT), ALONG THE WEST LINE OF SAID LOT 168 AND THE EAST RIGHT-OF-WAY LINE OF N. 31ST STREET, AT A DISTANCE OF 111.00 FEET PASS A NO. 4 REBAR FOUND FOR THE WESTERNMOST NORTHWEST CORNER OF SAID LOT 168, CONTINUING ACROSS THE RIGHT-OF-WAY OF TRAILBLAZER AVENUE, AT A DISTANCE OF 201.00 FEET PASS THE WESTERNMOST SOUTHWEST CORNER OF LOT "A", LA PUERTA SUBDIVISION, CONTINUING ALONG THE WEST LINE OF SAID LOT "A" AND THE EAST RIGHT-OF-WAY LINE OF N. 31ST STREET, FOR A TOTAL DISTANCE OF 594.31 FEET A NO. 4 REBAR SET AT THE WESTERNMOST NORTHWEST CORNER OF SAID LOT "A", FOR THE WESTERNMOST NORTHWEST CORNER OF THIS TRACT;
3. THENCE, NORTH 54 DEGREES, 35 MINUTES, 09 SECONDS EAST (NORTH 54 DEGREES, 40 MINUTES, 00 SECONDS EAST RECORDED PLAT), ALONG THE NORTHWEST LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND A RIGHT-OF-WAY CLIP LINE, A DISTANCE OF 35.36 FEET TO A NO. 4 REBAR SET (NORTHING: 16646605.465, EASTING: 1071678.487), AT THE EASTERNMOST NORTHWEST CORNER OF SAID LOT "A", FOR THE EASTERNMOST NORTHWEST CORNER OF THIS TRACT;
4. THENCE, SOUTH 80 DEGREES, 24 MINUTES, 51 SECONDS EAST (SOUTH 80 DEGREES, 20 MINUTES, 00 SECONDS EAST RECORDED PLAT), ALONG THE NORTH LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND THE SOUTH RIGHT-OF-WAY LINE OF MILE 17 ½ - RUSSELL ROAD, A DISTANCE OF 850.00 FEET TO A NO. 4 REBAR SET (NORTHING: 16646463.920, EASTING: 1072516.619), AT THE WESTERNMOST NORTHEAST CORNER OF SAID LOT "A", FOR THE WESTERNMOST NORTHEAST CORNER OF THIS TRACT;
5. THENCE, SOUTH 35 DEGREES, 45 MINUTES, 21 SECONDS EAST (SOUTH 35 DEGREES, 40 MINUTES, 30 SECONDS EAST RECORDED PLAT), ALONG THE NORTHEAST LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND A RIGHT-OF-WAY CLIP LINE, A DISTANCE OF 71.13 FEET TO AN X MARK MADE IN CONCRETE AT THE EASTERNMOST NORTHEAST CORNER OF SAID LOT "A", FOR THE EASTERNMOST NORTHEAST CORNER OF THIS TRACT;
6. THENCE, SOUTH 08 DEGREES, 54 MINUTES, 09 SECONDS WEST (SOUTH 8 DEGREES, 59 MINUTES, 00 SECONDS WEST RECORDED PLAT), ALONG THE EAST LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND THE WEST RIGHT-OF-WAY LINE OF N. 29TH STREET - ROOTH ROAD, A DISTANCE OF 358.35 FEET A NO. 4 REBAR SET AT THE EASTERNMOST SOUTHEAST CORNER OF SAID LOT "A", FOR THE EASTERNMOST SOUTHEAST CORNER OF THIS TRACT;
7. THENCE, SOUTH 54 DEGREES, 14 MINUTES, 39 SECONDS WEST (SOUTH 54 DEGREES, 19 MINUTES, 30 SECONDS WEST RECORDED PLAT), ALONG THE SOUTHEAST LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND A RIGHT-OF-WAY CLIP LINE, A DISTANCE OF 35.14 FEET TO A NO. 4 REBAR SET AT THE WESTERNMOST SOUTHEAST CORNER OF SAID LOT "A", FOR AN OUTSIDE CORNER OF THIS TRACT;
8. THENCE, NORTH 80 DEGREES, 24 MINUTES, 51 SECONDS WEST (NORTH 80 DEGREES, 20 MINUTES, 00 SECONDS WEST RECORDED PLAT), ALONG THE SOUTH LINE OF SAID LOT "A", LA PUERTA SUBDIVISION AND THE NORTH RIGHT-OF-WAY LINE OF TRAILBLAZER AVENUE, A DISTANCE OF 160.17 FEET A NO. 4 REBAR SET FOR AN INSIDE CORNER OF THIS TRACT;
9. THENCE, SOUTH 09 DEGREES, 35 MINUTES, 09 SECONDS WEST (SOUTH 9 DEGREES, 40 MINUTES 00 SECONDS WEST RECORDED PLAT), ACROSS THE RIGHT-OF-WAY OF TRAILBLAZER AVENUE, AT A DISTANCE OF 75.00 FEET PASS A NO. 4 REBAR FOUND FOR THE EASTERNMOST NORTHEAST CORNER OF LOT 158, LA PUERTA SUBDIVISION, CONTINUING ALONG THE EAST LINE OF SAID LOT 158 AND THE WEST RIGHT-OF-WAY LINE OF N. 29TH LANE, FOR A TOTAL DISTANCE OF 186.00 FEET TO THE POINT OF BEGINNING, AND CONTAINING 12.365 ACRES OF LAND, MORE OR LESS.

GENERAL PLAT NOTES & RESTRICTIONS:

1. SETBACKS:
   FRONT (N. 29TH ST.): 50 FEET OR EASEMENT, WHICHEVER IS GREATER
   (N. 31ST ST.): 30 FEET OR EASEMENT, WHICHEVER IS GREATER
   CORNER (RUSSEL RD.): 50 FEET OR EASEMENT, WHICHEVER IS GREATER
   (TRAILBLAZER AVE.): 30 FEET OR EASEMENT, WHICHEVER IS GREATER
   (N. 29TH LANE.): 25 FEET OR EASEMENT, WHICHEVER IS GREATER
2. FLOOD ZONE STATEMENT:
   IN ZONE "X" (UNSHADED)
   ZONE "X" IS DEFINED AS AREAS DETERMINED TO BE OUTSIDE 500 YEAR FLOOD PLAIN.
   COMMUNITY–PANEL NUMBER: 480334 0325 D
   MAP REVISED: JUNE 6, 2000
   REVISED TO REFLECT LOMR: MAY 17, 2001
3. DRAINAGE:
   IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 REQUIREMENTS, THIS DEVELOPER WILL BE REQUIRED TO DETAIN A TOTAL OF 51,662 CUBIC FEET (1.186 ACRE–FEET) OF STORM WATER RUNOFF.
4. MINIMUM FINISH FLOOR NOTE:
   MINIMUM FINISH FLOOR ELEVATION SHALL BE 18" ABOVE TOP OF CURB MEASURED AT THE FRONT CENTER OF EACH LOT.
5. 4 FEET WIDE SIDEWALKS REQUIRED ON N. 29TH STREET, RUSSELL ROAD, N. 31ST STREET, TRAILBLAZER AVE., AND N. 29TH LANE.
6. 6 FEET OPAQUE BUFFER REQUIRED FROM ADJACENT/BETWEEN MULTI–FAMILY RESIDENTIAL AND COMMERCIAL, OR INDUSTRIAL ZONES/USES.
7. ALL LOT CORNERS SET HALF INCH (½) IRON RODS OR AS NOTED.
8. AN ENGINEERED DETENTION PLAN APPROVED BY ENGINEERING DEPT. IS REQUIRED PRIOR TO ISSUANCE OF BUILDING PERMITS.
9. BENCHMARK NOTE:
   THE FOLLOWING BENCHMARK IS IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS.
   SQUARE CUT ON CURB AT THE NORTHWEST CORNER OF TRAILBLAZER AVE. & N. 29TH ST. (ROOTH RD.)
   ELEV. 110.10 N= 16646023.183 E= 1072469.978 NAD 83 TEXAS SOUTH 4205.
10. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF FENCES,BUILDINGS, SHEDS, SHRUBS, TREES AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS TO THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.
11. ALL NEW CONSTRUCTION SHALL COMPLY WITH COUNTY OF HIDALGO STORM WATER POLLUTION PREVENTION PLAN (SW3P) REQUIREMENTS.
12. 8 FEET MASONRY WALL REQUIRED BETWEEN SINGLE FAMILY RESIDENTIAL AND COMMERCIAL, INDUSTRIAL, OR MULTI–FAMILY RESIDENTIAL ZONES/USES.
13. TRAILBLAZER AVENUE EXISTING RIGHT OF WAY PORTION ABANDONED BY RECORDED DOCUMENT #2013–2457403
14. EXISTING 10' ELECTRICAL EASEMENTS LOCATED BETWEEN FORMER LOTS 159 & 160, AND 164 & 165 ABANDONED BY RECORDED DOCUMENT #_____
15. LOT 1 SHALL BE FOR SCHOOL/EDUCATIONAL INSTITUTION USE ONLY.
16. SANITARY SEWER WILL BE PROVIDED BY CITY OF MCALLEN IN ACCORDANCE WITH TCEQ GUIDELINES.

**DRAINAGE STATEMENT**
**IDEA QUEST SUBDIVISION**
October 14, 2013

IDEA QUEST SUBDIVISION is a 12.365 Acres tract of land out of Lot "A", Lots 158 thru 168, and a portion of Trailblazer Avenue adjacent to Lots 158 thru 168, La Puerta Subdivision, Hidalgo County Texas as recorded in Volume 51, Pages 62-67, Hidalgo County Map Records. The property is located at the southwest corner of Mile 17 ½ Road (Russell Road) and N. 29th Street (Rooth Road). The property is currently a Charter School and vacant land and is located in Zone "X" unshaded in FEMA's Flood Insurance Rate Map, Community Panel No. 480334 0325 D, Map Revised June 6, 2000 and Revised to reflect LOMR dated May 17, 2001. Zone "X" unshaded is "areas determined to be outside 500-year flood plain".

The soils are fine sandy loam and sandy clay loam, which is moderately pervious with a relatively low plasticity index.

Existing runoff is by surface flow from the parking and green areas into the existing swales on the school's property.

The drainage for **IDEA QUEST SUBDIVISION** shall remain as it currently is. Runoff from the parking and green areas will flow into the existing onsite swales. The existing swales connect to the drainage pipe system installed in La Puerta Subdivision, which outfalls into the ditches constructed with La Puerta Subdivision and ultimately outfalls into the North Main Drain. As per the drainage plan for La Puerta Subdivision, no onsite detention is required of this site. This was accommodated within the ditches constructed with La Puerta Subdivision (see copy of previous drainage report attached).

LOCATION OF SUBDIVISION WITH RESPECT TO THE EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY:

RSBR DG (FM 2812) SUBDIVISION IS LOCATED IN THE NORTH CENTRAL PART OF HIDALGO COUNTY AND ON THE NORTH SIDE OF FM 2812 , AT THE NORTH WEST CORNER OF THE INTERSECTION WITH CHUKAR ST. . THE ONLY NEARBY MUNICIPALITY IS THE CITY OF EDINBURG. RSBR DG (FM 2812) SUBDIVISION FALLS IN THE RURAL AREA OF HIDALGO COUNTY. THIS SUBDIVISION FALLS WITHIN PRECINCT 4. EDINBURG POPULATION IS 77,100 ACCORDING TO THE 2010 US CENSUS.

# SUBDIVISION MAP OF
# RSBR DG (FM 2812) SUBDIVISION

BEING A RE-SUBDIVISION OF
1.021 ACRES (44,464.24 S.F.)
BEING ALL OF LOT1 AND LOT 2,
FALCON'S NEST SUBDIVISION PHASE 1
AS RECORDED IN
VOLUME 51, PAGE 174-176, H.C.M.R.
HIDALGO COUNTY, TEXAS

## METES AND BOUNDS DESCRIPTION:

A TRACT OF LAND CONTAINING 1.021 ACRES (44,464.240 SQUARE FEET) SITUATED IN HIDALGO COUNTY, TEXAS, BEING ALL OF LOT 1 AND LOT 2, FALCON'S NEST SUBDIVISION PHASE I, ACCORDING TO PLAT THEREOF RECORDED IN VOLUME 51, PAGES 174-176, HIDALGO COUNTY MAP RECORDS, WHICH SAID LOT 1 AND LOT 2 WERE CONVEYED TO ESDGAR T. CANTU BY VIRTUE OF WARRANTY DEEDS RECORDED UNDER DOCUMENTS NUMBERS 2122752 AND 2318848, HIDALGO COUNTY OFFICIAL RECORDS; SAID 1.021 ACRES (44,464.240 SQUARE FEET) ALSO BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT AN "X" MARK ON CONCRETE FOUND AT THE NORTHEAST CORNER OF SAID LOT 1, AND BEING ON THE WEST RIGHT-OF-WAY LINE OF CHUKAR STREET, FOR THE NORTHEAST CORNER OF THIS HEREIN DESCRIBED TRACT;

1. THENCE, S 08°38'35" W (S 08°23'W MAP CALL) ALONG THE EAST LINE OF SAID LOT 2, AT A DISTANCE OF 99.46 FEET PASS A NO. 4 REBAR FOUND AT THE SOUTHEAST CORNER OF SAID LOT 2 AND THE NORTHEAST CORNER OF SAID LOT 1, CONTINUING A TOTAL DISTANCE OF 179.46 FEET TO A NO. 4 REBAR FOUND AT THE NORTHERNMOST SOUTHEAST CORNER OF LOT 1, FOR THE NORTHERNMOST SOUTHEAST CORNER OF THIS TRACT;

2. THENCE, S 53°38'35" W (S 53°23' W MAP CALL) ALONG THE CORNER CLIP OF SAID LOT 1, A DISTANCE OF 35.36 FEET TO A NO. 4 REBAR FOUND FOR THE SOUTHERNMOST SOUTHEAST CORNER OF THIS TRACT;

3. THENCE, N 81°21'25" W (N 81°37' W MAP CALL) ALONG THE SOUTH LINE OF SAID LOT 1 AND THE EXISTING NORTH RIGHT-OF-WAY LINE OF F.M. 2812, A DISTANCE OF 194.00 FEET TO A NO. 4 REBAR FOUND (NORTHING: 16663731.3131, EASTING: 1113772.6681) AT THE SOUTHWEST CORNER OF SAID LOT 1 AND THE SOUTHEAST CORNER OF LOT 51, VIVA LAS VEGAS SUBDIVISION PHASE I, RECORDED IN INSTRUMENT NUMBER 1968528, HIDALGO COUNTY MAP RECORDS, FOR THE SOUTHWEST CORNER OF THIS TRACT;

4. THENCE, N 08°38'35" E (N 08°23'E MAP CALL) ALONG THE WEST LINES OF SAID LOT 1 AND LOT 2 AND THE EAST LINES OF SAID LOT 51 AND LOT 44 OF SAID VIVA LAS VEGAS SUBDIVISION PHASE I, AT A DISTANCE OF 105.00 FEET PASS A NO. 4 REBAR FOUND AT THE NORTHWEST CORNER OF SAID LOT 1 AND THE SOUTHWEST CORNER OF SAID LOT 2, CONTINUING A TOTAL DISTANCE OF 204.46 FEET TO A NO. 4 REBAR FOUND (NORTHING: 16663933.4512, EASTING: 1113803.3940) AT THE NORTHWEST CORNER OF SAID LOT 2, FOR THE NORTHWEST CORNER OF THIS TRACT;

5. THENCE, S 81°21'25" E (S 81°37'E MAP CALL) ALONG THE NORTH LINE OF SAID LOT 2 AND THE SOUTH LINE OF LOT 3 OF SAID FALCON'S NEST SUBDIVISION PHASE I, A DISTANCE OF 219.00 FEET TO THE POINT OF BEGINNING AND CONTAINING 1.021 ACRES (44,464.240 SQUARE FEET) OF LAND, MORE OR LESS.

## HIDALGO COUNTY
## CERTIFICATE OF PLAT APPROVAL
## HIDALGO COUNTY DRAINAGE DISTRICT NO. 1

HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 HEREBY CERTIFIES THAT THE DRAINAGE PLANS FOR THIS SUBDIVISION COMPLY WITH THE MINIMUM STANDARDS OF THE DISTRICT ADOPTED UNDER TEX. WATER CODE 49.211 (c). THE DISTRICT HAS NOT REVIEWED AND DOES NOT CERTIFY THAT THE DRAINAGE STRUCTURES DESCRIBED ARE APPROPRIATE FOR THE SPECIFIC SUBDIVISION, BASED ON GENERALLY ACCEPTED ENGINEERING CRITERIA. IT IS THE RESPONSIBILITY OF THE DEVELOPER OF THE SUBDIVISION AND ITS ENGINEER TO MAKE THESE DETERMINATIONS.

OWNER'S DEDICATION, CERTIFICATION AND ATTESTATION

I, ESDGAR T. CANTU AS OWNER OF THE 1.021 ACRE TRACT OF LAND ENCOMPASSED WITHIN THE PROPOSED RSBR DG (FM 2812) SUBDIVISION, HEREBY SUBDIVIDE THE LAND AS DEPICTED IN THIS SUBDIVISION PLAT AND DEDICATE TO THE PUBLIC USE THE STREET(S), PARK AND EASEMENTS SHOWN HEREIN.

I CERTIFY THAT I HAVE COMPLIED WITH THE REQUIREMENTS OF TEXAS LOCAL GOVERNMENT CODE § 232.032 AND THAT

(A) THE WATER QUALITY AND CONNECTIONS TO THE LOT(S) MEET OR WILL MEET THE MINIMUM STATE STANDARDS.
(B) SANITARY SEWER CONNECTIONS TO THE LOT(S) OR SEPTIC TANKS MEET OR WILL MEET THE MINIMUM STATE STANDARDS.
(C) ELECTRICAL CONNECTIONS PROVIDED TO THE LOT(S) MEET OR WILL MEET THE MINIMUM STATE STANDARDS.
(D) GAS CONNECTIONS, IF AVAILABLE, PROVIDED TO THE LOT(S) MEET OR WILL MEET THE MINIMUM STATE STANDARDS.

I ATTEST THAT THE MATTERS ASSERTED IN THIS PLAT ARE TRUE AND COMPLETE.

RIGHT OF WAY EASEMENT:

KNOWN ALL MEN BY THESE PRESENTS, THAT THE UNDERSIGNED OWNERS OF THE PROPERTY SHOWN ON THIS PLAT, THEIR SUCCESSORS, ASSIGNS, AND TRANSFEREES (HEREINAFTER CALLED "GRANTOR" WHETHER ONE OR MORE PERSONS ARE NAMED), IN CONSIDERATION OF ONE DOLLAR ($1.00) AND OTHER GOOD AND VALUABLE CONSIDERATION PAID BY NORTH ALAMO WATER SUPPLY CORPORATION, (HEREINAFTER CALLED "GRANTEE"), THE RECEIPT AND SUFFICIENCY OF WHICH IS HEREBY ACKNOWLEDGED, DOES HEREBY GRANT, BARGAIN, SELL, TRANSFER AND CONVEY TO SAID GRANTEE, ITS SUCCESSORS AND ASSIGNS, A PERPETUAL EASEMENT WITH THE RIGHT TO ERECT, CONSTRUCT, INSTALL AND LAY AND THEREAFTER USE, OPERATE, INSPECT, REPAIR, MAINTAIN, REPLACE AND REMOVE WATER DISTRIBUTION LINES AND APPURTENANCES OVER AND ACROSS LANDS SHOWN ON THIS PLAT, TOGETHER WITH THE RIGHT OF INGRESS AND EGRESS OVER GRANTOR'S ADJACENT LANDS FOR THE PURPOSE FOR WHICH THE ABOVE-MENTIONED RIGHTS ARE GRANTED. THE EASEMENT HEREBY GRANTED SHALL NOT EXCEED 15' IN WIDTH, AND GRANTEE IS HEREBY AUTHORIZED TO DESIGNATE THE COURSE OF THE EASEMENT HEREIN CONVEYED EXCEPT THAT WHEN THE PIPELINE(S) IS INSTALLED, THE EASEMENT HEREIN GRANTED SHALL BE LIMITED TO A STRIP OF LAND 15' IN WIDTH THE CENTER LINE THEREOF BEING THE PIPELINE INSTALLED.

IN THE EVENT THE EASEMENT HEREBY GRANTED ABUTS ON A PUBLIC ROAD AND THE COUNTY OR STATE HEREAFTER WIDENS OR RELOCATES THE PUBLIC ROAD SO AS TO REQUIRE THE RELOCATION OF THIS WATER LINE AS INSTALLED, GRANTOR FURTHER GRANTS TO GRANTEE AN ADDITIONAL EASEMENT OVER AND ACROSS THE LAND DESCRIBED ABOVE FOR THE PURPOSE OF LATERALLY RELOCATING SAID WATER LINE AS MAY BE NECESSARY TO CLEAR THE ROAD IMPROVEMENTS, WHICH EASEMENT HEREBY GRANTED SHALL BE LIMITED TO A STRIP OF LAND 15' IN WIDTH THE CENTER LINE THEREOF BEING THE PIPELINE AS RELOCATED.

THE CONSIDERATION RECITED HEREIN SHALL CONSTITUTE PAYMENT IN FULL FOR ALL DAMAGES SUSTAINED BY GRANTOR BY REASON OF THE INSTALLATION, MAINTENANCE, REPAIR, REPLACEMENT AND RELOCATION OF THE STRUCTURES REFERRED TO HEREIN. THIS AGREEMENT TOGETHER WITH OTHER PROVISIONS OF THIS GRANT SHALL CONSTITUTE A COVENANT RUNNING WITH THE LAND FOR THE BENEFIT OF THE GRANTEE, ITS SUCCESSORS, AND ASSIGNS. THE GRANTOR COVENANTS THAT SHE IS THE OWNER OF THE ABOVE-DESCRIBED LANDS AND THAT SAID LANDS ARE FREE AND CLEAR OF ALL ENCUMBRANCES AND LIENS, EXCEPT THE FOLLOWING:

THE EASEMENT CONVEYED HEREIN WAS OBTAINED OR IMPROVED THROUGH FEDERAL FINANCIAL ASSISTANCE. THIS EASEMENT IS SUBJECT TO THE PROVISIONS OF THE TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AND THE REGULATIONS ISSUED PURSUANT THERETO FOR SO LONG AS THE EASEMENT CONTINUES TO BE USED FOR THE SAME OR SIMILAR PURPOSE FOR WHICH FINANCIAL ASSISTANCE WAS EXTENDED OR FOR SO LONG AS THE GRANTEE OWNS IT, WHICHEVER IS LONGER.

IN WITNESS WHEREOF, THE SAID GRANTOR HAS EXECUTED THIS INSTRUMENT THE _____ DAY OF _____, 20 _____.

I, THE UNDERSIGNED CERTIFY THAT THIS PLAT OF RSBR DG (FM 2812) SUBDIVISION WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT

ON THIS THE ___DAY OF_____ 20 ___.

_____ _____.
ENVIRONMENTAL HEALTH DIVISION MANAGER DATE

GENERAL PLAT NOTES & RESTRICTIONS:

1. FLOOD ZONE STATEMENT: ZONE "X" (UNSHADED) IS DEFINED AS: "AREAS DETERMINED TO BE OUTSIDE 500–YEAR FLOODPLAIN".

   COMMUNITY-PANEL NUMBER: 480334 0325 D
   MAP REVISED: JUNE 6, 2000; FURTHER REVISED TO REFLECT LOMR DATED MAY 17, 2001 .

2. SETBACKS:
   FRONT: CHUKAR ST. 25.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   REAR: 20% OF LOT DEPTH, TO TO EXCEED 40' OR EASEMENT, WHICHEVER IS GREATER
   SIDE: 6.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   SIDE: FM 2812 50.00 FEET OR EASEMENT, WHICHEVER IS GREATER
   CORNER: 20.00 FEET OR EASEMENT, WHICHEVER IS GREATER

3. LOT 1 IS FOR COMMERCIAL USE ONLY. THERE SHALL BE NO OTHER USE OTHER THAN COMMERCIAL. LOT 1 IS OR NONRESIDENTIAL USE. THIS MUST BE STIPULATED ON ALL DEEDS AND CONTRACTS FOR DEEDS. APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT.

4. MINIMUM FINISHED FLOOR ELEVATION SHALL BE 18" ABOVE THE CENTER LINE OF STREET OR 18" ABOVE NATURAL GROUND, WHICHEVER IS GREATER. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME OF APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISHED FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.

5. THE FOLLOWING BENCHMARKS ARE IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS, AS PER NAVD 88 (GEOID 2003).

   B.M. NO.1 – SQUARE CUT ON CONCRETE; N:16632632.033, E: 1126271.131, ELEV.= 97.72

6. IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF 3747 CUBIC–FEET ( 0.086 ACRE–FEET) OF STORM WATER RUNOFF. DRAINAGE RETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS FOLLOWS: (SEE SHEET No. 2 FOR STORM SEWER IMPROVEMENTS.) THE DEVELOPER SHALL BE RESPONSIBLE TO DETAIN AND ACCOMMODATE MORE THAN THE DETAINED VOLUME SHOWN ABOVE IF IT DETERMINES AT THE DEVELOPMENT PERMIT STAGE THAT THE DETENTION REQUIREMENTS ARE GREATER THAT STATED ABOVE DUE TO THE IMPERVIOUS AREA BEING GREATER THAT ENGINEER CONSIDERED FOR HIS CALCULATIONS OF THIS SUBDIVISION.

7. NO FILL OR PERMANENT STRUCTURES SHALL BE ALLOWED WITHIN ANY DRAINAGE SWALE EASEMENT. EACH DRAINAGE SWALE EASEMENT SHALL BE KEPT CLEAR OF FENCES, BUILDINGS, PLANTINGS, AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATION OF THE DRAINAGE SWALE. THE LOT OWNER SHALL BE RESPONSIBLE FOR THE MAINTENANCE OF THE SWALE.

8. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF BUILDINGS, SHEDS, SHRUBS TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

9. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE A MINIMUM WIDTH OF 15.00 FEET AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES. BY SIGNING THIS PLAT, DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPYING AN EASEMENT.

10. AN OFF–STREET PARKING LOT SITE PLAN & DRAINAGE PLAN APPROVED BY THE HIDALGO COUNTY PLANNING DEPARTMENT AND THE OFFICE OF ENVIRONMENTAL COMPLIANCE SHALL BE REQUIRED FOR COMMERCIAL USE AT THE TIME OF APPLICATION FOR CONSTRUCTION PRIOR TO THE ISSUANCE OF A BUILDING AND/OR DEVELOPMENT PERMIT. NO WATER OR LIGHT CLEARANCES SHALL BE ISSUED UNTIL THE SITE PLAN, DRAINAGE PLAN AND OSSF PLAN ARE APPROVED AND PROPOSED IMPROVEMENTS ARE CONSTRUCTED IN ACCORDANCE WITH COUNTY AND STATE STANDARDS.

11. THERE ARE NO VISIBLE WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES ON THIS SUBDIVISION.

12. NO ACCESS SHALL BE ALLOWED FROM FM 2812 ON TO LOT 1. A TXDOT DRIVEWAY/ENTRANCE PERMIT IS REQUIRED FOR LOT 1 PRIOR TO THE CONSTRUCTION OF A DRIVEWAY/ENTRANCE ON TO FM 2812. TXDOT ACCESS PERMIT IS REQUIRED PRIOR TO THE COUNTY ISSUING A DEVELOPMENT APPLICATION PERMIT. ACCESS TO LOT 1 WILL BE FROM CHUKAR STREET, ON THE EAST SIDE OF RSBR DG (FM 2812) SUBDIVISION.

13. DRAINAGE DETENTION POND SHALL/TO BE CONSTRUCTED IN DESIGNATED EASEMENT AREAS AS DESIGNED BY PROJECT PLAT ENGINEER AT DEVELOPMENT APPLICATION PERMIT STAGE PRIOR TO THE COUNTY ISSUING A FINAL LIGHT AND WATER CLEARANCE. NO FINAL LIGHT OR WATER CLEARANCE SHALL BE ISSUED UNTIL THE DRAINAGE DETENTION POND IS CONSTRUCTED BY OWNER AND INSPECTED BY COUNTY.

14. LOT 1 IN RSBR DG (FM 2812) SUBDIVISION ARE HEREBY GRANTED A "DRAINAGE SWALE EASEMENT" WITH RESPECT TO SURFACE WATER RUN–OFF FROM ALL LOTS IN RSBR DG (FM 2812) SUBDIVISION TO THE AREA DEPICTED ON THE SUBDIVISION PLAT AS THE "DRAINAGE SWALE" AREAS. LOT OWNERS OF RSBR DG (FM 2812) SUBDIVISION THEIR ASSIGNS AND ANY SUBSEQUENT OWNER OF THE REAL PROPERTY DESIGNATED ON THE SUBDIVISION PLAT ARE RESPONSIBLE FOR THE MAINTENANCE OF THE DRAINAGE SWALES. THE COUNTY OF HIDALGO, TEXAS ("COUNTY"), AND THE HIDALGO COUNTY DRAINAGE DISTRICT NUMBER 1 ("DRAINAGE DISTRICT") MAY ENFORCE THIS PLAT NOTE BY INJUNCTION OR ANOTHER REMEDY PROVIDED BY LAW, AND THE COUNTY AND/OR THE DRAINAGE DISTRICT ARE ALSO ENTITLED TO RECOVER ALL ENFORCEMENT COSTS AND/OR MAINTENANCE COSTS FORM THE LOT OWNER IN VIOLATION IN THE EVENT THE DRAINAGE SWALES DEPICTED ON THE SUBDIVISION PLAT ARE NO LONGER NECESSARY FOR DRAINAGE OF THE LOTS COMPRISING RSBR DG (FM 2812) SUBDIVISION , BECAUSE AN ALTERNATE DRAINAGE SYSTEM, CONSTRUCTED AND MAINTAINED BY A POLITICAL SUBDIVISION IN ACCORDANCE WITH ALL APPLICABLE STATE AND LOCAL LAWS AND REGULATIONS, IS FULLY OPERATIONAL AND ACTUALLY SERVING ALL THE LOTS IN RSBR DG (FM 2812) SUBDIVISION THE COUNTY AND THE DRAINAGE DISTRICT ARE HEREBY GRANTED THE RIGHT AND THE AUTHORITY (AND EACH LOT OWNER, BY THE ACCEPTANCE OF A DEED TO LOT IN RSBR DG (FM 2812) SUBDIVISION ACKNOWLEDGES AND EGRESS THAT THE COUNTY AND THE DRAINAGE DISTRICT HAS THE RIGHT AND AUTHORITY), TO RELEASE THE DRAINAGE EASEMENT BURDENING THE DRAINAGE SWALES PURSUANT TO THIS PLAT NOTE, BY AN INSTRUMENT IN WRITING RECORDED IN THE OFFICIAL RECORDS, HIDALGO COUNTY, TEXAS.

| TOTAL : | $ | 6,500.00 |

RSBR DG SAN CARLOS SUBDIVISION
DRAINAGE STATEMENT
JOB NO. 13095.00 DATE: SEPTEMBER 11, 2013

**RSBR DG (FM 2812) SUBDIVISION** IS A SUBDIVISION OF 1.021 ACRES (44,464.24 SQ FT.) OUT OF LOT 1 AND 2, FALCON'S NEST SUBDIVISION PHASE 1, AS RECORDED IN VOLUME 51 PAGES 174-176, HIDALGO COUNTY MAP RECORDS, HIDALGO COUNTY TEXAS. THIS IS EXISTING OPEN LAND AND IS PROPOSED AS A 1-LOT COMMERCIAL SUBDIVISION. THIS PROPERTY IS LOCATED IN ZONE "X" (UN-SHADED) AND IS DEFINED AS "AREAS DETERMINED TO BE OUTSIDE OF 500-YEAR FLOODPLAIN", AS PER COMMUNITY-PANEL NUMBER 480334 0325D REVISED ON JUNE 6, 2000, FURTHER REVISED BY LOMR DATED MAY 17, 2001.

THE SOILS TYPE IS HARGILL FINE SANDY LOAM. HARGILL FINE SANDY LOAM RANGES FROM A MODERATELY FINE TO MODERATELY COARSE TEXTURE. THIS SOIL IS IN HYDROLOGIC GROUP "B". (SEE EXCERPTS FROM "SOIL SURVEY OF HIDALGO COUNTY, TEXAS"). FOR PURPOSES OF THIS REPORT, WE WILL USE GROUP "B", THE PREDOMINANT TYPE WITHIN THIS SITE.

THE EXISTING DRAINAGE FOR **RSBR DG (FM 2812) SUBDIVISION** CONSISTS OF SURFACE RUNOFF FROM NATURAL GROUND INTO THE EXISTING DRAINAGE SYSTEM FOR FALCON'S NEST SUBDIVISION PHASE 1, WHICH HAS AN OUTFALL WITH AN 8" BLEEDER LINE INTO THE BAR DITCH ALONG THE NORTH SIDE OF FM 2812. THE PROPOSED RUNOFF FROM THIS SITE WILL FLOW FROM THE BUILDING AND PARKING AREAS ONTO THE GREEN AREAS AND INTO THE DETENTION SWALES. THE SWALE, LOCATED ALONG THE EAST SIDE OF THE SITE, WILL CONNECT TO THE EXISTING DRAINAGE SWALES OF THE FALCON'S NEST SUBDIVISION PHASE 1. THE EXISTING DRAINAGE SWALE ALONG THE WEST SIDE OF LOTS 1 AND 2 WILL BE RESHAPED TO PROVIDE ADDITIONAL DETENTION. ALL ADDITIONAL DETENTION WILL OUTFALL INTO THE BAR DITCH ALONG FM 2812 THROUGH THE EXISTING 8" BLEEDER OUTFALL.

IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE POLICY, THE PEAK RATE OF RUNOFF IN THE SUBDIVISION WILL NOT BE INCREASED DURING THE 10-YEAR RAINFALL EVENT DUE TO THE IMPROVEMENTS IN THIS SUBDIVISION. THEREFORE, AS PER ATTACHED CALCULATIONS, 3,747 CUBIC FEET OF DETENTION IS REQUIRED AND WILL BE PROVIDED WITHIN THE DRAINAGE SWALES OF THIS SUBDIVISION.

STATE OF TEXAS
COUNTY OF HIDALGO

## HIDALGO COUNTY COMMISSIONERS COURT MEETING
## DATE: 03-04-2014

PROPOSED **AURORA VALLEY PHASE 3** SUBDIVISION, PRECINCT No. **1**

ENGINEER: **Melden & Hunt, Inc.** DEVELOPER: **Mike Rhodes**

☐ PRELIMINARY APPROVAL ☒ FINAL APPROVAL ☐ FINAL APPROVAL WITH FINANCIAL GUARANTEE ☐ WITH VARIANCE

NUMBER OF LOTS: **72** ☒*SINGLE FAMILY ____ ☐*MULTI-FAMILY ____ ☐COMMERCIAL ____ ☐INSTITUTION

LOCATION DESCRIPTION: **North & South of Canton Rd approx. ½ mile East of Dillon Rd**

SUBDIVISION LIES WITHIN THE: ☒ **The rural area of the County**

DRAINAGE REPORT WAS APPROVED BY HCDD#1: **08-28-2013** PROPERTY LIES WITHIN FLOOD ZONE: **"C"** AS PER FEMA.

DRAINAGE DESIGN: **Drainage will be accomplished by storm drainage pipe system and by widening of the Drain Ditch along the North side of the subdivision development.**

ROAD R.O.W. DEDICATION: **20 feet on the North and South side of Canton Rd.**

H.C.R.O.W. FINAL APPROVED DATE: **02-14-2014** By **Roy Gonzalez** PCT. 1 R.O.W. AGENT

H.C.H.D. FINAL APPROVAL DATE: **02-04-14** By, **Elizardo "Chardo" Ramos** Environmental Health Division Manager

SEWER SYSTEM: ☒OSSF & SOIL ANALYSIS WERE CONDUCTED BY: **Jose A. Gonzalez**
☒OSSF HAVE BEEN INSTALLED AND INSPECTED BY HCHD ON: **02-04-14**

WATER SERVICE PROVIDER: **N.A.W.S.C.** LINE SIZE: **8"** LOCATION: **on the south side of Canton Rd**

H.C.O.E.C. FINAL APPROVED DATE: **02-14-2014**: By **Martin Ramirez, Environmental Compliance Coordinator**
☒**LARGE CONSTRUCTION**
*The applicant has submitted the required NOI as per Part II, Section E of the TPDES General Permit for Construction Activities (TXR150000) along with a copy of the Erosion Control Plan for the proposed project.*

PRELIMINARY APPROVAL FROM THE HIDALGO COUNTY COMMISSIONERS COURT ON: ***OCTOBER 02, 2013***

STAFF RECOMMENDS: ☒ **Final Approval** *subject to recommendations other departments*

* *This subdivision plat has been reviewed and complies with the Hidalgo County Subdivision Rules, Texas Water Development Board Model Subdivision Rules and The Texas Local Government Code.*

# AURORA VALLEY PHASE 3

BEING A RESUBDIVISION OF 50.427 ACRES,
CONSISTING OF
16.651 ACRES OUT OF LOT 36, 25.472 OUT OF LOT 37,
4.734 ACRES OUT OF LOT 38,
AND 3.570 ACRES OUT OF LOT 39
HILL-HALBERT SUBDIVISION,
REC. IN VOL. 1, PAGE 35, H.C.M.R.,
HIDALGO COUNTY, TEXAS.

METES AND BOUNDS DESCRIPTION

A TRACT OF LAND CONTAINING 50.427 ACRES SITUATED IN THE COUNTY OF HIDALGO, TEXAS, CONSISTING OF 16.651 ACRES OUT OF LOT 36, 25.472 ACRES OUT OF LOT 37, 4.734 ACRES OUT OF LOT 38, AND 3.570 ACRES OUT OF LOT 39, HILL-HALBERT SUBDIVISION, ACCORDING TO THE PLAT THEREOF RECORDED IN VOLUME 1, PAGE 35, HIDALGO COUNTY MAP RECORDS, SAID 49.51 ACRES ALSO BEING MORE PARTICULARLY DESCRIBED AS FOLLOWS:

BEGINNING AT THE NORTHEAST CORNER OF LOT 37, HILL-HALBERT SUBDIVISION FOR THE NORTHEAST CORNER OF THIS TRACT;

1. THENCE, SOUTH 08 DEGREES, 39 MINUTES, 27 SECONDS WEST, ALONG THE EAST LINES OF SAID LOTS 37 AND 38, AT A DISTANCE OF 1337.22 PASS THE SOUTHEAST CORNER OF LOT 37, THE NORTHEAST CORNER OF LOT 38 AND THE CENTERLINE OF CANTON ROAD (PROPOSED), CONTINUING A TOTAL DISTANCE OF 1664.67 FEET TO THE SOUTHEAST CORNER OF THIS TRACT;
2. THENCE, NORTH 81 DEGREES, 20 MINUTES, 33 SECONDS WEST, AT A DISTANCE OF 75.00 FEET PASS A No. 4 REBAR SET FOR THE WEST LINE OF HIDALGO COUNTY DRAINAGE DISTRICT No. 1 RIGHT-OF-WAY, CONTINUING A TOTAL DISTANCE OF 250.85 FEET TO AN INTERIOR CORNER OF THIS TRACT;
3. THENCE, SOUTH 89 DEGREES, 26 MINUTES, 38 SECONDS WEST, AT A DISTANCE OF 433.48 PASS THE WEST LINE OF SAID LOT 38 AND THE EAST LINE OF SAID LOT 39, CONTINUING A TOTAL DISTANCE OF 982.98 FEET TO A No. 4 REBAR FOUND FOR THE SOUTHWEST CORNER OF THIS TRACT ;
4. THENCE, NORTH 00 DEGREES, 33 MINUTES, 22 SECONDS WEST, ACROSS SAID LOTS 36 AND 39, ALONG THE EASTERN BOUNDARY LINE OF AURORA VALLEY PHASE 2 ACCORDING TO THE PLAT THEREOF RECORDED UNDER DOCUMENT 2404614, AT A DISTANCE OF 243.03 FEET PASS A No. 4 REBAR FOUND FOR THE PROPOSED SOUTH RIGHT-OF-WAY LINE OF CANTON ROAD/MILE 14 1/2, AT A DISTANCE OF 323.03 FEET PASS THE PROPOSED NORTH RIGHT-OF-WAY LINE, AT A DISTANCE OF 1528.03 PASS A No. 4 REBAR FOUND FOR THE SOUTH LINE OF A DONNA IRRIGATION DISTRICT RIGHT-OF-WAY, CONTINUING A TOTAL DISTANCE OF 1603.03 TO THE NORTHWEST CORNER OF THIS TRACT;
5. THENCE, NORTH 89 DEGREES, 26 MINUTES, 38 SECONDS EAST, ALONG THE NORTH LINE OF SAID LOTS 36 AND 37, AT A DISTANCE OF 549.50 FEET PASS THE NORTHEAST CORNER OF LOT 36 AND THE NORTHWEST CORNER OF LOT 37, CONTINUING A TOTAL DISTANCE OF 1497.13 FEET TO THE POINT OF BEGINNING, AND CONTAINING 50.427 ACRES OF LAND, MORE OR LESS.

SCALE: 1" = 100'

SCALE NOTE:
IF THIS BAR DOES NOT MEASURE 1", THE DRAWING IS NOT TO SCALE

BEARING BASIS: AS PER HIDALGO COUNTY COORDINATE SYSTEM NAD 83 (2011) EPOCH 2010 ELEVATION PER NAVD 88 (GEOID 2003)

GENERAL PLAT NOTES & RESTRICTIONS:

1. FLOOD ZONE STATEMENT:
FLOOD ZONE DESIGNATION: ZONE "C" (NO SHADING). ZONE "C" IS DEFINED AS AREA OF MINIMAL FLOODING. PANEL NO. 480334 0425 C. MAP REVISED: NOVEMBER 16, 1982. THE AREAS WITHIN THE PROPOSED STREET RIGHT-OF-WAY ARE WITHIN THE 100-YEAR FLOOD PLAIN. THE LOCAL FLOOD PLAIN ADMINISTRATOR IDENTIFIES NO OTHER AREA WITHIN THE PROPOSED SUBDIVISION TO BE WITHIN THE 100-YEAR FLOOD PLAIN. CONSTRUCTION OF RESIDENTIAL HOUSING WITHIN ANY AREA OF THIS SUBDIVISION THAT IS IN THE 100-YEAR FLOOD PLAIN IS PROHIBITED UNLESS THE HOUSING QUALIFIES FOR INSURANCE UNDER THE NATIONAL FLOOD INSURANCE ACT OF 1968 (42 U.S.C. SECTIONS 4001 THROUGH 4127).

2. SETBACKS:

| | |
|---|---|
| FRONT: | 40.00 FEET ALONG CANTON ROAD( MILE 14 1/2 N. RD.). |
| FRONT: | 25.00 FEET (INTERNAL LOTS) |
| REAR: | 15.00 FEET, OR GREATER FOR EASEMENT. |
| SIDE: | 6.00 FEET, OR GREATER FOR EASEMENT. |
| CUL-DE-SAC: | 15.00 FEET, OR GREATER FOR EASEMENT. |
| CORNER SIDE: | 20.00 FEET, OR GREATER FOR EASEMENT. |

GARAGE FRONT SETBACK: 18 FEET, OR GREATER IF EASEMENT.

3. MINIMUM FINISH FLOOR NOTE:
MINIMUM FINISH FLOOR ELEVATION SHALL BE 18" ABOVE CENTER OF STREET MEASURED AT THE CENTER OF EACH LOT, OR 18" ABOVE NATURAL GROUND, WHICHEVER IS GREATER. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME FOR APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISH FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.

4. BENCHMARK NOTE:
BM # 1: SQUARE CUT ON SET TOP OF CONCRETE HEADWALL LOCATED 9.5 FEET SOUTH FROM THE SOUTHWEST CORNER OF THIS SUBDIVISION AND ON THE EAST SIDE OF DILLON ROAD. GEODETIC G.P.S. TEXAS STATE PLANE GRID COORDINATE SYSTEM NAD 83 TEXAS SOUTH 4205 ELEVATION PER NAVD 88 (GEOID 2003) N= 16620089.5400 E= 1129280.3450 ELEV.=79.70

BM # 2: SET 2" DIA. ALUM. DISK AT BASE OF GUY WIRE LOCATED 1388 FEER EAST FROM DILLON ROAD AND ALONG CANTON ROAD (MILE 14 1/2). GEODETIC G.P.S. TEXAS STATE PLANE GRID COORDINATE SYSTEM NAD 83 TEXAS SOUTH 4205 ELEVATION PER NAVD 88 (GEOID 2003) N= 16621476.2700 E= 1130685.2860 ELEV.=74.04

BM # 3: SET COTTON PICKER SPINDLE WITHIN ASPHALT OF CANTON ROAD LOCATED APPROXIMATELY 31.5 FEET SOUTH AND 8.9 FEET WEST OF THE SOUTHWEST CORNER OF LOT 209, AURORA VALLEY PHASE 3. GEODETIC G.P.S. TEXAS STATE PLANE GRID COORDINATE SYSTEM NAD 83 TEXAS SOUTH 4205 ELEVATION PER NAVD 88 (GEOID 2003)
N= 16621452.911 E= 1131330.003 ELEV.=74.23

5. DRAINAGE:
IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF 103.007 CUBIC FEET (2.365 ACRE-FEET) OF STORM WATER RUNOFF. DRAINAGE DETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS INDICATED IN THE DRAINAGE REPORT.

6. GENERAL NOTE FOR SINGLE FAMILY RESIDENCES:
NO MORE THAN ONE-SINGLE FAMILY DETACHED DWELLING SHALL BE LOCATED ON EACH LOT OF THIS SUBDIVISION (ANY OTHER USE SHALL REQUIRE PLANNING DEPARTMENT, HEALTH DEPARTMENT, OFFICE OF ENVIRONMENTAL AND COMPLIANCE, AND FIRE MARSHALL APPROVAL). APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT. NO COMMERCIAL USE WILL BE ALLOWED FOR LOTS 212 THROUGH 243 AND LOTS 244 THROUGH 259.

7. NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF FENCES BUILDINGS, SHEDS, SHRUBS, TREES AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS TO THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

8. EACH PURCHASE CONTRACT MADE BETWEEN A SUBDIVIDER AND PURCHASER OF A LOT IN THIS SUBDIVISION SHALL CONTAIN A STATEMENT DESCRIBING HOW AND WHEN WATER, SEWER, ELECTRICITY, AND GAS SERVICES WILL BE MADE AVAILABLE TO THE SUBDIVISION.

9. CULVERT PIPES REQUIRED FOR EACH DRIVEWAY ON LOTS 209 THROUGH 211, AND 260 THROUGH 280, AS REQUIRED BY HIDALGO COUNTY. THE PURCHASER OF EACH LOT SHALL BE RESPONSIBLE TO INSTALL DRIVEWAY CULVERTS OF REINFORCED CONCRETE OF NO LESS THAN 15 INCHES IN DIAMETER AND 24 FEET IN LENGTH.

10. RHODES ENTERPRISES, LTD, OWNER AND SUBDIVIDER OF AURORA VALLEY PHASE 3, RETAINS AN EASEMENT UPON EACH LOT FOR THE PURPOSE OF INSTALLING AN APPROVED OSSF ON THE LOTS AS INDICATED ON SHEET No. 4 OF THIS PLAT.

11. ON-SITE SEWAGE FACILITIES (OSSF) NOTE: THIS SUBDIVISION SHALL USE ON-SITE SEWAGE FACILITIES IN ACCORDANCE WITH T.C.E.Q. AND HIDALGO COUNTY REGULATIONS FOR SEWAGE DISPOSAL. THE SUBDIVIDER IS RESPONSIBLE FOR PROVIDING AN OSSF ON ALL LOTS.

12. THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES OF THIS SUBDIVISION.

13. ALL PUBLIC UTILITY EASEMENTS DEDICATED BY THIS PLAT SHALL HAVE A MINIMUM WIDTH OF 15.00 FEET, AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES.

14. AN OFF-STREET PARKING LOT SITE PLAN AND DRAINAGE PLAN APPROVED BY THE HIDALGO COUNTY PLANNING DEPARTMENT AND THE OFFICE OF ENVIRONMENTAL COMPLIANCE SHALL BE REQUIRED FOR SCHOOLS, COMMERCIAL INDUSTRIAL USE AT THE TIME OF APPLICATION FOR CONSTRUCTION PRIOR TO ISSUANCE OF BUILDING AND/OR DEVELOPMENT PERMIT. NO WATER OR LIGHT CLEARANCES SHALL BE ISSUED UNTIL THE SITE PLAN, DRAINAGE PLAN AND OSSF PLAN ARE APPROVED AND PROPOSED IMPROVEMENTS ARE CONSTRUCTED IN ACCORDANCE WITH COUNTY AND STATE STANDARDS.

RIGHT OF WAY EASEMENT

KNOWN ALL MEN BY THESE PRESENTS, THAT THE UNDERSIGNED OWNERS OF THE PROPERTY SHOWN ON THIS PLAT, THEIR SUCCESSORS, ASSIGNS, AND TRANSFEREES (HEREINAFTER CALLED "GRANTOR" WHETHER ONE OR MORE PERSONS ARE NAMED), IN CONSIDERATION OF ONE DOLLAR ($1.00) AND OTHER GOOD AND VALUABLE CONSIDERATION PAID BY NORTH ALAMO WATER SUPPLY CORPORATION, (HEREINAFTER CALLED "GRANTEE"), THE RECEIPT AND SUFFICIENCY OF WHICH IS HEREBY ACKNOWLEDGED, DOES HEREBY GRANT, BARGAIN, SELL, TRANSFER AND CONVEY TO SAID GRANTEE, ITS SUCCESSORS AND ASSIGNS, A PERPETUAL EASEMENT WITH THE RIGHT TO ERECT, CONSTRUCT, INSTALL AND LAY AND THEREAFTER USE, OPERATE, INSPECT, REPAIR, MAINTAIN, REPLACE AND REMOVE WATER DISTRIBUTION LINES AND APPURTENANCES OVER AND ACROSS LANDS SHOWN ON THIS PLAT, TOGETHER WITH THE RIGHT OF INGRESS AND EGRESS OVER GRANTOR'S ADJACENT LANDS FOR THE PURPOSE FOR WHICH THE ABOVE-MENTIONED RIGHTS ARE GRANTED. THE EASEMENT HEREBY GRANTED SHALL NOT EXCEED 15' IN WIDTH, AND GRANTEE IS HEREBY AUTHORIZED TO DESIGNATE THE COURSE OF THE EASEMENT HEREIN CONVEYED EXCEPT THAT WHERE PIPELINE(S) IS INSTALLED, THE EASEMENT HEREIN GRANTED SHALL BE LIMITED TO A STRIP OF LAND 15' IN WIDTH THE CENTER LINE THEREOF BEING THE PIPELINE INSTALLED.

IN THE EVENT THE EASEMENT HEREBY GRANTED ABUTS ON A PUBLIC ROAD AND THE COUNTY OR STATE HEREAFTER WIDENS OR RELOCATES THE PUBLIC ROAD SO AS TO REQUIRE THE RELOCATION OF THIS WATER LINE AS INSTALLED, GRANTOR FURTHER GRANTS TO GRANTEE AN ADDITIONAL EASEMENT OVER AND ACROSS THE LAND DESCRIBED ABOVE FOR THE PURPOSE OF LATERALLY RELOCATING SAID WATER LINE AS MAY BE NECESSARY TO CLEAR THE ROAD IMPROVEMENTS, WHICH EASEMENT HEREBY GRANTED SHALL BE LIMITED TO A STRIP OF LAND 15' IN WIDTH THE CENTER LINE THEREOF BEING THE PIPELINE AS RELOCATED.

THE CONSIDERATION RECITED HEREIN SHALL CONSTITUTE PAYMENT IN FULL FOR ALL DAMAGES SUSTAINED BY GRANTOR BY REASON OF THE INSTALLATION, MAINTENANCE, REPAIR, REPLACEMENT AND RELOCATION OF THE STRUCTURES REFERRED TO HEREIN. THIS AGREEMENT TOGETHER WITH OTHER PROVISIONS OF THIS GRANT SHALL CONSTITUTE A COVENANT RUNNING WITH THE LAND FOR THE BENEFIT OF THE GRANTEE, ITS SUCCESSORS, AND ASSIGNS. THE GRANTOR COVENANTS THAT HE/SHE IS THE OWNER OF THE ABOVE-DESCRIBED LANDS AND THAT SAID LANDS ARE FREE AND CLEAR OF ALL ENCUMBRANCES AND LIENS, EXCEPT THE FOLLOWING:

THE EASEMENT CONVEYED HEREIN WAS OBTAINED OR IMPROVED THROUGH FEDERAL FINANCIAL ASSISTANCE. THIS EASEMENT IS SUBJECT TO THE PROVISIONS OF THE TITLE VI OF THE CIVIL RIGHTS ACT OF 1964 AND THE REGULATIONS ISSUED PURSUANT THERETO FOR SO LONG AS THE EASEMENT CONTINUES TO BE USED FOR THE SAME OR SIMILAR PURPOSE FOR WHICH FINANCIAL ASSISTANCE WAS EXTENDED OR FOR SO LONG AS THE GRANTEE OWNS IT, WHICHEVER IS LONGER.

IN WITNESS WHEREOF, THE SAID GRANTOR HAS EXECUTED THIS INSTRUMENT THE _____ DAY OF

_____, 20 _____.

STATE OF TEXAS
COUNTY OF HIDALGO:

BEFORE ME, THE UNDERSIGNED NOTARY PUBLIC, ON THIS DAY PERSONALLY APPEARED "M.L. RHODES" PROVED TO ME THROUGH HIS TEXAS DEPARTMENT OF PUBLIC SAFETY DRIVERS LICENSE TO BE THE PERSON WHOSE NAME IS SUBSCRIBED TO THE FOREGOING INSTRUMENT, WHO, BEING BY ME, FIRST DULY SWORN AND DECLARED THAT THE STATEMENTS THEREIN ARE TRUE AND CORRECT, AND ACKNOWLEDGED TO ME THAT HE EXECUTED THE SAME FOR THE PURPOSES AND CONSIDERATIONS THEREBY EXPRESSED.
GIVEN UNDER MY HAND AND SEAL OF OFFICE, THIS THE

_____, DAY OF_____, 20 _____ .

_____.
NOTARY PUBLIC, HIDALGO COUNTY, TEXAS
MY COMMISSION EXPIRES:

HIDALGO COUNTY
CERTIFICATE OF PLAT APPROVAL

I, THE UNDERSIGNED, CERTIFY THAT THIS PLAT OF AURORA VALLEY PHASE 3 WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT ON:

_____, 20 _____

_____ _____
ENVIRONMENTAL HEALTH DIVISION MANAGER DATE

HIDALGO COUNTY DRAINAGE DISTRICT NO.1 HEREBY CERTIFIES THAT THE DRAINAGE PLANS FOR THIS SUBDIVISION COMPLY WITH THE MINIMUM STANDARDS OF THE DISTRICT ADOPTED UNDER TEX. WATER CODE 49.211 (c). THE DISTRICT HAS NOT REVIEWED AND DOES NOT CERTIFY THAT THE DRAINAGE STRUCTURES DESCRIBED ARE APPROPRIATE FOR THE SPECIFIC SUBDIVISION, BASED ON GENERALLY ACCEPTED ENGINEERING CRITERIA. IT IS THE RESPONSIBILITY OF THE DEVELOPER OF THE SUBDIVISION AND ITS ENGINEER TO MAKE THESE DETERMINATIONS.

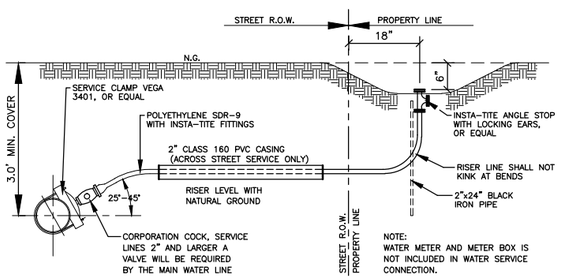
GENERAL NOTES :

1. ALL VALVES SHOWN ARE MINIMUM FOR A HYDROSTATIC PRESSURE OF 150 P.S.I. AND A SOIL RESISTANCE OF 2,000 LBS./SQ.FT WITH PIPELINE HAVING A MINIMUM OF 30" OF COVER.
2. THE CONTRACTOR SHALL CONSIDER REDUCTIONS OF THRUST BLOCK SURFACE AREA UPON SUBMITTAL OF APPROVED SOIL RESISTANT TEST RESULTS GREATER THAN 2000 LBS./SQ.FT.
3. THE LOCATION OF THRUST BLOCKS DEPENDS UPON THE DIRECTION OF THRUST AND TYPE OF FITTINGS.



## TYPICAL WATER SERVICE CONNECTION ELEVATION

GENERAL NOTES :

1. DRAWINGS INDICATE COPPER SERVICE LINES.
2. FOR P.V.C. SERVICE LINES REFER TO SMALLER TYPE NOTES.
3. ALL COMPRESSION OR PACK TYPE FITTINGS & JOINTS REQUIRE STAINLESS STEEL INSERTS OF REQUIRED SIZE.
4. WATER SERVICE CONNECTIONS CROSSING A STREET SHALL BE ENCASED IN A 2" P.V.C. SHC40 CASING. LENGTH OF CASING SHALL BE WIDTH OF STREET PLUS 10.0 FEET.

TYPICAL WATER SERVICE CONNECTIONS

N.T.S.

FINAL WATER AND SEWER ENGINEERING REPORT FOR AURORA VALLEY PHASE 3
BY: FRED L. KURTH, P.E. #54151
WATER SUPPLY: DESCRIPTION, COST, AND OPERABILITY DATE:

AURORA VALLEY PHASE 3 WILL BE PROVIDED WITH POTABLE WATER BY NORTH ALAMO WATER SUPPLY CORPORATION (N.A.W.S.C.). THE SUBDIVIDER AND N.A.W.S.C. HAVE ENTERED INTO A CONTRACT IN WHICH N.A.W.S.C. HAS PROMISED TO PROVIDE SUFFICIENT WATER TO THE SUBDIVISION FOR AT LEAST 30 YEARS AND N.A.W.S.C HAS PROVIDED DOCUMENTATION TO SUFFICIENTLY ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

N.A.W.S.C. HAS AN EXISTING 8" DIAMETER WATER LINE RUNNING ALONG THE SOUTH SIDE OF CANTON ROAD. THE WATER SYSTEM FOR AURORA VALLEY PHASE 3 CONSISTS OF A 8" DIAMETER WATER LINE THAT TAPS INTO THE EXISTING 8" LINE. THIS 8" LINE THEN RUNS NORTH AND SOUTH ALONG THE WEST SIDE OF HARMONIA DRIVE RIGHT-OF-WAY. ANOTHER 8" LINE RUNS NORTH AND SOUTH ALONG THE WEST SIDE OF LA CLARIDAD DRIVE RIGHT-OF-WAY TAPPING INTO THE EXISTING 8" LINE ON THE SOUTH SIDE OF CANTON ROAD. THIS SYSTEM IS LOOPED BY AN 8" LINE THAT RUNS EAST AND WEST ALONG THE NORTH SIDE OF ESPACIO SANTO DRIVE TIE-ING INTO THE LINES ALONG HARMONIA DRIVE AND LA CLARIDAD DRIVE.

WATER DISTRIBUTION FOR THE AURORA VALLEY PHASE 3 CONSISTS OF TWENTY-EIGHT -1" DIAMETER DUAL SERVICE LINES RUN TO PAIRS OF LOTS BEFORE SPLITTING INTO ¾" DIAMETER SERVICE LINES AND SIXTEEN -¾" DIAMETER SINGLE SERVICE LINES. SAID SERVICES TERMINATE AT THE WATER METER BOXES FOR EACH LOT. THE 8" LINE, THE DUAL SERVICES AND ¾" SINGLE SERVICES, AND THE METER BOXES HAVE ALREADY BEEN INSTALLED, AT A TOTAL COST OF $176,480.00, OR $2,451.11 PER LOT. IN ADDITION, THE SUBDIVIDER HAS PAID N.A.W.S.C. THE SUM OF $27,000.00, WHICH COVERS THE $375.00 COST PER LOT AS STATED IN THE 30 YEAR WATER SERVICE AGREEMENT WHICH SUM REPRESENTS THE TOTAL COST OF WATER METER, RIGHTS ACQUISITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO N.A.W.S.C. UPON REQUEST BY THE LOT OWNER, N.A.W.S.C. WILL PROMPTLY INSTALL AT NO CHARGE THE WATER METER FOR THAT LOT. THE SUBDIVIDER HAS INSTALLED 6 FIRE HYDRANTS AT A UNIT COST OF $2,500.00 FOR A TOTAL COST OF $15,000.00. THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED AND ACCEPTED BY N.A.W.S.C. AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT

SEWAGE FACILITIES DESCRIPTION; COST AND OPERABILITY DATES
SEWAGE FROM AURORA VALLEY PHASE 3 SUBDIVISION WILL BE TREATED BY INDIVIDUAL ON-SITE SEWAGE FACILITIES ("OSSF") CONSISTING OF A STANDARD DESIGN DUAL COMPARTMENT SEPTIC TANK AND A DRAIN FIELD ON EACH LOT. THE UNDERSIGNED PROFESSIONAL ENGINEER HAS EVALUATED THE SUITABILITY OF THE SUBDIVISION SITE FOR OSSF AND SUBMITTED A REPORT CONCLUDING THAT THE SITE IS SUITABLE FOR OSSF. THE REPORT WAS REVIEWED AND APPROVED BY THE HIDALGO COUNTY HEALTH DEPARTMENT. EACH LOT HAS ADEQUATE AREA FOR A REPLACEMENT DRAIN FIELD.

SOIL EVALUATION REPORT:
EACH LOT IN THE PROPOSED SUBDIVISION IS AT LEAST 1/2 ACRE IN SIZE. THE NATURAL RESOURCE CONSERVATION SERVICE SOIL SURVEY BOOK INDICATED A SANDY LOAM SOIL FOR THE AREA. AT LEAST TWO SOIL EXCAVATIONS WERE PERFORMED ON THE SITE, AT OPPOSITE ENDS OF THE PROPOSED DISPOSAL AREA. (ADDITIONAL BORINGS WERE UNNECESSARY BECAUSE THE SOILS ARE VERY UNIFORM WITHIN THIS LIMIT AREA). THE SOIL IS A UNIFORM SANDY LOAM EXTENDING UP TO 36" BELOW THE BOTTOM OF ANY PROPOSED EXCAVATIONS. THERE IS NO INDICATION OF GROUND WATER OR A RESTRICTIVE LAYER WITHIN 24" OF BOTTOM OF THE PROPOSED EXCAVATIONS. THE SUBDIVISION DRAINS WELL.

THE COST TO INSTALL A SEPTIC SYSTEM ON AN INDIVIDUAL LOT IS 1,145.00, INCLUDING THE COST FOR THE REQUIRED PERMIT AND LICENSE. ALL OSSFS HAVE BEEN INSTALLED AS OF THE TIME OF APPLICATION FOR FINAL PLAT APPROVAL AT A TOTAL COST OF $82,4400.00. THE HIDALGO COUNTY HEALTH DEPARTMENT HAS INSPECTED AND APPROVED THE INSTALLATION OF ALL OSSF ON DATE GO HERE.

ENGINEER CERTIFICATION:
BY MY SIGNATURE BELOW, I CERTIFY THAT THE WATER AND SEWAGE SERVICE FACILITIES DESCRIBED ABOVE ARE IN COMPLIANCE WITH THE MODEL RULES ADOPTED UNDER SECTION 16.343, WATER CODE. I CERTIFY THAT THE COSTS TO INSTALL THE WATER AND THE CONSTRUCTED ON-SITE SEWAGE FACILITIES, DISCUSSED ABOVE, ARE AS FOLLOWS:

WATER FACILITIES – THESE FACILITIES FULLY CONSTRUCTED, WITH THE INSTALLATION OF WATER METERS, WILL COST A GRAND TOTAL OF $218,480.00 WHICH EQUALS TO $3,034.44 PER LOT.

SEWAGE FACILITIES – SEPTIC SYSTEM IS ESTIMATED TO COST $1,145.00 PER LOT (ALL INCLUSIVE), FOR A TOTAL OF $82,440.00 FOR THE ENTIRE SUBDIVISION.

FINAL WATER AND SEWER ENGINEERING REPORT IN SPANISH
PROVISIÓN DE AGUA: DESCRIPCIÓN, GASTOS Y FECHAS DE INICIO

LA SUBDIVISIÓN AURORA VALLEY PHASE 3 RECIBIRÁ SU PROVISIÓN DE AGUA DE NORTH ALAMO WATER SUPPLY CORPORATION (LA COMPAÑÍA DE AGUA (N.A.W.S.C.). EL DUEÑO DE LA SUBDIVISIÓN Y N.A.W.S.C. HAN FIRMADO UN CONTRATO POR EL CUAL LA SUBDIVISIÓN RECIBIRÁ SU PROVISIÓN DE AGUA POR LOS PRÓXIMOS 30 AÑOS. N.A.W.S.C. HA PRESENTADO DOCUMENTACIÓN PARA DEMOSTRAR A LARGO PLAZO LA CANTIDAD Y CALIDAD DE AGUA ACCESIBLE PARA SERVIR EL FUTURO DESARROLLO DE LA SUBDIVISIÓN.

NAWSC TIENE UNA LINEA DE AGUA EXISTENTE CON UN DIAMETRO DE 8 PULGADAS Y QUE PASA POR EL LADO SUR DE CANTON ROAD. EL SYSTEMA DE AGUA PARA AURORA VALLEY PHASE 3 CONSISTE DE UNA LINEA DE AGUA CON UN DIAMETRO DE 8 PULGADAS QUE CONECTA A LA LINEA DE 8 PULGADAS QUE YA EXISTE POR EL LADO SUR DE CANTON ROAD Y DESPUÉS CORRE DE NORTE A SUR SOBRE EL LADO OESTE DEL DERECHO DE VIA (RIGHT-OF-WAY) DE HARMONIA DRIVE. HAY OTRA LINEA DE AGUA TAMBIEN CON UN DIAMETRO DE 8 PULGADAS QUE CORRE DE NORTE A SUR SOBRE EL LADO OESTE DEL DERECHO DE VIA (RIGHT-OF-WAY) DE LA CLARIDAD DRIVE Y TAMBIEN CONECTARA A LA LINEA DE 8 PULGADAS QUE YA EXISTE POR EL LADO SUR DE CANTON ROAD. LA LINEA DE 8 PULGADAS QUE CORRE DE ESTE A OESTE SOBRE LA PARTE NORTE DE ESPACIO SANTO DRIVE SERVIRA COMO UN LAZO PARA EL SYSTEMA DE AGUA Y SE AMARARA A LAS LINEAS DE AGUA QUE EXISTIRAN SOBRE HARMONIA DRIVE Y LA CLARIDAD DRIVE.

LA DISTRIBUCION PARA AURORA VALLEY PHASE II CONSISTE DE VIENTY-OCHO (28) SERVICIOS DE 1" PULGADA DE DIAMETRO DE SERVICIOS DUALES LOS CUALES CORREN A PARES DE LOTES ANTES DE DIVIDIRSE EN LINEAS DE SERVICIO DE ¾ DE PULGADA EN DIAMETRO Y DIEZ Y SEIS (16) LINEAS DE SERVICIO SINGULARES CON UN DIAMETRO DE ¾ DE PULGADA Y QUE TERMINAN EN LOS MEDIDORES DE AGUA PARA CADA LOTE. LA LINEA DE 8 PULGADAS, LOS SERVICIOS DUALES, LOS SERVICIOS SINGULARES DE ¾ DE PULGADA DE DIAMETRO, Y LOS MEDIDORES DE AGUA YA ESTAN INSTALADOS. EL COSTO TOTAL DE ESTA INSTALACION ES DE $176,480.00 O $2,451.11 POR LOTE. ADICIONALMENTE, EL DUEÑO A PAGADO A NAWSC LA CANTIDAD DE $27,000.00 ($375.00 POR LOTE) QUE CUBREN LOS MEDIDORES, CAJAS, CUOTA DE ABASTECIMIENTO DEL AGUA Y OTRAS CUOTAS ASOCIADAS DE ACUERDO A LO ESTABLECIDO EN EL CONTRATO DE SERVICIO A TREINTA AÑOS. DE ACUERDO AL PEDIDO DE MEDIDORES POR PARTE DE LOS DUEÑOS DE CADA UNO DE LOS LOTES, NAWSC INSTALARA TAN PRONTO POSIBLE Y SIN CARGO ALGUNO EL MEDIDOR RESPECTIVO. EL DUEÑO HA INSTALADO SEIS (6) HYDRANTES DE AGUA ($2,500.00 CADA UNO) SUMANDOSE A UN COSTO TOTAL DE $15,000.00. TODO EL SYSTEMA DE DISTRIBUTION DEL AGUA HA SIDO APROBADO Y ACEPTADO POR NAWSC Y ESTARA OPERABLE AL TIEMPO DE LA FECHA EN LA CUAL TODOS LOS PLANOS DE ESTA SUBDIVISION SEAN ARCHIVADOS EN LAS OFICINAS DE HIDALGO COUNTY CLERK.

DRENAJE: DESCRIPCIÓN, GASTOS Y FECHA DE INICIO PARA FACILITAR EL DRENAJE PARA LA SUBDIVISIÓN
SE INSTALARA UNA FOSA SÉPTICA EN CADA SOLAR. ESTA FOSA SETICA CONSISTE DE UN TANQUE SÉPTICO DE MODELO DUAL Y DE UN CAMPO DE DRENAJE PARA EL SOLAR. EL INGENIERO AUTOR DE ESTE DOCUMENTO HA EVALUADO EL ÁREA DONDE SE ENCUENTRA LA SUBDIVISIÓN Y HA PREPARADO UN REPORTE QUE CONCLUYE QUE ESTE TERRENO ES ADECUADO PARA ESAS FOSAS SÉPTICAS (OSSF). EL REPORTE FUE APROBADO POR EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO (HIDALGO COUNTY HEALTH DEPARTMENT) SEGÚN EL REPORTE.

CADA LOTE EN LA SUBDIVISIÓN MIDE MEDIO ACRE. SE HICIERON POR LOS MENOS DOS ES EXCAVACIONES DE EVALUACIÓN EN LA SUBDIVISIÓN (EXCAVACIONES ADICIONALES NO FUERON NECESARIAS PORQUE EL TERRENO EN ESTA ÁREA ES SIGNIFICANTEMENTE UNIFORME). EL TERRENO ES UNIFORME (TERRENO ARCILLOSO Y SUELO FRANCO) Y SE EXTIENDE A 36 PULGADAS BAJO TODAS LAS EXCAVACIONES PROPUESTAS. NO EXISTE EVIDENCIA DE AGUA 24 PULGADAS MAS ARRIBA DE LO MAS BAJO DE LAS EXCAVACIONES PROPUESTAS. EL AGUA EN ESTA ÁREA FLUYE BIEN.

EL COSTO TOTAL PARA LA INSTALACIÓN DE UN SISTEMA INDIVIDUAL DE FOSAS SÉPTICAS POR SOLAR ES 1,145.00 DÓLARES, INCLUYENDO EL COSTO DEL PERMISO REQUERIDO Y LICENCIA. EN ESTOS MOMENTOS TODAS LAS FOSAS SÉPTICAS HAN SIDO INSTALADAS EN EL PROCESO DE LA APROBACIÓN FINAL. A UN COSTO TOTAL DE $ $82,440.00. EL DEPARTAMENTO DE SALUBRIDAD DEL CONDADO DE HIDALGO HA INSPECCIONADO TODOS LAS FOSAS SÉPTICAS Y HA APROBADO LA INSTALACIÓN DE LAS FOSAS SÉPTICAS DESDE (FECHA DE INSPECCIÓN).

CERTIFICACIÓN:
CON MI FIRMA, CERTIFICO QUE LOS SERVICIOS Y SISTEMAS DE AGUA Y DE DRENAJE, DESCRITOS EN ESTE DOCUMENTO CUMPLEN CON LAS REGLAS GOBERNANDO A LAS SUBDIVISIONES, ADOPTADAS EN LA SECCIÓN 16.343 DEL CÓDIGO DE AGUA DE TEXAS. CERTIFICO QUE LOS GASTOS PARA INSTALAR LOS SISTEMAS DE AGUA Y DE DRENAJE SON:

AGUA: ESTAS SERVICIOS DE AGUA COMPLETAMENTE CONSTRUIDO INCLUYENDO LA INSTALACION DE EL MEDIDOR MECÁNICO DE AGUA COSTARA UN TOTAL DE $ 218,480.00 O $ 3,034.44 POR LOTE

DRENAJE: SE ESTIMA QUE LA FOSA SÉPTICA COSTARA $1,145.00 A UN COSTO TOTAL DE $82,440.00 TODA LA SUBDIVISIÓN.

SUBDIVIDER CERTIFICATION

1. BY COMPLETING THE IMPROVEMENTS DESCRIBED ON THE PLAT, SUBDIVIDER WILL COMPLY WITH MINIMUM STATE STANDARDS AND THAT (a) WATER QUALITY AND CONNECTIONS INCLUDING WATER METERS AND OR WATER WELLS FOR EACH LOT(S) MEET SUCH STANDARDS AND (b) SEWER CONNECTIONS TO THE LOTS OR SEPTIC TANKS MEET OR WILL MEET SUCH STANDARDS AND WILL BE CONSTRUCTED IN ACCORDANCE WITH STATE AND COUNTY REGULATIONS.

SUBDIVIDER STATEMENT:

1. WE, RHODES ENTERPRISES, INC., SUBDIVIDER OF AURORA VALLEY PHASE 3, HERE BY CERTIFY SEWER PERMITS HAVE BEEN PAID AND COPIES OF RECEIPTS ARE ON FILE WITH THE HIDALGO COUNTY HEALTH DEPARTMENT THAT ANY ADEQUATE DRINKING WATER SOURCE IS IMMEDIATELY AVAILABLE TO EACH LOT OF THE TYPE, QUALITY & QUANTITY TO ENABLE EACH PERSON PURCHASING A LOT HAVE ADEQUATE WATER TO COMPLY WITH THE REGULATIONS AND THE LAWS OF THE STATE AS REQUIRED BY STATE AND COUNTY REGULATIONS.

AND 3.570 ACRES OUT OF LOT 39
HILL-HALBERT SUBDIVISION,
REC. IN VOL. 1, PAGE 35, H.C.M.R.,
HIDALGO COUNTY, TEXAS.

DRAINAGE STATEMENT
AURORA VALLEY PHASE 3
Job No. 13080 Date: August 19, 2013

AURORA VALLEY PHASE 3 is a 50.427 acre tract of land, consisting of 16.651 acres out of Lot 36, 25.472 acres out of Lot 37, 4.734 acres out of Lot 38 and 3.570 acres out of Lot 39, HILL & HALBERT TRACT, according to the map or plat thereof recorded in Volume 2, Page 60, Hidalgo County, Map Records. The property is located 2100 feet east of Dillon Road and at the north and south sides of Canton Road (Mile 14 ½ North). Said property is currently open land, with a proposed residential use that includes 72 lots. This subdivision lies in Zone 'C' (no shading) on FEMA's Flood Insurance Rate Map Community Panel No. 480334 0425 C, map revised November 16, 1982. Zone 'C' (no shading) is defined as areas of minimal flooding.

The soils are Fine Sandy Loam, Sandy Clay Loam and Clay Loam, which are in Hydrologic Groups 'B' and 'C' respectively. Approximately 95% of this property lies in Hydrologic Group 'B', the remaining 5% lies in Hydrologic Group 'C'. Soils in Hydrologic Group 'B' have a moderate perviousness, and a relatively low plasticity index, soils in Hydrologic Group 'C' are not very pervious and have a moderate plasticity index. (See excerpts from "Soil Survey of Hidalgo County, Texas"). Existing runoff is in a northeasterly direction, and is of 7.89 c.f.s. during the 10-year storm frequency as per attached calculations.

In accordance with the Hidalgo County Drainage District policies, the peak post construction rate of runoff will not be increased due to the construction of this subdivision. Therefore as per attached calculations, 103,007 total cubic feet of detention (2.365 Ac-Ft.) are required. Detention will be accomplished within the existing Donna Irrigation District drain ditch located along the north side of this subdivision. The north side drain ditch will be re-excavated along the south side of the drain ditch and will net 198,613 cubic feet of detention (see attached cross section). Runoff from the proposed streets and excess runoff from the lots will surface flow into three proposed storm drainage systems for this subdivision. System "A" located in the northwest quandrant of the subdivision consists of two (2) Type 'A' inlets, 240 linear feet of 24-inch pipe and 38 linear feet of 18-inch pipe. System 'B' located in the northeast quandrant of the subdivision consists of three (3) Type 'A' inlets, 325 linear feet of 24-inch pipe and 100 linear feet of 18-inch pipe. System 'C' takes in the runoff from the lots along Canton Road (Mile 14 ½ North) and flows easterly and discharges into the Donna Lateral and consists of four (4) Type 'C' inlets, 323 linear feet of 30-inch pipe, 595 linear feet of 24-inch pipe and 100 linear feet of 18-inch pipe. The ultimate outfall is the Donna Lateral drain ditch located adjacent to the east side of this development.

The finished floor elevation for the proposed buildings shall be 18 inches above the front top of curb, measured from the center of the lot. Natural ground shall be graded in such manner that it will allow runoff to drain away from the buildings, as well as avoid the concentration of runoff onto other lots within the subdivision.

CERTIFICATION:
BY MY SIGNATURE BELOW, I CERTIFY THAT THE 100-YEAR FLOODPLAIN AS DESCRIBED IN COMMUNITY PANEL NUMBER 480334 0425 C, MAP REVISED NOVEMBER 16 1982, PERTAINING TO THIS SUBDIVISION, IS CONTAINED WITHIN THE SECTION OF DRAIN DITCH (SOUTH SIDE) LOCATED AT THE NORTH SIDE OF THIS SUBDIVISION, AND ALONG THE ROAD DITCHES ON THE EAST SIDE OF DILLON ROAD AND NORTH AND SOUTH SIDES OF CANTON ROAD (MILE 14 1/2 NORTH RD.).

STATE OF TEXAS — FRED L. KURTH — 54151 — LICENSED PROFESSIONAL ENGINEER

FRED L. KURTH #54151

NOTES TO CONTRACTOR:

PROPOSED ROAD DITCH ALONG NORTH AND SOUTH SIDES OF CANTON ROAD (MILE 14 1/2) TO BE GRADED ACCORDING TO COUNTY SPECIFICATIONS.

CULVERTS AT ALL STREET INTERSECTIONS SHALL BE INSTALLED WITH SAFETY ENDS TREATMENT.

## HIDALGO COUNTY DRAINAGE DISTRICT No. 1

NOTE:
HIDALGO COUNTY DRAINAGE DISTRICT NO. 1 HEREBY CERTIFIES THAT THE DRAINAGE PLANS FOR THIS SUBDIVISION COMPLY WITH THE MINIMUM STANDARDS OF THE DISTRICT ADOPTED UNDER TEXAS WATER CODE NO. 49.211(c). THE DISTRICT HAS NOT REVIEWED AND DOES NOT CERTIFY THAT THE DRAINAGE STRUCTURES DESCRIBED ARE APPROPRIATE FOR THE SPECIFIC SUBDIVISION, BASED ON GENERALLY ACCEPTED ENGINEERING CRITERIA. IT IS THE RESPONSIBILITY OF THE DEVELOPER OF THE SUBDIVISION AND ITS ENGINEER TO MAKE THESE DETERMINATIONS.

## PLAT NOTES AND RESTRICTIONS:

1.– FLOOD ZONE DESIGNATION: ZONE "X" AREAS DETERMINED TO BE OUTSIDE 500–YEAR FLOOD–PLAIN, & FLOOD ZONE "A" COMMUNITY–PANEL NUMBER 480334 0290 D. EFFECTIVE DATE: JUNE 6, 2000. THE PORTION THAT LIES WITHIN FLOOD ZONE "A" AS BEEN FILLED TO AN ELEVATION OF 182.90 AND REDESIGNATED AS FLOOD ZONE "X", AS PER FEMA LETTER/CASE 13–06–2310A (LOMR–F)

2.– GENERAL NOTE FOR SINGLE FAMILY RESIDENCES: NO MORE THAN ONE–SINGLE FAMILY DETACHED DWELLING SHALL BE LOCATED ON EACH LOT. (ANY OTHER NON–RESIDENTIAL USE SHALL REQUIRE PLANNING DEPARTMENT, HEALTH DEPARTMENT AND FIRE MARSHALL APPROVAL). APPLICATIONS FOR CONSTRUCTION ARE REQUIRED PRIOR TO OCCUPYING THE LOT. NO COMMERCIAL USE SHALL BE ALLOWED ON ALL INTERNAL LOTS 2 – 37.

3.– MINIMUM FINISH FLOOR NOTE: MINIMUM FINISH FLOOR ELEVATION SHALL BE 182.90. ELEVATION CERTIFICATE MAY BE REQUIRED FOR LOTS LOCATED OUTSIDE A DESIGNATED FLOOD ZONE AT THE TIME FOR APPLICATION FOR CONSTRUCTION TO VERIFY PRE AND POST CONSTRUCTION FINISH FLOOR ELEVATIONS. AN ELEVATION CERTIFICATE SHALL BE REQUIRED FOR ALL LOTS WITHIN A DESIGNATED FLOOD ZONE AT THE TIME FOR A DEVELOPMENT PERMIT APPLICATION.

4.– LEGEND ●– DENOTES 1/2" IRON ROD SET UNLESS OTHERWISE NOTED.

5.– THERE ARE NO WATER WELLS WITHIN 150 FEET FROM THE BOUNDARIES OF THIS SUBDIVISION.

6.– MINIMUM BUILDING SETBACK LINES:
FRONT .....25.00'
FRONT GARAGE.....18.00'
REAR.....15.00'
SIDE.....6.00'
SIDE CORNER.....20.00'
OR TO EASEMENT LINE WHICHEVER IS GREATER ON ALL CASES
LOT 1 & 38 FOR COMMERCIAL ONLY.....50.00'

7.– DRAINAGE; IN ACCORDANCE WITH THE HIDALGO COUNTY DRAINAGE DISTRICT No. 1 AND HIDALGO COUNTY REQUIREMENTS, THIS DEVELOPMENT WILL BE REQUIRED TO DETAIN A TOTAL OF 34,949 CUBIC FEET (0.8023 ACRE FEET) OF STORM WATER RUNOFF. DRAINAGE RETENTION IN ACCORDANCE WITH THE LOCAL REQUIREMENTS WILL BE ACCOMPLISHED AS FOLLOWS: SEE DRAINAGE REPORT ON SHEET No.4.

8.– NO STRUCTURE SHALL BE PERMITTED OVER ANY EASEMENT. EASEMENTS SHALL BE KEPT CLEAR OF FENCES, BUILDINGS, SHEDS, SHRUBS TREES, AND OTHER PLANTINGS (EXCEPT LOW, LESS THAN 18 INCHES MATURE HEIGHT, GROUND COVER, GRASS, OR FLOWERS) AND OTHER OBSTRUCTIONS THAT WOULD INTERFERE WITH THE OPERATIONS AND MAINTENANCE OF THE EASEMENT.

9.– BENCHMARK NOTE: THE FOLLOWING BENCHMARK IS IDENTIFIED ON THE FACE OF THE PLAT AND ON THE ATTACHED ENGINEERING PLANS. B.M. 1 ELEV. 183.93 AT A IRON ROD LOCATED ON THE NORTHWEST CORNER OF THIS DEVELOPMENT N.A.V.D. 88 DATUM.
B.M. 2 ELEV. 184.30 ON A CONCRETE DISK LOCATED AT THE SOUTHWEST CORNER OF LOT 6 OF EDUARDS SUBDIVISION No.12. N.A.V.D. 88 DATUM.

10.– EACH PURCHASE CONTRACT MADE BETWEEN A SUBDIVIDER AND PURCHASER OF A LOT IN THIS SUBDIVISION SHALL CONTAIN A STATEMENT DESCRIBING HOW AND WHEN WATER, SEWER, ELECTRICITY AND GAS SERVICES WILL BE MADE AVAILABLE TO THE SUBDIVISION.

11.– EACH LOT HAS A 15' WIDE PUBLIC UTILITY EASEMENT RUNNING ALONG THE REAR OF THE LOT. THE REAR OF THE LOT IS DEFINED AS THAT PORTION FARTHEST FROM STREET.

12.– ALL IRRIGATION EASEMENTS ARE EXCLUSIVE TO H.C.I.D. NO. 6 DISTRICT, AND NO OTHER UTILITIES OR USE IS ALLOWED WITHOUT EXPRESS APPROVAL BY THE DISTRICT.

13.– NO UTILITY COMPANY OR OTHER PERSON IS ALLOWED TO CROSS ABOVE OR BELOW GROUND ANY DISTRICT EASEMENT OR RIGHT OF WAY WITH LINES, POLES, OPEN DITCHES OR OTHER USE WITHOUT FIRST OBTAINING A CROSSING PERMIT FROM THE DISTRICT. (H.C.I.D. NO. 6 DISTRICT)

14.– NO PERMANENT STRUCTURES, (EXAMPLE, FENCES OF ANY CONSTRUCTION WILL BE ALLOWED TO BE CONSTRUCTED OR EXIST ON ANY DISTRICT EASEMENT OR RIGHT OF WAY WITHOUT WRITTEN APPROVAL BY THE DISTRICT. ANY UNAUTHORIZED STRUCTURE IN THE EASEMENT AREA IS SUBJECT TO REMOVAL.

15.– LOTS 1 & 38 SHALL NOT HAVE ACCESS/DRIVEWAY ONTO BENTSEN PALM DRIVE. FOR COMERCIAL USE ONLY. IF THE AFOREMENTIONED LOTS ARE UTILIZED FOR COMMERCIAL USE, THEN THE LOT OWNER WILL BE REQUIRED TO INSTALL A BUFFER ABUTTING THE RESIDENTIAL LOT. LOCATION OF ACCESS/DRIVEWAY SHALL BE SHOWN ON THE SITE PLAN AS PER NOTE 18 AND IS SUBJECT TO APPROVAL FROM THE HIDALGO COUNTY PLANNING DEPARTMENT.
DRIVEWAY ENTRANCE FROM ZARKANA DRIVE SHALL BE 50.00 FEET FROM CORNER CLIP OF COMMERCIAL LOTS.

16.– AS PER LOCAL GOVERNMENT CODE REQUIREMENTS, SANITARY SEWER MUST BE CONNECTED TO RESIDENTIAL HOMES PRIOR TO RECEIVING A FINAL CLEARANCE FOR WATER METER. A SEWER TAP INSPECTION SHALL BE PROVIDED FROM THE ENTITY SERVICE PROVIDER PRIOR TO RECEIVING A CLEARANCE FOR WATER METER(S).

17.– DIANA L. IZAGUIRRE, THE OWNER & SUBDIVIDER OF EDUARDO'S SUBDIVISION No.12, RETAINS AN EASEMENT UPON EACH LOT FOR THE PURPOSES OF INSTALLING AN APPROVED OSSF ON THE LOT AS DESCRIBED ON SHEET No.2 OF THIS PLAT.

18.– AN OFF–STREET PARKING LOT SITE PLAN & DRAINAGE PLAN APPROVAL BY THE HIDALGO COUNTY PLANNING DEPARTMENT SHALL BE REQUIRED FOR COMMERCIAL AT THE TIME OF APPLICATION FOR CONSTRUCTION PRIOR TO THE ISSUANCE OF A BUILDING AND/OR DEVELOPMENT PERMIT. NO WATER OR LIGHT CLEARANCES SHALL BE ISSUED UNTIL THE SITE PLAN, DRAINAGE PLAN AND OSSF PLAN ARE APPROVED AND PROPOSED IMPROVEMENTS ARE CONSTRUCTED IN ACCORDANCE WITH COUNTY AND STATE STANDARDS.

19. THE RESIDENTIAL LOTS SHOULD REFLECT SERVICE BY A 3/4" METER.

20. ALL PUBLIC UTILITIES EASEMENTS DEDICATED BY THIS PLAT SHALL BE A MINIMUM WIDTH OF 15.00 FEET AS PER THE HIDALGO COUNTY MODEL SUBDIVISION RULES. BY SIGNING THIS PLAT DEVELOPER AND ENGINEER CERTIFY THAT ALL OTHER EASEMENTS SHOWN COMPLY WITH THE SIZE REQUIRED BY EACH UTILITY PROVIDER OCCUPYING AN EASEMENT.

21. MAINTENANCE NOTE FOR REGIONAL DRAINAGE POND AREA

**LOCATION OF SUBDIVISION WITH RESPECT TO THE EXTRATERRITORIAL JURISDICTION OF A MUNICIPALITY:**
**EDUARDO'S SUBDIVISION No.12 IS LOCATED IN WEST HIDALGO COUNTY, APPROXIMATELY 3,050.0 FEET NORTH OF MILE 3 NORTH ROAD (FM 2221), AND ON THE EAST SIDE OF BENTSEN PALM DRIVE. THE ONLY NEARBY MUNICIPALITY IS THE CITY OF MISSION ACCORDING TO THE OFFICIAL MAP IN THE OFFICE OF THE SECRETARY OF THE CITY OF MISSION (POPULATION 77,058), EDUARDO'S SUBDIVISION No.12 LIES APPROXIMATELY 1.15 MILES FROM THE CITY LIMITS AND IT IS WITHIN THE CITY OF MISSION'S FIVE–MILE EXTRATERRITORIAL JURISDICTION (ETJ) UNDER LOCAL GOVERNMENT CODE § 212.001 AND LIES IN PCT. NO. 3.**

# EDUARDOS SUBDIVISION No. 12

A 15.0 ACRE TRACT OF LAND BEING ALL OF LOTS 179 AND THE SOUTH 5.0 ACRES OUT OF LOT 181, BENTSEN GROVES SUBDIVISION, HIDALGO COUNTY TEXAS, ACCORDING TO MAP OR PLAT THEREOF RECORDED IN VOLUME 7, PAGE 13, MAP RECORDS, HIDALGO COUNTY, TEXAS, AND ACCORDING TO WARRANTY DEED RECORDED UNDER COUNTY CLERK'S DOCUMENT NUMBER 2270285, OFFICIAL RECORDS, HIDALGO COUNTY, TEXAS.

JANUARY 7, 2014.
DRAINAGE REPORT: BY GILBERTO A. GRACIA, P.E.
EDUARDO'S SUBDIVISION No. 12, HIDALGO COUNTY, TEXAS

**I. PROJECT LOCATION**
**EDUARDO'S SUBDIVISION No. 12 consists of 38 single-family residential lots & 2 commercial lots and is comprised of a 15.00 acre tract of land being all of Lot 179 and the south 5.00 acres out of Lot 181, Bentsen Groves Subdivision, Hidalgo County, Texas, according to map or plat thereof recorded in Volume 7, Page 13, Map Records, Hidalgo County, Texas. The property is located on the east side of Bentsen Palm Road and approximately 5,275.00 L.F. south from Mile 5 Road.**

**II. FLOOD PLAIN**
**The subject tract lies in Flood Zone "X"(areas of 500-year flood plain) and in Flood Zone "A" (areas 100-year flood with no base flood elevation determined) in accordance with F.E.MA.-F.I.R.M. Community Panel No. 480334 0290 D, Map Revised June 6, 2000 (** ***Refer to attached FEMA FIRM Map*** **). The portion of this property that lies within Flood Zone "A"has been filled to a minimum elevation of 182.90 and re-designated as Flood Zone "X" as per FEMA LOMR-F letter/case 13-06-2310A, dated May 9, 2013.**

**III. SOIL CONDITIONS**
**A review of the Soil Survey of Hidalgo County, prepared by the USDA Soil Conservation Service, indicates the soil of the subject property is catalogued as #3 of the Brennan series, a nearly level soil on convex uplands.**
**The surface layer of #3 Brennan soil is characteristically fine sandy loam, from 0 to 13 inches (13in. thick), well drained, and permeability is moderately rapid (2.0 to 6.0 in/hr with soil saturated). The subsoil is characteristically sandy clay loam, from 13 to 65 inches (52 in. thick), well drained, and permeability is moderate (0.6 to 2.0 in/hr with soil saturated). This soil is listed in Hydrologic Group B. Soils of this hydrologic group do not contain soil layers that impede or obstruct the downward movement of water though the soil (permeability). Surface runoff is medium.**

**IV. EXISTING CONDITIONS**
**The subject tract is currently undeveloped, vacant land. USGS topographic quadrant maps indicate that the existing terrain of the general area has a slight slope grade (approximately 0-0.5%) towards the east. Existing runoff from the subject property is by form of sheet runoff flowing overland in an easterly direction from basin overflow to basin overflow and will ultimately outfall into the West Main Drain Ditch. In accordance with the drainage policies of Hidalgo County, the Rationale Method was employed to determine existing storm water runoff of a 25-year storm event for this proposed subdivision as Q= 10.37 cubic feet per second . Storm water runoff in this general area is naturally directed towards a dedicated drainage pond area located at the southwest corner of La Homa Meadows Phase II; more particularly, midway between La Homa Road and Bentsen Palm Drive on the north side of Mile 4 Road.**

**V. VI. CERTIFICATION:PROPOSED CONDITIONS**
**A 25-yr storm water detention pond with a total volume of 34,949 cubic-feet (0.8023 acre feet) will be constructed within the subdivision. Said pond shall be constructed in accordance with the rules and regulations of Hidalgo County referenced to such ponds. Storm water runoff shall be directed towards the central street and shall be intercepted by curb inlets to be located approximately 600 feet east of Bentsen Palm Drive, being approximately 700 feet west of said pond. An 24" drain line shall connect said curb inlets to said pond and an 8" "bleeder" line will be installed from said pond approximately 100 feet to the northeast to connect to the previously mentioned La Homa Meadows Phase II drainage pond area. Also, a proposed 18" overflow relief pipeline will be installed along the north side of Mile 4 Road right-of-way from the previously mentioned La Homa Meadows Phase II drainage pond area east to a TxDOT curb inlet on the west side of said La Homa Road.**

**VI. CERTIFICATION:**
**By my signature below, I certify that by graphical plotting this subdivision lies in Flood Zone "X"(areas of 500-year flood plain) and in Flood Zone "A" (areas 100-year flood with no base flood elevation determined) in accordance with F.E.MA.-F.I.R.M. Community Panel No. 480334 0290 D, Map Revised June 6, 2000, and that the portion of this property that lies within Flood Zone "A" has been filled to a minimum elevation of 182.90 and is re-designated as Flood Zone "X" as per FEMA LOMR-F letter/case 13-06-2310A, dated May 9, 2013.**

STATE OF TEXAS — GILBERTO A. GRACIA — 62477 — REGISTERED PROFESSIONAL ENGINEER

FINAL ENGINEERING REPORT FOR EDUARDO'S SUBDIVISION No. 12:
BY GILBERTO A. GRACIA

WATER SUPPLY: Description and Costs.

WATER SUPPLY:
EDUARDO' S SUBDIVISION No. 12 WILL BE PROVIDED WITH POTABLE WATER BY THE WATER COMPANY OF SHARYLAND WATER SUPPLY COMPANY S.W.S.C. THE SUBDIVIDER AND COMPANY S.W.S.C. SIGNED A CONTRACT BY WHICH,THE SUBDIVISION WILL RECEIVE SUFFICIENT WATER PROVISION FOR AT LEAST 30 YEARS AND S.W.S.C. HAS PROVIDED SUFFICIENT DOCUMENTATION TO ESTABLISH THE LONG TERM QUANTITY AND QUALITY OF THE AVAILABLE WATER SUPPLIES TO SERVE THE FULL DEVELOPMENT OF THIS SUBDIVISION.

S.W.S.C. HAS AN EXISTING 6" DIAMETER LINE RUNNING WITHING THE BENTSEN PALM RD ROW ON THE EAST SIDE OF BENTSEN ROAD.

THE WATER SYSTEM FOR EDUARDO' S No. 12 CONSISTS OF A 8" DIAMETER WATER LINE THAT TAPS INTO THE EXISTING LINE OF 6" DIAMETER THAT RUNS WITHIN ZARKANA DRIVE ROW LOCATED AT THE EAST SIDE OF BENTSEN ROAD, THE PROPOSED 8" DIAMETER LINE RUNS TOWARDS THE EAST APPROXIMATELY 1292 FEET ON THE NORTH SIDE OF NEVADA DR.

FROM THE 8" DIAMETER WATER LINE, EIGHTEEN (18) DOUBLE SERVICES OF 1" AND TWO (2) SINGLE SERVICE OF 1" OF DIAMETER ARE COMING OUT OF THIS LINE. SAID SERVICES TERMINATE AT THE WATER METERS OF EACH LOT FOR A TOTAL OF THIRTY EIGHT (38) WATER SERVICES. THE 8" DIAMETER LINE, THE DOUBLE SERVICES LINES, AND THE WATER METER BOXES WILL BE INSTALLED AT A TOTAL COST OF $32,888.00, OR $865.47 PER LOT. IN ADDITION THE SUBDIVIDER WILL PAY S.W.S.C. THE AMOUNT OF $95,000.00 WHICH COVERS THE $2,500.00 COST PER LOT STATED IN THE 30 YR WATER SERVICE AGREEMENT

WHICH SUM REPRESENTS THE TOTAL COST OF WATER METER, RIGHTS ACQUICITION FEES, AND ALL MEMBERSHIP OR OTHER FEES ASSOCIATED WITH CONNECTING THE INDIVIDUAL LOTS IN THE SUBDIVISION TO S.C.S.C. UPON REQUEST BY THE LOT OWNER, S.W.S.C. WILL PROMPTLY INSTALL AT No.CHARGE THE WATER METER FOR THAT LOT. THE ENTIRE WATER FACILITIES HAVE BEEN APPROVED BY S.W.S.C. AND SAID DISTRIBUTION SYSTEM IS OPERABLE AS OF THE DATE OF THE RECORDING OF THE PLAT.

SANITARY SEWAGE DESCRIPTION AND EXPENSES:
THE SANITARY SEWAGE SYSTEM OF EDUARDO' S SUBDIVISION No. 12 CONSISTS OF A 8" DIAMETER SEWER LINE THAT TAPS INTO THE EXISTING LINE OF 8" DIAMETER THAT RUNS WITHIN THE BENTSEN PALM RD ROW. THE PROPOSED 8" DIAMETER LINE RUNS TOWARDS THE EAST APPROXIMATELY 1292 FEET ON THE SOUTH SIDE OF NEVADA DR. SAID SERVICES TERMINATE AT THE SEWER METERS OF EACH LOT FOR A TOTAL OF THIRTY EIGHT (38) SANITARY SEWER SERVICES.

CERTIFICATION: WITH MY SIGNATURE, I CERTIFY THAT THE SERVICES AND SYSTEMS OF WATER AND SEWAGE SERVICE FACILITIES DESCRIBED IN THIS DOCUMENT, FULFILL THE MODEL SUBDIVISION RULES ADOPTED IN SECTION 16.343 OF TEXAS WATER CODE. I ALSO CERTIFY THAT THE EXPENSES TO INSTALL THE DRAINAGE AND WATER SYSTEMS ARE THE FOLLOWING: THE LINE OF 6" OF DIAMETER, THE LINES OF DOUBLE SERVICES OF 1" , THE LINES OF SINGLE SERVICES OF 3/4" AND THE WATER METERS BOXES WERE SETTLED TO A TOTAL COST OF $32,888.00 OR $865.47 PER LOT. THE OWNER OF THE SUBDIVISION ADDITIONALLY PAID TO S.W.S.C. THE AMOUNT OF $95,000.00 OR $ 2,500.00 PER LOT ACCORDING TO THE CONTRACT AND THE DOCUMENT OF 30 YEARS OF POTABLE WATER SERVICE, THAT COVERS THE WATER METER WITH WATER, (INCLUDING COSTS OF THE INSTALLATION OF EACH WATER METER, TARIFFS OF CONNECTION AND MEMBERSHIPS).

WATER:
THE WATER SYSTEM IS COMPLETELY CONSTRUCTED, WITH THE INSTALLATION OF THE WATER METERS, THE GRAND TOTAL COST IS US $3,365.47 PER LOT WHICH IS EQUIVALENT TO US $127,888.00 FOR THE WHOLE SUBDIVISION.

SEWAGE:
I ALSO CERTIFY THAT THE SANITARY SEWER SYSTEM COST US $1.010,52 EACH AND A TOTAL COST OF US$ 38,400.00 FOR THE WHOLE SUBDIVISION.

STATE OF TEXAS — GILBERTO A. GRACIA — 62477 — REGISTERED PROFESSIONAL ENGINEER

GILBERTO A. GRACIA P.E.–No. 62477 DATE

EDUARDO'S SUBDIVISIÓN No. 12.
POR: GILBERTO A. GRACIA

PROVISIÓN DE AGUA: DESCRIPCIÓN, Y GASTOS.

EDUARDO'S SUBDIVISIÓN No. 12 SERÁ PROVISTA DE AGUA POTABLE POR LA COMPAÑÍA DE SHARYLAND WATER SUPPLY COMPANY (S.W.S.C.). EL SUBDIVIDOR Y LA COMPAÑÍA DE AGUA, S.W.S.C FIRMARON UN CONTRATO POR EL CUAL LA SUBDIVISIÓN RECIBIRÁ PROVISIÓN DE AGUA SUFICIENTE POR LOS PRÓXIMOS 30 AÑOS Y S.W.S.C. PRESENTO SUFICIENTE DOCUMENTACIÓN PARA ESTABLECER A LARGO PLAZO LA CANTIDAD Y CALIDAD DE AGUA ABASTECIDA PARA SERVIR EL FUTURO DESARROLLO DE LA SUBDIVISIÓN.

S.W.S.C TIENE UNA LÍNEA DE 6" DE DIÁMETRO EXISTENTE, CORRIENDO POR EL LADO ESTE DE LA CALLE BENTSEN RD. LA LÍNEA DE AGUA PRINCIPAL DE ESTE DESARROLLO CONSISTE EN LÍNEAS DE AGUA DE 8" DE DIÁMETRO DE PVC.

EL SISTEMA EXISTENTE DE AGUA PARA EDUARDO'S No. 12 CONSISTE DE UNA LÍNEA DE AGUA DE 8" DE DIÁMETRO QUE CONECTA CON LA LÍNEA EXISTENTE DE 6" DE DIÁMETRO QUE CORRE DENTRO DE UN ROW EN EL LADO ESTE DE BENTSEN ROAD, LA LÍNEA PROPUESTA DE 8" DE DIÁMETRO CORRE HACIA EL ESTE APROXIMADAMENTE 1292 PIES POR EL LADO NORTE DE LA CALLE NEVADA DR. Y CORRE DENTRO DE UN ROW DE LA CALLE NEVADA DRIVE EN EL LADO NORTE.

DE LA LÍNEA DE 8" DE DIÁMETRO SE DESPRENDEN DICIOCHO (18) SERVICIOS DOBLES DE 1" DE DIÁMETRO Y DOS (2) SERVICIOS SENCILLOS DE 1" DE DIAMETRO, QUE VAN HACIA LOS MEDIDORES DE CADA LOTE. PARA UN TOTAL DE TREINTAOCHO (38) SERVICIOS DE AGUA.

LA LÍNEA DE 8" DE DIÁMETRO, LAS LÍNEAS DE SERVICIOS DOBLES DE 1", Y LAS CAJAS DE LOS MEDIDORES SE INSTALARAN A UN COSTO TOTAL DE US $32,888.00 DE LOS CUALES SE CUBRIÓ US $865.47 POR LOTE. EL DUEÑO DE LA SUBDIVISIÓN PAGO ADICIONALMENTE A S.W.S.C. LA CANTIDAD DE $95,000.00 O $ 2,500.00 POR LOTE DE ACUERDO AL CONTRATO Y DOCUMENTO DE 30 AÑOS DE SERVICIO DE AGUA POTABLE QUE CUBRE EL MEDIDOR DE AGUA, (INCLUYENDO COSTOS DE LA INSTALACIÓN DE CADA MEDIDOR, TARIFAS DE CONEXIÓN Y MEMBRESIAS). CUANDO EL DUEÑO DEL SOLAR SOLICITE UN MEDIDOR DE AGUA, LA COMPAÑÍA S.W.S.C. INSTALARA EL MEDIDOR SIN COSTO ALGUNO AL DUEÑO. EL SISTEMA DE AGUA ESTARÁ EN FUNCIONAMIENTO COMPLETO ANTES O EN LA FECHA, EN LA CUAL LA SUBDIVISIÓN SEA REGISTRADA EN EL CONDADO DE HIDALGO.

DRENAJE SANITARIO: DESCRIPCIÓN Y GASTOS.

EL DRENAJE SANITARIO DE EDUARDO'S SUBDIVISIÓN No. 12 TENDRÁ CLOACAS Y CONSISTIRA DE UNA LINEA DE 8" DE DIAMETRO QUE SE CONECTARA A LA LINEA EXISTENTE QUE CORRE POR EL LADO ESTE DE LA CALLE BENTSEN RD DENTRO DE EL DERECHO DE PASO. LA LINEA PROPUESTA DE 8" DE DIAMETRO CORRE HACIA EL ESTE APROXIMADAMENTE 1292 PIES EN EL LADO SUR DE LA CALLE NEVADA DR. DICHO SERVICIOS TERMINA EN LOS MEDIDORES DE CLOACA DE CADA LOTE INDIVIDUAL PARA LLEGAR A UN TOTAL DE TREINTAOCHO (38) SERVICIOS DE CLOACA.

EL COSTO ESTIMADO DE LA INSTALACIÓN DE UN SISTEMA DE CLOACA PARA UN LOTE INDIVIDUAL ES DE US$ 1,010.52 EL CUAL DA UN COSTO TOTAL DE $ 38,400.00.
CERTIFICACIÓN:

CON MI FIRMA CERTIFICO QUE: LOS SERVICIOS Y SISTEMAS DE AGUA Y DE DRENAJE SANITARIO, DESCRITOS EN ESTE DOCUMENTO, CUMPLEN CON LOS MODELOS Y LAS REGLAS DE SUBDIVISIÓN (LAS REGLAS GOBERNANDO A LAS SUBDIVISIONES), ADOPTADAS EN LA SECCIÓN 16.343 DEL TEXAS WATER CODE (CÓDIGO DE AGUA DE TEXAS). CERTIFICO QUE LOS GASTOS PARA INSTALAR LOS SISTEMAS DE AGUA Y DE DRENAJE SON LOS SIGUIENTES:

AGUA: EL SISTEMA DE AGUA SERÁ TOTALMENTE CONSTRUIDO, CON LA INSTALACIÓN DE LOS MEDIDORES DE AGUA A $3,365.47 POR LOTE. LO CUAL EQUIVALE A EL GRAN COSTO TOTAL DE $127,888.00 PARA LA SUBDIVISIÓN COMPLETA.

DRENAJE SANITARIO: SE AFIRMA QUE EL SYSTEMA DE CLOACAS COSTARON US$ 1,010.52 CADA UNA Y UN COSTO TOTAL DE US$ 38,400.00 PARA TODA LA SUBDIVISIÓN.

STATE OF TEXAS — GILBERTO A. GRACIA — 62477 — REGISTERED PROFESSIONAL ENGINEER

GILBERTO A. GRACIA P.E.–No. 62477 DATE

This seal appearing on this document was authorized by Gilberto A. Gracia, P.E. No. 62477 on the above designated date.

SUBDIVIDER CERTIFICATION:
1.– BY COMPLETING THE IMPROVEMENTS DESCRIBED ON THE PLAT, SUBDIVIDER WILL COMPLY WITH MINIMUM STATE STANDARDS AND THAT (a.) WATER QUALITY AND CONNECTIONS, INCLUDING WATER METERS, TO THE LOTS MEET SUCH STANDARDS, AND (b.) SEWER CONNECTIONS TO THE LOTS OR SEPTIC TANKS MEET OR WILL MEET SUCH STANDARDS AND WILL BE BY STATE AND COUNTY REGULATIONS.

SUBDIVIDER STATEMENT:
1.– I(WE) DIANA L. IZAGUIRRE SUBDIVIDER OF EDUARDO'S SUBDIVISION No.12 HEREBY CERTIFY SEWER PERMITS HAVE BEEN PAID AND ARE ON FILE WITH THE HCHD AND ANY ADEQUATE DRINKING WATER SOURCE IS IMMEDIATELY AVAILABLE TO EACH LOT OF THE TYPE AND QUALITY TO ENABLE EACH PERSON PURCHASING A LOT TO HAVE ADEQUATE WATER TO COMPLY WITH THE REGULATIONS AND THE LAWS OF THE STATE AS REQUIRED BY STATE AND COUNTY REGULATIONS.

DIANA L. IZAGUIRRE
LAS DIANAS LAND DEVELOPMENT, LLC.

STATE OF TEXAS
COUNTY OF HIDALGO
BEFORE ME, the undersigned notary public, on this day personally appeared DIANA L. IZAGUIRRE, proved to me through her Texas Department of Public Safety Driver License to be the person whose name is subscribed to the foregoing instrumentm who, being by me first duly sworn, declared that the statements therein are true and correct and acknowledged that she executed the same for the purposed and consideration thereby expressed.

Given under my hand and seal of office this _____ day of _____, 2012.

NOTARY PUBLIC – STATE OF TEXAS

GENERAL CONSTRUCTION NOTES:

1. ALL PROPOSED WATER LINES TO BE C–900 DR–25.
2. CONTRACTOR TO INSTALL 1" SERVICE CONNECTIONS TO EVERY LOT & ALL SERVICES TO BE LOCATED IN FRONT OF LOTS APPROXIMATELY 1.0 FOOT FROM LOT LINE. CONTRACTOR TO UTILIZE SINGLE & DOUBLE SERVICE CONNECTIONS AS NEEDED.
3. CONTRACTOR TO NOTIFY ALL UTILITY COMPANIES FOR VERIFICATION OF CONFLICTS PRIOR TO CONSTRUCTION ON SITE.
4. SEE WATER DETAIL SHEET FOR MORE INFORMATION.
5. ALL LOTS SHALL BE PROVIDED WITH SERVICE STUBOUTS AND SAID SEVICE LOCATIONS SHALL BE MARKED ON THE CURB AND GUTTER WITH A "W" NOT LESS THAN 1 1/2" IN SIZE OR IN A MANNER APPROVED BY THE CITY AND SHALL BE 12" BELOW FINISH GRADE ELEVATION.
6. THE RESIDENTIAL LOTS SHOULD REFLECT SERVICE BY A 3/4" METER.

**STATE OF TE AS**

**COUNTY OF HIDALGO**

**INTERLOCAL COOPERATION AGREEMENT**
**BETWEEN HIDALGO COUNTYAND**
**HIDALGO COUNTY REGIONAL MOBILITY AUTHORITY**

**THIS AGREEMENT** is made effective as of the day of, 2014 by and between **HIDALGO COUNTY ,** hereinafter referred to as the "County", and **HIDALGO COUNTY REGIONAL MOBILITY AUTHORITY,** hereinafter referred to as the "RMA", pursuant to the provisions of the Texas Interlocal Cooperation Act, as follows:

**WHEREAS**, the County is a political subdivision initially created under the provisions of Article III, Section 52, of the Texas Constitution, pursuant to an election held within the territory affected, on April 9, 1908, and subsequently converted to be operated under the provisions of Article XVI, Section 59 thereof, to address drainage and flooding planning and construction in Hidalgo County (the "County");

**WHEREAS**, the RMA is a regional mobility authority created and operating under Chapter 370, Texas Transportation Code to address mobility needs in the County;

**WHEREAS,** the RMA is in need of certain right-of-way acquisition services required for a proposed roadway (collectively, the "Right of Way Services"), as further described in Exhibit B attached hereto;

**WHEREAS**, a portion of the proposed roadway for which the Right of Way Acquisition Services are proposed is located within the County and by partnering through this Agreement, the parties will be able to share expenses and economics in delivering the proposed services;

**WHEREAS**, the County, through its own forces or third party contractors is available and willing to assist the RMA by providing such Right of Way Acquisition Services to the RMA;

**WHEREAS**, the parties hereto have determined it is beneficial to both parties to enter into this Agreement and that the benefits to each are reasonable; and

**WHEREAS**, the County and the RMA are authorized to enter into this Agreement pursuant to the Interlocal Cooperation Act, Texas Government Code Section 791.001 et. seq., (the "Act"), which authorizes local governments to contract with each other to perform governmental functions and services under the terms of the Act.

**NOW THEREFORE,** the County and the RMA, in consideration of the mutual covenants expressed hereinafter, agree as follows:

1. **RMA Responsi ilities.**

   A. The RMA will provide to the Countya right of way strip map indicating where right of way acquisition services are required. The right of way strip map for said roadway will be provided in a timely manner as to allow the County sufficient time to acquire right of way as required by the RMA so as not to delay the development schedule of the RMA. Projected schedule for development of RMA projects and associated right of way acquisition date shall be attached as Exhibit A to this agreement.

   B. The RMA will provide to the County any and all maps, parcel sketches, title reports, appraisals, deeds and title commitments required by the RMA for RMA's proposed roadway relating to acquisition of right of way as specified above.

   C. The RMA, after receiving notice from the County of the approval of the RMA's right of way acquisition schedule, may issue a notice to proceed to the County for the Right of Way Acquisition Services.

   D. The RMA will approve all final offers to acquire right of way for the project and will prepare all closing documents. The RMA will also process all payments for right of way acquired.

2. **County Responsi ilities.**

   A. County, within seven (7) days after review of information and documentation from the RMA, may request clarification and/or additional information and documents from the RMA prior to approving the RMA's acquisition schedule for the proposed roadway.

   B. County will adhere to the Texas Department of Transportation State Purchase of Right of Way Policies and Procedures during the acquisition process.

   C. County shall bill the RMA at a cost per parcel for Right of Way Acquisition Services and shall be attached as Exhibit B.

   D. Upon receipt of a written notice to proceed by the RMA, the County shall begin performing the Right of Way Acquisition Services for the RMA.,

E. On or before the 15th day of each month, County shall provide the RMA with a monthly progress report of the preceding month, including all activities carried out in pursuit of this Agreement.

. **Payment or Ser ices.**

A. The County shall present aRight of Way Acquisition Services costs to the RMA on a periodic basis for payment. The cost for the services shall be on a per parcel basisand shall be reimbursed to the County by the RMA within 30 days of receipt of the payment request.

4. **Term and Termination.**

A. This Agreement shall be for a period of two (2) years after the date first written above and may be renewed for three (3) additional one (1) year terms under the same terms and conditions upon written agreement between the parties.

B. Should either party elect to terminate this Agreement prior to the end of the term and before the Engineering Services and Construction Services are complete, the County shall perform a final reconciliation upon notice of termination based on work completed through the date of such notice of termination.

5. **Miscellaneous.**

A. **Con lict o Applica le La** . Nothing in this Agreement shall be construed so as to require the commission of any act contrary to law, and whenever there is any conflict between any provision of this Agreement and any present or future law, ordinance, or administrative, executive or judicial regulation, order or decree, or amendment thereof, contrary to which the parties have no legal right to contract, the later shall prevail, but in such event the affected provision or provisions of this Agreement shall be modified only to the extent necessary to bring them within the legal requirements and only during the time such conflict exists.

B. **No Wai er.** No waiver by any party hereto of any breach of any provision of the Agreement shall be deemed to be a waiver of any preceding or succeeding breach of the same or any other provision hereof.

C. **Entire Agreement.** This Agreement contains the entire contract between the parties hereto and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth

herein. This Agreement may be modified or amended only by agreement in writing executed by County and the RMA, and not otherwise.

D. **TE AS LAW TO APPLY.** THIS AGREEMENT SHALL BE CONSTRUED UNDER AND IN ACCORDANCE WITH THE LAWS OF THE STATE OF TEXAS, AND ALL OBLIGATIONS OF THE PARTIES CREATED HEREUNDER ARE PERFORMABLE IN HIDALGO COUNTY, TEXAS. THE PARTIES HEREBY CONSENT TO PERSONAL JURISDICTION IN HIDALGO COUNTY, TEXAS.

E. **Notice.** Except as may be otherwise specifically provided in this Agreement, all notices, demands, requests or communication required or permitted hereunder shall be in writing and shall either be (i) personally delivered against a written receipt, or (ii) sent by registered or certified mail, return receipt requested, postage prepaid and addressed to the parties at the addresses set forth below, or at such other addresses as may have been theretofore specified by written notice delivered in accordance herewith:

| | |
|---|---|
| If to Hidalgo County: | Hidalgo County<br>Attention: Ramon Garcia, County Judge<br>902 N. Doolittle Road<br>Edinburg, Texas 78539 |
| If to RMA: | Hidalgo County Regional Mobility Authority<br>Attention: Pilar Rodriguez, P.E., Executive Director<br>118 S. Cage Blvd. 4th Floor<br>Pharr, Texas 78577 |

Each notice, demand, request or communication which shall be delivered or mailed in the manner described above shall be deemed sufficiently given for all purposes at such time as it is personally delivered to the addressee or, if mailed, at such time as it is deposited in the United States mail.

F. **Additional Documents.** The parties hereto covenant and agree that they will execute such other and further instruments and documents as are or may become necessary or convenient to effectuate and carry out the terms of this Agreement..

G. **Successors.** This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective, legal representatives, successors, and assigns where permitted by this Agreement.

H. **Assignment.** This Agreement shall not be assignable.

I. **Headings.** The headings and captions contained in this Agreement are solely for convenience reference and shall not be deemed to affect the meaning or interpretation of any provision of paragraph hereof.

J. **Gender and Num er.** All pronouns used in this Agreement shall include the other gender, whether used in the masculine, feminine or neuter gender, and singular shall include the plural whenever and so often as may be appropriate.

K. **Aut ority to Execute.** The execution and performance of this Agreement by County and the RMA have been duly authorized by all necessary laws, resolutions or corporate action, and this Agreement constitutes the valid and enforceable obligations of County and the RMA in accordance with its terms.

L. **Go ernmental Purpose.** Each party hereto is entering into this Agreement for the purpose of providing governmental services or functions and will pay for such services out of current revenues available to the paying party as herein provided.

M. **Commitment o Current Re enues Only.** In the event that, during any term hereof, the governing body of any party does not appropriate sufficient funds to meet the obligations of such party under this Agreement, then any party may terminate this Agreement upon sixty (60) days written notice to the other party. Each of the parties hereto agrees, however, to use its best efforts to secure funds necessary for the continued performance of this Agreement. The parties intend this provision to be a continuing right to terminate this Agreement at the expiration of each budget period of each party hereto pursuant to the provisions of Tex. Loc. Govt. Code Ann. §271.903.

N. **Dispute Resolution.** Any dispute between the parties concerning the services or costs hereunder shall be settled by mediation. If mediation is unsuccessful, then the parties shall go to trial in a district court in Hidalgo County under Texas State law.

O. **Indemni ication**. To the extent permitted by law, the County shall save and hold harmless the RMA and its officers and employees from all claims, liability, loss (including property damage or personal injury) and expenses incurred due to the activities of itself, its agents, its subcontractors or employees performed under this Agreement and which are caused by or result from error, omission, or negligent act, including

any violation of any statute, ordinance or regulation by the County or any person employed or engaged by the County, and the defense of any such claims, liability, action or loss. To the extent permitted by law, the RMA shall save and hold harmless the County and its officers and employees from all claims, liability, loss (including property damage or personal injury), and expenses incurred due to the activities of itself, its agents, its subcontractors or employees performed under this Agreement and which are caused by or result from error, omission, or negligent act, including any violation of any statute, ordinance or regulation by the RMA or any person employed or engaged by the RMA, and the defense of any such claims, liability, action or loss.

**RE: Advance Funding Agreement**
**Voluntary Local Government Contributions**
**FM 1925 from Kenyon Road to FM 907**
**CSJ: 1803-02-028**

Dear Judge Garcia:

Attached for your signature please find two originals of the Advance Funding Agreement for Voluntary Local Government Contributions. This agreement addresses the County's commitment to donate the project's schematic, surveying, environmental document and plans, specifications and estimate (PS&E) for the widening of FM 1925 from Kenyon Road to FM 907.

Thank you for the County's proactive efforts and partnership approach in helping with the improvements to FM 1925. Please sign and return both signed originals to the attention of Mr. Homer Bazan, Jr., our Director of Transportation Planning and Development, at the above address for further processing. We will return one original once executed. Please contact Mr. Bazan or me at 702-6100 if you have any questions regarding this submission.

Sincerely,

Toribio Garza, Jr., P.E.
Pharr District Engineer

**STATE OF TEXAS** §

**COUNTY OF TRAVIS** §

# ADVANCE FUNDING AGREEMENT FOR VOLUNTARY LOCAL GOVERNMENT CONTRIBUTIONS TO TRANSPORTATION IMPROVEMENT PROJECTS WITH NO REQUIRED MATCH

**THIS AGREEMENT** is made by and between the State of Texas, acting by and through the Texas Department of Transportation, called the "State", and the **Hidalgo County,** acting by and through its duly authorized officials, called the "Local Government."

## WITNESSETH

**WHEREAS,** Transportation Code, Chapters 201, 221, and 361, authorize the State to lay out, construct, maintain, and operate a system of streets, roads, and highways that comprise the State Highway System; and,

**WHEREAS,** Government Code, Chapter 791, and Transportation Code, §201.209 and Chapter 221, authorize the State to contract with municipalities and political subdivisions; and,

**WHEREAS,** Commission Minute Order Number 113675 authorizes the State to undertake and complete a highway improvement generally described as the widening of FM 1925 to four lanes; and,

**WHEREAS,** the Local Government has requested that the State allow the Local Government to participate in said improvement by funding that portion of the improvement described as **schematic, surveying, environmental document, plans, specifications and estimate (PS&E) for the widening of FM 1925 to a four lane divided urban facility from Kenyon Road to FM 907**, called the "Project"; and,

**WHEREAS,** the State has determined that such participation is in the best interest of the citizens of the State;

**NOW, THEREFORE**, in consideration of the premises and of the mutual covenants and agreements of the parties hereto, to be by them respectively kept and performed as hereinafter set forth, the State and the Local Government do agree as follows:

## AGREEMENT

1. **Time Period Covered**
   This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed, and the State and the Local Government will consider it to be in full force and effect until the Project described in this agreement has been completed and accepted by all parties or unless terminated, as provided for by this agreement.

2. **Project Funding and Work Responsibilities**
   **A.** The State will authorize the performance of only those Project items of work which the Local Government has requested and has agreed to pay for as described in Attachment A, Payment Provision and Work Responsibilities which is attached to and made a part of this contract. In addition to identifying those items of work paid for by payments to the State, Attachment A,

Payment Provision and Work Responsibilities, also specifies those Project items of work that are the responsibility of the Local Government and will be carried out and completed by the Local Government, at no cost to the State.

**B.** At least sixty (60) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs.

**C.** In the event that the State determines that additional funding by the Local Government is required at any time during the Project, the State will notify the Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.

**D.** Whenever funds are paid by the Local Government to the State under this agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation Trust Fund." The check or warrant shall be deposited by the State in an escrow account to be managed by the State. Funds in the escrow account may only be applied by the State to the Project. If, after final Project accounting, excess funds remain in the escrow account, those funds may be applied by the State to the Local Government's contractual obligations to the State under another advance funding agreement with approval by appropriate personnel of the Local Government.

**3. Right of Access**

If the Local Government is the owner of any part of the Project site, the Local Government shall permit the State or its authorized representative access to the site to perform any activities required to execute the work.

**4. Adjustments Outside the Project Site**

The Local Government will provide for all necessary right of way and utility adjustments needed for performance of the work on sites not owned or to be acquired by the State.

**5. Responsibilities of the Parties**

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

**6. Document and Information Exchange**

The Local Government agrees to electronically deliver to the State all general notes, specifications, contract provision requirements and related documentation in a Microsoft® Word or similar document. If requested by the State, the Local Government will use the State's document template. The Local Government shall also provide a detailed construction time estimate including types of activities and month in the format required by the State. This requirement applies whether the local government creates the documents with its own forces or by hiring a consultant or professional provider. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

**7. Interest**

The State will not pay interest on funds provided by the Local Government. Funds provided by the Local Government will be deposited into, and retained in, the State Treasury.

**8. Inspection and Conduct of Work**

Unless otherwise specifically stated in Attachment A, Payment Provision and Work Responsibilities, to this contract, the State will supervise and inspect all work performed hereunder and provide such engineering inspection and testing services as may be required to ensure that the Project is accomplished in accordance with the approved plans and specifications. All correspondence and instructions to the contractor performing the work will be the sole responsibility of the State. Unless otherwise specifically stated in Attachment A to this contract, all work will be performed in accordance with the Standard Specifications for Construction and Maintenance of Highways, Streets, and Bridges adopted by the State and incorporated in this agreement by reference, or special specifications approved by the State.

**9. Increased Costs**

**A.** In the event it is determined that the funding provided by the Local Government will be insufficient to cover the State's cost for performance of the Local Government's requested work, the Local Government will pay to the State the additional funds necessary to cover the anticipated additional cost. The State shall send the Local Government a written notification stating the amount of additional funding needed and stating the reasons for the needed additional funds. The Local Government shall pay the funds to the State within thirty (30) days of the written notification, unless otherwise agreed to by all parties to this agreement. If the Local Government cannot pay the additional funds, this contract shall be mutually terminated in accordance with Article 11 – Termination. If this is a fixed price agreement as specified in Attachment A, Payment Provision and Work Responsibilities, this provision shall only apply in the event changed site conditions are discovered or as mutually agreed upon by the State and the Local Government.

**B.** If any existing or future local ordinances, commissioners court orders, rules, policies, or other directives, including but not limited to outdoor advertising billboards and storm water drainage facility requirements, are more restrictive than State or Federal Regulations, or if any other locally proposed changes, including but not limited to plats or replats, result in increased costs, then any increased costs associated with the ordinances or changes will be paid by the Local Government. The cost of providing right of way acquired by the State shall mean the total expenses in acquiring the property interests either through negotiations or eminent domain proceedings, including but not limited to expenses related to relocation, removal, and adjustment of eligible utilities.

**10. Maintenance**

Upon completion of the Project, the State will assume responsibility for the maintenance of the completed Project unless otherwise specified in Attachment A to this agreement.

**11. Termination**

**A.** This agreement may be terminated in the following manner:

1. By mutual written agreement and consent of both parties;
2. By either party upon the failure of the other party to fulfill the obligations set forth in this agreement; or
3. By the State if it determines that the performance of the Project is not in the best interest of the State.

B. If the agreement is terminated in accordance with the above provisions, the Local Government will be responsible for the payment of Project costs incurred by the State on behalf of the Local Government up to the time of termination.
C. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.

**12. Notices**

All notices to either party by the other required under this agreement shall be delivered personally or sent by certified or U.S. mail, postage prepaid or sent by electronic mail, (electronic notice being permitted to the extent permitted by law but only after a separate written consent of the parties), addressed to such party at the following addresses:

| **Local Government:** | **State:** |
|---|---|
| Judge | Director of Contract Services Office |
| Hidalgo County | Texas Department of Transportation |
| PO Box 1356 | 125 E. 11th Street |
| Edinburg, Texas 78540 | Austin, Texas 78701 |

All notices shall be deemed given on the date so delivered or so deposited in the mail, unless otherwise provided in this agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that such notices shall be delivered personally or by certified U.S. mail and such request shall be honored and carried out by the other party.

**13. Sole Agreement**

In the event the terms of the agreement are in conflict with the provisions of any other existing agreements between the Local Government and the State, the latest agreement shall take precedence over the other agreements in matters related to the Project.

**14. Successors and Assigns**

The State and the Local Government each binds itself, its successors, executors, assigns, and administrators to the other party to this agreement and to the successors, executors, assigns, and administrators of such other party in respect to all covenants of this agreement.

**15. Amendments**

By mutual written consent of the parties, this agreement may be amended prior to its expiration.

**16. State Auditor**

The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under the contract or indirectly through a subcontract under the contract. Acceptance of funds directly under the contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds.

An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**17. Insurance**

If this agreement authorizes the Local Government or its contractor to perform any work on State right of way, before beginning work the entity performing the work shall provide the State with a fully executed copy of the State's Form 1560 Certificate of Insurance verifying the existence of coverage in the amounts and types specified on the Certificate of Insurance for all persons and entities working on State right of way. This coverage shall be maintained until all work on the State right of way is complete. If coverage is not maintained, all work on State right of way shall cease immediately and the State may recover damages and all costs of completing the work.

**18. Signatory Warranty**

Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

**THIS AGREEMENT IS EXECUTED** by the State and the Local Government in duplicate.

# ATTACHMENT A
## PAYMENT PROVISION AND WORK RESPONSIBILITIES

**A. Scope of Work**

The Local Government will perform the schematic, surveying, environmental document and PS&E for the widening of FM 1925 to a four lane divided urban facility from Kenyon Road to FM 907.

**B. Payment Provision**

The Local Government's participation will be limited to performing the schematic, surveying, environmental document and PS&E. The State will be responsible for the cost of the preliminary engineering and environmental direct and indirect state costs. The State has estimated the Project cost to be as follows:

| Description | Total Estimated Cost | Federal Participation | | State Participation | | Local Participation | |
|---|---|---|---|---|---|---|---|
| | | % | Cost | % | Cost | % | Cost |
| Preliminary Engineering (by LG) | $ 817,100 | 0% | $ 0 | 0% | $ 0 | 100% | $ 817,100 |
| Environmental (by LG) | $ 55,000 | 0% | $ 0 | 0% | $ 0 | 100% | $ 55,000 |
| **Subtotal** | **$ 872,100** | | **$ 0** | | **$ 0** | | **$ 872,100** |
| Preliminary Engineering Direct State Costs (7%) | $ 57,197 | 0% | $ 0 | 100% | $ 57,197 | 0% | $ 0 |
| Environmental Direct State Costs (7%) | $ 3,850 | 0% | $ 0 | 100% | $ 3,850 | 0% | $ 0 |
| Indirect State Costs (7.27%) | $ 87,022 | 0% | $ 0 | 100% | $ 87,022 | 0% | $ 0 |
| **Subtotal** | **$ 148,069** | | **$ 0** | | **$148,069** | | **$ 0** |
| **TOTAL** | **$ 1,020,169** | | **$ 0** | | **$148,069** | | **$ 872,100** |

**C. Work Responsibilities**

**1. Architectural and Engineering Services**

The Local Government has responsibility for the performance of architectural and engineering services. The engineering plans shall be developed in accordance with the applicable *State's Standard Specifications for Construction and Maintenance of Highways, Streets and Bridges* and the special specifications and special provisions related to it. For projects on the state highway system, the design shall, at a minimum conform to applicable State manuals. For projects not on the state highway system, the design shall, at a minimum, conform to applicable *American Association of State Highway and Transportation Officials* design standards. In procuring professional services, the parties to this agreement must comply with federal requirements cited in 23 CFR Part 172 if the project is federally funded and with Texas

Government Code 2254, Subchapter A, in all cases. Professional contracts for federally funded projects must conform to federal requirements, specifically including the provision for participation by Disadvantaged Business Enterprises (DBEs), ADA, and environmental matters.

2. **Environmental Assessment and Mitigation**
Development of a transportation project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.
   - **A.** The Local Government is responsible for the identification and assessment of any environmental problems associated with the development of a local project governed by this agreement.
   - **B.** The Local Government is responsible for the cost of any environmental problem's mitigation and remediation.
   - **C.** The Local Government is responsible for providing any public meetings or public hearings required for development of the environmental assessment. Public hearings will not be held prior to the approval of project schematic.
   - **D.** The Local Government is responsible for the preparation of the NEPA documents required for the environmental clearance of this Project.
   - **E.** Before the advertisement for bids, the Local Government shall provide to the State written documentation from the appropriate regulatory agency or agencies that all environmental clearances have been obtained.

REF: Submission of Agreement For Right of Way Procurement

| | |
|---|---|
| County: | Hidalgo County |
| Project: | FM 2220 |
| Limits: | From Mile 5 to FM 1924 |
| ROW CSJ: | 2094-01-044 |
| CONST CSJ: | 2094-01-038 |

Honorable Judge Garcia,

Enclosed find three (3) originals of an Agreement for Right of Way Procurement-Local Government for the above referenced right of way acquisition project.

The agreement has been modified to reflect the County's request and award of an Economically Disadvantage County (EDC) Program adjustment. The Texas Transportation Commission granted the adjustment via Minute Order No. 113345. Enclosed find a separate letter from Toribio Garza, P.E., Pharr District Engineer to your attention, which awards the County an Eighty Three Percent (83%) adjustment to the required 10% cost participation thereby resulting in a Local Government cost participation of One Point Seven Percent (1.7%) and State cost participation of Ninety Eight Point Three Percent (98.3%) for this project.

We are herein respectfully requesting that agenda action items be presented at the next most available County Commissioners meeting to consider the execution of the enclosed agreement. Once presented, approved and executed, please forward the three original executed agreements and a copy of the resolution or ordinance approving the project back to the Texas Department of Transportation. Your cost participation is $19,465.00 and is calculated by applying the 83% EDC adjustment award to the 10% Hidalgo County cost participation requirement resulting in a cost participation breakdown of 98.3 % State and 1.7% Hidalgo County. The 1.7% is then applied to the estimated cost of right of way acquisition of One Million One Hundred and Forty Five Thousand Dollars ($ 1,145,000.00).

Upon receipt of the three (3) fully executed agreements and a copy of the resolution or ordinance approving the project, we will forward the three copies of the signed and executed

agreements to our Right of Way Division Director in Austin for his review, approval and execution. We will also request that the ROW acquisition project be released.

Once we obtain the official release from the ROW Division, we will issue a written Notice of Project Release to advise Hidalgo County that the county may commence with the acquisition of the needed parcels for this project.

Your continued cooperative efforts towards the improvement of the Highway System in the State of Texas are most certainly appreciated.

Sincerely,

## AGREEMENT FOR RIGHT OF WAY PROCUREMENT

**THIS AGREEMENT** is made by and between the State of Texas, acting through the Texas Department of Transportation, called the "State", and **Hidalgo County**, Texas, acting through its duly authorized officials, called the "Local Government."

## WITNESSETH

**WHEREAS**, Texas Transportation Code §§ 201.103 and 222.052 establish that the State shall design, construct, and operate a system of highways in cooperation with local governments; and

**WHEREAS**, Texas Transportation Code § 201.209 authorizes the State and a Local Government to enter into agreements in accordance with Texas Government Code, Chapter 791; and

**WHEREAS**, the State has deemed it necessary to make certain highway improvements on Highway No. **FM 2220** from **Mile 5 Road** to **FM 1924**, and this section of highway improvements will necessitate the acquisition of certain right of way and the relocating and adjusting of utilities, called the "Project"; and

**WHEREAS**, 43 Texas Administrative Code §15.55 defines the Local Government's cost participation in acquiring the right of way and relocating or adjusting eligible utilities for the proper improvement of the State Highway System; and

**WHEREAS**, the Governing Body of the Local Government has approved entering into this agreement by resolution or ordinance dated _____, 2013, which is attached to and made a part of this agreement as Attachment A. A map showing the Project location appears in Attachment B, which is attached to and made a part of this agreement.

**NOW THEREFORE,** the State and the Local Government do agree as follows:

Not Research and Development

## AGREEMENT

1. **Agreement Period**
   This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Project is completed or unless terminated as provided below.

2. **Termination**
   This agreement shall remain in effect until the project is completed and accepted by all parties, unless:
   - **A.** The agreement is terminated in writing with the mutual consent of the parties;
   - **B.** The agreement is terminated by one party because of a breach, in which case any cost incurred because of the breach shall be paid by the breaching party; or
   - **C.** The Project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this agreement.

3. **General**
   - **A.** The Local Government agrees to proceed with acquisition of right of way and the State agrees to reimburse the Local Government for its share of the cost of the right of way, providing the acquisition and reimbursement are accomplished according to the provisions outlined in this agreement.
   - **B.** The State and the Local Government agree that acquisition of this right of way shall be in accordance with the *Texas Department of Transportation Right of Way Manual* and all applicable federal and state laws governing the acquisition of real property.
   - **C.** It is understood that the terms of this agreement shall apply to new right of way, authorized and requested by the State, which is needed and not yet dedicated, in use, or previously acquired in the name of the State or Local Government for highway, street, or road purposes. This agreement shall also apply, with regard to any existing right of way, to outstanding property interests not previously acquired and to eligible utility adjustments not previously made, as authorized and requested by the State.
   - **D.** It is further understood that if unusual circumstances develop in the right of way acquisition and they are not clearly covered by the terms of this agreement, those unusual circumstances or problems will be resolved by mutual agreement between the State and the Local Government.

4. **Local Project Sources and Uses of Funds**
   - **A.** The total estimated cost of the Project is shown in Attachment C, Project Budget Estimate, which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Governments, or other parties are shown in Attachment C. The State will pay for only those project costs that have been approved by the Texas Transportation Commission. If Federal funding is

included, the State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

**B.** If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation.* The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.

**C.** The Project cost estimate in Attachment C shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property and (2) costs of utility work.

**D.** The State will be responsible for securing the Federal and State share of the funding required for the development of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

**E.** The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, including any overruns in excess of the approved local project budget unless otherwise provided for in this agreement or approved otherwise in an amendment to this agreement.

**F.** In the event any existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive, including, but not limited to, outdoor advertising or storm water drainage facility requirements, is more restrictive than State or federal regulations, or any other locally proposed change, including, but not limited to, plats or re-plats, results in any increased costs to the State, then the Local Government will pay one hundred percent (100%) of all those increased costs, even if the applicable county qualifies as an Economically Disadvantaged County (EDC). The amount of the increased costs associated with the existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive will be determined by the State at its sole discretion.

**G.** If the Local government is an EDC and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

H. Payment under this contract beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this contract shall be terminated immediately with no liability to either party.

I. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

**5. Location Surveys and Preparation of Right of Way Data**

The State, without cost to the Local Government, will perform the necessary preliminary engineering and title investigation in order to supply to the Local Government the data and instruments necessary to obtain acceptable title to the desired right of way.

**6. Determination of Right of Way Values**

The Local Government agrees to make a determination of property values for each right of way parcel by methods acceptable to the State and to submit to the State a tabulation of those values, signed by the appropriate Local Government representative. The tabulation shall list the parcel numbers, ownership, acreage, and recommended compensation. Compensation shall be shown in the component parts of land taken, itemization of improvements taken, damages (if any), and the amounts by which the total compensation will be reduced if the owner retains improvements. This tabulation shall be accompanied by an explanation to support the determined values, together with a copy of information or reports used in arriving at all determined values. This work will be performed by the Local Government at its expense without cost participation by the State. The State will review the data submitted and may base its reimbursement on the values that are determined by this review. The State, however, reserves the right to perform at its own expense any additional investigation, including supplemental appraisal work by State employees or by employment of fee appraisers, deemed necessary for determination of values to constitute the basis for State reimbursement. The parties may waive the requirement that the Local Government submit to the State property value determinations for any part of the required right of way by a writing signed by both parties. In instances of a waiver, the State, in its discretion, will make a determination of values to constitute the basis for State reimbursement.

**7. Negotiations**

The State will notify the Local Government as soon as possible as to the State's determination of value. Negotiation and settlement with the property owner will be the responsibility of the Local Government without participation by the State; however, the Local Government will notify the State immediately prior to closing the transaction so that a current title investigation may be made to determine if there has been any change in the title. The Local Government will deliver properly executed instruments of conveyance that,

together with any curative instruments found to be necessary as a result of the State's title investigation, will properly vest good and indefeasible title in the State for each right of way parcel involved. The Local Government will also deliver to the State an owner's policy of title insurance for each parcel, except as otherwise specifically approved by the State. Upon payment to the property owner of the agreed purchase price, the Local Government is authorized and directed to secure for the State possession of each parcel in accordance with all applicable Federal and State laws governing relocation assistance, notices to vacate, and forcible detainer. The costs incidental to negotiation, recording the right of way instruments, and securing possession of the parcels will be the responsibility of the Local Government. The cost of title insurance, closing services, and all costs of relocation assistance as authorized by applicable Federal and State laws will be the responsibility of the State.

8. **Administrative Settlements**
After the offer has been delivered to the property owner, and prior to the Special Commissioners' Hearing, the property owner may deliver one written counteroffer ("Administrative Settlement Proposal") to the Local Government. The Local Government will evaluate the Administrative Settlement Proposal and make a recommendation of approval or disapproval to the State. The State will consider the Administrative Settlement Proposal and the Local Government's recommendation and make a final determination of approval or disapproval in accordance with current State procedures. The State's approval of the Administrative Settlement Proposal is only for purposes of closing the purchase of the property prior to the Special Commissioners' Hearing. If a closing of the purchase does not occur prior to the hearing, the State's approval is automatically, without further action, withdrawn, and the State will participate only in the original approved value. In the event the State does not approve the Administrative Settlement Proposal, and the Local Government elects to purchase the property at a value greater than the original approved value, the State's participation in the purchase price will apply only to the original approved value, and the Local Government will pay one hundred percent (100%) of the costs that exceed the original approved value, even if the applicable county qualifies as an EDC.

9. **Condemnation**
Condemnation proceedings will be initiated at a time selected by the Local Government and will be the Local Government's responsibility at its own expense except as follows. The Local Government will obtain from the State without cost current title information and engineering data at the time condemnation is to be initiated. Except as set forth elsewhere in this agreement, the Local Government will concurrently file condemnation proceedings and a notice of lis pendens for each case in the name of the State, and in each case the judgment of the court will decree title and possession to the property condemned to the State. The Local Government may, as set forth in Article 11 (Excess Takings) and where it is determined to be necessary, enter condemnation proceedings in its own name. Property acquired in the Local Government's name for the State must comply with requirements set

forth in the engineering data and title investigation previously furnished to the Local Government by the State when the Local Government conveys the property to the State.

10. **Court Costs, Costs of Special Commissioners' Hearings and Appraisal Expense**
Court costs and costs of Special Commissioners' Hearings assessed against the State or Local Government in condemnation proceedings conducted on behalf of the State and fees incident to those hearings will be paid by the Local Government. Those costs and fees, with the exception of recording fees, will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under the established reimbursement procedure, provided that they are eligible for payment by the State under existing law. Where the Local Government uses the State's appraisers employed on a fee basis in Special Commissioners' Hearings or subsequent appeals, the cost of the appraiser for updating the report, preparing new reports, preparing for court testimony, and appearing in court to testify in support of the appraisal will be paid direct by the Local Government, but will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under established procedure provided prior approval for the appraiser has been obtained from the State. The fee paid to the appraiser by the Local Government shall be in accordance with the fee schedule set forth in the appraiser's contract for appraisal services with the State.

11. **Excess Takings**
In the event the Local Government desires to acquire land in excess of that requested by the State for right of way purposes, the State's cost participation will be limited to the property needed for its purposes. If the Local Government elects to acquire the entire property, including the excess taking, by a single instrument of conveyance or in one eminent domain proceeding, the property involved will be acquired in the name of the Local Government and that portion requested by the State for right of way will be separately conveyed to the State by the Local Government. When the property is acquired by negotiation, the State's participation will be based on the State's approved value of that part of the property requested for right of way purposes, provided that the approved value does not exceed the actual payment made by the Local Government. When the property is acquired by condemnation, the State's participation will be in the proportionate part of the final judgment amount computed on the basis of the relationship of the State's approved value to the State's predetermined value for the whole property.

12. **Improvements**
    **A.** Property owners will be afforded an opportunity in the negotiations to retain any or all of their improvements in the right of way taking. In anticipation of the owner's desiring to retain improvements, the State's approved value will include the amounts by which the upper limit of State participation will be reduced for the retention. It is further agreed that the upper limit for the State's participation in the Local Government's cost for an improved parcel will be reduced as shown in the State's approved value where the owner retains an improvement that is to be moved by either the Local Government or

the owner. If improvements are, in whole or part, a part of the right of way taking and are not retained by the owner, title is to be secured in the name of the State.

**B.** The State will participate in the acquisition of a structure severed by the right of way line if the part of the house, building, or similar structure that lies outside the right of way cannot be reconstructed adequately or there is nothing but salvage left, provided that the State's value is established on this basis and provided that title to the entire structure is taken in the name of the State. The State shall dispose of all improvements acquired. The net revenue derived by the State from the disposition of any improvements sold will be credited to the cost of the right of way procured and shared with the Local Government.

**13. Relocation of Utilities**

If the required right of way encroaches on an existing utility located on its own right of way and the proposed highway construction requires the adjustment, removal, or relocation of the utility facility, the State will establish the necessity for the utility work. State participation in the cost of making the necessary change, less any resulting increase in the value to the utility and less any salvage value obtainable, may be obtained by either the "actual cost" or "lump sum" procedures. Reimbursement under "actual cost" will be made subsequent to the Local Government's certification that the work has been completed and will be made in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the eligible items of cost as paid to the utility owner after the completion of an audit. The "lump sum" procedure requires that the State establish the eligibility of the utility work and enter into a three-party agreement with the owners of the utility facilities and the Local Government. This agreement must set forth the exact lump sum amount of reimbursement. The utility will be reimbursed by the Local Government after proper certification by the utility that the work has been done, and the reimbursement will be based on the prior lump sum agreement. The State will reimburse the Local Government in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the firm commitment as paid to the utility owner. Reimbursement is subject to the provision that the individual lump sum agreement approved value shall not exceed $20,000, except as specifically approved by the State. In those cases where a single operation is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based upon the circumstances involved. The firm commitment to the utility will be an appropriate item of right of way. The adjustment, removal, or relocation of any utility line on publicly owned right of way by sufferance or permit will not be eligible for State reimbursement. The term "utility" under this agreement shall include publicly, privately, and cooperatively owned utilities.

**14. Fencing Requirements**

**A.** The Local Government may handle fencing through one of the following methods.

1. The Local Government may pay the property owner for existing right of way fences based on the value those fences contribute to the part taken and damages for an unfenced condition resulting from the right of way taking, in which case the estimated

value of those right of way fences and damages will be included in the recommended value and the approved value; or

2. The Local Government may perform the fencing on the property owner's remaining property.

**B.** When the Local Government performs right of way fencing as a part of the total right of way consideration, neither the value of existing right of way fences nor damages for an unfenced condition will be included in the recommended value or the approved value. State participation in the Local Government's cost of constructing right of way fencing on the property owner's remainder may be based on either the actual cost of the fencing or on a predetermined lump sum amount. The State will be given credit for any salvaged fencing material and will not participate in any overhead costs of the Local Government.

**C.** If State participation is to be requested on the lump sum basis, the State and the Local Government will reach an agreement prior to the actual accomplishment of the work as to the necessity, eligibility, and a firm commitment as to the cost of the entire fencing work to be performed. This is subject to the provision that the lump sum approved cost shall not exceed $20,000, except as specifically approved by the State. In the event the cost of the fencing is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based on the circumstances involved.

**15. Basis for Reimbursement Calculation**

**A.** The State will reimburse the Local Government for right of way acquired after the date of this agreement in an amount not to exceed ninety percent (90%), or the applicable EDC-adjusted percent, of the cost of the right of way acquired in accordance with the terms and provisions of this agreement. The State's reimbursement will be in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the State's predetermined value of each parcel, or the net cost of each parcel, whichever is less. All requests by the Local Government for reimbursement shall comply with the then current reimbursement submission requirements set forth in the *Texas Department of Transportation Right of Way Manual.*

**B.** If condemnation is necessary and title is taken under Article 9 (Condemnation), the participation by the State shall be based on the final judgment, conditioned on the State having been notified in writing prior to the filing of the suit and on prompt notice being given as to all action taken under the suit. The State shall have the right to become a party to the suit at any time for all purposes, including the right of appeal at any stage of the proceedings. All other items of cost shall be borne by the State and the Local Government as provided in other sections of this agreement.

**C.** If a lump sum fencing or utility adjustment agreement has been executed, the State will reimburse the Local Government in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the predetermined lump sum cost of the right of way fencing or utility adjustment.

**D.** If the Local Government prefers not to execute a lump sum agreement for either fencing or utility adjustments, the State will reimburse on the actual cost of that fencing or those adjustments. The Local Government's request for reimbursement will be supported by a breakdown of the labor, materials, and equipment used.

**16. Amendments**

Amendments to this agreement due to changes in the character of the work, terms of the agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written supplemental agreement.

**17. Notices**

All notices to either party by the other required under this agreement shall be delivered personally or sent by certified or U.S. mail, postage prepaid, to the following addresses:

| **Local Government:** | **State:** |
|---|---|
| Honorable Ramon Garcia | Director of Right of Way Division |
| Judge, Hidalgo County | Texas Department of Transportation |
| P.O. Box 1356 | 125 E. 11th Street |
| Edinburg, TX 78540 | Austin, Texas 78701 |

All notices shall be deemed given on the date delivered or deposited in the mail, unless otherwise provided by this agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that notices shall be delivered personally or by certified U.S. mail and that request shall be honored and carried out by the other party.

**18. Remedies**

This agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this agreement and shall be cumulative.

**19. Legal Construction**

If one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, that invalidity, illegality, or unenforceability shall not affect any other provisions and this agreement shall be construed as if it did not contain the invalid, illegal, or unenforceable provision.

**20. Responsibilities of the Parties**

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

**21. Compliance with Laws**

The parties shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this agreement. When required, the Local Government shall furnish the State with satisfactory proof of this compliance.

**22. Sole Agreement**

This agreement constitutes the sole and only agreement between the parties and supersedes any prior understandings or written or oral agreements respecting the subject matter of this agreement.

**23. Ownership of Documents**

Upon completion or termination of this agreement, all documents prepared by the State shall remain the property of the State. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use. All documents produced or approved or otherwise created by the Local Government shall be transmitted to the State in the form of photocopy reproduction on a monthly basis as required by the State. The originals shall remain the property of the Local Government. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

**24. Inspection of Books and Records**

The Local Government shall maintain all books, papers, accounting records, and other documentation relating to costs incurred under this agreement and shall make those materials available to the State and, if federally funded, the Federal Highway Administration (FHWA) or their duly authorized representatives for review and inspection at its office during the contract period and for four (4) years from the date of completion of work defined under this agreement or until any impending litigation, or claims are resolved. Additionally, the State and FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this agreement for the purpose of making audits, examinations, excerpts, and transcriptions.

**25. State Auditor**

The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a

subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**26. Procurement and Property Management Standards**

The parties shall adhere to the procurement standards established in Title 49 CFR §18.36 and with the property management standard established in Title 49 CFR §18.32.

**27. Civil Rights Compliance**

The parties to this agreement shall comply with the regulations of the U.S. Department of Transportation as they relate to nondiscrimination (49 CFR Part 21 and 23 CFR Part 200), and Executive Order 11246 titled "Equal Employment Opportunity," as amended by Executive Order 11375 and supplemented in the Department of Labor Regulations (41 CFR Part 60).

**28. Applicability of Federal Provisions**

Articles 29 through 34 only apply if Federal funding is used in the acquisition of right of way or the adjustment of utilities.

**29. Office of Management and Budget (OMB) Cost Principles**

In order to be reimbursed with federal funds, the parties shall comply with the Cost Principles established in OMB Circular A-87 that specify that all reimbursed costs are allowable, reasonable, and allocable to the Project.

**30. Disadvantaged Business Enterprise (DBE) Program Requirements**

**A.** The parties shall comply with the DBE Program requirements established in 49 CFR Part 26.

**B.** The Local Government shall adopt, in its totality, the State's federally approved DBE program.

**C.** The Local Government shall set an appropriate DBE goal consistent with the State's DBE guidelines and in consideration of the local market, project size, and nature of the goods or services to be acquired. The Local Government shall have final decision-making authority regarding the DBE goal and shall be responsible for documenting its actions.

**D.** The Local Government shall follow all other parts of the State's DBE program referenced in TxDOT Form 2395, Memorandum of Understanding Regarding the Adoption of the Texas Department of Transportation's Federally -Approved Disadvantaged Business Enterprise by Entity and attachments found at web address http://txdot.gov/business/business_outreach/mou.htm.

**E.** The Local Government shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Local Government shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non-discrimination in award and administration of DOT-assisted contracts. The State's DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Local Government of its failure to carry out its approved program, the State may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 USC 1001 and the Program Fraud Civil Remedies Act of 1986 (31 USC 3801 et seq.).

**F.** Each contract the Local Government signs with a contractor (and each subcontract the prime contractor signs with a sub-contractor) must include the following assurance: *The contractor, sub-recipient, or sub-contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this agreement, which may result in the termination of this agreement or such other remedy as the recipient deems appropriate.*

**31. Debarment Certification**

The parties are prohibited from making any award at any tier to any party that is debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549, "Debarment and Suspension." By executing this agreement, the Local Government certifies that it is not currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549 and further certifies that it will not do business with any party that is currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549. The parties to this contract shall require any party to a subcontract or purchase order awarded under this contract to certify its eligibility to receive federal funds and, when requested by the State, to furnish a copy of the certification.

**32. Lobbying Certification**

In executing this agreement, each signatory certifies to the best of that signatory's knowledge and belief, that:

**A.** No federal appropriated funds have been paid or will be paid by or on behalf of the parties to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal

contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

**B.** If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the signatory for the Local Government shall complete and submit the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

**C.** The parties shall require that the language of this certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and all sub-recipients shall certify and disclose accordingly. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Title 31 USC §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each failure.

**33. Federal Funding Accountability and Transparency Act Requirements**

**A.** Any recipient of funds under this agreement agrees to comply with the Federal Funding Accountability and Transparency Act and implementing regulations at 2 CFR Part 170, including Appendix A. This agreement is subject to the following award terms: http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf and http://edocket.access.gpo.gov/2010/pdf/2010-22706.pdf.

**B.** The Local Government agrees that it shall:

1. Obtain and provide to the State a Central Contracting Registry (CCR) number (Federal Acquisition Regulation, Part 4, Sub-part 4.1100) if this award provides for more than $25,000 in Federal funding. The CCR number may be obtained by visiting the CCR web-site whose address is: https://www.bpn.gov/ccr/default.aspx;
2. Obtain and provide to the State a Data Universal Numbering System (DUNS) number, a unique nine-character number that allows the Federal government to track the distribution of federal money. The DUNS number may be requested free of charge for all businesses and entities required to do so by visiting the Dun & Bradstreet on-line registration website http://fedgov.dnb.com/webform; and
3. Report the total compensation and names of its top five (5) executives to the State if:
   i. More than 80% of annual gross revenues are from the Federal government, and those revenues are greater than $25,000,000; and
   ii. The compensation information is not already available through reporting to the U.S. Securities and Exchange Commission.

**34. Single Audit Report**

**A.** The parties shall comply with the requirements of the Single Audit Act of 1984, P.L. 98-502, ensuring that the single audit report includes the coverage stipulated in OMB Circular A-133.

**B.** If threshold expenditures of $500,000 or more are met during the Local Government's fiscal year, the Local Government must submit a Single Audit Report and Management Letter (if applicable) to TxDOT's Audit Office, 125 E. 11th Street, Austin, TX 78701 or contact TxDOT's Audit Office at http://www.txdot.gov/contact_us/audit.htm.

**C.** If expenditures are less than $500,000 during the Local Government's fiscal year, the Local Government must submit a statement to TxDOT's Audit Office as follows: "We did not meet the $500,000 expenditure threshold and therefore, are not required to have a single audit performed for FY _____."

**D.** For each year the project remains open for federal funding expenditures, the Local Government will be responsible for filing a report or statement as described above. The required annual filing shall extend throughout the life of the agreement, unless otherwise amended or the project has been formally closed out and no charges have been incurred within the current fiscal year.

**35. Signatory Warranty**

Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

Local Government requested and has been granted an Economically Disadvantaged County Adjustment from the Texas Transportation Commission on **October 25, 2012** by virtue of attached Minute Order No. **113345**, and approved a **83%** percent adjustment to the required **10%** percent local participation for this project. Also attached are completed Affidavit and EDC Program Information Sheet.

This is an estimate. The final amount of Local Government participation will be based on actual costs.

The Honorable Ramon Garcia
County Judge, Hidalgo County
P.O. Box 1356
Edinburg, Texas 78540

**RE: Approved Economically Disadvantaged County (EDC) Program Application**
**FM 2220 from Mile 5 to FM 1924**
**CSJ: 2094-01-038**

Dear Judge Garcia:

Your attached application for an Economically Disadvantaged County (EDC) Program adjustment to the required local participation for the referenced project has been approved. The adjustment is detailed below. This adjusted local participation percentage will be reflected in the Right of Way Agreement.

| Project Component | Usual Local Participation | Adjustment Percentage | Adjusted Local Participation |
|---|---|---|---|
| Right of Way | 10% | 83% | 1.7% |

Should you have any questions regarding this reduction please contact Homero Bazan, Jr., P.E., our Director of Transportation Planning and Development, or myself at (956)702-6100. As always, we look forward to working with you toward the implementation of this project.

Sincerely,

Mario R. Jorge, P.E.
Pharr District Engineer

FM 2220 from Mile 5 to FM 1924

**PROJECT SCOPE- Give type of work**

Widen to 4 Lane

**ADJUSTMENT RATIONAL- Give reason why the adjustment is needed**

Hidalgo County is marked with high unemployment & proverty rates, the highest in the state of Texas. Meeting the basic needs of the County along with addressing the infrastructure demands place a heavy burden on the County budget. We therefore are requesting a reduction in the required match for this project.

**TEXAS TRANSPORTATION COMMISSION**

VARIOUS Counties

VARIOUS Districts

**MINUTE ORDER**

Transportation Code, §222.053(a), defines an "economically disadvantaged county" as a county that has, in comparison to other counties in the state: (1) below average per capita taxable property value; (2) below average per capita income; and (3) above average unemployment.

Transportation Code, §222.053(c), directs the Texas Transportation Commission (commission), when evaluating a proposal for a highway project in a political subdivision that consists of all or a portion of an economically disadvantaged county, to adjust the minimum local matching funds requirement after evaluating the political subdivision's effort and ability to meet the requirement.

Transportation Code, §222.053(f), requires the commission to certify a county as economically disadvantaged on an annual basis as soon as possible after the Comptroller of Public Accounts (comptroller) provides reports on the economic indicators listed above.

43 TAC §15.55(b)(2) provides that, in determining the adjustment to the local matching funds requirement, and the local government's efforts and ability to meet the requirement, the commission will consider a local government's: (A) population level; (B) bonded indebtedness; (C) tax base; (D) tax rate; (E) extent of in-kind resources available; and (F) economic development sales tax.

The comptroller has provided the data needed to determine the counties eligible for the Economically Disadvantaged Counties Program for 2013. The counties' efforts and ability to provide a local match have been considered using the criteria set forth in 43 TAC §15.55. Exhibit A lists the eligible counties and the respective recommended local match adjustments. Exhibit B establishes additional local match adjustments for cities within these counties participating in the program.

IT IS THEREFORE ORDERED by the commission that the list of counties eligible for the 2013 Economically Disadvantaged Counties Program is certified and the local match adjustment for each county is established, as shown in Exhibit A, as well as additional adjustments for cities participating in the program, as shown in Exhibit B.

Cities within an Economically Disadvantaged County may receive higher percentage adjustments beyond their respective county's adjustment under two conditions: if they have a local economic development sales tax and their population is less than 5000. An adjustment can not exceed 95 percent or be less than 15 percent.

# EXHIBIT B

## Additional Adjustments for Cities Within an Economically Disadvantaged County FY 2013

Every eligible county receives an adjustment to its local match requirement ranging from 15 (minimum) to 95 (maximum) percent. A city within an economically disadvantaged county receives an adjustment equal to the adjustment for the county in which it is located, with the possibility of up to 10 additional percentage points based on its population and the existence of an economic development sales tax.

**The two following tables depict the additional percentage points that cities may be granted.**

***Economic Development Sales Tax:***

**STATE OF TEXAS** §

**COUNTY OF TRAVIS** §

## AGREEMENT FOR RIGHT OF WAY PROCUREMENT

**THIS AGREEMENT** is made by and between the State of Texas, acting through the Texas Department of Transportation, called the "State", and **Hidalgo County**, Texas, acting through its duly authorized officials, called the "Local Government."

## WITNESSETH

**WHEREAS**, Texas Transportation Code §§ 201.103 and 222.052 establish that the State shall design, construct, and operate a system of highways in cooperation with local governments; and

**WHEREAS**, Texas Transportation Code § 201.209 authorizes the State and a Local Government to enter into agreements in accordance with Texas Government Code, Chapter 791; and

**WHEREAS**, the State has deemed it necessary to make certain highway improvements on Highway No. **FM 2220** from **Mile 5 Road** to **FM 1924**, and this section of highway improvements will necessitate the acquisition of certain right of way and the relocating and adjusting of utilities, called the "Project"; and

**WHEREAS**, 43 Texas Administrative Code §15.55 defines the Local Government's cost participation in acquiring the right of way and relocating or adjusting eligible utilities for the proper improvement of the State Highway System; and

**WHEREAS**, the Governing Body of the Local Government has approved entering into this agreement by resolution or ordinance dated _____, 2013, which is attached to and made a part of this agreement as Attachment A. A map showing the Project location appears in Attachment B, which is attached to and made a part of this agreement.

**NOW THEREFORE,** the State and the Local Government do agree as follows:

County # Hidalgo
District Pharr District 21
ROW CSJ # 2094-01-044
CCSJ # 2094-01-038
Federal Project #
Federal Highway Administration
CFDA # 20.205

## AGREEMENT

1. **Agreement Period**
   This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Project is completed or unless terminated as provided below.

2. **Termination**
   This agreement shall remain in effect until the project is completed and accepted by all parties, unless:
   **A.** The agreement is terminated in writing with the mutual consent of the parties;
   **B.** The agreement is terminated by one party because of a breach, in which case any cost incurred because of the breach shall be paid by the breaching party; or
   **C.** The Project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this agreement.

3. **General**
   **A.** The Local Government agrees to proceed with acquisition of right of way and the State agrees to reimburse the Local Government for its share of the cost of the right of way, providing the acquisition and reimbursement are accomplished according to the provisions outlined in this agreement.
   **B.** The State and the Local Government agree that acquisition of this right of way shall be in accordance with the *Texas Department of Transportation Right of Way Manual* and all applicable federal and state laws governing the acquisition of real property.
   **C.** It is understood that the terms of this agreement shall apply to new right of way, authorized and requested by the State, which is needed and not yet dedicated, in use, or previously acquired in the name of the State or Local Government for highway, street, or road purposes. This agreement shall also apply, with regard to any existing right of way, to outstanding property interests not previously acquired and to eligible utility adjustments not previously made, as authorized and requested by the State.
   **D.** It is further understood that if unusual circumstances develop in the right of way acquisition and they are not clearly covered by the terms of this agreement, those unusual circumstances or problems will be resolved by mutual agreement between the State and the Local Government.

4. **Local Project Sources and Uses of Funds**
   **A.** The total estimated cost of the Project is shown in Attachment C, Project Budget Estimate, which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Governments, or other parties are shown in Attachment C. The State will pay for only those project costs that have been approved by the Texas Transportation Commission. If Federal funding is

included, the State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

**B.** If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.

**C.** The Project cost estimate in Attachment C shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property and (2) costs of utility work.

**D.** The State will be responsible for securing the Federal and State share of the funding required for the development of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

**E.** The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, including any overruns in excess of the approved local project budget unless otherwise provided for in this agreement or approved otherwise in an amendment to this agreement.

**F.** In the event any existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive, including, but not limited to, outdoor advertising or storm water drainage facility requirements, is more restrictive than State or federal regulations, or any other locally proposed change, including, but not limited to, plats or re-plats, results in any increased costs to the State, then the Local Government will pay one hundred percent (100%) of all those increased costs, even if the applicable county qualifies as an Economically Disadvantaged County (EDC). The amount of the increased costs associated with the existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive will be determined by the State at its sole discretion.

**G.** If the Local government is an EDC and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

H. Payment under this contract beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this contract shall be terminated immediately with no liability to either party.

I. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

**5. Location Surveys and Preparation of Right of Way Data**

The State, without cost to the Local Government, will perform the necessary preliminary engineering and title investigation in order to supply to the Local Government the data and instruments necessary to obtain acceptable title to the desired right of way.

**6. Determination of Right of Way Values**

The Local Government agrees to make a determination of property values for each right of way parcel by methods acceptable to the State and to submit to the State a tabulation of those values, signed by the appropriate Local Government representative. The tabulation shall list the parcel numbers, ownership, acreage, and recommended compensation. Compensation shall be shown in the component parts of land taken, itemization of improvements taken, damages (if any), and the amounts by which the total compensation will be reduced if the owner retains improvements. This tabulation shall be accompanied by an explanation to support the determined values, together with a copy of information or reports used in arriving at all determined values. This work will be performed by the Local Government at its expense without cost participation by the State. The State will review the data submitted and may base its reimbursement on the values that are determined by this review. The State, however, reserves the right to perform at its own expense any additional investigation, including supplemental appraisal work by State employees or by employment of fee appraisers, deemed necessary for determination of values to constitute the basis for State reimbursement. The parties may waive the requirement that the Local Government submit to the State property value determinations for any part of the required right of way by a writing signed by both parties. In instances of a waiver, the State, in its discretion, will make a determination of values to constitute the basis for State reimbursement.

**7. Negotiations**

The State will notify the Local Government as soon as possible as to the State's determination of value. Negotiation and settlement with the property owner will be the responsibility of the Local Government without participation by the State; however, the Local Government will notify the State immediately prior to closing the transaction so that a current title investigation may be made to determine if there has been any change in the title. The Local Government will deliver properly executed instruments of conveyance that,

together with any curative instruments found to be necessary as a result of the State's title investigation, will properly vest good and indefeasible title in the State for each right of way parcel involved. The Local Government will also deliver to the State an owner's policy of title insurance for each parcel, except as otherwise specifically approved by the State. Upon payment to the property owner of the agreed purchase price, the Local Government is authorized and directed to secure for the State possession of each parcel in accordance with all applicable Federal and State laws governing relocation assistance, notices to vacate, and forcible detainer. The costs incidental to negotiation, recording the right of way instruments, and securing possession of the parcels will be the responsibility of the Local Government. The cost of title insurance, closing services, and all costs of relocation assistance as authorized by applicable Federal and State laws will be the responsibility of the State.

**8. Administrative Settlements**

After the offer has been delivered to the property owner, and prior to the Special Commissioners' Hearing, the property owner may deliver one written counteroffer ("Administrative Settlement Proposal") to the Local Government. The Local Government will evaluate the Administrative Settlement Proposal and make a recommendation of approval or disapproval to the State. The State will consider the Administrative Settlement Proposal and the Local Government's recommendation and make a final determination of approval or disapproval in accordance with current State procedures. The State's approval of the Administrative Settlement Proposal is only for purposes of closing the purchase of the property prior to the Special Commissioners' Hearing. If a closing of the purchase does not occur prior to the hearing, the State's approval is automatically, without further action, withdrawn, and the State will participate only in the original approved value. In the event the State does not approve the Administrative Settlement Proposal, and the Local Government elects to purchase the property at a value greater than the original approved value, the State's participation in the purchase price will apply only to the original approved value, and the Local Government will pay one hundred percent (100%) of the costs that exceed the original approved value, even if the applicable county qualifies as an EDC.

**9. Condemnation**

Condemnation proceedings will be initiated at a time selected by the Local Government and will be the Local Government's responsibility at its own expense except as follows. The Local Government will obtain from the State without cost current title information and engineering data at the time condemnation is to be initiated. Except as set forth elsewhere in this agreement, the Local Government will concurrently file condemnation proceedings and a notice of lis pendens for each case in the name of the State, and in each case the judgment of the court will decree title and possession to the property condemned to the State. The Local Government may, as set forth in Article 11 (Excess Takings) and where it is determined to be necessary, enter condemnation proceedings in its own name. Property acquired in the Local Government's name for the State must comply with requirements set

forth in the engineering data and title investigation previously furnished to the Local Government by the State when the Local Government conveys the property to the State.

10. **Court Costs, Costs of Special Commissioners' Hearings and Appraisal Expense**
Court costs and costs of Special Commissioners' Hearings assessed against the State or Local Government in condemnation proceedings conducted on behalf of the State and fees incident to those hearings will be paid by the Local Government. Those costs and fees, with the exception of recording fees, will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under the established reimbursement procedure, provided that they are eligible for payment by the State under existing law. Where the Local Government uses the State's appraisers employed on a fee basis in Special Commissioners' Hearings or subsequent appeals, the cost of the appraiser for updating the report, preparing new reports, preparing for court testimony, and appearing in court to testify in support of the appraisal will be paid direct by the Local Government, but will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under established procedure provided prior approval for the appraiser has been obtained from the State. The fee paid to the appraiser by the Local Government shall be in accordance with the fee schedule set forth in the appraiser's contract for appraisal services with the State.

11. **Excess Takings**
In the event the Local Government desires to acquire land in excess of that requested by the State for right of way purposes, the State's cost participation will be limited to the property needed for its purposes. If the Local Government elects to acquire the entire property, including the excess taking, by a single instrument of conveyance or in one eminent domain proceeding, the property involved will be acquired in the name of the Local Government and that portion requested by the State for right of way will be separately conveyed to the State by the Local Government. When the property is acquired by negotiation, the State's participation will be based on the State's approved value of that part of the property requested for right of way purposes, provided that the approved value does not exceed the actual payment made by the Local Government. When the property is acquired by condemnation, the State's participation will be in the proportionate part of the final judgment amount computed on the basis of the relationship of the State's approved value to the State's predetermined value for the whole property.

12. **Improvements**
    **A.** Property owners will be afforded an opportunity in the negotiations to retain any or all of their improvements in the right of way taking. In anticipation of the owner's desiring to retain improvements, the State's approved value will include the amounts by which the upper limit of State participation will be reduced for the retention. It is further agreed that the upper limit for the State's participation in the Local Government's cost for an improved parcel will be reduced as shown in the State's approved value where the owner retains an improvement that is to be moved by either the Local Government or

the owner. If improvements are, in whole or part, a part of the right of way taking and are not retained by the owner, title is to be secured in the name of the State.

**B.** The State will participate in the acquisition of a structure severed by the right of way line if the part of the house, building, or similar structure that lies outside the right of way cannot be reconstructed adequately or there is nothing but salvage left, provided that the State's value is established on this basis and provided that title to the entire structure is taken in the name of the State. The State shall dispose of all improvements acquired. The net revenue derived by the State from the disposition of any improvements sold will be credited to the cost of the right of way procured and shared with the Local Government.

**13. Relocation of Utilities**

If the required right of way encroaches on an existing utility located on its own right of way and the proposed highway construction requires the adjustment, removal, or relocation of the utility facility, the State will establish the necessity for the utility work. State participation in the cost of making the necessary change, less any resulting increase in the value to the utility and less any salvage value obtainable, may be obtained by either the "actual cost" or "lump sum" procedures. Reimbursement under "actual cost" will be made subsequent to the Local Government's certification that the work has been completed and will be made in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the eligible items of cost as paid to the utility owner after the completion of an audit. The "lump sum" procedure requires that the State establish the eligibility of the utility work and enter into a three-party agreement with the owners of the utility facilities and the Local Government. This agreement must set forth the exact lump sum amount of reimbursement. The utility will be reimbursed by the Local Government after proper certification by the utility that the work has been done, and the reimbursement will be based on the prior lump sum agreement. The State will reimburse the Local Government in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the firm commitment as paid to the utility owner. Reimbursement is subject to the provision that the individual lump sum agreement approved value shall not exceed $20,000, except as specifically approved by the State. In those cases where a single operation is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based upon the circumstances involved. The firm commitment to the utility will be an appropriate item of right of way. The adjustment, removal, or relocation of any utility line on publicly owned right of way by sufferance or permit will not be eligible for State reimbursement. The term "utility" under this agreement shall include publicly, privately, and cooperatively owned utilities.

**14. Fencing Requirements**

**A.** The Local Government may handle fencing through one of the following methods.

1. The Local Government may pay the property owner for existing right of way fences based on the value those fences contribute to the part taken and damages for an unfenced condition resulting from the right of way taking, in which case the estimated

value of those right of way fences and damages will be included in the recommended value and the approved value; or

2. The Local Government may perform the fencing on the property owner's remaining property.

**B.** When the Local Government performs right of way fencing as a part of the total right of way consideration, neither the value of existing right of way fences nor damages for an unfenced condition will be included in the recommended value or the approved value. State participation in the Local Government's cost of constructing right of way fencing on the property owner's remainder may be based on either the actual cost of the fencing or on a predetermined lump sum amount. The State will be given credit for any salvaged fencing material and will not participate in any overhead costs of the Local Government.

**C.** If State participation is to be requested on the lump sum basis, the State and the Local Government will reach an agreement prior to the actual accomplishment of the work as to the necessity, eligibility, and a firm commitment as to the cost of the entire fencing work to be performed. This is subject to the provision that the lump sum approved cost shall not exceed $20,000, except as specifically approved by the State. In the event the cost of the fencing is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based on the circumstances involved.

**15. Basis for Reimbursement Calculation**

**A.** The State will reimburse the Local Government for right of way acquired after the date of this agreement in an amount not to exceed ninety percent (90%), or the applicable EDC-adjusted percent, of the cost of the right of way acquired in accordance with the terms and provisions of this agreement. The State's reimbursement will be in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the State's predetermined value of each parcel, or the net cost of each parcel, whichever is less. All requests by the Local Government for reimbursement shall comply with the then current reimbursement submission requirements set forth in the *Texas Department of Transportation Right of Way Manual.*

**B.** If condemnation is necessary and title is taken under Article 9 (Condemnation), the participation by the State shall be based on the final judgment, conditioned on the State having been notified in writing prior to the filing of the suit and on prompt notice being given as to all action taken under the suit. The State shall have the right to become a party to the suit at any time for all purposes, including the right of appeal at any stage of the proceedings. All other items of cost shall be borne by the State and the Local Government as provided in other sections of this agreement.

**C.** If a lump sum fencing or utility adjustment agreement has been executed, the State will reimburse the Local Government in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the predetermined lump sum cost of the right of way fencing or utility adjustment.

**D.** If the Local Government prefers not to execute a lump sum agreement for either fencing or utility adjustments, the State will reimburse on the actual cost of that fencing or those adjustments. The Local Government's request for reimbursement will be supported by a breakdown of the labor, materials, and equipment used.

**16. Amendments**

Amendments to this agreement due to changes in the character of the work, terms of the agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written supplemental agreement.

**17. Notices**

All notices to either party by the other required under this agreement shall be delivered personally or sent by certified or U.S. mail, postage prepaid, to the following addresses:

| **Local Government:** | **State:** |
|---|---|
| Honorable Ramon Garcia | Director of Right of Way Division |
| Judge, Hidalgo County | Texas Department of Transportation |
| P.O. Box 1356 | 125 E. 11th Street |
| Edinburg, TX 78540 | Austin, Texas 78701 |

All notices shall be deemed given on the date delivered or deposited in the mail, unless otherwise provided by this agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that notices shall be delivered personally or by certified U.S. mail and that request shall be honored and carried out by the other party.

**18. Remedies**

This agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this agreement and shall be cumulative.

**19. Legal Construction**

If one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, that invalidity, illegality, or unenforceability shall not affect any other provisions and this agreement shall be construed as if it did not contain the invalid, illegal, or unenforceable provision.

**20. Responsibilities of the Parties**

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

**21. Compliance with Laws**

The parties shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this agreement. When required, the Local Government shall furnish the State with satisfactory proof of this compliance.

**22. Sole Agreement**

This agreement constitutes the sole and only agreement between the parties and supersedes any prior understandings or written or oral agreements respecting the subject matter of this agreement.

**23. Ownership of Documents**

Upon completion or termination of this agreement, all documents prepared by the State shall remain the property of the State. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use. All documents produced or approved or otherwise created by the Local Government shall be transmitted to the State in the form of photocopy reproduction on a monthly basis as required by the State. The originals shall remain the property of the Local Government. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

**24. Inspection of Books and Records**

The Local Government shall maintain all books, papers, accounting records, and other documentation relating to costs incurred under this agreement and shall make those materials available to the State and, if federally funded, the Federal Highway Administration (FHWA) or their duly authorized representatives for review and inspection at its office during the contract period and for four (4) years from the date of completion of work defined under this agreement or until any impending litigation, or claims are resolved. Additionally, the State and FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this agreement for the purpose of making audits, examinations, excerpts, and transcriptions.

**25. State Auditor**

The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a

subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**26. Procurement and Property Management Standards**
The parties shall adhere to the procurement standards established in Title 49 CFR §18.36 and with the property management standard established in Title 49 CFR §18.32.

**27. Civil Rights Compliance**
The parties to this agreement shall comply with the regulations of the U.S. Department of Transportation as they relate to nondiscrimination (49 CFR Part 21 and 23 CFR Part 200), and Executive Order 11246 titled "Equal Employment Opportunity," as amended by Executive Order 11375 and supplemented in the Department of Labor Regulations (41 CFR Part 60).

**28. Applicability of Federal Provisions**
Articles 29 through 34 only apply if Federal funding is used in the acquisition of right of way or the adjustment of utilities.

**29. Office of Management and Budget (OMB) Cost Principles**
In order to be reimbursed with federal funds, the parties shall comply with the Cost Principles established in OMB Circular A-87 that specify that all reimbursed costs are allowable, reasonable, and allocable to the Project.

**30. Disadvantaged Business Enterprise (DBE) Program Requirements**

**A.** The parties shall comply with the DBE Program requirements established in 49 CFR Part 26.

**B.** The Local Government shall adopt, in its totality, the State's federally approved DBE program.

**C.** The Local Government shall set an appropriate DBE goal consistent with the State's DBE guidelines and in consideration of the local market, project size, and nature of the goods or services to be acquired. The Local Government shall have final decision-making authority regarding the DBE goal and shall be responsible for documenting its actions.

**D.** The Local Government shall follow all other parts of the State's DBE program referenced in TxDOT Form 2395, Memorandum of Understanding Regarding the Adoption of the Texas Department of Transportation's Federally -Approved Disadvantaged Business Enterprise by Entity and attachments found at web address http://txdot.gov/business/business_outreach/mou.htm.

**E.** The Local Government shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Local Government shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non-discrimination in award and administration of DOT-assisted contracts. The State's DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Local Government of its failure to carry out its approved program, the State may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 USC 1001 and the Program Fraud Civil Remedies Act of 1986 (31 USC 3801 et seq.).

**F.** Each contract the Local Government signs with a contractor (and each subcontract the prime contractor signs with a sub-contractor) must include the following assurance: *The contractor, sub-recipient, or sub-contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this agreement, which may result in the termination of this agreement or such other remedy as the recipient deems appropriate.*

**31. Debarment Certification**

The parties are prohibited from making any award at any tier to any party that is debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549, "Debarment and Suspension." By executing this agreement, the Local Government certifies that it is not currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549 and further certifies that it will not do business with any party that is currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549. The parties to this contract shall require any party to a subcontract or purchase order awarded under this contract to certify its eligibility to receive federal funds and, when requested by the State, to furnish a copy of the certification.

**32. Lobbying Certification**

In executing this agreement, each signatory certifies to the best of that signatory's knowledge and belief, that:

**A.** No federal appropriated funds have been paid or will be paid by or on behalf of the parties to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal

contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

**B.** If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the signatory for the Local Government shall complete and submit the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

**C.** The parties shall require that the language of this certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and all sub-recipients shall certify and disclose accordingly. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Title 31 USC §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each failure.

**33. Federal Funding Accountability and Transparency Act Requirements**

**A.** Any recipient of funds under this agreement agrees to comply with the Federal Funding Accountability and Transparency Act and implementing regulations at 2 CFR Part 170, including Appendix A. This agreement is subject to the following award terms: http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf and http://edocket.access.gpo.gov/2010/pdf/2010-22706.pdf.

**B.** The Local Government agrees that it shall:

1. Obtain and provide to the State a Central Contracting Registry (CCR) number (Federal Acquisition Regulation, Part 4, Sub-part 4.1100) if this award provides for more than $25,000 in Federal funding. The CCR number may be obtained by visiting the CCR web-site whose address is: https://www.bpn.gov/ccr/default.aspx;
2. Obtain and provide to the State a Data Universal Numbering System (DUNS) number, a unique nine-character number that allows the Federal government to track the distribution of federal money. The DUNS number may be requested free of charge for all businesses and entities required to do so by visiting the Dun & Bradstreet on-line registration website http://fedgov.dnb.com/webform; and
3. Report the total compensation and names of its top five (5) executives to the State if:
   i. More than 80% of annual gross revenues are from the Federal government, and those revenues are greater than $25,000,000; and
   ii. The compensation information is not already available through reporting to the U.S. Securities and Exchange Commission.

**34. Single Audit Report**

**A.** The parties shall comply with the requirements of the Single Audit Act of 1984, P.L. 98-502, ensuring that the single audit report includes the coverage stipulated in OMB Circular A-133.

**B.** If threshold expenditures of $500,000 or more are met during the Local Government's fiscal year, the Local Government must submit a Single Audit Report and Management Letter (if applicable) to TxDOT's Audit Office, 125 E. 11th Street, Austin, TX 78701 or contact TxDOT's Audit Office at http://www.txdot.gov/contact_us/audit.htm.

**C.** If expenditures are less than $500,000 during the Local Government's fiscal year, the Local Government must submit a statement to TxDOT's Audit Office as follows: "We did not meet the $500,000 expenditure threshold and therefore, are not required to have a single audit performed for FY _____."

**D.** For each year the project remains open for federal funding expenditures, the Local Government will be responsible for filing a report or statement as described above. The required annual filing shall extend throughout the life of the agreement, unless otherwise amended or the project has been formally closed out and no charges have been incurred within the current fiscal year.

**35. Signatory Warranty**

Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

**RE: Approved Economically Disadvantaged County (EDC) Program Application**
**FM 2220 from Mile 5 to FM 1924**
**CSJ: 2094-01-038**

Dear Judge Garcia:

Your attached application for an Economically Disadvantaged County (EDC) Program adjustment to the required local participation for the referenced project has been approved. The adjustment is detailed below. This adjusted local participation percentage will be reflected in the Right of Way Agreement.

| Project Component | Usual Local Participation | Adjustment Percentage | Adjusted Local Participation |
|---|---|---|---|
| Right of Way | 10% | 83% | 1.7% |

Should you have any questions regarding this reduction please contact Homero Bazan, Jr., P.E., our Director of Transportation Planning and Development, or myself at (956)702-6100. As always, we look forward to working with you toward the implementation of this project.

Sincerely,

Mario R. Jorge, P.E.
Pharr District Engineer

**TEXAS TRANSPORTATION COMMISSION**

VARIOUS Counties

VARIOUS Districts

**MINUTE ORDER**

Transportation Code, §222.053(a), defines an "economically disadvantaged county" as a county that has, in comparison to other counties in the state: (1) below average per capita taxable property value; (2) below average per capita income; and (3) above average unemployment.

Transportation Code, §222.053(c), directs the Texas Transportation Commission (commission), when evaluating a proposal for a highway project in a political subdivision that consists of all or a portion of an economically disadvantaged county, to adjust the minimum local matching funds requirement after evaluating the political subdivision's effort and ability to meet the requirement.

Transportation Code, §222.053(f), requires the commission to certify a county as economically disadvantaged on an annual basis as soon as possible after the Comptroller of Public Accounts (comptroller) provides reports on the economic indicators listed above.

43 TAC §15.55(b)(2) provides that, in determining the adjustment to the local matching funds requirement, and the local government's efforts and ability to meet the requirement, the commission will consider a local government's: (A) population level; (B) bonded indebtedness; (C) tax base; (D) tax rate; (E) extent of in-kind resources available; and (F) economic development sales tax.

The comptroller has provided the data needed to determine the counties eligible for the Economically Disadvantaged Counties Program for 2013. The counties' efforts and ability to provide a local match have been considered using the criteria set forth in 43 TAC §15.55. Exhibit A lists the eligible counties and the respective recommended local match adjustments. Exhibit B establishes additional local match adjustments for cities within these counties participating in the program.

IT IS THEREFORE ORDERED by the commission that the list of counties eligible for the 2013 Economically Disadvantaged Counties Program is certified and the local match adjustment for each county is established, as shown in Exhibit A, as well as additional adjustments for cities participating in the program, as shown in Exhibit B.

Cities within an Economically Disadvantaged County may receive higher percentage adjustments beyond their respective county's adjustment under two conditions: if they have a local economic development sales tax and their population is less than 5000. An adjustment can not exceed 95 percent or be less than 15 percent.

# EXHIBIT B

## Additional Adjustments for Cities Within an Economically Disadvantaged County FY 2013

Every eligible county receives an adjustment to its local match requirement ranging from 15 (minimum) to 95 (maximum) percent. A city within an economically disadvantaged county receives an adjustment equal to the adjustment for the county in which it is located, with the possibility of up to 10 additional percentage points based on its population and the existence of an economic development sales tax.

**The two following tables depict the additional percentage points that cities may be granted.**

***Economic Development Sales Tax:***

| | *ADDITIONAL PERCENTAGE* |
|---|---|
| YES | *5%* |
| NO | *0%* |

***Population:***

| | *ADDITIONAL PERCENTAGE* |

**STATE OF TEXAS** §

**COUNTY OF TRAVIS** §

## AGREEMENT FOR RIGHT OF WAY PROCUREMENT

**THIS AGREEMENT** is made by and between the State of Texas, acting through the Texas Department of Transportation, called the "State", and **Hidalgo County**, Texas, acting through its duly authorized officials, called the "Local Government."

## WITNESSETH

**WHEREAS**, Texas Transportation Code §§ 201.103 and 222.052 establish that the State shall design, construct, and operate a system of highways in cooperation with local governments; and

**WHEREAS**, Texas Transportation Code § 201.209 authorizes the State and a Local Government to enter into agreements in accordance with Texas Government Code, Chapter 791; and

**WHEREAS**, the State has deemed it necessary to make certain highway improvements on Highway No. **FM 2220** from **Mile 5 Road** to **FM 1924**, and this section of highway improvements will necessitate the acquisition of certain right of way and the relocating and adjusting of utilities, called the "Project"; and

**WHEREAS**, 43 Texas Administrative Code §15.55 defines the Local Government's cost participation in acquiring the right of way and relocating or adjusting eligible utilities for the proper improvement of the State Highway System; and

**WHEREAS**, the Governing Body of the Local Government has approved entering into this agreement by resolution or ordinance dated _____, 2013, which is attached to and made a part of this agreement as Attachment A. A map showing the Project location appears in Attachment B, which is attached to and made a part of this agreement.

**NOW THEREFORE,** the State and the Local Government do agree as follows:

County # Hidalgo
District Pharr District 21

## AGREEMENT

1. **Agreement Period**
   This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Project is completed or unless terminated as provided below.

2. **Termination**
   This agreement shall remain in effect until the project is completed and accepted by all parties, unless:
   **A.** The agreement is terminated in writing with the mutual consent of the parties;
   **B.** The agreement is terminated by one party because of a breach, in which case any cost incurred because of the breach shall be paid by the breaching party; or
   **C.** The Project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this agreement.

3. **General**
   **A.** The Local Government agrees to proceed with acquisition of right of way and the State agrees to reimburse the Local Government for its share of the cost of the right of way, providing the acquisition and reimbursement are accomplished according to the provisions outlined in this agreement.
   **B.** The State and the Local Government agree that acquisition of this right of way shall be in accordance with the *Texas Department of Transportation Right of Way Manual* and all applicable federal and state laws governing the acquisition of real property.
   **C.** It is understood that the terms of this agreement shall apply to new right of way, authorized and requested by the State, which is needed and not yet dedicated, in use, or previously acquired in the name of the State or Local Government for highway, street, or road purposes. This agreement shall also apply, with regard to any existing right of way, to outstanding property interests not previously acquired and to eligible utility adjustments not previously made, as authorized and requested by the State.
   **D.** It is further understood that if unusual circumstances develop in the right of way acquisition and they are not clearly covered by the terms of this agreement, those unusual circumstances or problems will be resolved by mutual agreement between the State and the Local Government.

4. **Local Project Sources and Uses of Funds**
   **A.** The total estimated cost of the Project is shown in Attachment C, Project Budget Estimate, which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Governments, or other parties are shown in Attachment C. The State will pay for only those project costs that have been approved by the Texas Transportation Commission. If Federal funding is

included, the State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

**B.** If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.

**C.** The Project cost estimate in Attachment C shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property and (2) costs of utility work.

**D.** The State will be responsible for securing the Federal and State share of the funding required for the development of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

**E.** The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, including any overruns in excess of the approved local project budget unless otherwise provided for in this agreement or approved otherwise in an amendment to this agreement.

**F.** In the event any existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive, including, but not limited to, outdoor advertising or storm water drainage facility requirements, is more restrictive than State or federal regulations, or any other locally proposed change, including, but not limited to, plats or re-plats, results in any increased costs to the State, then the Local Government will pay one hundred percent (100%) of all those increased costs, even if the applicable county qualifies as an Economically Disadvantaged County (EDC). The amount of the increased costs associated with the existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive will be determined by the State at its sole discretion.

**G.** If the Local government is an EDC and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

H. Payment under this contract beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this contract shall be terminated immediately with no liability to either party.

I. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

**5. Location Surveys and Preparation of Right of Way Data**

The State, without cost to the Local Government, will perform the necessary preliminary engineering and title investigation in order to supply to the Local Government the data and instruments necessary to obtain acceptable title to the desired right of way.

**6. Determination of Right of Way Values**

The Local Government agrees to make a determination of property values for each right of way parcel by methods acceptable to the State and to submit to the State a tabulation of those values, signed by the appropriate Local Government representative. The tabulation shall list the parcel numbers, ownership, acreage, and recommended compensation. Compensation shall be shown in the component parts of land taken, itemization of improvements taken, damages (if any), and the amounts by which the total compensation will be reduced if the owner retains improvements. This tabulation shall be accompanied by an explanation to support the determined values, together with a copy of information or reports used in arriving at all determined values. This work will be performed by the Local Government at its expense without cost participation by the State. The State will review the data submitted and may base its reimbursement on the values that are determined by this review. The State, however, reserves the right to perform at its own expense any additional investigation, including supplemental appraisal work by State employees or by employment of fee appraisers, deemed necessary for determination of values to constitute the basis for State reimbursement. The parties may waive the requirement that the Local Government submit to the State property value determinations for any part of the required right of way by a writing signed by both parties. In instances of a waiver, the State, in its discretion, will make a determination of values to constitute the basis for State reimbursement.

**7. Negotiations**

The State will notify the Local Government as soon as possible as to the State's determination of value. Negotiation and settlement with the property owner will be the responsibility of the Local Government without participation by the State; however, the Local Government will notify the State immediately prior to closing the transaction so that a current title investigation may be made to determine if there has been any change in the title. The Local Government will deliver properly executed instruments of conveyance that,

together with any curative instruments found to be necessary as a result of the State's title investigation, will properly vest good and indefeasible title in the State for each right of way parcel involved. The Local Government will also deliver to the State an owner's policy of title insurance for each parcel, except as otherwise specifically approved by the State. Upon payment to the property owner of the agreed purchase price, the Local Government is authorized and directed to secure for the State possession of each parcel in accordance with all applicable Federal and State laws governing relocation assistance, notices to vacate, and forcible detainer. The costs incidental to negotiation, recording the right of way instruments, and securing possession of the parcels will be the responsibility of the Local Government. The cost of title insurance, closing services, and all costs of relocation assistance as authorized by applicable Federal and State laws will be the responsibility of the State.

**8. Administrative Settlements**

After the offer has been delivered to the property owner, and prior to the Special Commissioners' Hearing, the property owner may deliver one written counteroffer ("Administrative Settlement Proposal") to the Local Government. The Local Government will evaluate the Administrative Settlement Proposal and make a recommendation of approval or disapproval to the State. The State will consider the Administrative Settlement Proposal and the Local Government's recommendation and make a final determination of approval or disapproval in accordance with current State procedures. The State's approval of the Administrative Settlement Proposal is only for purposes of closing the purchase of the property prior to the Special Commissioners' Hearing. If a closing of the purchase does not occur prior to the hearing, the State's approval is automatically, without further action, withdrawn, and the State will participate only in the original approved value. In the event the State does not approve the Administrative Settlement Proposal, and the Local Government elects to purchase the property at a value greater than the original approved value, the State's participation in the purchase price will apply only to the original approved value, and the Local Government will pay one hundred percent (100%) of the costs that exceed the original approved value, even if the applicable county qualifies as an EDC.

**9. Condemnation**

Condemnation proceedings will be initiated at a time selected by the Local Government and will be the Local Government's responsibility at its own expense except as follows. The Local Government will obtain from the State without cost current title information and engineering data at the time condemnation is to be initiated. Except as set forth elsewhere in this agreement, the Local Government will concurrently file condemnation proceedings and a notice of lis pendens for each case in the name of the State, and in each case the judgment of the court will decree title and possession to the property condemned to the State. The Local Government may, as set forth in Article 11 (Excess Takings) and where it is determined to be necessary, enter condemnation proceedings in its own name. Property acquired in the Local Government's name for the State must comply with requirements set

forth in the engineering data and title investigation previously furnished to the Local Government by the State when the Local Government conveys the property to the State.

10. **Court Costs, Costs of Special Commissioners' Hearings and Appraisal Expense**
Court costs and costs of Special Commissioners' Hearings assessed against the State or Local Government in condemnation proceedings conducted on behalf of the State and fees incident to those hearings will be paid by the Local Government. Those costs and fees, with the exception of recording fees, will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under the established reimbursement procedure, provided that they are eligible for payment by the State under existing law. Where the Local Government uses the State's appraisers employed on a fee basis in Special Commissioners' Hearings or subsequent appeals, the cost of the appraiser for updating the report, preparing new reports, preparing for court testimony, and appearing in court to testify in support of the appraisal will be paid direct by the Local Government, but will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under established procedure provided prior approval for the appraiser has been obtained from the State. The fee paid to the appraiser by the Local Government shall be in accordance with the fee schedule set forth in the appraiser's contract for appraisal services with the State.

11. **Excess Takings**
In the event the Local Government desires to acquire land in excess of that requested by the State for right of way purposes, the State's cost participation will be limited to the property needed for its purposes. If the Local Government elects to acquire the entire property, including the excess taking, by a single instrument of conveyance or in one eminent domain proceeding, the property involved will be acquired in the name of the Local Government and that portion requested by the State for right of way will be separately conveyed to the State by the Local Government. When the property is acquired by negotiation, the State's participation will be based on the State's approved value of that part of the property requested for right of way purposes, provided that the approved value does not exceed the actual payment made by the Local Government. When the property is acquired by condemnation, the State's participation will be in the proportionate part of the final judgment amount computed on the basis of the relationship of the State's approved value to the State's predetermined value for the whole property.

12. **Improvements**
    **A.** Property owners will be afforded an opportunity in the negotiations to retain any or all of their improvements in the right of way taking. In anticipation of the owner's desiring to retain improvements, the State's approved value will include the amounts by which the upper limit of State participation will be reduced for the retention. It is further agreed that the upper limit for the State's participation in the Local Government's cost for an improved parcel will be reduced as shown in the State's approved value where the owner retains an improvement that is to be moved by either the Local Government or

the owner. If improvements are, in whole or part, a part of the right of way taking and are not retained by the owner, title is to be secured in the name of the State.

**B.** The State will participate in the acquisition of a structure severed by the right of way line if the part of the house, building, or similar structure that lies outside the right of way cannot be reconstructed adequately or there is nothing but salvage left, provided that the State's value is established on this basis and provided that title to the entire structure is taken in the name of the State. The State shall dispose of all improvements acquired. The net revenue derived by the State from the disposition of any improvements sold will be credited to the cost of the right of way procured and shared with the Local Government.

**13. Relocation of Utilities**

If the required right of way encroaches on an existing utility located on its own right of way and the proposed highway construction requires the adjustment, removal, or relocation of the utility facility, the State will establish the necessity for the utility work. State participation in the cost of making the necessary change, less any resulting increase in the value to the utility and less any salvage value obtainable, may be obtained by either the "actual cost" or "lump sum" procedures. Reimbursement under "actual cost" will be made subsequent to the Local Government's certification that the work has been completed and will be made in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the eligible items of cost as paid to the utility owner after the completion of an audit. The "lump sum" procedure requires that the State establish the eligibility of the utility work and enter into a three-party agreement with the owners of the utility facilities and the Local Government. This agreement must set forth the exact lump sum amount of reimbursement. The utility will be reimbursed by the Local Government after proper certification by the utility that the work has been done, and the reimbursement will be based on the prior lump sum agreement. The State will reimburse the Local Government in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the firm commitment as paid to the utility owner. Reimbursement is subject to the provision that the individual lump sum agreement approved value shall not exceed $20,000, except as specifically approved by the State. In those cases where a single operation is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based upon the circumstances involved. The firm commitment to the utility will be an appropriate item of right of way. The adjustment, removal, or relocation of any utility line on publicly owned right of way by sufferance or permit will not be eligible for State reimbursement. The term "utility" under this agreement shall include publicly, privately, and cooperatively owned utilities.

**14. Fencing Requirements**

**A.** The Local Government may handle fencing through one of the following methods.

1. The Local Government may pay the property owner for existing right of way fences based on the value those fences contribute to the part taken and damages for an unfenced condition resulting from the right of way taking, in which case the estimated

value of those right of way fences and damages will be included in the recommended value and the approved value; or

2. The Local Government may perform the fencing on the property owner's remaining property.

**B.** When the Local Government performs right of way fencing as a part of the total right of way consideration, neither the value of existing right of way fences nor damages for an unfenced condition will be included in the recommended value or the approved value. State participation in the Local Government's cost of constructing right of way fencing on the property owner's remainder may be based on either the actual cost of the fencing or on a predetermined lump sum amount. The State will be given credit for any salvaged fencing material and will not participate in any overhead costs of the Local Government.

**C.** If State participation is to be requested on the lump sum basis, the State and the Local Government will reach an agreement prior to the actual accomplishment of the work as to the necessity, eligibility, and a firm commitment as to the cost of the entire fencing work to be performed. This is subject to the provision that the lump sum approved cost shall not exceed $20,000, except as specifically approved by the State. In the event the cost of the fencing is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based on the circumstances involved.

**15. Basis for Reimbursement Calculation**

**A.** The State will reimburse the Local Government for right of way acquired after the date of this agreement in an amount not to exceed ninety percent (90%), or the applicable EDC-adjusted percent, of the cost of the right of way acquired in accordance with the terms and provisions of this agreement. The State's reimbursement will be in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the State's predetermined value of each parcel, or the net cost of each parcel, whichever is less. All requests by the Local Government for reimbursement shall comply with the then current reimbursement submission requirements set forth in the *Texas Department of Transportation Right of Way Manual.*

**B.** If condemnation is necessary and title is taken under Article 9 (Condemnation), the participation by the State shall be based on the final judgment, conditioned on the State having been notified in writing prior to the filing of the suit and on prompt notice being given as to all action taken under the suit. The State shall have the right to become a party to the suit at any time for all purposes, including the right of appeal at any stage of the proceedings. All other items of cost shall be borne by the State and the Local Government as provided in other sections of this agreement.

**C.** If a lump sum fencing or utility adjustment agreement has been executed, the State will reimburse the Local Government in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the predetermined lump sum cost of the right of way fencing or utility adjustment.

**D.** If the Local Government prefers not to execute a lump sum agreement for either fencing or utility adjustments, the State will reimburse on the actual cost of that fencing or those adjustments. The Local Government's request for reimbursement will be supported by a breakdown of the labor, materials, and equipment used.

**16. Amendments**

Amendments to this agreement due to changes in the character of the work, terms of the agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written supplemental agreement.

**17. Notices**

All notices to either party by the other required under this agreement shall be delivered personally or sent by certified or U.S. mail, postage prepaid, to the following addresses:

| **Local Government:** | **State:** |
|---|---|
| Honorable Ramon Garcia | Director of Right of Way Division |
| Judge, Hidalgo County | Texas Department of Transportation |
| P.O. Box 1356 | 125 E. 11th Street |
| Edinburg, TX 78540 | Austin, Texas 78701 |

All notices shall be deemed given on the date delivered or deposited in the mail, unless otherwise provided by this agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that notices shall be delivered personally or by certified U.S. mail and that request shall be honored and carried out by the other party.

**18. Remedies**

This agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this agreement and shall be cumulative.

**19. Legal Construction**

If one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, that invalidity, illegality, or unenforceability shall not affect any other provisions and this agreement shall be construed as if it did not contain the invalid, illegal, or unenforceable provision.

**20. Responsibilities of the Parties**

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

**21. Compliance with Laws**

The parties shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this agreement. When required, the Local Government shall furnish the State with satisfactory proof of this compliance.

**22. Sole Agreement**

This agreement constitutes the sole and only agreement between the parties and supersedes any prior understandings or written or oral agreements respecting the subject matter of this agreement.

**23. Ownership of Documents**

Upon completion or termination of this agreement, all documents prepared by the State shall remain the property of the State. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use. All documents produced or approved or otherwise created by the Local Government shall be transmitted to the State in the form of photocopy reproduction on a monthly basis as required by the State. The originals shall remain the property of the Local Government. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

**24. Inspection of Books and Records**

The Local Government shall maintain all books, papers, accounting records, and other documentation relating to costs incurred under this agreement and shall make those materials available to the State and, if federally funded, the Federal Highway Administration (FHWA) or their duly authorized representatives for review and inspection at its office during the contract period and for four (4) years from the date of completion of work defined under this agreement or until any impending litigation, or claims are resolved. Additionally, the State and FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this agreement for the purpose of making audits, examinations, excerpts, and transcriptions.

**25. State Auditor**

The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a

subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**26. Procurement and Property Management Standards**
The parties shall adhere to the procurement standards established in Title 49 CFR §18.36 and with the property management standard established in Title 49 CFR §18.32.

**27. Civil Rights Compliance**
The parties to this agreement shall comply with the regulations of the U.S. Department of Transportation as they relate to nondiscrimination (49 CFR Part 21 and 23 CFR Part 200), and Executive Order 11246 titled "Equal Employment Opportunity," as amended by Executive Order 11375 and supplemented in the Department of Labor Regulations (41 CFR Part 60).

**28. Applicability of Federal Provisions**
Articles 29 through 34 only apply if Federal funding is used in the acquisition of right of way or the adjustment of utilities.

**29. Office of Management and Budget (OMB) Cost Principles**
In order to be reimbursed with federal funds, the parties shall comply with the Cost Principles established in OMB Circular A-87 that specify that all reimbursed costs are allowable, reasonable, and allocable to the Project.

**30. Disadvantaged Business Enterprise (DBE) Program Requirements**

**A.** The parties shall comply with the DBE Program requirements established in 49 CFR Part 26.

**B.** The Local Government shall adopt, in its totality, the State's federally approved DBE program.

**C.** The Local Government shall set an appropriate DBE goal consistent with the State's DBE guidelines and in consideration of the local market, project size, and nature of the goods or services to be acquired. The Local Government shall have final decision-making authority regarding the DBE goal and shall be responsible for documenting its actions.

**D.** The Local Government shall follow all other parts of the State's DBE program referenced in TxDOT Form 2395, Memorandum of Understanding Regarding the Adoption of the Texas Department of Transportation's Federally -Approved Disadvantaged Business Enterprise by Entity and attachments found at web address http://txdot.gov/business/business_outreach/mou.htm.

**E.** The Local Government shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Local Government shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non-discrimination in award and administration of DOT-assisted contracts. The State's DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Local Government of its failure to carry out its approved program, the State may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 USC 1001 and the Program Fraud Civil Remedies Act of 1986 (31 USC 3801 et seq.).

**F.** Each contract the Local Government signs with a contractor (and each subcontract the prime contractor signs with a sub-contractor) must include the following assurance: *The contractor, sub-recipient, or sub-contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this agreement, which may result in the termination of this agreement or such other remedy as the recipient deems appropriate.*

**31. Debarment Certification**

The parties are prohibited from making any award at any tier to any party that is debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549, "Debarment and Suspension." By executing this agreement, the Local Government certifies that it is not currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549 and further certifies that it will not do business with any party that is currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549. The parties to this contract shall require any party to a subcontract or purchase order awarded under this contract to certify its eligibility to receive federal funds and, when requested by the State, to furnish a copy of the certification.

**32. Lobbying Certification**

In executing this agreement, each signatory certifies to the best of that signatory's knowledge and belief, that:

**A.** No federal appropriated funds have been paid or will be paid by or on behalf of the parties to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal

contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

**B.** If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the signatory for the Local Government shall complete and submit the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

**C.** The parties shall require that the language of this certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and all sub-recipients shall certify and disclose accordingly. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Title 31 USC §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each failure.

**33. Federal Funding Accountability and Transparency Act Requirements**

**A.** Any recipient of funds under this agreement agrees to comply with the Federal Funding Accountability and Transparency Act and implementing regulations at 2 CFR Part 170, including Appendix A. This agreement is subject to the following award terms: http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf and http://edocket.access.gpo.gov/2010/pdf/2010-22706.pdf.

**B.** The Local Government agrees that it shall:

1. Obtain and provide to the State a Central Contracting Registry (CCR) number (Federal Acquisition Regulation, Part 4, Sub-part 4.1100) if this award provides for more than $25,000 in Federal funding. The CCR number may be obtained by visiting the CCR web-site whose address is: https://www.bpn.gov/ccr/default.aspx;
2. Obtain and provide to the State a Data Universal Numbering System (DUNS) number, a unique nine-character number that allows the Federal government to track the distribution of federal money. The DUNS number may be requested free of charge for all businesses and entities required to do so by visiting the Dun & Bradstreet on-line registration website http://fedgov.dnb.com/webform; and
3. Report the total compensation and names of its top five (5) executives to the State if:
   i. More than 80% of annual gross revenues are from the Federal government, and those revenues are greater than $25,000,000; and
   ii. The compensation information is not already available through reporting to the U.S. Securities and Exchange Commission.

**34. Single Audit Report**

**A.** The parties shall comply with the requirements of the Single Audit Act of 1984, P.L. 98-502, ensuring that the single audit report includes the coverage stipulated in OMB Circular A-133.

**B.** If threshold expenditures of $500,000 or more are met during the Local Government's fiscal year, the Local Government must submit a Single Audit Report and Management Letter (if applicable) to TxDOT's Audit Office, 125 E. 11th Street, Austin, TX 78701 or contact TxDOT's Audit Office at http://www.txdot.gov/contact_us/audit.htm.

**C.** If expenditures are less than $500,000 during the Local Government's fiscal year, the Local Government must submit a statement to TxDOT's Audit Office as follows: "We did not meet the $500,000 expenditure threshold and therefore, are not required to have a single audit performed for FY _____."

**D.** For each year the project remains open for federal funding expenditures, the Local Government will be responsible for filing a report or statement as described above. The required annual filing shall extend throughout the life of the agreement, unless otherwise amended or the project has been formally closed out and no charges have been incurred within the current fiscal year.

**35. Signatory Warranty**

Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

Local Government requested and has been granted an Economically Disadvantaged County Adjustment from the Texas Transportation Commission on **October 25, 2012** by virtue of attached Minute Order No. **113345**, and approved a **83%** percent adjustment to the required **10%** percent local participation for this project. Also attached are completed Affidavit and EDC Program Information Sheet.

This is an estimate. The final amount of Local Government participation will be based on actual costs.

**RE: Approved Economically Disadvantaged County (EDC) Program Application**
**FM 2220 from Mile 5 to FM 1924**
**CSJ: 2094-01-038**

Dear Judge Garcia:

Your attached application for an Economically Disadvantaged County (EDC) Program adjustment to the required local participation for the referenced project has been approved. The adjustment is detailed below. This adjusted local participation percentage will be reflected in the Right of Way Agreement.

| Project Component | Usual Local Participation | Adjustment Percentage | Adjusted Local Participation |
|---|---|---|---|
| Right of Way | 10% | 83% | 1.7% |

Should you have any questions regarding this reduction please contact Homero Bazan, Jr., P.E., our Director of Transportation Planning and Development, or myself at (956)702-6100. As always, we look forward to working with you toward the implementation of this project.

Sincerely,

Mario R. Jorge, P.E.
Pharr District Engineer

**TEXAS TRANSPORTATION COMMISSION**

VARIOUS Counties

VARIOUS Districts

**MINUTE ORDER**

Transportation Code, §222.053(a), defines an "economically disadvantaged county" as a county that has, in comparison to other counties in the state: (1) below average per capita taxable property value; (2) below average per capita income; and (3) above average unemployment.

Transportation Code, §222.053(c), directs the Texas Transportation Commission (commission), when evaluating a proposal for a highway project in a political subdivision that consists of all or a portion of an economically disadvantaged county, to adjust the minimum local matching funds requirement after evaluating the political subdivision's effort and ability to meet the requirement.

Transportation Code, §222.053(f), requires the commission to certify a county as economically disadvantaged on an annual basis as soon as possible after the Comptroller of Public Accounts (comptroller) provides reports on the economic indicators listed above.

43 TAC §15.55(b)(2) provides that, in determining the adjustment to the local matching funds requirement, and the local government's efforts and ability to meet the requirement, the commission will consider a local government's: (A) population level; (B) bonded indebtedness; (C) tax base; (D) tax rate; (E) extent of in-kind resources available; and (F) economic development sales tax.

The comptroller has provided the data needed to determine the counties eligible for the Economically Disadvantaged Counties Program for 2013. The counties' efforts and ability to provide a local match have been considered using the criteria set forth in 43 TAC §15.55. Exhibit A lists the eligible counties and the respective recommended local match adjustments. Exhibit B establishes additional local match adjustments for cities within these counties participating in the program.

IT IS THEREFORE ORDERED by the commission that the list of counties eligible for the 2013 Economically Disadvantaged Counties Program is certified and the local match adjustment for each county is established, as shown in Exhibit A, as well as additional adjustments for cities participating in the program, as shown in Exhibit B.

Cities within an Economically Disadvantaged County may receive higher percentage adjustments beyond their respective county's adjustment under two conditions: if they have a local economic development sales tax and their population is less than 5000. An adjustment can not exceed 95 percent or be less than 15 percent.

# EXHIBIT B

## Additional Adjustments for Cities Within an Economically Disadvantaged County FY 2013

Every eligible county receives an adjustment to its local match requirement ranging from 15 (minimum) to 95 (maximum) percent. A city within an economically disadvantaged county receives an adjustment equal to the adjustment for the county in which it is located, with the possibility of up to 10 additional percentage points based on its population and the existence of an economic development sales tax.

**The two following tables depict the additional percentage points that cities may be granted.**

HIDALGO COUNTY
BUDGET OFFICE
2014 FEB 12 PM 3 22

REF: Executed Agreement for Right of Way Procurement

County: Hidalgo
Project: FM 1925
Limits: From: Kenyon Road to FM 907
ROW CSJ: 1803-02-033

Honorable Judge Garcia,

Enclosed find three (3) originals of an Agreement for Right of Way Procurement-Local Government for the above referenced right of way acquisition project.

The agreement has been modified to reflect the County's request and award of an Economically Disadvantage County (EDC) Program adjustment. The Texas Transportation Commission granted the adjustment via Minute Order No. 113723. Enclosed find a separate letter from Toribio Garza, Jr., P.E., Pharr District Engineer to your attention, which awards the County an eighty nine percent (89%) adjustment to the required 10% cost participation thereby resulting in a Local Government cost participation of one point one percent (1.1%) and State cost participation of ninety eight point nine percent (98.9%) for this project.

We are herein respectfully requesting that agenda action items be presented at the next most available County Commissioners meeting to consider the execution of the enclosed agreement. Once presented, approved and executed, please forward the three original executed agreements and a copy of the resolution or ordinance approving the project to the Texas Department of Transportation. Your cost participation in the amount of Eight thousand Six Hundred and Ninety Dollars ($ 8,690.00) is calculated by applying the 89% EDC adjustment award to the 10% Hidalgo County cost participation requirement resulting in a cost participation breakdown of 98.9 % State and 1.1% Hidalgo County. The 1.1% is then applied to the estimated cost of right of way acquisition of Seven Hundred and Ninety Thousand Dollars ($ 790,000.00).

Upon receipt of the three (3) fully executed agreements and a copy of the resolution or ordinance approving the project, we will forward the executed agreements to our Right of Way Division Director in Austin for his review, approval and execution. We will also request that the ROW acquisition project be released.

Once we obtain the official release from the ROW Division, we will issue a written Notice of Project Release to advise Hidalgo County that the county may commence with the acquisition of the needed parcels for this project.

Your continued cooperative efforts towards the improvement of the Highway System in the State of Texas are most certainly appreciated.

Sincerely,

Nelda R. Eureste

**STATE OF TEXAS** §

**COUNTY OF TRAVIS** §

## AGREEMENT FOR RIGHT OF WAY PROCUREMENT

**THIS AGREEMENT** is made by and between the State of Texas, acting through the Texas Department of Transportation, called the "State", and **Hidalgo County**, Texas, acting through its duly authorized officials, called the "Local Government."

## WITNESSETH

**WHEREAS**, Texas Transportation Code §§ 201.103 and 222.052 establish that the State shall design, construct, and operate a system of highways in cooperation with local governments; and

**WHEREAS**, Texas Transportation Code § 201.209 authorizes the State and a Local Government to enter into agreements in accordance with Texas Government Code, Chapter 791; and

**WHEREAS**, the State has deemed it necessary to make certain highway improvements on Highway No. **1925** from **Kenyon Road** to **FM 907**, and this section of highway improvements will necessitate the acquisition of certain right of way and the relocating and adjusting of utilities, called the "Project"; and

**WHEREAS**, 43 Texas Administrative Code §15.55 defines the Local Government's cost participation in acquiring the right of way and relocating or adjusting eligible utilities for the proper improvement of the State Highway System; and

**WHEREAS**, the Governing Body of the Local Government has approved entering into this agreement by resolution or ordinance dated _____, 20__, which is attached to and made a part of this agreement as Attachment A. A map showing the Project location appears in Attachment B, which is attached to and made a part of this agreement.

**NOW THEREFORE,** the State and the Local Government do agree as follows:

## AGREEMENT

1. **Agreement Period**
   This agreement becomes effective when signed by the last party whose signing makes the agreement fully executed. This agreement shall remain in effect until the Project is completed or unless terminated as provided below.

2. **Termination**
   This agreement shall remain in effect until the project is completed and accepted by all parties, unless:
   **A.** The agreement is terminated in writing with the mutual consent of the parties;
   **B.** The agreement is terminated by one party because of a breach, in which case any cost incurred because of the breach shall be paid by the breaching party; or
   **C.** The Project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may in its discretion terminate this agreement.

3. **General**
   **A.** The Local Government agrees to proceed with acquisition of right of way and the State agrees to reimburse the Local Government for its share of the cost of the right of way, providing the acquisition and reimbursement are accomplished according to the provisions outlined in this agreement.
   **B.** The State and the Local Government agree that acquisition of this right of way shall be in accordance with the *Texas Department of Transportation Right of Way Manual* and all applicable federal and state laws governing the acquisition of real property.
   **C.** It is understood that the terms of this agreement shall apply to new right of way, authorized and requested by the State, which is needed and not yet dedicated, in use, or previously acquired in the name of the State or Local Government for highway, street, or road purposes. This agreement shall also apply, with regard to any existing right of way, to outstanding property interests not previously acquired and to eligible utility adjustments not previously made, as authorized and requested by the State.
   **D.** It is further understood that if unusual circumstances develop in the right of way acquisition and they are not clearly covered by the terms of this agreement, those unusual circumstances or problems will be resolved by mutual agreement between the State and the Local Government.

4. **Local Project Sources and Uses of Funds**
   **A.** The total estimated cost of the Project is shown in Attachment C, Project Budget Estimate, which is attached to and made a part of this agreement. The expected cash contributions from the Federal or State government, the Local Governments, or other parties are shown in Attachment C. The State will pay for only those project costs that have been approved by the Texas Transportation Commission. If Federal funding is

included, the State and the Federal Government will not reimburse the Local Government for any work performed before the federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information. The Local Government is responsible for 100% of the cost of any work performed under its direction or control before the federal spending authority is formally obligated.

**B.** If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.

**C.** The Project cost estimate in Attachment C shows how necessary resources for completing the Project will be provided by major cost categories. These categories may include but are not limited to: (1) costs of real property and (2) costs of utility work.

**D.** The State will be responsible for securing the Federal and State share of the funding required for the development of the local Project. If the Local Government is due funds for expenses incurred, these funds will be reimbursed to the Local Government on a cost basis.

**E.** The Local Government will be responsible for all non-federal or non-state participation costs associated with the Project, including any overruns in excess of the approved local project budget unless otherwise provided for in this agreement or approved otherwise in an amendment to this agreement.

**F.** In the event any existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive, including, but not limited to, outdoor advertising or storm water drainage facility requirements, is more restrictive than State or federal regulations, or any other locally proposed change, including, but not limited to, plats or re-plats, results in any increased costs to the State, then the Local Government will pay one hundred percent (100%) of all those increased costs, even if the applicable county qualifies as an Economically Disadvantaged County (EDC). The amount of the increased costs associated with the existing, future, or proposed Local Government ordinance, commissioner's court order, rule, policy, or other directive will be determined by the State at its sole discretion.

**G.** If the Local government is an EDC and if the State has approved adjustments to the standard financing arrangement, this agreement reflects those adjustments.

**H.** Payment under this contract beyond the end of the current fiscal biennium is subject to availability of appropriated funds. If funds are not appropriated, this contract shall be terminated immediately with no liability to either party.

**I.** The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

**5. Location Surveys and Preparation of Right of Way Data**

The State, without cost to the Local Government, will perform the necessary preliminary engineering and title investigation in order to supply to the Local Government the data and instruments necessary to obtain acceptable title to the desired right of way.

**6. Determination of Right of Way Values**

The Local Government agrees to make a determination of property values for each right of way parcel by methods acceptable to the State and to submit to the State a tabulation of those values, signed by the appropriate Local Government representative. The tabulation shall list the parcel numbers, ownership, acreage, and recommended compensation. Compensation shall be shown in the component parts of land taken, itemization of improvements taken, damages (if any), and the amounts by which the total compensation will be reduced if the owner retains improvements. This tabulation shall be accompanied by an explanation to support the determined values, together with a copy of information or reports used in arriving at all determined values. This work will be performed by the Local Government at its expense without cost participation by the State. The State will review the data submitted and may base its reimbursement on the values that are determined by this review. The State, however, reserves the right to perform at its own expense any additional investigation, including supplemental appraisal work by State employees or by employment of fee appraisers, deemed necessary for determination of values to constitute the basis for State reimbursement. The parties may waive the requirement that the Local Government submit to the State property value determinations for any part of the required right of way by a writing signed by both parties. In instances of a waiver, the State, in its discretion, will make a determination of values to constitute the basis for State reimbursement.

**7. Negotiations**

The State will notify the Local Government as soon as possible as to the State's determination of value. Negotiation and settlement with the property owner will be the responsibility of the Local Government without participation by the State; however, the Local Government will notify the State immediately prior to closing the transaction so that a current title investigation may be made to determine if there has been any change in the title. The Local Government will deliver properly executed instruments of conveyance that,

together with any curative instruments found to be necessary as a result of the State's title investigation, will properly vest good and indefeasible title in the State for each right of way parcel involved. The Local Government will also deliver to the State an owner's policy of title insurance for each parcel, except as otherwise specifically approved by the State. Upon payment to the property owner of the agreed purchase price, the Local Government is authorized and directed to secure for the State possession of each parcel in accordance with all applicable Federal and State laws governing relocation assistance, notices to vacate, and forcible detainer. The costs incidental to negotiation, recording the right of way instruments, and securing possession of the parcels will be the responsibility of the Local Government. The cost of title insurance, closing services, and all costs of relocation assistance as authorized by applicable Federal and State laws will be the responsibility of the State.

**8. Administrative Settlements**

After the offer has been delivered to the property owner, and prior to the Special Commissioners' Hearing, the property owner may deliver one written counteroffer ("Administrative Settlement Proposal") to the Local Government. The Local Government will evaluate the Administrative Settlement Proposal and make a recommendation of approval or disapproval to the State. The State will consider the Administrative Settlement Proposal and the Local Government's recommendation and make a final determination of approval or disapproval in accordance with current State procedures. The State's approval of the Administrative Settlement Proposal is only for purposes of closing the purchase of the property prior to the Special Commissioners' Hearing. If a closing of the purchase does not occur prior to the hearing, the State's approval is automatically, without further action, withdrawn, and the State will participate only in the original approved value. In the event the State does not approve the Administrative Settlement Proposal, and the Local Government elects to purchase the property at a value greater than the original approved value, the State's participation in the purchase price will apply only to the original approved value, and the Local Government will pay one hundred percent (100%) of the costs that exceed the original approved value, even if the applicable county qualifies as an EDC.

**9. Condemnation**

Condemnation proceedings will be initiated at a time selected by the Local Government and will be the Local Government's responsibility at its own expense except as follows. The Local Government will obtain from the State without cost current title information and engineering data at the time condemnation is to be initiated. Except as set forth elsewhere in this agreement, the Local Government will concurrently file condemnation proceedings and a notice of lis pendens for each case in the name of the State, and in each case the judgment of the court will decree title and possession to the property condemned to the State. The Local Government may, as set forth in Article 11 (Excess Takings) and where it is determined to be necessary, enter condemnation proceedings in its own name. Property acquired in the Local Government's name for the State must comply with requirements set

forth in the engineering data and title investigation previously furnished to the Local Government by the State when the Local Government conveys the property to the State.

**10. Court Costs, Costs of Special Commissioners' Hearings and Appraisal Expense**

Court costs and costs of Special Commissioners' Hearings assessed against the State or Local Government in condemnation proceedings conducted on behalf of the State and fees incident to those hearings will be paid by the Local Government. Those costs and fees, with the exception of recording fees, will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under the established reimbursement procedure, provided that they are eligible for payment by the State under existing law. Where the Local Government uses the State's appraisers employed on a fee basis in Special Commissioners' Hearings or subsequent appeals, the cost of the appraiser for updating the report, preparing new reports, preparing for court testimony, and appearing in court to testify in support of the appraisal will be paid direct by the Local Government, but will be eligible for ninety percent (90%), or the applicable EDC-adjusted percent, State reimbursement under established procedure provided prior approval for the appraiser has been obtained from the State. The fee paid to the appraiser by the Local Government shall be in accordance with the fee schedule set forth in the appraiser's contract for appraisal services with the State.

**11. Excess Takings**

In the event the Local Government desires to acquire land in excess of that requested by the State for right of way purposes, the State's cost participation will be limited to the property needed for its purposes. If the Local Government elects to acquire the entire property, including the excess taking, by a single instrument of conveyance or in one eminent domain proceeding, the property involved will be acquired in the name of the Local Government and that portion requested by the State for right of way will be separately conveyed to the State by the Local Government. When the property is acquired by negotiation, the State's participation will be based on the State's approved value of that part of the property requested for right of way purposes, provided that the approved value does not exceed the actual payment made by the Local Government. When the property is acquired by condemnation, the State's participation will be in the proportionate part of the final judgment amount computed on the basis of the relationship of the State's approved value to the State's predetermined value for the whole property.

**12. Improvements**

**A.** Property owners will be afforded an opportunity in the negotiations to retain any or all of their improvements in the right of way taking. In anticipation of the owner's desiring to retain improvements, the State's approved value will include the amounts by which the upper limit of State participation will be reduced for the retention. It is further agreed that the upper limit for the State's participation in the Local Government's cost for an improved parcel will be reduced as shown in the State's approved value where the owner retains an improvement that is to be moved by either the Local Government or

the owner. If improvements are, in whole or part, a part of the right of way taking and are not retained by the owner, title is to be secured in the name of the State.

**B.** The State will participate in the acquisition of a structure severed by the right of way line if the part of the house, building, or similar structure that lies outside the right of way cannot be reconstructed adequately or there is nothing but salvage left, provided that the State's value is established on this basis and provided that title to the entire structure is taken in the name of the State. The State shall dispose of all improvements acquired. The net revenue derived by the State from the disposition of any improvements sold will be credited to the cost of the right of way procured and shared with the Local Government.

**13. Relocation of Utilities**

If the required right of way encroaches on an existing utility located on its own right of way and the proposed highway construction requires the adjustment, removal, or relocation of the utility facility, the State will establish the necessity for the utility work. State participation in the cost of making the necessary change, less any resulting increase in the value to the utility and less any salvage value obtainable, may be obtained by either the "actual cost" or "lump sum" procedures. Reimbursement under "actual cost" will be made subsequent to the Local Government's certification that the work has been completed and will be made in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the eligible items of cost as paid to the utility owner after the completion of an audit. The "lump sum" procedure requires that the State establish the eligibility of the utility work and enter into a three-party agreement with the owners of the utility facilities and the Local Government. This agreement must set forth the exact lump sum amount of reimbursement. The utility will be reimbursed by the Local Government after proper certification by the utility that the work has been done, and the reimbursement will be based on the prior lump sum agreement. The State will reimburse the Local Government in an amount equal to ninety percent (90%), or the applicable EDC-adjusted percent, of the firm commitment as paid to the utility owner. Reimbursement is subject to the provision that the individual lump sum agreement approved value shall not exceed $20,000, except as specifically approved by the State. In those cases where a single operation is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based upon the circumstances involved. The firm commitment to the utility will be an appropriate item of right of way. The adjustment, removal, or relocation of any utility line on publicly owned right of way by sufferance or permit will not be eligible for State reimbursement. The term "utility" under this agreement shall include publicly, privately, and cooperatively owned utilities.

**14. Fencing Requirements**

**A.** The Local Government may handle fencing through one of the following methods.

1. The Local Government may pay the property owner for existing right of way fences based on the value those fences contribute to the part taken and damages for an unfenced condition resulting from the right of way taking, in which case the estimated

value of those right of way fences and damages will be included in the recommended value and the approved value; or

2. The Local Government may perform the fencing on the property owner's remaining property.

**B.** When the Local Government performs right of way fencing as a part of the total right of way consideration, neither the value of existing right of way fences nor damages for an unfenced condition will be included in the recommended value or the approved value. State participation in the Local Government's cost of constructing right of way fencing on the property owner's remainder may be based on either the actual cost of the fencing or on a predetermined lump sum amount. The State will be given credit for any salvaged fencing material and will not participate in any overhead costs of the Local Government.

**C.** If State participation is to be requested on the lump sum basis, the State and the Local Government will reach an agreement prior to the actual accomplishment of the work as to the necessity, eligibility, and a firm commitment as to the cost of the entire fencing work to be performed. This is subject to the provision that the lump sum approved cost shall not exceed $20,000, except as specifically approved by the State. In the event the cost of the fencing is estimated to exceed $20,000, the transaction will be brought to the attention of the State for determination of proper handling based on the circumstances involved.

**15. Basis for Reimbursement Calculation**

**A.** The State will reimburse the Local Government for right of way acquired after the date of this agreement in an amount not to exceed ninety percent (90%), or the applicable EDC-adjusted percent, of the cost of the right of way acquired in accordance with the terms and provisions of this agreement. The State's reimbursement will be in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the State's predetermined value of each parcel, or the net cost of each parcel, whichever is less. All requests by the Local Government for reimbursement shall comply with the then current reimbursement submission requirements set forth in the *Texas Department of Transportation Right of Way Manual.*

**B.** If condemnation is necessary and title is taken under Article 9 (Condemnation), the participation by the State shall be based on the final judgment, conditioned on the State having been notified in writing prior to the filing of the suit and on prompt notice being given as to all action taken under the suit. The State shall have the right to become a party to the suit at any time for all purposes, including the right of appeal at any stage of the proceedings. All other items of cost shall be borne by the State and the Local Government as provided in other sections of this agreement.

**C.** If a lump sum fencing or utility adjustment agreement has been executed, the State will reimburse the Local Government in the amount of ninety percent (90%), or the applicable EDC-adjusted percent, of the predetermined lump sum cost of the right of way fencing or utility adjustment.

**D.** If the Local Government prefers not to execute a lump sum agreement for either fencing or utility adjustments, the State will reimburse on the actual cost of that fencing or those adjustments. The Local Government's request for reimbursement will be supported by a breakdown of the labor, materials, and equipment used.

**16. Amendments**

Amendments to this agreement due to changes in the character of the work, terms of the agreement, or responsibilities of the parties relating to the Project may be enacted through a mutually agreed upon, written supplemental agreement.

**17. Notices**

All notices to either party by the other required under this agreement shall be delivered personally or sent by certified or U.S. mail, postage prepaid, to the following addresses:

| **Local Government:** | **State:** |
|---|---|
| Honorable Judge, Ramon Garcia<br>**Judge, Hidalgo County**<br>**P.O. Box 1356**<br>**Edinburg, TX 78540** | Director of Right of Way Division<br>Texas Department of Transportation<br>125 E. 11th Street<br>Austin, Texas 78701 |

All notices shall be deemed given on the date delivered or deposited in the mail, unless otherwise provided by this agreement. Either party may change the above address by sending written notice of the change to the other party. Either party may request in writing that notices shall be delivered personally or by certified U.S. mail and that request shall be honored and carried out by the other party.

**18. Remedies**

This agreement shall not be considered as specifying the exclusive remedy for any agreement default, but all remedies existing at law and in equity may be availed of by either party to this agreement and shall be cumulative.

**19. Legal Construction**

If one or more of the provisions contained in this agreement shall for any reason be held invalid, illegal, or unenforceable in any respect, that invalidity, illegality, or unenforceability shall not affect any other provisions and this agreement shall be construed as if it did not contain the invalid, illegal, or unenforceable provision.

**20. Responsibilities of the Parties**

The State and the Local Government agree that neither party is an agent, servant, or employee of the other party and each party agrees it is responsible for its individual acts and deeds as well as the acts and deeds of its contractors, employees, representatives, and agents.

**21. Compliance with Laws**

The parties shall comply with all federal, state, and local laws, statutes, ordinances, rules and regulations, and the orders and decrees of any courts or administrative bodies or tribunals in any manner affecting the performance of this agreement. When required, the Local Government shall furnish the State with satisfactory proof of this compliance.

**22. Sole Agreement**

This agreement constitutes the sole and only agreement between the parties and supersedes any prior understandings or written or oral agreements respecting the subject matter of this agreement.

**23. Ownership of Documents**

Upon completion or termination of this agreement, all documents prepared by the State shall remain the property of the State. All data prepared under this agreement shall be made available to the State without restriction or limitation on their further use. All documents produced or approved or otherwise created by the Local Government shall be transmitted to the State in the form of photocopy reproduction on a monthly basis as required by the State. The originals shall remain the property of the Local Government. At the request of the State, the Local Government shall submit any information required by the State in the format directed by the State.

**24. Inspection of Books and Records**

The Local Government shall maintain all books, papers, accounting records, and other documentation relating to costs incurred under this agreement and shall make those materials available to the State and, if federally funded, the Federal Highway Administration (FHWA) or their duly authorized representatives for review and inspection at its office during the contract period and for four (4) years from the date of completion of work defined under this agreement or until any impending litigation, or claims are resolved. Additionally, the State and FHWA and their duly authorized representatives shall have access to all the governmental records that are directly applicable to this agreement for the purpose of making audits, examinations, excerpts, and transcriptions.

**25. State Auditor**

The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this agreement or indirectly through a subcontract under this agreement. Acceptance of funds directly under this agreement or indirectly through a

subcontract under this agreement acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.

**26. Procurement and Property Management Standards**

The parties shall adhere to the procurement standards established in Title 49 CFR §18.36 and with the property management standard established in Title 49 CFR §18.32.

**27. Civil Rights Compliance**

The parties to this agreement shall comply with the regulations of the U.S. Department of Transportation as they relate to nondiscrimination (49 CFR Part 21 and 23 CFR Part 200), and Executive Order 11246 titled "Equal Employment Opportunity," as amended by Executive Order 11375 and supplemented in the Department of Labor Regulations (41 CFR Part 60).

**28. Applicability of Federal Provisions**

Articles 29 through 34 only apply if Federal funding is used in the acquisition of right of way or the adjustment of utilities.

**29. Office of Management and Budget (OMB) Cost Principles**

In order to be reimbursed with federal funds, the parties shall comply with the Cost Principles established in OMB Circular A-87 that specify that all reimbursed costs are allowable, reasonable, and allocable to the Project.

**30. Disadvantaged Business Enterprise (DBE) Program Requirements**

**A.** The parties shall comply with the DBE Program requirements established in 49 CFR Part 26.

**B.** The Local Government shall adopt, in its totality, the State's federally approved DBE program.

**C.** The Local Government shall set an appropriate DBE goal consistent with the State's DBE guidelines and in consideration of the local market, project size, and nature of the goods or services to be acquired. The Local Government shall have final decision-making authority regarding the DBE goal and shall be responsible for documenting its actions.

**D.** The Local Government shall follow all other parts of the State's DBE program referenced in TxDOT Form 2395, Memorandum of Understanding Regarding the Adoption of the Texas Department of Transportation's Federally -Approved Disadvantaged Business Enterprise by Entity and attachments found at web address http://txdot.gov/business/business_outreach/mou.htm.

**E.** The Local Government shall not discriminate on the basis of race, color, national origin, or sex in the award and performance of any U.S. Department of Transportation (DOT)-assisted contract or in the administration of its DBE program or the requirements of 49 CFR Part 26. The Local Government shall take all necessary and reasonable steps under 49 CFR Part 26 to ensure non-discrimination in award and administration of DOT-assisted contracts. The State's DBE program, as required by 49 CFR Part 26 and as approved by DOT, is incorporated by reference in this agreement. Implementation of this program is a legal obligation and failure to carry out its terms shall be treated as a violation of this agreement. Upon notification to the Local Government of its failure to carry out its approved program, the State may impose sanctions as provided for under 49 CFR Part 26 and may, in appropriate cases, refer the matter for enforcement under 18 USC 1001 and the Program Fraud Civil Remedies Act of 1986 (31 USC 3801 et seq.).

**F.** Each contract the Local Government signs with a contractor (and each subcontract the prime contractor signs with a sub-contractor) must include the following assurance: *The contractor, sub-recipient, or sub-contractor shall not discriminate on the basis of race, color, national origin, or sex in the performance of this contract. The contractor shall carry out applicable requirements of 49 CFR Part 26 in the award and administration of DOT-assisted contracts. Failure by the contractor to carry out these requirements is a material breach of this agreement, which may result in the termination of this agreement or such other remedy as the recipient deems appropriate.*

**31. Debarment Certification**

The parties are prohibited from making any award at any tier to any party that is debarred or suspended or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549, "Debarment and Suspension." By executing this agreement, the Local Government certifies that it is not currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549 and further certifies that it will not do business with any party that is currently debarred, suspended, or otherwise excluded from or ineligible for participation in Federal Assistance Programs under Executive Order 12549. The parties to this contract shall require any party to a subcontract or purchase order awarded under this contract to certify its eligibility to receive federal funds and, when requested by the State, to furnish a copy of the certification.

**32. Lobbying Certification**

In executing this agreement, each signatory certifies to the best of that signatory's knowledge and belief, that:

**A.** No federal appropriated funds have been paid or will be paid by or on behalf of the parties to any person for influencing or attempting to influence an officer or employee of any federal agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any federal

contract, the making of any federal grant, the making of any federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any federal contract, grant, loan, or cooperative agreement.

**B.** If any funds other than federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with federal contracts, grants, loans, or cooperative agreements, the signatory for the Local Government shall complete and submit the Federal Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions.

**C.** The parties shall require that the language of this certification shall be included in the award documents for all sub-awards at all tiers (including subcontracts, sub-grants, and contracts under grants, loans, and cooperative agreements) and all sub-recipients shall certify and disclose accordingly. Submission of this certification is a prerequisite for making or entering into this transaction imposed by Title 31 USC §1352. Any person who fails to file the required certification shall be subject to a civil penalty of not less than $10,000 and not more than $100,000 for each failure.

**33. Federal Funding Accountability and Transparency Act Requirements**

**A.** Any recipient of funds under this agreement agrees to comply with the Federal Funding Accountability and Transparency Act and implementing regulations at 2 CFR Part 170, including Appendix A. This agreement is subject to the following award terms: http://edocket.access.gpo.gov/2010/pdf/2010-22705.pdf and http://edocket.access.gpo.gov/2010/pdf/2010-22706.pdf.

**B.** The Local Government agrees that it shall:

1. Obtain and provide to the State a Central Contracting Registry (CCR) number (Federal Acquisition Regulation, Part 4, Sub-part 4.1100) if this award provides for more than $25,000 in Federal funding. The CCR number may be obtained by visiting the CCR web-site whose address is: https://www.bpn.gov/ccr/default.aspx;
2. Obtain and provide to the State a Data Universal Numbering System (DUNS) number, a unique nine-character number that allows the Federal government to track the distribution of federal money. The DUNS number may be requested free of charge for all businesses and entities required to do so by visiting the Dun & Bradstreet on-line registration website http://fedgov.dnb.com/webform; and
3. Report the total compensation and names of its top five (5) executives to the State if:
   i. More than 80% of annual gross revenues are from the Federal government, and those revenues are greater than $25,000,000; and
   ii. The compensation information is not already available through reporting to the U.S. Securities and Exchange Commission.

**34. Single Audit Report**

**A.** The parties shall comply with the requirements of the Single Audit Act of 1984, P.L. 98-502, ensuring that the single audit report includes the coverage stipulated in OMB Circular A-133.

**B.** If threshold expenditures of $500,000 or more are met during the Local Government's fiscal year, the Local Government must submit a Single Audit Report and Management Letter (if applicable) to TxDOT's Audit Office, 125 E. 11th Street, Austin, TX 78701 or contact TxDOT's Audit Office at http://www.txdot.gov/contact_us/audit.htm.

**C.** If expenditures are less than $500,000 during the Local Government's fiscal year, the Local Government must submit a statement to TxDOT's Audit Office as follows: "We did not meet the $500,000 expenditure threshold and therefore, are not required to have a single audit performed for FY _____."

**D.** For each year the project remains open for federal funding expenditures, the Local Government will be responsible for filing a report or statement as described above. The required annual filing shall extend throughout the life of the agreement, unless otherwise amended or the project has been formally closed out and no charges have been incurred within the current fiscal year.

**35. Signatory Warranty**

Each signatory warrants that the signatory has necessary authority to execute this agreement on behalf of the entity represented.

Local Government requested and has been granted an Economically Disadvantaged County Adjustment from the Texas Transportation Commission on **September 26, 2013** by virtue of attached Minute Order No. **113723**, and approved a **89** percent adjustment to the required **10** percent local participation for this project. Also attached are completed Affidavit and EDC Program Information Sheet.

This is an estimate. The final amount of Local Government participation will be based on actual costs.

December 6, 2013

The Honorable Ramon Garcia
County Judge, Hidalgo County
P.O. Box 1356
Edinburg, Texas 78540

**RE: Approved Economically Disadvantaged County (EDC) Program Application**
**FM 1925 from Kenyon Road to FM 907**
**CSJ: 1803-02-028**

Dear Judge Garcia:

Your attached application for an Economically Disadvantaged County (EDC) Program adjustment to the required local participation for the referenced project has been approved. The adjustment is detailed below. This adjusted local participation percentage will be reflected in the Right of Way Agreement.

| Project Component | Usual Local Participation | Adjustment Percentage | Adjusted Local Participation |
|---|---|---|---|
| Right of Way | 10% | 89% | 1.1% |

Should you have any questions regarding this reduction please contact Homero Bazan, Jr., P.E., our Director of Transportation Planning and Development, or myself at (956)702-6100. As always, we look forward to working with you toward the implementation of this project.

Sincerely,

Toribio Garza, Jr., P.E.
Pharr District Engineer

**TEXAS TRANSPORTATION COMMISSION**

VARIOUS Counties

VARIOUS Districts

**MINUTE ORDER**

Transportation Code, §222.053(a), defines an "economically disadvantaged county" as a county that has, in comparison to other counties in the state: (1) below average per capita taxable property value; (2) below average per capita income; and (3) above average unemployment.

Transportation Code, §222.053(c), directs the Texas Transportation Commission (commission), when evaluating a proposal for a highway project in a political subdivision that consists of all or a portion of an economically disadvantaged county, to adjust the minimum local matching funds requirement after evaluating the political subdivision's effort and ability to meet the requirement.

Transportation Code, §222.053(f), requires the commission to certify a county as economically disadvantaged on an annual basis as soon as possible after the Comptroller of Public Accounts (comptroller) provides reports on the economic indicators listed above.

43 TAC §15.55(b)(2) provides that, in determining the adjustment to the local matching funds requirement, and the local government's efforts and ability to meet the requirement, the commission will consider a local government's: (A) population level; (B) bonded indebtedness; (C) tax base; (D) tax rate; (E) extent of in-kind resources available; and (F) economic development sales tax.

The comptroller has provided the data needed to determine the counties eligible for the Economically Disadvantaged Counties Program for 2014. The counties' efforts and ability to provide a local match have been considered using the criteria set forth in 43 TAC §15.55. Exhibit A lists the eligible counties and the respective recommended local match adjustments. Exhibit B establishes additional local match adjustments for cities within these counties participating in the program.

IT IS THEREFORE ORDERED by the commission that the list of counties eligible for the 2014 Economically Disadvantaged Counties Program is certified and the local match adjustment for each county is established, as shown in Exhibit A, as well as additional adjustments for cities participating in the program, as shown in Exhibit B.

## Additional Adjustments for Cities Within an Economically Disadvantaged County FY 2014

Every eligible county receives an adjustment to its local match requirement ranging from 15 (minimum) to 95 (maximum) percent. A city within an economically disadvantaged county receives an adjustment equal to the adjustment for the county in which it is located, with the possibility of up to 10 additional percentage points based on its population and the existence of an economic development sales tax.

**The two following tables depict the additional percentage points that cities may be granted.**

***Economic Development Sales Tax:***

| | *ADDITIONAL PERCENTAGE* |
|---|---|
| YES | *5%* |
| NO | *0%* |

***Population:***

## Information

### CAPTION

County Energy Transportation Reinvestment Zone (CETRZ):
1. Discussion, consideration and approval of an Order authorizing the creation of a County Energy Transportation Reinvestment Zone (segment of FM1017).

2. Approval and appointment of members of CERTZ Advisory Committee

3. Discussion, consideration and approval to apply for the FY2014 County Transportation Infrastructure Fund Grant Program

4. Discussion, authorization and approval of designating Wallace Road and Brushline Road Projects to be funded by the County Transportation Infrastructure Grant Program

5. Discussion, consideration and approval of accepting county road report(s) to be included in the minutes of the Commissioner's Court

### BACKGROUND

A CETRZ must be a contiguous area in the County. As required by law, the County published notice on December 31, 2013, and conducted a public hearing on January 07, 2014, related to the creation of a CETRZ. Adoption of a CETRZ Order is necessary to apply for energy transportation infrastructure funds with TxDOT. The CETRZ order must specify the actual parcels with the zone by tax ID number. When fund are applied for, the County must also include a road condition report. There is a 20% match if the County is granted transportation infrastructure funds.

Starting at Parcel 277417 and ending at Parcel 277402 (West to East)

# SERVICE CONTRACT

## C-14-017-03-04

THIS CONTRACT is made and entered into this 4th day of March**,** 2014 by and between the County of Hidalgo, Texas ("County"), and **Roy's Hauling Service, Inc.** ("Company").

WHEREAS, Company responded to request for bids for **"Hauling of All Road Materials for Precinct No. 1,** more particularly described in Exhibit "A" (the "Services"); and

WHEREAS, Company submitted a bid to provide services in accordance with the specifications as bid, a copy of such specifications and bid being attached hereto as Exhibits "A" and "B" ("Vendor's Bid") respectively, and incorporated herein for all purposes (the "RFB Packet"); and

WHEREAS, in recognition of and in consideration of Company's agreement to perform the Services in accordance with Specifications, the Commissioners Court of County awarded the bid to Company.

NOW, THEREFORE, in mutual consideration of the foregoing and the further consideration of the following, the parties hereto agree as follows:

1. County and Company hereby agrees that this Contract is entered into in order to provide the Service to locations within Hidalgo County. This Contract does not extend to any third parties any duties or benefits conferred in any manner hereunder or otherwise.

2. Company hereby promises and agrees to render and provide, during the term of this Contract, and shall be obligated to render and provide the Services in accordance with the Specifications within **Hidalgo County** following a request for Services by the Hidalgo County Commissioner's Court or their designated agent(s). Company agrees in performing the Services that it will use proper professional standards, comply with any and all appropriate laws and regulations in providing the Services, and devote such time as is necessary to safely and efficiently provide the Services.

3. This Contract shall be for a period beginning **April 29, 2014** and ending **April 28, 2015** and may be extended at the sole discretion of County for an additional one (1) year period, unless this Contract is terminated pursuant to the provisions herein, whichever occurs first. County also reserves the right to continue this bid for an additional sixty (60) day Grace Period, under the same rates terms and conditions.

4. As a condition of this Contract, Company shall hold and maintain throughout the term of this Contract all licenses and permits required, or which may be required by any authority during the term hereof to provide the Services.

5. All trucks or vehicles operated by the Company to perform the Services shall contain all equipment required by any authority to operate on streets and roads and all persons in the employ of Company who operate such trucks or vehicles shall have the required licenses, qualifications, skill and expertise to perform such Services and shall comply with all laws, rules and regulations prescribed by any agency or authority having jurisdiction with regard to the operation of such trucks or vehicles in providing the Services.

6. As consideration for rendering the Service provided for in this Contract, the County agrees to pay Company the amounts specified in Exhibit "B" attached hereto payable against written invoice submitted by Company.

7. Company shall provide insurance in force on all its vehicles and all persons connected with providing services under this Contract naming County as an additional insured (with the coverages and in the amounts described on Exhibit "C" attached hereto and incorporated herein at this point for all purposes), and shall furnish to County certificates of such insurance coverage.

8. Company shall provide a sufficient number of trucks, vehicles, personnel and equipment available to safely and efficiently provide the Services.

9. Company shall indemnify and hold harmless County, its elected officials, employees and agents from any and all claims, damages, losses, and expenses including attorney's fees for the defense of any action against County arising out of, resulting from, or connected with the provision of the Service by Company under this Contract. Said indemnity shall cover any act or failure to act by the Company, its agents or employees.

10. This Contract shall not be assignable in whole or in part by either party without prior written consent of the other party.

11. It is expressly agreed that this Contract and the performance by the parties hereunder does not create any agency relationship or master-servant relationship that County has no supervision of the performance of the Services provided by Company, and that Company is an independent contractor under this Contract.

12. Any notice required or permitted to be given hereunder shall be in writing and shall be delivered personally or sent by certified mail, postage prepaid, as set forth below:

If to County: **The County of Hidalgo**
**Attn: County Judge**
**302 W. University Drive**
**Edinburg, Texas 78539**

If to Company **Roy's Hauling Service, Inc.**
**C/O Roy Balderas Jr.**
**PO Box 1896**
**Edinburg, Texas 78540**

13. In case any one or more of the provisions contained in this Agreement shall for any reason be held to be invalid, illegal or unenforceable in any respect, such invalidity, illegality, or unenforceability shall not affect any other provision thereof and this Agreement shall be construed as if such invalid, illegal, or unenforceable provision had never been contained herein.

14. Any contract award to a successful bidder will be in effect until (a) the contract expires, (b) delivery and acceptance of products, and/or performance of services ordered, or (c) terminated without cause by County with thirty (30) day's written notice prior to cancellation.

15. This Agreement shall be binding upon and inure to the benefit of and be enforceable by the parties hereto and their respective heirs, executors, administrators, legal representatives, successors, and assigns where permitted by this Agreement.

16. This Agreement shall be governed by and construed in accordance with the laws of the State of Texas and shall be performable in Hidalgo County.

17. **Entire Agreement**. This Agreement contains the entire contract between the parties hereto, and each party acknowledges that neither has made (either directly or through any agent or representative) any representation or agreement in connection with this Agreement not specifically set forth herein. This Agreement may be modified or amended only by agreement in

writing executed by the parties hereto, and not otherwise.

18. **Commitment of Current Revenues Only**. In the event that, during any term hereof, the Commissioners Court does not appropriate sufficient funds to meet the obligations of County under this Agreement, County may terminate this Agreement upon ninety (90) days written notice to Contractor. County agrees, however, to use reasonable efforts to secure funds necessary for the continuing right to terminate this Agreement at the expiration of each budget period of County pursuant to the provisions of Tex. Loc. Govt. Code Ann.§ 271.903 (Vernon Supp. 1995).

Hidalgo County Precinct No. 1
"Hauling Services for All Road Materials"
BID No. 2014-017-02-12-MEG
(NIGP CODE: 962-39)

## SPECIFICATIONS/REQUIREMENTS

Hidalgo County is seeking qualified companies to establish a contract for "Hauling Services for all Road Materials" for Pct 1. It is intended that all hauling of road materials will be awarded on a **per ton basis,** per mile radius. Hauling services will be on an **"As Needed Basis"** by the precinct.

1) Road materials (i.e. crushed caliche, sand, gravel, hot mix and cold mix) will be hauled from vendor pits that are currently holding the contract for material bids. Vendor(s) stated are presently on Contract for the materials; however, vendors may change due to contract expiration during the term of this bid. Awarded vendor(s) will be advised.

   Location of current pits and plants are as follows:
   - **Cold Laid** - Frontera Materials (La Joya Plant)
   - **Type D Hot Mix- Gravel** (Frontera Materials Progreso and La Joya Plant)
   - **Type D Hot Mix - Limestone** (Frontera Materials Progreso and La Joya Plant)
   - **Crushed Caliche** – Martin Marietta-(2 miles S. of Intersection FM 1017 & FM 3250 on 3250 Jericho Pitt-Linn, Tx.

2) Bid price for the services must be per ton basis, per mile radius on an **"As Needed Basis".**

3) Hidalgo County is requesting the minimum of **Five (5) vendor owned hauling trucks** (proof of ownership (title) shall be furnished along with your bid) to be available on an as needed basis with a minimum of twenty-two tons (22) per load. Please note the make, year, model, vehicle identification number, license plates and capacity of your hauling trucks on Exhibit "E".

4) The bidder(s) awarded the contract must furnish proof of possessing all necessary licenses, ownership (title for all owned vehicles) and permits pertaining to this project. Copies of all licenses, permits must be submitted to the Hidalgo County Purchasing Department with bid.

5) The bidder(s) awarded the contract **cannot** engage the services of a **subcontractor without prior written consent of Hidalgo County** to perform services hereunder. The successful bidder(s) must present evidence that the proposed subcontractor possess all the necessary licenses and permits to perform the services and that subcontractor has obtained the required insurance.

6) Contractual agreement is not exclusive, as Precinct No. 1 may use own hauling vehicles when necessary.

# EXHIBIT "A"

Hidalgo County Precinct No. 1
"Hauling Services for All Road Materials"
BID No. 2014-017-02-12-MEG
(NIGP CODE: 962-39)

## TERMS & CONDITIONS

1. The term of the bid contract will be for a period of one (1) year. Hidalgo County may in its sole discretion elect the option to extend the contract for one (1) additional year terms under the same rates, terms and conditions.

2. Hidalgo County reserves the right to continue this bid for an additional sixty (60) day grace period at the end of the contract term due to any unforeseen delay in the procurement process.

3. Hidalgo County reserves the right to award to MULTIPLE vendors if the County determines it is in its best interest to do so.

4. Hidalgo County reserves the right to reject any/all bids, to waive any/all formalities or technicalities, or to accept the bid considered the best and most advantage to the County giving due consideration to the location of the pit from the area of the precinct where the "Hauling Services" is to be transported.

5. Hidalgo County reserves the right to hold bids for a period of ninety (90) days without taking any action.

6. Any contract awarded to a successful bidder will be in effect until: (a) the contract expires, (b) delivery and acceptance of products and/or performance of services ordered or (c) terminated by County with thirty (30) days written notice prior to cancellation.

7. Hidalgo County may utilize "**State Awarded Contracts**" when it is in the County best interest to do so.

8. Hidalgo County reserves the right to award the low bid on a per ton/per mile radius basis to one bidder or to multiple bidders if the County determines it is in the best interest to do so.

9. Insurance Certificates (Exhibit "C") must be submitted to the Purchasing Department for approval prior to any services being performed by the awarded bidder.

10. After bid is awarded and lowest bidder(s) default s in meeting the general instructions to bidders and/or comply with contract agreement, Hidalgo County reserves the right to seek services from the next low bidder. In such event, County shall charge the successful bidder the difference for any additional cost of such item.

11. All costs and expenses associated with the preparation and submission of (bids, proposals and/or quotes) shall be the responsibility of the bidder and no reimbursements for such charges or expenses shall be passed onto Hidalgo County.

**Market Volatility and Unit Price Adjustments**:
Hidalgo County recognizes that during periods of national crisis and unstable economic conditions, unforeseen price increases might affect costs for goods and services contracted on an annual basis. The following procedure may be employed to mediate price volatility:

1. **Requesting Price Adjustment**: Upon written request of the Vendor to the County Purchasing Agent, the County may review evidence of prevailing industry-wide market conditions that warrant an adjustment in bid prices contained in the contract.

   - A Vendor must tie any price change clause to an industry-wide or otherwise nationally recognized index, or some other form of verifiable document. Such written request must be accompanied by a certified copy of the supplier's advisory or notification to the vendor of the price changes.
   - The Vendor must put the Purchasing Agent on the mailing lists for such publications so that the Purchasing Agent can monitor said changes. Such membership shall be at no cost to the County.
   - The County Purchasing Agent retains the right to determine whether or not such proposed price changes are in the best interest of the County.
   - No price escalation will be authorized in excess of the amount of the increase referred to in the supplier's notice.
   - The County may only grant a price increase if the evidence presented is deemed reliable. Should the County allow a price increase, the approved price change shall be honored for all orders received by the vendor or contractor after the effective date of such price change. Approved price changes are not applicable to orders already issued and in process at time of price change.

2. **Price Reduction**: Vendor shall notify the County at the time when the Vendor's costs for items and/or supplies reduce due to stabilization in the market at which time prices for items on this contract shall be reduced accordingly. Failure by the Vendor to notify the County of a decrease in costs for items and/or supplies for which the Vendor was granted a price adjustment, may result in immediate termination of this contract and the County shall not be obligated to pay the Vendor the difference between the contract price and the price adjustment.

3. **Timeframe for Adjusted Price Increases:** Price increases are only valid for the quarter in which they are requested and approved. Prices shall return to the original contract price at the beginning of the following quarter unless a Vendor notifies the County in writing within ten (10) days of expiration of the quarter in which the price increase is in effect, that it desires to have the price increase continue or that the Vendor is requesting a different price increase for the following quarter. Such request must be supplemented with sufficient justification to demonstrate that the price increase remains necessary. The County Purchasing Department shall have sole discretion whether to grant the price increase extension. The County too, shall have discretion to unilaterally reduce,

eliminate or extend a price adjustment to the Vendor at any time upon written notice from the County to the Vendor demonstrating justification for such reduction, elimination or extension of the price adjustment.

4. **Allowable Review Periods**: Price adjustment reviews may only be requested by the Vendor on a quarterly basis. However, the County may at its own discretion, conduct temporary price adjustment reviews at any time. The County Purchasing Agent and/or the County Auditor reserve the right to audit and/or examine any pertinent books, documents, papers, records or invoices relating directly to the contract transaction in question after reasonable notice and during normal business hours.

5. **Dollar Limit to Price Changes**: The total increase in contract price shall not exceed twenty-five percent (25%) of the original contract price during the contract term.

## ADDITIONAL INFORMATION

Hidalgo County is requesting that any and all questions, inquiries, and clarifications regarding quotes, bids, proposals, or statements of qualifications be addressed to, Martha L. Salazar, CPPB, Purchasing Agent, Attn: Cris Ayala, 2812 S. Business Hwy. 281, Edinburg, Texas 78539. **TELEPHONE INQUIRIES WILL NOT BE ACCEPTED.**

**ALL WRITTEN INQUIRIES WILL BE ACCEPTED VIA FACSIMILE TO (956) 292-7612 OR VIA E-MAIL TO cris.ayala@co.hidalgo.tx,us by NO LATER THAN WEDNESDAY, FEBRUARY 5, 2014 BY 5:00 P.M.** Responses will be sent to all applicants via facsimile or e-mail by no **later than WEDNESDAY, FEBRUARY 7, 2014 BY 5:00 P.M.**

## PART II

### Bid Price Adjustment by Hidalgo County Precinct No. 1

**At the time of bid opening South Texas is experiencing historic high fuel prices. Therefore, Hidalgo County Precinct No. 1 is requesting pricing adjustments based on the following:**

A Fuel Cost Base Bid Price for project will be based on the OPIS Fuel Index for **February 7, 2014**. For each 10% (increase or decrease) in the current OPIS Index of **February 7, 2014** during the contract term, the fuel cost(s) portion of the awarded bid price(s) will be adjusted accordingly. (As per above samples, a 10% increase is reflected as follows: $ 1.00=$1.10 and $ 1.10=$1.21; a 10% decrease is reflected as follows: $1.00=$0.90 and $1.10=$0.99)

In the event you submit an invoice reflecting a price change under this provision, the Hidalgo County Precinct No. 1 will only honor the change if a copy of the OPIS report on which the change is based accompanies the invoice. Additionally, the Hidalgo County Precinct No. 1 reserves the right to independently verify changes in OPIS pricing and to modify an invoice amount based on a 10% change in the OPIS Index.

**In determining whether price changes are permitted hereunder, vendor must submit the appropriate OPIS Index issued on the date of the vendor's billing invoice.**

Acknowledgment and agreement to Bid Price Adjustment Part I & II for the term of the contract including any grace period extension.

External Notes :
Due to standard engineering changes, a quote may be invalidated at anytime. Should this occur, a new un-submitted order and quote will need to be generated. Also note that a quote can only be ordered one time, with a quantity of 1. After order submission, the quote will be expired. A new un-submitted order and quote will need to be generated to createanother order. Pricing may not be final if an "Order by Description/SpecialQuote" feature is desired. Order price is determined based on the price effective at the date of order creation.

## Holt Truck Center - Roll-Off Truck Quote

**From :** Katia Garcia <katia.garcia@co.hidalgo.tx.us> Thu, Feb 27, 2014 10:28 AM

**Subject :** Holt Truck Center - Roll-Off Truck Quote 1 attachment

**To :** Evangelina Garcia <evangelina.garcia@co.hidalgo.tx.us>

**Cc :** Rolando Garcia <rolando.garcia@co.hidalgo.tx.us>, Raul Lozano <raul.lozano@co.hidalgo.tx.us>

Good Morning Ms. Vangie,

Attached please find quote we spoke about this morning. Mr. Lozano is requesting this item be placed for next CC meeting of 3/6/14. Rolando Garcia will be providing us the funding information. Would appreciate if you could please email us the agenda item once you have it so he may have for his reference.

Please let us know if you have any questions or require additional information.

Thank You,

--

# *AEP Texas Central Company*

Contribution-In-Aid-Of-Construction Agreement
For Electric Distribution Service

HIDALGO COUNTY MAINTENANCE FACILITY
Service: 4011 S VETERANS BLVD
SAN JUAN, TX

Contract #: DWMS00000230329 Work Request #: 52612681

Date: 2/19/2014

You, HIDALGO COUNTY MAINTENANCE FACILITY (Customer) have requested AEP Texas Central Company (Company) to install/construct certain electric distribution facilities (hereinafter referred to as "Facilities") as follows:EXTEND OVERHEAD SINGLE PHASE TO SERVE NEW HIDALGO MAINTENANCE FACILITY

The cost for construction/installation of the requested Facilities will be in excess of what would normally be provided by Company at no additional cost to the Customer to initiate service. In accordance with the Company's approved Tariff, as filed with the Public Utilities Commission of Texas, the Customer agrees to pay Company a one-time, non-refundable, Contribution-In-Aid-Of-Construction (CIAC) in the amount of 10,951.41. The Customer understands that he/she receives no ownership or control of the Facilities by virtue of the payment of the CIAC. The Facilities installed by the Company will remain the property of the Company. The Company expressly retains the right to use said Facilities for any purpose which Company deems appropriate under good utility practices, including the distribution of electric service to other customers.

Company agrees to EXTEND OVERHEAD SINGLE PHASE TO SERVE NEW HIDALGO MAINTENANCE FACILITY, and the Customer agrees to provide PAY CIAC BEFORE RELEASING JOB. and to be ready to take electric service on or before 02/19/2014.

It is understood and agreed that the Company will not begin construction/installation of the Facilities until full payment of the CIAC has been received by the Company; therefore, Customer understands and agrees that he/she needs to make full payment of the CIAC in sufficient time to allow for the construction/installation to be completed by the In Service Date.

The pricing of the CIAC quoted herein is based on the specifics of the Customer's request, including the Customer's stated In Service Date, and must be accepted by the Customer by executing and returning to the Company this Agreement by 5/20/2014 to remain valid. Should Customer alter the request for facilities, or request a delay in (or is otherwise unable to take service by) the stated In Service Date, the Company reserves the right to update the pricing and require an additional CIAC payment to reflect any increases in cost due to the alteration in requested facilities or the delay in taking service, or both.

Nothing contained herein shall be construed as a waiver or relinquishment by Company of any right it has or may hereafter have to discontinue service for default in the payment of any bill owing or to become owing hereunder or for any reason or cause allowed by law.

By signing and returning this Agreement, Customer understands and accepts the above described terms and conditions.

# MEMORANDUM

# "SOLE SOURCE DECLARATION"

TO: Hidalgo County Commissioners' Court

FROM: Martha L. Salazar
Hidalgo County Purchasing Agent

DATE: March 6, 2014

RE: "Sole Source Declaration"- Hidalgo County Maintenance Facility

---

American Electric Power (AEP) is the sole provider in Hidalgo County for a turn-key solution to supply lighting equipment, as well as repairs and maintenance services.

Hidalgo County requires a turn-key solution to extend overhead single phase for the new (under construction) Hidalgo County Precinct No. 2 Equipment and Maintenance Facility.

Therefore commencing with Precinct #2, Hidalgo County requires a Contribution-In-Aid-of-Construction Agreement with AEP for the provision of a turn-key solution to provide and service the new Hidalgo County Precinct No. 2 Equipment and Maintenance Facility (under construction).

This declaration will remain in effect as long as American Electric Power (AEP) continues to be the sole source for turn-key solutions for lighting with repair and maintenance services for all applicable Hidalgo County Elected Offices, Departments, Programs and Agencies (for all eligible, permitted and applicable funding sources) unless otherwise revoke by Hidalgo County Commissioners Court.

REMOVAL AND REPLACEMENT OF EXISTING AND TEMPORARY FENCES SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.
8. ANY DAMAGES TO FENCES, WALKS, OR PRIVATE PROPERTY SHALL BE REPAIRED BY THE CONTRACTOR AT HIS EXPENSE.
9. THE CONTRACTOR SHALL AT ALL TIME PROVIDE ACCESS TO EXISTING RESIDENCES.
10. THE CONTRACTOR IS TO MAINTAIN ALL EQUIPMENT AND TRANSPORTATION OF SAID EQUIPMENT WITHIN THE EXISTING RIGHT-OF-WAYS OF THE CITY, COUNTY OR STATE.
11. NO OPEN EXCAVATION SHALL BE LEFT OPEN OVERNIGHT. ALL EXCAVATIONS WHICH CANNOT BE BACKFILLED OVERNIGHT SHALL BE COVERED, AS A MINIMUM, WITH STEEL PLATING WHEN IN PAVED AND UNPAVED AREAS SUBJECT TO VEHICULAR LOADING; ¾ PLYWOOD, WOOD PLANKING WITH O.S.H.A. ORANGE PLASTIC EXPANDED MESH BARRIER AROUND PERIMETER IN UNPAVED AREAS NOT SUBJECT TO VEHICULAR LOADING, OR AS APPROVED BY THE ENGINEER.
12. THE PREPARATION OF THESE PLANS REFLECTS INFORMATION, PROVIDED BY OTHERS, ON THE APPROXIMATE LOCATION AND EXISTENCE OF EXISTING UTILITY AND ADJACENT PHYSICAL FEATURES. HOWEVER, THEY DO NOT IMPLY OR AFFIRM THAT ALL UTILITIES OR PHYSICAL FEATURES ARE SHOWN. GENERALLY, UTILITY SERVICE CONNECTIONS ARE NOT INDICATED ON THESE PLANS. CONTRACTOR IS RESPONSIBLE FOR NOTIFICATIONS OF THE OWNER IMMEDIATELY UPON ENCOUNTERING UNFORESEEN CONFLICTS.
13. THE APPROXIMATE LOCATIONS OF KNOWN EXISTING UTILITIES ARE SHOWN, CONTRACTOR SHALL DETERMINE THE EXACT HORIZONTAL AND VERTICAL LOCATIONS IN THE FIELD PRIOR TO COMMENCING WORK. CONTRACTOR TO BE FULLY RESPONSIBLE FOR DAMAGES WHICH MIGHT OCCUR BY HIS FAILURE TO EXACTLY LOCATE AND PRESERVE EXISTING UTILITIES.
14. PUBLIC AND PRIVATE UTILITY LINES AND CUSTOMER SERVICE LINES MAY EXIST THAT ARE NOT SHOWN ON THE CONSTRUCTION DRAWINGS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO LOCATE, MAINTAIN AND PROTECT THE INTEGRITY OF THESE LINES. HAND EXCAVATION MAY BE REQUIRED. THE CONTRACTOR SHALL RESTORE RELOCATED OR DIVERTED UTILITY TO ITS ORIGINAL CONDITION AND LOCATION WHEN APPLICABLE UPON COMPLETION OF CONSTRUCTION. SAID RESTORATION SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.
15. WHERE NEW WATER LINES AND SEWER LINES ARE INSTALLED WITH A SEPARATION DISTANCE CLOSER THAN NINE FEET (I.E., WATER LINES CROSSING WASTEWATER LINES, WATER LINES PARALLELING WASTEWATER LINES, OR WATER LINES NEXT TO MANHOLES) THE INSTALLATION MUST MEET THE REQUIREMENTS OF 30 TAC 317 (DESIGN OF SEWAGE SYSTEMS) OR 30 TAC 290 (WATER HYGIENE).
16. THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING WATER AND SEWER CONNECTIONS TO ALL HOMES AND BUSINESSES IN WORKING ORDER AT ALL TIMES, EXCEPT FOR BRIEF INTERRUPTIONS IN SERVICE FOR CONNECTIONS TO BE REINSTALLED. IN NO CASE SHALL SERVICES BE ALLOWED TO REMAIN OUT OF SERVICE OVERNIGHT. CONTRACTOR IS RESPONSIBLE FOR DAMAGES TO SAID SERVICES.
17. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR ANY SURFACE IRREGULARITIES, AS DIRECTED BY THE ENGINEER, CAUSED BY THE CONTRACTOR'S WORKING OPERATIONS.
18. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ADEQUATE DRAINAGE OF PROPOSED FACILITIES AT ALL TIMES DURING CONSTRUCTION.
19. THE CONTRACTOR SHALL CLEANUP AND RESTORE THE AREA OF OPERATIONS TO A CONDITION AS GOOD AS OR BETTER THAN THAT WHICH EXISTED PRIOR TO INSTALLATION OF ALL ITEMS TO BE CONSTRUCTED.
20. THE CONTRACTOR SHALL BE RESPONSIBLE FOR GRADING AREA BETWEEN THE BACK OF CURB/EDGE OF PAVEMENT, ROAD SIDE DITCH AND RIGHT-OF-WAY TO HAVE POSITIVE FLOW TO THE PROPOSED DRAINAGE SYSTEM.
21. THE CONTRACTOR SHALL PROVIDE POSITIVE DRAINAGE AT ALL TIMES DURING THE INSTALLATION OF THE STRUCTURES, DRAINAGE, UTILITY, IRRIGATION AND ROAD IMPROVEMENTS. DEWATERING OF THE TRENCH MAY BE REQUIRED DURING THE INSTALLATION OF THE DRAINAGE, UTILITY AND IRRIGATION FACILITIES/STRUCTURES. SAID DEWATERING SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.
22. THE CONTRACTOR IS RESPONSIBLE FOR THE PREPARATION AND SUBMITTAL OF THE TRENCH EXCAVATION PROTECTION PLAN. CONTRACTOR SHALL SUBMIT CONSTRUCTION DETAILS AND DESIGN CALCULATIONS BEARING THE SEAL OF A PROFESSIONAL ENGINEER LICENSED TO PRACTICE IN THE STATE OF TEXAS BEFORE CONSTRUCTING THE SHORING AND/OR UTILIZING A TRENCH PROTECTION SYSTEM (BOX). THE ENGINEER RESERVES THE RIGHT TO REJECT DESIGNS NOT MEETING THE REQUIREMENTS OF SECTION ITEM 402 AND 403.
23. THE CONTRACTOR SHALL PROVIDE STORM WATER POLLUTION PREVENTION PLAN (SWP3) PRIOR TO COMMENCEMENT OF CONSTRUCTION AS REQUIRED BY HIDALGO COUNTY AND OR TCEQ.
24. ALL DEBRIS, VEGETATION AND SURPLUS MATERIAL, EXCEPT ROADWAY SECTION, RESULTING FROM DEMOLITION AND/OR CLEARING OF THE RIGHT-OF-WAY AND PROJECT LOCATION, IN PREPARATION OF PROPOSED IMPROVEMENTS, SHALL BECOME PROPERTY OF THE CONTRACTOR AND SHALL BE PROPERLY DISPOSED OF AT A SITE ACCEPTABLE TO HIDALGO COUNTY PRECINCT No 2. THE CONTRACTOR SHALL PROVIDE A LETTER STATING SO. THIS SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM UNLESS STATED SO. NO EXCESS EXCAVATED MATERIAL SHALL BE DEPOSITED IN LOW AREAS OR ALONG NATURAL DRAINAGE WAYS WITHOUT WRITTEN PERMISSION FROM THE AFFECTED PROPERTY OWNER AND THE HIDALGO COUNTY PRECINCT No 2. IF THE CONTRACTOR PLACES EXCESS MATERIAL IN THE AREAS WITHOUT WRITTEN PERMISSION, HE WILL BE RESPONSIBLE FOR ALL DAMAGE RESULTING FROM SUCH FILL AND CONTRACTOR SHALL REMOVE THE MATERIAL AT OWN COST.
25. ALL ROAD SHALL BE REPLACED WITH 8" COMPACTED CALICHE AND 2" HMAC.
26. COUNTY WILL PROVIDE CALICHE MATERIAL AND CONTROL POINTS (BENCHMARK AND PROPERTY CORNERS) FOR THE WORK TO BE PERFORMED BY THE CONTRACTOR. CONTRACTOR SHALL BE RESPONSIBLE FOR CONSTRUCTION STAKING, INCLUDING BUT NOT LIMITED TO HORIZONTAL & VERTICAL GRADE CUTS FOR CURB & GUTTER AND ROADWAY. BASE AND SUB GRADE SHALL HAVE A MINIMUM CROSS SLOPE OF 3.0%.
27. EXISTING ROAD SECTION TO BE EXCAVATED AND STOCKPILED. THE PRODUCT OF THE CRUSHED ASPHALT PAVEMENT (MAX 2" PIECES IN SIZE) AND SALVAGE CALICHE SHALL BE TREATED WITH TWO (2) PERCENT LIME BY DRY WEIGHT OF SALVAGE MATERIAL. TREATED SALVAGE MATERIAL SHALL BE USED IN THE BOTTOM HALF OF THE PROPOSED ROAD. 8 IN. BASE SHALL HAVE A MINIMUM OF 4 IN. NEW CLAICHE AT THE TOP; THE REMAINING BOTTOM HALF SHALL BE ENTIRELY TREATED SALVAGE MATERIAL OR A COMBINATION OF TREATED SALVAGE MATERIAL AND NEW CALICHE. THE BASE SECTION SHALL BE COMPACTED TO 98% STANDARD PROCTOR DENSITY. IF APPLICABLE, THE EXCESS SALVAGE MATERIAL CAN BE TREATED AND USED AS SUB-GRADE TO ATTAIN THE PROPOSED CROSS SECTION OF THE ROAD. SUB-GRADE SHALL BE COMPACTED TO 95% STANDARD PROCTOR DENSITY. THE LIME TREATMENT OF THE EXISTING ROAD SECTION AND ADDITIONAL SUB-GRADE FILL, THE ADDITIONAL SUB-GRADE FILL MATERIAL (TO ATTAIN PROPOSED SUB-GRADE WIDTH) AND THE GRADING OF THE CROSS-SLOPE OF THE ROAD SECTION STARTING WITH THE SUB-GRADE SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM AND SHALL BE REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.
28. NEW CALICHE MATERIAL SHALL BE TREATED WITH 0.5% LIME BY DRY WEIGHT OF MATERIAL IF THE PLASTICITY INDEX OF SAID MATERIAL IS GREATER THAN 12. THE GRADATION SHALL BE ARGILLACEOUS LIMESTONE, CALCAREOUS OR CALCAREOUS CLAY PARTICLES, WITH OR WITHOUT STONE CONGLOMERATE GRAVEL, SAND OR GRANULAR MATERIAL:

TYPE D GRADE 6

## GENERAL NOTES (CONT):

29. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPLACEMENT/RELOCATION OF ALL REGULATORY SIGNS REMOVED DUE TO CONSTRUCTION OPERATIONS WITH THE SAME SIGN ON FIXED SUPPORT(S) IMMEDIATELY UPON ITS REMOVAL. APPROVAL BY THE ENGINEER IS NECESSARY BEFORE REMOVING ANY REGULATORY ROADWAY SIGN(S). FLAGGERS ARE REQUIRED TO BE AVAILABLE TO DIRECT TRAFFIC DURING SIGN INTERMEDIATE DOWN TIME. RELOCATION OF ANY DIRECTIONAL SIGN ASSEMBLIES REMOVED DURING CONSTRUCTION OPERATIONS, IMMEDIATELY UPON THEIR REMOVAL, IS REQUIRED. ALL SIGNING, BARRICADING AND TRAFFIC CONTROL SHALL CONFORM TO THE LATEST VERSION OF THE "TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES". IN NO CASE WILL A SIGN BE REMOVED WITHOUT A REPLACEMENT SIGN AND SUPPORT(S) BEING READILY AVAILABLE AND A LOCATION ESTABLISHED. REMOVAL AND RELOCATION OF THESE SIGNS WILL NOT BE PAID FOR DIRECTLY, BUT SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED ON THE PROPOSED.

30. AS DIRECTED BY THE ENGINEER, THE CONTRACTOR SHALL INSTALL APPROPRIATE TRAFFIC CONTROL DEVICES IN CONFORMANCE WITH THE TXMUTCD LATEST EDITION, AND AS PROVIDED BY THE ENGINEER.

31. THE CONTRACTOR SHALL RELOCATE OR RECONSTRUCT ALL MAIL BOXES TO BE 1' BEHIND BACK OF CURB. MAIL BOXES SHALL BE REPLACED TO THE SAME EXISTING CONDITIONS OR BETTER. SAID RELOCATION OF MAIL BOXES SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

32. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ADJUSTING ALL EXISTING WATER VALVES AND MANHOLES TO MATCH PROPOSED FINISH GRADE OF ROADWAY. CONCRETE COLLARS SHALL BE INSTALLED TO MATCH TOPS WITH PAVEMENT GRADE. THIS WORK SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM UNLESS STATED OTHERWISE.

33. DURING EXCAVATION OPERATIONS FOR DRAINAGE AND/OR UTILITIES, THE CONTRACTOR SHALL NOT PILE EXCAVATED MATERIAL OR EXCAVATE WITHIN THE DRIP LINE OF TREES THAT ARE TO BE PRESERVED.

34. THE CONTRACTOR SHALL BE RESPONSIBLE FOR IMPROVING ALL EXISTING DRIVEWAYS AS PER PROPOSED CONDITIONS STATED IN DRIVEWAY TABLE WORKSHEET.

GENERAL NOTES

1. BEFORE ATTEMPTING TO INSTALL ANY MANHOLE BE SURE EXCAVATION HAS BEEN SHORED OR SLOPED PROPERLY.
2. CONCRETE BASE TO BE POURED IN PLACE IN TRENCH.
3. MANHOLE CUT-OUT TO BE MADE AT TIME OF INSTALLATION.
4. MANHOLE TO BE INSTALLED BY INSERTING INTO WET CONCRETE BASE.
5. FUTURE CONNECTIONS. IF A SEALANT BETWEEN PIPE & MANHOLE IS NEEDED USE STAUFFER CHEMICAL SWS940RTV SILICONE SEALANT OR EQUAL.
6. USE 4'-0" INSIDE DIAMETER (ID) PRECAST SECTION FOR SEWERS WHOSE NOMINAL SIZE IS 24" OR SMALLER.
7. USE 5'-0" ID SECTION FOR SEWER SIZES 30"-36"
8. USE 6'-0" ID SECTIONS FOR SEWERS LARGER THEN 30".
9. MANHOLE SHALL BE PLACED ON 6-INCH SAND BEDDING.
10. SUBGRADE SHALL BE COMPACTED TO 95% DENSITY
11. 6" DIAMETER BY 12" CONCRETE COLLAR REQUIRED WHEN INSIDE PAVEMENT

*SECTION "A-A"*

## CAST-IN-PLACE 4' DIA. CONCRETE STORM SEWER MANHOLE

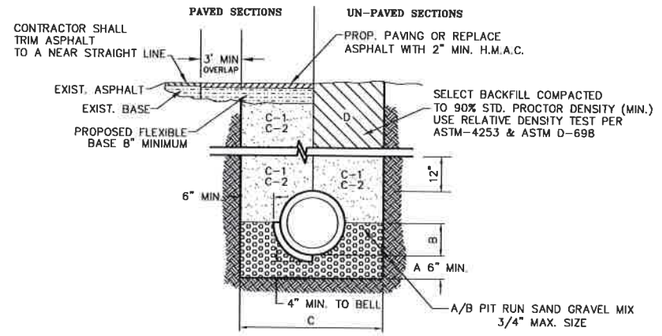
## TYPICAL COUNTY LAYDOWN CURB & GUTTER SECTION

N.T.S

1. ALL HONEYCOMBING SHALL BE GROUTED TO PROVIDE A UNIFORM SURFACE.
2. WHEN HONEYCOMBING IS EXCESSIVE AS DETERMINED BY THE COUNTY OF HIDALGO DESIGNATED REPRESENTATIVE, CURB AND GUTTER SHALL BE REPLACED.
3. BACKFILL BEHIND CURBS SHALL BE ACCOMPLISHED WITHIN 24 HOURS AFTER BACK FORM IS REMOVED OR 48 HOURS AFTER SLIP FORMING.
4. CURB AND GUTTER CONCRETE SHALL BE CLASS "A" (3000 PSI).
5. REINFORCING STEEL AS SHOWN.
6. MAX. LENGTH OF CURB AND GUTTER SECTION IS 80' BETWEEN 3/4" EXPANSION JOINT.



## STORM TRENCH BEDDING AND BACKFILL DETAILS

N.T.S

A. SAND GRAVEL MIX BEDDING PLACED BEFORE PIPE IS LAID UP TO FLOW OF PIPE (MIN. THICKNESS = 6") - PIT RUN GRAVEL 3/4" MAX. SIZE.

B. SAND GRAVEL MIX AFTER PIPE IS LAID, FROM BOTTOM OF PIPE TO SPRING LINE OF PIPE. PIT RUN GRAVEL 3/4" MAX. SIZE

C. TRENCH WIDTHS SHALL BE BELL O.D. x 1.25 + 12".

C-1 (CITY STREETS, PARKING AREA, DRIVEWAYS, COUNTY ROAD & UNPAVED AREAS) SELECT EXCAVATED BACK FILL SHALL BE SOIL TYPE A1, A2, A3, (AASHTO M145) COMPACTED TO 90% SPD, 8" LIFTS, MECHANICAL COMPACTION.

C-2 (STATE MAINTAINED ROADWAYS) COMPACTED SAND/CEMENT STABILIZED BACK FILL WITH 7% PORTLAND CEMENT COMPACTED AS PER ASTM D-4253 AND ASTM D-698.

D. SELECTED EARTH BACKFILL COMPACTED TO 90% STANDARD PROCTOR DENSITY (12" LIFT, MECHANICAL COMPACTION). FOUNDATION PREPARATION (WELLPOINTS, GRAVEL OR CEMENT STABILIZATION, OR APPROVED SUBSTITUTE) SHALL BE REQUIRED WHEN TRENCH BOTTOM IS UNSTABLE. BACKFILLING AT STRUCTURES SHALL BE PLACED IN UNIFORM LAYERS, MOISTENED AS REQUIRED TO APPROXIMATE OPTIMUM MOISTURE CONTENT, AND COMPACTED TO 95% STANDARD PROCTOR DENSITY (USE RELATIVE DENSITY TEST PER ASTM D-4253 & ASTM D-698). THE THICKNESS OF EACH LOOSE LAYER SHALL NOT EXCEED 8". STRUCTURE BACKFILL MATERIAL SHALL BE SAND, APPROVED SITE SOIL, OR OTHER APPROVED SUBSITUTE.

SECTION B-B

OPTIONAL MANHOLE WITH PIPE RISER

## GENERAL NOTES

UNLESS OTHERWISE SHOWN IN THE PLANS. PAYMENT WILL BE MADE FOR EACH MANHOLE OF THE TYPE M.
EXPOSED EDGES SHALL BE CHAMFERED 3/4".
ALTERNATE DESIGN DRAWINGS BEARING THE SEAL OF A REGISTERED PROFESSIONAL ENGINEER WILL BE ACCEPTABLE FOR PRECAST CONSTRUCTION OF MANHOLES

SHOP DRAWINGS WILL NOT BE REQUIRED.

ALL MANHOLES LOCATED ON PAVED SURFACES WILL BE CONSTRUCTED WITH A COVER OF THE TYPE THAT WILL ENABLE IT TO BE BOLTED TO THE RING.

THE CONTRACTOR MAY WITH THE APPROVAL OF THE ENGINEER FURNISH MANHOLES OF EQUIVALENT STRUCTURAL DESIGN.

IN AREAS OF CONFLICT BETWEEN REINFORCING STEEL. BLOCK-OUTS PIPES, ANCHOR BOLTS OR OTHER REINFORCING STEEL. THE REINFORCEMENT SHALL BE BENT OR ADJUSTED TO CLEAR AS DIRECTED BY THE ENGINEER.

THE RISER MAY BE CONSTRUCTED OF REINFORCED CONCRETE AS SHOWN OR OF REINFORCED CONCRETE PIPE, CLASS III, IN ACCORDANCE WITH ASTM DESIGNATION C-76. IF PIPE IS USED, JOINTS SHALL CONFORM TO THE ITEM "REINFORCED CONCRETE PIPE CULVERTS". PRECAST CONCRETE LIFT OFF COVER MAY BE SUBSTITUTED FOR "RING AND COVER".

CONNECTING PIPES SHOULD WITHIN 10 DEG. OF NORMAL TO INLET GRATE IF NECESSARY. PIPE ELBOW OR CURBED APPROACH ALIGNMENT SHOULD BE USED TO STAY WITHIN THIS LIMIT.

PIPES MAY ENTER ALL WALLS. THE MAXIMUM LEGTH OF PIPE THAT CAN BE ACCOMODATED IS 60". MORE THAN ONE PIPE MAY ENTER A SIDE SUBJECT TO THE MAXIMUM BOX DIMENSIONS SHOWN. THE CLEAR DISTANCE BETWEEN ADJACEMENT PIPES SHOULD BE 9" MINIMUM.

DISCLAIMER:
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.

## BARRICADE AND CONSTRUCTION (BC) STANDARD SHEETS GENERAL NOTES:

1. The Barricade and Construction Standard Sheets (BC sheets) are intended to show typical examples for placement of temporary traffic control devices, construction pavement markings, and typical work zone signs. The information contained in these sheets meet or exceed the requirements shown in the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).

2. The development and design of the Traffic Control Plan (TCP)is the responsibility of the Engineer.

3. The Contractor may propose changes to the TCP that are signed and sealed by a licensed professional engineer for approval. The Engineer may develop, sign and seal Contractor proposed changes.

4. The Contractor is responsible for installing and maintaining the traffic control devices as shown in the plans. The Contractor may not move or change the approximate location of any device without the approval of the Engineer.

5. Geometric design of lane shifts and detours should, when possible, meet the applicable design criteria contained in manuals such as the American Association of State Highway and Transportation Officials (AASHTO), "A Policy on Geometric Design of Highways and Streets", the TxDOT "Roadway Design Manual" or engineering judgment.

6. When projects abut, the Engineer(s) may omit the END ROAD WORK, TRAFFIC FINES DOUBLE, and other advance warning signs if the signing would be redundant and the work areas appear continuous to the motorists. If the adjacent project is completed first, the Contractor shall erect the necessary warning signs as shown on these sheets, the TCP sheets or as directed by the Engineer. The BEGIN ROAD WORK NEXT X MILES sign shall be revised to show appropriate work zone distance.

7. The Engineer may require duplicate warning signs on the median side of divided highways where median width will permit and traffic volumes justify the signing.

8. All signs shall be constructed in accordance with the details found in the "Standard Highway Sign Designs for Texas," latest edition. Sign details not shown in this manual shall be shown in the plans or the Engineer shall provide a detail to the Contractor before the sign is manufactured.

9. The temporary traffic control devices shown in the illustrations of the BC sheets are examples. As necessary, the Engineer will determine the most appropriate traffic control devices to be used.

10. As shown on BC(2), the OBEY WARNING SIGNS STATE LAW sign and the WORK ZONE TRAFFIC FINES DOUBLE sign with plaque shall be erected in advance of the CSJ limits. However, the TRAFFIC FINES DOUBLE sign will not be required on projects consisting solely of mobile operation work, such as striping or milling edgeline rumble strips. The BEGIN ROAD WORK NEXT X MILES, CONTRACTOR and END ROAD WORK signs shall be erected at or near the CSJ limits.

11. Except for devices required by Note 10, traffic control devices should be in place only while work is actually in progress or a definite need exists.

12. The Engineer has the final decision on the location of all traffic control devices.

13. Inactive equipment and work vehicles, including workers' private vehicles must be parked away from travel lanes. They should be as close to the right-of-way line as possible, or located behind a barrier or guardrail, or as approved by the Engineer.

## WORKER SAFETY APPAREL NOTES:

1. Workers on foot who are exposed to traffic or to construction equipment within the right-of-way shall wear high-visibility safety apparel meeting the requirements of ISEA "American National Standard for High-Visibility Apparel" labeled as ANSI 107-2004 standard performance for Class 2 or 3 risk exposure. Class 3 garments should be considered for high traffic volume work areas or night time work.

Only pre-qualified products shall be used. The "Compliant Work Zone Traffic Control Devices List" (CWZTCD) describes pre-qualified products and their sources and may be found on-line at the web address given below or by contacting:

Texas Department of Transportation
Traffic Operations Division - TE

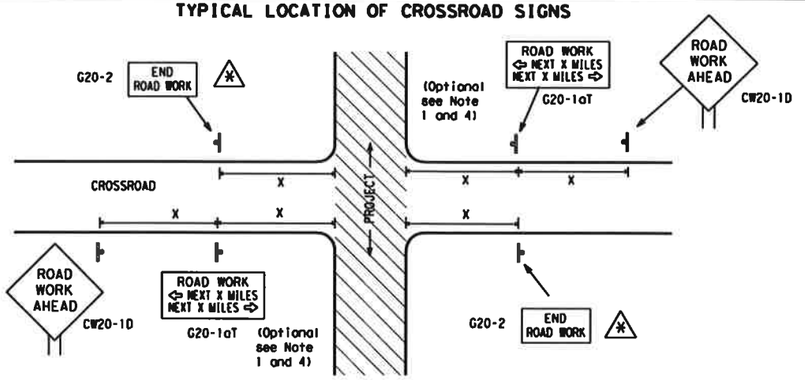
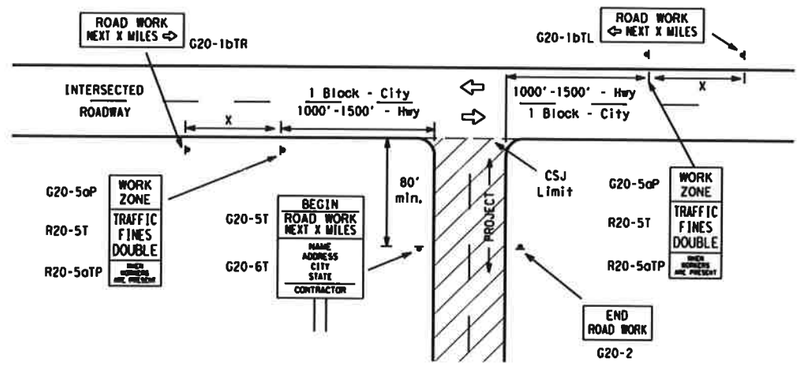
## TYPICAL LOCATION OF CROSSROAD SIGNS



* May be mounted on back of "ROAD WORK AHEAD" (CW20-1D) sign with approval of engineer. (See note 2 below)

1. The typical minimum signing on a crossroad approach should be a "ROAD WORK AHEAD" (CW20-1D) sign and a (G20-2) "END ROAD WORK" sign, unless noted otherwise in plans.
2. The Engineer may use the reduced size 36" x 36" ROAD WORK AHEAD (CW20-1D) sign mounted back to back with the reduced size 36" x 18" "END ROAD WORK" (G20-2) sign on low volume crossroads (see Note 4 under "Typical Construction Warning Sign Size and Spacing"). See the "Standard Highway Sign Designs for Texas" manual for sign details. The Engineer may omit the advance warning signs on low volume crossroads. The Engineer will determine whether a road is low volume. This information shall be shown in the plans.
3. Based on existing field conditions, the Engineer/Inspector may require additional signs such as FLAGGER AHEAD, LOOSE GRAVEL, or other appropriate signs. When additional signs are required, these signs will be considered part of the minimum requirements. The Engineer/Inspector will determine the proper location and spacing of any sign not shown on the BC sheets, Traffic Control Plan sheets or the Work Zone Standard Sheets.
4. The "ROAD WORK NEXT X MILES" (G20-1aT) sign shall be required at high volume crossroads to advise motorists of the length of construction in either direction from the intersection. The Engineer will determine whether a roadway is considered high volume.
5. Additional traffic control devices may be shown elsewhere in the plans for higher volume crossroads.
6. When work occurs in the intersection area, appropriate traffic control devices, as shown elsewhere in the plans or as determined by the Engineer/Inspector, shall be in place.

## T-INTERSECTION



## CSJ LIMITS AT T-INTERSECTION

1. The Engineer will determine the types and location of any additional traffic control devices, such as a flagger and accompanying signs, or other signs, that should be used when work is being performed at or near an intersection.
2. If construction closes the road at a T-intersection the Contractor shall place the "CONTRACTOR NAME" (G20-6T) sign behind the Type 3 Barricades for the road closure (see BC(10) also). The "ROAD WORK NEXT X MILES" left arrow (G20-1bTL) and "ROAD WORK NEXT X MILES" right arrow (G20-1bTR)" signs shall be replaced by the detour signing called for in the plans.

## TYPICAL CONSTRUCTION WARNING SIGN SIZE AND SPACING [1,5,6]

### SIZE

| Sign Number or Series | Conventional Road | Expressway/ Freeway |
|---|---|---|
| CW20[4], CW21, CW22, CW23, CW25 | 48" x 48" | 48" x 48" |

### SPACING

| Posted Speed | Sign Spacing "X" Δ |
|---|---|
| MPH | Feet (Apprx.) |
| 30 | 120 |
| 35 | 160 |
| 40 | 240 |
| 45 | 320 |
| 50 | 400 |
| 55 | 500[2] |
| 60 | 600[2] |
| 65 | 700[2] |
| 70 | 800[2] |
| 75 | 900[2] |
| 80 | 1000[2] |
| * | *[3] |

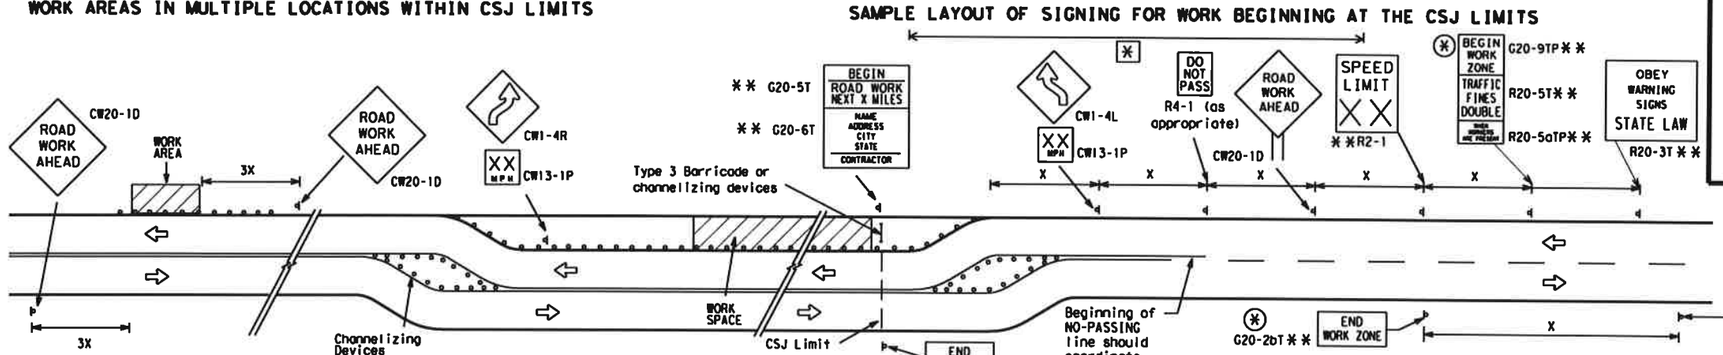
* For typical sign spacings on divided highways, expressways and freeways, see Part 6 of the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD) typical application diagrams or TCP Standard Sheets.

Δ Minimum distance from work area to first Advance Warning sign nearest the work area and/or distance between each additional sign.

### GENERAL NOTES

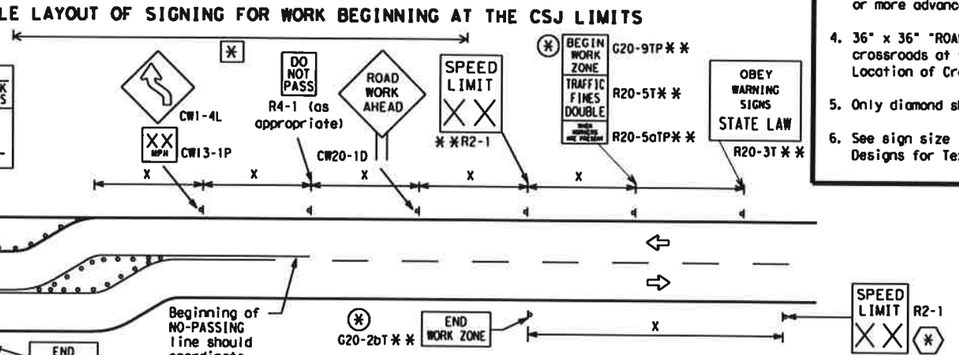
1. Special or larger size signs may be used as necessary.
2. Distance between signs should be increased as required to have 1500 feet advance warning.
3. Distance between signs should be increased as required to have 1/2 mile or more advance warning.
4. 36" x 36" "ROAD WORK AHEAD" (CW20-1D) signs may be used on low volume crossroads at the discretion of the Engineer. See Note 2 under "Typical Location of Crossroad Signs".
5. Only diamond shaped warning sign sizes are indicated.
6. See sign size listing in "TMUTCD", Sign Appendix or the "Standard Highway Sign Designs for Texas" manual for complete list of available sign design sizes.

## WORK AREAS IN MULTIPLE LOCATIONS WITHIN CSJ LIMITS

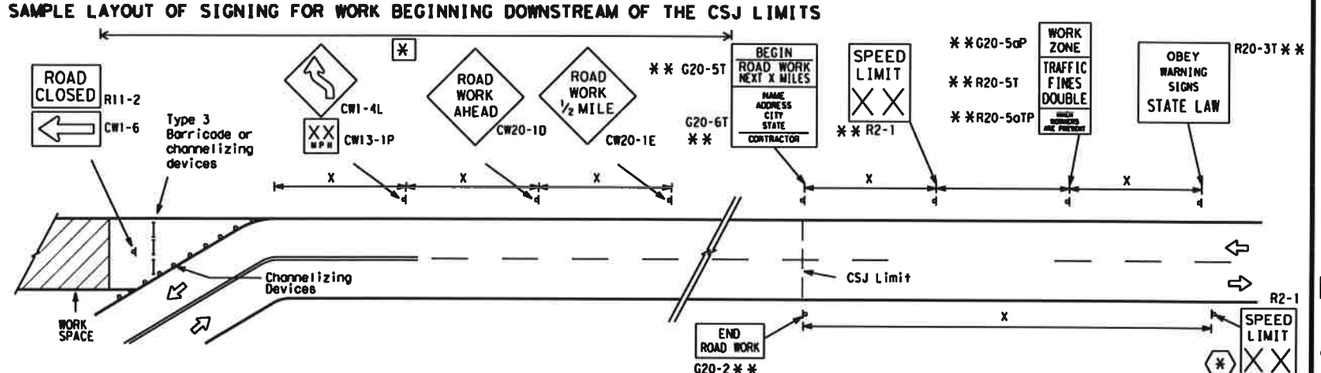


When extended distances occur between minimal work spaces, the Engineer/Inspector should ensure additional "ROAD WORK AHEAD" (CW20-1D) signs are placed in advance of these work areas to remind drivers they are still within the project limits. See the applicable TCP sheets for exact location and spacing of signs and channelizing devices.

## SAMPLE LAYOUT OF SIGNING FOR WORK BEGINNING AT THE CSJ LIMITS



## SAMPLE LAYOUT OF SIGNING FOR WORK BEGINNING DOWNSTREAM OF THE CSJ LIMITS



### NOTES

The Contractor shall determine the appropriate distance to be placed on the G20-1 series signs and "BEGIN ROAD WORK NEXT X MILES" (G20-5T) sign for each specific project. This distance shall replace the "X" and shall be rounded to the nearest whole mile with the approval of the Engineer. No decimals shall be used.

(*) The "BEGIN WORK ZONE" (G20-9TP) and "END WORK ZONE" (G20-2bT) shall be used as shown on the sample layout when advance signs are required outside the CSJ Limits. They inform the motorist of entering or leaving a part of the work zone lying outside the CSJ Limits where traffic fines may double if workers are present.

** Required CSJ Limit signing. See Note 10 on BC(1). TRAFFIC FINES DOUBLE signs will not be required on projects consisting solely of mobile operations work.

[*] Area for placement of "ROAD WORK AHEAD" (CW20-1D) sign and other signs or devices as called for on the Traffic Control Plan.

(*) Contractor will install a regulatory speed limit sign at the end of the work zone.

FILE:

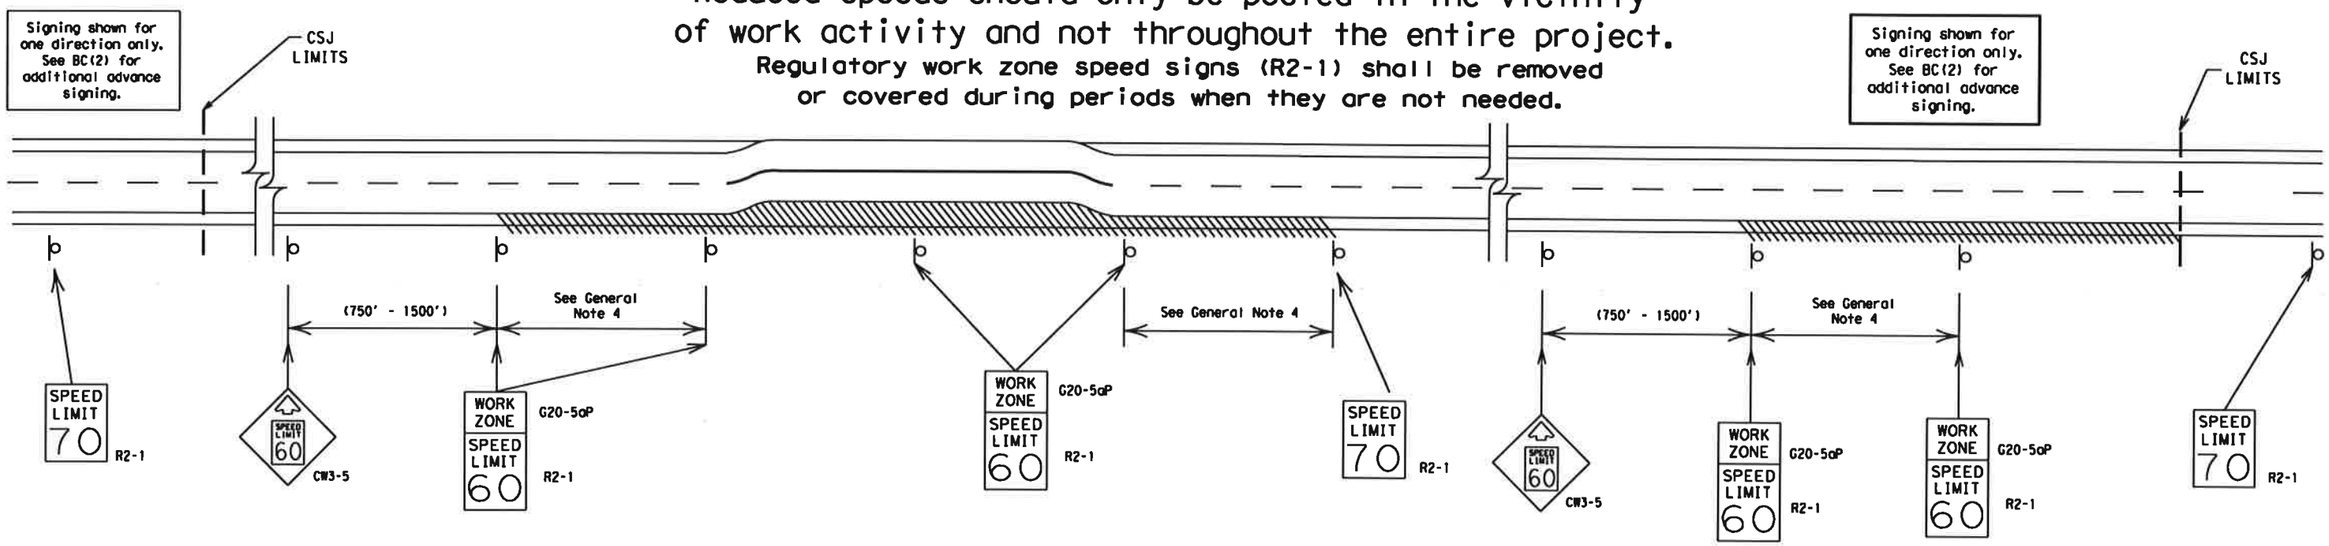
DISCLAIMER:
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.

# TYPICAL APPLICATION OF WORK ZONE SPEED LIMIT SIGNS

**Work zone speed limits shall be regulatory, established in accordance with the "Procedures for Establishing Speed Zones," and approved by the Texas Transportation Commission, or by City Ordinance when within Incorporated City Limits.**

Reduced speeds should only be posted in the vicinity of work activity and not throughout the entire project.

Regulatory work zone speed signs (R2-1) shall be removed or covered during periods when they are not needed.



## GUIDANCE FOR USE:

### LONG/INTERMEDIATE TERM WORK ZONE SPEED LIMITS

This type of work zone speed limit should be included on the design of the traffic control plans when restricted geometrics with a lower design speed are present in the work zone and modification of the geometrics to a higher design speed is not feasible.

Long/Intermediate Term Work Zone Speed Limit signs, when approved as described above, should be posted and visible to the motorist when work activity is present. Work activity may also be defined as a change in the roadway that requires a reduced speed for motorists to safely negotiate the work area, including:

a) rough road or damaged pavement surface
b) substantial alteration of roadway geometrics (diversions)
c) construction detours
d) grade
e) width
f) other conditions readily apparent to the driver

As long as any of these conditions exist, the work zone speed limit signs should remain in place.

### SHORT TERM WORK ZONE SPEED LIMITS

This type of work zone speed limit may be included on the design of the traffic control plans when workers or equipment are not behind concrete barrier, when work activity is within 10 feet of the traveled way or actually in the travelled way.

Short Term Work Zone Speed Limit signs should be posted and visible to the motorists only when work activity is present. When work activity is not present, signs shall be removed or covered.
(See Removing or Covering on BC(4)).

### GENERAL NOTES

1. Regulatory work zone speed limits should be used only for sections of construction projects where speed control is of major importance.
2. Regulatory work zone speed limit signs shall be placed on supports at a 7 foot minimum mounting height.
3. Speed zone signs are illustrated for one direction of travel and are normally posted for each direction of travel.
4. Frequency of work zone speed limit signs should be:
   40 mph and greater 0.2 to 2 miles
   35 mph and less 0.2 to 1 mile
5. Regulatory speed limit signs shall have black legend and border on a white reflective background (See "Reflective Sheeting" on BC(4)).
6. Fabrication, erection and maintenance of the "ADVANCE SPEED LIMIT" (CW3-5) sign, "WORK ZONE" (G20-5aP) plaque and the "SPEED LIMIT" (R2-1) signs shall not be paid for directly, but shall be considered subsidiary to Item 502.
7. Turning signs from view, laying signs over or down will not be allowed, unless as otherwise noted under "REMOVING OR COVERING" on BC(4).
8. Techniques that may help reduce traffic speeds include but are not limited to:
   A. Law enforcement.
   B. Flagger stationed next to sign.
   C. Portable changeable message sign (PCMS).
   D. Low-power (drone) radar transmitter.
   E. Speed monitor trailers or signs.
9. Speeds shown on details above are for illustration only. Work Zone Speed Limits should only be posted as approved for each project.
10. For more specific guidance concerning the type of work, work zone conditions and factors impacting allowable regulatory construction speed zone reduction see TxDOT form #1204 in the TxDOT e-form system.

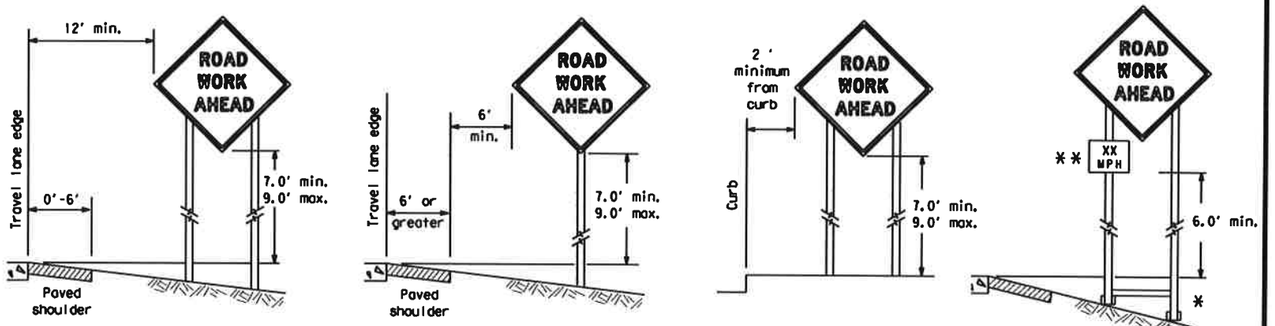
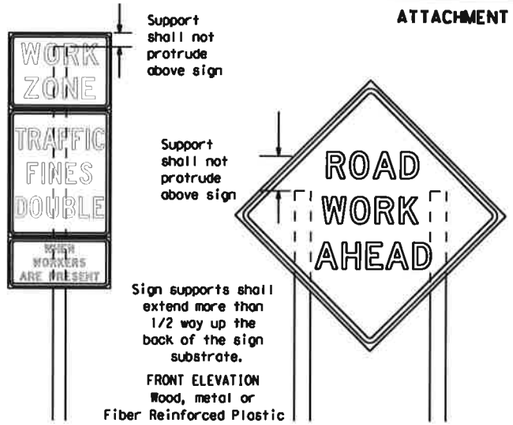
## TYPICAL MINIMUM CLEARANCES FOR LONG TERM AND INTERMEDIATE TERM SIGNS



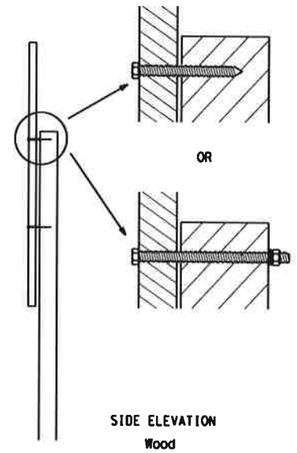
* When placing skid supports on unlevel ground, the leg post lengths must be adjusted so the sign appears straight and plumb. Objects shall NOT be placed under skids as a means of leveling.

** When plaques are placed on dual-leg supports, they should be attached to the upright nearest the travel lane. Supplemental plaques (advisory or distance) should not cover the surface of the parent sign.

## ATTACHMENT FOR SIGN SUPPORTS



Splicing embedded perforated square metal tubing in order to extend post height will only be allowed when the splice is made using four bolts, two above and two below the spice point. Splice must be located entirely behind the sign substrate, not near the base of the support. Splice insert lengths should be at least 5 times nominal post size, centered on the splice and of at least the same gauge material.

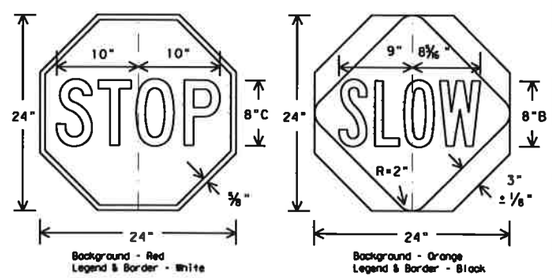


Attachment to wooden supports will be by bolts and nuts or screws. Use TxDOT's or manufacturer's recommended procedures for attaching sign substrates to other types of sign supports

**Nails shall NOT be allowed. Each sign shall be attached directly to the sign support. Multiple signs shall not be joined or spliced by any means. Wood supports shall not be extended or repaired by splicing or other means.**

## STOP/SLOW PADDLES

1. STOP/SLOW paddles are the primary method to control traffic by flaggers. The STOP/SLOW paddle size should be 24" x 24" as detailed below.
2. When used at night, the STOP/SLOW paddle shall be retroreflectorized.
3. STOP/SLOW paddles may be attached to a staff with a minimum length of 6' to the bottom of the sign.
4. Any lights incorporated into the STOP or SLOW paddle faces shall only be as specifically described in Section 6E.03 Hand Signaling Devices in the TMUTCD.



## CONTRACTOR REQUIREMENTS FOR MAINTAINING PERMANENT SIGNS WITHIN THE PROJECT LIMITS

1. Permanent signs are used to give notice of traffic laws or regulations, call attention to conditions that are potentially hazardous to traffic operations, show route designations, destinations, directions, distances, services, points of interest, and other geographical, recreational, or cultural information. Drivers proceeding through a work zone need the same, if not better route guidance as normally installed on a roadway without construction.
2. When permanent regulatory or warning signs conflict with work zone conditions, remove or cover the permanent signs until the permanent sign message matches the roadway condition.
3. When existing permanent signs are moved and relocated due to construction purposes, they shall be visible to motorists at all times.
4. If existing signs are to be relocated on their original supports, they shall be installed on crashworthy bases as shown on the SMD Standard sheets. The signs shall meet the required mounting heights shown on the BC Sheets or the SMD Standards. This work should be paid for under the appropriate pay item for relocating existing signs.
5. If permanent signs are to be removed and relocated using temporary supports, the Contractor shall use crashworthy supports as shown on the BC sheets or the CWZTCD. The signs shall meet the required mounting heights shown on the BC Sheets or the SMD Standards during construction. This work should be paid for under the appropriate pay item for relocating existing signs.
6. Any sign or traffic control device that is struck or damaged by the Contractor or his/her construction equipment shall be replaced as soon as possible by the Contractor to ensure proper guidance for the motorists. This will be subsidiary to Item 502.

## GENERAL NOTES FOR WORK ZONE SIGNS

1. Contractor shall install and maintain signs in a straight and plumb condition and/or as directed by the Engineer.
2. Wooden sign posts shall be painted white.
3. Barricades shall NOT be used as sign supports.
4. All signs shall be installed in accordance with the plans or as directed by the Engineer. Signs shall be used to regulate, warn, and guide the traveling public safely through the work zone.
5. The Contractor may furnish either the sign design shown in the plans or in the "Standard Highway Sign Designs for Texas" (SHSD). The Engineer/Inspector may require the Contractor to furnish other work zone signs that are shown in the TMUTCD but may have been omitted from the plans. Any variation in the plans shall be documented by written agreement between the Engineer and the Contractor's Responsible Person. All changes must be documented in writing before being implemented. This can include documenting the changes in the Inspector's TxDOT diary and having both the Inspector and Contractor initial and date the agreed upon changes.
6. The Contractor shall furnish sign supports listed in the "Compliant Work Zone Traffic Control Device List" (CWZTCD). The Contractor shall install the sign support in accordance with the manufacturer's recommendations. If there is a question regarding installation procedures, the Contractor shall furnish the Engineer a copy of the manufacturer's installation recommendations so the Engineer can verify the correct procedures are being followed.
7. The Contractor is responsible for installing signs on approved supports and replacing signs with damaged or cracked substrates and/or damaged or marred reflective sheeting as directed by the Engineer/Inspector.
8. Identification markings may be shown only on the back of the sign substrate. The maximum height of letters and/or company logos used for identification shall be 1 inch.
9. The Contractor shall replace damaged wood posts. New or damaged wood sign posts shall not be spliced.

## DURATION OF WORK (as defined by the "Texas Manual on Uniform Traffic Control Devices" Part 6)

1. The types of sign supports, sign mounting height, the size of signs, and the type of sign substrates can vary based on the type of work being performed. The Engineer is responsible for selecting the appropriate size sign for the type of work being performed. The Contractor is responsible for ensuring the sign support, sign mounting height and substrate meets manufacturer's recommendations in regard to crashworthiness and duration of work requirements.
   a. Long-term stationary - work that occupies a location more than 3 days.
   b. Intermediate-term stationary - work that occupies a location more than one daylight period up to 3 days, or nighttime work lasting more than one hour.
   c. Short-term stationary - daytime work that occupies a location for more than 1 hour in a single daylight period.
   d. Short, duration - work that occupies a location up to 1 hour.
   e. Mobile - work that moves continuously or intermittently (stopping for up to approximately 15 minutes.)

## SIGN MOUNTING HEIGHT

1. The bottom of Long-term/Intermediate-term signs shall be at least 7 feet, but not more than 9 feet, above the paved surface, except as shown for supplemental plaques mounted below other signs.
2. The bottom of Short-term/Short Duration signs shall be a minimum of 1 foot above the pavement surface but no more than 2 feet above the ground.
3. Long-term/Intermediate-term Signs may be used in lieu of Short-term/Short Duration signing.
4. Short-term/Short Duration signs shall be used only during daylight and shall be removed at the end of the workday or raised to appropriate Long-term/Intermediate sign height.
5. Regulatory signs shall be mounted at least 7 feet, but not more than 9 feet, above the paved surface regardless of work duration.

## SIZE OF SIGNS

1. The Contractor shall furnish the sign sizes shown on BC (2) unless otherwise shown in the plans or as directed by the Engineer.

## SIGN SUBSTRATES

1. The Contractor shall ensure the sign substrate is installed in accordance with the manufacturer's recommendations for the type of sign support that is being used. The CWZTCD lists each substrate that can be used on the different types and models of sign supports.
2. "Mesh" type materials are NOT an approved sign substrate, regardless of the tightness of the weave.
3. All wooden individual sign panels fabricated from 2 or more pieces shall have one or more plywood cleat, 1/2" thick by 6" wide, fastened to the back of the sign and extending fully across the sign. The cleat shall be attached to the back of the sign using wood screws that do not penetrate the face of the sign panel. The screws shall be placed on both sides of the splice and spaced at 6" centers. The Engineer may approve other methods of splicing the sign face.

## REFLECTIVE SHEETING

1. All signs shall be retroreflective and constructed of sheeting meeting the color and retro-reflectivity requirements of DMS-8300 for rigid signs or DMS-8310 for roll-up signs. The web address for DMS specifications is shown on BC(1).
2. White sheeting, meeting the requirements of DMS-8300 Type A, shall be used for signs with a white background.
3. Orange sheeting, meeting the requirements of DMS-8300 Type $B_{FL}$ or Type $C_{FL}$, shall be used for rigid signs with orange backgrounds.

## SIGN LETTERS

1. All sign letters and numbers shall be clear, and open rounded type uppercase alphabet letters as approved by the Federal Highway Administration (FHWA) and as published in the "Standard Highway Sign Design for Texas" manual. Signs, letters and numbers shall be of first class workmanship in accordance with Department Standards and Specifications.

## REMOVING OR COVERING

1. When sign messages may be confusing or do not apply, the signs shall be removed or completely covered.
2. Long-term stationary or intermediate stationary signs installed on square metal tubing may be turned away from traffic 90 degrees when the sign message is not applicable. This technique may not be used for signs installed in the median of divided highways or near any intersections where the sign may be seen from approaching traffic.
3. Signs installed on wooden skids shall not be turned at 90 degree angles to the roadway. These signs should be removed or completely covered when not required.
4. When signs are covered, the material used shall be opaque, such as heavy mil black plastic, or other materials which will cover the entire sign face and maintain their opaque properties under automobile headlights at night, without damaging the sign sheeting.
5. Burlap shall NOT be used to cover signs.
6. Duct tape or other adhesive material shall NOT be affixed to a sign face.
7. Signs and anchor stubs shall be removed and holes backfilled upon completion of work.

## SIGN SUPPORT WEIGHTS

1. Where sign supports require the use of weights to keep from turning over, the use of sandbags with dry, cohesionless sand should be used.
2. The sandbags will be tied shut to keep the sand from spilling and to maintain a constant weight.
3. Rock, concrete, iron, steel or other solid objects shall not be permitted for use as sign support weights.
4. Sandbags should weigh a minimum of 35 lbs and a maximum of 50 lbs.
5. Sandbags shall be made of a durable material that tears upon vehicular impact. Rubber (such as tire inner tubes) shall NOT be used.
6. Rubber ballasts designed for channelizing devices should not be used for ballast on portable sign supports. Sign supports designed and manufactured with rubber bases may be used when shown on the CWZTCD list.
7. Sandbags shall only be placed along or laid over the base supports of the traffic control device and shall not be suspended above ground level or hung with rope, wire, chains or other fasteners. Sandbags shall be placed along the length of the skids to weigh down the sign support.
8. Sandbags shall NOT be placed under the skid and shall not be used to level sign supports placed on slopes.

## FLAGS ON SIGNS

1. Flags may be used to draw attention to warning signs. When used the flag shall be 16 inches square or larger and shall be orange or fluorescent red-orange in color. Flags shall not be allowed to cover any portion of the sign face.

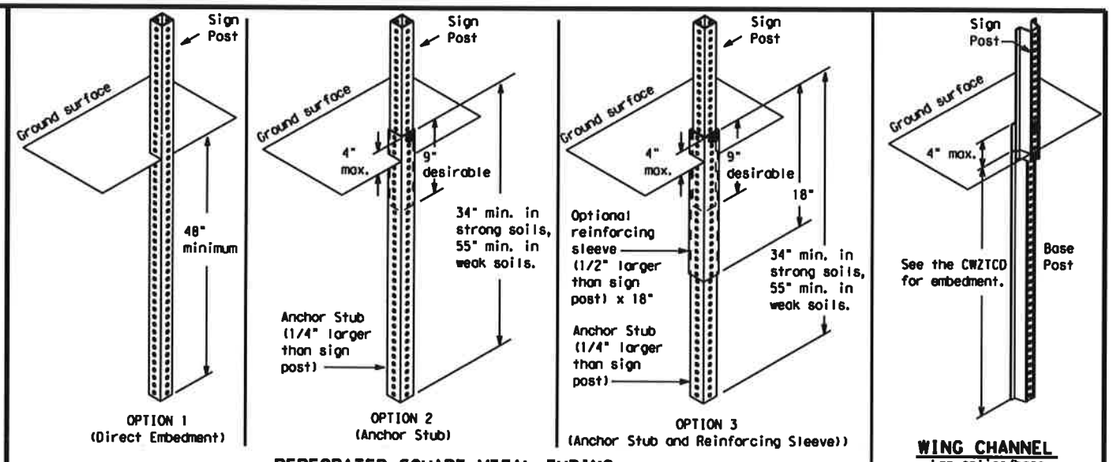
# SKID MOUNTED WOOD SIGN SUPPORTS

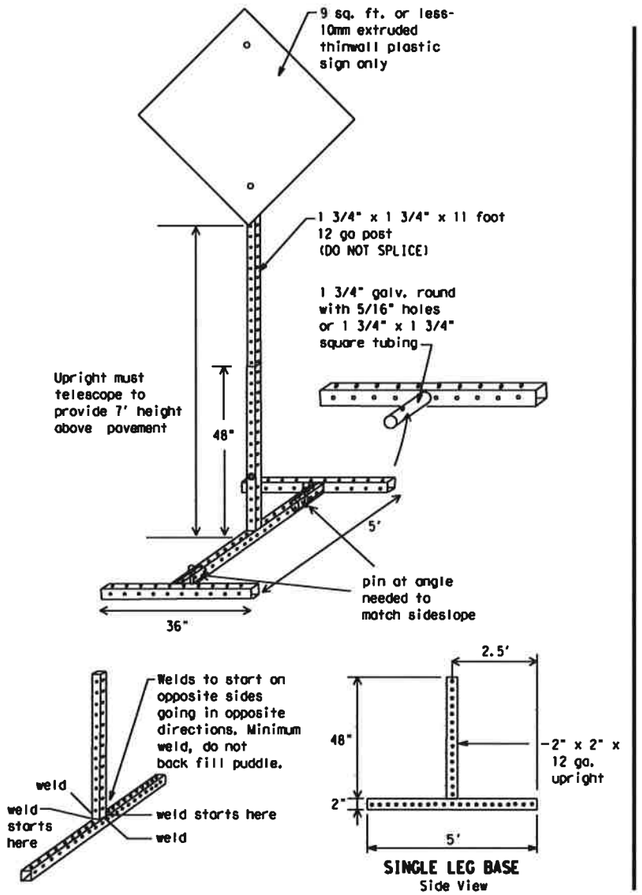
**LONG/INTERMEDIATE TERM STATIONARY - PORTABLE SKID MOUNTED SIGN SUPPORTS □**

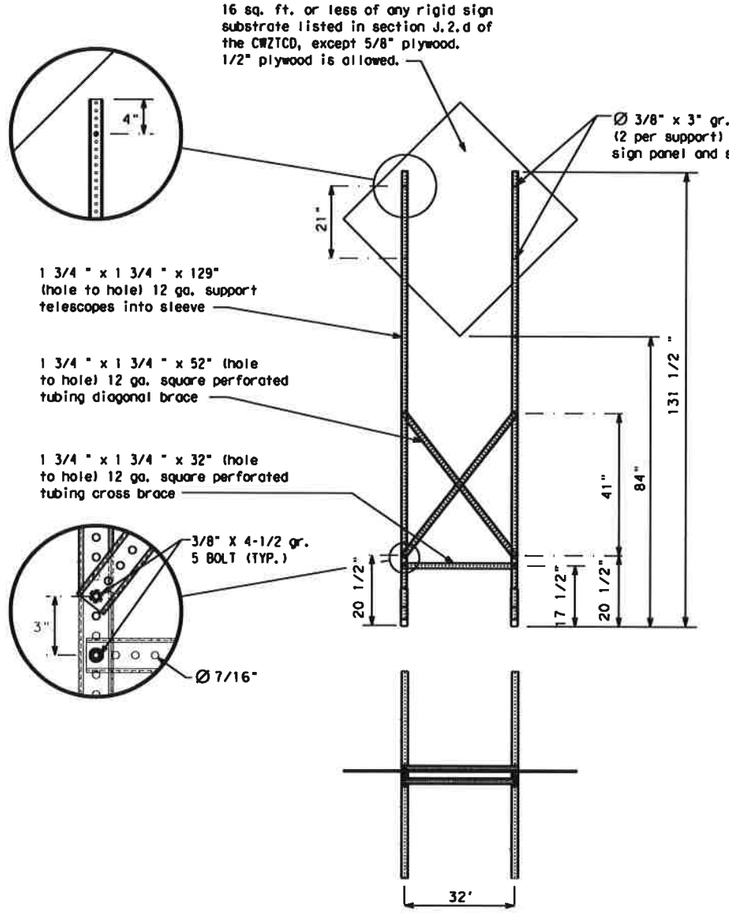


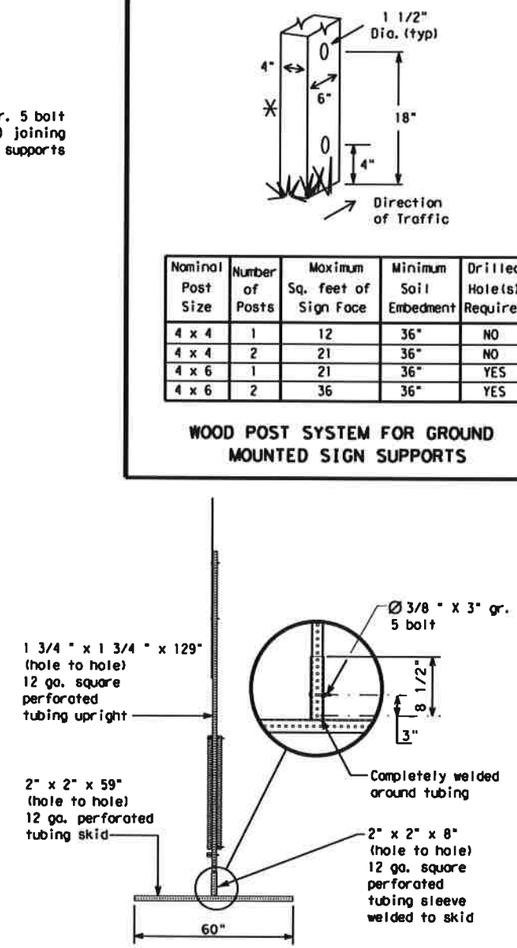
**PERFORATED SQUARE METAL TUBING**

# GROUND MOUNTED SIGN SUPPORTS

Refer to the CWZTCD and the manufacturer's installation procedure for each type sign support.
The maximum sign square footage shall adhere to the manufacturer's recommendation.
Two post installations can be used for larger signs.







| Nominal Post Size | Number of Posts | Maximum Sq. feet of Sign Face | Minimum Soil Embedment | Drilled Hole(s) Required |
|---|---|---|---|---|
| 4 x 4 | 1 | 12 | 36" | NO |
| 4 x 4 | 2 | 21 | 36" | NO |
| 4 x 6 | 1 | 21 | 36" | YES |
| 4 x 6 | 2 | 36 | 36" | YES |

**WOOD POST SYSTEM FOR GROUND MOUNTED SIGN SUPPORTS**

## WEDGE ANCHORS

Both steel and plastic Wedge Anchor Systems as shown on the SMD Standard Sheets may be used as temporary sign supports for signs up to 10 square feet of sign face. They may be set in concrete or in sturdy soils if approved by the Engineer. (See web address for "Traffic Engineering Standard Sheets" on BC(1)).

## OTHER DESIGNS

MORE DETAILS OF APPROVED LONG/INTERMEDIATE AND SHORT TERM SUPPORTS CAN BE FOUND ON THE CWZTCD LIST. SEE BC(1) FOR WEBSITE LOCATION.

## GENERAL NOTES

1. Nails may be used in the assembly of wooden sign supports, but 3/8" bolts with nuts or 3/8" x 3 1/2" lag screws must be used on every joint for final connection.
2. No more than 2 sign posts shall be placed within a 7 ft. circle, except for specific materials noted on the CWZTCD List.
3. When project is completed, all sign supports and foundations shall be removed from the project site. This will be considered subsidiary to Item 502.

□ See BC(4) for definition of "Work Duration."

✳ Wood sign posts MUST be one piece. Splicing will NOT be allowed. Posts shall be painted white.

△ See the CWZTCD for the type of sign substrate that can be used for each approved sign support.

WHEN NOT IN USE, REMOVE THE PCMS FROM THE RIGHT-OF-WAY OR PLACE THE PCMS BEHIND BARRIER OR GUARDRAIL WITH SIGN PANEL TURNED PARALLEL TO TRAFFIC

## PORTABLE CHANGEABLE MESSAGE SIGNS

1. The Engineer/Inspector shall approve all messages used on portable changeable message signs (PCMS).
2. Messages on PCMS should contain no more than 8 words (about four to eight characters per word), not including simple words such as "TO," "FOR," "AT," etc.
3. Messages should consist of a single phase, or two phases that alternate. Three-phase messages are not allowed. Each phase of the message should convey a single thought, and must be understood by itself.
4. Use the word "EXIT" to refer to an exit ramp on a freeway; i.e., "EXIT CLOSED." Do not use the term "RAMP."
5. Always use the route or interstate designation (IH, US, SH, FM) along with the number when referring to a roadway.
6. When in use the bottom of a stationary PCMS message panel should be a minimum 7 feet above the roadway, where possible.
7. The message term "WEEKEND" should be used only if the work is to start on Saturday morning and end by Sunday evening at midnight. Actual days and hours of work should be displayed on the PCMS if work is to begin on Friday evening and/or continue into Monday morning.
8. The Engineer/Inspector may select one of two options which are available for displaying a two-phase message on a PCMS. Each phase may be displayed for either four seconds each or for three seconds each.
9. Do not "flash" messages or words included in a message. The message should be steady burn or continuous while displayed.
10. Do not present redundant information on a two-phase message; i.e., keeping two lines of the message the same and changing the third line.
11. Do not use the word "Danger" in message.
12. Do not display the message "LANES SHIFT LEFT" or "LANES SHIFT RIGHT" on a PCMS. Drivers do not understand the message.
13. Do not display messages that scroll horizontally or vertically across the face of the sign.
14. The following table lists abbreviated words and two-word phrases that are acceptable for use on a PCMS. Both words in a phrase must be displayed together. Words or phrases not on this list should not be abbreviated, unless shown in the TMUTCD.
15. PCMS character height should be at least 18 inches for trailer mounted units. They should be visible from at least 1/2 (.5) mile and the text should be legible from at least 600 feet at night and 800 feet in daylight. Truck mounted units must have a character height of 10 inches and must be legible from at least 400 feet.
16. Each line of text should be centered on the message board rather than left or right justified.
17. If disabled, the PCMS should default to an illegible display that will not alarm motorists and will only be used to alert workers that the PCMS has malfunctioned. A pattern such as a series of horizontal solid bars is appropriate.

** See Application Guidelines Note 6.

### APPLICATION GUIDELINES

1. Only 1 or 2 phases are to be used on a PCMS.
2. The 1st phase (or both) should be selected from the "Road/Lane/Ramp Closure List" and the "Other Condition List".
3. A 2nd phase can be selected from the "Action to Take/Effect on Travel, Location, General Warning, or Advance Notice Phase Lists".
4. A Location Phase is necessary only if a distance or location is not included in the first phase selected.
5. If two PCMS are used in sequence, they must be separated by a minimum of 1000 ft. Each PCMS shall be limited to two phases, and should be understandable by themselves.
6. For advance notice, when the current date is within seven days of the actual work date, calendar days should be replaced with days of the week. Advance notification should typically be for no more than one week prior to the work.

### WORDING ALTERNATIVES

1. The words RIGHT, LEFT and ALL can be interchanged as appropriate.
2. Roadway designations IH, US, SH, FM and LP can be interchanged as appropriate.
3. EAST, WEST, NORTH and SOUTH (or abbreviations E, W, N and S) can be interchanged as appropriate.
4. Highway names and numbers replaced as appropriate.
5. ROAD, HIGHWAY and FREEWAY can be interchanged as needed.
6. AHEAD may be used instead of distances if necessary.
7. FT and MI, MILE and MILES interchanged as appropriate.
8. AT, BEFORE and PAST interchanged as needed.
9. Distances or AHEAD can be eliminated from the message if a location phase is used.

PCMS SIGNS WITHIN THE R.O.W. SHALL BE BEHIND GUARDRAIL OR CONCRETE BARRIER OR SHALL HAVE A MINIMUM OF FOUR (4) PLASTIC DRUMS PLACED PERPENDICULAR TO TRAFFIC ON THE UPSTREAM SIDE OF THE PCMS, WHEN EXPOSED TO ONE DIRECTION OF TRAFFIC. WHEN EXPOSED TO TWO WAY TRAFFIC, THE FOUR DRUMS SHOULD BE PLACED WITH ONE DRUM AT EACH OF THE FOUR CORNERS OF THE UNIT.

### FULL MATRIX PCMS SIGNS

1. When Full Matrix PCMS signs are used, the character height and legibility/visibility requirements shall be maintained as listed in Note 15 under "PORTABLE CHANGEABLE MESSAGE SIGNS" above.
2. When symbol signs, such as the "Flagger Symbol" (CW20-7) are represented graphically on the Full Matrix PCMS sign and, with the approval of the Engineer, it shall maintain the legibility/visibility requirement listed above.
3. When symbol signs are represented graphically on the Full Matrix PCMS, they shall only supplement the use of the static sign represented, and shall not substitute for, or replace that sign.
4. A full matrix PCMS may be used to simulate a flashing arrow board provided it meets the visibility, flash rate and dimming requirements on BC(7), for the same size arrow.

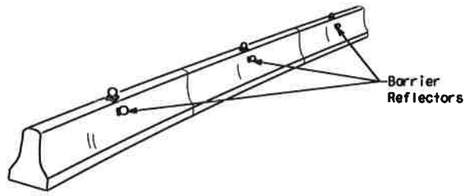
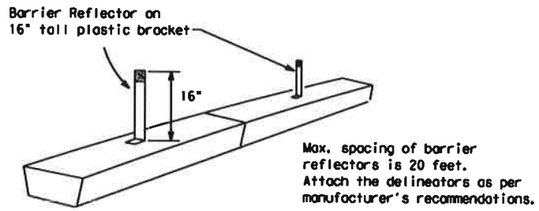
DATE:
FILE:

1. Barrier Reflectors shall be pre-qualified, and conform to the color and reflectivity requirements of DMS-8600. A list of prequalified Barrier Reflectors can be found at the Material Producer List web address shown on BC(1).
2. Color of Barrier Reflectors shall be as specified in the TMUTCD. The cost of the reflectors shall be considered subsidiary to Item 512.

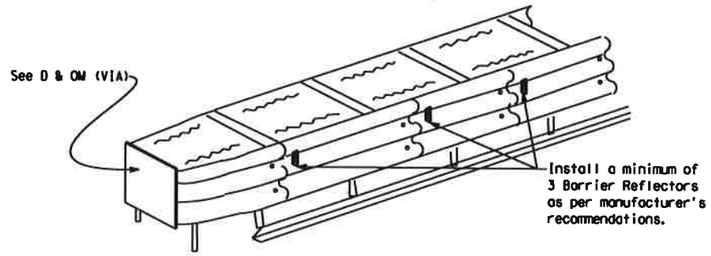


**CONCRETE TRAFFIC BARRIER (CTB)**

3. Where traffic is on one side of the CTB, two (2) Barrier Reflectors shall be mounted in approximately the midsection of each section of CTB. An alternate mounting location is uniformly spaced at one end of each CTB. This will allow for attachment of a barrier grapple without damaging the reflector. The Barrier Reflector mounted on the side of the CTB shall be located directly below the reflector mounted on top of the barrier, as shown in the detail above.
4. Where CTB separates two-way traffic, three barrier reflectors shall be mounted on each section of CTB. The reflector unit on top shall have two yellow reflective faces (Bi-Directional)while the reflectors on each side of the barrier shall have one yellow reflective face, as shown in the detail above.
5. When CTB separates traffic traveling in the same direction, no barrier reflectors will be required on top of the CTB.
6. Barrier Reflector units shall be yellow or white in color to match the edgeline being supplemented.
7. Maximum spacing of Barrier Reflectors is forty (40) feet.
8. Pavement markers or temporary flexible-reflective roadway marker tabs shall NOT be used as CTB delineation.
9. Attachment of Barrier Reflectors to CTB shall be per manufacturer's recommendations.
10. Missing or damaged Barrier Reflectors shall be replaced as directed by the Engineer.
11. Single slope barriers shall be delineated as shown on the above detail.



**LOW PROFILE CONCRETE BARRIER (LPCB)**

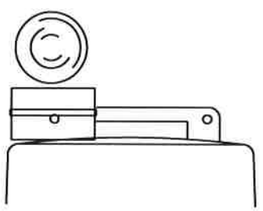


**DELINEATION OF END TREATMENTS**

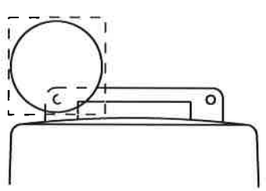
**END TREATMENTS FOR CTB'S USED IN WORK ZONES**

End treatments used on CTB's in work zones shall meet crashworthy standards as defined in the National Cooperative Highway Research Report 350. Refer to the CWZTCD List for approved end treatments and manufacturers.

# BARRIER REFLECTORS FOR CONCRETE TRAFFIC BARRIER AND ATTENUATORS



Type C Warning Light or approved substitute mounted on a drum adjacent to the travel way.



Warning reflector may be round or square. Must have a yellow reflective surface area of at least 30 square inches

## WARNING LIGHTS

1. Warning lights shall meet the requirements of the TMUTCD.
2. Warning lights shall NOT be installed on barricades.
3. Type A-Low Intensity Flashing Warning Lights are commonly used with drums. They are intended to warn of or mark a potentially hazardous area. Their use shall be as indicated on this sheet and/or other sheets of the plans by the designation "FL". The Type A Warning Lights shall not be used with signs manufactured with Type $B_{FL}$ or $C_{FL}$ Sheeting meeting the requirements of Departmental Material Specification DMS-8300.
4. Type-C and Type D 360 degree Steady Burn Lights are intended to be used in a series for delineation to supplement other traffic control devices. Their use shall be as indicated on this sheet and/or other sheets of the plans by the designation "SB".
5. The Engineer/Inspector or the plans shall specify the location and type of warning lights to be installed on the traffic control devices.
6. When required by the Engineer, the Contractor shall furnish a copy of the warning lights certification. The warning light manufacturer will certify the warning lights meet the requirements of the latest ITE Purchase Specifications for Flashing and Steady-Burn Warning Lights.
7. When used to delineate curves, Type-C and Type D Steady Burn Lights should only be placed on the outside of the curve, not the inside.
8. The location of warning lights and warning reflectors on drums shall be as shown elsewhere in the plans.

## WARNING LIGHTS MOUNTED ON PLASTIC DRUMS

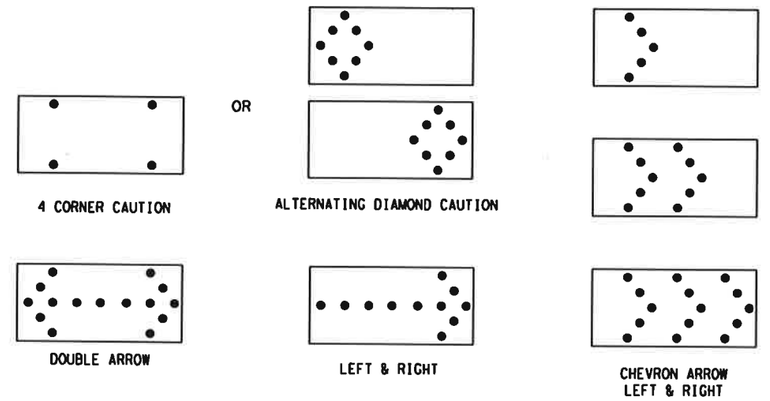
1. Type A flashing warning lights are intended to warn drivers that they are approaching or are in a potentially hazardous area.
2. Type A random flashing warning lights are not intended for delineation and shall not be used in a series.
3. A series of sequential flashing warning lights placed on channelizing devices to form a merging taper may be used for delineation. If used, the successive flashing of the sequential warning lights should occur from the beginning of the taper to the end of the merging taper in order to identify the desired vehicle path. The rate of flashing for each light shall be 65 flashes per minute, plus or minus 10 flashes.
4. Type C and D steady-burn warning lights are intended to be used in a series to delineate the edge of the travel lane on detours, on lane changes, on lane closures, and on other similar conditions.
5. Type A, Type C and Type D warning lights shall be installed at locations as detailed on other sheets in the plans.
6. Warning lights shall not be installed on a drum that has a sign, chevron or vertical panel.
7. The maximum spacing for warning lights on drums should be identical to the channelizing device spacing.

## WARNING REFLECTORS MOUNTED ON PLASTIC DRUMS AS A SUBSTITUTE FOR TYPE C (STEADY BURN) WARNING LIGHTS

1. A warning reflector or approved substitute may be mounted on a plastic drum as a substitute for a Type C, steady burn warning light at the discretion of the Contractor unless otherwise noted in the plans.
2. The warning reflector shall be yellow in color and shall be manufactured using a sign substrate approved for use with plastic drums listed on the CWZTCD.
3. The warning reflector shall have a minimum retroreflective surface area (one-side) of 30 square inches.
4. Round reflectors shall be fully reflectorized, including the area where attached to the drum.
5. Square substrates must have a minimum of 30 square inches of reflectorized sheeting. They do not have to be reflectorized where it attaches to the drum.
6. The side of the warning reflector facing approaching traffic shall have sheeting meeting the color and retroreflectivity requirements for DMS 8300-Type B or Type C.
7. When used near two-way traffic, both sides of the warning reflector shall be reflectorized.
8. The warning reflector should be mounted on the side of the handle nearest approaching traffic.
9. The maximum spacing for warning reflectors should be identical to the channelizing device spacing requirements.

Arrow Boards may be located behind channelizing devices in place for a shoulder taper or merging taper, otherwise they shall be delineated with four (4) channelizing devices placed perpendicular to traffic on the upstream side of traffic.

1. The Flashing Arrow Board should be used for all lane closures on multi-lane roadways, or slow moving maintenance or construction activities on the travel lanes.
2. Flashing Arrow Boards should not be used on two-lane, two-way roadways, detours, diversions or work on shoulders unless the "CAUTION" display (see detail below) is used.
3. The Engineer/Inspector shall choose all appropriate signs, barricades and/or other traffic control devices that should be used in conjunction with the Flashing Arrow Board.
4. The Flashing Arrow Board should be able to display the following symbols:



5. The "CAUTION" display consists of four corner lamps flashing simultaneously, or the Alternating Diamond Caution mode as shown.
6. The straight line caution display is NOT ALLOWED.
7. The Flashing Arrow Board shall be capable of minimum 50 percent dimming from rated lamp voltage. The flashing rate of the lamps shall not be less than 25 nor more than 40 flashes per minute.
8. Minimum lamp "on time" shall be approximately 50 percent for the flashing arrow and equal intervals of 25 percent for each sequential phase of the flashing chevron.
9. The sequential arrow display is NOT ALLOWED.
10. The flashing arrow display is the TxDOT standard; however, the sequential Chevron display may be used during daylight operations.
11. The Flashing Arrow Board shall be mounted on a vehicle, trailer or other suitable support.
12. A Flashing Arrow Board SHALL NOT BE USED to laterally shift traffic.
13. A full matrix PCMS may be used to simulate a Flashing Arrow Board provided it meets visibility, flash rate and dimming requirements on this sheet for the same size arrow.
14. Minimum mounting height of trailer mounted Arrow Boards should be 7 feet from roadway to bottom of panel.

| REQUIREMENTS | | | |
|---|---|---|---|
| TYPE | MINIMUM SIZE | MINIMUM NUMBER OF PANEL LAMPS | MINIMUM VISIBILITY DISTANCE |
| B | 30 x 60 | 13 | 3/4 mile |
| C | 48 x 96 | 15 | 1 mile |

**ATTENTION**

Flashing Arrow Boards shall be equipped with automatic dimming devices.

WHEN NOT IN USE, REMOVE THE ARROW BOARD FROM THE RIGHT-OF-WAY OR PLACE THE ARROW BOARD BEHIND CONCRETE TRAFFIC BARRIER OR GUARDRAIL.

# FLASHING ARROW BOARDS

## TRUCK-MOUNTED ATTENUATORS

1. Truck-mounted attenuators (TMA) used on TxDOT facilities must meet the requirements outlined in the National Cooperative Highway Research Report No. 350 (NCHRP 350) or the Manual for Assessing Safety Hardware (MASH).
2. Refer to the CWZTCD for the requirements of Level 2 or Level 3 TMAs.
3. Refer to the CWZTCD for a list of approved TMAs.
4. TMAs are required on freeways unless otherwise noted in the plans.
5. A TMA should be used anytime that it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the work performance.
6. The only reason a TMA should not be required is when a work area is spread down the roadway and the work crew is on an extended distance from the TMA.

FILE:

## GENERAL NOTES

1. For long term stationary work zones on freeways, drums shall be used as the primary channelizing device.
2. For intermediate term stationary work zones on freeways, drums should be used as the primary channelizing device but may be replaced in tangent sections by vertical panels, or 42" two-piece cones. In tangent sections one-piece cones may be used with the approval of the Engineer but only if personnel are present on the project at all times to maintain the cones in proper position and location.
3. For short term stationary work zones on freeways, drums are the preferred channelizing device but may be replaced in tapers, transitions and tangent sections by vertical panels, two-piece cones or one-piece cones as approved by the Engineer.
4. Drums and all related items shall comply with the requirements of the current version of the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD) and the "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
5. Drums, bases, and related materials shall exhibit good workmanship and shall be free from objectionable marks or defects that would adversely affect their appearance or serviceability.
6. The Contractor shall have a maximum of 24 hours to replace any plastic drums identified for replacement by the Engineer/Inspector. The replacement device must be an approved device.

## GENERAL DESIGN REQUIREMENTS

Pre-qualified plastic drums shall meet the following requirements:

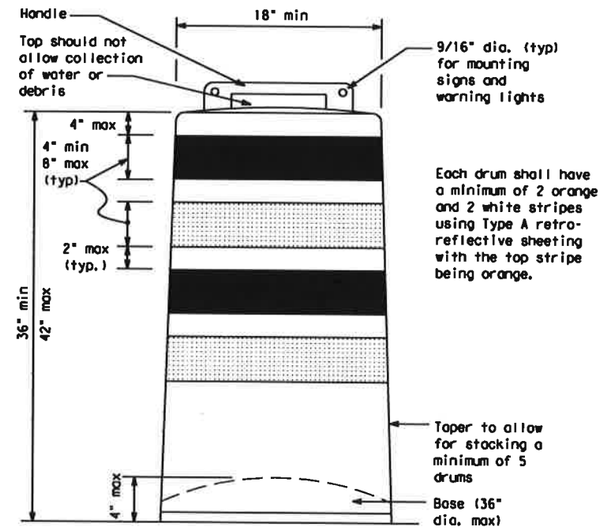
1. Plastic drums shall be a two-piece design; the "body" of the drum shall be the top portion and the "base" shall be the bottom.
2. The body and base shall lock together in such a manner that the body separates from the base when impacted by a vehicle traveling at a speed of 20 MPH or greater but prevents accidental separation due to normal handling and/or air turbulence created by passing vehicles.
3. Plastic drums shall be constructed of lightweight flexible, and deformable materials. The Contractor shall NOT use metal drums or single piece plastic drums as channelization devices or sign supports.
4. Drums shall present a profile that is a minimum of 18 inches in width at the 36 inch height when viewed from any direction. The height of drum unit (body installed on base) shall be a minimum of 36 inches and a maximum of 42 inches.
5. The top of the drum shall have a built-in handle for easy pickup and shall be designed to drain water and not collect debris. The handle shall have a minimum of two widely spaced 9/16 inch diameter holes to allow attachment of a warning light, warning reflector unit or approved compliant sign.
6. The exterior of the drum body shall have a minimum of four alternating orange and white retroreflective circumferential stripes not less than 4 inches nor greater than 8 inches in width. Any non-reflectorized space between any two adjacent stripes shall not exceed 2 inches in width.
7. Bases shall have a maximum width of 36 inches, a maximum height of 4 inches, and a minimum of two footholds of sufficient size to allow base to be held down while separating the drum body from the base.
8. Plastic drums shall be constructed of ultra-violet stabilized, orange, high-density polyethylene (HDPE) or other approved material.
9. Drum body shall have a maximum unballasted weight of 11 lbs.
10. Drum and base shall be marked with manufacturer's name and model number.

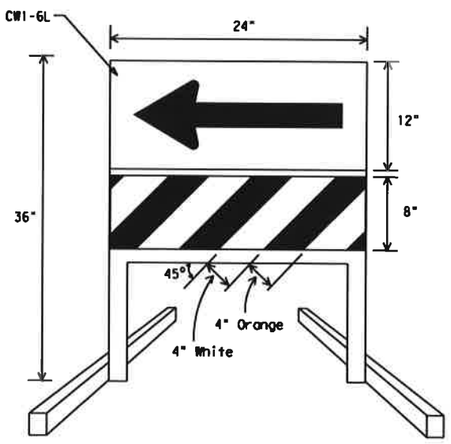
## RETROREFLECTIVE SHEETING

1. The stripes used on drums shall be constructed of sheeting meeting the color and retroreflectivity requirements of Departmental Materials Specification DMS-8300, "Sign Face Materials." Type A reflective sheeting shall be supplied unless otherwise specified in the plans.
2. The sheeting shall be suitable for use on and shall adhere to the drum surface such that, upon vehicular impact, the sheeting shall remain adhered in-place and exhibit no delaminating, cracking, or loss of retroreflectivity other than that loss due to abrasion of the sheeting surface.

## BALLAST

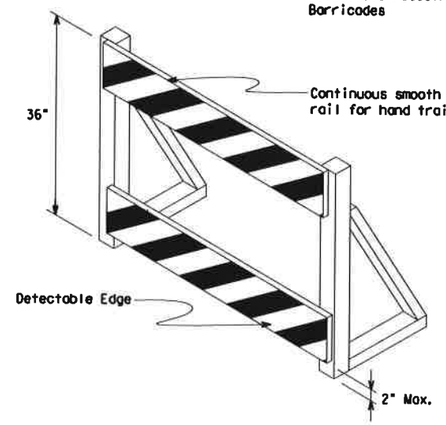
1. Unballasted bases shall be large enough to hold up to 50 lbs. of sand. This base, when filled with the ballast material, should weigh between 35 lbs (minimum) and 50 lbs (maximum). The ballast may be sand in one to three sandbags separate from the base, sand in a sand-filled plastic base, or other ballasting devices as approved by the Engineer. Stacking of sandbags will be allowed, however height of sandbags above pavement surface may not exceed 12 inches.
2. Bases with built-in ballast shall weigh between 40 lbs. and 50 lbs. Built-in ballast can be constructed of an integral crumb rubber base or a solid rubber base.
3. Recycled truck tire sidewalls may be used for ballast on drums approved for this type of ballast on the CWZTCD list.
4. The ballast shall not be heavy objects, water, or any material that would become hazardous to motorists, pedestrians, or workers when the drum is struck by a vehicle.
5. When used in regions susceptible to freezing, drums shall have drainage holes in the bottoms so that water will not collect and freeze becoming a hazard when struck by a vehicle.
6. Ballast shall not be placed on top of drums.
7. Adhesives may be used to secure base of drums to pavement.





## DIRECTION INDICATOR BARRICADE

1. The Direction Indicator Barricade may be used in tapers, transitions, and other areas where specific directional guidance to drivers is necessary.
2. If used, the Direction Indicator Barricade should be used in series to direct the driver through the transition and into the intended travel lane.
3. The Direction Indicator Barricade shall consist of One-Direction Large Arrow (CWI-6) sign in the size shown with a black arrow on a background of Type $B_{FL}$ or Type $C_{FL}$ Orange retroreflective sheeting above a rail with Type A retroreflective sheeting in alternating 4" white and orange stripes sloping downward at an angle of 45 degrees in the direction road users are to pass. Sheeting types shall be as per DMS 8300.
4. Double arrows on the Direction Indicator Barricade will not be allowed.
5. Approved manufacturers are shown on the CWZTCD List. Ballast shall be as approved by the manufacturers instructions.



## DETECTABLE PEDESTRIAN BARRICADES

1. When existing pedestrian facilities are disrupted, closed, or relocated in a TTC zone, the temporary facilities shall be detectable and include accessibility features consistent with the features present in the existing pedestrian facility.
2. Where pedestrians with visual disabilities normally use the closed sidewalk, a device that is detectable by a person with a visual disability traveling with the aid of a long cane shall be placed across the full width of the closed sidewalk.
3. Detectable pedestrian barricades similar to the one pictured above, longitudinal channelizing devices, some concrete barriers, and wood or chain link fencing with a continuous detectable edging can satisfactorily delineate a pedestrian path.
4. Tape, rope, or plastic chain strung between devices are not detectable, do not comply with the design standards in the "Americans with Disabilities Act Accessibility Guidelines for Buildings and Facilities (ADAAG)" and should not be used as a control for pedestrian movements.
5. Warning lights shall not be attached to detectable pedestrian barricades.
6. Detectable pedestrian barricades may use 8" nominal barricade rails as shown on BC(10) provided that the top rail provides a smooth continuous rail suitable for hand trailing with no splinters, burrs, or sharp edges.

18" x 24" Sign
(Maximum Sign Dimension)
Chevron CWI-8, Opposing Traffic Lane Divider, Driveway sign D70a, Keep Right R4 series or other signs as approved by Engineer

12" x 24"
Vertical Panel
mount with diagonals sloping down towards travel way

**Plywood, Aluminum or Metal sign substrates shall NOT be used on plastic drums**

## SIGNS, CHEVRONS, AND VERTICAL PANELS MOUNTED ON PLASTIC DRUMS

1. Signs used on plastic drums shall be manufactured using substrates listed on the CWZTCD.
2. Chevrons and other work zone signs with an orange background shall be manufactured with Type $B_{FL}$ or Type $C_{FL}$ Orange sheeting meeting the color and retroreflectivity requirements of DMS-8300, "Sign Face Material," unless otherwise specified in the plans.
3. Vertical Panels shall be manufactured with orange and white sheeting meeting the requirements of DMS-8300 Type A Diagonal stripes on Vertical Panels shall slope down toward the intended traveled lane.
4. Other sign messages (text or symbolic) may be used as approved by the Engineer. Sign dimensions shall not exceed 18 inches in width or 24 inches in height, except for the R9 series signs discussed in note 8 below.
5. Signs shall be installed using a 1/2 inch bolt (nominal) and nut, two washers, and one locking washer for each connection.
6. Mounting bolts and nuts shall be fully engaged and adequately torqued. Bolts should not extend more than 1/2 inch beyond nuts.
7. Chevrons may be placed on drums on the outside of curves, on merging tapers or on shifting tapers. When used in these locations they may be placed on every drum or spaced not more than on every third drum. A minimum of three (3) should be used at each location called for in the plans.
8. R9-9, R9-10, R9-11 and R9-11a Sidewalk Closed signs which are 24 inches wide may be mounted on plastic drums, with approval of the Engineer.

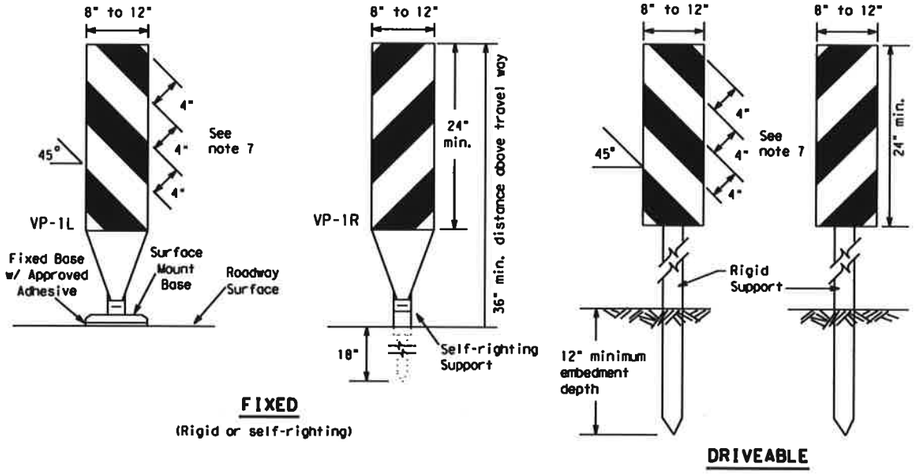
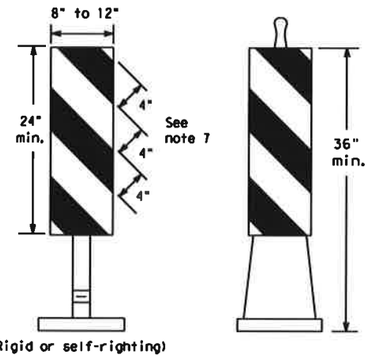
102

DISCLAIMER:
The use of this standard is governed by the "Texas Engineering Practice Act". No warranty of any kind is made by TxDOT for any purpose whatsoever. TxDOT assumes no responsibility for the conversion of this standard to other formats or for incorrect results or damages resulting from its use.



**FIXED**
(Rigid or self-righting)

**DRIVEABLE**

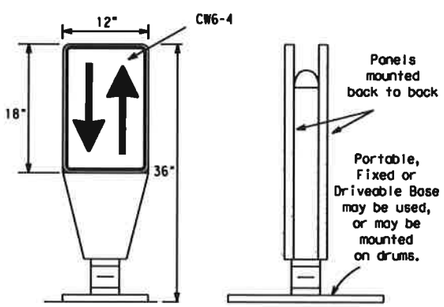


(Rigid or self-righting)

**PORTABLE**

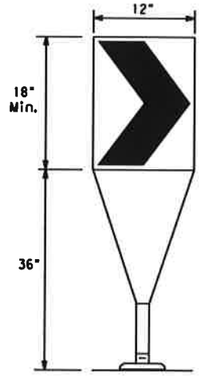
1. Vertical Panels (VP's) are normally used to channelize traffic or divide opposing lanes of traffic.
2. VP's may be used in daytime or nighttime situations. They may be used at the edge of shoulder drop-offs and other areas such as lane transitions where positive daytime and nighttime delineation is required. The Engineer/Inspector shall refer to the Roadway Design Manual Appendix B "Treatment of Pavement Drop-offs in Work Zones" for additional guidelines on the use of VP's for drop-offs.
3. VP's should be mounted back to back if used at the edge of cuts adjacent to two-way two lane roadways. Stripes are to be reflective orange and reflective white and should always slope downward toward the travel lane.
4. VP's used on expressways and freeways or other high speed roadways, may have more than 270 square inches of retroreflective area facing traffic.
5. Self-righting supports are available with portable base. See "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
6. Sheeting for the VP's shall be retroreflective Type A conforming to Departmental Material Specification DMS-8300, unless noted otherwise.
7. Where the height of reflective material on the vertical panel is 36 inches or greater, a panel stripe of 6 inches shall be used.

## VERTICAL PANELS (VPs)



1. Opposing Traffic Lane Dividers (OTLD) are delineation devices designed to convert a normal one-way roadway section to two-way operation. OTLD's are used on temporary centerlines. The upward and downward arrows on the sign's face indicate the direction of traffic on either side of the divider. The base is secured to the pavement with an adhesive or rubber weight to minimize movement caused by a vehicle impact or wind gust.
2. The OTLD may be used in combination with 42" cones or VPs.
3. Spacing between the OTLD shall not exceed 500 feet. 42" cones or VPs placed between the OTLD's should not exceed 100 foot spacing.
4. The OTLD shall be orange with a black non-reflective legend. Sheeting for the OTLD shall be retroreflective Type $B_{FL}$ or Type $C_{FL}$ conforming to Departmental Material Specification DMS-8300, unless noted otherwise. The legend shall meet the requirements of DMS-8300.

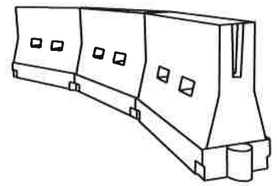
## OPPOSING TRAFFIC LANE DIVIDERS (OTLD)



Fixed Base w/ Approved Adhesive (Driveable Base, or Flexible Support can be used)

1. The chevron shall be a vertical rectangle with a minimum size of 12 by 18 inches.
2. Chevrons are intended to give notice of a sharp change of alignment with the direction of travel and provide additional emphasis and guidance for vehicle operators with regard to changes in horizontal alignment of the roadway.
3. Chevrons, when used, shall be erected on the outside of a sharp curve or turn, or on the far side of an intersection. They shall be in line with and at right angles to approaching traffic. Spacing should be such that the motorist always has three in view, until the change in alignment eliminates its need.
4. To be effective, the chevron should be visible for at least 500 feet.
5. Chevrons shall be orange with a black nonreflective legend. Sheeting for the chevron shall be retroreflective Type $B_{FL}$ or Type $C_{FL}$ conforming to Departmental Material Specification DMS-8300, unless noted otherwise. The legend shall meet the requirements of DMS-8300.
6. For Long Term Stationary use on tapers or transitions on freeways and divided highways self-righting chevrons may be used to supplement plastic drums but not to replace plastic drums.

## CHEVRONS



## LONGITUDINAL CHANNELIZING DEVICES (LCD)

1. LCDs are crashworthy, lightweight, deformable devices that are highly visible, have good target value and can be connected together. They are not designed to contain or redirect a vehicle on impact.
2. LCDs may be used instead of a line of cones or drums.
3. LCDs shall be placed in accordance to application and installation requirements specific to the device, and used only when shown on the CWZTCD list.
4. LCDs should not be used to provide positive protection for obstacles, pedestrians or workers.
5. LCDs shall be supplemented with retroreflective delineation as required for temporary barriers on BC(7) when placed roughly parallel to the travel lanes.
6. LCDs used as barricades placed perpendicular to traffic should have at least one row of reflective sheeting meeting the requirements for barricade rails as shown on BC(10) placed near the top of the LCD along the full length of the device.

## WATER BALLASTED SYSTEMS USED AS BARRIERS

1. Water ballasted systems used as barriers shall not be used solely to channelize road users, but also to protect the work space per the appropriate NCHRP 350 crashworthiness requirements based on roadway speed and barrier application.
2. Water ballasted systems used to channelize vehicular traffic shall be supplemented with retroreflective delineation or channelizing devices to improve daytime/nighttime visibility. They may also be supplemented with pavement markings.
3. Water ballasted systems used as barriers shall be placed in accordance to application and installation requirements specific to the device, and used only when shown on the CWZTCD list.
4. Water ballasted systems used as barriers should not be used for a merging taper except in low speed (less than 45 MPH) urban areas. When used on a taper in a low speed urban area, the taper shall be delineated and the taper length should be designed to optimize road user operations considering the available geometric conditions.
5. When water ballasted systems used as barriers have blunt ends exposed to traffic, they should be attenuated as per manufacturer recommendations or flared to a point outside the clear zone.

If used to channelize pedestrians, longitudinal channelizing devices or water ballasted systems must have a continuous detectable bottom for users of long canes and the top of the unit shall not be less than 32 inches in height.

## HOLLOW OR WATER BALLASTED SYSTEMS USED AS LONGITUDINAL CHANNELIZING DEVICES OR BARRIERS

## GENERAL NOTES

1. Work Zone channelizing devices illustrated on this sheet may be installed in close proximity to traffic and are suitable for use on high or low speed roadways. The Engineer/Inspector shall ensure that spacing and placement is uniform and in accordance with the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).
2. Channelizing devices shown on this sheet may have a driveable, fixed or portable base. The requirement for self-righting channelizing devices must be specified in the General Notes or other plan sheets.
3. Channelizing devices on self-righting supports should be used in work zone areas where channelizing devices are frequently impacted by errant vehicles or vehicle related wind gusts making alignment of the channelizing devices difficult to maintain. Locations of these devices shall be detailed elsewhere in the plans. These devices shall conform to the TMUTCD and the "Compliant Work Zone Traffic Control Devices List" (CWZTCD).
4. The Contractor shall maintain devices in a clean condition and replace damaged, nonreflective, faded, or broken devices and bases as required by the Engineer/Inspector. The Contractor shall be required to maintain proper device spacing and alignment.
5. Portable bases shall be fabricated from virgin and/or recycled rubber. The portable bases shall weigh a minimum of 30 lbs.
6. Pavement surfaces shall be prepared in a manner that ensures proper bonding between the adhesives, the fixed mount bases and the pavement surface. Adhesives shall be prepared and applied according to the manufacturer's recommendations.
7. The installation and removal of channelizing devices shall not cause detrimental effects to the final pavement surfaces, including pavement surface discoloration or surface integrity. Driveable bases shall not be permitted on final pavement surfaces. The Engineer/Inspector shall approve all application and removal procedures of fixed bases.

| Posted Speed * | Formula | Minimum Desirable Taper Lengths ** 10' Offset | 11' Offset | 12' Offset | Suggested Maximum Spacing of Channelizing Devices On a Taper | On a Tangent |

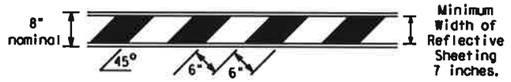
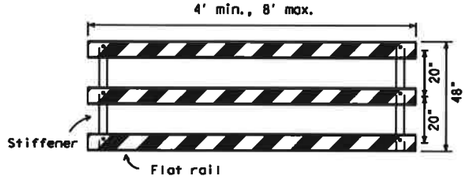
## TYPE 3 BARRICADES

1. Refer to the Compliant Work Zone Traffic Control Devices List (CWZTCD) for details of the Type 3 Barricades and a list of all materials used in the construction of Type 3 Barricades.
2. Type 3 Barricades shall be used at each end of construction projects closed to all traffic.
3. Barricades extending across a roadway should have stripes that slope downward in the direction toward which traffic must turn in detouring. When both right and left turns are provided, the chevron striping may slope downward in both directions from the center of the barricade. Where no turns are provided at a closed road striping should slope downward in both directions toward the center of roadway.
4. Striping of rails, for the right side of the roadway, should slope downward to the left. For the left side of the roadway, striping should slope downward to the right.
5. Identification markings may be shown only on the back of the barricade rails. The maximum height of letters and/or company logos used for identification shall be 1".
6. Barricades shall not be placed parallel to traffic unless an adequate clear zone is provided.
7. Warning lights shall NOT be installed on barricades.
8. Where barricades require the use of weights to keep from turning over, the use of sandbags with dry, cohesionless sand is recommended. The sandbags will be tied shut to keep the sand from spilling and to maintain a constant weight. Sand bags shall not be stacked in a manner that covers any portion of a barricade rails reflective sheeting. Rock, concrete, iron, steel or other solid objects will NOT be permitted. Sandbags should weigh a minimum of 35 lbs and a maximum of 50 lbs. Sandbags shall be made of a durable material that tears upon vehicular impact. Rubber (such as tire inner tubes) shall not be used for sandbags. Sandbags shall only be placed along or upon the base supports of the device and shall not be suspended above ground level or hung with rope, wire, chains or other fasteners.
9. Sheeting for barricades shall be retroreflective Type A conforming to Departmental Material Specification DMS-8300 unless otherwise noted.

Barricades shall NOT be used as a sign support.



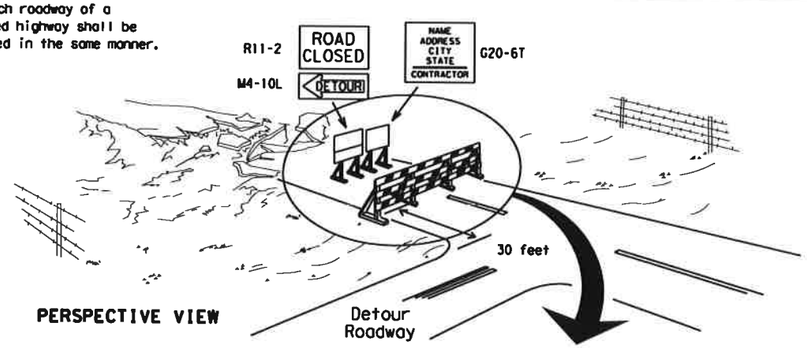
### TYPICAL STRIPING DETAIL FOR BARRICADE RAIL



Stiffener may be inside or outside of support, but no more than 2 stiffeners shall be allowed on one barricade.

### TYPICAL PANEL DETAIL FOR SKID OR POST TYPE BARRICADES

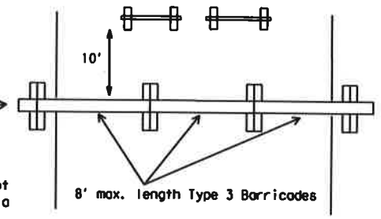
Each roadway of a divided highway shall be barricaded in the same manner.



PERSPECTIVE VIEW

The three rails on Type 3 barricades shall be reflectorized orange and reflective white stripes on one side facing one-way traffic and both sides for two-way traffic.

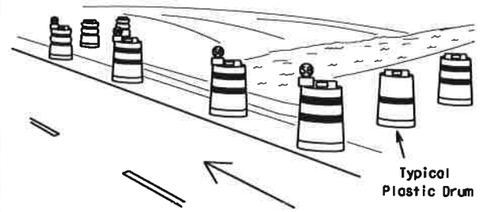
Barricade striping should slant downward in the direction of detour.



PLAN VIEW

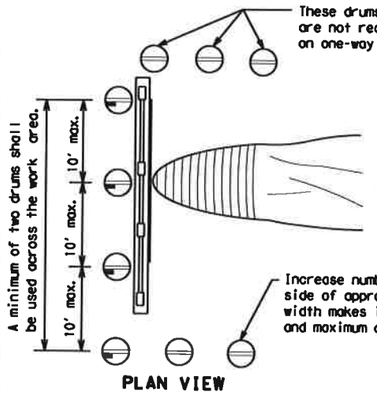
1. Signs should be mounted on independent supports at a 7 foot mounting height in center of roadway. The signs should be a minimum of 10 feet behind Type 3 Barricades.
2. Advance signing shall be as specified elsewhere in the plans.

### TYPE 3 BARRICADE (POST AND SKID) TYPICAL APPLICATION



PERSPECTIVE VIEW

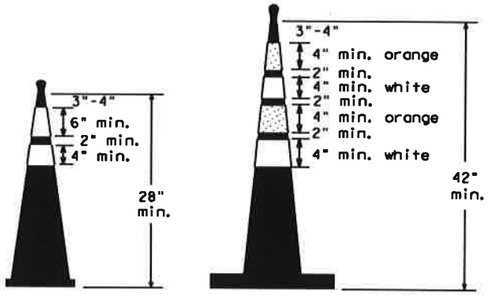
1. Where positive redirectional capability is provided, drums may be omitted.
2. Plastic construction fencing may be used with drums for safety as required in the plans.
3. Vertical Panels on flexible support may be substituted for drums when the shoulder width is less than 4 feet.
4. When the shoulder width is greater than 12 feet, steady-burn lights may be omitted if drums are used.
5. Drums must extend the length of the culvert widening.



PLAN VIEW

| LEGEND | |
|---|---|
| | Plastic drum |
| | Plastic drum with steady burn light or yellow warning reflector |
| SB | Steady burn warning light or yellow warning reflector |

### CULVERT WIDENING OR OTHER ISOLATED WORK WITHIN THE PROJECT LIMITS

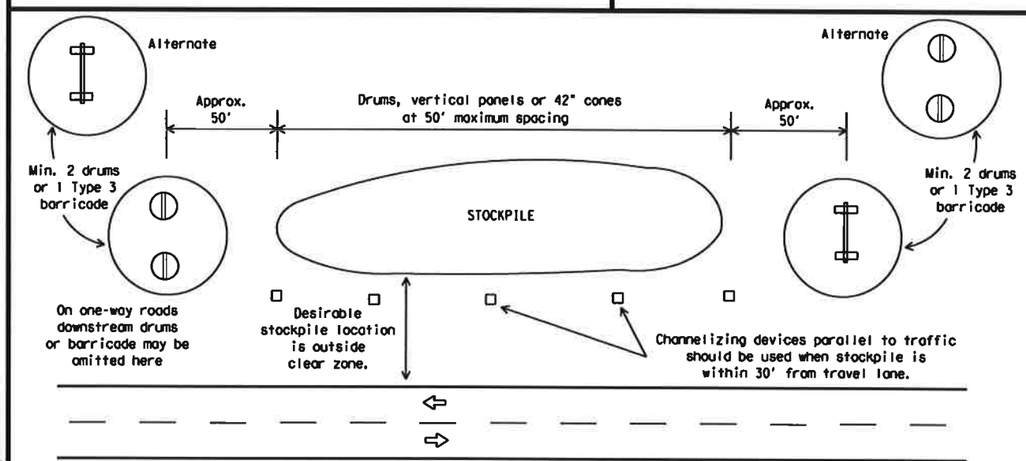


Two-Piece cones | One-Piece cones | Tubular Marker

28" Cones shall have a minimum weight of 9 1/2 lbs.

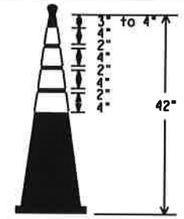
42" 2-piece cones shall have a minimum weight of 30 lbs. including base.

1. Traffic cones and tubular markers shall be predominantly orange, and meet the height and weight requirements shown above.
2. One-piece cones have the body and base of the cone molded in one consolidated unit. Two-piece cones have a cone shaped body and a separate rubber base, or ballast, that is added to keep the device upright and in place.
3. Two-piece cones may have a handle or loop extending up to 8" above the minimum height shown, in order to aid in retrieving the device.
4. Cones or tubular markers used at night shall have white or white and orange reflective bands as shown above. The reflective bands shall have a smooth, sealed outer surface and meet the requirements of Departmental Material Specification DMS-8300 Type A.
5. 28" cones and tubular markers are generally suitable for short duration and short-term stationary work as defined on BC(4). These should not be used for intermediate-term or long-term stationary work unless personnel is on-site to maintain them in their proper upright position.
6. 42" two-piece cones, vertical panels or drums are suitable for all work zone durations.
7. Cones or tubular markers used on each project should be of the same size and shape.



### TRAFFIC CONTROL FOR MATERIAL STOCKPILES

THIS DEVICE SHALL NOT BE USED ON PROJECTS LET AFTER MARCH 2014.



EDGELINE CHANNELIZER

1. This device is intended only for use in place of a vertical panel to channelize traffic by indicating the edge of the travel lane. It is not intended to be used in transitions or tapers.
2. This device shall not be used to separate lanes of traffic (opposing or otherwise) or warn of objects.
3. This device is based on a 42 inch, two-piece cone with an alternate striping pattern: four 4 inch retroreflective bands, with an approximate 2 inch gap between bands. The color of the band should correspond to the color of the edgeline (yellow for left edgeline, white for right edgeline) for which the device is substituted or for which it supplements. The reflectorized bands shall be retroreflective Type A conforming to Departmental Material Specification DMS-8300, unless otherwise noted.
4. The base must weigh a minimum of 30 lbs.

# WORK ZONE PAVEMENT MARKINGS

## GENERAL

1. The Contractor shall be responsible for maintaining work zone and existing pavement markings, in accordance with the standard specifications and special provisions, on all roadways open to traffic within the CSJ limits unless otherwise stated in the plans.
2. Color, patterns and dimensions shall be in conformance with the "Texas Manual on Uniform Traffic Control Devices" (TMUTCD).
3. Additional supplemental pavement marking details may be found in the plans or specifications.
4. Pavement markings shall be installed in accordance with the TMUTCD and as shown on the plans.
5. When short term markings are required on the plans, short term markings shall conform with the TMUTCD, the plans and details as shown on the Standard Plan Sheet WZ(STPM).
6. When standard pavement markings are not in place and the roadway is opened to traffic, DO NOT PASS signs shall be erected to mark the beginning of the sections where passing is prohibited and PASS WITH CARE signs at the beginning of sections where passing is permitted.
7. All work zone pavement markings shall be installed in accordance with Item 662, "Work Zone Pavement Markings."

## RAISED PAVEMENT MARKERS

1. Raised pavement markers are to be placed according to the patterns on BC(12).
2. All raised pavement markers used for work zone markings shall meet the requirements of Item 672, "RAISED PAVEMENT MARKERS" and Departmental Material Specification DMS-4200 or DMS-4300.

## PREFABRICATED PAVEMENT MARKINGS

1. Removable prefabricated pavement markings shall meet the requirements of DMS-8241.
2. Non-removable prefabricated pavement markings (foil back) shall meet the requirements of DMS-8240.

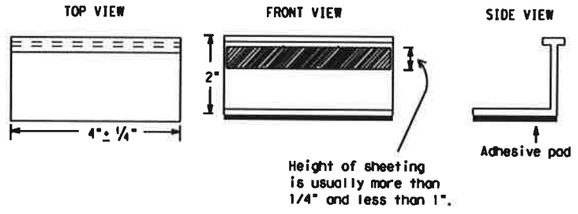
## MAINTAINING WORK ZONE PAVEMENT MARKINGS

1. The Contractor will be responsible for maintaining work zone pavement markings within the work limits.
2. Work zone pavement markings shall be inspected in accordance with the frequency and reporting requirements of work zone traffic control device inspections as required by Form 599.
3. The markings should provide a visible reference for a minimum distance of 300 feet during normal daylight hours and 160 feet when illuminated by automobile low-beam headlights at night, unless sight distance is restricted by roadway geometrics.
4. Markings failing to meet this criteria within the first 30 days after placement shall be replaced at the expense of the Contractor as per Specification Item 662.

## REMOVAL OF PAVEMENT MARKINGS

1. Pavement markings that are no longer applicable, could create confusion or direct a motorist toward or into the closed portion of the roadway shall be removed or obliterated before the roadway is opened to traffic.
2. The above shall not apply to detours in place for less than three days, where flaggers and/or sufficient channelizing devices are used in lieu of markings to outline the detour route.
3. Pavement markings shall be removed to the fullest extent possible, so as not to leave a discernable marking. This shall be by any method approved by TxDOT Specification Item 677 for "Eliminating Existing Pavement Markings and Markers".
4. The removal of pavement markings may require resurfacing or seal coating portions of the roadway as described in Item 677.
5. Subject to the approval of the Engineer, any method that proves to be successful on a particular type pavement may be used.
6. Blast cleaning may be used but will not be required unless specifically shown in the plans.
7. Over-painting of the markings SHALL NOT BE permitted.
8. Removal of raised pavement markers shall be as directed by the Engineer.
9. Removal of existing pavement markings and markers will be paid for directly in accordance with Item 677, "ELIMINATING EXISTING PAVEMENT MARKINGS AND MARKERS," unless otherwise stated in the plans.
10. Black-out marking tape may be used to cover conflicting existing markings for periods less than two weeks when approved by the Engineer.

# Temporary Flexible-Reflective Roadway Marker Tabs



**STAPLES OR NAILS SHALL NOT BE USED TO SECURE TEMPORARY FLEXIBLE-REFLECTIVE ROADWAY MARKER TABS TO THE PAVEMENT SURFACE**

1. Temporary flexible-reflective roadway marker tabs used as guidemarks shall meet the requirements of DMS-8242.
2. Tabs detailed on this sheet are to be inspected and accepted by the Engineer or designated representative. Sampling and testing is not normally required, however at the option of the Engineer, either "A" or "B" below may be imposed to assure quality before placement on the roadway.
   A. Select five (5) or more tabs at random from each lot or shipment and submit to the Construction Division, Materials and Pavement Section to determine specification compliance.
   B. Select five (5) tabs and perform the following test. Affix five (5) tabs at 24 inch intervals on an asphaltic pavement in a straight line. Using a medium size passenger vehicle or pickup, run over the markers with the front and rear tires at a speed of 35 to 40 miles per hour, four (4) times in each direction. No more than one (1) out of the five (5) reflective surfaces shall be lost or displaced as a result of this test.
3. Small design variances may be noted between tab manufacturers.
4. See Standard Sheet WZ(STPM) for tab placement on new pavements. See Standard Sheet TCP(7-1) for tab placement on seal coat work.

## RAISED PAVEMENT MARKERS USED AS GUIDEMARKS

1. Raised pavement markers used as guidemarks shall be from the approved product list, and meet the requirements of DMS-4200.
2. All temporary construction raised pavement markers provided on a project shall be of the same manufacturer.
3. Adhesive for guidemarks shall be bituminous material hot applied or butyl rubber pad for all surfaces, or thermoplastic for concrete surfaces.

Guidemarks shall be designated as:
YELLOW - (two amber reflective surfaces with yellow body).
WHITE - (one silver reflective surface with white body).

| DEPARTMENTAL MATERIAL SPECIFICATIONS | |
|---|---|
| PAVEMENT MARKERS (REFLECTORIZED) | DMS-4200 |
| TRAFFIC BUTTONS | DMS-4300 |
| EPOXY AND ADHESIVES | DMS-6100 |
| BITUMINOUS ADHESIVE FOR PAVEMENT MARKERS | DMS-6130 |
| PERMANENT PREFABRICATED PAVEMENT MARKINGS | DMS-8240 |
| TEMPORARY REMOVABLE, PREFABRICATED PAVEMENT MARKINGS | DMS-8241 |
| TEMPORARY FLEXIBLE, REFLECTIVE ROADWAY MARKER TABS | DMS-8242 |

A list of prequalified reflective raised pavement markers, non-reflective traffic buttons, roadway marker tabs and other pavement markings can be found at the Material Producer List web address shown on BC(1).

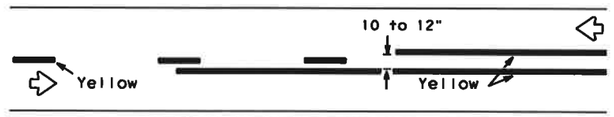
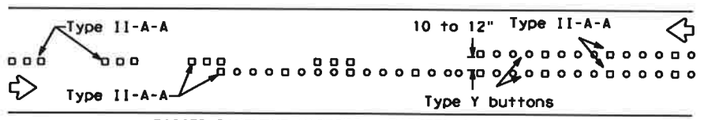
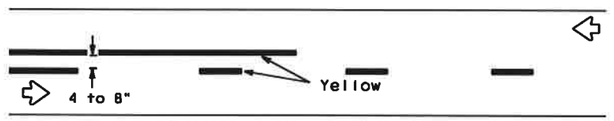
# PAVEMENT MARKING PATTERNS



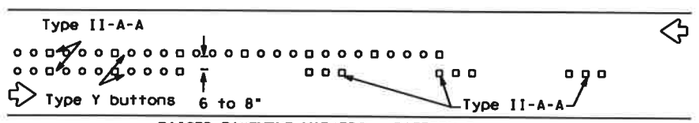
REFLECTORIZED PAVEMENT MARKINGS - PATTERN A



RAISED PAVEMENT MARKERS - PATTERN A



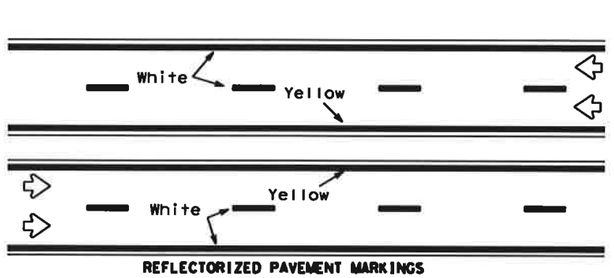
REFLECTORIZED PAVEMENT MARKINGS - PATTERN B



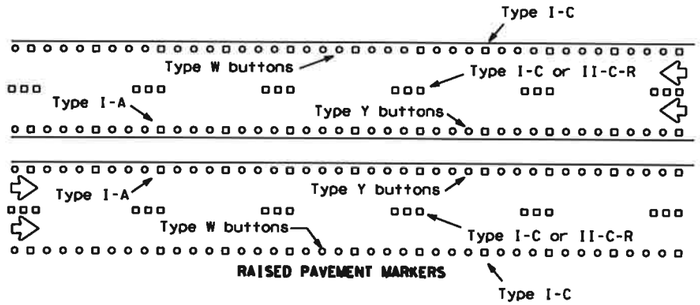
RAISED PAVEMENT MARKERS - PATTERN B

Pattern A is the TXDOT Standard, however Pattern B may be used if approved by the Engineer.
Prefabricated markings may be substituted for reflectorized pavement markings.

## CENTER LINE & NO-PASSING ZONE BARRIER LINES FOR TWO-LANE, TWO-WAY HIGHWAYS



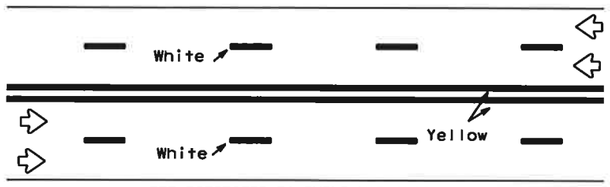
REFLECTORIZED PAVEMENT MARKINGS



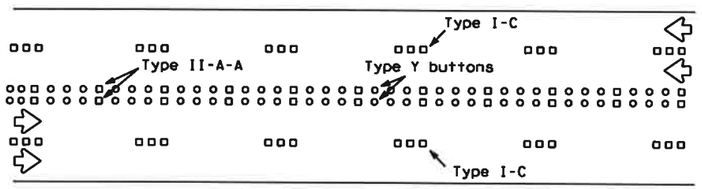
RAISED PAVEMENT MARKERS

Prefabricated markings may be substituted for reflectorized pavement markings.

## EDGE & LANE LINES FOR DIVIDED HIGHWAY



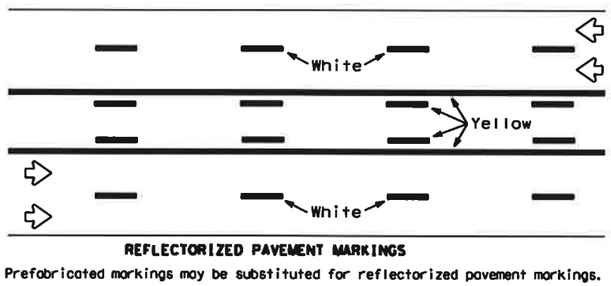
REFLECTORIZED PAVEMENT MARKINGS



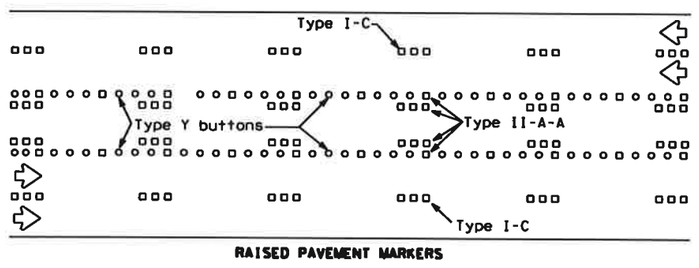
RAISED PAVEMENT MARKERS

Prefabricated markings may be substituted for reflectorized pavement markings.

## LANE & CENTER LINES FOR MULTILANE UNDIVIDED HIGHWAYS



REFLECTORIZED PAVEMENT MARKINGS

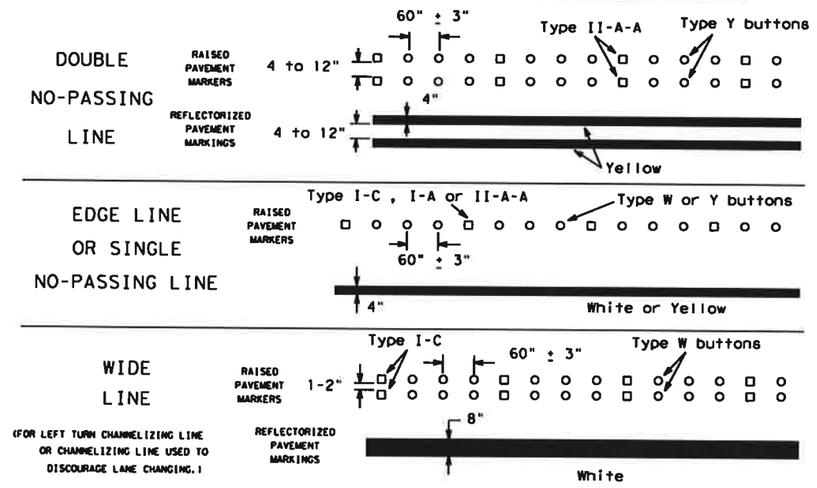


RAISED PAVEMENT MARKERS

Prefabricated markings may be substituted for reflectorized pavement markings.

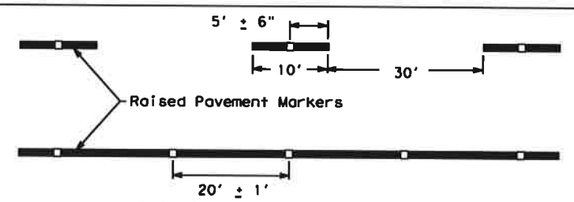
## TWO-WAY LEFT TURN LANE

# STANDARD WORK ZONE PAVEMENT MARKINGS DETAILS



### REMOVABLE MARKINGS WITH RAISED PAVEMENT MARKERS

If raised pavement markers are used to supplement REMOVABLE markings, the markers shall be applied to the top of the tape at the approximate mid length of tape used for broken lines or at 20 foot spacing for solid lines. This allows an easier removal of raised pavement markers and tape.



Centerline only - not to be used on edge lines

Raised pavement markers used as standard pavement markings shall be from the approved products list and meet the requirements of Item 672 "RAISED PAVEMENT MARKERS."

## GENERAL NOTES

1. Flags attached to signs where shown are REQUIRED.
2. All traffic control devices illustrated are REQUIRED, except those denoted with the triangle symbol may be omitted when stated elsewhere in the plans, or for routine maintenance work, when approved by the Engineer.
3. The CW3-4 "BE PREPARED TO STOP" sign may be installed after the CW20-4D "ONE LANE ROAD AHEAD" sign, but proper sign spacing shall be maintained.
4. Sign spacing may be increased or an additional CW20-1D "ROAD WORK AHEAD" sign may be used if advance warning ahead of the flagger or R1-2 "YIELD" sign is less than 1500 feet.
5. A Shadow Vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricades or other channelizing devices may be substituted for the Shadow Vehicle and TMA.
6. Additional Shadow Vehicles with TMAs may be positioned off the paved surface, next to those shown in order to protect wider work spaces.

### TCP (1-2a)

7. R1-2 "YIELD" sign traffic control may be used on projects with approaches that have adequate sight distance. For projects in urban areas, work spaces should be no longer than one half city block. In rural areas on roadways with less than 2000 ADT, work spaces should be no longer than 400 feet.
8. R1-2 "YIELD" sign with R1-2aP "TO ONCOMING TRAFFIC" plaque shall be placed on a support at a 7 foot minimum mounting height.

### TCP (1-2b)

9. Flaggers should use two-way radios or other methods of communication to control traffic.
10. Length of work space should be based on the ability of flaggers to communicate.
11. If the work space is located near a horizontal or vertical curve, the buffer distances should be increased in order to maintain adequate stopping sight distance to the flagger and a queue of stopped vehicles (see table above).
12. Channelizing devices on the center-line may be omitted when a pilot car is leading traffic and approved by the Engineer.
13. Flaggers should use 24" STOP/SLOW paddles to control traffic. Flags should be limited to emergency situations.

For construction or maintenance contract work, specific project requirements for shadow vehicles can be found in the project GENERAL NOTES for Item 502, Barricades, Signs and Traffic Handling.

## GENERAL NOTES

1. Flags attached to signs where shown are REQUIRED.
2. AFADs shall only be used in situations where there is one lane of approaching traffic in the direction to be controlled.
3. Adequate stopping sight distance must be provided to each AFAD location for approaching traffic. (See table above).
4. Each AFAD shall be operated by a qualified/certified flagger. Flaggers operating AFADs shall not leave them unattended while they are in use.
5. One flagger may operate two AFADs only when the flagger has an unobstructed view of both AFADs and of the approaching traffic in both directions.
6. When pilot cars are used, a flagger controlling traffic shall be located on each approach. AFADs shall not be operated by the pilot car operator.
7. All AFADs shall be equipped with gate arms with an orange or fluorescent red-orange flag attached to the end of the gate arm. The flag shall be a minimum of 16" square.
8. A Shadow Vehicle with a TMA should be used anytime it can be positioned 30 to 100 feet in advance of the area of crew exposure without adversely affecting the performance or quality of the work. If workers are no longer present but road or work conditions require the traffic control to remain in place, Type 3 Barricades or other channelizing devices may be substituted for the Shadow Vehicle and TMA.
9. Additional Shadow Vehicles with TMAs may be positioned off the paved surface, next to those shown in order to protect wider work spaces.
10. Flaggers should use two-way radios or other methods of communication to control traffic.
11. Length of work space should be based on the ability of flaggers to communicate.
12. If the work space is located near a horizontal or vertical curve, the buffer distances should be increased in order to maintain stopping sight distance to the AFAD.
13. Channelizing devices on the center line may be omitted when a pilot car is leading traffic and approved by the Engineer.
14. The R1-7aT "WAIT ON STOP" sign and the R1-8aT "GO ON SLOW" sign shall be installed at the AFAD location on separate supports or they may be fabricated as one 48" x 30" sign. They shall not obscure the face of the STOP/SLOW AFAD.
15. The R10-6 "STOP HERE ON RED" arrow sign shall be offset so as not to obscure the lenses of the AFAD.

For construction or maintenance contract work, specific project requirements for shadow vehicles can be found in the project GENERAL NOTES for Item 502, Barricades, Signs and Traffic Handling.

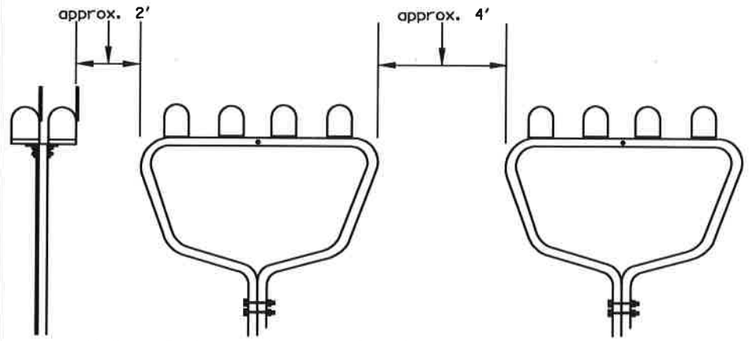
| LARGE | 23 ½* | 11 ½* | 13 ½* | 10 | 10 |

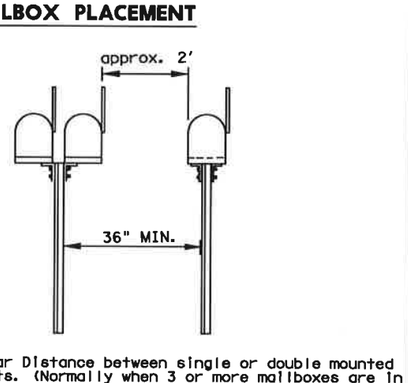
* Maximum allowed dimensions for mailbox
** Excluding Molded Plastic on 4 X 4 Post

## MAILBOX SIZES



4' Clear Distance between multiple installations and 2' clearance between double or single installations and the multiple installation. DHT #'s 164116 or 149339.

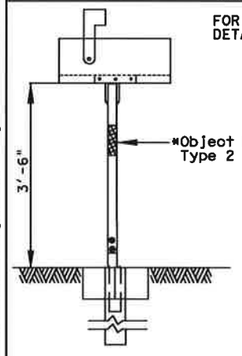
## MULTIPLE MAILBOX PLACEMENT

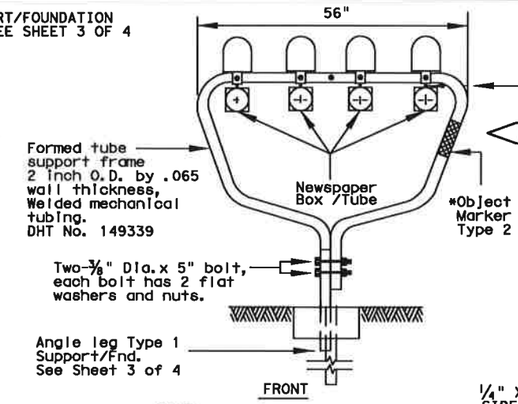


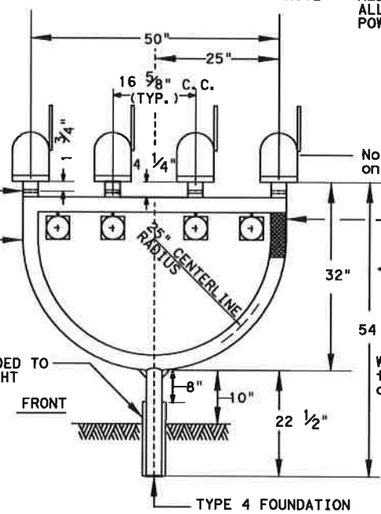
Clear Distance between single or double mounted posts. (Normally when 3 or more mailboxes are in one location, a multiple support is used).

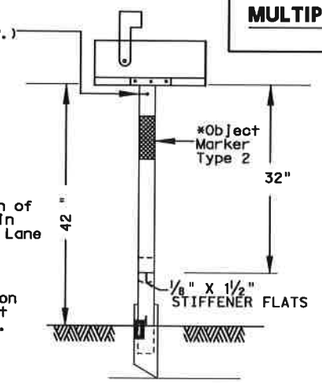
## SINGLE & DOUBLE MAILBOX PLACEMENT

FOR SUPPORT/FOUNDATION DETAILS SEE SHEET 3 OF 4



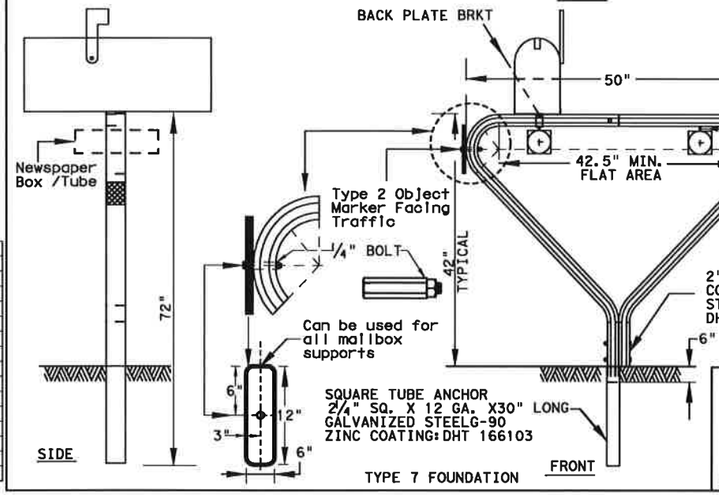






## DOUBLE AND MULTIPLE MAILBOX MOUNT

FOR SUPPORT/FOUNDATION DETAILS SEE SHEET 3 OF 4



## NEWSPAPER RECEPTACLE

A light weight receptacle for newspaper delivery can be attached to mailbox posts as shown on this page if the receptacle:

- Does not touch the mailbox.
- Does not present a hazard to traffic or delivery of the mail.
- Does not extend beyond the front of the mailbox.
- Does not display advertising, except the publication title.
- Newspaper receptacles on separate supports are prohibited.

## MULTIPLE MAILBOX MOUNT

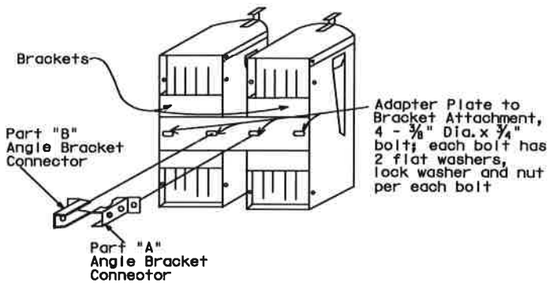
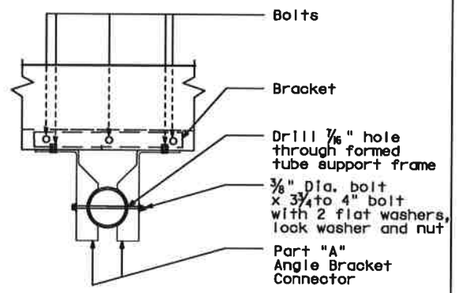
For bolt sizes see details below for "SMALL MAILBOX" and "MEDIUM AND LARGE MAILBOXES"

**SINGLE MAILBOX CONNECTION**

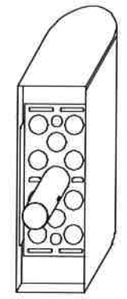


**DOUBLE MAILBOX CONNECTION**

(Not permitted for Large Mailboxes)

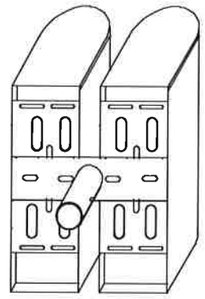


**MULTIPLE MAILBOX CONNECTION**



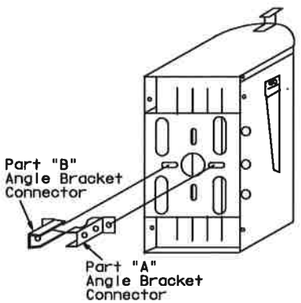
**WELDED SINGLE MAILBOX BRACKET CONNECTION**

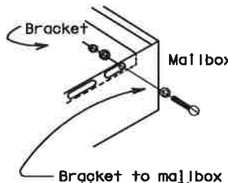
To be used with
2 3/8" OD RR or
thinwall Steel posts.



**WELDED DOUBLE MAILBOX BRACKET CONNECTION WITH ADAPTER PLATE**

To be used with
thinwall Steel posts.
Not to be used with
RR posts.



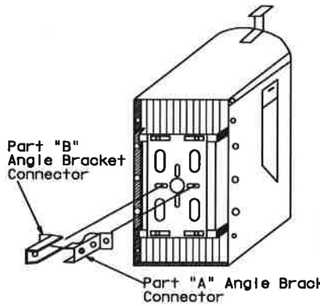


Bracket to mailbox attachment:
6 - 1/4" Dia. x 3/4" bolt w/ 2 flat washers and nut per each bolt.

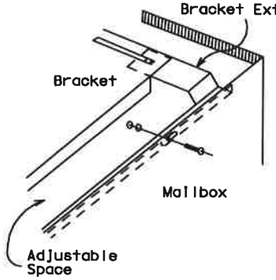
Angle to bracket attachment:
2 - 3/8" Dia. x 3/4" bolt with 2 flat washers, lock washer and nut per each bolt.

Angle to
2 - 3/8" Dia. x 2 1/2" bolt with 2 flat washers, lock washer and nut per each bolt.

**SMALL MAILBOX**



Use both Parts "A" and "B" Angle Bracket Connectors for Winged Channel Posts



Bracket to mailbox attachment:
6 - 1/4" Dia. x 3/4" bolt w/2 flat washers and nut per each bolt.

Bracket to bracket extension attachment:
2 - 1/4" Dia. x 3/4" carriage bolt w/ flat washer, lock washer and nut per bolt (4 bolts required if 2 bracket extensions are used).

Angle to bracket attachment:
2 - 7/8" Dia. x 3/4" bolt w/2 flat washers, lock washer and nut per each bolt.

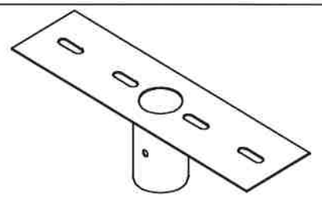
Angle to mailbox support attachment:
2 - 3/4" Dia. x 2 1/2" bolt w/2 flat washers, lock washer, and nut per each bolt.

Medium size mailboxes - one extension bracket
Large size mailboxes - two extension brackets

**MEDIUM AND LARGE MAILBOXES**

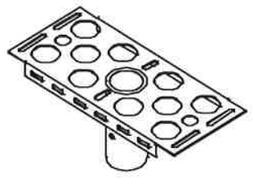
**GENERAL NOTES**

1. Connecting hardware detailed on this sheet is for the hardware that the Department stocks at the Regional Warehouses. This hardware is available to the contractor only when so stated elsewhere in the plans or specification.
2. Hardware for mounting mailboxes to the support/foundation furnished by Industry should be used when shown on the Maintenance Divisions "Approved Products List." Only mailbox hardware that have been crash tested in accordance with NCHRP Report 350, will be on the approved list.
3. Hardware furnished by Industry shall be erected in accordance with the manufacturer's recommendation.
4. Bracket and bracket extension shall be constructed of 14 gauge galvanized steel sheet metal.
5. The angles, brackets and adapter plates shall be constructed of 12 gauge galvanized steel sheet metal.
6. Items with evidence of damage to the galvanized coating or wet storage stains (white rust) will not be accepted.



**DHT 162323**

For use with galvanized thinwall steel posts DHT # 143426 or powder-coated thinwall steel post DHT # 162911.

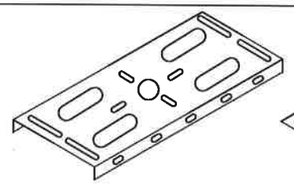


**DHT 161443**

For use with RCR post DHT # 161442 or galvanized thinwall steel post DHT # 143426 or powder-coated thinwall steel post. DHT # 162911.

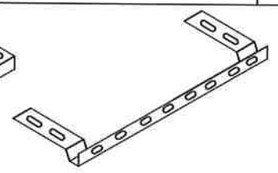
**DHT #3789**

Used for mounting two Mailboxes on the same post.



**DHT 148939**

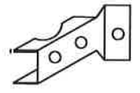
Mailbox Bracket



**DHT 148938**

Used for extending 6" wide bracket to attach larger mailboxes.

Bracket Extension



**DHT 159489**

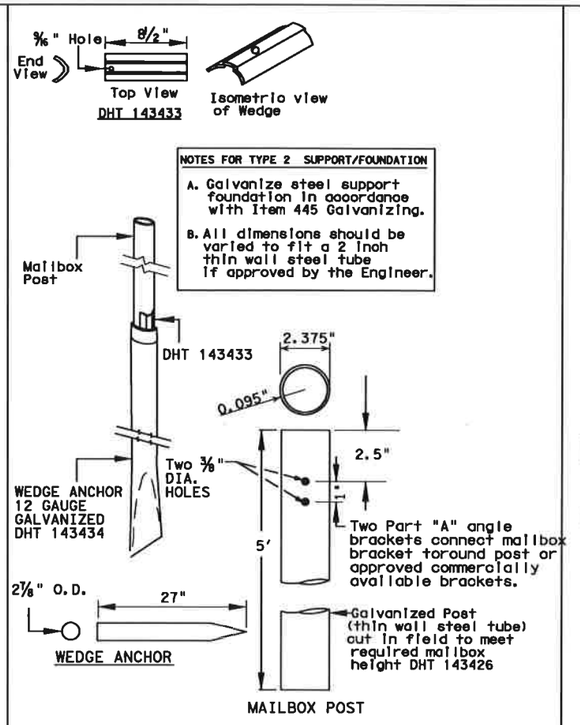
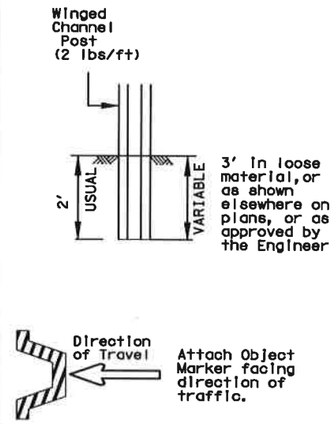
## TYPE 1 SUPPORT/FOUNDATION

THIN WALL STEEL TUBE w/ V-LOC ANCHORAGE



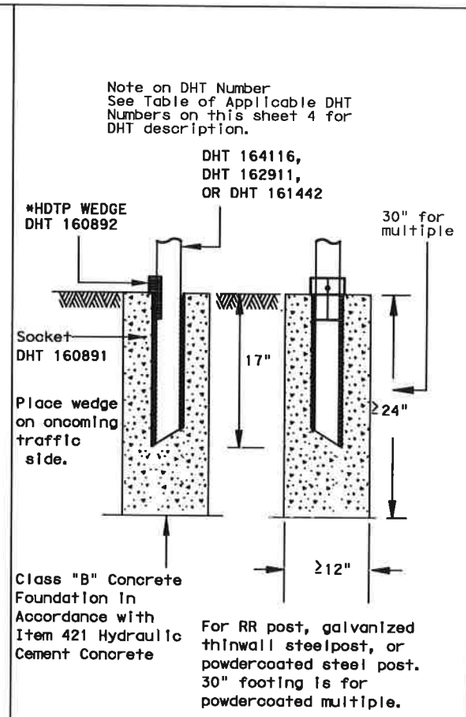
## TYPE 2 SUPPORT/FOUNDATION

THIN WALL STEEL TUBE w/ WEDGE ANCHOR SYSTEM



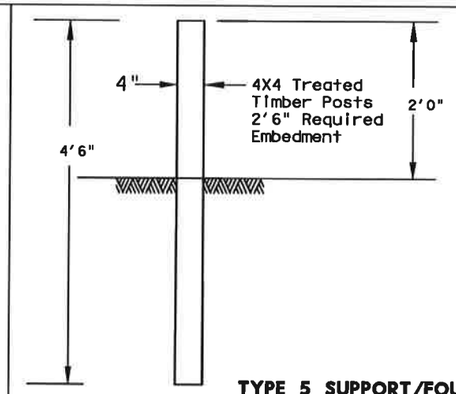
## TYPE 3 SUPPORT/FOUNDATION

WINGED CHANNEL POST



## TYPE 4 SUPPORT/FOUNDATION

FOR WHITECOATED STEEL POST, MULTIPLE POST, AND RECYCLED RUBBER.

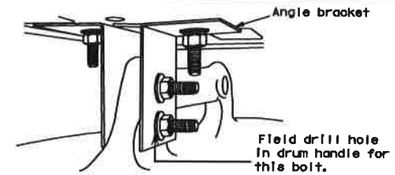


## TYPE 5 SUPPORT/FOUNDATION

FOR ONE PIECE MOLDED PLASTIC MAILBOX

## ONE PIECE MOLDED PLASTIC MAILBOXES

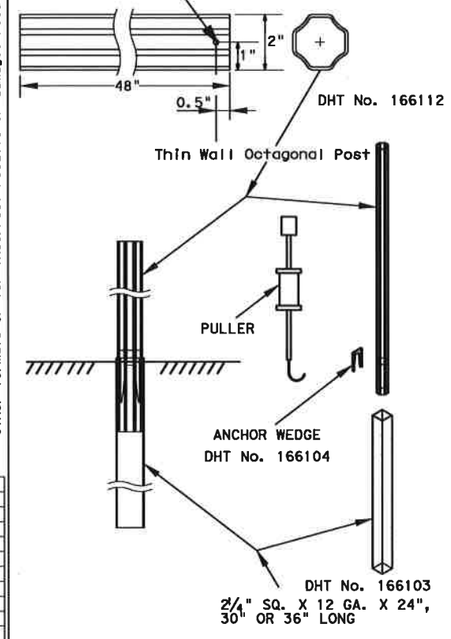
Molded Plastic Mailboxes shall be installed on 4"x4" treated timber posts only. The use of steel pipe or structural tubing in place of timber post is prohibited.



Placed on approved plastic drum as shown in the Compliant Work Zone Traffic Control Devices (CWZTCD). Existing attachment hardware shall be used unless damaged. Damaged hardware shall be replaced.

## TYPE 6 TEMPORARY MAILBOX SUPPORT

CONNECTION DETAIL



## TYPE 7 MAILBOX SUPPORT/FOUNDATION

CONNECTION DETAIL

MB-(X) ASSM TY (XXX) (X) (XX) (OPTIONAL)

Type of Mailbox
- S = Single
- D = Double
- M = Multiple
- SP = Single Plastic

Type of Post
- WC = Winged Channel Post
- RR = Recycled Rubber
- TWW = Thin Walled White Tubing
- TWG = Thin Walled Galvanized Tubing
- TIM = Timber

Type of Foundation
- Ty 1 = V-Loc
- Ty 2 = Wedge Anchor Steel System
- Ty 3 = Winged Channel post
- Ty 4 = Wedge Anchor Plastic System
- Ty 5 = 4 X 4 Post
- Ty 7 = Wedge Anchor

Type of Bracket
- AB = Angle Bracket.
- TB = 2.375" Tube Bracket

GENERAL NOTES
1. Erect post plumb or vertical.
2. When galvanized part is required galvanize in accordance with Item 445.
3. Type 1, 2, 3, 4 or 7 supports or foundation can be used for single or double mailbox installations. The RCR post should be used only for a single installation with a small mailbox. The Type 5 support/foundation is used for the single molded plastic mailbox. The Type 4 support/foundation is used for the 2.375" O.D. RR post, thin wall steel post, and white multiple mailbox post.
4. The Type 1 or type 7 support/foundation can be used for a multiple mailbox mount.
5. The Type 4 support should be used with thin wall steel pipe for the medium, large and double mailbox installations.
6. Use a concrete footing as shown or when directed. Concrete footing will be required when soils do not hold the support/foundations in a stable condition.

DOUBLE AND LARGE MAILBOXES MUST BE ON STEEL POST.

*HDTP: High density thermoplastic polyesters

REVISIONS
08/08/05: Added general note numbers 6 & 7. Sheet & title block renumbered. 11/14/05: Deleted sheet4. 08/03/06: Added DHT table, Mailbox descriptive codes and bid items. 10/9/2009: Added new mailboxpost 10/28/2009: Moved DHT table to sheet 4 deleted general notes 7 & 8

# REQUEST FOR
# SEALED BIDS (RFB)

**TO SUPPLY HIDALGO COUNTY** with sealed bids for the following Construction Project:

| | | |
|---|---|---|
| Request for Sealed Bids (RFB) | 2014-078-04-02-MSS | -HIDALGO COUNTY PRECINCT NO. 2- "Gearhart Drive Paving & Drainage Improvements." |

**PROCUREMENT PACKETS.** Interested contractors may obtain bid packets at project engineer's office: **Hidalgo County Planning Department,** Raul Sesin, P.E., 1304 S. 25th St., Edinburg, TX 78539, Ph. (956) 318-2842.

**PRE-BID CONFERENCE** is scheduled for **Monday, March 24, 2014 at 4:00 P.M.** at HIDALGO COUNTY PURCHASING DEPARTMENT CONFERENCE ROOM-2802 S. Business Hwy 281, Edinburg, TX 78539

**A BIDDER'S BOND** from a reliable surety company licensed to operate in the State of Texas or certified Cashier's Check, payable without recourse to the County of Hidalgo, for the amount of not less than **5%** of the total bid shall accompany the bid as guaranty that, if awarded the contract, the bidder will enter into a contract with the County of Hidalgo. A Payment Bond is required in the amount of one hundred percent (100%) of the Contract Amount, if the contract exceeds $25,000. A Performance Bond is required in the amount of one hundred percent (100%) of the Contract Amount, if the contract exceeds $100,000.

**UPON SUBMITTING SEALED BID,** bidders are required to properly identify (handwritten, typed or printed) sealed envelope and/or packet with Bidders' name and address on the upper left hand corner of the sealed envelope and/or package and **Bid No. and project name** on the lower left hand corner of sealed envelope/and or packet. **OVERNIGHT MAIL MUST ALSO BE PROPERLY LABELED ON THE OUTSIDE OF EXPRESS ENVELOPE OR PACKAGE.**

The sealed bid must contain one (1) original and three (3) copies of bid and must be clearly identified and addressed for delivery to:

**Martha L. Salazar, CPPB, Hidalgo County Purchasing Agent**
**Hidalgo County Purchasing Department**

US Postal Mail/Courier Address: Hidalgo County New Administration Building, 2812 S. Business Hwy 281, Edinburg, TX 78539
Physical Location: Hidalgo County New Administration Building, 2802 S. Business Hwy. 281 (Southeast of Canton Rd & Business Hwy 281) Edinburg, TX

**BIDS ACCEPTANCE:** Sealed bids will be accepted until **3:00 p.m. on Wednesday, April 02, 2014** at which time they will be opened in the Hidalgo County Purchasing Department Conference Room at **Physical Location: 2802 S. Business Hwy 281, Hidalgo County New Administration Building, Edinburg, Texas 78539.** NO FACSIMILES OR LATE ARRIVALS WILL BE ACCEPTED. ANY BID RECEIVED AFTER THAT TIME WILL NOT BE OPENED AND WILL BE RETURNED.

Attention is called to the fact that not less than, the most current federally determined prevailing **(Davis-Bacon and Related Acts)** wage rate, as issued and contained in the contract documents, must be paid on this project. In addition the successful bidder must ensure that employees and applicants for employment are not discriminated against because of race, color, religion, sex, age, disability or national origin.

**BIDS MAY BE HELD** by the County of Hidalgo for a period not to exceed ninety (90) days from the date of the opening of bids for the purpose of reviewing the bids and investigating the qualifications of bidders, prior to awarding of the contract.

**Typed-written RFI's** shall be sent to Engineer. Please follow with a call to confirm receipt of RFI. RFI's will not be answered by phone. NO HAND WRITTEN RFI'S will be answered. All inquiries shall be forwarded by March 26, 2014. Inquiries beyond this date will not be responded. Contact project engineer for copies of Addenda.

**BY ORDER OF THE COMMISSIONERS COURT OF HIDALGO COUNTY, TEXAS** on this the 09th day of April, 2013.

**MARTHA L. SALAZAR, CPPB**
**HIDALGO COUNTY PURCHASING AGENT**

# HIDALGO COUNTY PRECINCT NO. 2

## "Gearhart Drive
## Paving & Drainage Improvements"

**RFB NO: 2014-078-04-02-MSS**

Acceptance Date: **April 02, 2014**

Martha L. Salazar, CPPB, Purchasing Agent
Hidalgo County Purchasing Department

Project Buyer Contact Information:

Moises Salazar, Buyer III
(956) 292-7000 Ext. 4863
moises.salazar@co.hidalgo.tx.us

Form HCPD-03

1. Sealed bids will be received for **"HIDALGO COUNTY PRECINCT NO. 2 – GEARHART DRIVE PAVING & DRAINAGE IMPROVEMENTS"** in accordance with the specifications attached as Exhibit "A" hereto. Bids should address all specifications set forth. Bidders may suggest substitutions of features which they feel would be in the best interest of Hidalgo County ("County"). Strong rationale must be presented for any deviation from the specifications. Hidalgo County reserves the right to reject the deviation and its effect on the overall bid.

2. One (1) original and three (3) copies of all bids are required with the bidders name and return address clearly typed/printed on upper left hand corner and the proper notation clearly typed/printed on the lower left hand corner of the envelope and/or package: **"BID- 2014-078-04-02-MSS - HIDALGO COUNTY PRECINCT NO. 2- GEARHART DRIVE PAVING & DRAINAGE IMPROVEMENTS."** and in County's Purchasing Department, physical address: 2802 S. Business Hwy 281, mailing address 2812 S. Business 281 New Administration Building,, Edinburg, Texas, **on or before 3:00 p.m., WEDNESDAY, APRIL 02, 2014.**

   **NO FACSIMILES OR LATE ARRIVALS WILL BE ACCEPTED. ANY RFB RECEIVED AFTER THAT TIME WILL NOT BE OPENED AND WILL BE RETURNED. OVERNIGHT MAIL MUST ALSO BE PROPERLY LABELED ON THE OUTSIDE OF EXPRESS ENVELOPE OR PACKAGE WITH REFERENCE TO "REQUEST FOR BIDS – 2014-078-04-02-MSS - HIDALGO COUNTY PRECINCT NO. 2 – GEARHART DRIVE PAVING & DRAINAGE IMPROVEMENTS".**

   WRITTEN QUESTIONS WILL BE ACCEPTED. Written RFI's shall be sent to the office of project engineer: Raul Sesin, P.E., Hidalgo County Planning Department to the attention of, *Nora D Cavazos at nora.cavazos@hchd.org* . Please call 956-318-2842 to confirm receipt RFI. RFI's will not be answered by phone. NO HAND WRITTEN RFI'S will be answered. All inquiries shall be forwarded by March 26, 2014. Inquiries beyond this date will not be responded. Contact project engineer for copies of Addenda. All bidders who paid a deposit will be required to return Addenda as part of the Construction Documents in order to receive full deposit refund.

   Hidalgo County reserves the right to refuse and reject any/all RFB and to waive any/all formalities or technicalities, or to accept the RFB considered the best and most advantageous to Hidalgo County

3. Hidalgo County reserves the right to: A. separate and accept, or eliminate any item(s) listed under this bid that it deems necessary to accommodate budgetary and/or operational requirements; B. reject any or all bids submitted and further reserves the right to design the evaluation criteria to be used in selecting the lowest and best bid for approval; and C. award the bid to one bidder or to multiple bidders if the County determines it is in its best interest to do so."

4. The Bidder shall not substitute items named in the bid without the express written consent of Hidalgo County. Failure of the delivered item(s) to perform as specified, or failure to meet the stated delivery schedule shall release Hidalgo County from all obligations to the contracting party with regard to the item(s) in question. In such event, County may elect to award the contract to the next-lowest responsible bidder, or to reject all bids and re-advertise.

5. For work to be performed at a County owned or operated location, each bidder shall, in its sole discretion, visit the job site before preparing the bid and thoroughly familiarize himself/herself with existing conditions. Bidder should take field dimensions and note all circumstances which affect the dollar amount of the bid.

6. Descriptive specifications are referenced in this document to indicate the general kind and quality of equipment desired by Hidalgo County. Due to various styles and models of equipment, bidders are required to include illustrations, specifications, explanation of warranties, and service data with their bid including catalogue numbers and any necessary references.

7. No bid may be withdrawn within thirty (30) days from the scheduled time to open bids.

8. Proposed prices are to remain firm for a minimum of ninety (90) days after bid opening.

9. Any interpretations, amendments, corrections or changes to this bid document must be in a written addendum and signed by the County Judge or his designee. Addenda will be mailed to all who are known to have received a copy of the Request for Bids. Bidders shall acknowledge receipt of all addenda as a part of their bid.

10. County reserves the right to accept or reject any or all bids.

11. Costs are to be net F.O.B., County Prepaid.

12. County is exempt from Federal Excise Tax, State Tax and Local Tax. Do Not include tax in cost figure. If it is determined that tax was included in the cost figures it will not be included in the tabulation of any awards. Tax exemption certificates will be furnished upon request.

13. Funds for this procurement have been provided through the County budget for this fiscal year only. County, on an annual basis, has the right to reconsider a contract during the budget process for ensuing years if financial resources of County are insufficient to meet the liabilities of said contract. The award of a bid or contract hereunder will not be construed to create a debt of the County which is payable out of funds beyond the current fiscal year.

14. Upon award and prior to execution of a contract, Sole Proprietorships are required to submit a copy of their social security cards to the Hidalgo County Auditor's Office in order to establish an account with the County. All awarded vendors must submit a completed W-9 and a copy o their Federal ID Number Certificate.

15. DELIVERY INSTRUCTIONS:

18. Bid or Performance Bond and Debarment Certification; Payment Under Contract:

. If the contract proposed is for the construction of public works or is for a contract for goods & services exceeding $100,000, all bidders shall furnish a good and sufficient bid bond in the amount of five percent of the total contract price. A bid bond must be executed with a surety company authorized to do business in Texas. All bidders are also required to furnish a certification or acknowledgment stating that the contractor or vendor is free from suspension or debarment pursuant to federal regulation 45CFR Part 76.

. Together with the signing of a contract or issuance of a purchase order following the acceptance of a bid, and prior to commencement of the actual work, the bidder shall furnish a performance bond to the County for the full amount of the contract, if that contract exceeds $100,000.

. If the contract is for $50,000 or less, no money will be paid to the contractor until completion and acceptance of the work or the fulfillment of the purchase obligation to the County, and, if applicable, the receipt by County of satisfactory evidence that all subcontractors and material men have been paid.

. If a contract is for the construction, alteration or repair of public buildings or public works, the contractor *shall* provide a payment bond for a contract in excess of Twenty Five Thousand Dollars ($25,000.00), as required by Tex. Govt. Code Ch. 2253.

. For requirements contracts, bond requirements are determined by applying the proposed unit price to the estimated quantities included in the specifications.

19. Ethical Standards:

. It shall be a breach of ethics to offer, give or agree to give any elected official, department head or employee, or former elected official, department head

or employee, of the County, or for any elected official, department head or employee or former elected official, department head or employee of the County, to solicit, demand, accept or agree to accept from another person, entity or organization, a gratuity or an offer of employment in connection with any decision, approval, disapproval, recommendation, preparation or any part of a program requirement or purchase request, influencing the content of any specification or procurement standard, rendering of advice, investigation, auditing, or in any other advisory capacity in any proceeding or application, request for ruling, determination, claim or controversy, or other particular matter pertaining to any program requirement or a contract or subcontract, or to any solicitation or proposal therefore pending before any department or agency of the County.

. It shall be a breach of ethics for any payment, gratuity or offer of employment to be made by or on behalf of a subcontractor under a contract to the prime contractor or higher tier subcontractor for any contract for the County, or any person associated therewith, as an inducement for the award of a subcontract or order.

. No public official shall have an interest in a contract awarded hereunder except in accordance with Tex. Loc. Govt. Code Chapter 171.

- NOTICE:
ALL COMMUNICATIONS BY A VENDOR TO THE COUNTY, ITS OFFICIALS, AND DEPARTMENT HEADS REGARDING THIS PROCUREMENT SHALL BE DONE THROUGH THE HIDALGO COUNTY PURCHASING DEPARTMENT.

No vendor, its representative, agent, or employee shall engage in private communication with a member of the Hidalgo County Commissioners Court or county department heads regarding any procurement of goods or services by the County from the date that the Bid, RFP, or RFQ is released. No private communication regarding the purchase shall be permitted until the procurement process is complete and a purchase order is granted or a contract is entered into. Members of the commissioners court are required to make a reasonable effort to inform themselves regarding potential procurements and have a duty to inquire of vendors, their representatives or employees, the nature of any private communication being sought prior to engaging in any communication. "Private Communication" means communication with any vendor outside of a posted meeting of the governing body, a regular meeting of a standing or
appointed committee, or a negotiation with a vendor which has been specifically authorized by the governing body.

20. Disclosure of Conflict of Interest

. Effective January 1, 2006, Chapter 176 of the Texas Local Government Code requires that any vendor, person, consultant or contractor considering doing business with Hidalgo County ("the County") to disclose in the Conflict of Interest Questionnaire (the "CIQ") attached as Exhibit D, the vendor, person,

consultant or contractor's affiliation or business relationship that might cause a conflict of interest with the County. By law, the CIQ must be filed with the Hidalgo County Clerk's Office no later than the seventh business day after the date the person becomes aware of facts that require that statement to be filed. The disclosure requirement applies to a person or business who contracts or seeks to contract with Hidalgo County for the sale or purchase of property, goods or service. Any purchase order or contract resulting from this process shall be considered null and void if the successful bidder fails to comply with Texas Local Government Code Chapter 176. Vendors, consultants, contractors and others who desire to conduct business with Hidalgo County are encouraged to refer to Texas Local Government Code Chapter 176 for the details of this law. An offense under Texas Local Government Code Chapter 176 is a Class C Misdemeanor.

Please Submit completed CIQ forms to the Hidalgo County Clerk's Office located at 100 N. Closner, Edinburg, Texas 78539-Hidalgo County Courthouse
**COMPLETION AND SUBMISSION OF FORM CIQ IS THE SOLE RESPONSIBILITY OF THE PROSPECTIVE BIDDER.**

21. If, during the life of any contract or bid awarded, the successful bidder's net prices generally available to other customers for items awarded herein are reduced below the contracted price, it is understood and agreed that the benefits of such reduction shall be extended to County.

22. Bids, and all goods and services provided thereunder, shall comply with all federal, state and local laws concerning this type(s) of goods and/or services

23. Minimum Standards For Responsible Prospective Bidders: A prospective bidder must affirmatively demonstrate bidder's responsibility. A prospective bidder, by submitting a bid, represents to County that it meets the following requirements:

- **Possess and submit a Certificate of Account Status indicating bidder is in "Good Standing" with the Texas Comptroller of Public Accounts if such bidder is incorporated in the State of Texas. If the bidder is not incorporated with the Texas, the bidder must submit the appropriate evidence of filing with the Texas Secretary of State stating that the business is authorized to transact business in Texas.**
- Possess or is able to obtain adequate financial resources as required to perform under the bid;
- Be able to comply with the required or proposed delivery schedule;
- Have a satisfactory record of performance;
- Have a satisfactory record of integrity and ethics;
- Be otherwise qualified and eligible to receive an award.

24. Successful bidder will pay or cause to be paid, without cost or expenses to County, all FICA, FUTA/SUTA and Federal Income Withholding Taxes of all employees, and all wages and benefits as required by Federal or State law. Successful bidder's officers, agents and/or employees will not be entitled to any benefits of an employee or elected

official of County, including, but not limited to, benefits associated with County's civil service system.

25. Any contract award to a successful bidder will be in effect until (a) the contract expires, (b) delivery and acceptance of products, and/or performance of services ordered, or (c) terminated by County with thirty day's written notice prior to cancellation.

26. County reserves the right to enforce performance of any contract awarded hereunder in any manner prescribed by law or deemed to be in the best interest of the County in the event of breach or default by successful bidder; County reserves the right to terminate any contract immediately in the event a successful bidder fails to:

    A. Meet schedules;
    B. Pay any required fees or taxes; or
    C. Otherwise perform in accordance with the specifications.

27. Successful bidder shall defend, indemnify and save harmless County and all its elected officials, officers, agents and employees from all suits, actions, or other claims of any character, name and description brought for or on account of any injuries or damages received or sustained by any person, persons, or property on account of any negligent act or fault of the successful bidder, or of any agent, employee, subcontractor or supplier of successful bidder in the execution of, or performance under, any contract which may result from bid award or which arises from any event or casualty happening on or within County premises themselves or happening upon or in any halls, elevators, entrances, stairways or approaches of or to such County facilities. Successful bidder shall pay any judgment with costs which may be obtained against County growing out of such injury or damages, and shall, upon request, provide a defense to County by counsel reasonably acceptable to County. Successful bidder's indemnity hereunder shall include, but is not limited to, claims relating to patent, copyright or trademark infringement, and the like, arising out of the goods and services provided by successful bidder.

28. Successful bidder shall warrant that all items/services shall conform with the specifications and/or all warranties provided under the Uniform Commercial Code and be free from all defects in material, workmanship and the like. Items supplied under a contract pursuant to this Request for Bids shall be subject to County's approval. Items found to be defective or not meeting specifications shall be replaced by successful bidder within two business days at no expense to County. Items not picked up within one (1) week after notification shall be deemed a donation to County and may be used or disposed of at County's discretion and without waiver of any other rights of County as to the item's nonconformity.

29. ***Vendors hereby assigns to purchaser any and all claims for overcharges associated with this contract which arise under the antitrust laws of the United States, 15 USCA, Section 1 et. seq., and which arise under the antitrust laws of the State of Texas, Bus. & Com. Code, Section 15.01, et. seq.***

30. This document and any disputes arising hereunder shall be governed and construed according to the laws of the State of Texas, and will be performable exclusively in Hidalgo County, Texas.

31. The successful bidder shall not assign, sell, transfer or convey its rights under any awarded contract, in whole or in part, without the prior written consent of County.

**HIDALGO COUNTY PRECINCT NO. 2**

**"GEARHART DRIVE**
**PAVING & DRAINAGE IMPROVEMENTS"**
**BID NO.: 2014-078-04-02-MSS**

To: Martha L. Salazar, CPPB, Purchasing Agent
Hidalgo County Purchasing Department
2802 S. Bus. Hwy. 281
Edinburg, Texas 78539

In accordance with the Specifications, and subject to all laws and regulations of the United States and state and local laws, the undersigned bidder proposes and commits to furnish all labor, equipment, material, software and services as set forth in the documents hereinbefore mentioned. The undersigned bidder further agrees, upon acceptance of its bid, to execute a contract and/or Purchase Order issued by Hidalgo County for performing and completing the work described in the Specifications within the time stated and for the prices proposed in the documents attached hereto and made a part hereof.

Bidder acknowledges receipt of all of the pages of the documents referenced in the Invitation to Bid Table of Contents presented in connection with this procurement. Bidder understands that Hidalgo County reserves the right to reject any or all bids and further reserves the right to design the evaluation criteria to be used in selecting the lowest and best bid.

Bidder agrees that this bid shall be good and may not be withdrawn for a period of ninety (90) calendar days after the scheduled closing time for receiving bids, as contained in the Specifications.

Respectfully submitted,

_____

_____

_____

_____

6. **PERFORMANCE OF WORK BY BIDDER:** Except as otherwise provided, the bidder shall perform no less than eighty percent (80%) of the work with his own organization, only twenty percent (20%) of the work may be subcontracted.

   The organization of the specifications into divisions, sections, articles, etc., and the arrangement and titles of project drawings shall not control the Bidder in dividing the work among subcontractors or in establishing the extent of work to be performed by any trade.

   Awarded bidder shall assign a project superintendent who is directly employed by the Bidder, that superintendent will be required to be on the job on a daily basis. No subcontractors will be allowed to act as project superintendents at any point during the construction of said project.

Bidder shall have a significant business presence with the Rio Grande Valley Area, the business must be headquartered in either Hidalgo, Cameron, or Starr County or a local office must be located in either of the three counties (Hidalgo, Cameron, Starr) with at least thirty percent (30%) of the total company workforce employed at the local office. County reserves the right to request payrolls and any necessary documentation to confirm that the local office meets these requirements.

Bidders shall carefully examine the plans, specifications and other documents, visit the site of the work, and fully inform themselves as to all conditions and matters which can affect the work or cost thereof. Should the bidder find discrepancies in, or omissions from the plans, specifications or other documents, or should he/she be in doubt as their meaning, he/she should at once notify the Engineer and obtain clarification by addendum prior to submitting any bid.

Bidder herby certifies that said company carried liability coverage and workers compensation insurance coverage that meets the requirements set forth in this Request for Bids/Proposals when performing work on this project for Hidalgo County.

Furthermore, bidder certifies that any subcontractor on the project shall provide the said company with a certificate relating that all employees of the subcontractor also are provided with workers' compensation insurance coverage. Bidder will provide copies of all of these certificates to Hidalgo County during the course of the project for all subcontractors working on the project.

All subcontractors must comply with federally determined prevailing Davis-Bacon and Related Acts wage rate.

Hidalgo County encourages the hiring of minority women subcontractors and/or suppliers whenever and wherever feasible.

The undersigned hereby authorizes and requests any person, firm, or corporation to furnish any information requested by the owner in verification of the recitals comprising this Statement of Credentials.

# INFORMATION FOR BIDDERS

## 1. Receipt and Opening of Bids

The Hidalgo County Pct # 2 (herein called the "Owner"), invites bids on the form attached hereto, all blanks of which must be appropriately filled in. Bids will be received by the Owner at the Hidalgo County Purchasing department until **Wednesday, APRIL 02, 2014 at 3:00 p.m.** and then at said office publicly open and read aloud. The envelopes containing the bids must be sealed, addressed to Martha L. Salazar, Hidalgo County Purchasing Agent at 2812 S Business 281, Edinburg, Texas 78539 and designated as Bid for Hidalgo County Pct # 2.

The owner may consider informal any bid not prepared and submitted in accordance with provisions hereof and may waive any informalities or reject any and all bids. Any bid may be withdrawn prior to the above scheduled time for the opening of bids or authorized postponement thereof. Any bid received after the time and date specified shall not be considered. No bidder may withdraw a bid within 60 days after the actual date of the opening thereof.

## 2. Preparation of Bid

Each bid must be submitted on the prescribed forms and Certification by Bidder and/or contractor, concerning Labor Standards and Prevailing Wage Requirements. All blank spaces for bid prices must be filled in, in ink or typewritten, in both words and figures, and the foregoing Certificates must be fully completed and executed when submitted.

Each bid must be submitted in a sealed envelopes bearing on the outside the name of the bidder, his address, and the name of the project for which the bid is submitted. If forwarded by mail, the sealed envelope containing the bid must be enclosed in another enveloped addressed as specified in the bid form.

## 3. Subcontracts

The bidder is specifically advised that any person, firm, or other party to whom is proposed to ward a subcontract under this contract –

**a** Must be acceptable to the Owner after verification of the current eligibility status, and,
**b** Approval of the proposed subcontract award cannot be given by the Owner unless and until the proposed subcontractor has submitted the Certification and/or other evidence showing that it has fully complied with any reporting requirements to which it is or was subject. Although the bidder is not required to attach such Certification by proposed subcontractors to his bid, the bidder is here advised of this requirement so that appropriate action can be taken to prevent subsequent delay in subcontract awards.

## 4. Telegraphic Modification

Any bidder may modify his bid by telegraphic communication at any time prior to the scheduled closing time for receipt of bids, provided such telegraphic communication is received by the Owner prior to the

closing time, and provided further, the Owner is satisfied that a written confirmation of the telegraphic modification over the signature of the bidder was mailed prior to the closing time. The telegraphic communication should not reveal the bid price but should provide the additional or subtraction or other modification so that the final prices or terms will not be known by the Owner until the sealed bid is opened. If written confirmation is not received within two days from the closing time, no consideration will be given to the telegraphic modification.

**5. Method of Bidding**

The Owner invites the following bid(s):
Project Name: **Hidalgo County Precinct No. 2 – Gearhart Drive Paving & Drainage Improvements.**
Project Number: **2014-078-04-02-MSS**

**Qualifications of Bidder**

The Owner may make such investigations as he deems necessary to determine the ability of the bidder to perform the work, and the bidder shall furnish to the Owner all such information and data for this purpose as the Owner may request, the Owner reserves the right to reject any bid if the evidence submitted by, or investigation of, such bidder fails to satisfy the Owner that such bidder is properly qualified to carry out the obligations of the contract to complete the work contemplated therein. Conditional bids will not be accepted.

**6. Bid Security**

Each bid must be accompanied by certified check of the bidder, or a bid bond prepared on the form of bid bond attached hereto, duly executed by the bidder as principal and having as surety thereon a surety company approved by the Owner, in the amount of 5% of the bid. Such checks or bid bonds will be returned to all except the three lowest bidders within three days after the opening of bids, and the remaining checks, or bid bonds will be returned promptly after the Owner and the accepted bidder have executed the contract, or if no award has be made within 60 days after the date of the opening of bids, upon demand of the bidder at any time thereafter, so long as he has not been notified of the acceptance of his bid.

**7. Liquidated Damages for Failure to enter into Contract**

The successful bidder, upon his failure or refusal to execute and deliver the contract and bonds required within 10 days after he has received notice of the acceptance of his bid, shall forfeit to the Owner, as liquidated damages for such failure or refusal, the security deposited with his bid.

**8. Time of Completion and Liquidated Damages**

Bidder must agree to commence on or before a date to be specified in a Written "Notice to Proceed" of the Owner and to fully complete the project within **45** **consecutive calendar days** thereafter. Bidder must agree also to pay as liquidated damages, the sum of **$ 250.00** for each consecutive calendar day thereafter as hereinafter provided in the General Conditions.

**9. Condition of Work**

Each bidder must inform himself fully of the conditions relating to the construction of the project and the employment of labor thereon. Failure to do so will not relieve a successful bidder of his obligation to furnish all material and labor necessary to carry out the provisions of his contract. Insofar as possible the contractor, in carrying out his work, must employ such methods or means as will not cause any interruption of or interference with work of any other contractor.

**10. Addenda and Interpretations**

No interpretation of the meaning of the plans, specifications or other pre-bid documents will be made to any bidder orally.

Every request for such interpretation should be in writing via e-mail to moises.salazar@co.hidalgo.tx.us or via fax to (956) 292-7612 addressed to Martha L. Salazar, Purchasing Agent, 2802 S. Business Hwy. 281, Edinburg, TX 78539 attn: Moises Salazar, Buyer and to be given consideration must be received at least five days prior to the date fixed for the opening of bids. Any all such interpretations and any supplemental instructions will be in the form of written addenda to the specifications which, if issued, will mailed by certified mail with return receipt requested to all prospective bidders (at the respective addresses furnished for such purposes), not later than three days prior to the date fixed for the opening of bids. Failure of any bidder to receive any such addendum or interpretation shall not relieve such bidder from any obligation under his bid as submitted. All addenda so issued shall become part of the contract documents.

**11. Security for Faithful Performance**

Simultaneously with his delivery of the executed contract; the contractor shall furnish a surety bond or bonds as security for faithful performance of this contract and for the payment of all persons performing labor on the project under this contract and furnishing materials in connection with this contract, as specified in the General Conditions included herein. The surety on such bond or bonds shall be a duly authorized surety company satisfactory to the Owner.

**12. Power of Attorney**

Attorney-in-fact who sign bonds or contract bonds must file with each bond a certified and effectively dated copy of their power of attorney.

**13. Notice of Special Conditions**

Attention is particularly called to those parts of the contract documents and specifications which deal with the following;

**a** Inspection and testing of materials
**b** Insurance requirements
**c** Wage rates
**d** States allowances

## 14. Laws and Regulations

The bidder's attention is directed to the fact that all applicable State laws, municipal ordinances, and the rules and regulations of all authorities having jurisdiction of the project shall apply to the contract throughout, and they will be deemed to be included in the contract the same as though herein written out in full.

## 15. Method of Award – Lowest Qualified Bidder

If at the time this contract is to be awarded, the lowest base bid submitted by a responsible bidder does not exceed the amount of funds then estimated by the Owner as available to finance the contract the contract will be awarded on the base bid only. If such bid exceeds such amount, the Owner may reject all bids or may award the contract on the base bid combined with such deductible alternates applied in numerical order in which they are listed in the form of Bid, as produces a net amount which is within the available funds.

## 16. Obligation of Bidder

At the time of the opening of bids each bidder will be presumed to have inspected the site and to have read and to be thoroughly familiar with the plans and contract documents (including all addenda). The failure or omission of any bidder to examine any form, instrument or document shall in no way relieve any bidder from any obligation in respect of his bid.

**Supplement to Form HUD-4238-B®**
**INFORMATION FOR BIDDERS**

## 17. SAFETY STANDARDS AND ACCIDENTS PREVENTION

With respect to all work performed under this contract, the contractor shall:

1 Comply with the safety standards provision of applicable laws, building and construction codes and the "Manual of Accident Prevention in Construction" published by the Associates General Contractors or America, the requirements of the Occupational Safety and Health Act of 1970 (Public Laws 91-596), and the requirements of Title 29 of the Code of Federal Regulations, Section 1518 as published in the "Federal Register", Volume 36, No 75, Saturday, April 17, 1971.

2 Exercise every precaution at all times for the prevention of accidents and the protection of persons (including employees) and property.

3 Maintain at his office or other well known place at the job site, all articles necessary for giving first aid to the injured, and shall make standing arrangements for the immediate removal to a hospital or a doctor's care of persons (including employee), whom may be injured on the job site. In no case shall employee be permitted to work at a job site before the employer has made a standing arrangement for removal of injured person to a hospital or a doctor's care.

## SPECIAL PROVISIONS

1. The County of Hidalgo reserves the right to partially award the contract in order to meet the budget.

2. It shall be the Contractor's responsibility to locate underground utilities, whether shown or not shown on the drawings, sufficiently in advance of operations to preclude damage to same.

3. Water, sewer, or other utility serves shall not be interrupted. Any damages to existing utilities will be Contractor's responsibility.

4. In the event of damage to underground facilities, whether shown or not shown in the drawings, the Contractor shall make the necessary repairs to place the facilities back in service at no increase in the Contractors price and all such repairs shall conform to the requirements of the company or agency servicing the facility

5. The Contractor shall exercise extra care to prevent damage to all other structures in the area including, fence, roads, pipelines, utilities, etc., whether publicly or privately owned.

6. Until acceptance by the Engineer of any part or all of the construction, as provided for in the plans and these specifications, it shall be under the charge and care of the contractor, and he shall take every necessary precaution against injury or damage to any part of the work. The Contractor shall rebuild, repair, restore and make good, at his own expense, all injuries or damage to any portion of the work before its completion and acceptance.

7. In case the Contractor deems extra compensation is due him for proposed work not covered in the contract, the Contractor shall notify the Engineer in writing of his claim for such extra compensation before he begins the work. Failure on the part of the Contractor to give such notification shall constitute a waiver of claim for such extra compensation. The Contractor shall not proceed until a written Change Order is approved by the Owner, Engineer, and Contractor.

8. Prospective bidders should make a careful examination of the projects sites.

9. Contractor shall review his overall method and schedule of construction with the County Prior to construction for proper coordination of inspection.

10. No open trenches or excavation shall be left open overnight.

KNOW ALL MEN BY THESE PRESENTS, That we, the undersigned _____

_____ as Principal, and _____

_____ as Surety, are hereby held and firmly bound

unto _____ as OWNER in the penal sum of _____

_____

for the payment of which, well and truly to be made, we hereby jointly and severally bind ourselves, successors and assigns.

Signed, this _____ day of _____, 20_____.

The condition of the above obligation is such that whereas the Principal has submitted to _____

_____ a certain BID, attached hereto and hereby made a part hereof to enter into a contract in writing for the

_____

_____

_____

_____

NOW, THEREFORE,

(a) If said Bid shall be rejected, or

(b) If said Bid shall be accepted and the Principal shall execute and deliver a contract in the Form of Contract attached hereto (properly completed in accordance with said BID) and Shall furnish a BOND for his faithful performance of said contract, and for the payment of all persons performing labor or furnishing materials in connection therewith, and shall in all other respects perform the agreement created by the acceptance of said BID, then, this obligation shall be void, otherwise the same shall remain in force and effect; it being expressly understood and agreed that the liability of the Surety for any and all claims hereunder shall, in no event, exceed the penal amount of this obligation is herein stated.

The Surety, for value received, hereby stipulates and agrees that the obligations of said Surety and its BOND shall be in no way impaired or affected by any extension of the time within which the OWNER may accept such Bid; and said Surety does hereby waive notice of any such extension.

IN WITNESS WHEREOF, the Principal and the Surety have hereunto set their hands and seals, and such of them as are corporations have caused their corporate seals to be hereto affixed and these presents to be signed by their proper officers, the day and year first set forth above.

**CONSTRUCTION CONTRACT**
**C-XX-XXX-XX-XX**

This Agreement, entered into this_____day of_____, **2014** by and between **Hidalgo County** (hereinafter called the "OWNER," and, _____ (a Texas corporation), of County of Hidalgo, and State of Texas, hereinafter called "CONTRACTOR".

**WITNESSETH**

That for and in consideration of the payments and agreement hereinafter mentioned, to be made and performed by the OWNER, the CONTRACTOR hereby agrees with the OWNER to commence and complete the construction described as follows:

**Hidalgo County Precinct No. 2 "Gearhart Drive Paving & Drainage Improvements"**

Hereinafter called the project, for the sum of _____ and all extra work in connection therewith, under the terms and stated in the General and Special Conditions of the Contract; and at his (its or their) own proper cost and expense to furnish all the materials, supplies, machinery, equipment, tools, superintendence, labor, insurance, and other accessories and services necessary to complete the said project in accordance with the conditions and prices stated in the Proposal, the Technical Specifications, the General Conditions and Special Conditions printed or written explanatory matter thereof, the specifications and contract documents therefore as prepared by County of Hidalgo, Raul E. Sesin, P.E., entitled the Architect/Engineer, and as enumerated in Paragraph 1.01.A.12 of the General Conditions, all of which are made a part hereof and collectively evidence and constitute the contract.

The CONTRACTOR hereby agrees to commence work under this contract on or after a date to be specified in written "Notice to Proceed" of the OWNER and to fully complete the project within **45 consecutive calendar days thereafter**. The CONTRACTOR further agrees to pay, as liquidated damages, the sum of $**250.00** for each consecutive calendar day thereafter.

The OWNER agrees to pay the CONTRACTOR in current funds for the performance of the contract, subject to additions and deductions, as provided in the General Conditions of the contract, and to make payments on account thereof as provided in Paragraphs 14.02.C and 14.07.C of the General Conditions.

IN WITNESS WHREOF, the parties to these present have executed this contract in five (5) counterparts, each of which shall be deemed an original, in year and day first above mentioned.

# PAYMENT BOND

(To be used in Texas under V.A.T.S. 5160)

THE STATE OF _____

COUNTY OF _____

KNOW ALL MEN BY THESE PRESENTS: That we (1) _____,
a (2) _____, hereinafter called
Principal and (3)_____ of
_____, hereinafter called the
Surety, are held and firmly bound unto (4) _____ of
_____, hereinafter called Owner, and unto all persons, firms, and corporations who may furnish materials for, or perform labor upon the building or improvements hereinafter referred to the penal sum of _____ ($_____) Dollars in lawful money of the United States to be paid in (5) _____, for the payment of which sum well and truly to be made, we bind ourselves, our heirs, executors, administrators, and successors, jointly and severally, firmly be these presents.

THE CONDITION OF THIS OBLIGATION is such that Whereas, the Principal entered into a certain contract with (6)_____
_____, the Owner, dated the _____ day of _____, A.D. 20_____,
a copy of which is hereto attached and made a part hereof for the construction of:

**HIDALGO COUNTY PRECINCT 2**
**"GEARHART DRIVE PAVING & DRAINAGE IMPROVEMENTS"**

---

# EXHIBIT "C"
# Insurance Requirements

The Bidder awarded the contract shall furnish proof of insurance, which will also include any subcontractor that is subcontracted by the bidder in at least the following limits, to be in place prior to providing any services under this Contract and to continue at all times in force in effect during the term of this Contract:

1. A Five Hundred Thousand Dollar ($500,000.00) Comprehensive General Liability insurance policy providing additional coverage to all underlying liabilities of County.

2. Automobile liability insurance policy with limits of at least Three Hundred Thousand Dollars ($300,000.00) per person and Five Hundred Thousand Dollars ($500,000.00) per occurrence. Coverage should include injury to or death of persons and property damage claims with limits up to Five Hundred Thousand ($500,000.00) arising out of the services provided to County hereunder.

3. Uninsured/Underinsured motorist coverage in an amount equal to the bodily injury limits set forth immediately above;

4. Workers compensation insurance in amounts established by Texas law, unless the Bidder is specifically exempted from the Texas Workers Compensation Act, Texas Labor Code Chapter 401, et. seq.

Certificates of insurance naming County as an additional insured shall be submitted to County for approval prior to any services being performed by Contractor. Each policy of insurance required hereunder shall extend for a period equivalent to, or longer than the term of the Contract, and any insurer hereunder shall be required to give at least thirty (30) days written notice to the County prior to the cancellation of any such coverage on the termination date, or otherwise. This Contract shall be automatically suspended upon the cancellation, or other termination, of any required policy of insurance hereunder, and such suspension shall continue until evidence adequate replacement coverage is provided to County. If replacement coverage is not provided within thirty (30) days following suspension of the Contract, this Contract shall automatically terminate.

# Insurance Requirement Acknowledgment

I, _____, authorized representative for _____,
Company/Vendor

hereby acknowledge receipt of the County's required insurance limits. Said requirements:

☐ will be acquired within 10 working days after notification from Purchasing Department of bid awarded by the Hidalgo County Commissioners' Court;

☐ will acquire additional amounts required to meet the County's requirements within 10 working days after notification from Purchasing Department of bid award by the Hidalgo County Commissioners' Court; currently carry the following:

Automobile Liability: $_____ General Liability: $

☐ have already been met, see attached copy of insurance certificate.

_____ _____.
Authorized Representative Date

**Notice to Bidder:**
A certificate of insurance for the required insurance limits shall be provided to the Purchasing Department's Contract Managers in order to qualify for award of bid and to execute a contract between your Company and the County

Failure to provide Certificates of Insurance to the Purchasing Department's Contract Managers will cause the bid award to be rescinded and re-awarded to next lowest bidder. Certificates of Insurance will be monitored and verified on a **quarterly basis** to ensure coverage policy is in place. It is the Company=s obligation to maintain the appropriate insurance coverage throughout the term of the contract.

**THIS FORM MUST ACCOMPANY BID PACKET**

# PROJECT REQUIREMENTS ACKNOWLEDGMENT

This is to certify that I, _____, possess all of the APPLICABLE:

1. Licenses: _____.
2. Bonds: _____.
3. Certificates: _____.
4. Permits: _____.
5. Other: _____.

necessary to carry out the required project. Furthermore, I am providing copies of the required documentation so that, if my company is awarded this bid, I may be eligible to enter into a contract with Hidalgo County and proceed to complete the project in a timely manner.

* Any licenses, bonds, certificates, permits, etc. which are required must be presented as part of the bid packet in order to expedite the bid evaluation process. Failure to provide said documentation will result in the disqualification of your bid.

# GENERAL CONDITIONS OF THE AGREEMENT

## 1. GENERAL

It is the intent of these instructions, plans and specifications to provide guidance for the construction of this project.

## 2. REGULATIONS AND DISCREPANCIES

All applicable laws, ordinances, policy, rules, regulations and other directives of all authorities having jurisdiction over the projects shall apply to the contract throughout and will be deemed to be included in the contract the same as those written out in full. Discrepancies between regulations or conflicting parts of the Specifications shall be brought to the attention of an clarified by the Engineer before proceeding with any work. Proceeding with affected work without instructions from the Engineer can result in the Contractor being responsible for taking the necessary steps to insure the work conforms to the governing regulation.

## 3. ENGINEER

Whenever the work "ENGINEER" is used in this contract with reference to the preparation of plans, specifications, and contract documents, it shall be understood as referring to County of Hidalgo, Raul E. Sesin, P.E.

## 4. INTERPRETATION OF PHRASES

Whenever the words "Directed", "Required", "Permitted", "Designated", "Considered Necessary", "Prescribed", or words of like importance are used, it shall be understood that the direction, requirements, permission, order, designation or prescription, of the ENGINEER is intended and similarly, the words "Approval", "Acceptable", "Satisfactory", or words of like importance shall mean approved by or acceptable of satisfactory to the ENGINEER. The preceeding to the contrary notwithstanding, Engineer's approval or acceptance of the work shall by advisory to OWNER, and shall not bind the OWNER to accept or approve the same.

Whenever, in the specifications or drawings accompanying this agreement, the terms or description of various qualities relative to finish, workmanship, or other qualities of similar kind which cannot,, from their nature, be specifically and clearly described and specified, but are necessarily described in general terms, then, in all such cases, any question of the fulfillment of said specifications shall be decided by the ENGINEER, and said work shall be done in accordance with his interpretations of the meaning of the words, terms, or clauses defining the character of the work.

# Title 29 - LABOR

## Subtitle A - Office of the Secretary of Labor

### PART 3 - CONTRACTORS AND SUBCONTRACTORS ON PUBLIC BUILDING OR PUBLIC WORK FINANCED IN WHOLE OR IN PART BY LOANS OR GRANTS FROM THE UNITED STATES

Sec.

3.1 Purpose and scope
3.2 Definitions
3.3 Weekly statement with respect to payment of wages
3.4 Submission of weekly statements and the preservation and inspection of weekly payroll records.
3.5 Payroll deductions permissible without application to or approval of the Secretary of Labor.
3.6 Payroll deductions permissible with the approval of the Secretary of Labor.
3.7 Applications for the approval of the Secretary of Labor
3.8 Action by the Secretary of Labor upon applications.
3.9 Prohibited payroll deductions.
3.10 Methods of payment of wages.
3.11 Regulations part of contract.

AUTHORITY: The provisions of this Part 3 issued under R.S. 16 1, sec. 2, 48 Stat. §48; Reorg. Plan No. 14 of 1950, 64 Stat. 1267, 5 U.S.C. Appendix; 5 U.S.C. 301; 40 U.S.C. 276c.

SOURCE: The provisions of this Part 3 appear at 29 F.R. 97, Jan. 4, 1964, unless otherwise noted.

**Section 3.1 Purpose and Scope.**

This part prescribes "anti-kickback" regulations under section 2 of the Act of June 13, 1934, as amended (40 U.S.C. 276c), popularly known as the Copeland Act. This part applies to any contract which is subject to Federal wage standards and which is for the construction, prosecution, completion, or repair of public buildings, public works or buildings or works financed in whole or in part by loans or grants from the United States. The part is intended to aid in the enforcement of the minimum wage provisions of the Davis-Bacon Act and the various statutes dealing with Federally assisted construction that contain similar minimum wage provisions, including those provisions which are not subject to Reorganization Plan No. 14 (e.g., the College Housing Act of 1950, the Federal Water Pollution Control Act, and the Housing Act of 1959), and in the enforcement of the overtime provisions of the Contract Work Hours Standards Act whenever they are applicable to construction work. The part details the obligation of contractors and subcontractors relative to the weekly submission of statements regarding the wages paid on work covered thereby; sets forth the circumstances and procedures governing the making of payroll deductions from the wages of those employed on such work; and delineates the methods of payment permissible on such work.

**Section 3.2 Definitions.**

As used in the regulations in this part:

(a) The terms "building" or "work" generally include construction activity as distinguished from manufacturing, furnishing of materials, or servicing and maintenance work. The terms include, without limitation, buildings, structures, and improvements of all @s, such as bridges, dams, plants, highways, parkways, streets, subways, tunnels, sewers, mains, powerlines, pumping stations, railways, airports, terminals, docks, piers, wharves, ways, lighthouses, buoys, jetties, breakwaters, levees, and canals; dredging, shoring, scaffolding, drilling, blasting, excavating, clearing, and landscaping. Unless conducted in connection with and at the site of such a building or work as is described in the foregoing sentence, the manufacture or furnishing of materials, articles, supplies, or equipment (whether or not a Federal or State agency acquires title to such materials,

articles, supplies, or equipment during the course of the manufacture or furnishing, or owns the materials from which they are manufactured or furnished) is not a "building" or "work" within the meaning of the regulations in this part.

(b) The terms construction," 4; prosecution," @'completion," or repair" mean all types of work done on a particular building or work at the site thereof, including, without limitation, altering, remodeling, painting and decorating, the transporting of materials and supplies to or from the building or work by the employees of the construction contractor or construction subcontractor, and the manufacturing or furnishing of materials, articles, supplies, or equipment on the site of the building or work, by persons employed at the site by the contractor or subcontractor.

(c) The terms "public building" or "public work" include building or work for whose construction, prosecution, completion, or repair, as defined above, a Federal agency is a contracting party, regardless of whether title thereof is in a Federal agency.

(d) The term "building or work financed in whole or in part by loans or grants from the Unites States" includes building or work for whose construction, prosecution, completion, or repair, as defined above, payment or part payment is made directive or indirectly from funds provided by loans or grants by a Federal agency. The term includes building or work for which the Federal assistance granted is in the form of loan guarantees or insurance.

(e) Every person paid by a contractor or subcontractor in any manner for his labor in the construction, prosecution, completion, or repair of a public building or public work or building or work financed in whole or in part by loans or grants from the United States is "employed" and receiving 44 wages," regardless of any contractual relationship alleged to exist between him and the real employer.

(f) The term "any affiliated person" includes a spouse, child, parent, or other close relative of the contractor or subcontractor; a partner or officer of the contractor or subcontractor; a corporation closely connected with the contractor or subcontractor as parent, subsidiary or otherwise, and an officer or agent of such corporation.

(g) The term "Federal agency" means the United States, the District of Columbia, and all executive departments, independent establishments, administrative agencies, and instrumentality's of the United States and of the District of Columbia, including corporations. all or substantially all of the stock of which is beneficially owned by the United States, by the District of Columbia, or any of the foregoing departments, establishments, agencies, and instrumentality's.

**(29 FR 97, Jan. 4, 1964, as amended at 33 FR 32575, Nov. 27, 1973)**

**Section 3.3 Weekly statement with respect to payment of wages.**

(a) As used in this section, the term "employee" shall not apply to persons in classifications higher than that of laborer or mechanic and those who are the immediate supervisors of such employees.

(b) Each contractor or subcontractor engaged in the construction, prosecution, completion, or repair of any public building or public work, or building or work financed in whole or in part by loans or grants from the United States, shall furnish each week a statement with respect to the wages paid each of its employees engaged on work covered by 29 CFR Parts 3 and 5 during the preceding weekly payroll period. This statement shall be executed by the contractor or subcontractor or by an authorized officer of employee of the contractor or subcontractor who supervises the payment of wages, and shall be on form @ 348, "Statement of Compliance," or on an identical form on the back of @ 347, "Payroll (For Contractors Optional Use)" or on any form with identical wording. Sample copies of @ 347 and @ 348 may be obtained from the Government contracting or sponsoring agency, and copies of these forms may be purchased at the Government Printing Office.

(c) The requirements of this section shall not apply to any contract of $2,000 or less.

(d) Upon a written finding by the head of a Federal agency, the Secretary of Labor may provide reasonable limitations, variations, tolerances, and exemptions from the requirements of this section subject to such conditions as the Secretary of Labor may specify.

(29 F.R. 95, Jan. 4, 19(A, as ==tied at 33 F.R. 10186, July 17,1968)

*Copeland Act Regulations*

**Section 3.4 Submission of weekly statements and the preservation and inspection of weekly payroll records.**

(a) Each weekly statement required under §3.3 shall be delivered by the contractor or subcontractor, within seven days after the regular payment date of the payroll period, to a representative of a Federal or State agency in charge at the site of the building or work, or if there is no representative of a Federal or State agency at the site of the building or work, the statement shall be mailed by the contractor or

subcontractor, within such time, to a Federal or State agency contracting for or financing the building or work. After such examination and check as may be made, such statement, or a copy thereof, shall be kept available, or shall be transmitted together with a report of any violation, in accordance with applicable procedures prescribed by the United States Department of Labor.

(b) Each contractor or subcontractor shall preserve his weekly payroll records for a period of three years from date of completion of the contract. The payroll records shall set out accurately and completely the name and address of each taborer and mechanic, his correct classification, rate of pay, daily and weekly number of hours worked, deductions made, and actual wages paid. Such payroll records shall be made available at all times for inspection by the contracting officer or his authorized representative, and by authorized representatives of the Department of Labor.

**Section 3.5 Payroll deductions permissible without application to or approval of the Secretary of Labor.**

Deductions made under the circumstances or in the situations described in the paragraphs of this section may be made without application to and approval of the Secretary of Labor:

(a) Any deduction made in compliance with the requirements of Federal, State, or local law, such as Federal or State withholding income taxes and Federal social security taxes.

(b) Any deduction of sums previously paid to the employee as a bona fide prepayment of wages when such prepayment is made without discount or interest. A "bona fide prepayment of wages" is considered to have been made only when cash or its equivalent has been advanced to the person employed in such manner as to give him complete freedom of disposition of the advanced funds.

(c) Any deduction of amounts required by court process to be paid to another, unless, the deduction is in favor of the contractor, subcontractor or any affiliated person, or when collusion or collaboration exists.

(d) Any deduction constituting a contribution on behalf of the person employed to funds established by the employer or representatives of employees, or both, for the purpose of providing either from principal or income, or both, medical or hospital care, pensions, or annuities on retirement, death benefits, compensation for injuries, illness, accidents, sickness,

(k) Any deduction for the cost of safety equipment of nominal value purchased by the

or disability, or for insurance to provide any of the foregoing, or unemployment benefits, vacation pay, savings accounts, or similar payments for the benefit of employees, their families and dependents: Provided, however, That the following standards are met: (1) The deduction is not otherwise prohibited by law; (2) it is either: (i) Voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of or for the continuation of employment, or (ii) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; (3) no profit or other benefit is otherwise obtained, directly or indirectly, by the contractor or subcontractor or any affiliated person in the form of commission, dividend, or otherwise; and (4) the deductions shall serve the convenience and interest of the employee. (e) Any deduction contributing toward the purchase of United States Defense Stamps and Bonds when voluntarily authorized by the employee.

(f) Any deduction requested by the employee to enable him to repay loans to or to purchase shares in credit unions organized and operated in accordance with Federal and State credit union statutes.

(g) Any deduction voluntarily authorized by the employee for the making of contributions to

governmental or quasi-governmental agencies, such as the American Red Cross.

(h) Any deduction voluntarily authorized by the employee for the making of contributions to Community Chests, United Givers Funds, and similar charitable organizations.

(i) Any deductions to pay regular union initiation fees and membership dues, not including fines or special assessments: Provided, however, That a collective bargaining agreement between the contractor or subcontractor and representatives of its employees provides for such deductions and the deductions are not otherwise prohibited by law.

0) Any deduction not more than for the "reasonable cost" of board, lodging, or other facilities meeting the requirements of section 3(m) of the Fair Labor Standards Act of 1938, as amended, and Part 531 of this title. When such a deduction is made the additional records required under §516.27(a) of this title shall be kept.

employee as his own prope@ for his personal protection in his work, such as safety shoes, safety

glasses, safety gloves, and hard hats, if such equipment is not required by law to be furnish by the employer, if such deduction is not violative of the Fair Labor Standards Act or prohibited by other law, if the cost on which the deduction is based does not exceed the actual cost to the employer where the equipment is purchased from him and does not include any direct or indirect monetary return to the employer where the equipment is purchased from a third person, and if the deduction is either (1) voluntarily consented to be the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of employment or its continuance; or (2) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees.
(36 F.R. 9770, May 28,1971.)

**Section 3.6 Payroll deductions permissible with the approval of the Secretary of Labor.**

Any contractor or subcontractor may apply to the Secretary of Labor for permission to make any

deduction not permitted under §3.5. The Secretary may grant permission whenever he finds that:

(a) The contractor, subcontractor, or any affiliated person does not make a profit or benefit

directly or indirectly from the deduction either in the form of a commission, dividend, or otherwise;

(b) The deduction is not otherwise prohibited by law;

(c) The deduction is either (1) voluntarily consented to by the employee in writing and in advance of the period in which the work is to be done and such consent is not a condition either for the obtaining of employment or its continuance, or (2) provided for in a bona fide collective bargaining agreement between the contractor or subcontractor and representatives of its employees; and

(d) The deduction serves the convenience and interest of the employee.

**Section 3.7 Applications for the approval of the Secretary of Labor.**

Any application for the making of payroll deductions under §3.6 shall comply with the requirements prescribed in the following paragraphs of this section:

(a) The application shall be in writing and shall be addressed to the Secretary of Labor.

(b) The application need not identify the contract or contracts under which the work in question is to be performed. Permission will be given for deductions on all current and future contracts of the applicant for a period of I year. A renewal of permission to make such payroll deduction will be granted upon the submission of an application which makes reference to the original application, recites the date of the Secretary of Labor's approval of such deductions, states affirmatively that there is continued compliance with the standards set forth in the provisions of §3.6, and specifies any conditions which have changed in regard to the payroll deductions.
(36 F.IL 9770, May 29, 1971.)

(c) The application shall state affirmatively that there is compliance with the standards set forth in the provisions of §3.6. The affirmation shall be accompanied by a full statement of the facts indicating such compliance.

(d) The application shall include a description of the proposed deduction, the purpose to be served there by, and the classes of laborers or mechanics from whose wages the proposed deduction would be made.

(e) The application shall state the name and business of any third person to whom any funds obtained from the proposed deductions are to be transmitted and the affiliation of such person, if any, with the applicant. -

**Section 3.8 Action by the Secretary of Labor upon applications.**

The Secretary of Labor shall decide whether or not the requested deduction is permissible under provisions of §3.6; and shall notify the applicant in writing of his decision.

**Section 3.9 Prohibited payroll deductions.**

Deductions not elsewhere provided for by this part and which are not found to be permissible under §3.6 are prohibited.

**Section 3.10 Methods of payment of wages.**

The payment of wages shall be by cash, negotiable instruments pkvable on demand, or the additional forms of compensation for which deductions are permissible under this part. No other methods of payment shall be recognized on work subject to the Copeland Act.

**Section 3.11 Regulations part of contact.**

All contracts made with respect to the construction, prosecution, completion, or repair of any public building or public work or building or work financed in whole or in part by loans or grants from the United States covered by the regulations in this part shall expressly bind the contractor or subcontractor to comply with such of the regulations in this part as may be applicable. In this regard, see §5.5(a) of this subtitle.

# GENERAL CONDITIONS

## ARTICLE 1 - DEFINITIONS AND TERMINOLOGY

1.01 *Defined Terms*

A. Wherever used in the Contract Documents and printed with initial or all capital letters, the terms listed below will have the meanings indicated which are applicable to both the singular and plural thereof.

1. *Addenda*--Written or graphic instruments issued prior to the opening of Bids which clarify, correct, or change the Bidding Requirements or the Contract Documents.

2. *Agreement*--The written instrument which is evidence of the agreement between OWNER and CONTRACTOR covering the Work.

3. *Application for Payment*--The form acceptable to ENGINEER which is to be used by CONTRACTOR during the course of the Work in requesting progress or final payments and which is to be accompanied by such supporting documentation as is required by the Contract Documents.

4. *Asbestos*--Any material that contains more than one percent asbestos and is friable or is releasing asbestos fibers into the air above current action levels established by the United States Occupational Safety and Health Administration.

5. *Bid*--The offer or proposal of a bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

6. *Bidding Documents*--The Bidding Requirements and the proposed Contract Documents (including all Addenda issued prior to receipt of Bids).

7. *Bidding Requirements*--The Advertisement or Invitation to Bid, Instructions to Bidders, Bid security form, if any, and the Bid form with any supplements.

8. *Bonds*--Performance and payment bonds and other instruments of security.

9. *Change Order*--A document recommended by ENGINEER which is signed by CONTRACTOR and OWNER and authorizes an addition, deletion, or revision in the Work or an adjustment in the Contract Price or the Contract Times, issued on or after the Effective Date of the Agreement.

10. *Claim*--A demand or assertion by OWNER or CONTRACTOR seeking an adjustment of Contract Price or Contract Times, or both, or other relief with respect to the terms of the Contract. A demand for money or services by a third party is not a Claim.

11. *Contract*--The entire and integrated written agreement between the OWNER and CONTRACTOR concerning the Work. The Contract supersedes prior negotiations, representations, or agreements, whether written or oral.

12. *Contract Documents*--The Contract Documents establish the rights and obligations of the parties and include the Agreement, Addenda (which pertain to the Contract Documents), CONTRACTOR's Bid (including documentation accompanying the Bid and any post Bid documentation submitted prior to the Notice of Award) when attached as an exhibit to the Agreement, the Notice to Proceed, the Bonds, these General Conditions, the Supplementary Conditions, the Specifications and the Drawings as the same are more specifically identified in the Agreement, together with all Written Amendments, Change Orders, Work Change Directives, Field Orders, and ENGINEER's written interpretations and clarifications issued on or after the Effective Date of the Agreement. Approved Shop Drawings and the reports and drawings of subsurface and physical conditions are not Contract Documents. Only printed or hard copies of the items listed in this paragraph are Contract Documents. Files in electronic media format of text, data, graphics, and the like that may be furnished by OWNER to CONTRACTOR are not Contract Documents.

13. *Contract Price*--The moneys payable by OWNER to CONTRACTOR for completion of the Work in accordance with the Contract Documents as stated in the Agreement (subject to the provisions of paragraph 11.03 in the case of Unit Price Work).

14. *Contract Times*--The number of days or the dates stated in the Agreement to: (i) achieve Substantial Completion; and (ii) complete the Work so that it is ready for final payment as evidenced by ENGINEER's written recommendation of final payment.

15. *CONTRACTOR*--The individual or entity with whom OWNER has entered into the Agreement.

16. *Cost of the Work*--See paragraph 11.01.A for definition.

17. *Drawings*--That part of the Contract Documents prepared or approved by ENGINEER which graphically shows the scope, extent, and character of the Work to be performed by CONTRACTOR. Shop Drawings and other CONTRACTOR submittals are not Drawings as so defined.

18. *Effective Date of the Agreement*--The date indicated in the Agreement on which it becomes effective, but if no such date is indicated, it means the date on which the Agreement is signed and delivered by the last of the two parties to sign and deliver.

19. *ENGINEER*--The individual or entity named as such in the Agreement.

20. *ENGINEER's Consultant*--An individual or entity having a contract with ENGINEER to furnish services as ENGINEER's independent professional associate or consultant with respect to the Project and who is identified as such in the Supplementary Conditions.

21. *Field Order*--A written order issued by ENGINEER which requires minor changes in the Work but which does not involve a change in the Contract Price or the Contract Times.

22. *General Requirements*--Sections of Division 1 of the Specifications. The General Requirements pertain to all sections of the Specifications.

23. *Hazardous Environmental Condition*--The presence at the Site of Asbestos, PCBs, Petroleum, Hazardous Waste, or Radioactive Material in such quantities or circumstances that may present a substantial danger to persons or property exposed thereto in connection with the Work.

24. *Hazardous Waste*--The term Hazardous Waste shall have the meaning provided in Section 1004 of the Solid Waste Disposal Act (42 USC Section 6903) as amended from time to time.

25. *Laws and Regulations; Laws or Regulations*--Any and all applicable laws, rules, regulations, ordinances, codes, and orders of any and all governmental bodies, agencies, authorities, and courts having jurisdiction.

26. *Liens*--Charges, security interests, or encumbrances upon Project funds, real property, or personal property.

27. *Milestone*--A principal event specified in the Contract Documents relating to an intermediate completion date or time prior to Substantial Completion of all the Work.

28. *Notice of Award*--The written notice by OWNER to the apparent successful bidder stating that upon timely compliance by the apparent successful bidder with the conditions precedent listed therein, OWNER will sign and deliver the Agreement.

29. *Notice to Proceed*--A written notice given by OWNER to CONTRACTOR fixing the date on which the Contract Times will commence to run and on which CONTRACTOR shall start to perform the Work under the Contract Documents.

30. *OWNER*--The individual, entity, public body, or authority with whom CONTRACTOR has entered into the Agreement and for whom the Work is to be performed.

31. *Partial Utilization*--Use by OWNER of a substantially completed part of the Work for the purpose for which it is intended (or a related purpose) prior to Substantial Completion of all the Work.

32. *PCBs*--Polychlorinated biphenyls.

33. *Petroleum*--Petroleum, including crude oil or any fraction thereof which is liquid at standard conditions of temperature and pressure (60 degrees Fahrenheit and 14.7 pounds per square inch absolute), such as oil, petroleum, fuel oil, oil sludge, oil refuse, gasoline, kerosene, and oil mixed with other non-Hazardous Waste and crude oils.

34. *Project*--The total construction of which the Work to be performed under the Contract Documents may be the whole, or a part as may be indicated elsewhere in the Contract Documents.

35. *Project Manual*--The bound documentary information prepared for bidding and constructing the Work. A listing of the contents of the Project Manual, which may be bound in one or more volumes, is contained in the table(s) of contents.

36. *Radioactive Material*--Source, special nuclear, or byproduct material as defined by the Atomic Energy Act of 1954 (42 USC Section 2011 et seq.) as amended from time to time.

37. *Resident Project Representative*--The authorized representative of ENGINEER who may be assigned to the Site or any part thereof.

38. *Samples*--Physical examples of materials, equipment, or workmanship that are representative of some portion of the Work and which establish the standards by which such portion of the Work will be judged.

39. *Shop Drawings*--All drawings, diagrams, illustrations, schedules, and other data or information which are specifically prepared or assembled by or for CONTRACTOR and submitted by CONTRACTOR to illustrate some portion of the Work.

40. *Site*--Lands or areas indicated in the Contract Documents as being furnished by OWNER upon which the Work is to be performed, including rights-of-way and easements for access thereto, and such other lands furnished by OWNER which are designated for the use of CONTRACTOR.

41. *Specifications*--That part of the Contract Documents consisting of written technical descriptions of materials, equipment, systems, standards, and workmanship as applied to the Work and certain administrative details applicable thereto.

42. *Subcontractor*--An individual or entity having a direct contract with CONTRACTOR or with any other Subcontractor for the performance of a part of the Work at the Site.

43. *Substantial Completion*--The time at which the Work (or a specified part thereof) has progressed to the point where, in the opinion of ENGINEER, the Work (or a specified part thereof) is sufficiently complete, in accordance with the Contract Documents, so that the Work (or a specified part thereof) can be utilized for the purposes for which it is intended. The terms "substantially complete" and "substantially completed" as applied to all or part of the Work refer to Substantial Completion thereof.

44. *Supplementary Conditions*--That part of the Contract Documents which amends or supplements these General Conditions.

45. *Supplier*--A manufacturer, fabricator, supplier, distributor, materialman, or vendor having a direct contract with CONTRACTOR or with any Subcontractor to furnish materials or equipment to be incorporated in the Work by CONTRACTOR or any Subcontractor.

46. *Underground Facilities*--All underground pipelines, conduits, ducts, cables, wires, manholes, vaults, tanks, tunnels, or other such facilities or attachments, and any encasements containing such facilities, including those that convey electricity, gases, steam, liquid petroleum products, telephone or other communications, cable television, water, wastewater, storm water, other liquids or chemicals, or traffic or other control systems.

47. *Unit Price Work*--Work to be paid for on the basis of unit prices.

48. *Work*--The entire completed construction or the various separately identifiable parts thereof required to be provided under the Contract Documents. Work includes and is the result of performing or providing all labor, services, and documentation necessary to produce such construction, and furnishing, installing, and incorporating all materials and equipment into such construction, all as required by the Contract Documents.

49. *Work Change Directive*--A written statement to CONTRACTOR issued on or after the Effective Date of the Agreement and signed by OWNER and recommended by ENGINEER ordering an addition, deletion, or revision in the Work, or responding to differing or unforeseen subsurface or physical conditions under which the Work is to be performed or to emergencies. A Work Change Directive will not change the Contract Price or the Contract Times but is evidence that the parties expect that the change ordered or documented by a Work Change Directive will be incorporated in a subsequently issued Change Order following negotiations by the parties as to its effect, if any, on the Contract Price or Contract Times.

50. *Written Amendment*--A written statement modifying the Contract Documents, signed by OWNER and CONTRACTOR on or after the Effective Date of the Agreement and normally dealing with the nonengineering or nontechnical rather than strictly construction-related aspects of the Contract Documents.

1.02 *Terminology*

A. *Intent of Certain Terms or Adjectives*

1. Whenever in the Contract Documents the terms "as allowed," "as approved," or terms of like effect or import are used, or the adjectives "reasonable," "suitable," "acceptable," "proper," "satisfactory," or adjectives of like effect or import are used to describe an action or determination of ENGINEER as to the Work, it is intended that such action or determination will be solely to evaluate, in general, the completed Work for compliance with the requirements of and information in the Contract Documents and conformance with the design concept of the completed Project as a functioning whole as shown or indicated in the Contract Documents (unless there is a specific statement indicating otherwise). The use of any such term or adjective shall not be effective to assign to ENGINEER any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility contrary to the provisions of paragraph 9.10 or any other provision of the Contract Documents.

B. *Day*

1. The word "day" shall constitute a calendar day of 24 hours measured from midnight to the next midnight.

C. *Defective*

1. The word "defective," when modifying the word "Work," refers to Work that is unsatisfactory, faulty, or deficient in that it does not conform to the Contract Documents or does not meet the requirements of any inspection, reference standard, test, or approval referred to in the Contract Documents, or has been damaged prior to ENGINEER's recommendation of final payment (unless responsibility for the protection thereof has been assumed by OWNER at Substantial Completion in accordance with paragraph 14.04 or 14.05).

D. *Furnish, Install, Perform, Provide*

1. The word "furnish," when used in connection with services, materials, or equipment, shall mean to supply and deliver said services, materials, or equipment to the Site (or some other specified location) ready for use or installation and in usable or operable condition.

2. The word "install," when used in connection with services, materials, or equipment, shall mean to put into use or place in final position said services, materials, or equipment complete and ready for intended use.

3. The words "perform" or "provide," when used in connection with services, materials, or equipment, shall mean to furnish and install said services, materials, or equipment complete and ready for intended use.

4. When "furnish," "install," "perform," or "provide" is not used in connection with services, materials, or equipment in a context clearly requiring an obligation of CONTRACTOR, "provide" is implied.

E. Unless stated otherwise in the Contract Documents, words or phrases which have a well-known technical or construction industry or trade meaning are used in the Contract Documents in accordance with such recognized meaning.

ARTICLE 2 - PRELIMINARY MATTERS

2.01 *Delivery of Bonds*

A. When CONTRACTOR delivers the executed Agreements to OWNER, CONTRACTOR shall also deliver to OWNER such Bonds as CONTRACTOR may be required to furnish.

2.02* *Copies of Documents*

A. OWNER shall furnish to CONTRACTOR up to ten copies of the Contract Documents. Additional copies will be furnished upon request at the cost of reproduction.

2.03 *Commencement of Contract Times; Notice to Proceed*

A. The Contract Times will commence to run on the thirtieth day after the Effective Date of the Agreement or, if a Notice to Proceed is given, on the day indicated in the Notice to Proceed. A Notice to Proceed may be given at any time within 30 days after the Effective Date of the Agreement. In no event will the Contract Times com-

mence to run later than the sixtieth day after the day of Bid opening or the thirtieth day after the Effective Date of the Agreement, whichever date is earlier.

2.04 *Starting the Work*

A. CONTRACTOR shall start to perform the Work on the date when the Contract Times commence to run. No Work shall be done at the Site prior to the date on which the Contract Times commence to run.

*See Supplementary Conditions

2.05* *Before Starting Construction*

A. *CONTRACTOR's Review of Contract Documents:* Before undertaking each part of the Work, CONTRACTOR shall carefully study and compare the Contract Documents and check and verify pertinent figures therein and all applicable field measurements. CONTRACTOR shall promptly report in writing to ENGINEER any conflict, error, ambiguity, or discrepancy which CONTRACTOR may discover and shall obtain a written interpretation or clarification from ENGINEER before proceeding with any Work affected thereby; however, CONTRACTOR shall not be liable to OWNER or ENGINEER for failure to report any conflict, error, ambiguity, or discrepancy in the Contract Documents unless CONTRACTOR knew or reasonably should have known thereof.

B. *Preliminary Schedules:* Within ten days after the Effective Date of the Agreement (unless otherwise specified in the General Requirements), CONTRACTOR shall submit to ENGINEER for its timely review:

1. a preliminary progress schedule indicating the times (numbers of days or dates) for starting and completing the various stages of the Work, including any Milestones specified in the Contract Documents;

2. a preliminary schedule of Shop Drawing and Sample submittals which will list each required submittal and the times for submitting, reviewing, and processing such submittal; and

3. a preliminary schedule of values for all of the Work which includes quantities and prices of
items which when added together equal the Contract Price and subdivides the Work into component parts in sufficient detail to serve as the basis for progress payments during performance of the Work. Such prices will include an appropriate amount of overhead and profit applicable to each item of Work.

* C. *Evidence of Insurance:* Before any Work at the Site is started, CONTRACTOR and OWNER shall each deliver to the other, with copies to each additional insured identified in the Supplementary Conditions, certificates of insurance (and other evidence of insurance which either of them or any additional insured may reasonably request) which CONTRACTOR and OWNER respectively are required to purchase and maintain in accordance with Article 5.

2.06 *Preconstruction Conference*

A. Within 20 days after the Contract Times start to run, but before any Work at the Site is started, a conference attended by CONTRACTOR, ENGINEER, and others as appropriate will be held to establish a working understanding among the parties as to the Work and to discuss the schedules referred to in paragraph 2.05.B, procedures for handling Shop Drawings and other submittals, processing Applications for Payment, and maintaining required records.

2.07 *Initial Acceptance of Schedules*

A. Unless otherwise provided in the Contract Documents, at least ten days before submission of the first Application for Payment a conference attended by CONTRACTOR, ENGINEER, and others as appropriate will be held to review for acceptability to ENGINEER as provided below the schedules submitted in accordance with paragraph 2.05.B. CONTRACTOR shall have an additional ten days to make corrections and adjustments and to complete and resubmit the schedules. No progress payment shall be made to CONTRACTOR until acceptable schedules are submitted to ENGINEER.

1. The progress schedule will be acceptable to ENGINEER if it provides an orderly progression of the Work to completion within any specified Milestones and the Contract Times. Such acceptance will not impose on ENGINEER responsibility for the progress schedule, for sequencing, scheduling, or progress of the Work nor interfere with or relieve CONTRACTOR from CONTRACTOR's full responsibility therefor.

2. CONTRACTOR's schedule of Shop Drawing and Sample submittals will be acceptable to ENGINEER if it provides a workable arrangement for reviewing and processing the required submittals.

3. CONTRACTOR's schedule of values will be acceptable to ENGINEER as to form and substance if it provides a reasonable allocation of the Contract Price to component parts of the Work.

*See Supplementary Conditions

ARTICLE 3 - CONTRACT DOCUMENTS: INTENT, AMENDING, REUSE

3.01* *Intent*

A. The Contract Documents are complementary; what is called for by one is as binding as if called for by all.

B. It is the intent of the Contract Documents to describe a functionally complete Project (or part thereof) to be constructed in accordance with the Contract Documents. Any labor, documentation, services, materials, or equipment that may reasonably be inferred from the Contract Documents or from prevailing custom or trade usage as being required to produce the intended result will be provided whether or not specifically called for at no additional cost to OWNER.

C. Clarifications and interpretations of the Contract Documents shall be issued by ENGINEER as provided in Article 9.

3.02 *Reference Standards*

A. *Standards, Specifications, Codes, Laws, and Regulations*

1. Reference to standards, specifications, manuals, or codes of any technical society, organization, or association, or to Laws or Regulations, whether such reference be specific or by implication, shall mean the standard, specification, manual, code, or Laws or Regulations in effect at the time of opening of Bids (or on the Effective Date of the Agreement if there were no Bids), except as may be otherwise specifically stated in the Contract Documents.

2. No provision of any such standard, specification, manual or code, or any instruction of a Supplier shall be effective to change the duties or responsibilities of OWNER, CONTRACTOR, or ENGINEER, or any of their subcontractors, consultants, agents, or employees from those set forth in the Contract Documents, nor shall any such provision or instruction be effective to assign to OWNER, ENGINEER, or any of ENGINEER's Consultants, agents, or employees any duty or authority to supervise or direct the performance of the Work or any duty or authority to undertake responsibility inconsistent with the provisions of the Contract Documents.

3.03 *Reporting and Resolving Discrepancies*

A. *Reporting Discrepancies*

1. If, during the performance of the Work, CONTRACTOR discovers any conflict, error, ambiguity, or discrepancy within the Contract Documents or between the Contract Documents and any provision of any Law or Regulation applicable to the performance of the Work or of any standard, specification, manual or code, or of any instruction of any Supplier, CONTRACTOR shall report it to ENGINEER in writing at once. CONTRACTOR shall not proceed with the Work affected thereby (except in an emergency as required by paragraph 6.16.A) until an amendment or supplement to the Contract Documents has been issued by one of the methods indicated in paragraph 3.04; provided, however, that CONTRACTOR shall not be liable to OWNER or ENGINEER for failure to report any such conflict, error, ambiguity, or discrepancy unless CONTRACTOR knew or reasonably should have known thereof.

B. *Resolving Discrepancies*

1. Except as may be otherwise specifically stated in the Contract Documents, the provisions of the Contract Documents shall take precedence in resolving any conflict, error, ambiguity, or discrepancy between the provisions of the Contract Documents and:

a. the provisions of any standard, specification, manual, code, or instruction (whether or not specifically incorporated by reference in the Contract Documents); or

b. the provisions of any Laws or Regulations applicable to the performance of the Work (unless such an interpretation of the provisions of the Contract Documents would result in violation of such Law or Regulation).

3.04 *Amending and Supplementing Contract Documents*

A. The Contract Documents may be amended to provide for additions, deletions, and revisions in the Work or to modify the terms and conditions thereof in one or

*See Supplementary Conditions

B. The requirements of the Contract Documents may be supplemented, and minor variations and deviations in the Work may be authorized, by one or more of the following ways: (i) a Field Order; (ii) ENGINEER's approval of a Shop Drawing or Sample; or (iii) ENGINEER's written interpretation or clarification.

3.05 *Reuse of Documents*

A. CONTRACTOR and any Subcontractor or Supplier or other individual or entity performing or furnishing any of the Work under a direct or indirect contract with OWNER: (i) shall not have or acquire any title to or ownership rights in any of the Drawings, Specifications, or other documents (or copies of any thereof) prepared by or bearing the seal of ENGINEER or ENGINEER's Consultant, including electronic media editions; and (ii) shall not reuse any of such Drawings, Specifications, other documents, or copies thereof on extensions of the Project or any other project without written consent of OWNER and ENGINEER and specific written verification or adaption by ENGINEER. This prohibition will survive final payment, completion, and acceptance of the Work, or termination or completion of the Contract. Nothing herein shall preclude CONTRACTOR from retaining copies of the Contract Documents for record purposes.

ARTICLE 4 - AVAILABILITY OF LANDS; SUBSURFACE AND PHYSICAL CONDITIONS; REFERENCE POINTS

4.01 *Availability of Lands*

A. OWNER shall furnish the Site. OWNER shall notify CONTRACTOR of any encumbrances or restrictions not of general application but specifically related to use of the Site with which CONTRACTOR must comply in performing the Work. OWNER will obtain in a timely manner and pay for easements for permanent structures or permanent changes in existing facilities. If CONTRACTOR and OWNER are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times, or both, as a result of any delay in OWNER's furnishing the Site, CONTRACTOR may make a Claim therefor as provided in paragraph 10.05.

B. Upon reasonable written request, OWNER shall furnish CONTRACTOR with a current statement of record legal title and legal description of the lands upon which the Work is to be performed and OWNER's interest therein as necessary for giving notice of or filing a mechanic's or construction lien against such lands in accordance with applicable Laws and Regulations.

C. CONTRACTOR shall provide for all additional lands and access thereto that may be required for temporary construction facilities or storage of materials and equipment.

4.02* *Subsurface and Physical Conditions*

A.* *Reports and Drawings:* The Supplementary Conditions identify:

1. those reports of explorations and tests of subsurface conditions at or contiguous to the Site that ENGINEER has used in preparing the Contract Documents; and

2. those drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site (except Underground Facilities) that ENGINEER has used in preparing the Contract Documents.

B. *Limited Reliance by CONTRACTOR on Technical Data Authorized:* CONTRACTOR may rely upon the general accuracy of the "technical data" contained in such reports and drawings, but such reports and drawings are not Contract Documents. Such "technical data" is identified in the Supplementary Conditions. Except for such reliance on such "technical data," CONTRACTOR may not rely upon or make any Claim against OWNER, ENGINEER, or any of ENGINEER's Consultants with respect to:

1. the completeness of such reports and drawings for CONTRACTOR's purposes, includ-

ing, but not limited to, any aspects of the means, methods, techniques, sequences, and procedures of construction to be employed by CONTRACTOR, and safety precautions and programs incident thereto; or

2. other data, interpretations, opinions, and information contained in such reports or shown or indicated in such drawings; or

3. any CONTRACTOR interpretation of or conclusion drawn from any "technical data" or any such other data, interpretations, opinions, or information.

*See Supplementary Conditions

4.03 *Differing Subsurface or Physical Conditions*

A. *Notice:* If CONTRACTOR believes that any subsurface or physical condition at or contiguous to the Site that is uncovered or revealed either:

1. is of such a nature as to establish that any "technical data" on which CONTRACTOR is entitled to rely as provided in paragraph 4.02 is materially inaccurate; or

2. is of such a nature as to require a change in the Contract Documents; or

3. differs materially from that shown or indicated in the Contract Documents; or

4. is of an unusual nature, and differs materially from conditions ordinarily encountered and generally recognized as inherent in work of the character provided for in the Contract Documents; then CONTRACTOR shall, promptly after becoming aware thereof and before further disturbing the subsurface or physical conditions or performing any Work in connection therewith (except in an emergency as required by paragraph 6.16.A), notify OWNER and ENGINEER in writing about such condition. CONTRACTOR shall not further disturb such condition or perform any Work in connection therewith (except as aforesaid) until receipt of written order to do so.

B. *ENGINEER's Review:* After receipt of written notice as required by paragraph 4.03.A, ENGINEER will promptly review the pertinent condition, determine the necessity of OWNER's obtaining additional exploration or tests with respect thereto, and advise OWNER in writing (with a copy to CONTRACTOR) of ENGINEER's findings and conclusions.

C. *Possible Price and Times Adjustments*

1. The Contract Price or the Contract Times, or both, will be equitably adjusted to the extent that the existence of such differing subsurface or physical condition causes an increase or decrease in CONTRACTOR's cost of, or time required for, perfomance of the Work; subject, however, to the following:

a. such condition must meet any one or more of the categories described in paragraph 4.03.A; and

b. with respect to Work that is paid for on a Unit Price Basis, any adjustment in Contract Price will be subject to the provisions of paragraphs 9.08 and 11.03.

2. CONTRACTOR shall not be entitled to any adjustment in the Contract Price or Contract Times if:

a. CONTRACTOR knew of the existence of such conditions at the time CONTRACTOR made a final commitment to OWNER in respect of Contract Price and Contract Times by the submission of a Bid or becoming bound under a negotiated contract; or

b. the existence of such condition could reasonably have been discovered or revealed as a result of any examination, investigation, exploration, test, or study of the Site and contiguous areas required by the Bidding Requirements or Contract Documents to be conducted by or for CONTRACTOR prior to CONTRACTOR's making such final commitment; or

c. CONTRACTOR failed to give the written notice within the time and as required by paragraph 4.03.A.

3. If OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times, or both, a Claim may be

made therefor as provided in paragraph 10.05. However, OWNER, ENGINEER, and ENGINEER's Consultants shall not be liable to CONTRACTOR for any claims, costs, losses, or damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by CONTRACTOR on or in connection with any other project or anticipated project.

4.04 *Underground Facilities*

A. *Shown or Indicated:* The information and data shown or indicated in the Contract Documents with respect to existing Underground Facilities at or contiguous to the Site is based on information and data furnished to OWNER or ENGINEER by the owners of such Underground Facilities, including OWNER, or by others. Unless it is otherwise expressly provided in the Supplementary Conditions:

1. OWNER and ENGINEER shall not be responsible for the accuracy or completeness of any such information or data; and

2. the cost of all of the following will be included in the Contract Price, and CONTRACTOR shall have full responsibility for:

a. reviewing and checking all such information and data,

b. locating all Underground Facilities shown or indicated in the Contract Documents,

c. coordination of the Work with the owners of such Underground Facilities, including OWNER, during construction, and

d. the safety and protection of all such Underground Facilities and repairing any damage thereto resulting from the Work.

B. *Not Shown or Indicated*

1. If an Underground Facility is uncovered or revealed at or contiguous to the Site which was not shown or indicated, or not shown or indicated with reasonable accuracy in the Contract Documents, CONTRACTOR shall, promptly after becoming aware thereof and before further disturbing conditions affected thereby or performing any Work in connection therewith (except in an emergency as required by paragraph 6.16.A), identify the owner of such Underground Facility and give written notice to that owner and to OWNER and ENGINEER. ENGINEER will promptly review the Underground Facility and determine the extent, if any, to which a change is required in the Contract Documents to reflect and document the consequences of the existence or location of the Underground Facility. During such time, CONTRACTOR shall be responsible for the safety and protection of such Underground Facility.

2. If ENGINEER concludes that a change in the Contract Documents is required, a Work Change Directive or a Change Order will be issued to reflect and document such consequences. An equitable adjustment shall be made in the Contract Price of Contract Times, or both, to the extent that they are attributable to the existence or location of any Underground Facility that was not shown or indicated or not shown or indicated with reasonable accuracy in the Contract Documents and that CONTRACTOR did not know of and could not reasonably have been expected to be aware of or to have anticipated. If OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment in Contract Price or Contract Times, OWNER or CONTRACTOR may make a Claim therefor as provided in paragraph 10.05.

4.05* *Reference Points*

A. OWNER shall provide engineering surveys to establish reference points for construction which in ENGINEER's judgment are necessary to enable CONTRACTOR to proceed with the Work. CONTRACTOR shall be responsible for laying out the Work, shall protect and preserve the established reference points and property monuments, and shall make no changes or relocations without the prior written approval of OWNER. CONTRACTOR shall report to ENGINEER whenever any reference point or property monument is lost or destroyed or requires relocation because of necessary changes in grades or locations, and shall be responsible for the accurate replacement or relocation of such reference points or property monuments by professionally qualified personnel.

4.06 *Hazardous Environmental Condition at Site*

A. *Reports and Drawings:* Reference is made to the Supplementary Conditions for the identification of those reports and drawings relating to a Hazardous Environmental Condition identified at the Site, if any, that have been utilized by the ENGINEER in the preparation of the Contract Documents.

B. *Limited Reliance by CONTRACTOR on Technical Data Authorized:* CONTRACTOR may rely upon the general accuracy of the "technical data" contained in such reports and drawings, but such reports and drawings are not Contract Documents. Such "technical data" is identified in the Supplementary Conditions. Except for such reliance on such "technical data," CONTRACTOR may not rely upon or make any Claim against OWNER, ENGINEER or any of ENGINEER's Consultants with respect to:

1. the completeness of such reports and drawings for CONTRACTOR's purposes, including, but not limited to, any aspects of the means, methods, techniques, sequences and procedures of construction to be employed by CONTRACTOR and safety precautions and programs incident thereto; or

*See Supplementary Conditions

2. other data, interpretations, opinions and information contained in such reports or shown or indicated in such drawings; or

3. any CONTRACTOR interpretation of or conclusion drawn from any "technical data" or any such other data, interpretations, opinions or information.

C. CONTRACTOR shall not be responsible for any Hazardous Environmental Condition uncovered or revealed at the Site which was not shown or indicated in Drawings or Specifications or identified in the Contract Documents to be within the scope of the Work. CONTRACTOR shall be responsible for a Hazardous Environmental Condition created with any materials brought to the Site by CONTRACTOR, Subcontractors, Suppliers, or anyone else for whom CONTRACTOR is responsible.

D. If CONTRACTOR encounters a Hazardous Environmental Condition or if CONTRACTOR or anyone for whom CONTRACTOR is responsible creates a Hazardous Environmental Condition, CONTRACTOR shall immediately: (i) secure or otherwise isolate such condition; (ii) stop all Work in connection with such condition and in any area affected thereby (except in an emergency as required by paragraph 6.16); and (iii) notify OWNER and ENGINEER (and promptly thereafter confirm such notice in writing). OWNER shall promptly consult with ENGINEER concerning the necessity for OWNER to retain a qualified expert to evaluate such condition or take corrective action, if any.

E. CONTRACTOR shall not be required to resume Work in connection with such condition or in any affected area until after OWNER has obtained any required permits related thereto and delivered to CONTRACTOR written notice: (i) specifying that such condition and any affected area is or has been rendered safe for the resumption of Work; or (ii) specifying any special conditions under which such Work may be resumed safely. If OWNER and CONTRACTOR cannot agree as to entitlement to or on the amount or extent, if any, of any adjustment in Contract Price or Contract Times, or both, as a result of such Work stoppage or such special conditions under which Work is agreed to be resumed by CONTRACTOR, either party may make a Claim therefor as provided in paragraph 10.05.

F. If after receipt of such written notice CONTRACTOR does not agree to resume such Work based on a reasonable belief it is unsafe, or does not agree to resume such Work under such special conditions, then OWNER may order the portion of the Work that is in the area affected by such condition to be deleted from the Work. If OWNER and CONTRACTOR cannot agree as to entitlement to or on the amount or extent, if any, of an adjustment in Contract Price or Contract Times as a result of deleting such portion of the Work, then either party may make a Claim therefor as provided in paragraph 10.05. OWNER may have such deleted portion of the Work performed by OWNER's own forces or others in accordance with Article 7.

G. To the fullest extent permitted by Laws and Regulations, OWNER shall indemnify and hold harmless CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants and the officers, directors, partners, employees, agents, other consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition, provided that such Hazardous Environmental Condition: (i) was not shown or indicated in the Drawings or

Specifications or identified in the Contract Documents to be included within the scope of the Work, and (ii) was not created by CONTRACTOR or by anyone for whom CONTRACTOR is responsible. Nothing in this paragraph 4.06.E shall obligate OWNER to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

H. To the fullest extent permitted by Laws and Regulations, CONTRACTOR shall indemnify and hold harmless OWNER, ENGINEER, ENGINEER's Consultants, and the officers, directors, partners, employees, agents, other consultants, and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to a Hazardous Environmental Condition created by CONTRACTOR or by anyone for whom CONTRACTOR is responsible. Nothing in this paragraph 4.06.F shall obligate CONTRACTOR to indemnify any individual or entity from and against the consequences of that individual's or entity's own negligence.

I. The provisions of paragraphs 4.02, 4.03, and 4.04 are not intended to apply to a Hazardous Environmental Condition uncovered or revealed at the Site.

*See Supplementary Conditions

ARTICLE 5 - BONDS AND INSURANCE

5.01* *Performance, Payment, and Other Bonds*

A. CONTRACTOR shall furnish performance and payment Bonds, each in an amount at least equal to the Contract Price as security for the faithful performance and payment of all CONTRACTOR's obligations under the Contract Documents. These Bonds shall remain in effect at least until one year after the date when final payment becomes due, except as provided otherwise by Laws or Regulations or by the Contract Documents. CONTRACTOR shall also furnish such other Bonds as are required by the Contract Documents.

B.* All Bonds shall be in the form prescribed by the Contract Documents except as provided otherwise by Laws or Regulations, and shall be executed by such sureties as are named in the current list of "Companies Holding Certificates of Authority as Acceptable Sureties on Federal Bonds and as Acceptable Reinsuring Companies" as published in Circular 570 (amended) by the Financial Management Service, Surety Bond Branch, U.S. Department of the Treasury. All Bonds signed by an agent must be accompanied by a certified copy of such agent's authority to act.

C. If the surety on any Bond furnished by CONTRACTOR is declared bankrupt or becomes insolvent or its right to do business is terminated in any state where any part of the Project is located or it ceases to meet the requirements of paragraph 5.01.B, CONTRACTOR shall within 20 days thereafter substitute another Bond and surety, both of which shall comply with the requirements of paragraphs 5.01.B and 5.02.

5.02 *Licensed Sureties and Insurers*

A. All Bonds and insurance required by the Contract Documents to be purchased and maintained by OWNER or CONTRACTOR shall be obtained from surety or insurance companies that are duly licensed or authorized in the jurisdiction in which the Project is located to issue Bonds or insurance policies for the limits and coverages so required. Such surety and insurance companies shall also meet such additional requirements and qualifications as may be provided in the Supplementary Conditions.

5.03 *Certificates of Insurance*

A. CONTRACTOR shall deliver to OWNER, with copies to each additional insured identified in the Supplementary Conditions, certificates of insurance (and other evidence of insurance requested by OWNER or any other additional insured) which CONTRACTOR is required to purchase and maintain. OWNER shall deliver to CONTRACTOR, with copies to each additional insured identified in the Supplementary Conditions, certificates of insurance (and other evidence of insurance requested by CONTRACTOR or any other additional insured) which OWNER is required to purchase and maintain.

5.04* *CONTRACTOR's Liability Insurance*

A. CONTRACTOR shall purchase and maintain such liability and other insurance as is appropriate for the Work being performed and as will provide protection from claims set forth below which nay arise out of or result from CONTRACTOR's performance of the Work and CONTRACTOR's other obligations under the Contract Documents, whether it is to be performed by CONTRACTOR, any Subcontractor or Supplier, or by anyone directly or indirectly employed by any of them to

perform any of the Work, or by anyone for whose acts any of them may be liable:

1. claims under workers' compensation, disability benefits, and other similar employee benefit acts;

2. claims for damages because of bodily injury, occupational sickness or disease, or death of CONTRACTOR's employees;

3. claims for damages because of bodily injury, sickness or disease, or death of any person other than CONTRACTOR's employees;

4. claims for damages insured by reasonably available personal injury liability coverage which are sustained: (i) by any person as a result of an offense directly or indirectly related to the employment of such person by CONTRACTOR, or (ii) by any other person for any other reason;

5. claims for damages, other than to the Work itself, because of injury to or destruction of tangible property wherever located, including loss of use resulting therefrom; and

6. claims for damages because of bodily injury or death of any person or property damage arising out of the ownership, maintenance or use of any motor vehicle.

B. The policies of insurance so required by this paragraph 5.04 to be purchased and maintained shall:

*See Supplementary Conditions

1. with respect to insurance required by paragraphs 5.04.A.3 through 5.04.A.6 inclusive, include as additional insureds (subject to any customary exclusion in respect of professional liability) OWNER, ENGINEER, ENGINEER's Consultants, and any other individuals or entities identified in the Supplementary Conditions, all of whom shall be listed as additional insureds, and include coverage for the respective officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of all such additional insureds, and the insurance afforded to these additional insureds shall provide primary coverage for all claims covered thereby;

2. include at least the specific coverages and be written for not less than the limits of liability provided in the Supplementary Conditions or required by Laws or Regulations, whichever is greater;

3. include completed operations insurance;

4. include contractual liability insurance covering CONTRACTOR's indemnity obligations under paragraphs 6.07, 6.11, and 6.20;

5. contain a provision or endorsement that the coverage afforded will not be canceled, materially changed or renewal refused until at least thirty days prior written notice has been given to OWNER and CONTRACTOR and to each other additional insured identified in the Supplementary Conditions to whom a certificate of insurance has been issued (and the certificates of insurance furnished by the CONTRACTOR pursuant to paragraph 5.03 will so provide);

6. remain in effect at least until final payment and at all times thereafter when CONTRACTOR may be correcting, removing, or replacing defective Work in accordance with paragraph 13.07; and

7. with respect to completed operations insurance, and any insurance coverage written on a claims-made basis, remain in effect for at least two years after final payment (and CONTRACTOR shall furnish OWNER and each other additional insured identified in the Supplementary Conditions, to whom a certificate of insurance has been issued, evidence satisfactory to OWNER and any such additional insured of continuation of such insurance at final payment and one year thereafter).

5.05 *OWNER's Liability Insurance*

A.* In addition to the insurance required to be provided by CONTRACTOR under paragraph 5.04, OWNER, at OWNER's option, may purchase and maintain at OWNER's expense OWNER's own liability insurance as will protect OWNER against claims which may arise from operations under the Contract Documents.

5.06* *Property Insurance*

A. Unless otherwise provided in the Supplementary Conditions, OWNER shall purchase and maintain property

insurance upon the Work at the Site in the amount of the full replacement cost thereof (subject to such deductible amounts as may be provided in the Supplementary Conditions or required by Laws and Regulations). This insurance shall:

1. include the interests of OWNER, CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants, and any other individuals or entities identified in the Supplementary Conditions, and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them, each of whom is deemed to have an insurable interest and shall be listed as an additional insured;

2. be written on a Builder's Risk "all-risk" or open peril or special causes of loss policy form that shall at least include insurance for physical loss or damage to the Work, temporary buildings, false work, and materials and equipment in transit, and shall insure against at least the following perils or causes of loss: fire, lightning, extended coverage, theft, vandalism and malicious mischief, earthquake, collapse, debris removal, demolition occasioned by enforcement of Laws and Regulations, water damage, and such other perils or causes of loss as may be specifically required by the Supplementary Conditions;

3. include expenses incurred in the repair or replacement of any insured property (including but not limited to fees and charges of engineers and architects);

*See Supplementary Conditions

4. cover materials and equipment stored at the Site or at another location that was agreed to in writing by OWNER prior to being incorporated in the Work, provided that such materials and equipment have been included in an Application for Payment recommended by ENGINEER;

5. allow for partial utilization of the Work by OWNER;

6. include testing and startup; and

7. be maintained in effect until final payment is made unless otherwise agreed to in writing by OWNER, CONTRACTOR, and ENGINEER with 30 days written notice to each other additional insured to whom a certificate of insurance has been issued.

B.* OWNER shall purchase and maintain such boiler and machinery insurance or additional property insurance as may be required by the Supplementary Conditions or Laws and Regulations which will include the interests of OWNER, CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants, and any other individuals or entities identified in the Supplementary Conditions, each of whom is deemed to have an insurable interest and shall be listed as an insured or additional insured.

C.* All the policies of insurance (and the certificates or other evidence thereof) required to be purchased and maintained in accordance with paragraph 5.06 will contain a provision or endorsement that the coverage afforded will not be canceled or materially changed or renewal refused until at least 30 days prior written notice has been given to OWNER and CONTRACTOR and to each other additional insured to whom a certificate of insurance has been issued and will contain waiver provisions in accordance with paragraph 5.07.

D.* OWNER shall not be responsible for purchasing and maintaining any property insurance specified in this paragraph 5.06 to protect the interests of CONTRACTOR, Subcontractors, or others in the Work to the extent of any deductible amounts that are identified in the Supplementary Conditions. The risk of loss within such identified deductible amount will be borne by CONTRACTOR, Subcontractors, or others suffering any such loss, and if any of them wishes property insurance coverage within the limits of such amounts, each may purchase and maintain it at the purchaser's own expense.

E.* If CONTRACTOR requests in writing that other special insurance be included in the property insurance policies provided under paragraph 5.06, OWNER shall, if possible, include such insurance, and the cost thereof will be charged to CONTRACTOR by appropriate Change Order or Written Amendment. Prior to commencement of the Work at the Site, OWNER shall in writing advise CONTRACTOR whether or not such other insurance has been procured by OWNER.

5.07 *Waiver of Rights*

A.* OWNER and CONTRACTOR intend that all policies purchased in accordance with paragraph 5.06 will protect OWNER, CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants, and all other

individuals or entities identified in the Supplementary Conditions to be listed as insureds or additional insureds (and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them) in such policies and will provide primary coverage for all losses and damages caused by the perils or causes of loss covered thereby. All such policies shall contain provisions to the effect that in the event of payment of any loss or damage the insurers will have no rights of recovery against any of the insureds or additional insureds thereunder. OWNER and CONTRACTOR waive all rights against each other and their respective officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them for all losses and damages caused by, arising out of or resulting from any of the perils or causes of loss covered by such policies and any other property insurance applicable to the Work; and, in addition, waive all such rights against Subcontractors, ENGINEER, ENGINEER's Consultants, and all other individuals or entities identified in the Supplementary Conditions to be listed as insureds or additional insureds (and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them) under such policies for losses and damages so caused.

None of the above waivers shall extend to the rights that any party making such waiver may have to the proceeds of insurance held by OWNER as trustee or otherwise payable under any policy so issued.

B. OWNER waives all rights against CONTRACTOR, Subcontractors, ENGINEER, ENGINEER's Consultants, and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them for:

*See Supplementary Conditions

1. loss due to business interruption, loss of use, or other consequential loss extending beyond direct physical loss or damage to OWNER's property or the Work caused by, arising out of, or resulting from fire or other peril whether or not insured by OWNER; and

2. loss or damage to the completed Project or part thereof caused by, arising out of, or resulting from fire or other insured peril or cause of loss covered by any property insurance maintained on the completed Project or part thereof by OWNER during partial utilization pursuant to paragraph 14.05, after Substantial Completion pursuant to paragraph 14.04, or after final payment pursuant to paragraph 14.07.

C. Any insurance policy maintained by OWNER covering any loss, damage or consequential loss referred to in paragraph 5.07.B shall contain provisions to the effect that in the event of payment of any such loss, damage, or consequential loss, the insurers will have no rights of recovery against CONTRACTOR, Subcontractors, ENGINEER, or ENGINEER's Consultants and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them.

5.08* *Receipt and Application of Insurance Proceeds*

A.* Any insured loss under the policies of insurance required by paragraph 5.06 will be adjusted with OWNER and made payable to OWNER as fiduciary for the insureds, as their interests may appear, subject to the requirements of any applicable mortgage clause and of paragraph 5.08.B. OWNER shall deposit in a separate account any money so received and shall distribute it in accordance with such agreement as the parties in interest may reach. If no other special agreement is reached, the damaged Work shall be repaired or replaced, the moneys so received applied on account thereof, and the Work and the cost thereof covered by an appropriate Change Order or Written Amendment.

B.* OWNER as fiduciary shall have power to adjust and settle any loss with the insurers unless one of the parties in interest shall object in writing within 15 days after the occurrence of loss to OWNER's exercise of this power. If such objection be made, OWNER as fiduciary shall make settlement with the insurers in accordance with such agreement as the parties in interest may reach. If no such agreement among the parties in interest is reached, OWNER as fiduciary shall adjust and settle the loss with the insurers and, if required in writing by any party in interest, OWNER as fiduciary shall give bond for the proper performance of such duties.

5.09* *Acceptance of Bonds and Insurance; Option to Replace*

A.* If either OWNER or CONTRACTOR has any objection to the coverage afforded by or other provisions of the Bonds or insurance required to be purchased and maintained by the other party in accordance with Article 5 on the basis of non-conformance with the Contract Documents, the objecting party shall so notify the other party in writing within 10 days after receipt of the

certificates (or other evidence requested) required by paragraph 2.05.C. OWNER and CONTRACTOR shall each provide to the other such additional information in respect of insurance provided as the other may reasonably request. If either party does not purchase or maintain all of the Bonds and insurance required of such party by the Contract Documents, such party shall notify the other party in writing of such failure to purchase prior to the start of the Work, or of such failure to maintain prior to any change in the required coverage. Without prejudice to any other right or remedy, the other party may elect to obtain equivalent Bonds or insurance to protect such other party's interests at the expense of the party who was required to provide such coverage, and a Change Order shall be issued to adjust the Contract Price accordingly.

5.10 *Partial Utilization, Acknowledgment of Property Insurer*

A. If OWNER finds it necessary to occupy or use a portion or portions of the Work prior to Substantial Completion of all the Work as provided in paragraph 14.05, no such use or occupancy shall commence before the insurers providing the property insurance pursuant to paragraph 5.06 have acknowledged notice thereof and in writing effected any changes in coverage necessitated thereby. The insurers providing the property insurance shall consent by endorsement on the policy or policies, but the property insurance shall not be canceled or permitted to lapse on account of any such partial use or occupancy.

ARTICLE 6 - CONTRACTOR'S RESPONSIBILITIES

6.01 *Supervision and Superintendence*

A. CONTRACTOR shall supervise, inspect, and direct the Work competently and efficiently, devoting such attention thereto and applying such skills and expertise as may be necessary to perform the Work in accordance with

*See Supplementary Conditions

the Contract Documents. CONTRACTOR shall be solely responsible for the means, methods, techniques, sequences,
and procedures of construction, but CONTRACTOR shall not be responsible for the negligence of OWNER or ENGINEER in the design or specification of a specific means, method, technique, sequence, or procedure of construction which is shown or indicated in and expressly required by the Contract Documents. CONTRACTOR shall be responsible to see that the completed Work complies accurately with the Contract Documents.

B. At all times during the progress of the Work, CONTRACTOR shall assign a competent resident superintendent thereto who shall not be replaced without written notice to OWNER and ENGINEER except under extraordinary circumstances. The superintendent will be CONTRACTOR's representative at the Site and shall have authority to act on behalf of CONTRACTOR. All communications given to or received from the superintendent shall be binding on CONTRACTOR.

6.02 *Labor; Working Hours*

A. CONTRACTOR shall provide competent, suitably qualified personnel to survey, lay out, and construct the

Work as required by the Contract Documents. CONTRACTOR shall at all times maintain good discipline and order at the Site.

B. Except as otherwise required for the safety or protection of persons or the Work or property at the Site or adjacent thereto, and except as otherwise stated in the Contract Documents, all Work at the Site shall be performed during regular working hours, and CONTRACTOR will not permit overtime work or the performance of Work on Saturday, Sunday, or any legal holiday without OWNER's written consent (which will not be unreasonably withheld) given after prior written notice to ENGINEER.

6.03 *Services, Materials, and Equipment*

A. Unless otherwise specified in the General Requirements, CONTRACTOR shall provide and assume full responsibility for all services, materials, equipment, labor, transportation, construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water, sanitary facilities, temporary facilities, and all other facilities and incidentals necessary for the performance, testing, start-up, and completion of the Work.

B. All materials and equipment incorporated into the Work shall be as specified or, if not specified, shall be of good quality and new, except as otherwise provided in the Contract Documents. All warranties and guarantees specifically called for by the Specifications shall expressly

run to the benefit of OWNER. If required by ENGINEER, CONTRACTOR shall furnish satisfactory evidence (including reports of required tests) as to the source, kind, and quality of materials and equipment. All materials and equipment shall be stored, applied, installed, connected, erected, protected, used, cleaned, and conditioned in accordance with instructions of the applicable Supplier, except as otherwise may be provided in the Contract Documents.

6.04 *Progress Schedule*

A. CONTRACTOR shall adhere to the progress schedule established in accordance with paragraph 2.07 as it may be adjusted from time to time as provided below.

1. CONTRACTOR shall submit to ENGINEER for acceptance (to the extent indicated in paragraph 2.07) proposed adjustments in the progress schedule that will not result in changing the Contract Times (or Milestones). Such adjustments will conform generally to the progress schedule then in effect and additionally will comply with any provisions of the General Requirements applicable thereto.

2. Proposed adjustments in the progress schedule that will change the Contract Times (or Milestones) shall be submitted in accordance with the requirements of Article 12. Such adjustments may only be made by a Change Order or Written Amendment in accordance with Article 12.

6.05 *Substitutes and "Or-Equals"*

A. Whenever an item of material or equipment is specified or described in the Contract Documents by using the name of a proprietary item or the name of a particular Supplier, the specification or description is intended to establish the type, function, appearance, and quality required. Unless the specification or description contains or is followed by words reading that no like, equivalent, or "or-equal" item or no substitution is permitted, other items of material or equipment or material or equipment of other Suppliers may be submitted to ENGINEER for review under the circumstances described below.

1. *"Or-Equal" Items:* If in ENGINEER's sole discretion an item of material or equipment proposed by CONTRACTOR is functionally equal to that named and sufficiently similar so that no change in related Work will be required, it may be considered by ENGINEER as an "or-equal" item, in which case review and approval of the proposed item may, in ENGINEER's sole discretion, be accomplished without compliance with some or all of the requirements for approval of proposed substitute items. For the purposes of this paragraph 6.05.A.1, a proposed item of material or equipment will be considered functionally equal to an item so named if:

a. in the exercise of reasonable judgment ENGINEER determines that: (i) it is at least equal in quality, durability, appearance, strength, and design characteristics; (ii) it will reliably perform at least equally well the function imposed by the design concept of the completed Project as a functioning whole, and;

b. CONTRACTOR certifies that: (i) there is no increase in cost to the OWNER; and (ii) it will conform substantially, even with deviations, to the detailed requirements of the item named in the Contract Documents.

2. Substitute Items

a. If in ENGINEER's sole discretion an item of material or equipment proposed by CONTRACTOR does not qualify as an "or-equal" item under paragraph 6.05.A.1, it will be considered a proposed substitute item.

b. CONTRACTOR shall submit sufficient information as provided below to allow ENGINEER to determine that the item of material or equipment proposed is essentially equivalent to that named and an acceptable substitute therefor. Requests for review of proposed substitute items of material or equipment will not be accepted by ENGINEER from anyone other than CONTRACTOR.

c. The procedure for review by ENGINEER will be as set forth in paragraph 6.05.A.2.d, as supplemented in the General Requirements and as ENGINEER may decide is appropriate under the circumstances.

d. CONTRACTOR shall first make written application to ENGINEER for review of a proposed substitute item of material or equipment that CONTRACTOR seeks to furnish or use. The application shall certify

that the proposed substitute item will perform adequately the functions and achieve the results called for by the general design, be similar in substance to that specified, and be suited to the same use as that specified. The application will state the extent, if any, to which the use of the proposed substitute item will prejudice CONTRACTOR's achievement of Substantial Completion on time, whether or not use of the proposed substitute item in the Work will require a change in any of the Contract Documents (or in the provisions of any other direct contract with OWNER for work on the Project) to adapt the design to the proposed substitute item and whether or not incorporation or use of the proposed substitute item in connection with the Work is subject to payment of any license fee or royalty. All variations of the proposed substitute item from that specified will be identified in the application, and available engineering, sales, maintenance, repair, and replacement services will be indicated. The application will also contain an itemized estimate of all costs or credits that will result directly or indirectly from use of such substitute item, including costs of redesign and claims of other contractors affected by any resulting change, all of which will be considered by ENGINEER in evaluating the proposed substitute item. ENGINEER may require CONTRACTOR to furnish additional data about the proposed substitute item.

B. *Substitute Construction Methods or Procedures:* If a specific means, method, technique, sequence, or procedure of construction is shown or indicated in and expressly required by the Contract Documents, CONTRACTOR may furnish or utilize a substitute means, method, technique, sequence, or procedure of construction approved by ENGINEER. CONTRACTOR shall submit sufficient information to allow ENGINEER, in ENGINEER's sole discretion, to determine that the substitute proposed is equivalent to that expressly called for by the Contract Documents. The procedure for review by ENGINEER will be similar to that provided in subparagraph 6.05.A.2.

C. *Engineer's Evaluation:* ENGINEER will be allowed a reasonable time within which to evaluate each proposal or submittal made pursuant to paragraphs 6.05.A and 6.05.B. ENGINEER will be the sole judge of acceptability. No "or-equal" or substitute will be ordered, installed or utilized until ENGINEER's review is complete, which will be evidenced by either a Change Order for a substitute or an approved Shop Drawing for an "or equal." ENGINEER will advise CONTRACTOR in writing of any negative determination.

D. *Special Guarantee:* OWNER may require CONTRACTOR to furnish at CONTRACTOR's expense a special performance guarantee or other surety with respect to any substitute.

E. *ENGINEER's Cost Reimbursement:* ENGINEER will record time required by ENGINEER and ENGINEER's Consultants in evaluating substitute proposed or submitted by CONTRACTOR pursuant to paragraphs 6.05.A.2 and 6.05.B and in making changes in the Contract Documents (or in the provisions of any other direct contract with OWNER for work on the Project) occasioned thereby. Whether or not ENGINEER approves a substitute item so proposed or submitted by CONTRACTOR, CONTRACTOR shall reimburse OWNER for the charges of ENGINEER and ENGINEER's Consultants for evaluating each such proposed substitute.

F. *CONTRACTOR's Expense:* CONTRACTOR shall provide all data in support of any proposed substitute or "or-equal" at CONTRACTOR's expense.

6.06 *Concerning Subcontractors, Suppliers, and Others*

A. CONTRACTOR shall not employ any Subcontractor, Supplier, or other individual or entity (including those acceptable to OWNER as indicated in paragraph 6.06.B), whether initially or as a replacement, against whom OWNER may have reasonable objection. CONTRACTOR shall not be required to employ any Subcontractor, Supplier, or other individual or entity to furnish or perform any of the Work against whom CONTRACTOR has reasonable objection.

B. If the Supplementary Conditions require the identity of certain Subcontractors, Suppliers, or other individuals or entities to be submitted to OWNER in advance for acceptance by OWNER by a specified date prior to the Effective Date of the Agreement, and if CONTRACTOR has submitted a list thereof in accordance with the Supplementary Conditions, OWNER's acceptance (either in writing or by failing to make written objection thereto by the date indicated for acceptance or objection in the Bidding Documents or the Contract Documents) of any such Subcontractor, Supplier, or other individual or entity so identified may be revoked on the basis of reasonable objection after due investigation. CONTRACTOR shall submit an acceptable replacement

for the rejected Subcontractor, Supplier, or other individual or entity, and the Contract Price will be adjusted by the difference in the cost occasioned by such replacement, and an appropriate Change Order will be issued or Written Amendment signed. No acceptance by OWNER of any such Subcontractor, Supplier, or other individual or entity, whether initially or as a replacement, shall constitute a waiver of any right of OWNER or ENGINEER to reject defective Work.

C. CONTRACTOR shall be fully responsible to OWNER and ENGINEER for all acts and omissions of the Subcontractors, Suppliers, and other individuals or entities performing or furnishing any of the Work just as CONTRACTOR is responsible for CONTRACTOR's own acts and omissions. Nothing in the Contract Documents shall create for the benefit of any such Subcontractor, Supplier, or other individual or entity any contractual relationship between OWNER or ENGINEER and any such Subcontractor, Supplier or other individual or entity, nor shall it create any obligation on the part of OWNER or ENGINEER to pay or to see to the payment of any moneys due any such Subcontractor, Supplier, or other individual or entity except as may otherwise be required by Laws and Regulations.

D. CONTRACTOR shall be solely responsible for scheduling and coordinating the Work of Subcontractors, Suppliers, and other individuals or entities performing or furnishing any of the Work under a direct or indirect contract with CONTRACTOR.

E. CONTRACTOR shall require all Subcontractors, Suppliers, and such other individuals or entities performing or furnishing any of the Work to communicate with ENGINEER through CONTRACTOR.

F. The divisions and sections of the Specifications and the identifications of any Drawings shall not control CONTRACTOR in dividing the Work among Subcontractors or Suppliers or delineating the Work to be performed by any specific trade.

G. All Work performed for CONTRACTOR by a Subcontractor or Supplier will be pursuant to an appropriate agreement between CONTRACTOR and the Subcontractor or Supplier which specifically binds the Subcontractor or Supplier to the applicable terms and conditions of the Contract Documents for the benefit of OWNER and ENGINEER. Whenever any such agreement is with a Subcontractor or Supplier who is listed as an additional insured on the property insurance provided in paragraph 5.06, the agreement between the CONTRACTOR and the Subcontractor or Supplier will contain provisions whereby the Subcontractor or Supplier waives all rights against OWNER, CONTRACTOR, ENGINEER, ENGINEER's Consultants, and all other individuals or entities identified in the Supplementary Conditions to be listed as insureds or additional insureds (and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them) for all losses and damages caused by, arising out of, relating to, or resulting from any of the perils or causes of loss covered by such policies and any other property insurance applicable to the Work. If the insurers on any such policies require separate waiver forms to be signed by any Subcontractor or Supplier, CONTRACTOR will obtain the same.

6.07 *Patent Fees and Royalties*

A. CONTRACTOR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the Work or the incorporation in the Work of any invention, design, process, product, or device which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product, or device is specified in the Contract Documents for use in the performance of the Work and if to the actual knowledge of OWNER or ENGINEER its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by OWNER in the Contract Documents. To the fullest extent permitted by Laws and Regulations, CONTRACTOR shall indemnify and hold harmless OWNER, ENGINEER, ENGINEER's Consultants, and the officers, directors, partners, employees or agents, and other consultants of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any infringement of patent rights or copyrights incident to the use in the performance of the Work or resulting from the incorporation in the Work of any invention, design, process, product, or device not specified in the Contract Documents.

6.08 *Permits*

A. Unless otherwise provided in the Supplementary Conditions, CONTRACTOR shall obtain and pay for all construction permits and licenses. OWNER shall assist CONTRACTOR, when necessary, in obtaining such permits and licenses. CONTRACTOR shall pay all governmental charges and inspection fees necessary for

the prosecution of the Work which are applicable at the time of opening of Bids, or, if there are no Bids, on the Effective Date of the Agreement. CONTRACTOR shall pay all charges of utility owners for connections to the Work, and OWNER shall pay all charges of such utility owners for capital costs related thereto, such as plant investment fees.

6.09 *Laws and Regulations*

A. CONTRACTOR shall give all notices and comply with all Laws and Regulations applicable to the performance of the Work. Except where otherwise expressly required by applicable Laws and Regulations, neither OWNER nor ENGINEER shall be responsible for monitoring CONTRACTOR's compliance with any Laws or Regulations.

B. If CONTRACTOR performs any Work knowing or having reason to know that it is contrary to Laws or Regulations, CONTRACTOR shall bear all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such Work; however, it shall not be CONTRACTOR's primary responsibility to make certain that the Specifications and Drawings are in accordance with Laws and Regulations, but this shall not relieve CONTRACTOR of CONTRACTOR's obligations under paragraph 3.03.

C. Changes in Laws or Regulations not known at the time of opening of Bids (or, on the Effective Date of the Agreement if there were no Bids) having an effect on the cost or time of performance of the Work may be the subject of an adjustment in Contract Price or Contract Times. If OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any such adjustment, a Claim may be made therefor as provided in paragraph 10.05.

6.10* *Taxes*

A. CONTRACTOR shall pay all sales, consumer, use, and other similar taxes required to be paid by CONTRACTOR in accordance with the Laws and Regulations of the place of the Project which are applicable during the performance of the Work.

6.11* *Use of Site and Other Areas*

A.* *Limitation on Use of Site and Other Areas*

1. CONTRACTOR shall confine construction equipment, the storage of materials and equipment, and the operations of workers to the Site and other areas permitted by Laws and Regulations,

*See Supplementary Conditions

and shall not unreasonably encumber the Site and other areas with construction equipment or other materials or equipment. CONTRACTOR shall assume full responsibility for any damage to any such land or area, or to the owner or occupant thereof, or of any adjacent land or areas resulting from the performance of the Work.

2. Should any claim be made by any such owner or occupant because of the performance of the Work, CONTRACTOR shall promptly settle with such other party by negotiation or otherwise resolve the claim by arbitration or other dispute resolution proceeding or at law.

3. To the fullest extent permitted by Laws and Regulations, CONTRACTOR shall indemnify and hold harmless OWNER, ENGINEER, ENGINEER's Consultant, and the officers, directors, partners, employees, agents, and other consultants of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to any claim or action, legal or equitable, brought by any such owner or occupant against OWNER, ENGINEER, or any other party indemnified hereunder to the extent caused by or based upon CONTRACTOR's performance of the Work.

B. *Removal of Debris During Performance of the Work:* During the progress of the Work CONTRACTOR shall keep the Site and other areas free from accumulations of waste materials, rubbish, and other debris. Removal and disposal of such waste materials, rubbish, and other debris shall conform to applicable Laws and Regulations.

C. *Cleaning:* Prior to Substantial Completion of the Work CONTRACTOR shall clean the Site and make it ready for utilization by OWNER. At the completion of the Work CONTRACTOR shall remove from the Site all tools, appliances, construction equipment and machinery, and surplus materials and shall restore to original condition all property not designated for alteration by the Contract Documents.

D. *Loading Structures:* CONTRACTOR shall not load nor permit any part of any structure to be loaded in any manner that will endanger the structure, nor shall CONTRACTOR subject any part of the Work or adjacent property to stresses or pressures that will endanger it.

6.12 *Record Documents*

A. CONTRACTOR shall maintain in a safe place at the Site one record copy of all Drawings, Specifications, Addenda, Written Amendments, Change Orders, Work Change Directives, Field Orders, and written interpretations and clarifications in good order and annotated to show changes made during construction. These record documents together with all approved Samples and a counterpart of all approved Shop Drawings will be available to ENGINEER for reference. Upon completion of the Work, these record documents, Samples, and Shop Drawings will be delivered to ENGINEER for OWNER.

6.13 *Safety and Protection*

A. CONTRACTOR shall be solely responsible for initiating, maintaining and supervising all safety precautions and programs in connection with the Work. CONTRACTOR shall take all necessary precautions for the safety of, and shall provide the necessary protection to prevent damage, injury or loss to:

1. all persons on the Site or who may be affected by the Work;

2. all the Work and materials and equipment to be incorporated therein, whether in storage on or off the Site; and

3. other property at the Site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, utilities, and Underground Facilities not designated for removal, relocation, or replacement in the course of construction.

B. CONTRACTOR shall comply with all applicable Laws and Regulations relating to the safety of persons or property, or to the protection of persons or property from damage, injury, or loss; and shall erect and maintain all necessary safeguards for such safety and protection. CONTRACTOR shall notify owners of adjacent property and of Underground Facilities and other utility owners when prosecution of the Work may affect them, and shall cooperate with them in the protection, removal, relocation, and replacement of their property. All damage, injury, or loss to any property referred to in paragraph 6.13.A.2 or 6.13.A.3 caused, directly or indirectly, in whole or in part, by CONTRACTOR, any Subcontractor, Supplier, or any other individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, shall be remedied by CONTRACTOR (except damage or loss attributable to the fault of Drawings or Specifications or to the acts or omissions of OWNER or ENGINEER or ENGINEER's Consultant, or anyone employed by any of them, or anyone for whose acts any of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault or negligence of CONTRACTOR or any Subcontractor, Supplier, or other individual or entity directly or indirectly employed by any of them). CONTRACTOR's duties and responsibilities for safety and for protection of the Work shall continue until such time as all the Work is completed and ENGINEER has issued a notice to OWNER and CONTRACTOR in accordance with paragraph 14.07.B that the Work is acceptable (except as otherwise expressly provided in connection with Substantial Completion).

6.14 *Safety Representative*

A. CONTRACTOR shall designate a qualified and experienced safety representative at the Site whose duties and responsibilities shall be the prevention of accidents and the maintaining and supervising of safety precautions and programs.

6.15 *Hazard Communication Programs*

A. CONTRACTOR shall be responsible for coordinating any exchange of material safety data sheets or other hazard communication information required to be made available to or exchanged between or among employers at the Site in accordance with Laws or Regulations.

6.16 *Emergencies*

A. In emergencies affecting the safety or protection of persons or the Work or property at the Site or adjacent thereto, CONTRACTOR is obligated to act to prevent threatened damage, injury, or loss. CONTRACTOR shall give ENGINEER prompt written notice if CONTRACTOR believes that any significant changes in the Work or variations from the Contract Documents have been caused thereby or are required as a result thereof. If ENGINEER determines that a change in the Contract Documents is required because of the action taken by CONTRACTOR in response to such an emergency, a Work Change Directive or Change Order will be issued.

6.17* *Shop Drawings and Samples*

A.* CONTRACTOR shall submit Shop Drawings to ENGINEER for review and approval in accordance with the acceptable schedule of Shop Drawings and Sample submittals. All submittals will be identified as ENGINEER may require and in the number of copies specified in the General Requirements. The data shown on the Shop Drawings will be complete with respect to quantities, dimensions, specified perfomance and design criteria, materials, and similar data to show ENGINEER the services, materials, and equipment CONTRACTOR proposes to provide and to enable ENGINEER to review the information for the limited purposes required by paragraph 6.17.E.

B.* CONTRACTOR shall also submit six (6) Samples to ENGINEER for review and approval in accordance with the acceptable schedule of Shop Drawings and Sample submittals. Each Sample will be identified clearly as to material, Supplier, pertinent data such as catalog numbers, and the use for which intended and otherwise as ENGINEER may require to enable ENGINEER to review the submittal for the limited purposes required by paragraph 6.17.E. The numbers of each Sample to be submitted will be as specified in the Specifications.

C. Where a Shop Drawing or Sample is required by the Contract Documents or the schedule of Shop Drawings and Sample submittals acceptable to ENGINEER as required by paragraph 2.07, any related Work performed prior to ENGINEER's review and approval of the pertinent submittal will be at the sole expense and responsibility of CONTRACTOR.

D. *Submittal Procedures*

1. Before submitting each Shop Drawing or Sample, CONTRACTOR shall have determined and verified:

a. all field measurements, quantities, dimensions, specified perfomance criteria, installation requirements, materials, catalog numbers, and similar information with respect thereto;

b. all materials with respect to intended use, fabrication, shipping, handling, storage, assembly, and installation pertaining to the performance of the Work;

c. all information relative to means, methods, techniques, sequences, and procedures of construction and safety precautions and programs incident thereto; and

d. CONTRACTOR shall also have reviewed and coordinated each Shop Drawing or

*See Supplementary Conditions

Sample with other Shop Drawings and Samples and with the requirements of the Work and the Contract Documents.

2. Each submittal shall bear a stamp or specific written indication that CONTRACTOR has satisfied CONTRACTOR's obligations under the Contract Documents with respect to CONTRACTOR's review and approval of that submittal.

3. At the time of each submittal, CONTRACTOR shall give ENGINEER specific written notice of such variations, if any, that the Shop Drawing or Sample submitted may have from the requirements of the Contract Documents, such notice to be in a written communication separate from the submittal; and, in addition, shall cause a specific notation to be made on each Shop Drawing and Sample submitted to ENGINEER for review and approval of each such variation.

E. *ENGINEER's Review*

1. ENGINEER will timely review and approve Shop Drawings and Samples in accordance with the schedule of Shop Drawings and Sample submittals acceptable to ENGINEER. ENGINEER's review and approval will be only to determine if the items covered by the submittals

will, after installation or incorporation in the Work, conform to the information given in the Contract Documents and be compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents.

2. ENGINEER's review and approval will not extend to means, methods, techniques, sequences, or procedures of construction (except where a particular means, method, technique, sequence, or procedure of construction is specifically and expressly called for by the Contract Documents) or to safety precautions or programs incident thereto. The review and approval of a separate item as such will not indicate approval of the assembly in which the item functions.

3. ENGINEER's review and approval of Shop Drawings or Samples shall not relieve CONTRACTOR from responsibility for any variation from the requirements of the Contract Documents unless CONTRACTOR has in writing called ENGINEER's attention to each such variation at the time of each submittal as required by paragraph 6.17.D.3 and ENGINEER has given written approval of each such variation by specific written notation thereof incorporated in or accompanying the Shop Drawing or Sample approval; nor will any approval by ENGINEER relieve CONTRACTOR from responsibility for complying with the requirements of paragraph 6.17.D.1.

F. *Resubmittal Procedures*

1. CONTRACTOR shall make corrections required by ENGINEER and shall return the required number of corrected copies of Shop Drawings and submit as required new Samples for review and approval. CONTRACTOR shall direct specific attention in writing to revisions other than the corrections called for by ENGINEER on previous submittals.

6.18 *Continuing the Work*

A. CONTRACTOR shall carry on the Work and adhere to the progress schedule during all disputes or disagreements with OWNER. No Work shall be delayed or postponed pending resolution of any disputes or disagreements, except as permitted by paragraph 15.04 or as OWNER and CONTRACTOR may otherwise agree in writing.

6.19 *CONTRACTOR's General Warranty and Guarantee*

A. CONTRACTOR warrants and guarantees to OWNER, ENGINEER, and ENGINEER's Consultants that all Work will be in accordance with the Contract Documents and will not be defective. CONTRACTOR's warranty and guarantee hereunder excludes defects or damage caused by:

1. abuse, modification, or improper maintenance or operation by persons other than CONTRACTOR, Subcontractors, Suppliers, or any other individual or entity for whom CONTRACTOR is responsible; or

2. normal wear and tear under normal usage.

B. CONTRACTOR's obligation to perform and complete the Work in accordance with the Contract Documents shall be absolute. None of the following will constitute an acceptance of Work that is not in accordance with the Contract Documents or a release of CONTRACTOR's obligation to perform the Work in accordance with the Contract Documents:

1. observations by ENGINEER;

2. recommendation by ENGINEER or payment by OWNER of any progress or final payment;

3. the issuance of a certificate of Substantial Completion by ENGINEER or any payment related thereto by OWNER;

4. use or occupancy of the Work or any part thereof by OWNER;

5. any acceptance by OWNER or any failure to do so;

6. any review and approval of a Shop Drawing or Sample submittal or the issuance of a notice of acceptability by ENGINEER;

7. any inspection, test, or approval by others; or

8. any correction of defective Work by OWNER.

6.20 *Indemnification*

A. To the fullest extent permitted by Laws and Regulations, CONTRACTOR shall indemnify and hold harmless OWNER, ENGINEER, ENGINEER's Consultants, and the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them from and against all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to the performance of the Work, provided that any such claim, cost, loss, or damage:

1. is attributable to bodily injury, sickness, disease, or death, or to injury to or destruction of tangible property (other than the Work itself), including the loss of use resulting therefrom; and

2. is caused in whole or in part by any negligent act or omission of CONTRACTOR, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work or anyone for whose acts any of them may be liable, regardless of whether or not caused in part by any negligence or omission of an individual or entity indemnified hereunder or whether liability is imposed upon such indemnified party by Laws and Regulations regardless of the negligence of any such individual or entity.

B. In any and all claims against OWNER or ENGINEER or any of their respective consultants, agents, officers, directors, partners, or employees by any employee (or the survivor or personal representative of such employee) of CONTRACTOR, any Subcontractor, any Supplier, or any individual or entity directly or indirectly employed by any of them to perform any of the Work, or anyone for whose acts any of them may be liable, the indemnification obligation under paragraph 6.20.A shall not be limited in any way by any limitation on the amount or type of damages, compensation, or benefits payable by or for CONTRACTOR or any such Subcontractor, Supplier, or other individual or entity under workers' compensation acts, disability benefit acts, or other employee benefit acts.

C. The indemnification obligations of CONTRACTOR under paragraph 6.20.A shall not extend to the liability of ENGINEER and ENGINEER's Consultants or to the officers, directors, partners, employees, agents, and other consultants and subcontractors of each and any of them arising out of:

1. the preparation or approval of, or the failure to prepare or approve, maps, Drawings, opinions, reports, surveys, Change Orders, designs, or Specifications; or

2. giving directions or instructions, or failing to give them, if that is the primary cause of the injury or damage.

ARTICLE 7 - OTHER WORK

7.01 *Related Work at Site*

A. OWNER may perform other work related to the Project at the Site by OWNER's employees, or let other direct contracts therefor, or have other work performed by utility owners. If such other work is not noted in the Contract Documents, then:

1. written notice thereof will be given to CONTRACTOR prior to starting any such other work; and

2. if OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times that should be allowed as a result of such other work, a Claim may be made therefor as provided in paragraph 10.05.

B. CONTRACTOR shall afford each other contractor who is a party to such a direct contract and each utility owner (and OWNER, if OWNER is performing the other work with OWNER's employees) proper and safe access to the Site and a reasonable opportunity for the introduction and storage of materials and equipment and the execution of such other work and shall properly coordinate the Work with theirs. Unless otherwise provided in the Contract Documents, CONTRACTOR shall do all cutting, fitting, and patching of the Work that may be required to properly connect or otherwise make its several parts come together and properly integrate with such other work. CONTRACTOR shall not endanger any work of others by cutting, excavating, or otherwise altering their work and will only cut or alter their work with the written consent of ENGINEER and the others whose work will be affected. The duties and responsibilities of CONTRACTOR under this paragraph are for the benefit of

such utility owners and other contractors to the extent that there are comparable provisions for the benefit of CONTRACTOR in said direct contracts between OWNER and such utility owners and other contractors.

C. If the proper execution or results of any part of CONTRACTOR's Work depends upon work performed by others under this Article 7, CONTRACTOR shall inspect such other work and promptly report to ENGINEER in writing any delays, defects, or deficiencies in such other work that render it unavailable or unsuitable for the proper execution and results of CONTRACTOR's Work. CONTRACTOR's failure to so report will constitute an acceptance of such other work as fit and proper for integration with CONTRACTOR's Work except for latent defects and deficiencies in such other work.

7.02 *Coordination*

A. If OWNER intends to contract with others for the performance of other work on the Project at the Site, the following will be set forth in Supplementary Conditions:

1. the individual or entity who will have authority and responsibility for coordination of the activities among the various contractors will be identified;

2. the specific matters to be covered by such authority and responsibility will be itemized; and

3. the extent of such authority and responsibilities will be provided.

B. Unless otherwise provided in the Supplementary Conditions, OWNER shall have sole authority and responsibility for such coordination.

## ARTICLE 8 - OWNER'S RESPONSIBILITIES

8.01 *Communications to Contractor*

A. Except as otherwise provided in these General Conditions, OWNER shall issue all communications to CONTRACTOR through ENGINEER.

8.02 *Replacement of ENGINEER*

A. In case of termination of the employment of ENGINEER, OWNER shall appoint an engineer to whom CONTRACTOR makes no reasonable objection, whose status under the Contract Documents shall be that of the former ENGINEER.

8.03 *Furnish Data*

A. OWNER shall promptly furnish the data required of OWNER under the Contract Documents.

8.04 *Pay Promptly When Due*

A. OWNER shall make payments to CONTRACTOR promptly when they are due as provided in paragraphs 14.02.C and 14.07.C.

8.05 *Lands and Easements; Reports and Tests*

A. OWNER's duties in respect of providing lands and easements and providing engineering surveys to establish reference points are set forth in paragraphs 4.01 and 4.05. Paragraph 4.02 refers to OWNER's identifying and making available to CONTRACTOR copies of reports of explorations and tests of subsurface conditions and drawings of physical conditions in or relating to existing surface or subsurface structures at or contiguous to the Site that have been utilized by ENGINEER in preparing the Contract Documents.

*See Supplementary Conditions

8.06* *Insurance*

A.* OWNER's responsibilities, if any, in respect to purchasing and maintaining liability and property insurance are set forth in Article 5.

8.07 *Change Orders*

A. OWNER is obligated to execute Change Orders as indicated in paragraph 10.03.

8.08 *Inspections, Tests, and Approvals*

A. OWNER's responsibility in respect to certain inspections, tests, and approvals is set forth in paragraph 13.03.B.

8.09 *Limitations on OWNER's Responsibilities*

A. The OWNER shall not supervise, direct, or have control or authority over, nor be responsible for, CONTRACTOR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CONTRACTOR to comply with Laws and Regulations applicable to the perfomance of the Work. OWNER will not be responsible for CONTRACTOR's failure to perform the Work in accordance with the Contract Documents.

8.10 *Undisclosed Hazardous Environmental Condition*

A. OWNER's responsibility in respect to an undisclosed Hazardous Environmental Condition is set forth in paragraph 4.06.

8.11 *Evidence of Financial Arrangements*

A. If and to the extent OWNER has agreed to furnish CONTRACTOR reasonable evidence that financial arrangements have been made to satisfy OWNER's obligations under the Contract Documents, OWNER's responsibility in respect thereof will be as set forth in the Supplementary Conditions.

ARTICLE 9 - ENGINEER'S STATUS DURING CONSTRUCTION

9.01 *OWNER'S Representative*

A. ENGINEER will be OWNER's representative during the construction period. The duties and responsibilities and the limitations of authority of ENGINEER as OWNER's representative during construction are set forth in the Contract Documents and will not be changed without written consent of OWNER and ENGINEER.

9.02 *Visits to Site*

A. ENGINEER will make visits to the Site at intervals appropriate to the various stages of construction as ENGINEER deems necessary in order to observe as an experienced and qualified design professional the progress that has been made and the quality of the various aspects of CONTRACTOR's executed Work. Based on information obtained during such visits and observations, ENGINEER, for the benefit of OWNER, will determine, in general, if the Work is proceeding in accordance with the Contract Documents. ENGINEER will not be required to make exhaustive or continuous inspections on the Site to check the quality or quantity of the Work. ENGINEER's efforts will be directed toward providing for OWNER a greater degree of confidence that the completed Work will conform generally to the Contract Documents. On the basis of such visits and observations, ENGINEER will keep OWNER informed of the progress of the Work and will endeavor to guard OWNER against defective Work.

B. ENGINEER's visits and observations are subject to all the limitations on ENGINEER's authority and responsibility set forth in paragraph 9.10, and particularly, but without limitation, during or as a result of ENGINEER's visits or observations of CONTRACTOR's Work ENGINEER will not supervise, direct, control, or have authority over or be responsible for CONTRACTOR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CONTRACTOR to comply with Laws and Regulations applicable to the performance of the Work.

9.03* *Project Representative*

A. If OWNER and ENGINEER agree, ENGINEER will furnish a Resident Project Representative to assist ENGINEER in providing more extensive observation of the Work. The responsibilities and authority and limitations thereon of any such Resident Project Representative and assistants will be as provided in paragraph 9.10 and in the Supplementary Conditions. If OWNER designates another representative or agent to represent OWNER at the Site who is not ENGINEER's Consultant, agent or employee,

*See Supplementary Conditions

the responsibilities and authority and limitations thereon of such other individual or entity will be as provided in the Supplementary Conditions.

9.04 *Clarifications and Interpretations*

A. ENGINEER will issue with reasonable promptness such written clarifications or interpretations of the requirements of the Contract Documents as ENGINEER may determine necessary, which shall be consistent with the intent of and reasonably inferable from the Contract Docu-

ments. Such written clarifications and interpretations will be binding on OWNER and CONTRACTOR. If OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times, or both, that should be allowed as a result of a written clarification or interpretation, a Claim may be made therefor as provided in paragraph 10.05.

9.05 *Authorized Variations in Work*

A. ENGINEER may authorize minor variations in the Work from the requirements of the Contract Documents which do not involve an adjustment in the Contract Price or the Contract Times and are compatible with the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. These may be accomplished by a Field Order and will be binding on OWNER and also on CONTRACTOR, who shall perform the Work involved promptly. If OWNER and CONTRACTOR are unable to agree on entitlement to or on the amount or extent, if any, of any adjustment in the Contract Price or Contract Times, or both, as a result of a Field Order, a Claim may be made therefor as provided in paragraph 10.05.

9.06 *Rejecting Defective Work*

A. ENGINEER will have authority to disapprove or reject Work which ENGINEER believes to be defective, or that ENGINEER believes will not produce a completed Project that conforms to the Contract Documents or that will prejudice the integrity of the design concept of the completed Project as a functioning whole as indicated by the Contract Documents. ENGINEER will also have authority to require special inspection or testing of the Work as provided in paragraph 13.04, whether or not the Work is fabricated, installed, or completed.

9.07 *Shop Drawings, Change Orders and Payments*

A. In connection with ENGINEER's authority as to Shop Drawings and Samples, see paragraph 6.17.

B. In connection with ENGINEER's authority as to Change Orders, see Articles 10, 11, and 12.

C. In connection with ENGINEER's authority as to Applications for Payment, see Article 14.

9.08 *Determinations for Unit Price Work*

A. ENGINEER will determine the actual quantities and classifications of Unit Price Work performed by CONTRACTOR. ENGINEER will review with CONTRACTOR the ENGINEER's preliminary determinations on such matters before rendering a written decision thereon (by recommendation of an Application for Payment or otherwise). ENGINEER's written decision thereon will be final and binding (except as modified by ENGINEER to reflect changed factual conditions or more accurate data) upon OWNER and CONTRACTOR, subject to the provisions of paragraph 10.05.

9.09 *Decisions on Requirements of Contract Documents and Acceptability of Work*

A. ENGINEER will be the initial interpreter of the requirements of the Contract Documents and judge of the acceptability of the Work thereunder. Claims, disputes and other matters relating to the acceptability of the Work, the quantities and classifications of Unit Price Work, the interpretation of the requirements of the Contract Documents pertaining to the performance of the Work, and Claims seeking changes in the Contract Price or Contract Times will be referred initially to ENGINEER in writing, in accordance with the provisions of paragraph 10.05, with a request for a formal decision.

B. When functioning as interpreter and judge under this paragraph 9.09, ENGINEER will not show partiality to OWNER or CONTRACTOR and will not be liable in connection with any interpretation or decision rendered in good faith in such capacity. The rendering of a decision by ENGINEER pursuant to this paragraph 9.09 with respect to any such Claim, dispute, or other matter (except any which have been waived by the making or acceptance of final payment as provided in paragraph 14.07) will be a condition precedent to any exercise by OWNER or CONTRACTOR of such rights or remedies as either may otherwise have under the Contract Documents or by Laws or Regulations in respect of any such Claim, dispute, or other matter.

*See Supplementary Conditions

9.10 *Limitations on ENGINEER's Authority and Responsibilities*

A. Neither ENGINEER's authority or responsibility under this Article 9 or under any other provision of the Contract Documents nor any decision made by ENGINEER in good faith either to exercise or not exercise such

authority or responsibility or the undertaking, exercise, or performance of any authority or responsibility by ENGINEER shall create, impose, or give rise to any duty in contract, tort, or otherwise owed by ENGINEER to CONTRACTOR, any Subcontractor, any Supplier, any other individual or entity, or to any surety for or employee or agent of any of them.

B. ENGINEER will not supervise, direct, control, or have authority over or be responsible for CONTRACTOR's means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for any failure of CONTRACTOR to comply with Laws and Regulations applicable to the perfomance of the Work. ENGINEER will not be responsible for CONTRACTOR's failure to perform the Work in accordance with the Contract Documents.

C. ENGINEER will not be responsible for the acts or omissions of CONTRACTOR or of any Subcontractor, any Supplier, or of any other individual or entity performing any of the Work.

D. ENGINEER's review of the final Application for Payment and accompanying documentation and all maintenance and operating instructions, schedules, guarantees, Bonds, certificates of inspection, tests and approvals, and other documentation required to be delivered by paragraph 14.07.A will only be to determine generally that their content complies with the requirements of, and in the case of certificates of inspections, tests, and approvals that the results certified indicate compliance with, the Contract Documents.

E. The limitations upon authority and responsibility set forth in this paragraph 9.10 shall also apply to ENGINEER's Consultants, Resident Project Representative, and assistants. See Article 18.

## ARTICLE 10 - CHANGES IN THE WORK; CLAIMS

10.01 *Authorized Changes in the Work*

A. Without invalidating the Agreement and without notice to any surety, OWNER may, at any time or from time to time, order additions, deletions, or revisions in the Work by a Written Amendment, a Change Order, or a Work Change Directive. Upon receipt of any such document, CONTRACTOR shall promptly proceed with the Work involved which will be performed under the applicable conditions of the Contract Documents (except as otherwise specifically provided).

B. If OWNER and CONTRACTOR are unable to agree on entitlement to, or on the amount or extent, if any, of an adjustment in the Contract Price or Contract Times, or both, that should be allowed as a result of a Work Change Directive, a Claim may be made therefor as provided in paragraph 10.05.

10.02 *Unauthorized Changes in the Work*

A. CONTRACTOR shall not be entitled to an increase in the Contract Price or an extension of the Contract Times with respect to any work performed that is not required by the Contract Documents as amended, modified, or supplemented as provided in paragraph 3.04, except in the case of an emergency as provided in paragraph 6.16 or in the case of uncovering Work as provided in paragraph 13.04.B.

10.03 *Execution of Change Orders*

A. OWNER and CONTRACTOR shall execute appropriate Change Orders recommended by ENGINEER (or Written Amendments) covering:

1. changes in the Work which are: (i) ordered by OWNER pursuant to paragraph 10.01.A, (ii) required because of acceptance of defective Work under paragraph 13.08.A or OWNER's correction of defective Work under paragraph 13.09, or (iii) agreed to by the parties;

2. changes in the Contract Price or Contract Times which are agreed to by the parties, including any undisputed sum or amount of time for Work actually performed in accordance with a Work Change Directive; and

3. changes in the Contract Price or Contract Times which embody the substance of any written decision rendered by ENGINEER pursuant to paragraph 10.05; provided that, in lieu of executing any such Change Order, an appeal may be taken from any such decision in accordance with the provisions of the Contract Documents and applicable Laws and Regulations, but during any such appeal, CONTRACTOR shall carry on the Work and adhere to the progress schedule as provided in paragraph 6.18.A.

10.04 *Notification to Surety*

A. If notice of any change affecting the general scope of the Work or the provisions of the Contract Documents (including, but not limited to, Contract Price or Contract Times) is required by the provisions of any Bond to be given to a surety, the giving of any such notice will be CONTRACTOR's responsibility. The amount of each applicable Bond will be adjusted to reflect the effect of any such change.

10.05 *Claims and Disputes*

A. *Notice:* Written notice stating the general nature of each Claim, dispute, or other matter shall be delivered by the claimant to ENGINEER and the other party to the Contract promptly (but in no event later than 30 days) after the start of the event giving rise thereto. Notice of the amount or extent of the Claim, dispute, or other matter with supporting data shall be delivered to the ENGINEER and the other party to the Contract within 60 days after the start of such event (unless ENGINEER allows additional time for claimant to submit additional or more accurate data in support of such Claim, dispute, or other matter). A Claim for an adjustment in Contract Price shall be prepared in accordance with the provisions of paragraph 12.01.B. A Claim for an adjustment in Contract Time shall be prepared in accordance with the provisions of paragraph 12.02.B. Each Claim shall be accompanied by claimant's written statement that the adjustment claimed is the entire adjustment to which the claimant believes it is entitled as a result of said event. The opposing party shall submit any response to ENGINEER and the claimant within 30 days after receipt of the claimant's last submittal (unless ENGINEER allows additional time).

B. *ENGINEER's Decision:* ENGINEER will render a formal decision in writing within 30 days after receipt of the last submittal of the claimant or the last submittal of the opposing party, if any. ENGINEER's written decision on such Claim, dispute, or other matter will be final and binding upon OWNER and CONTRACTOR unless:

1. an appeal from ENGINEER's decision is taken within the time limits and in accordance with the dispute resolution procedures set forth in Article 16; or

2. if no such dispute resolution procedures have been set forth in Article 16, a written notice of intention to appeal from ENGINEER's written decision is delivered by OWNER or CONTRACTOR to the other and to ENGINEER within 30 days after the date of such decision, and a formal proceeding is instituted by the appealing party in a forum of competent jurisdiction within 60 days after the date of such decision or within 60 days after Substantial Completion, whichever is later (unless otherwise agreed in writing by OWNER and CONTRACTOR), to exercise such rights or remedies as the appealing party may have with respect to such Claim, dispute, or other matter in accordance with applicable Laws and Regulations.

C. If ENGINEER does not render a formal decision in writing within the time stated in paragraph 10.05.B, a decision denying the Claim in its entirety shall be deemed to have been issued 31 days after receipt of the last submittal of the claimant or the last submittal of the opposing party, if any.

D. No Claim for an adjustment in Contract Price or Contract Times (or Milestones) will be valid if not submitted in accordance with this paragraph 10.05.

## ARTICLE 11 - COST OF THE WORK; CASH ALLOWANCES; UNIT PRICE WORK

11.01 *Cost of the Work*

A. *Costs Included:* The term Cost of the Work means the sum of all costs necessarily incurred and paid by CONTRACTOR in the proper performance of the Work. When the value of any Work covered by a Change Order or when a Claim for an adjustment in Contract Price is determined on the basis of Cost of the Work, the costs to be reimbursed to CONTRACTOR will be only those additional or incremental costs required because of the change in the Work or because of the event giving rise to the Claim. Except as otherwise may be agreed to in writing by OWNER, such costs shall be in amounts no higher than those prevailing in the locality of the Project, shall include only the following items, and shall not include any of the costs itemized in paragraph 11.01.B.

1. Payroll costs for employees in the direct employ of CONTRACTOR in the performance of the Work under schedules of job classifications agreed upon by OWNER and CONTRACTOR. Such employees shall include without limitation superintendents, foremen, and other personnel employed full time at the Site. Payroll costs for employees not employed full time on the Work

shall be apportioned on the basis of their time spent on the Work. Payroll costs shall include, but not be limited to, salaries and wages plus the cost of fringe benefits, which shall include social security contributions, unemployment, excise, and payroll taxes, workers' compensation, health and retirement benefits, bonuses, sick leave, vacation and holiday pay applicable thereto. The expenses of performing Work outside of regular working hours, on Saturday, Sunday, or legal holidays, shall be included in the above to the extent authorized by OWNER.

2. Cost of all materials and equipment furnished and incorporated in the Work, including costs of transportation and storage thereof, and Suppliers' field services required in connection therewith. All cash discounts shall accrue to CONTRACTOR unless OWNER deposits funds with CONTRACTOR with which to make payments, in which case the cash discounts shall accrue to OWNER. All trade discounts, rebates and refunds and returns from sale of surplus materials and equipment shall accrue to OWNER, and CONTRACTOR shall make provisions so that they may be obtained.

3. Payments made by CONTRACTOR to Subcontractors for Work performed by Subcontractors. If required by OWNER, CONTRACTOR shall obtain competitive bids from subcontractors acceptable to OWNER and CONTRACTOR and shall deliver such bids to OWNER, who will then determine, with the advice of ENGINEER, which bids, if any, will be acceptable. If any subcontract provides that the Subcontractor is to be paid on the basis of Cost of the Work plus a fee, the Subcontractor's Cost of the Work and fee shall be determined in the same manner as CONTRACTOR's Cost of the Work and fee as provided in this paragraph 11.01.

4. Costs of special consultants (including but not limited to engineers, architects, testing laboratories, surveyors, attorneys, and accountants) employed for services specifically related to the Work.

5. Supplemental costs including the following:

a. The proportion of necessary transportation, travel, and subsistence expenses of CONTRACTOR's employees incurred in discharge of duties connected with the Work.

b. Cost, including transportation and maintenance, of all materials, supplies, equipment, machinery, appliances, office, and temporary facilities at the Site, and hand tools not owned by the workers, which are consumed in the performance of the Work, and cost, less market value, of such items used but not consumed which remain the property of CONTRACTOR.

c. Rentals of all construction equipment and machinery, and the parts thereof whether rented from CONTRACTOR or others in accordance with rental agreements approved by OWNER with the advice of ENGINEER, and the costs of transportation, loading, unloading, assembly, dismantling, and removal thereof. All such costs shall be in accordance with the terms of said rental agreements. The rental of any such equipment, machinery, or parts shall cease when the use thereof is no longer necessary for the Work.

d. Sales, consumer, use, and other similar taxes related to the Work, and for which CONTRACTOR is liable, imposed by Laws and Regulations.

e. Deposits lost for causes other than negligence of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, and royalty payments and fees for permits and licenses.

f. Losses and damages (and related expenses) caused by damage to the Work, not compensated by insurance or otherwise, sustained by CONTRACTOR in connection with the performance of the Work (except losses and damages within the deductible amounts of property insurance established in accordance with paragraph 5.06.D), provided such losses and damages have resulted from causes other than the negligence of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable. Such losses shall include settlements made with the written consent and approval of OWNER. No such losses, damages, and expenses shall be included in the Cost of the Work for the purpose of determining CONTRACTOR's fee.

g. The cost of utilities, fuel, and sanitary facilities at the Site.

h. Minor expenses such as telegrams, long distance telephone calls, telephone service at the Site, expressage, and similar petty cash items in connection with the Work.

i. When the Cost of the Work is used to determine the value of a Change Order or of a Claim, the cost of premiums for additional Bonds and insurance required because of the changes in the Work or caused by the event giving rise to the Claim.

j. When all the Work is performed on the basis of cost-plus, the costs of premiums for all Bonds and insurance CONTRACTOR is required by the Contract Documents to purchase and maintain.

B. *Costs Excluded:* The term Cost of the Work shall not include any of the following items:

1. Payroll costs and other compensation of CONTRACTOR's officers, executives, principals (of partnerships and sole proprietorships), general managers, engineers, architects, estimators, attorneys, auditors, accountants, purchasing and contracting agents, expediters, timekeepers, clerks, and other personnel employed by CONTRACTOR, whether at the Site or in CONTRACTOR's principal or branch office for general administration of the Work and not specifically included in the agreed upon schedule of job classifications referred to in paragraph 11.01.A.1 or specifically covered by paragraph 11.01.A.4, all of which are to be considered administrative costs covered by the CONTRACTOR's fee.

2. Expenses of CONTRACTOR's principal and branch offices other than CONTRACTOR's office at the Site.

3. Any part of CONTRACTOR's capital expenses, including interest on CONTRACTOR's capital employed for the Work and charges against CONTRACTOR for delinquent payments.

4. Costs due to the negligence of CONTRACTOR, any Subcontractor, or anyone directly or indirectly employed by any of them or for whose acts any of them may be liable, including but not limited to, the correction of defective Work, disposal of materials or equipment wrongly supplied, and making good any damage to property.

5. Other overhead or general expense costs of any kind and the costs of any item not specifically and expressly included in paragraphs 11.01.A and 11.01.B.

C. *CONTRACTOR's Fee:* When all the Work is performed on the basis of cost-plus, CONTRACTOR's fee shall be determined as set forth in the Agreement. When the value of any Work covered by a Change Order or when a Claim for an adjustment in Contract Price is determined on the basis of Cost of the Work, CONTRACTOR's fee shall be determined as set forth in paragraph 12.01.C.

D. *Documentation:* Whenever the Cost of the Work for any purpose is to be determined pursuant to paragraphs 11.01.A and 11.01.B, CONTRACTOR will establish and maintain records thereof in accordance with generally accepted accounting practices and submit in a form acceptable to ENGINEER an itemized cost breakdown together with supporting data.

11.02 *Cash Allowances*

A. It is understood that CONTRACTOR has included in the Contract Price all allowances so named in the Contract Documents and shall cause the Work so covered to be performed for such sums as may be acceptable to OWNER and ENGINEER. CONTRACTOR agrees that:

1. the allowances include the cost to CONTRACTOR (less any applicable trade discounts) of materials and equipment required by the allowances to be delivered at the Site, and all applicable taxes; and

2. CONTRACTOR's costs for unloading and handling on the Site, labor, installation costs, overhead, profit, and other expenses contemplated for the allowances have been included in the Contract Price and not in the allowances, and no demand for additional payment on account of any of the foregoing will be valid.

B. Prior to final payment, an appropriate Change Order will be issued as recommended by ENGINEER to reflect actual amounts due CONTRACTOR on account of

Work covered by allowances, and the Contract Price shall be correspondingly adjusted.

11.03 *Unit Price Work*

A. Where the Contract Documents provide that all or part of the Work is to be Unit Price Work, initially the Contract Price will be deemed to include for all Unit Price Work an amount equal to the sum of the unit price for each separately identified item of Unit Price Work times the estimated quantity of each item as indicated in the Agreement. The estimated quantities of items of Unit Price Work are not guaranteed and are solely for the purpose of comparison of Bids and determining an initial Contract Price. Determinations of the actual quantities and classifications of Unit Price Work performed by CONTRACTOR will be made by ENGINEER subject to the provisions of paragraph 9.08.

B. Each unit price will be deemed to include an amount considered by CONTRACTOR to be adequate to cover CONTRACTOR's overhead and profit for each separately identified item.

C. OWNER or CONTRACTOR may make a Claim for an adjustment in the Contract Price in accordance with paragraph 10.05 if:

1. the quantity of any item of Unit Price Work performed by CONTRACTOR differs materially and significantly from the estimated quantity of such item indicated in the Agreement; and

2. there is no corresponding adjustment with respect any other item of Work; and

3. if CONTRACTOR believes that CONTRACTOR is entitled to an increase in Contract Price as a result of having incurred additional expense or OWNER believes that OWNER is entitled to a decrease in Contract Price and the parties are unable to agree as to the amount of any such increase or decrease.

## ARTICLE 12 - CHANGE OF CONTRACT PRICE; CHANGE OF CONTRACT TIMES

12.01* *Change of Contract Price*

A. The Contract Price may only be changed by a Change Order or by a Written Amendment. Any Claim for an adjustment in the Contract Price shall be based on written notice submitted by the party making the Claim to the ENGINEER and the other party to the Contract in accordance with the provisions of paragraph 10.05.

B.* The value of any Work covered by a Change Order or of any Claim for an adjustment in the Contract Price will be determined as follows:

1. where the Work involved is covered by unit prices contained in the Contract Documents, by application of such unit prices to the quantities of the items involved (subject to the provisions of paragraph 11.03 ); or

2. where the Work involved is not covered by unit prices contained in the Contract Documents, by a mutually agreed lump sum (which may include an allowance for overhead and profit not necessarily in accordance with paragraph 12.01.C.2); or

3. where the Work involved is not covered by unit prices contained in the Contract Documents and agreement to a lump sum is not reached under paragraph 12.01.B.2, on the basis of the Cost of the Work (determined as provided in paragraph 11.01) plus a CONTRACTOR's fee for overhead and profit (determined as provided in paragraph 12.01.C).

C. *CONTRACTOR's Fee:* The CONTRACTOR's fee for overhead and profit shall be determined as follows:

1. a mutually acceptable fixed fee; or

2. if a fixed fee is not agreed upon, then a fee based on the following percentages of the various portions of the Cost of the Work:

a. for costs incurred under paragraphs 11.01.A.1 and 11.01.A.2, the CONTRACTOR's fee shall be 15 percent;

b. for costs incurred under paragraph 11.01.A.3, the CONTRACTOR's fee shall be five percent;

c. where one or more tiers of subcontracts are on the basis of Cost of the Work plus a fee and no fixed fee is agreed upon, the intent of paragraph 12.01.C.2.a is that the Subcontractor who actually performs the Work, at whatever tier, will be paid a fee of 15 percent of the costs incurred by such Subcontractor under paragraphs 11.01.A.1 and 11.01.A.2 and that any higher tier Subcontractor and CONTRACTOR will each be paid a fee of five percent of the amount paid to the next lower tier Subcontractor;

*See Supplementary Conditions

d. no fee shall be payable on the basis of costs itemized under paragraphs 11.01.A.4, 11.01.A.5, and 11.01.B;

e. the amount of credit to be allowed by CONTRACTOR to OWNER for any change which results in a net decrease in cost will be the amount of the actual net decrease in cost plus a deduction in CONTRACTOR's fee by an amount equal to five percent of such net decrease; and

f. when both additions and credits are involved in any one change, the adjustment in CONTRACTOR's fee shall be computed on the basis of the net change in accordance with paragraphs 12.01.C.2.a through 12.01.C.2.e, inclusive.

12.02 *Change of Contract Times*

A. The Contract Times (or Milestones) may only be changed by a Change Order or by a Written Amendment. Any Claim for an adjustment in the Contract Times (or Milestones) shall be based on written notice submitted by the party making the claim to the ENGINEER and the other party to the Contract in accordance with the provisions of paragraph 10.05.

B. Any adjustment of the Contract Times (or Milestones) covered by a Change Order or of any Claim for an adjustment in the Contract Times (or Milestones) will be determined in accordance with the provisions of this Article 12.

12.03 *Delays Beyond CONTRACTOR's Control*

A. Where CONTRACTOR is prevented from completing any part of the Work within the Contract Times (or Milestones) due to delay beyond the control of CONTRACTOR, the Contract Times (or Milestones) will be extended in an amount equal to the time lost due to such delay if a Claim is made therefor as provided in paragraph 12.02.A. Delays beyond the control of CONTRACTOR shall include, but not be limited to, acts or neglect by OWNER, acts or neglect of utility owners or other contractors performing other work as contemplated by Article 7, fires, floods, epidemics, abnormal weather conditions, or acts of God.

12.04 *Delays Within CONTRACTOR's Control*

A. The Contract Times (or Milestones) will not be extended due to delays within the control of CONTRACTOR. Delays attributable to and within the control of a Subcontractor or Supplier shall be deemed to be delays within the control of CONTRACTOR.

12.05 *Delays Beyond OWNER's and CONTRACTOR's Control*

A. Where CONTRACTOR is prevented from completing any part of the Work within the Contract Times (or Milestones) due to delay beyond the control of both OWNER and CONTRACTOR, an extension of the Contract Times (or Milestones) in an amount equal to the time lost due to such delay shall be CONTRACTOR's sole and exclusive remedy for such delay.

12.06 *Delay Damages*

A. In no event shall OWNER or ENGINEER be liable to CONTRACTOR, any Subcontractor, any Supplier, or any other person or organization, or to any surety for or employee or agent of any of them, for damages arising out of or resulting from:

1. delays caused by or within the control of CONTRACTOR; or

2. delays beyond the control of both OWNER and CONTRACTOR including but not limited to fires, floods, epidemics, abnormal weather conditions, acts of God, or acts or neglect by utility

owners or other contractors performing other work as contemplated by Article 7.

B. Nothing in this paragraph 12.06 bars a change in Contract Price pursuant to this Article 12 to compensate CONTRACTOR due to delay, interference, or disruption directly attributable to actions or inactions of OWNER or anyone for whom OWNER is responsible.

## ARTICLE 13 - TESTS AND INSPECTIONS; CORRECTION, REMOVAL OR ACCEPTANCE OF DEFECTIVE WORK

13.01 *Notice of Defects*

A. Prompt notice of all defective Work of which OWNER or ENGINEER has actual knowledge will be given to CONTRACTOR. All defective Work may be rejected, corrected, or accepted as provided in this Article 13.

13.02* *Access to Work*

A. OWNER, ENGINEER, ENGINEER's Consultants, other representatives and personnel of OWNER, independent testing laboratories, and governmental agencies with jurisdictional interests will have access to the Site and the Work at reasonable times for their observation, inspecting, and testing. CONTRACTOR shall provide them proper and safe conditions for such access and advise them of CONTRACTOR's Site safety procedures and programs so that they may comply therewith as applicable.

13.03* *Tests and Inspections*

A. CONTRACTOR shall give ENGINEER timely notice of readiness of the Work for all required inspections, tests, or approvals and shall cooperate with inspection and testing personnel to facilitate required inspections or tests.

B.* OWNER shall employ and pay for the services of an independent testing laboratory to perform all inspections, tests, or approvals required by the Contract Documents except:

1. for inspections, tests, or approvals covered by paragraphs 13.03.C and 13.03.D below;

2. that costs incurred in connection with tests or inspections conducted pursuant to paragraph 13.04.B shall be paid as provided in said paragraph 13.04.B; and

3. as otherwise specifically provided in the Contract Documents.

C. If Laws or Regulations of any public body having jurisdiction require any Work (or part thereof) specifically to be inspected, tested, or approved by an employee or other representative of such public body, CONTRACTOR shall assume full responsibility for arranging and obtaining such inspections, tests, or approvals, pay all costs in connection therewith, and furnish ENGINEER the required certificates of inspection or approval.

D. CONTRACTOR shall be responsible for arranging and obtaining and shall pay all costs in connection with any inspections, tests, or approvals required for OWNER's and ENGINEER's acceptance of materials or equipment to be incorporated in the Work; or acceptance of materials, mix designs, or equipment submitted for approval prior to CONTRACTOR's purchase thereof for incorporation in the Work. Such inspections, tests, or approvals shall be performed by organizations acceptable to OWNER and ENGINEER.

E. If any Work (or the work of others) that is to be inspected, tested, or approved is covered by CONTRACTOR without written concurrence of ENGINEER, it must, if requested by ENGINEER, be uncovered for observation.

F. Uncovering Work as provided in paragraph 13.03.E shall be at CONTRACTOR's expense unless CONTRACTOR has given ENGINEER timely notice of CONTRACTOR's intention to cover the same and ENGINEER has not acted with reasonable promptness in response to such notice.

13.04 *Uncovering Work*

A. If any Work is covered contrary to the written request of ENGINEER, it must, if requested by ENGINEER, be uncovered for ENGINEER's observation and replaced at CONTRACTOR's expense.

B. If ENGINEER considers it necessary or advisable that covered Work be observed by ENGINEER or inspected or tested by others, CONTRACTOR, at ENGINEER's request, shall uncover, expose, or otherwise make available for observation, inspection, or testing as ENGINEER may require, that portion of the Work in

question, furnishing all necessary labor, material, and equipment. If it is found that such Work is defective, CONTRACTOR shall pay all Claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such uncovering, exposure, observation, inspection, and testing, and of satisfactory replacement or reconstruction (including but not limited to all costs of repair or replacement of work of others); and OWNER shall be entitled to an appropriate decrease in the Contract Price. If the parties are unable to agree as to the amount thereof, OWNER may make a Claim therefor as provided in paragraph 10.05. If, however, such Work is not found to be defective, CONTRACTOR shall be allowed an increase in the Contract Price or an extension of the Contract Times (or Milestones), or both, directly attributable to such uncovering, exposure, observation, inspection, testing, replacement, and reconstruction. If the parties are unable to agree as to the amount or extent thereof, CONTRACTOR may make a Claim therefor as provided in paragraph 10.05.

*See Supplementary Conditions

13.05 *OWNER May Stop the Work*

A. If the Work is defective, or CONTRACTOR fails to supply sufficient skilled workers or suitable materials or equipment, or fails to perform the Work in such a way that the completed Work will conform to the Contract Documents, OWNER may order CONTRACTOR to stop the Work, or any portion thereof, until the cause for such order has been eliminated; however, this right of OWNER to stop the Work shall not give rise to any duty on the part of OWNER to exercise this right for the benefit of CONTRACTOR, any Subcontractor, any Supplier, any other individual or entity, or any surety for, or employee or agent of any of them.

13.06 *Correction or Removal of Defective Work*

A. CONTRACTOR shall correct all defective Work, whether or not fabricated, installed, or completed, or, if the Work has been rejected by ENGINEER, remove it from the Project and replace it with Work that is not defective. CONTRACTOR shall pay all Claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or removal (including but not limited to all costs of repair or replacement of work of others).

13.07 *Correction Period*

A. If within one year after the date of Substantial Completion or such longer period of time as may be prescribed by Laws or Regulations or by the terms of any applicable special guarantee required by the Contract Documents or by any specific provision of the Contract Documents, any Work is found to be defective, or if the repair of any damages to the land or areas made available for CONTRACTOR's use by OWNER or permitted by Laws and Regulations as contemplated in paragraph 6.11.A is found to be defective, CONTRACTOR shall promptly, without cost to OWNER and in accordance with OWNER's written instructions: (i) repair such defective land or areas, or (ii) correct such defective Work or, if the defective Work has been rejected by OWNER, remove it from the Project and replace it with Work that is not defective, and (iii) satisfactorily correct or repair or remove and replace any damage to other Work, to the work of others or other land or areas resulting therefrom. If CONTRACTOR does not promptly comply with the terms of such instructions, or in an emergency where delay would cause serious risk of loss or damage, OWNER may have the defective Work corrected or repaired or may have the rejected Work removed and replaced, and all Claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) arising out of or relating to such correction or repair or such removal and replacement (including but not limited to all costs of repair or replacement of work of others) will be paid by CONTRACTOR.

B. In special circumstances where a particular item of equipment is placed in continuous service before Substantial Completion of all the Work, the correction period for that item may start to run from an earlier date if so provided in the Specifications or by Written Amendment.

C. Where defective Work (and damage to other Work resulting therefrom) has been corrected or removed and replaced under this paragraph 13.07, the correction period hereunder with respect to such Work will be extended for an additional period of one year after such correction or removal and replacement has been satisfactorily completed.

D. CONTRACTOR's obligations under this paragraph 13.07 are in addition to any other obligation or warranty. The provisions of this paragraph 13.07 shall not be construed as a substitute for or a waiver of the provisions of any applicable statute of limitation or repose.

13.08 *Acceptance of Defective Work*

A. If, instead of requiring correction or removal and replacement of defective Work, OWNER (and, prior to ENGINEER's recommendation of final payment, ENGINEER) prefers to accept it, OWNER may do so. CONTRACTOR shall pay all Claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) attributable to OWNER's evaluation of and determination to accept such defective Work (such costs to be approved by ENGINEER as to reasonableness) and the diminished value of the Work to the extent not otherwise paid by CONTRACTOR pursuant to this sentence. If any such acceptance occurs prior to ENGINEER's recommendation of final payment, a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work, and OWNER shall be entitled to an appropriate decrease in the Contract Price, reflecting the diminished value of Work so accepted. If the parties are unable to agree as to the amount thereof, OWNER may make a Claim therefor as provided in paragraph 10.05. If the acceptance occurs after such recommendation, an appropriate amount will be paid by CONTRACTOR to OWNER.

13.09 *OWNER May Correct Defective Work*

A. If CONTRACTOR fails within a reasonable time after written notice from ENGINEER to correct defective Work or to remove and replace rejected Work as required by ENGINEER in accordance with paragraph 13.06.A, or if CONTRACTOR fails to perform the Work in accordance with the Contract Documents, or if CONTRACTOR fails to comply with any other provision of the Contract Documents, OWNER may, after seven days written notice to CONTRACTOR, correct and remedy any such deficiency.

B. In exercising the rights and remedies under this paragraph, OWNER shall proceed expeditiously. In connection with such corrective and remedial action, OWNER may exclude CONTRACTOR from all or part of the Site, take possession of all or part of the Work and suspend CONTRACTOR's services related thereto, take possession of CONTRACTOR's tools, appliances, construction equipment and machinery at the Site, and incorporate in the Work all materials and equipment stored at the Site or for which OWNER has paid CONTRACTOR but which are stored elsewhere. CONTRACTOR shall allow OWNER, OWNER's representatives, agents and employees, OWNER's other contractors, and ENGINEER and ENGINEER's Consultants access to the Site to enable OWNER to exercise the rights and remedies under this paragraph.

C. All Claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) incurred or sustained by OWNER in exercising the rights and remedies under this paragraph 13.09 will be charged against CONTRACTOR, and a Change Order will be issued incorporating the necessary revisions in the Contract Documents with respect to the Work; and OWNER shall be entitled to an appropriate decrease in the Contract Price. If the parties are unable to agree as to the amount of the adjustment, OWNER may make a Claim therefor as provided in paragraph 10.05. Such claims, costs, losses and damages will include but not be limited to all costs of repair, or replacement of work of others destroyed or damaged by correction, removal, or replacement of CONTRACTOR's defective Work.

D. CONTRACTOR shall not be allowed an extension of the Contract Times (or Milestones) because of any delay in the performance of the Work attributable to the exercise by OWNER of OWNER's rights and remedies under this paragraph 13.09.

ARTICLE 14 - PAYMENTS TO CONTRACTOR AND COMPLETION

14.01 *Schedule of Values*

A. The schedule of values established as provided in paragraph 2.07.A will serve as the basis for progress payments and will be incorporated into a form of Application for Payment acceptable to ENGINEER. Progress payments on account of Unit Price Work will be based on the number of units completed.

14.02 *Progress Payments*

A.* *Applications for Payments*

1. At least 20 days before the date established for each progress payment (but not more often than once a month), CONTRACTOR shall submit to ENGINEER for review an Application for Payment filled out and signed by CONTRACTOR covering the Work completed as of the date of the Application and accompanied by such supporting documentation as is required by the Contract Documents. If payment is requested on the basis of materials and equipment not incorporated in the Work but delivered and suitably stored at the Site or at another location agreed to in writing, the Application for Payment shall also be accompanied by a bill of sale, invoice, or other documentation warranting that OWNER has received the materials and equipment free and clear of all Liens and evidence that the materials and equipment are covered by appropriate property insurance or other arrangements to protect OWNER's interest therein, all of which must be satisfactory to OWNER.

2. Beginning with the second Application for Payment, each Application shall include an affidavit of CONTRACTOR stating that all previous progress payments received on account of the Work have been applied on account to discharge CONTRACTOR's legitimate obligations associated with prior Applications for Payment.

3. The amount of retainage with respect to pro-gress payments will be as stipulated in the Agreement.

*See Supplementary Conditions

B. *Review of Applications*

1. ENGINEER will, within 10 days after receipt of each Application for Payment, either indicate in writing a recommendation of payment and present the Application to OWNER or return the Application to CONTRACTOR indicating in writing ENGINEER's reasons for refusing to recommend payment. In the latter case, CONTRACTOR may make the necessary corrections and resubmit the Application.

2. ENGINEER's recommendation of any payment requested in an Application for Payment will constitute a representation by ENGINEER to OWNER, based on ENGINEER's observations on the Site of the executed Work as an experienced and qualified design professional and on ENGINEER's review of the Application for Payment and the accompanying data and schedules, that to the best of ENGINEER's knowledge, information and belief:

a. the Work has progressed to the point indicated;

b. the quality of the Work is generally in accordance with the Contract Documents (subject to an evaluation of the Work as a functioning whole prior to or upon Substantial Comple tion, to the results of any subsequent tests called for in the Contract Documents, to a final determination of quantities and classifications for Unit Price Work under paragraph 9.08, and to any other qualifications stated in the recommendation); and

c. the conditions precedent to CONTRACTOR's being entitled to such payment appear to have been fulfilled in so far as it is ENGINEER's responsibility to observe the Work.

3. By recommending any such payment ENGINEER will not thereby be deemed to have represented that: (i) inspections made to check the quality or the quantity of the Work as it has been performed have been exhaustive, extended to every aspect of the Work in progress, or involved detailed inspections of the Work beyond the responsibilities specifically assigned to ENGINEER in the Contract Documents; or (ii) that there may not be other matters or issues between the parties

that might entitle CONTRACTOR to be paid additionally by OWNER or entitle OWNER to withhold payment to CONTRACTOR.

4. Neither ENGINEER's review of CONTRACTOR's Work for the purposes of recommending payments nor ENGINEER's recommendation of any payment, including final payment, will impose responsibility on ENGINEER to supervise, direct, or control the Work or for the means, methods, techniques, sequences, or procedures of construction, or the safety precautions and programs incident thereto, or for CONTRACTOR's failure to comply with Laws and Regulations applicable to CONTRACTOR's performance of the Work. Additionally, said review or recommendation will not impose responsibility on ENGINEER to make any examination to ascertain how or for what purposes CONTRACTOR has used the moneys paid on account of the Contract Price, or to determine that title to any of the Work, materials, or equipment has passed to OWNER free and clear of any Liens.

5. ENGINEER may refuse to recommend the whole or any part of any payment if, in ENGINEER's opinion, it would be incorrect to make the representations to OWNER referred to in paragraph 14.02.B.2. ENGINEER may also refuse to recommend any such payment or, because of subsequently discovered evidence or the results of subsequent inspections or tests, revise or revoke any such payment recommendation previously made, to such extent as may be necessary in ENGINEER's opinion to protect OWNER from loss because:

a. the Work is defective, or completed Work has been damaged, requiring correction or replacement;

b. the Contract Price has been reduced by Written Amendment or Change Orders;

c. OWNER has been required to correct defective Work or complete Work in accordance with paragraph 13.09; or

d. ENGINEER has actual knowledge of the occurrence of any of the events enumerated in paragraph 15.02.A.

C. *Payment Becomes Due*

1. Ten days after presentation of the Application for Payment to OWNER with ENGINEER's recommendation, the amount recommended will (subject to the provisions of paragraph 14.02.D) become due, and when due will be paid by OWNER to CONTRACTOR.

D. *Reduction in Payment*

1. OWNER may refuse to make payment of the full amount recommended by ENGINEER because:

a. claims have been made against OWNER on account of CONTRACTOR's performance or furnishing of the Work;

b. Liens have been filed in connection with the Work, except where CONTRACTOR has delivered a specific Bond satisfactory to OWNER to secure the satisfaction and discharge of such Liens;

c. there are other items entitling OWNER to a set-off against the amount recommended; or

d. OWNER has actual knowledge of the occurrence of any of the events enumerated in paragraphs 14.02.B.5.a through 14.02.B.5.c or paragraph 15.02.A.

2. If OWNER refuses to make payment of the full amount recommended by ENGINEER, OWNER must give CONTRACTOR immediate written notice (with a copy to ENGINEER) stating the reasons for such action and promptly pay CONTRACTOR any amount remaining after deduction of the amount so withheld. OWNER shall promptly pay CONTRACTOR the amount so withheld, or any adjustment thereto agreed to by OWNER and CONTRACTOR, when CONTRACTOR corrects to OWNER's satisfaction the reasons for such action.

3. If it is subsequently determined that OWNER's refusal of payment was not justified, the amount wrongfully withheld shall be treated as an amount due as determined by paragraph 14.02.C.1.

14.03 *CONTRACTOR's Warranty of Title*

A. CONTRACTOR warrants and guarantees that title to all Work, materials, and equipment covered by any Application for Payment, whether incorporated in the Project or not, will pass to OWNER no later than the time of payment free and clear of all Liens.

14.04 *Substantial Completion*

A. When CONTRACTOR considers the entire Work ready for its intended use CONTRACTOR shall notify OWNER and ENGINEER in writing that the entire Work is substantially complete (except for items specifically listed by CONTRACTOR as incomplete) and request that ENGINEER issue a certificate of Substantial Completion. Promptly thereafter, OWNER, CONTRACTOR, and ENGINEER shall make an inspection of the Work to determine the status of completion. If ENGINEER does not consider the Work substantially complete, ENGINEER will notify CONTRACTOR in writing giving the reasons therefor. If ENGINEER considers the Work substantially complete, ENGINEER will prepare and deliver to OWNER a tentative certificate of Substantial Completion which shall fix the date of Substantial Completion. There shall be attached to the certificate a tentative list of items to be completed or corrected before final payment. OWNER shall have seven days after receipt of the tentative certificate during which to make written objection to ENGINEER as to any provisions of the certificate or attached list. If, after considering such objections, ENGINEER concludes that the Work is not substantially complete, ENGINEER will within 14 days after submission of the tentative certificate to OWNER notify CONTRACTOR in writing, stating the reasons therefor. If, after consideration of OWNER's objections, ENGINEER considers the Work substantially complete, ENGINEER will within said 14 days execute and deliver to OWNER and CONTRACTOR a definitive certificate of Substantial Completion (with a revised tentative list of items to be completed or corrected) reflecting such changes from the tentative certificate as ENGINEER believes justified after consideration of any objections from OWNER. At the time of delivery of the tentative certificate of Substantial Completion ENGINEER will deliver to OWNER and CONTRACTOR a written recommendation as to division of responsibilities pending final payment between OWNER and CONTRACTOR with respect to security, operation, safety, and protection of the Work, maintenance, heat, utilities, insurance, and warranties and guarantees. Unless OWNER and CONTRACTOR agree otherwise in writing and so inform ENGINEER in writing prior to ENGINEER's issuing the definitive certificate of Substantial Completion, ENGINEER's aforesaid recommendation will be binding on OWNER and CONTRACTOR until final payment.

B. OWNER shall have the right to exclude CONTRACTOR from the Site after the date of Substantial Completion, but OWNER shall allow CONTRACTOR reasonable access to complete or correct items on the tentative list.

14.05 *Partial Utilization*

A. Use by OWNER at OWNER's option of any substantially completed part of the Work which has specifically been identified in the Contract Documents, or which OWNER, ENGINEER, and CONTRACTOR agree constitutes a separately functioning and usable part of the Work that can be used by OWNER for its intended purpose without significant interference with CONTRACTOR's performance of the remainder of the Work, may be accomplished prior to Substantial Completion of all the Work subject to the following conditions.

1. OWNER at any time may request CONTRACTOR in writing to permit OWNER to use any such part of the Work which OWNER believes to be ready for its intended use and substantially complete. If CONTRACTOR agrees that such part of the Work is substantially complete, CONTRACTOR will certify to OWNER and ENGINEER that such part of the Work is substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. CONTRACTOR at any time may notify OWNER and ENGINEER in writing that CONTRACTOR considers any such part of the Work ready for its intended use and substantially complete and request ENGINEER to issue a certificate of Substantial Completion for that part of the Work. Within a reasonable time after either such request, OWNER, CONTRACTOR, and ENGINEER shall make an inspection of that part of the Work to determine its status of completion. If ENGINEER does not consider that part of the Work to be substantially complete, ENGINEER will notify OWNER and CONTRACTOR in writing giving the reasons therefor. If ENGINEER considers that part of the Work to be substantially complete, the provisions of paragraph 14.04 will apply with respect to certification of Substantial Completion of that part of the Work and the division of responsibility in respect thereof and access thereto.

2. No occupancy or separate operation of part of the Work may occur prior to compliance with the requirements of paragraph 5.10 regarding property insurance.

14.06 *Final Inspection*

A. Upon written notice from CONTRACTOR that the entire Work or an agreed portion thereof is complete, ENGINEER will promptly make a final inspection with OWNER and CONTRACTOR and will notify CONTRACTOR in writing of all particulars in which this inspection reveals that the Work is incomplete or defective. CONTRACTOR shall immediately take such measures as are necessary to complete such Work or remedy such deficiencies.

14.07 *Final Payment*

A. *Application for Payment*

1. After CONTRACTOR has, in the opinion of ENGINEER, satisfactorily completed all corrections identified during the final inspection and has delivered, in accordance with the Contract Documents, all maintenance and operating instructions, schedules, guarantees, Bonds, certificates or other evidence of insurance certificates of inspection, marked-up record documents (as provided in paragraph 6.12), and other documents, CONTRACTOR may make application for final payment following the procedure for progress payments.

2. The final Application for Payment shall be accompanied (except as previously delivered) by: (i) all documentation called for in the Contract Documents, including but not limited to the evidence of insurance required by subparagraph 5.04.B.7; (ii) consent of the surety, if any, to final payment; and (iii) complete and legally effective releases or waivers (satisfactory to OWNER) of all Lien rights arising out of or Liens filed in connection with the Work.

3. In lieu of the releases or waivers of Liens specified in paragraph 14.07.A.2 and as approved by OWNER, CONTRACTOR may furnish receipts or releases in full and an affidavit of CONTRACTOR that: (i) the releases and receipts include all labor, services, material, and equipment for which a Lien could be filed; and (ii) all payrolls, material and equipment bills, and other indebtedness connected with the Work for which OWNER or OWNER's property might in any way be responsible have been paid or otherwise satisfied. If any Subcontractor or Supplier fails to furnish such a release or receipt in full, CONTRACTOR may furnish a Bond or other collateral satisfactory to OWNER to indemnify OWNER against any Lien.

B. *Review of Application and Acceptance*

1. If, on the basis of ENGINEER's observation of the Work during construction and final inspection, and ENGINEER's review of the final Application for Payment and accompanying documentation as required by the Contract Documents, ENGINEER is satisfied that the Work has been completed and CONTRACTOR's other obligations under the Contract Documents have been fulfilled, ENGINEER will, within ten days after receipt of the final Application for Payment, indicate in writing ENGINEER's recommendation of payment and present the Application for Payment to OWNER for payment. At the same time ENGINEER will also give written notice to OWNER and CONTRACTOR that the Work is acceptable subject to the provisions of paragraph 14.09. Otherwise, ENGINEER will return the Application for Payment to CONTRACTOR, indicating in writing the reasons for refusing to recommend final payment, in which case CONTRACTOR shall make the necessary corrections and resubmit the Application for Payment.

C. *Payment Becomes Due*

1. Thirty days after the presentation to OWNER of the Application for Payment and accompanying documentation, the amount recommended by ENGINEER will become due and, when due, will be paid by OWNER to CONTRACTOR.

14.08 *Final Completion Delayed*

A. If, through no fault of CONTRACTOR, final completion of the Work is significantly delayed, and if ENGINEER so confirms, OWNER shall, upon receipt of CONTRACTOR's final Application for Payment and recommendation of ENGINEER, and without terminating the Agreement, make payment of the balance due for that portion of the Work fully completed and accepted. If the remaining balance to be held by OWNER for Work not

fully completed or corrected is less than the retainage stipulated in the Agreement, and if Bonds have been furnished as required in paragraph 5.01, the written consent of the surety to the payment of the balance due for that portion of the Work fully completed and accepted shall be submitted by CONTRACTOR to ENGINEER with the Application for such payment. Such payment shall be made under the terms and conditions governing final payment, except that it shall not constitute a waiver of Claims.

14.09 *Waiver of Claims*

A. The making and acceptance of final payment will constitute:

1. a waiver of all Claims by OWNER against CONTRACTOR, except Claims arising from unsettled Liens, from defective Work appearing after final inspection pursuant to paragraph 14.06, from failure to comply with the Contract Documents or the terms of any special guarantees specified therein, or from CONTRACTOR's continuing obligations under the Contract Documents; and

2. a waiver of all Claims by CONTRACTOR against OWNER other than those previously made in writing which are still unsettled.

ARTICLE 15 - SUSPENSION OF WORK AND TERMINATION

15.01 OWNER May Suspend Work

A. At any time and without cause, OWNER may suspend the Work or any portion thereof for a period of not more than 90 consecutive days by notice in writing to CONTRACTOR and ENGINEER which will fix the date on which Work will be resumed. CONTRACTOR shall resume the Work on the date so fixed. CONTRACTOR shall be allowed an adjustment in the Contract Price or an extension of the Contract Times, or both, directly attributable to any such suspension if CONTRACTOR makes a Claim therefor as provided in paragraph 10.05.

15.02 *OWNER May Terminate for Cause*

A. The occurrence of any one or more of the following events will justify termination for cause:

1. CONTRACTOR's persistent failure to perform the Work in accordance with the Contract Documents (including, but not limited to, failure to supply sufficient skilled workers or suitable materials or equipment or failure to adhere to the progress schedule established under paragraph 2.07 as adjusted from time to time pursuant to paragraph 6.04);

2. CONTRACTOR's disregard of Laws or Regulations of any public body having jurisdiction;

3. CONTRACTOR's disregard of the authority of ENGINEER; or

4. CONTRACTOR's violation in any substantial way of any provisions of the Contract Documents.

B. If one or more of the events identified in paragraph 15.02.A occur, OWNER may, after giving CONTRACTOR (and the surety, if any) seven days written notice, terminate the services of CONTRACTOR, exclude CONTRACTOR from the Site, and take possession of the Work and of all CONTRACTOR's tools, appliances, construction equipment, and machinery at the Site, and use the same to the full extent they could be used by CONTRACTOR (without liability to CONTRACTOR for trespass or conversion), incorporate in the Work all materials and equipment stored at the Site or for which OWNER has paid CONTRACTOR but which are stored elsewhere, and finish the Work as OWNER may deem expedient. In such case, CONTRACTOR shall not be entitled to receive any further payment until the Work is finished. If the unpaid balance of the Contract Price exceeds all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) sustained by OWNER arising out of or relating to completing the Work, such excess will be paid to CONTRACTOR. If such claims, costs, losses, and damages exceed such unpaid balance, CONTRACTOR shall pay the difference to OWNER. Such claims, costs, losses, and damages incurred by OWNER will be reviewed by ENGINEER as to their reasonableness and, when so approved by ENGINEER, incorporated in a Change Order. When exercising any rights or remedies under this paragraph OWNER shall not be required to obtain the lowest price for the Work performed.

C. Where CONTRACTOR's services have been so terminated by OWNER, the termination will not affect any rights or remedies of OWNER against CONTRACTOR then existing or which may thereafter accrue. Any retention or payment of moneys due CONTRACTOR by OWNER will not release CONTRACTOR from liability.

15.03 *OWNER May Terminate For Convenience*

A. Upon seven days written notice to CONTRACTOR and ENGINEER, OWNER may, without cause and without prejudice to any other right or remedy of OWNER, elect to terminate the Contract. In such case, CONTRACTOR shall be paid (without duplication of any items):

1. for completed and acceptable Work executed in accordance with the Contract Documents prior to the effective date of termination, including fair and reasonable sums for overhead and profit on such Work;

2. for expenses sustained prior to the effective date of termination in performing services and furnishing labor, materials, or equipment as required by the Contract Documents in connection with uncompleted Work, plus fair and reasonable sums for overhead and profit on such expenses;

3. for all claims, costs, losses, and damages (including but not limited to all fees and charges of engineers, architects, attorneys, and other professionals and all court or arbitration or other dispute resolution costs) incurred in settlement of terminated contracts with Subcontractors, Suppliers, and others; and

4. for reasonable expenses directly attributable to termination.

B. CONTRACTOR shall not be paid on account of loss of anticipated profits or revenue or other economic loss arising out of or resulting from such termination.

15.04 *CONTRACTOR May Stop Work or Terminate*

A. If, through no act or fault of CONTRACTOR, the Work is suspended for more than 90 consecutive days by OWNER or under an order of court or other public authority, or ENGINEER fails to act on any Application for Payment within 30 days after it is submitted, or OWNER fails for 30 days to pay CONTRACTOR any sum finally determined to be due, then CONTRACTOR may, upon seven days written notice to OWNER and ENGINEER, and provided OWNER or ENGINEER do not remedy such suspension or failure within that time, terminate the Contract and recover from OWNER payment on the same terms as provided in paragraph 15.03. In lieu of terminating the Contract and without prejudice to any other right or remedy, if ENGINEER has failed to act on an Application for Payment within 30 days after it is submitted, or OWNER has failed for 30 days to pay CONTRACTOR any sum finally determined to be due, CONTRACTOR may, seven days after written notice to OWNER and ENGINEER, stop the Work until payment is made of all such amounts due CONTRACTOR, including interest thereon. The provisions of this paragraph 15.04 are not intended to preclude CONTRACTOR from making a Claim under paragraph 10.05 for an adjustment in Contract Price or Contract Times or otherwise for expenses or damage directly attributable to CONTRACTOR's stopping the Work as permitted by this paragraph.

ARTICLE 16 - DISPUTE RESOLUTION*

16.01 *Methods and Procedures*

A. Dispute resolution methods and procedures, if any, shall be as set forth in the Supplementary Conditions. If no method and procedure has been set forth, and subject to the provisions of paragraphs 9.09 and 10.05, OWNER and CONTRACTOR may exercise such rights or remedies as either may otherwise have under the Contract Documents or by Laws or Regulations in respect of any dispute.

ARTICLE 17 - MISCELLANEOUS*

17.01 *Giving Notice*

A. Whenever any provision of the Contract Documents requires the giving of written notice, it will be deemed to have been validly given if delivered in person to the individual or to a member of the firm or to an officer of the corporation for whom it is intended, or if delivered at or sent by registered or certified mail, postage prepaid, to the last business address known to the giver of the notice.

17.02 *Computation of Times*

A. When any period of time is referred to in the Contract Documents by days, it will be computed to

exclude the first and include the last day of such period. If the last day of any such period falls on a Saturday or Sunday or on a day made a legal holiday by the law of the applicable jurisdiction, such day will be omitted from the computation.

17.03 *Cumulative Remedies*

A. The duties and obligations imposed by these General Conditions and the rights and remedies available hereunder to the parties hereto are in addition to, and are not to be construed in any way as a limitation of, any rights and remedies available to any or all of them which are otherwise imposed or available by Laws or Regulations, by special warranty or guarantee, or by other provisions of the Contract Documents, and the provisions of this paragraph will be as effective as if repeated specifically in the Contract Documents in connection with each particular duty, obligation, right, and remedy to which they apply.

17.04 *Survival of Obligations*

A. All representations, indemnifications, warranties, and guarantees made in, required by, or given in accordance with the Contract Documents, as well as all continuing obligations indicated in the Contract Documents, will survive final payment, completion, and acceptance of the Work or termination or completion of the Agreement.

17.05 *Controlling Law*

A. This Contract is to be governed by the law of the state in which the Project is located.

# SUPPLEMENTAL GENERAL CONDITIONS

These Supplementary Conditions amend or supplement the Standard General Conditions of the Construction Contract (No. 1910-8, 1996 Edition) and other provisions of the Contract Documents as indicated below. All provisions, which are not so amended or supplemental, remain in full force and effect.

The terms used in these Supplementary Conditions will have the meanings indicated in the General Conditions. Additional terms used in these Supplementary Conditions have the meanings indicated below, which are applicable to both the singular and plural thereof.

**SC-6.10** Delete paragraph 6.10 in its entirely and insert the following in its place:

*The owner qualifies for the state and local tax exemption in the purchase of certain materials and equipment the Contractor shall utilize the form provided herewith in exhibit "D".*

**SC-11.01** Delete paragraph 11.01 in its entirety.

**SC-11.02** Delete paragraph 11.02 in its entirety.

**SC-12.01B.25 & B.3.** Delete paragraph 12.01B.2 & B.3 in its entirety.

**SC-12.01.C.2** Delete paragraph 12.01.C.2 in its entirety.

**SC-14.02.C.1** Replace "ten days" with "thirty days" to read as follows:

*Thirty days after presentation of the application for payment to OWNER with ENGINEERS recommendation, the amount recommended will (subject to provisions of paragraph 14.02.D) become due, and when due will be paid by the OWNER to CONTRACTOR.*

**SC Article 16** Add the following language at the end of the paragraph of Article 16:

*There are no dispute resolution methods and procedures set forth in the Supplemental Conditions:*

## GENERAL PREVAILING WAGE LEGAL REQUIREMENTS

The Contractor's attention is called to Texas Government Code Chapter 2258, which must be complied with attached herewith as Exhibit "C"

# General Notes

**GENERAL NOTES:**

1. ALL WORK SHALL BE COMPLETED TO THE SATISFACTION OF THE HIDALGO COUNTY PRECINCT No. 2.

2. THE CONTRACTOR SHALL BE RESPONSIBLE TO CONTACT RICHARD GARCIA WITH NORTH ALAMO WATER SUPPLY CORP. 48 HOURS PRIOR TO COMMENCEMENT OF WORK @ (956) 383-1618 TO COORDINATE AND MEET ANY ADDITIONAL REQUIREMENTS AND/OR SPECIFICATIONS.

3. THE CONTRACTOR SHALL BE RESPONSIBLE TO CALL DIG TESS 48 HOURS PRIOR TO COMMENCEMENT OF WORK FOR UTILITY SPOTTING @ (1-800-DIG-TESS).

4. THE CONTRACTOR TO NOTIFY ALL UTILITY COMPANIES FOR VERIFICATION OF LOCATION OF EXISTING FACILITIES PRIOR TO BEGINNING ANY EXCAVATION.

5. LOCATIONS OF UNDERGROUND FACILITIES ARE FROM BEST INFORMATION AVAILABLE. NEITHER THE OWNER OR ENGINEER, WARRANT THE ACCURACY OF THE INFORMATION PROVIDED. ANY DEVIATIONS SHALL BE CALLED TO THE ENGINEER'S ATTENTION IMMEDIATELY.

6. THE CONTRACTOR IS RESPONSIBLE FOR COORDINATING WITH THE CORRESPONDING UTILITY CORPORATION IN REGARDS TO THE RELOCATION OF ANY CONFLICTING UTILITIES.

7. THE CONTRACTOR SHALL REMOVE ALL FENCES LOCATED WITHIN THE EASEMENTS, INTERFERING WITH CONSTRUCTION OPERATION AND PROVIDE TEMPORARY FENCING DURING CONSTRUCTION. REMOVED FENCES SHALL BE REPLACED WITH A NEW FENCE OR UNDAMAGED ORIGINAL FENCING. REMOVAL AND REPLACEMENT OF EXISTING AND TEMPORARY FENCES SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

8. ANY DAMAGES TO FENCES, WALKS, OR PRIVATE PROPERTY SHALL BE REPAIRED BY THE CONTRACTOR AT HIS EXPENSE.

9. THE CONTRACTOR SHALL AT ALL TIME PROVIDE ACCESS TO EXISTING RESIDENCES.

10. THE CONTRACTOR IS TO MAINTAIN ALL EQUIPMENT AND TRANSPORTATION OF SAID EQUIPMENT WITHIN THE EXISTING RIGHT-OF-WAYS OF THE CITY, COUNTY OR STATE.

11. NO OPEN EXCAVATION SHALL BE LEFT OPEN OVERNIGHT. ALL EXCAVATIONS WHICH CANNOT BE BACKFILLED OVERNIGHT SHALL BE COVERED, AS A MINIMUM, WITH STEEL PLATING WHEN IN PAVED AND UNPAVED

AREAS SUBJECT TO VEHICULAR LOADING; ¾ PLYWOOD, WOOD PLANKING WITH O.S.H.A. ORANGE PLASTIC EXPANDED MESH BARRIER AROUND PERIMETER IN UNPAVED AREAS NOT SUBJECT TO VEHICULAR LOADING, OR AS APPROVED BY THE ENGINEER.

12. THE PREPARATION OF THESE PLANS REFLECTS INFORMATION, PROVIDED BY OTHERS, ON THE APPROXIMATE LOCATION AND EXISTENCE OF EXISTING UTILITY AND ADJACENT PHYSICAL FEATURES. HOWEVER, THEY DO NOT IMPLY OR AFFIRM THAT ALL UTILITIES OR PHYSICAL FEATURES ARE SHOWN. GENERALLY, UTILITY SERVICE CONNECTIONS ARE NOT INDICATED ON THESE PLANS. CONTRACTOR IS RESPONSIBLE FOR NOTIFICATIONS OF THE OWNER IMMEDIATELY UPON ENCOUNTERING UNFORESEEN CONFLICTS.

13. THE APPROXIMATE LOCATIONS OF KNOWN EXISTING UTILITIES ARE SHOWN, CONTRACTOR SHALL DETERMINE THE EXACT HORIZONTAL AND VERTICAL LOCATIONS IN THE FIELD PRIOR TO COMMENCING WORK. CONTRACTOR TO BE FULLY RESPONSIBLE FOR DAMAGES WHICH MIGHT OCCUR BY HIS FAILURE TO EXACTLY LOCATE AND PRESERVE EXISTING UTILITIES.

14. PUBLIC AND PRIVATE UTILITY LINES AND CUSTOMER SERVICE LINES MAY EXIST THAT ARE NOT SHOWN ON THE CONSTRUCTION DRAWINGS. IT SHALL BE THE CONTRACTOR'S RESPONSIBILITY TO LOCATE, MAINTAIN AND PROTECT THE INTEGRITY OF THESE LINES. HAND EXCAVATION MAY BE REQUIRED. THE CONTRACTOR SHALL RESTORE RELOCATED OR DIVERTED UTILITY TO ITS ORIGINAL CONDITION AND LOCATION WHEN APPLICABLE UPON COMPLETION OF CONSTRUCTION. SAID RESTORATION SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

15. WHERE NEW WATER LINES AND SEWER LINES ARE INSTALLED WITH A SEPARATION DISTANCE CLOSER THAN NINE FEET (I.E., WATER LINES CROSSING WASTEWATER LINES, WATER LINES PARALLELING WASTEWATER LINES, OR WATER LINES NEXT TO MANHOLES) THE INSTALLATION MUST MEET THE REQUIREMENTS OF 30 TAC 317 (DESIGN OF SEWAGE SYSTEMS) OR 30 TAC 290 (WATER HYGIENE).

16. THE CONTRACTOR IS RESPONSIBLE FOR MAINTAINING WATER AND SEWER CONNECTIONS TO ALL HOMES AND BUSINESSES IN WORKING ORDER AT ALL TIMES, EXCEPT FOR BRIEF INTERRUPTIONS IN SERVICE FOR CONNECTIONS TO BE REINSTALLED. IN NO CASE SHALL SERVICES BE ALLOWED TO REMAIN OUT OF SERVICE OVERNIGHT. CONTRACTOR IS RESPONSIBLE FOR DAMAGES TO SAID SERVICES.

17. THE CONTRACTOR SHALL BE RESPONSIBLE TO REPAIR ANY SURFACE IRREGULARITIES, AS DIRECTED BY THE ENGINEER, CAUSED BY THE CONTRACTOR'S WORKING OPERATIONS.

18. THE CONTRACTOR SHALL BE RESPONSIBLE FOR MAINTAINING ADEQUATE DRAINAGE OF PROPOSED FACILITIES AT ALL TIMES DURING CONSTRUCTION.

19. THE CONTRACTOR SHALL CLEANUP AND RESTORE THE AREA OF OPERATIONS TO A CONDITION AS GOOD AS OR BETTER THAN THAT WHICH EXISTED PRIOR TO INSTALLATION OF ALL ITEMS TO BE CONSTRUCTED.

20. THE CONTRACTOR SHALL BE RESPONSIBLE FOR GRADING AREA BETWEEN THE BACK OF CURB/EDGE OF PAVEMENT, ROAD SIDE DITCH AND RIGHT-OF-WAY TO HAVE POSITIVE FLOW TO THE PROPOSED DRAINAGE SYSTEM.

21. THE CONTRACTOR SHALL PROVIDE POSITIVE DRAINAGE AT ALL TIMES DURING THE INSTALLATION OF THE STRUCTURES, DRAINAGE, UTILITY, IRRIGATION AND ROAD IMPROVEMENTS. DEWATERING OF THE TRENCH MAY BE REQUIRED DURING THE INSTALLATION OF THE DRAINAGE, UTILITY AND IRRIGATION FACILITIES/STRUCTURES. SAID DEWATERING SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

22. THE CONTRACTOR IS RESPONSIBLE FOR THE PREPARATION AND SUBMITTAL OF THE TRENCH EXCAVATION PROTECTION PLAN. CONTRACTOR SHALL SUBMIT CONSTRUCTION DETAILS AND DESIGN CALCULATIONS BEARING THE SEAL OF A PROFESSIONAL ENGINEER LICENSED TO PRACTICE IN THE STATE OF TEXAS BEFORE CONSTRUCTING THE SHORING AND/OR UTILIZING A TRENCH PROTECTION SYSTEM (BOX). THE ENGINEER RESERVES THE RIGHT TO REJECT DESIGNS NOT MEETING THE REQUIREMENTS OF SECTION ITEM 402 AND 403.

23. THE CONTRACTOR SHALL PROVIDE STORM WATER POLLUTION PREVENTION PLAN (SWP3) PRIOR TO COMMENCEMENT OF CONSTRUCTION AS REQUIRED BY HIDALGO COUNTY AND OR TCEQ.

24. ALL DEBRIS, VEGETATION AND SURPLUS MATERIAL, EXCEPT ROADWAY SECTION, RESULTING FROM DEMOLITION AND/OR CLEARING OF THE RIGHT-OF-WAY AND PROJECT LOCATION, IN PREPARATION OF PROPOSED IMPROVEMENTS, SHALL BECOME PROPERTY OF THE CONTRACTOR AND SHALL BE PROPERLY DISPOSED OF AT A SITE ACCEPTABLE TO HIDALGO COUNTY PRECINCT No 2. THE CONTRACTOR SHALL PROVIDE A LETTER STATING SO. THIS SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM UNLESS STATED SO. NO EXCESS EXCAVATED MATERIAL SHALL BE DEPOSITED IN LOW AREAS OR ALONG NATURAL DRAINAGE WAYS WITHOUT WRITTEN PERMISSION FROM THE AFFECTED PROPERTY OWNER AND THE HIDALGO COUNTY PRECINCT No 2. IF THE CONTRACTOR PLACES EXCESS MATERIAL IN THE AREAS WITHOUT WRITTEN PERMISSION, HE WILL BE RESPONSIBLE FOR ALL DAMAGE RESULTING FROM SUCH FILL AND CONTRACTOR SHALL REMOVE THE MATERIAL AT OWN COST.

25. ALL ROAD SHALL BE REPLACED WITH 8" COMPACTED CALICHE AND 2" HMAC.

26. COUNTY WILL PROVIDE CALICHE MATERIAL AND CONTROL POINTS (BENCHMARK AND PROPERTY CORNERS) FOR THE WORK TO BE PERFORMED BY THE CONTRACTOR. CONTRACTOR SHALL BE RESPONSIBLE FOR CONSTRUCTION STAKING, INCLUDING BUT NOT LIMITED TO HORIZONTAL & VERTICAL GRADE CUTS FOR CURB & GUTTER AND ROADWAY. BASE AND SUB GRADE SHALL HAVE A MINIMUM CROSS SLOPE OF 3.0%.

27. EXISTING ROAD SECTION TO BE EXCAVATED AND STOCKPILED. THE PRODUCT OF THE CRUSHED ASPHALT PAVEMENT (MAX 2" PIECES IN SIZE) AND SALVAGE CALICHE SHALL BE TREATED WITH TWO (2) PERCENT LIME BY DRY WEIGHT OF SALVAGE MATERIAL. TREATED SALVAGE MATERIAL SHALL BE USED IN THE BOTTOM HALF OF THE PROPOSED ROAD. 8 IN. BASE SHALL HAVE A MINIMUM OF 4 IN. NEW CLAICHE AT THE TOP; THE REMAINING BOTTOM HALF SHALL BE ENTIRELY TREATED SALVAGE MATERIAL OR A COMBINATION OF TREATED SALVAGE MATERIAL AND NEW CALICHE. THE BASE SECTION SHALL BE COMPACTED TO 98% STANDARD PROCTOR DENSITY. IF APPLICABLE, THE EXCESS SALVAGE MATERIAL CAN BE TREATED AND USED AS SUB-GRADE TO ATTAIN THE PROPOSED CROSS SECTION OF THE ROAD. SUB-GRADE SHALL BE COMPACTED TO 95% STANDARD PROCTOR DENSITY. THE LIME TREATMENT OF THE EXISTING ROAD SECTION AND ADDITIONAL SUB-GRADE FILL, THE ADDITIONAL SUB-GRADE FILL MATERIAL (TO ATTAIN PROPOSED SUB-GRADE WIDTH) AND THE GRADING OF THE CROSS-SLOPE OF THE ROAD SECTION STARTING WITH THE SUB-GRADE SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM AND SHALL BE REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

28. NEW CALICHE MATERIAL SHALL BE TREATED WITH 0.5% LIME BY DRY WEIGHT OF MATERIAL IF THE PLASTICITY INDEX OF SAID MATERIAL IS GREATER THAN 12. THE GRADATION SHALL BE ARGILLACEOUS LIMESTONE, CALCAREOUS OR CALCAREOUS CLAY PARTICLES, WITH OR WITHOUT STONE CONGLOMERATE GRAVEL, SAND OR GRANULAR MATERIAL:

TYPE D GRADE 6

| SIEVE No. | PERCENT RETAINED |
|---|---|
| 2 | 0 |
| ½ | 20-60 |
| 4 | 40-75 |
| 40 | 75-85 |

29. THE CONTRACTOR SHALL BE RESPONSIBLE FOR THE REPLACEMENT/RELOCATION OF ALL REGULATORY SIGNS REMOVED DUE TO

CONSTRUCTION OPERATIONS WITH THE SAME SIGN ON FIXED SUPPORT(S) IMMEDIATELY UPON ITS REMOVAL. APPROVAL BY THE ENGINEER IS NECESSARY BEFORE REMOVING ANY REGULATORY ROADWAY SIGN(S). FLAGGERS ARE REQUIRED TO BE AVAILABLE TO DIRECT TRAFFIC DURING SIGN INTERMEDIATE DOWN TIME. RELOCATION OF ANY DIRECTIONAL SIGN ASSEMBLIES REMOVED DURING CONSTRUCTION OPERATIONS, IMMEDIATELY UPON THEIR REMOVAL, IS REQUIRED. ALL SIGNING, BARRICADING AND TRAFFIC CONTROL SHALL CONFORM TO THE LATEST VERSION OF THE "TEXAS MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES". IN NO CASE WILL A SIGN BE REMOVED WITHOUT A REPLACEMENT SIGN AND SUPPORT(S) BEING READILY AVAILABLE AND A LOCATION ESTABLISHED. REMOVAL AND RELOCATION OF THESE SIGNS WILL NOT BE PAID FOR DIRECTLY, BUT SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED ON THE PROPOSED.

30. AS DIRECTED BY THE ENGINEER, THE CONTRACTOR SHALL INSTALL APPROPRIATE TRAFFIC CONTROL DEVICES IN CONFORMANCE WITH THE TXMUTCD LATEST EDITION, AND AS PROVIDED BY THE ENGINEER.

31. THE CONTRACTOR SHALL RELOCATE OR RECONSTRUCT ALL MAIL BOXES TO BE 1' BEHIND BACK OF CURB. MAIL BOXES SHALL BE REPLACED TO THE SAME EXISTING CONDITIONS OR BETTER. SAID RELOCATION OF MAIL BOXES SHALL BE CONSIDERED SUBSIDIARY TO THE PROJECT COST AND REFLECTED IN THE UNIT BID PRICES FOR VARIOUS ITEMS LISTED IN THE PROPOSAL.

32. THE CONTRACTOR SHALL BE RESPONSIBLE FOR ADJUSTING ALL EXISTING WATER VALVES AND MANHOLES TO MATCH PROPOSED FINISH GRADE OF ROADWAY. CONCRETE COLLARS SHALL BE INSTALLED TO MATCH TOPS WITH PAVEMENT GRADE. THIS WORK SHALL BE INCIDENTAL AND NOT A SEPARATE PAY ITEM UNLESS STATED OTHERWISE.

33. DURING EXCAVATION OPERATIONS FOR DRAINAGE AND/OR UTILITIES, THE CONTRACTOR SHALL NOT PILE EXCAVATED MATERIAL OR EXCAVATE WITHIN THE DRIP LINE OF TREES THAT ARE TO BE PRESERVED.

34. THE CONTRACTOR SHALL BE RESPONSIBLE FOR IMPROVING ALL EXISTING DRIVEWAYS AS PER PROPOSED CONDITIONS STATED IN DRIVEWAY TABLE WORKSHEET.

35. IF ALTERNATE BID #2 IS AWARDED, HAULING AND LIME TREATMENT (IF NECESSARY) OF SAID MATERIAL SHALL BE CONSIDERED SUBSIDIARY TO THIS PAY ITEM.

W.I. ..... Wrought Iron

**1.02** All abbreviations and symbols used on plans for structural steel construction shall conform to those given in the Steel Construction Manual of the American Institute of Steel Construction.

## PART 2 - DEFINITIONS

**2.01** Agreement-- The written agreement which constitutes a contract between OWNER and CONTRACTOR covering the Work to be performed; other Contract Documents are attached to the Agreement.

**2.02** Application for Payment-- The form furnished by ENGINEER which is to be used by CONTRACTOR in requesting progress payments and which is to include the schedule of values required by paragraph 14.1 and an affidavit of CONTRACTOR that progress payments theretofore received on account of the Work have been applied by CONTRACTOR to discharge in full all of CONTRACTOR'S obligations reflected in prior Applications for Payment.

**2.03** Bid-- The offer or proposal of the Bidder submitted on the prescribed form setting forth the prices for the Work to be performed.

**2.04** Bidder-- Any person, firm, or corporation submitting a Bid for the Work.

**2.05** Bonds-- bid, performance, and payment bonds and other instruments of security, furnished by CONTRACTOR and his surety in accordance with the Contract Documents.

**2.06** Change Order-- A written order to CONTRACTOR signed by COUNTY authorizing an addition, deletion, or revision in the Work or an adjustment in the Contract Price or the Contract Time issued after execution of the Agreement.

**2.07** CITY -- A public body or authority or the contracting agency for whom the work is to be performed.

**2.08** Contract Documents-- The Agreement, Addenda (whether issued prior to the opening of Bids of the execution of the Agreement), Instructions to Bidders, CONTRACTOR's Bid, the Bonds, the Certificate of Insurance, the Notice of Award, Notice to Proceed, these COUNTY of McAllen Standard Specifications, Plans and Drawings, and all Modifications.

**2.09** Contract Price-- The total monies payable to CONTRACTOR under the Contract Documents.

**2.10** Contract Time-- The number of days stated in the Agreement for the completion of the Work, computed of the Work, computed as provided in paragraph 17.2.

**2.11** Contracting Agency-- (See COUNTY)

**2.12** CONTRACTOR-- The person, firm, or corporation with whom OWNER has executed the Agreement.

**2.13** Day-- A calendar day of twenty-four hours measured from midnight to the next midnight.

**2.14** Drawings or Plans-- The drawings which show the character and scope of the Work to be performed and which have been prepared or approved by ENGINEER and are referred to in the Contract Documents.

**2.15** ENGINEER-- The OWNER'S employee or agent responsible for the engineering design and construction inspection and supervision, acting directly or through duly authorized representatives.

**2.16** Field Order-- A written order issued by ENGINEER which clarifies or interprets the Contract Documents in accordance with paragraph 9.3 or order minor changes in the Work in accordance with paragraph 10.2.

**2.17** General Conditions -- Conditions which apply to all projects and which can be modified by Special conditions.

**2.18** General Provisions-- A term having the same meaning as the term General Conditions.

**2.19** Modification-- (a) A written amendment to the Contract Documents signed by both parties, (b) a Change Order, (c) a written clarification or interpretation issued by ENGINEER in accordance with paragraph 9.3, or (d) a written order for a minor change or alteration in the Work issued by ENGINEER pursuant to paragraph 10.2. A Modification may only be issued after execution of the Agreement.

**2.20** Notice of Award-- The written notice by OWNER to the apparent successful Bidder stating that, upon compliance with the conditions precedent to be fulfilled by him within the time specified, OWNER will execute and deliver the Agreement to him.

**2.21** Notice to Proceed-- A written notice given by COUNTY to CONTRACTOR (with a copy to ENGINEER) fixing the date on which the Contract Time will commence to run and on which CONTRACTOR shall start to perform his obligations under the Contract Documents.

**2.22** Project-- The entire construction to be performed as provided in the Contract Documents.

**2.23** Reference Specifications, Test Methods, and Applicable Codes-- All standard specifications and test methods of any society, association, or organization herein referred to are hereby made a part of these Contract Documents the same as if written in full. (Any reference to a paragraph or subparagraph within a section shall include all general provisions of the section to which reference is made.) Reference to such standards refer to the latest publiqhed issues as of the date of publication issues as of the date of Invitation to Bid. Reference to local or state codes and laws shall mean the latest adopted and published codes as of the date of the Invitation to Bid.

**2.24** Resident Project Representative-- The authorized representative of ENGINEER who is assigned to the Project site or any part thereof.

**2.25** Service Connections-- Service Connections shall be construed to mean all or any portion of the pipe, conduit, cable, or duct which connects a utility main or distribution line to a building, home, residence, or property.

**2.26** Shop Drawings-- All drawings, diagrams, illustrations, brochures, schedules, and other data which are prepared by CONTRACTOR, a Subcontractor, manufacturer, supplier, or distributor and which illustrate the equipment, material, or some portion of the Work.

**2.27** Special Conditions-- Conditions which are written for a specific project and which modify any section or paragraph of the General Conditions.

**2.28** Specifications, also Technical Specifications-- Those portions of the Contract Documents consisting of written technical descriptions of materials, equipment, construction systems, standards, and workmanship as applied to the Work. When Section Items 400, 402, 403, 420, 421, 440, 462, 464 make reference to the following Item numbers 132, 360, 404, 420, 424, 426, 427, 431, 437, 438, 441, 446, 448, 50, 522, 524, 526, 575, the CONTRACTOR shall use Texas Department of Transportation (TxDOT) Standard Specifications for Construction of Highways, Streets and Bridges Latest Edition for Specifications of the aforementioned Item Numbers.

**2.29** Subcontractor-- An individual, firm or corporation having a direct contract with CONTRACTOR or with any other Subcontractor for the performance of a part of the Work at the site.

**2.30** Substantial Completion-- The date as certified by ENGINEER when the construction of the Project or a specified part thereof is sufficiently completed, in accordance with the Contract Documents, so that the Project or specified part can be utilized for the purposes for which it was intended; or if there be no such certification, the date when final payment is due in accordance with paragraph 14.13.

**2.31** Supplementary Specifications-- which are written to modify any section or paragraph of the Technical Specifications of this document.

**2.32** Utility--Overhead or underground wires, pipe lines, conduits, ducts, or structures, operated and maintained in or across a public right-of-way or easement or private easement.

A. Public Utility--Owned and operated by a municipality or another political subdivision of the State.

B. Private Utility--Owned and operated by a private company or corporation.

**2.33** Work-- Any and all obligations, duties, and responsibilities necessary to the successful completion of the Project assigned to or undertaken by CONTRACTOR under the Contract Documents, including all labor, materials, equipment, and other incidentals, and the furnishing thereof.

*** * * END OF SECTION * * ***

**SECTION 00102**

# PRELIMINARY MATTERS

## PART 1 - EXECUTION OF AGREEMENT:

**1.01** At least four (4) counterparts of the Agreement and such other Contract Documents as practicable will be executed and delivered by CONTRACTOR to COUNTY within fifteen days of the Notice of Award; and COUNTY will execute and deliver one counterpart to CONTRACTOR within ten days of receipt of the executed Agreement from CONTRACTOR. COUNTY will identify those portions of the Contract Documents not so signed and such identification will be bidding on all parties. COUNTY, CONTRACTOR, and Project ENGINEER shall receive and executed counterpart of the Contract Documents and additional conformed copies as required.

## PART 2 - DELIVERY OF BONDS

**2.01** When he delivers the executed Agreements to COUNTY, CONTRACTOR shall also deliver to OWNER such Bonds as he may be required to furnish in accordance with the contract documents.

## PART 3 - CONTRACT DOCUMENTS

**3.01** COUNTY shall furnish to CONTRACTOR up to three (3) copies, unless otherwise provided in the Special Conditions, of the Contract Documents as are reasonably necessary for the execution of the work. Additional copies will be furnished upon request at the cost of reproduction.

## PART 4 - CONTRACTOR'S ACKNOWLEDGMENT

**4.01** CONTRACTOR represents that he has familiarized himself with and assumes full responsibility for having familiarized himself with the nature and extent of the CONTRACT DOCUMENTS, Work, locality, and will all local conditions and federal, state, and local laws, ordinances, rules, and regulations that may in any manner affect performance of the Work and represents that he has correlated his study and observations with the requirement of the Contract Documents.

**4.02** CONTRACTOR also represents that he has studied all surveys and investigation reports of subsurface and latent physical conditions referred to in the Specifications and made such additional surveys and investigations as he deems necessary for the performance of the Work at the Contract Price in accordance with the requirements of the Contract Documents and that he has correlated the results of all such data with the requirements of the Contract Documents.

## PART 5 - COMMENCEMENT OF CONTRACT TIME; NOTICE TO PROCEED

**5.01** The Contract Time will commence to run on the thirteenth day after the day on which the executed Agreement is delivered by COUNTY to CONTRACTOR or, if a Notice to Proceed is given, on the day indicated in the Notice to Proceed; but in no event shall the Contract Time commence to run later that the nineteenth day after the day on which COUNTY delivers the executed Agreement to CONTRACTOR. A Notice to Proceed may be given at any time within thirty days after the day on which COUNTY delivers the executed Agreement to CONTRACTOR.

## PART 6 - PRE-COMMENCEMENT ACTIVITIES

**6.01** Before undertaking each part of the Work, CONTRACTOR shall carefully study and compare the Contract documents and check and verify pertinent figures shows thereon and all applicable field measurements. He shall at once report in writing to ENGINEER any conflict, error or discrepancy which he may discover; however, he shall not be liable to ENGINEER for his failure to discover any conflict, error, or discrepancy in the Drawings of Specifications.

**6.02** Within ten days after delivery of the executed Agreement by COUNTY to CONTRACTOR, CONTRACTOR shall submit to ENGINEER for approval an estimated progress schedule indicating the starting and completion dates of the various stages of the Work and a preliminary schedule of Shop Drawing submissions.

**6.03** Before starting the work at the site, CONTRACTOR shall furnish ENGINEER certificates of insurance as required in the Contract Documents. Within twenty days after delivery of the executed Agreement by COUNTY to CONTRACTOR, but before starting the Work at the site, a conference will be held to review the above schedules, to establish procedures for handling Shop Drawings and other submissions and for processing Applications for Payment, and to establish a working understanding between the parties as to the Project. Present at the conference will be ENGINEER, Project Engineer, Project Inspector, CONTRACTOR and his Superintendent.

## PART 7 - COMMENCEMENT

**7.01** CONTRACTOR shall tart to perform his obligations under the Contract Documents on the date when the Contract Time commences to run. No Work shall be done at the site prior to the date on which the Contract time commences to run.

*** * * END OF SECTION * * ***

**SECTION 00104**

# TESTING LABORATORY SERVICES

## PART 1 - GENERAL

**1.01** The Contractor shall be responsible for providing materials which meet the requirements indicated. For manufactured materials such as reinforcing steel, expansion joint materials, concrete pipe, cement, miscellaneous steel, cast iron materials, etc., the CONTRACTOR will be required to furnish a manufacturer's certificate that the material meets the requirements specified for this project.

**1.02** The COUNTY shall monitor all materials incorporated into the project and their placement by testing at the COUNTY's expense. The COUNTY does not guarantee the accuracy or validity of the data nor does the COUNTY assume any responsibility for the CONTRACTOR'S interpretation of the data. Materials or work which do not meet the specifications shall be removed or modified.

**1.03** All retesting for work rejected on the basis of the initial test results will be at the expense of the CONTRACTOR and the extent of the retesting shall be determined by the ENGINEER. The ENGINEER may require additional testing for failing tests and may require two passing retests acceptance will be made by the COUNTY.

**1.04** The testing laboratory will be designated by the ENGINEER and shall perform all work in a professional manner and conform to the requirement of ASTM E 329.

**1.05** Inspection, sampling and testing requirements, where applicable, are set forth in, but not necessarily limited to, the following Sections:

Section XXX Earthwork - Excavating, Backfilling and Compacting:

| | |
|---|---|
| | Compaction Control and Testing. |
| Section | Sub-grade and Base Construction. |
| Section | Street Surface Courses. |
| Section | Concrete and Structures. |
| Section | Underground Piped Utilities. |
| Section | Incidental Construction. |
| Section | Soil Treatment, Termite Control. |
| Section | Pile Driving, Load Tests. |
| Section | Metal Fastening: Welding and Bolting. |
| Section | Structural Metal Framing. |

## PART 2 - LABORATORY DUTIES AND LIMITS OF AUTHORITY

**2.01** Cooperate with ENGINEER and CONTRACTOR: provide qualified personnel as required promptly on notice.

**2.02** Acquaint ENGINEER'S personnel with testing procedures and with all special conditions encountered at the site.

**2.03** Perform specified inspections sampling and testing of materials and construction methods:

A. Comply with specified standards, ASTM and other recognized authorities.
B. Ascertain compliance with contract requirements.

**2.04** Promptly notify the ENGINEER of irregularities or deficiencies of work which are observed during performance of services.

**2.05** Promptly submit 3 copies of reports of observations and tests to the ENGINEER including but not limited to:

**2.06** Perform additional services ordered by the ENGINEER.

**2.07** Laboratory is not authorized to:
A. Release, revoke, alter or enlarge on contract requirements.
B. Approve or accept any portion of work.
C. Perform any duties of the CONTRACTOR.

## PART 3 - CONTRACTOR'S RESPONSIBILITIES

**3.01** Furnish product mix design together with the applicable design work sheets and data to meet or exceed contract requirements.

**3.02** Cooperate with COUNTY's laboratory personnel, provide access to the work or to the manufacturer's operations.

**3.03** Provide to laboratory preliminary representative samples of materials to be tested in specified quantities.

**3.04** Furnish copies of mill test reports.

**3.05** Furnish verification of compliance with contract requirements for materials and equipment.

**3.06** Furnish casual labor and facilities:
A. To provide access to work to be tested.
B. To obtain and handle samples at site.
C. To facilitate inspections and tests.
D. For laboratory's exclusive use for storage and curing of test samples.

**3.07** Notify ENGINEER 24 hours in advance of operations to allow for the assignment of personnel.

**3.08** Notify laboratory 24 hours in advance of operations to allow for the assignment of personnel.

**3.09** Correct work which is defective or which fails to conform to the Contract Documents. Corrective work shall not delay the project or the work of other CONTRACTORS.

**3.10** Pay all costs of retesting when test results indicate non-compliance with contract requirements.

**3.11** Patch all surfaces and areas disturbed by testing operation.

*** * * END OF SECTION * * ***

**SECTION 00105**

# AVAILABILITY OF LAND, PHYSICAL CONDITIONS AND REFERENCE POINTS

## PART 1 - AVAILABILITY OF LANDS

**1.01** COUNTY shall furnish, as indicated in the Contract Documents and not later than the date when needed by CONTRACTOR, the lands upon which the Work is done, rights-of-way for access thereto, and such other lands which are designated for the use of CONTRACTOR.

**1.02** Easement for permanent structures or permanent changes in existing facilities will be obtained and paid for by COUNTY, unless otherwise specified in the Contract Documents. If CONTRACTOR believes that any delay in COUNTY's furnishing these lands or easements entitles him to an extension of the Contract Time, he may make a claim therefore in the Contract Documents.

**1.03** CONTRACTOR shall provide for all additional lands and access thereto may be required for temporary construction facilities or storage of materials and equipment.

## PART 2 - PHYSICAL CONDITIONS; SURVEYS AND REPORTS

**2.01** The COUNTY will, upon request, furnish to the CONTRACTOR copies of all boundary surveys, subsurface tests, and other pertinent reports and material which are available in ENGINEER'S office.

**2.02** CONTRACTOR shall promptly notify ENGINEER in writing of any subsurface or latent physical conditions at the site differing materially from those indicated in the Contract Documents.

**2.03** ENGINEER will promptly investigate those conditions and perform further surveys or subsurface tests deemed necessary. Promptly thereafter OWNER shall obtain the necessary additional surveys and tests and furnish copies to ENGINEER and CONTRACTOR.

**2.04** If ENGINEER finds that the results of such surveys or tests indicate that there are subsurface or latent physical conditions which differ materially from those intended in the Contract Documents and which could not reasonably have been anticipated by CONTRACTOR, a Change Order shall be issued incorporating the necessary revisions.

## PART 3 - REFERENCE POINTS

**3.01** ENGINEER shall provide engineering surveys for construction to establish reference points which, in his judgment, are necessary to enable CONTRACTOR to proceed with the Work.

**3.02** CONTRACTOR shall be responsible for surveying and laying out the Work (unless otherwise provided in the Special Conditions) and shall protect and preserve the established reference point and shall make no changes or relocations without the prior written approval of ENGINEER. He shall report to ENGINEER whenever any reference point is lost or destroyed or requires relocation because of necessary changes in grades or locations.

**3.03** CONTRACTOR shall replace and accurately relocate all reference points so lost, destroyed or moved.

*** * * END OF SECTION * * ***

**SECTION 00106**

**SUSPENSION OF WORK AND TERMINATION**

## PART 1 - COUNTY SUSPENSION OF WORK

**1.01** ENGINEER may, at any time and without cause, suspend the Work or any portion thereof for a period of not more than ninety days by notice in writing to CONTRACTOR which shall fix the date on which work shall be resumed.

**1.02** CONTRACTOR shall resume the work on the date so fixed.

**1.03** CONTRACTOR will be allowed an extension of the contract time directly attributable to any suspension if he makes a claim therefore as provided in Section 107 and the contract documents.

## PART 2 - COUNTY TERMINATION OF WORK

**2.01** If CONTRACTOR is adjudged bankrupt or insolvent, or if he makes a general assignment for the benefit of his creditors, or if a trustee or receiver is appointed for CONTRACTOR or for any of his property, or if he files a petition to take advantage of any debtor's act or to reorganize under the bankruptcy or similar laws, or if he repeatedly fails to supply sufficient skilled workmen or suitable materials or equipment, or if he repeatedly fails to make prompt payments to Subcontractors or for labor, materials, or equipment, or if he disregards laws, ordinances, rules, regulations, or orders of any public body having jurisdiction, or if he disregards the authority of ENGINEER, or if he otherwise violates any provision of the contract Documents, then ENGINEER may, without prejudice to any other right or remedy and after giving CONTRACTOR and his Surety seven day's written notice, terminate the services of CONTRACTOR and take possession of the project and of all materials, equipment, tools, construction equipment and machinery thereon owned by CONTRACTOR and finish the work by whatever method he may deem expedient.

**2.02** In such case CONTRACTOR shall not be entitled to receive any further payment until the work is finished. If the unpaid balance of the contract price exceeds the direct and indirect costs of completing the Project, including compensation for additional professional service, such excess shall be paid to CONTRACTOR. If such costs exceed such unpaid balance, CONTRACTOR shall pay the difference to COUNTY.

**2.03** Such costs incurred by COUNTY shall be determined by ENGINEER and in corporate in a Change Order.

**2.04** Where CONTRACTOR's services have been so terminated by ENGINEER, said terminations shall not affect any rights of COUNTY against CONTRACTOR then existing or which may thereafter accrue.

**2.05** Any retention or payment of monies by COUNTY due CONTRACTOR will not release CONTRACTOR for liability.

**2.06** Upon seven days written notice to CONTRACTOR, COUNTY may, without cause and without prejudice to any other right or remedy, elect to abandon the project and terminate the agreement. In such case, CONTRACTOR shall be paid for all work executed and any expense sustained plus a reasonable profit.

## PART 3 - CONTRACTOR SUSPENSION OR TERMINATION OF WORK:

**3.01** If, through no act or fault of CONTRACTOR, the work is suspended for a period of more than ninety days by COUNTY or under an order of court or other public authority, or ENGINEER fails to act on any application for payment within thirty days after it is submitted, or COUNTY fails to pay CONTRACTOR any sum approved by ENGINEER or awarded by arbitrators within thirty days written notice to ENGINEER, terminate the agreement and recover from COUNTY payment for all work executed and any expense sustained plus a reasonable profit.

**3.02** In addition and in lieu of terminating the agreement, if ENGINEER has failed to act on an application for payment or COUNTY has failed to make any payment as a foresaid, CONTRACTOR may, upon seven days' notice to ENGINEER, stop the work until he has paid all amounts then due.

*** * * END OF SECTION * * ***

**SECTION 00107**

**WORK BY OTHERS**

## PART 1 - GENERAL

**1.01** COUNTY may perform additional work related to the Project by itself, or it may let other direct contracts therefore which shall contain General Conditions similar to these. CONTRACTOR shall afford the other contractors who are parties to such direct contracts (or COUNTY, if it is performing the additional work itself), reasonable opportunity for the introduction and storage of materials and equipment and the execution of work and shall properly connect and coordinate his work with theirs.

**1.02** If any part of CONTRACTOR'S Work depends for proper execution or results upon the work of any such other contractor (or COUNTY,) CONTRACTOR shall inspect and promptly report to ENGINEER in writing any defects or deficiencies in such work that render it unsuitable for such proper execution and results. His failure so to report shall constitute an acceptance of the work as fit and proper for the relationship of his Work except as to defects and deficiencies which may appear in the other work after the execution of his Work.

**1.03** CONTRACTOR shall do all cutting, fitting, and patching of his Work that may be required to make its several parts come together properly and fit it to receive or be received by such other work. CONTRACTOR shall not endanger any work of others by cutting, excavating, or otherwise altering their work with the written consent of ENGINEER and of the other contractors whose work will be affected.

**1.04** If the performance of additional work by other contractors of COUNTY is not noted in the Contract Documents prior to the execution of the contract, written notice thereof shall be given to CONTRACTOR prior to starting any such additional work. If CONTRACTOR believes that the performance of such additional work by COUNTY or others involves him an additional expense or entitles him to an extension of the Contract Time, he may make a claim therefore.

**1.05** Work by the CONTRACTOR and work by others should be coordinated and expedited by the COUNTY of his representative to prevent time delays and additional cost to the CONTRACTORS. Any extension of time and/or additional costs caused by other contractors or utility service companies may be claimed.

*** * * END OF SECTION * * ***

**SECTION 00108**

**CONTRACTOR'S RESPONSIBILITIES**

## PART 1 - SUPERVISION AND SUPERINTENDENCE

**1.01** CONTRACTOR shall supervise and direct the work efficiently and with is best skill and attention. He shall be solely responsible for the means, methods, techniques, sequences, and procedures of construction; but he shall not be solely responsible for the negligence of others in the design or selection of a specific means, method,technique,sequence, or procedure of construction which is indicated in and required by the contract documents. CONTRACTOR shall be responsible to see that the finished work complies accurately with the contract documents.

**1.02** CONTRACTOR shall keep on the work at all times during its progress a competent resident superintendent, who shall not be replaced without written notice to the ENGINEER (Written Notice Only, Not Consent) except under extraordinary circumstances. The superintendent will be CONTRACTOR's representative at the site and shall have authority to act on behalf of CONTRACTOR. All communications given to the superintendent shall be as binding as if given to CONTRACTOR.

## PART 2 - LABOR, MATERIALS AND EQUIPMENT

**2.01** CONTRACTOR shall provide competent, suitably qualified personnel to survey and lay out the work and perform construction as required by the contract documents. He shall at all times maintain good discipline and order at the site.

**2.02** CONTRACTOR shall furnish all material, equipment, labor, transportation,construction equipment and machinery, tools, appliances, fuel, power, light, heat, telephone, water and sanitary facilities, and all other facilities and incidentals necessary for the execution, testing, initial operation, and completion of the Work.

**2.03** All materials and equipment shall be new, except as otherwise provided in the contract documents. If required by ENGINEER, CONTRACTOR shall furnish satisfactory evidence as to the kind and quality of materials and equipment.

**2.04** All materials and equipment shall be applied, installed, connected, erected, used, cleaned, and conditioned in accordance with the instructions of the applicable manufacturer, fabricator, or processors, except asotherwise provided in the contract documents.

## PART 3 - SUBCONTRACTORS

**3.01** If the specifications, laws, ordinances, or applicable rules or regulations permit CONTRACTOR to furnish or use a substitute that is equal to any material or equipment specified, and if CONTRACTOR wishes to furnish or use a proposed substitute, he shall make written application to ENGINEER for approval of such a substitute certifying in writing that the proposed substitute will perform adequately the functions called for by the general design, be similar and of equal substance to the specified, and be suited to the same use and capable of performing the same function as that specified; stating whether or not its incorporation in or use in connection with the project is subject to the payment of any license fee or royalty; and

identifying all variations of the proposed substitute from that specified and indicating available maintenance service. No substitute shall be ordered or installed without the written approval of ENGINEER, who will be the judge of equality and may require CONTRACTOR to furnish such other data about the proposed substitute as he considers pertinent. No substitute shall be ordered or installed without such performance guarantee and bonds as ENGINEER may require which shall be furnished at CONTRACTOR's expense.

## PART 4 - SUBCONTRACTORS

**4.01** CONTRACTOR shall not employ and subcontractor or other person or organization (including those who are to furnish the principal items of materials or equipment), whether initially or as a substitute, against whom COUNTY or ENGINEER may have reasonable objection. A subcontractor or other person or organization identified in writing to COUNTY and ENGINEER by CONTRACTOR prior to the notice of award and not objected to in writing by COUNTY or ENGINEER prior to the Notice of Award will be deemed acceptable to COUNTY and ENGINEER. Acceptance of any subcontractor, other person, or organization by COUNTY or ENGINEER shall not constitute a waiver of any right of COUNTY or ENGINEER to reject defective work or work not in conformance with the contract documents.

**4.02** If COUNTY or ENGINEER, after due investigation, have reasonable objection to any subcontractor,other person, or organization proposed by CONTRACTOR after the notice of award, CONTRACTOR shall submit an acceptable substitute and the contract price shall be increased or decreased by the difference in cost occasioned by such substitution and on appropriate change order shall be issued. CONTRACTOR shall not be required to employ any subcontractor, other person, or organization against whom he has reasonable objection. CONTRACTOR shall not, without the consent of COUNTY and ENGINEER, make any substitution for any subcontractor, other person, organization who has been accepted by COUNTY and ENGINEER unless ENGINEER determines that there is good cause for doing so.

**4.03** CONTRACTOR shall be fully responsible for all acts and omissions of his subcontractors and of persons and organizations directly or indirectly employed by them and of persons and organizations for whose acts any of them may be liable to the same extent that he is responsible for the contract documents shall create any contractual relationship between COUNTY or ENGINEER and any subcontractor or other person or organization having a direct contract with CONTRACTOR, nor shall it create any obligation on the part of COUNTY or ENGINEER to pay or to see to the payment of any monies due any subcontractor or other person or organization, to the extent practicable, evidence of amounts paid to CONTRACTOR on account of specific work done in accordance with the schedule of values.

**4.04** The sections of the specifications and the identifications of any drawings shall not control CONTRACTOR in dividing the work among subcontractors or delineating the work to be performed by any specific trade.

**4.05** CONTRACTOR agrees to bind specifically every subcontractor to the applicable terms and conditions of the contract documents for the benefit of COUNTY.

## PART 5 - PATENT FEES AND ROYALTIES

**5.01** CONTRACTOR shall pay all license fees and royalties and assume all costs incident to the use in the performance of the work of any invention, design, process, product, or device

which is the subject of patent rights or copyrights held by others. If a particular invention, design, process, product, or device is specified in the contract documents for use in the performance of two work and if, to the actual knowledge of COUNTY or ENGINEER, its use is subject to patent rights or copyrights calling for the payment of any license fee or royalty to others, the existence of such rights shall be disclosed by COUNTY in the contract documents.

**5.02** CONTRACTOR shall indemnify and hold harmless COUNTY and ENGINEER and anyone directly or indirectly employed by either of them from and against all claims, damages, losses, and expenses, including attorneys' fees, arising out of any infringement of patent rights or copyrights incident to the use in the performance of the work or resulting from the incorporation in the work of any invention, design, process, product, or device not specified in the contract documents and shall defend all such claims in connection with any alleged infringement of such rights.

## PART 6 - PERMITS

**6.01** CONTRACTOR shall obtain and pay for all construction permits and licenses and shall pay all governmental charges and inspection fees necessary for the prosecution of the work, which are applicable at the time of his bid. COUNTY shall assist CONTRACTOR, when necessary, in obtaining such permits and licenses. CONTRACT, when necessary, in obtaining such permits and licenses. CONTRACTOR shall also pay all public utility charges.

## PART 7 - LAWS, REGULATIONS AND ORDINANCE

**7.01** Contractor shall give all notices and comply with all laws, ordinances, rules and regulations applicable to the work. If CONTRACTOR observes that the specifications or drawings are at variance-therewith, he shall give ENGINEER prompt written notice thereof, and any necessary changes shall be adjusted by an appropriate modification. If CONTRACTOR performs any work knowing it to be contrary to such law, ordinances, rules, and regulations and without such notice to ENGINEER, he shall bear all costs arising there from; however, it shall not be is primary responsibility to make certain that the specifications and drawings are in accordance with such laws, ordinances, rules and regulations.

## PART 8 - TAXES

**8.01** CONTRACTOR shall pay all sales, consumer, use, and other similar taxes required to be paid by him in accordance with the laws and ordinances.

## PART 9 - USE OF PREMISES

**9.01** CONTRACTOR shall confine his equipment, the storage of materials and equipment, and the operations of his workmen to areas permitted by law, ordinances, permits, or the requirements of the contract documents and shall not unreasonably encumber the premises with materials or equipment.

**9.02** CONTRACTOR shall not load nor permit any part of any structure to be loaded with weights that will endanger the structure, nor shall he subject any part of the work to stresses or pressures that will endanger it.

## PART 10 - RECORD DRAWINGS

**10.01** CONTRACTOR shall keep one record copy of all specifications, drawings, addenda, modifications, and shop drawings at the site in good order and annotated to show all changes made during the construction process. These shall be available to ENGINEER and shall be delivered to him for COUNTY upon completion of the project.

## PART 11 - SAFETY AND PROTECTION

**11.01** CONTRACTOR shall be responsible for initiating maintaining, and supervising all safety precautions and programs in connection with work. He shall take all necessary precautions for the safety of and provide the necessary protection to prevent damage, injury, or loss to:

A. All employees on the work and other persons who may be affected thereby:

B. All the work and materials or equipment to be incorporated there-in whether in storage on or off the site; and

C. Other property at the site or adjacent thereto, including trees, shrubs, lawns, walks, pavements, roadways, structures, and utilities not designated for removal, relocation, or replacement in the course of construction.

**11.02** The CONTRACTOR shall conduct his operations in a manner which will minimize interference with the normal use of property adjacent to the construction work and shall give owners of such property at least 24 hours notice of the commencement of work in the area abutting their property. CONTRACTOR shall comply with all applicable laws, ordinances, rules, regulations, and orders of any public body having jurisdiction for the safety of persons or property or to protect them from damage, injury or loss. He shall erect and maintain, as required by the conditions and progress of the work, all necessary safeguards for its safety and protection. He shall notify owners of adjacent utilities at least 48 hours in advance when prospection of the work may effect them. All damage, injury, or loss to any property referred to above caused, directly or indirectly, in whole or in part, by CONTRACTOR, any subcontractor, or anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, shall be remedied by CONTRACTOR, except damage or loss attributable to the fault of drawings or specifications or to the acts or omissions of ENGINEER or anyone employed by either of them or anyone for whose acts either of them may be liable, and not attributable, directly or indirectly, in whole or in part, to the fault of negligence of CONTRACTOR.

**11.03** CONTRACTOR's duties and responsibilities for the safety and protection of the work shall continue until such time as all the work is completed and ENGINEER has issued a notice to CONTRACTOR that work is acceptable.

**11.04** CONTRACTOR shall designate a responsible member of his organization at the site whose duty shall be the prevention of accidents. This person shall be CONTRACTOR's superintendent, unless otherwise designated in writing by CONTRACTOR to OWNER.

## PART 12 - EMERGENCIES

**12.01** In emergencies affecting the safety of persons or the work or property at the site or adjacent thereto, CONTRACTOR, without special instruction or authorization from ENGINEER,

is obligated to act, at his discretion, to prevent threatened damage, injury, or loss. He shall give ENGINEER prompt written notice of any significant changes in the work or deviations from the contract documents caused thereby; and a change order shall thereupon be issued covering the changes and deviations involved.

**12.02** If CONTRACTOR believes that additional work done by him in any emergency which arose from causes beyond his control entitles him to an increase in the contract price or an extension of the contract time, he may make a claim there for.

## PART 13 - SHOP DRAWINGS AND SAMPLES

**13.01** After checking and verifying all field measurements, CONTRACTOR shall submit to ENGINEER for approval, in accordance with the accepted schedule of shop drawing submissions, five copies (or, to ENGINEER's option, one reproducible copy) of all shop drawings which shall have been checked by and stamped with the approval of CONTRACTOR and identified as ENGINEER may require. The date shown on the shop drawing will be complete with respect to dimensions, design criteria, materials of construction, and the like to enable ENGINEER to review the information as required.

**13.02** CONTRACTOR shall also submit to ENGINEER for approval, with such promptness as to cause no delay in work, all samples required by the contract documents. All samples will have been checked by and stamped with the approval of CONTRACTOR, identified clearly as to material, manufacturer, and pertinent catalog numbers and the use for which intended.

**13.03** At the time of each submission, CONTRACTOR shall in writing call ENGINEER's attention to any deviations that the shop drawings or sample may have from the requirements of the contract documents.

**13.04** ENGINEER will review and approve with reasonable promptness shop drawings and samples, but his review and approval shall be only for conformance with the design concept of the project and for compliance with the information given in the contract documents. The approval of a separate item as such will not indicate approval of the assembly in which the item functions. CONTRACTOR shall make any corrections required by ENGINEER and shall return the required number of corrected copies of shop drawings and resubmit new samples until approved. CONTRACTOR shall direct specific attention in writing or on resubmitted shop drawings to revisions other than the corrections called by the ENGINEER on previous submissions. CONTRACTOR's stamp of approval on any shop drawing or sample shall constitute a representation to ENGINEER that CONTRACTOR has either determined and verified all quantities, dimensions, field construction criteria, materials, catalog numbers, and similar data or he assumes full responsibility for doing so and that he has reviewed or coordinated each shop drawing or sample with the requirements of the work and the contract documents.

**13.05** Where a shop drawing or sample submission is required by the specifications, no related work shall be commenced until the submission has been approved by ENGINEER. A copy of each approved shop drawing and each approved sample shall be kept in a good order by CONTRACTOR at the site and shall be available to ENGINEER.

**13.06** ENGINEER approval of shop drawings or samples shall not relieve CONTRACTOR from his responsibility for any deviations from the requirements of the contract documents unless

CONTRACTOR has in writing called ENGINEER's attention to such deviation at the time of submission and ENGINEER has given written approval to the specific deviation, nor shall any approval by ENGINEER relieve CONTRACTOR from responsibility for errors or omissions in the shop drawings.

## PART 14- CLEANING

**14.01** CONTRACTOR shall keep the premises free from accumulations of waste materials, rubbish, and debris from and about the premises, as well as all tools, construction equipment and machinery, and surplus materials and shall leave the site clean and ready for occupancy by COUNTY. CONTRACTOR shall restore to their original condition those portions of the site not designated for alterations by the contract documents, unless the completion of the work is directly affected by the item in dispute.

## PART 15 - INDEMNIFICATION

**15.01** CONTRACTOR shall indemnify and hold harmless COUNTY and ENGINEER and their agents and employees from and against all claims, damages, losses, and expenses including attorneys' fees arising out of or resulting from the performance of the work by the CONTRACTOR, provided that any such claim, damage, loss, or expense (a) is attributable to bodily injury, sickness, disease, or death or to injury to or destruction of tangible property (other than the work itself) including the loss of use resulting there-from and (b) is caused in whole or in part by any negligent act or omission of CONTRACTOR, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, regardless of whether or not it is caused in part by a party indemnified hereunder.

**15.02** In any and all claims against COUNTY or ENGINEER or any of their agents or employees by copy any employees of CONTRACTOR, any subcontractor, anyone directly or indirectly employed by any of them or anyone for whose acts any of them may be liable, the indemnification obligation under paragraph 15.01 shall not be limited in any way by any limitation on the amount of type of damages, compensation, or benefits payable by or for CONTRACTOR or any subcontractor under workmen's compensation acts, disability benefit acts, or other employee benefit acts.

**15.03** The obligations of CONTRACTOR under paragraph 15.01 shall not extend to the liability of ENGINEER, his agents, or employees arising out of (a) the preparation or approval of maps, drawings, opinions, reports, surveys change orders, designs, or specifications or (b) the giving of or giving or failure to give is the primary cause of injury or damage.

*** * * END OF SECTION * * ***

# SECTION 00113

## SOILS AND SUBSURFACE INVESTIGATION

### PART 1 - GENERAL

**1.01** Depending on the project requirements, the ENGINEER may have obtained geotechnical information, which may include subsurface date, logs of soil borings and recommendations from geotechnical consultants.

**1.02** Any information obtained is solely for use by the ENGINEER in the design of the project and are not part of the contract. If soil borings have been prepared they will be included in the section or on the plans.

**1.03** Any geotechnical information included is for information only. The COUNTY and the ENGINEER do not guarantee the accuracy or validity of the data, nor do they assume any responsibility for the CONTRACTOR'S interpretation or conclusions drawn from the data.

**1.04** The CONTRACTOR may, at his option, perform additional subsurface investigations at his own expense.

*****END OF SECTION*****

**SECTION 02101**

**PREPARATION OF RIGHT-OF-WAY**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. Removal and disposal of all obstructions from the right-of-way and from designated easements, as noted in the plans.

B. Obstructions shall include:

1. Remains of houses not completely removed by others.
2. Concrete, foundations, floorslabs curb and gutter, driveways, and sidewalk.
3. Building materials such as brick, lumber and plaster.
4. Water wells, septic tanks, manholes, inlets , utility pipes and conduits.
5. Underground service station tanks, equipment or other foundations.
6. Fencing and retaining walls.
7. Paved parking areas.
8. Abandoned railroad tracks, ties, and scrap iron.
9. Ancillary structures such as shacks and outhouses.
10. Trees, stumps, bushes, shrubs, roots, limbs and logs.
11. All rubbish and debris whether above or below ground.

## PART 2 - PRODUCTS

### 2.01 MATERIALS

A. Provide materials required to perform work as specified.

## PART 3 - EXECUTION

### 3.01 GENERAL

A. Clear entire project right-of-way and such other areas, including public or corporate lands, specified in the plans of all structures and obstructions.

B. Trim carefully all trees and shrubs designated for preservation and protect from scarring or other injuries during construction operation.

C. Removal of all foundations and underground obstructions, unless otherwise specified, shall be removed to the following depths:

1. In embankment areas, two (2) feet below natural ground.
2. In excavation areas, two (2) feet below the lower elevation of excavation.
3. In all other areas, one (1) foot below natural grade.

D. Backfill all holes, as directed by the ENGINEER, resulting from all removals.

E. Complete the preparation of right-of-way such that prepared right-of-way is free of holes, ditches and other abrupt changes in elevations and irregularities to contours.

F. Plug the remaining ends of all abandoned storm sewers, culverts, sanitary sewers, conduits and utility pipes with concrete, as specified by the ENGINEER, to form a tight closure.

G. On existing concrete where only a portion is to be removed, care shall be exercised to avoid damage to remaining concrete. Where concrete reinforcement is encountered in removed portions, a minimum of one (1) foot of such reinforcement shall be cleaned of old concrete and left in place to tie into new construction. Concrete to be preserved, but subsequently destroyed by the CONTRACTOR'S operations, shall be replaced by the CONTRACTOR'S operations, shall be replaced by the CONTRACTOR at his expense in accordance with County Specifications, or as directed by the ENGINEER.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 PREPARATION OF RIGHT-OF-WAY

A. Preparation of right-of-way shall be measured on a lump-sum basis with measurement for payment made only on areas indicated and classified on the plans as preparation of right-of-way.

B. When not listed as a separate contract pay item, preparation of right-of-way shall be considered as incidental work, and the cost thereof shall be included in such contract pay item(s) as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be for furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*****END OF SECTION*****

**SECTION 02102**

**CLEARING AND GRUBBING**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. Clearing and grubbing on project site of trees, stumps, brush, roots, vegetation, logs, rubbish and other objectionable matter within limits described in specifications or as shown on plans.

B. Clearing and grubbing shall be in advance of grading operation except that in cuts over 3 feet in depth, grubbing may be done simultaneously with excavation, provided objectionable matter is removed as specified.

C. Disposal of all debris resulting from clearing and grubbing work.

### 1.02 PROTECTION OF ADJACENT WORK:

A. Protect all areas outside indicated construction areas.

B. Protect existing improvements, adjacent property, utilities and other facilities, and trees and plants not to be removed from injury or damage.

## PART 2 - PRODUCTS

### 2.01 MATERIALS:

A. Provide materials required to perform work as specified.

## PART 3 - EXECUTION

### 3.01 CLEARING:

A. Clear all areas covered by dikes, roads, structures and embankments within project limits unless otherwise shown in plans.

B. Remove all saplings, brush, down-timber and debris unless shown or directed otherwise.

C. Use tree wound paint to treat scars, gashes or limb stubs on trees not removed.

## 3.02 GRUBBING:

A. Trees, stumps, root systems, rocks and other obstructions shall be removed to the depths shown when they fall within the construction templates for the following items:

| | | |
|---|---|---|
| 1. | Footings | 18" below bottom of footing |
| 2. | Sidewalks (or other types of walks) | 12" below bottom of walk |
| 3. | Roadways or Streets | 18" below bottom of sub-grade |
| 4. | Parking Areas | 18" below bottom of sub-grade |
| 5. | Grassed Areas | 18" below top soil |
| 6. | Fills | 24" below bottom of fill |

B. Blasting not permitted.

## 3.03 REMOVAL OF DEBRIS AND CLEANUP:

A. Burn as permitted by regulating agencies or the ENGINEER as work progresses.

B. Unguarded fires will not be permitted.

C. Permits will be obtained, where required, for necessary burning or disposal sites.

D. Dispose of all waste materials not burned by removal from site.

E. Materials cleared and grubbed shall be the property of the CONTRACTOR and shall be his responsibility for disposal.

# PART 4 - MEASUREMENT AND PAYMENT

## 4.01 CLEARING AND GRUBBING:

A. Clearing and Grubbing shall be measured for payment either in acres or by lump sum only for areas indicated on the plans, or as provided in the proposal and contract.

B. When not listed as a separate contract pay item, Clearing and Grubbing shall be considered as incidental work, and the cost thereof shall be included in such contract pay items as are provided in the proposal contract.

C. Compensation, whether by contract pay items or incidental work will be furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*** * *END OF SECTION * * ***

**SECTION 02210**

# SUBGRADE PREPARATION

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. This work shall consist of scarifying, blading and rolling the sub-grade to obtain a uniform texture and provide as nearly as practical a uniform density for the 6-inches of the sub-grade.

## PART 2 - PRODUCTS

## PART 3 - EXECUTION

### 3.01 CONSTRUCTION METHODS:

A. All preparing of the right-of-way and/or clearing and grubbing shall be complete before starting the sub-grade preparation.

B. The sub-grade shall be scarified and shaped in conformity with the typical sections and the lines and grades indicated or as established by the ENGINEER by the removal of existing material or addition of approved material.

C. All unsuitable material shall be removed and replaced with approved material.

D. All foundations, walls or other objectionable material shall be removed to a minimum depth of 18-inches under all structures and 12-inches under areas to be vegetated. All holes, ruts and depressions shall be filled with approved material.

E. The surface of the sub-grade shall be finished to the lines and grades as established and be in conformity with the typical sections indicated.

F. Any deviation in excess of 1/2 inch cross section and in a length of 10 feet measured longitudinally shall be corrected by loosening, adding or removing material, reshaping and compacting by sprinkling and rolling.

G. Sufficient sub-grade shall be prepared in advance to insure satisfactory prosecution of the work.

H. The CONTRACTOR will be required to set blue tops for the sub-grade on centerline, at quarter points and curb lines or edge of pavement at intervals not exceeding 50 feet.

I. All suitable material removed may be utilized in the sub-grade with the approval of the ENGINEER. All other material required for completion of the sub-grade shall also be subject to approval by the ENGINEER.

J. Sub-grade materials on which structures shall be placed shall be compacted by approved mechanical tamping equipment to a dry density of the total material of not less than 95 percent nor more than 100 percent of the maximum dry density s determined in accordance with SDHPT test method tex-114-E.

K. Sub-grade materials on which planting or turf will be established shall be compacted to a minimum of 85 percent of the maximum dry density as determined in accordance with SDHPT test method tex-114-E.

L. Tests for density will be made as soon as possible after compacting operations are completed. If the material fails to meet the density specified, it shall be reworked as necessary to obtain the density required.

M. Just prior to placing any base materials, density and moisture content of the top 6-inches of compacted sub-grade shall be checked and if tests show the density to be more than 2 percent below the specified minimum or the moisture content to be more than 3 percent above or below the optimum, the sub-grade shall be reworked as necessary to obtain the specified compaction and moisture content.

N. When lime stabilization of the sub-grade is specified, the lime is to be added in accordance with Section 02240, Lime Stabilization.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 MEASUREMENT:

A. All acceptable sub-grade preparation will be measured by the square yard.

B. The measured area includes the entire width of the roadway for the entire length as indicated.

### 4.02 PAYMENT

A. The accepted quantities of sub-grade preparation will be paid for at contract unit bid price per square yard.

B. When not listed as a separate contract pay item, sub-grade preparation shall be considered as incidental work, and the cost thereof shall be included in such contract pay item (s) as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be for furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*** * * END OF SECTION * * ***

**SECTION 02225**

**UNCLASSIFIED STREET EXCAVATION**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. Perform all required excavation within the limits of right-of-way and adjacent thereto (except excavations specifically described and provided for elsewhere in the specifications).

B. Remove, properly use, or dispose of all excavated materials.

C. Shape and finish all earthwork in conformance with lines and grades as shown on the plans or as specified by the ENGINEER.

D. Schedule work to avoid property owner inconvenience as practical during construction.

E. Exercise care in operating applicable equipment beneath or adjacent to trees, sidewalks, poles, and other existing features to prevent damage.

F. Restore obstructions removed to accommodate construction equipment or to facilitate excavation.

### 1.02 CLASSIFICATION:

A. All street excavation shall be unclassified, regardless of material encountered.

B. Any reference to rock or any other material on the plans, or in these specifications, is not to be constructed as classification of the excavation.

## PART 2 - PRODUCTS

### 2.01 SUBGRADE:

A. Use on-site material moved from cut areas to fill areas as approved by ENGINEER.

B. Use borrow materials from areas designated as needed.

### 2.02 DRAINAGE PROVISIONS:

A. Interruptions of natural surface drainage, or flow of artificial drains shall be mitigated by the CONTRACTOR by use of temporary drainage facilities, as approved by the ENGINEER, to prevent damage to public or private interest.

B. Restore original drainage as soon as the work shall permit.

C. The CONTRACTOR shall be held liable for all damages which may result from neglect to provide for either natural or artificial drainage which his work may have interrupted.

## PART 3 - EXECUTION

### 3.01 UNCLASSIFIED STREET EXCAVATION:

A. Perform all excavation, embankment and grading required for pavement and/or curb and/or gutter as shown on plans.

B. Move suitable excavated material to areas requiring fill and place in accordance with these specifications. Determination of suitable material will be made by ENGINEER. Haul unsuitable material to waste sites.

C. Slope cut or fill sections uniformly from curb line to sidewalk or other controlling feature, as designated by ENGINEER. Smooth bank to provide a neat finished appearance.

D. Remove and replace unstable soils encountered during grading operations with suitable material. Notify ENGINEER of suspected unsuitable material before commencing removal. Authorized replacement with select material will be paid for by change order.

E. Replace gravel or rock driveway surfaces disturbed by grading with like material at no additional cost to OWNER.

F. Strip, salvage and stockpile topsoil in sufficient quantity to allow a uniform 6-inch lift over all disturbed areas not otherwise surfaced. Topsoil is included in unclassified excavation.

G. Removed existing culvert pipe where shown as part of incidental to unclassified excavation.

### 3.02 UNSTABLE OR UNSUITABLE SUBGRADE:

A. Excavate unstable subgrade at least 2 feet below grade where directed by ENGINEER.

B. Replace with suitable stable material approved by ENGINEER.

C. Compact to uniform density in 6-inch lifts.

D. Density of compacted subgrade to be equal to or greater than adjacent undisturbed grade.

E. Payment will be as specified for unclassified excavation.

F. Conduct operations in such a manner such that measurements may be taken before any backfill, as required above, is placed.

### 3.03 EXCESS OR UNSUITABLE EXCAVATION:

A. Dispose of excavation in excess of that needed or unsuitable for construction. As directed by the ENGINEER, excess or unsuitable excavation may be used for widening of embankments, or flattening of slopes, or as otherwise specified.

B. Obtain approval of the ENGINEER as to disposition and method for disposal of excess or unsuitable excavation.

### 3.04 GENERAL:

A. Provide all labor, equipment and associated materials to excavate areas specified.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 UNCLASSIFIED STREET EXCAVATION:

A. Unclassified street excavation, as authorized, shall be measured in its original position and the volume determined by the average end area method. All work performed shall be paid for at the contract bid price per cubic yard for unclassified street excavation.

B. When not listed as a separate contract pay item, unclassified street excavation shall be considered as incidental work, and the cost thereof shall be included in such contract pay item s as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be for furnishing all materials, labor, equipment, tools and incidentals required by the work, all in accordance with the plans and these specifications.

*** * * END OF SECTION * * ***

**SECTION 02230**

# EXCAVATION

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK

A. This work shall consist of excavating and properly utilizing or otherwise satisfactorily disposing of all excavated materials, of whatever character, within the limits of work.

B. Excavation shall also consist of constructing, compacting, shaping and finishing of all earthwork in designated areas on the plans, as specified herein, and in conformity with the required lines grades and typical cross sections or as directed by the ENGINEER.

C. When not otherwise included, this item shall include the work described in Section 02101 - Preparation of Right-of Way, Section 02102 - Clearing and Grubbing, Section 02236 - Embankment, Section 02238 - Removal of Concrete, and Section 02210 – Sub-grade Preparation.

Introduction

The Occupational Safety and Health Administration (OSHA) issued its first Excavation and Trenching Standard Standard in 1971 to protect workers from excavation hazards. Since then, OSHA has amended the standard several times to increase worker protection and to reduce the frequency and severity of excavation accidents and injuries. Despite these efforts, excavation-related accidents resulting in injuries and fatalities continue to occur.

To better assist excavation firms and contractors, OSHA has completed updated the existing standard to simplify many of the existing provisions, add and clarify definitions, eliminate duplicate provisions and ambiguous language, and give employers added flexibility in providing protection for employees. The standard is effective as of March 5, 1990.

In addition, the standard provides several new appendices. One appendix provides a consistent method of soil classification. Others provide sloping and benching requirements pictorial examples of shoring and shielding devises, timber tables, hydraulic shoring tables, and selection charts that provide a graphic summary of the requirements contained in the standard.

This booklet highlights the requirements in the updated standard excavation and trenching operations, provides methods for protecting employees against cave-ins, and described safe work practices for employees.

Scope and Application

OSHA's revised rule applies to all open excavations in the earth's surface, which includes

trenches.

According to the OSHA construction safety and health standards, a trench is referred to as a narrow excavation made below the surface of the ground in which the depth is greater than the width-the width not exceeding 15 feet. An excavation is any man-made cut, cavity, trench, or depression in the earth's surface formed by earth removal. This can include excavations for anything from cellars to highways.

General Requirements

Planning for Safety

Many on-the-job accidents are a direct result of inadequate initial planning. Correcting mistakes in shoring and/or sloping after work has begun slows down the operation, adds to the cost, and increases the possibility of an excavation failure. The contractor should build safety into the pre-bid planning in the same way all other pre-bid factors are considered.

It is a good idea for contractors to develop safety checklists before preparing a bid, to make certain there is adequate information about the job site and all needed items are on hand.

These checklists should incorporate elements of the relevant OSHA standards as well as other information necessary for safe operations.

Before preparing a bid, these specific site conditions should be taken into account:
- Traffic,
- Nearness of structures and their conditions,
- Soil,
- Surface and ground water,
- The water table,
- Overhead and underground utilities and
- Weather.

These and other conditions can be determined by job site studies, observations, test borings for soil type or conditions, and consultations with local officials and utility companies.

Before any excavation actually begins, the standard requires the employer to determine the estimated location of utility installations-sewer, telephone, fuel, electric, water lines, or any other underground installations-that may be encountered during digging. Also, before starting the excavation, the contractor must contact the utility companies or owners include and inform them, within established or customary local response times, of the proposed work. The contractor must also ask the utility companies or owners to find the exact location of the underground installations. If they cannot respond within 24 hours (unless the period required by the state or local law is longer), or if they cannot find the exact location of the utility installations, the contractor may proceed with caution. To find the exact location of underground installations, workers must use safe and acceptable means. If underground installations are exposed, OSHA regulations also require that they be removed, protected or properly supported.

When all necessary specific information about the job site is assembled, the contractor is ready

to determine the amount, kind, and cost of safety equipment needed. A careful inventory of the safety items on hand should be made before deciding what additional safety material must be acquired. No matter how may trenching, shoring and backfilling jobs have been done in the past, each job should be approached with the utmost care and preparation.

**Before Beginning the Job**

It is important, before beginning the job, for the contractor to establish and maintain a safety and health program for the work site that provides adequate systematic policies, procedures, and practices to protect employees from, and allow them to recognize, job-related safety and health hazards.

An effective program includes provisions for the systematic identification, evaluation, and prevention or control of general workplace hazards, specific job hazards, and potential hazards that may arise from foreseeable conditions. The program may be written or verbal but it should reflect the unique characteristics of the job site.

To help contractors develop an effective safety and health program, in 1989 OSHA issued recommended guidelines for the effective management and protection of worker safety and health. The complete original text of the non-mandatory guidelines is found in the Federal Register (54 FR(18):3904-3916, January 26, 1989).

A copy of the guidelines can be obtained from the OSHA Publications Office, U.S. Department of Labor, 20 Constitution Avenue, N.W., Room N-3101, Washington, D.C. 20210, or from the nearest OSHA Regional Office listed in this booklet.

To be sure safety policies are implemented effectively, there must be cooperation among supervisors, employee groups, including union, and individual employees. Each supervisor must understand the degree of responsibility and authority he or she holds in a particular area. For effective labor support, affected unions should be notified of construction plans and asked to cooperate.

It is also important, before beginning work, for employers to provide employees who are exposed to public vehicular traffic with warning vests or other suitable garments marked with or made of reflectorized or high-visibility material and ensure that they wear them. Workers must also be instructed to remove or neutralize surface encumbrances that may create a hazard.

In addition, no employee should operate a piece of equipment, without first being properly trained to handle it and fully alerted to its potential hazards.

In the training and in the site safety and health program, it also is important to incorporate procedures for fast notification and investigation of accidents.

**On-the-Job Evaluation**

The Standard requires that a competent person inspect, on a daily basis, excavations and the adjacent areas for possible cave-ins, failures of protective systems and equipment, hazardous

atmospheres, or other hazardous conditions. If these conditions are encountered, exposed employees must be removed from the hazardous area until the necessary safety precautions have been taken. Inspections are also required after natural (e.g. heavy rains) or man-made events such as blasting that may increase the potential for hazards.

Larger and more complex operations should have a full-time safety official who makes recommendations to improve the implementation of the safety plan. In a smaller operation, the safety official may be part-time and usually will be a supervisor.

Supervisors are the contractor's representatives on the job. Supervisors should conduct inspections, investigate accidents, and anticipate hazards. They should ensure that employees receive on-the-job safety and health training. They should also review and strengthen overall safety and health precautions to guard against potential hazards, get the necessary worker cooperation in safety manners, and make frequent reports to the contractor.

It is important that managers and supervisors set the example for safety at the job site. It is essential that when visiting the job site, all managers, regardless of status, wear the prescribed protective equipment such as safety shoes, safety glasses, hard hats, and other necessary gear (see CFR 1926.100 and 102).

Employees must also take an active role in job safety. The contractor and supervisor should make certain that workers have been properly trained in the use and fit of the prescribed protective gear and equipment, that they are wearing and using the equipment correctly, and that they are using safe work practices.

Cave-Ins and Protective Support Systems

**Support Systems**

Excavation workers are exposed to many hazards, but the chief hazard is danger of cave-ins. OSHA requires that in all excavation employees exposed to potential cave-ins must be protected by sloping, or benching the sides of the excavation; supporting the sides of the excavation, or placing a shield between the side of the excavation and the work area.

Designing a protective system can be complex because of the number of factors involved-soil classification, depth of cut, water content of soil, changes due to weather and climate, or other operation in the vicinity. The standard, however, provides several different methods and approaches (four for sloping and four for shoring, including the use of shields)* for designing protective systems that can be used to provide the required level of protection against cave-ins.

One method of ensuring the safety and health of workers in an excavation is to slope the side to an angle not steeper than one and one-half horizontal to one vertical (34 degrees measured from the horizontal). These slopes must be excavated to form configurations that are in accordance with those for Type C soil found in Appendix B of the standard. A slope of this graduation or less is considered safe for any type soil (see Figure 1).

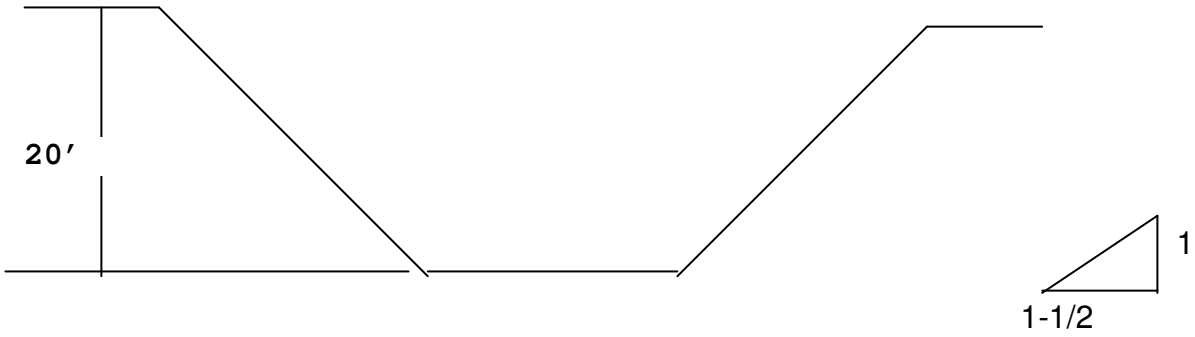

Figure 1. Excavations Made in Type C Soil

All simple slope excavations 20 feet or less in depth shall have a maximum allowable slope of 1 1/2:1.

*See Appendix F to the standard for a complete overview of all options.

A second design method, which can be applied for both sloping and shoring, involves using tabulated data, such as tables and charts, approved by a registered professional engineer. These data must be in writing and must include sufficient explanatory information to enable the user to make a selection, including the criteria for determining the selection and the limits on the use of the data.

At least one copy of the information, including the identity of the registered professional engineer who approved the data, must be kept at the worksite during construction of the protective system. Upon completion of the system, the data must be stored away from the job site, but a copy must be made available, upon request, to the Assistant Secretary of Labor for OSHA.

Contractors also may use a trench box or shield that is either designed or approved by a registered professional engineer or is based on tabulated data prepared or approved by a registered professional engineer. Timber, aluminum, or other suitable materials may also be used. OSHA standards permit the use of a trench shield (also known as a welder's hut) as long as the protection it provides is equal to or greater than the protection that would be provided by the appropriate shoring system (see Figure 2).

The employer is free to choose the most practical design approach for any particular circumstance. Once an approach has been selected, however, the required performance criteria must be met by that system.

The standard does not require the installation and use of a protective system when an excavation (1) is made entirely in stable rock, or (2) is less than 5 feet deep and a competent person has examined the ground and found no indication of a potential cave-in.

**Safety Precautions**

The standard requires the employer to provide support systems such as shoring, bracing, or

underpinning to ensure the stability of adjacent structures such as buildings, walls, sidewalks or pavements.

Figure 2. Trench Shields

The standard prohibits excavation below the level of the base or footing of any foundation or retaining wall unless (1) a support system such as underpinning is provided, (2) the excavation is in stable rock, or (3) a registered professional engineer determines that the structure is sufficiently removed from the excavation and that excavation will not pose a hazard to employees.

Excavations under sidewalks and pavements are also prohibited unless an appropriately designed support system is provided or another effective method is used.

**Installation and Removal of Protective Systems**

The standard requires the following procedures for the protection of employees when installing support systems:

- Securely connect members of support system,
- Safely install support systems,
- Never overload members of support systems, and
- Install other structural members to carry loads imposed on the support system when temporary removal of a individual members is necessary.

In addition, the standard permits excavation of 2 feet or less below the bottom of the members of a support or shield system of a trench if (1) the system is designed to resist the loads calculated for the full depth of the trench, and (2) there are no indications, while the trench is open, of a possible cave-in below the bottom of the support system. Also, the installation of support systems must be closely coordinated with the excavation of trenches.

As soon as work is completed, the excavation should be back-filled as the protective system is designated. After the excavation has been cleared, workers should slowly remove the protective system from the bottom up, taking care to release members slowly.

**Materials and Equipment**

The employer is responsible for the safe condition of materials and equipment used for protective systems. Defective and damaged materials and equipment can result in the failure of a protective system and cause excavation hazards.

To avoid possible failure of a protective system, the employer must ensure that (1) materials and equipment are free from damage or defects, (2) manufactured materials and equipment are used and maintained in a manner consistent with the recommendations of the manufacture and in a way that will prevent employee exposure to hazards, and (3) while in operation, damaged materials and equipment are examined by a competent person to determine if they are suitable

for continued use. If the materials and equipment are not safe for use, they must be removed from service. These materials cannot be returned to service without the evaluation and approval of a registered professional engineer.

## Other Hazards

## Falls and Equipment

In addition to cave-in hazards and secondary hazards related to cave-ins, there are other hazards from which workers must be protected during excavation-related work. These hazards include exposure to falls, falling loads, and mobile equipment. To protect employees from these hazards, OSHA requires the employer to take the following precautions:

- Keep materials or equipment that might fall or roll into an excavation at least 2 feet from the edge of excavations, or have retaining devices, or both.
- Provide warning systems such as mobile equipment, barricades, hand or mechanical signals, or stop logs, to alter operations of the edge of an excavation. If possible, keep the grade away from the excavation.
- Provide scaling to remove loose rock or soil or install protective barricades and other equivalent protection to protect employees from the hazard of falling, rolling, or sliding material or equipment.
- Prohibit employees from working on faces of sloped or benched excavations at levels above other employees unless employees at lower levels are adequately protected from the hazard of falling, rolling, or sliding material or equipment.
- Prohibit employees under loads that are handled by lifting or digging equipment. To avoid being struck by any spillage or falling materials, require employees to stand away from vehicles being loaded or unloaded. If cabs of vehicles provide adequate protection from falling loads during loading and unloading operations, the operators may remain in them.

### Water Accumulation

The standard prohibits employees from working in excavations where water has accumulated or is accumulating unless adequate protection has been taken. If water removal equipment is used to control or prevent water from accumulating, the equipment and operations of the equipment must be monitored by a competent person to ensure proper use.

OSHA standards also require that diversion ditches, dikes, or other suitable means be used to prevent surface water from entering an excavation and to provide adequate drainage of the area adjacent to the excavation. Also, a competent person must inspect excavations subject to runoffs from heavy rains.

### Hazardous Atmospheres

Under this provision, a competent person must test excavations greater than 4 feet in depth as well as ones where oxygen deficiency or a hazardous atmosphere exists or could reasonably be expected to exist, before an employee enters the excavation. If hazardous conditions exist, controls such as proper respiratory protection or ventilation must be provided. Also, controls

used to reduce atmospheric contaminants to acceptable levels must be tested regularly.

Where adverse atmospheric conditions may exist or develop in an excavation, the employer also must provide and ensure that emergency rescue equipment, (e.g., breathing apparatus, a safety harness and line, basket stretcher, etc.) is readily available. This equipment must be attended when used.

When an employee enters bell-bottom pier holes and similar deep and confined footing excavations, the employee must wear a harness with a lifeline. The lifeline must be securely attached to the harness and must be separate from any line used to handle materials. Also, while the employee wearing a lifeline is in the excavation, an observer must be present to ensure that the lifeline is working properly and to maintain communication with the employee.

**Access and Egress**

Under the standard, the employer must provide safe access and egress to all excavations. According to OSHA regulations, when employees are required to be in trench excavations 4-feet deep or more, adequate means of exit, such as ladders, steps, ramps or other safe means of egress, must be provided and be within 25 feet of lateral travel. If structure ramps are used as a means of access or egress, they must be designed by a competent person if used for employee access or egress, or a competent person qualified in structural design if used by vehicles. Also, structural members used for ramps or runways must be uniform in thickness and joined in a manner to prevent tripping or displacement.

---

## Related Issues

### Hazard Communication

The Hazard Communication Standard (29 CFR 1910.1200) requires employers to inform employees of the identities, properties, characteristics, and hazards of chemicals they use and the protective measures they can take to prevent adverse effects. The standard covers both physical hazards (e.g., flammability) and health hazards (e.g., lung damage, cancer). Knowledge acquired under the Hazard Communication Standard will help employers provide safer workplaces for their employees, establish proper work practices, and help prevent chemical-related illnesses and injuries.

### Access to Medical and Exposure Records

Under the provision of the Access to Medical and Exposure Records standard (29 CFR 1910.20), employees, their designated representatives, and OSHA are permitted direct access to employer-maintained exposure and medical records. This access is designed to yield both direct and indirect improvements in the detention, treatment, and prevention of occupational disease. Also, access to these records will assist employees in the management of their own safety and health.

**Recordkeeping**

Each employer must preserve and maintain accurate medical and exposure records for each employee. The standard requires that exposure records be kept for 30 years and medical records be kept for at least the duration of employment plus 30 years. Background data for exposure records such as laboratory reports and work sheets need to be kept only for 1 year. Records of employees who have worked for less than 1 year need not be retained after employment, but the employer must provide these records to the employee upon termination of employment. First-aid records of one-time treatment need not be retained for any specified period.

The employer must inform each employee of the existence, location, and availability of these records. When an employer plans to stop doing business and there is no successor employer to receive and maintain these records, the employer must notify employees of the right to access of the records at least 3 months before the employer ceases to do business. At the same time, the employer also must inform the National Institute for Occupational Safety and Health.

**State Plan States**

States administering their own occupational safety and health program (see listing on page ), through plans approved under section 18(b) of the Occupational Safety and Health Act of 1970, must adopt standards and enforce requirements at least as effective as Federal requirements. There are currently 25 State plan States; 23 covering private and public (State and local government) sectors and two covering public sector only.

---

Summary

Trenching and excavation work presents serious risks to all workers involved. The greatest risk, and one of primary concern, is that of cave-ins. Furthermore, when cave-in accidents occur, they are much more likely to result in worker fatalities than other excavation-related accidents. Strict compliance, however, with all sections of the standard will prevent or greatly reduce the risk of cave-ins as well as other excavation-related accidents.

- These states and territories operate their own OSHA-approved job safety and health programs (Connecticut and New York plans cover public employees only). States with

approved programs must have a standard that is identical to or at least as effective as, the federal standard.

## PART 2 - PRODUCTS

### 2.01 CLASSIFICATION

A. All excavations shall be unclassified as shall include all materials encountered regardless of their nature or the manner in which they are removed.

## PART 3 - EXECUTION

### 3.01 CONSTRUCTION METHODS

A. Prior to commencing this work, all erosion control and tree protection measures required shall be in place and all utilities located and protected.

B. Construction equipment shall not be operated within the drip line of trees, unless otherwise indicated.

C. Construction materials shall not be stockpiles under the canopies of trees. No excavation or embankment shall be placed within the drip line of trees until tree wells are constructed.

D. All excavation shall be performed as specified herein and shall conform to the established alignment, grades and cross sections.

E. Suitable excavated materials shall be utilized, in so far as practical, in constructing required embankments.

F. The construction of all embankments shall conform to Section 02236 - Embankment. No material shall be stockpiled within the banks of a waterway.

G. Unsuitable excavated materials or excavation in excess of that needed for construction shall be known as "Waste" and shall become the property of the CONTRACTOR and it shall become his sole responsibility to dispose of this material off the limits of the right-of-way in an environmentally sound manner at a permitted disposal site.

H. Adequate dewatering and drainage of excavation shall be maintained throughout the time required to complete the work.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 MEASUREMENT

A. Measurement of the volume of excavation in cubic yards by the average end areas. Cross sectional areas shall be computed from the existing ground section to the established line of the sub-grade, as shown on typical sections for the limits

of the right-of-way or other work limits, including parkway slopes and sidewalk areas.

B. Measurement of the area in square yards of surface area excavated as shown on the typical sections included in the plans.

C. Measurement of the volume of excavation is in cubic yards, based upon the average end areas taken from pre-construction cross sections and planned grades. The planned quantities for excavation will be used as the measurement for payment for this item.

## 4.02 PAYMENT

A. This item will be paid for at the contract unit price bid for "Excavation", as provided under the measurement method as included in the bid, which price shall be full compensation for all work herein specified including: dewatering, drainage, sub-grade preparation, unless otherwise indicated and the furnishing of all materials, equipment, tools, labor and incidentals
necessary to complete the work.

B. When not listed as a separate contract pay item, excavation shall be considered as incidental work, and the cost thereof shall be included in such contract pay item(s) as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*** * * END OF SECTION * * ***

**SECTION 02238**

# REMOVAL OF CONCRETE

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. This work shall consist of breaking up, removing and satisfactorily disposing of existing concrete, as classified, at locations indicated or as directed by the Engineer.

B. Existing concrete, when under this section, will be classified as follows:

1. Concrete Curb will include curb, curb and gutter combinations thereof.
2. Concrete Slabs will include, but not be limited to, patio slabs, porch slabs, concrete riprap and concrete pavement.
3. Sidewalks and Driveways will include concrete sidewalks and driveways.
4. Concrete Walls will include all walls regardless of height and wall footings.
5. Concrete Steps will include all steps and combinations of walls and steps.
6. Abandoned Foundations will include abandoned Electric Department foundations.
7. Miscellaneous Concrete shall include but not be limited to manholes, inlets, junction boxes and headwalls.

## PART 2 PRODUCTS

### 2.01 MORTAR:

A. Mortar, for repair of existing concrete structures, shall conform to the requirements thereof in Section 03300 - Cast-In-Place Concrete.

## PART 3 - EXECUTION

### 3.01 CONSTRUCTION METHODS:

A. Prior to commencing this work, all erosion control and tree protection measures required shall be in place and all utilities located and protected. The existing concrete shall be broken up, removed to conform to Section 02101 - "Preparing Right-of-Way" and disposed of by the Contractor and deposited at a permitted at a permitted disposal site.

B. Where only a portion of the existing concrete is to be removed and that remaining will continue to serve in its purpose, care shall be exercised to avoid damage to that portion to remain in place.

C. The existing concrete shall be cut to the neat lines when indicated or as established by the Engineer, by sawing with an appropriate type circular concrete

saw to a minimum depth of 1/2 inch.

D. Any reinforcing steel encountered shall be cut off 1 inch inside of concrete sawed line. Any existing concrete which is damaged or destroyed beyond the neat lines so established shall be replaced at the Contractor's expense.

E. Remaining concrete shall be mortared to protect the reinforcing steel and provide a neat clean appearance.

F. Where reinforcement is encountered in the removed portions of structures to be modified, a minimum of 1 foot of steel length shall be cleaned of all old concrete and left in place to tie into the new construction where applicable.

G. All unsuitable material shall be removed and replaced with approved material.

H. All foundation, walls or other objectionable material shall be removed to a minimum depth of 18 inches below all structures and 12 inches below areas to be vegetated.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 MEASUREMENT:

A. Concrete curb and concrete wall removed as prescribed above will be measured by the linear foot in its original position regardless of the dimensions or size.

B. Concrete slabs and concrete sidewalks and driveways removed as prescribed above will be measured by the square foot in original position, regardless of the thickness and reinforcing.

C. Concrete steps removed will be measured per linear foot of each individual step tread including the bottom step.

D. Concrete foundation removed will be measured per each.

E. Miscellaneous concrete removed will be measured per each.

### 4.02 PAYMENT:

A. This item will be paid for at the contract unit price bid for "Removed Concrete Curb", "Removed Concrete Slab", "Remove Concrete Sidewalks and Driveways", "Removed Concrete Foundations" and "Remove Miscellaneous Concrete" which price shall be full compensation for all work herein specified, including the disposal of all material not required in the work, the furnishing of all materials, equipment, tools, labor and incidentals necessary to complete the work.

B. When not listed as a separate contract pay item, removal of concrete shall be considered as incidental work, and the cost thereof shall be included in such contract pay item(s) as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be for furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*** * * END OF SECTION * * ***

**SECTION 02240**

**LIME STABILIZATION**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. Treating of subgrade, sub-base, and base courses by the pulverization, addition of lime, mixing and compacting the mixed material to the required density.

B. Application to natural ground, embankment, existing pavement, base or sub-bases under this contract, or as directed by the ENGINEER, which shall be constructed as specified herein and in conformity with the typical section, lines, grades as shown on the plans.

### 1.02 QUALITY ASSURANCE:

A. Comply with the latest published edition (or addended portions thereof) of the following standards and codes:

1. ASTM c-207 or Type N - Requirements for Hydrated Lime
2. ASTM Designation C5 - Quick Lime for Structural Purposes
3. Texas SDHPT Test Method Tex-600-J - Hydrated Lime
4. ASTM D-1557 - Density of Compacted Materials
5. ASTM D-2049 - Density of Compacted Materials
6. Texas SDHPT Test Method Tex 113-E - Density of Compacted Materials
7. AASHTO T-99, Method C - Density of Compacted Materials
8. AASHTO M-216 - Hydrated Lime

## PART 2 - PRODUCTS

### 2.01 HYDRATED (DRY) LIME:

A. Use, for stabilization of soils, a dry powder consisting primarily of calcium hydroxide (Ca(OH)2).

B. Provide Material in accordance with Texas SDHPT Test Method TEX-600-J and conforming to the following chemical composition:

| | |
|---|---|
| Hydrate Alkalinity, Percent by Weight Ca(OH)2 | 90% Min. |
| Un-hydrate Lime Content, Percent by Weight CaO | 5% Max. |
| "Free Water" Content, Percent by Weight H2O | 4% Max. |

And with the following residue retainage:

| | |
|---|---|
| Residue Retained on No 6 Sieve | None |
| Residue Retained on No. 10 Sieve | 1% Max. |
| Residue Retained on No. 30 Sieve | 2.5% Max. |

C. Store and handle hydrated lime in closed, weather proof containers, storage bins, or bags until immediately before application to the road.

D. Furnish hydrated lime in trucks, as applicable, with weight of lime measured on certified scales and clearly marked on the truck or stamped on a haul ticket.

E. Furnish hydrated lime in bags, as applicable, bearing the manufacturer's certified weight. Bags varying more than five percent may be rejected.

**2.02 HYDRATED LIME SLURRY:**

A. Provide a pumpable suspension of solids, principally composed of hydrated lime, in water.

B. Provide material with a "Solids Content" having a hydrated alkalinity Ca (OH) 2 of not less than 90 percent by weight and a residue retainage equal to the retainage specified in Part 2.01 above.

C. Supply Type B, commercial lime slurry, with a "dry solids content" of at least 31% by weight of the slurry (Grade 1).

D. Procure mixing water only from County of Hidalgo water mains. The Contractor shall make arrangements with the Water Department to obtain a meter and subsequent payment for water used.

**2.03 QUICKLIME (MASON'S LIME):**

A. Provide quicklime, as a dry powder in a tank, to form a lime slurry.

**PART 3 - EXECUTION**

**3.01 GENERAL:**

A. Provide a completed course of treated materials containing a uniform lime mixture, free from loose or segregated areas, of uniform density and moisture content, well bound for its full depth, and with a smooth surface and suitable for placement of subsequent courses.

B. Regulate sequence work, use proper amounts of lime, maintain the work and rework the courses as necessary to meet the requirements of this specification.

C. Construct and shape roadbed to conform with typical sections, lines and grades as shown on the plans, or as directed by the ENGINEER.

D. Excavate materials to be treated to the proposed bottom of lime treatment grade, or secondary grade and remove or window to expose.

E. Correct any wet or unstable material below the secondary grade by scarifying, adding lime and compacting until uniform stability is achieved.

F. Use a cutting or pulverizing machine, as applicable, to remove subgrade material accurately to secondary grade and to pulverize the material at the same time. When cutting or pulverizing machine is used, the requirement for exposing and windowing the material is waived.

G. Roll subgrade before use of pulverizing machinery and correct any soft areas that rolling operations shall reveal.

H. Materials for new bases and sub-bases shall be delivered, placed and spread in the required amount per station. The material shall be thoroughly mixed prior in the same working day.

I. Lime shall be spread only on that area where first mixing operation can be completed in the same working day.

**3.02 SLURRY PLACING:**

A. Mix lime, in amounts as shown on plans or as specified by the Materials Engineering Laboratory, with water in trucks or approved distributors and apply as a thin water suspension or slurry.

B. The distribution of lime at the rates shown on the plans, as directed herein, and/or as directed by the ENGINEER. Shall be attained by successive passes over a measured surface of roadway until the proper moisture and lime content is achieved.

C. Lime slurry distributors shall be equipped with an agitator for maintaining lime and water in a uniform mixture.

**3.03 DRY PLACING:**

A. Spread lime by an approved screw type spreader box or by bag distribution at the rate shown in the plans.

B. Distribute lime at a uniform rate and in such a manner as to reduce scattering of lime to a minimum. Lime shall not be applied when wind conditions, in the opinion of the ENGINEER, will cause objectionable blowing of lime to traffic or adjacent properties.

C. Motor graders shall not be used to spread lime.

D. Sprinkle material until proper moisture and lime content has been secured.

**3.04 MIXING**

A. Mixing procedures shall be the same for "Dry Placing" or "Slurry Placing" or lime.

B. Treatment for Materials in Place:

1. Thoroughly mix material and lime using approved road mixers or other approved equipment, until a homogeneous, friable mixture of material is obtained, free from all clods and lumps.
2. Mix as thoroughly as possible at the time of lime application of materials containing plastic clay or other materials not readily mixed with lime, bring to proper moisture content, seal with a pneumatic roller, and leave to cure one to four days, as directed by the ENGINEER.
3. During curing period, material shall be kept moist by method(s) approved by the ENGINEER.
4. Uniformly mix, after required curing time, using approved methods.
5. Clods in soil binder - Lime mixture shall be reduced in size by raking, blading, dicing, harrowing, scarifying or by other approved pulverization methods such that non-slaking aggregates obtained on the No. 4 sieve are removed. The remainder of the material shall meet the following requirements when test dry by laboratory sieves:

   Minimum Passing 1 3/4 inch 100%
   Minimum Passing No. 4 Sieve 60%

C. Treatment of New Material

1. Thoroughly mix and blend, using approved road mixers or other approved equipment, the base or sub-base material, lime and required water until a homogeneous, friable mixture is obtained.
2. When lime is placed as a slurry and mixed by use of blades, the material shall be bladed as the lime water mixture is applied.

D. During the time between application and mixing, hydrated lime that has been exposed to the open air for a period of six hours or more, or to excessive loss due to washing or blowing, shall not be accepted for payment.

## 3.05 COMPACTION:

A. Compaction of the mixture shall begin immediately after final mixing and in no case later than three calendar days after final mixing.

B. Aerate or sprinkle material as required to provide optimum moisture.

C. Compaction shall begin at the bottom and shall continue until entire depth of mixture is uniformly compacted to 95% of maximum density as determined by AASHTO T-99, Method C.

D. If any portion fails to meet the density specified, it shall be reworked as required to obtain specified density.

### 3.06 FINISHING, CURING, AND PREPARATION FOR SURFACING:

A. Shape surface after compaction to the required lines, grades, and cross sections, followed by thorough rolling sufficiently light to prevent hair-line cracking.

B. Complete section shall be moist cured for a minimum of seven days before further coursed are added or any traffic permitted, other than sprinkling equipment.

C. The surface or compacted layer shall be kept moist until covered by other base or paving material, or until an application of CSS-1 or SS-1 emulsified asphalt as a curing seal. Curing seal shall be applied as soon as possible after final rolling at a rate of 0.10 to 0.20 gallons per square yard. The exact rate will be as directed by the ENGINEER.

No equipment or traffic will be permitted on lime treated materials for 72 hours after application of curing seal.

### 3.07 MAINTENANCE:

A. Maintain the completed lime treated material within the limits of contract, in condition satisfactory to the ENGINEER as to grade, crown and cross section until surface course is constructed.

B. Immediately repair all irregularities and defects that may occur at no cost to the County and as directed by the ENGINEER.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 MEASUREMENT AND PAYMENT:

A. Lime treatment shall be measured for payment in square yards for the thickness of material shown on the plans for the surface area of completed and accepted work. Lime treatment shall be paid for at the contract unit price per square yard.

B. Lime will be measured by the ton 2000 pounds dry weight. Lime will be paid for at the contract unit cost per ton of 2000 pounds dry weight.

C. The contract unit price for lime treatment shall be the total compensation for preparing roadbed; for loosening, pulverizing, application of lime, water content of slurry mixture and the mixing water; mixing, shaping, sprinkling, compacting, finishing, curing and maintaining; for manipulations required, for all labor, equipment, fuels, tools and incidentals necessary to complete the work.

D. The contract unit price for lime shall be full compensation for furnishing the material; for all freight involved; for all unloading, storing and hauling; and for all labor, equipment, fuels, tools, and incidentals necessary to complete the work.

*** * * END OF SECTION * * ***

# SECTION 02601

# FLEXIBLE BASE

## PART I - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. This work shall consist of furnishing and placing a foundation course for surface courses or for other base courses.

B. Flexible base shall be composed of either caliche (argillaceous limestone, calcareous or calcareous clay particles, with or without stone, conglomerate, gravel, sand or other granular materials), crushed stone, gravel, iron ore topsoil, shell, or crushed slag.

C. Flexible base shall be constructed as specified herein in one or more courses in conformance with details, lines and grades shown on the plans, and as established by the ENGINEER.

## PART 2 -PRODUCTS

### 2.01 MATERIALS:

A. Materials for flexible base shall be crushed or un-crushed as necessary to comply with the requirements hereinafter specified.

B. Materials shall consist of durable course aggregate particles mixed with approved binding materials.

### 2.02 LIME STABILIZATION:

A. Where shown on the plans, or directed by the ENGINEER, material for flexible base shall be lime stabilized in accordance with the provisions of Section 02240.

### 2.03 TYPES:

A. Type A - Crushed or broken aggregate (excluding gravel aggregate).

B. Type B - Gravel Aggregate

C. Type C - Iron Ore Topsoil

D. Type D - Shell Aggregate with Sand Admixture

E. Type E - Shell Aggregate with Sand and Caliche Admixture

F. Type F - Caliche

G. Type G - Crushed Slag

H. Unless otherwise noted on the plans, the CONTRACTOR may use any one type of these types provided the material used meet the requirements set forth in the specification test limits herein.

**2.04 GRADES:**

A. Unless otherwise shown on the plans or directed by the ENGINEER, the final course of base material shall consist of Grades 1,2,3, or 4, as specified in Table 02601-1.

B. Base courses or sub-base materials, unless otherwise noted on the plans or directed by the ENGINEER, may consist of Grades 1, 2, 3, or 4, as specified in Table 02601-1.

C. All grades shall, when tested in accordance with standard laboratory test procedures, meet the physical requirements set forth in Table 02601-1.

D. Testing of flexible base materials shall be in accordance with the following test procedures:

| **TEST** | **TESTING PROCEDURE** |
|---|---|
| Preparation for soil constants and sieve analysis | TEX-101-E |
| Liquid Limit | TEX-104-E |
| Plastic Limit | TEX-105-E |
| Plasticity Limit | TEX-106-E |
| Sieve Analysis | TEX-110-E |
| Wet Ball Mill | TEX-116-E |
| Triaxial Tests | TEX-117-E ( Part I or II) |

E. Unless otherwise specified on the plans, samples for testing the material for Soil constants, Gradation and Wet Ball Mill shall be taken prior to the compaction operations.

F. Unless otherwise specified on the plans, samples for triaxial tests shall be taken from the stockpile or from production, as directed by the ENGINEER, where stockpiling is required and from production where stockpiling is not required.

G. The limits establishing reasonable close conformity with the specified gradation and plasticity index are defined by the following:

1. The ENGINEER may accept the material, providing not more than 2 of 10 consecutive gradation tests performed are outside the specified limits on any individual or combination of sieves by no more than 5% and where no two consecutive tests are outside the specified limits.
2. The ENGINEER may accept the material providing not more than 2 of 10 consecutive plasticity index samples tested are outside the specified limit by no more than two points and where no two consecutive tests are outside the specified limit.

**2.05 STOCKPILING:**

A. When specified on the plans, the material shall be stockpiled prior to delivery on the road. The stockpile shall be not less than the height indicated and shall be made up of layers of material not to exceed the depth shown on the plans.

B. After a sufficient stockpile has been constructed as specified on the plans, the CONTRACTOR may proceed with loading from the stock- pile for delivery to the road.

C. In loading from the stockpile for delivery to the road, the material shall be loaded by making successive vertical cuts through the entire depth of the stockpile.

D. If the CONTRACTOR elects to produce the Type a material from more than one material or more than one source, each material shall be crushed separately and placed in separate stockpiles so that at least 75 percent of the material in the course aggregate stockpiles will be retained on the No. 4 sieve and at least 70 percent of the material in the fine aggregate stockpile will pass the No. 4 sieve.

E. The materials shall be combined in a central mixing plant in the proportions determined by the ENGINEER to produce a uniform mixture which meets all of the requirements of the specification. In the event that combinations of the materials produced fail to meet all of the specification requirements, the CONTRACTOR will be required to secure other materials which will meet specifications requirements.

F. The central mixing plant shall be either the batch or continuous flow type, and shall be equipped with feeding and metering devices which will add the materials into the mixer in the specified quantities.

G. Mixing shall continue until a uniform mixture is obtained.

## PART 3 - EXECUTION

**3.01 PREPARATION OF SUBGRADE:**

A. Type roadbed shall be excavated and shaped in conformity with the typical sections shown on the plans and to the lines and grades as established by the ENGINEER.

B. All unstable or otherwise objectionable material shall be removed from the sub-grade and replaced with approved material.

C. All holes, ruts and depressions shall be filled with approved material and, if required, the sub-grade shall be thoroughly wetted with water and reshaped and rolled to the extent directed in order to place the sub-grade in an acceptable condition to receive the base material.

D. The surface of the sub-grade shall be finished to line and grade as established and in conformity with the typical section shown on plans, and any deviation in

excess of 1/2 inch in cross section and in a length of 16-feet measured longitudinally shall be corrected by loosening, adding or removing material, reshaping and re-compacting by sprinkling and rolling.

E. Sufficient sub-grade shall be prepared in advance to insure satisfactory prosecution of the work.

F. Material excavated in the preparation of the sub-grade shall be utilized in the construction of adjacent shoulders and slopes or other- wise disposed on as directed, and any additional material required for the completion of the shoulders and slopes shall be secured from sources indicated on plans or as directed by the Engineer.

**3.02 PLACEMENT OF FIRST COURSE - TYPE A, TYPE B, TYPE C, TYPE F, AND TYPE G MATERIAL:**

A. Immediately before placing the base material, the sub-grade shall be checked as to conformity with grade and section.

B. The material shall be delivered in approved vehicles of a uniform capacity, and it shall be the charge of the CONTRACTOR that the required amount of specified material shall be delivered in each 100- foot station.

C. Material deposited upon the sub-grade shall be spread and shaped the same day.

D. In the event inclement weather or other unforeseen circumstances render impractical the spreading of the material during the first 24-hour period, the materials shall be scarified and spread as directed by the Engineer.

E. The material shall be sprinkled, if directed, and shall then be bladed, dragged and shaped to conform to typical sections as shown on plans.

F. All areas and "nests" of segregated coarse or fine material shall be corrected to removed and replaced with well graded material, as directed by the ENGINEER.

G. If additional binder is considered desirable or necessary after the material is spread and shaped, it shall be furnished and supplies in the amount directed by the ENGINEER. Such binder material shall be carefully and evenly incorporated with the material in place by scarifying, harrowing, brooming or by other approved methods.

H. The course shall be compacted by method of compaction hereinafter specified as the "Ordinary Compaction" method or the "Density Control" method of compaction as indicated on the plans, or as directed by the ENGINEER.

1. When the "Ordinary Compaction" method is to be used, the following provisions shall apply:

a) The course shall be sprinkled as required and rolled ad directed until a uniform compaction is secured. Throughout this entire operation,

the shape of the course shall be maintained by blading and the surface upon completion shall be smooth and in conformity with the typical sections shown on plans and to the established lines and grades.

b) In that area on which pavement is to be placed, any deviation in excess of 1/4 inch in cross section in a length of 16-feet measured longitudinally shall be corrected by loosening, adding or removing material, reshaping and re-compacting by sprinkling and rolling.

c) All irregularities, depressions or weak spots which develop shall be corrected immediately by scarifying the areas affected, adding suitable material as required, reshaping and re-compacting by sprinkling and rolling.

2. When the "Density Control" method of compaction is to be used, the following provisions shall apply:

a) The course shall be sprinkled as required and compacted to the extent necessary to provide not less than the percent density as hereinafter specified under "Density".

b) In addition to the requirement specified for density, the full depth of the flexible base shown on the plans shall be compacted to the extent necessary to remain firm and stable under construction equipment.

c) After each section of flexible base is completed, tests as necessary will be made by the ENGINEER. If the material fails to meet the density requirements, it shall be reworked as necessary to meet these requirements.

d) Throughout this entire operation, the shape of the course shall be maintained by blading, and the surface upon completion shall be smooth and in conformity with the typical sections shown on the plans and to established lined and grades.

e) In that area on which pavement is to be placed, any deviation in excess of 1/4 inch in cross section in a length of 16 feet measured longitudinally shall be corrected by loosening, adding or removing material, reshaping and re-compacting by sprinkling and rolling.

f) All irregularities, depressions or weak spots which develop shall be corrected immediately by scarifying the areas affected, adding suitable material as required, reshaping and re-compacting by sprinkling and rolling.

I. Should the base course, due to any reason or cause, lose the required stability, density or finish before the surfacing is complete, it shall be re-compacted and refinished at the sole expense of the CONTRACTOR.

J. Where Type C material is used, the material shall be scarified, thoroughly wetted, mixed, manipulated, and bladed so as to secure a uniformly wetted material, and pulled in over the sub-grade in courses and set under the action of blading and rolling. The work of mixing, blading, rolling, shaping, and subsequent maintenance shall be performed by the continuous use of sufficient number of satisfactory rollers and power maintainers with adequate scarifier attachments.

**3.03 PLACEMENT OF FIRST COURSE - TYPE D MATERIAL:**

A. Immediately before placing the base material, the sub-grade shall be checked as to conformity with grade and section, and corrections made if necessary.

B. All materials shall be delivered in approved vehicles of a uniform capacity.

C. The required amount of shell shall be uniformly spread across the section and allowed to dry sufficiently to insure proper slaking and mixing of the binder material. Immediately upon completion of the drying period, as determined by the ENGINEER, the specified amount of sand admixture as required to produce a combined material meeting the requirements hereinbefore specified, shall be spread uniformly across the shell.

D. The material shall then be sprinkled as required and thoroughly mixed by blading and harrowing, or other approved methods.

E. Failure to proceed with the placing of sand admixture or mixing and placing operations will be grounds for the suspension of placing of shell.

F. Under no conditions will the CONTRACTOR be allowed to place an excessive amount of shell without proceeding with the mixing and placing operations.

G. The course shall be compacted by the method of compaction hereinafter specified as the "Ordinary Compaction" method or the "Density Control" method of compaction as indicated on the plans, or as directed by the ENGINEER.

1. When the plans indicate that the "Ordinary Compaction" method is to be used, the following provisions shall apply:

a) After mixing, all material shall be windrowed, and then spread over the section in layers.

b) The layer shall not exceed 2 inches in loose depth.

c) If necessary to prevent segregation, the material shall be wetted in the window prior to spreading.

d) After each lift is spread, it shall be sprinkled and rolled to secure maximum compaction as directed by the ENGINEER. Succeeding layers shall then be placed similarly until the course is completed.

e) All areas and "nest of segregated coarse or fine material shall be corrected or removed and replaced with well graded material, as directed by the ENGINEER.

f) The course shall then be sprinkled as required and rolled as directed until a uniform compaction is secured.

g) Throughout this entire operation, the shape of the course shall be maintained by blading; and the surface, upon completion, shall be smooth and in conformity with the typical sections shown on plans, and to the established lines and grades.

h) In that area on which pavement is to be place, any deviation in excess of 1/4 inch in cross section in a length of 16-feet measured longitudinally shall be corrected by loosening, adding or removing material, reshaping and re-compacting by sprinkling and rolling.

i) All irregularities, depressions or weak spots which develop shall be corrected immediately by scarifying the areas affected, adding suitable material as required, reshaping and re-compacting by sprinkling and rolling.

2. When the plans indicate that the "Density Control" method of compaction is to be used, the compaction method shall be the same as prescribed for Type A, Type B, Type C, Type F and Type G material.

H. When indicated on the plans or permitted by the ENGINEER, Type D material may be mixed in a central mixing plant and delivered to the road as a combined mixture. When this method is used, the combined mixture shall meet the requirements for type D material as hereinbefore specified and the placing and compaction requirement shall be the same as prescribed for Type A, Type B, Type C, Type F and Type G material.

**3.04 PLACEMENT OF FIRST COURSE - TYPE E MATERIAL:**

A. The construction methods for placing the first course of Type E material shall be the same as prescribed for Type D material except that after the shell and sand have been placed, the prescribed amount of caliche shall then be spread across the sand and shell.

B. The composite mixture shall then be sprinkled as required and thoroughly mixed by blading and harrowing or other approved methods.

C. Compaction of the first course of Type E material shall be the same as prescribed above for Type D material.

D. Failure to proceed with placing the sand and caliche admixture or mixing and placing operations will be grounds for the suspension of placing of shell.

E. Under no conditions will the CONTRACTOR be allowed to place an excessive amount of shell without proceeding with the mixing and placing operations.

**3.05 PLACEMENT OF SUCCEEDING COURSES - ALL MATERIAL TYPES:**

A. Construction methods shall be the same as prescribed for the first course.

B. Prior to placing the surfacing on the completed base, the base shall be "dry cured" to the extent directed by the ENGINEER.

**3.06 DENSITY CONTROL:**

A. When the "Density Control" method of compaction is indicated on the plans, each course of flexible base shall be compacted to the percent density shown on the plans.

B. The testing will be as outlined in Test Method Tex-114-E.

C. It is the intent of this specification to provide in that part of the base included in the top 8 inches immediately below the finished surface of the roadway not less than 100 percent of the density as determined by the compaction ratio method.

D. Field density determination shall be made in accordance with Test Method Tex-115-E.

**3.07 TOLERANCES:**

A. When tolerances are permitted by the plans, the limits establishing reasonable close conformity with percent density specified are defined by the following:

1. The ENGINEER may accept the work providing not more than 25 percent of the density tests performed each day are outside the specified density by no more than three pounds per cubic foot and where no two consecutive tests on continuous work are outside the specified limits.

## PART 4 - MEASUREMENT AND PAYMENT

**4.01 MEASUREMENT:**

A. Flexible base will be measure by the square yard of surface area of completed and accepted work based on the width of flexible base as shown on the plans.

1. The flexible base shall be measured for depth by the units of 2000 square yards, with one measurement taken at a location selected by the ENGINEER.
2. In that unit where flexible base is deficient by more than 1/2 inch in thickness, the deficiency shall be corrected by scarifying, adding material as required, reshaping and re-compacting by sprinkling and rolling.

3. No additional payment over the contract unit price will be made for any flexible base of a thickness exceeding that required by plans.

B. The CONTRACTOR shall schedule his operations in such a manner as to facilitate the measurement of the pay item.

C. The ENGINEER may accept the work provided no more than 2 out of 10 depth tests performed are deficient by not more 1/2 inch and where no two consecutive tests on continuous work are outside the specified depth.

**4.02 PAYMENT**:

A. The accepted quantities of flexible base of the type, grade, and compaction method specified will be paid at the contract unit bid price per square yard, complete in place.

B. Where "Ordinary Compaction" is used, all sprinkling, rolling, and manipulation required will not be paid for directly, but will be incidental to other bid items.

C. The unit prices bid shall each be full compensation for shaping and fine grading the roadbed; for securing and furnishing all materials, including all royalty and freight involved; for furnishing scales and labor involved in weighing the material when required; for loosening, blasting, excavating, screening, crushing and temporary stockpiling when required; for loading all materials for all hauling and delivering. on the road; for spreading, mixing, blading, dragging, shaping and finishing and for all manipulation, labor, tools and incidentals necessary to complete the work.

*** * * END OF SECTION * * ***

**SECTION 02610**

**PRIME COAT**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION:

A. Prime coat shall consist of application of asphaltic materials on completed base course and/or other approved area, which shall be applied in accordance with these specifications, as shown on the plans, and as directed by the ENGINEER.

### 1.02 QUALITY ASSURANCE:

A. Test and Certification of Bituminous Materials.

1. Bituminous material is to be tested in accordance with the requirements of AASHTO M-82 and sampled in conformance with AASHTO T-40.
2. Supply, at the time of delivery of each shipment of asphalt, two certified copies of test reports, from supplying vendor, to the ENGINEER.
3. Test reports shall indicate name of vendor, type and grade of asphalt delivered, date and point of delivery, quantity delivered, delivery ticket number, purchase order number, and result of specified tests.

   The test report, signed by an authorized representative of the vendor, shall certify that the product delivered conforms to the specifications for type and grade indicated.

   Certified test reports and the testing required in the preparation of such report shall be at no cost to the COUNTY.

4. Final acceptance of bituminous materials shall be dependent on the determination by the ENGINEER that the material meets prescribed standards.

## PART 2- PRODUCTS

### 2.01 MEDIUM CURING CUTBACK ASPHALT:

A. Medium-curing liquid asphalt, designated by the letters MC, shall consist of an uncracked petroleum base stock, produced by the processing of asphaltic or semi-asphaltic base crude petroleum, blended with a kerosene-type solvent. The base stock for all MC materials shall be straight run asphalt produced within the penetration range of 100 to 300, and the end point of the kerosene type solvent shall not exceed 525 degrees F. Medium curing liquid cutback asphalt shall be free from water and show no separation.

B. Medium curing cutback asphalt shall consist of materials specified above and

conforming to the requirements set forth in Table 2610-1.

C. Unless otherwise noted on the plans or directed by the ENGINEER, cutback asphalt Grade MC-30 shall be used.

## 2.02 BLOTTER MATERIAL:

A. Supply blotter material consisting of native sand and/or sweepings from base course.

B. Native sand shall be local material obtained from approved sources as approved by the ENGINEER.

# PART 3 - EXECUTION

## 3.01 CONSTRUCTION METHODS:

A. Unless otherwise specified on the plans or, required by the ENGINEER, only asphaltic material shall be used. Where required, a combination of asphaltic and blotter material shall be used.

B. Application of Asphaltic Materials Only.

1. Apply prime coat to prepared surface when ambient air temperature is above 40 degrees F. and is rising and shall not be applied when the ambient air temperature is below 50 degrees F. and falling.
2. Apply prime coat to surfaces that have been cleaned by sweeping or other approved methods and where base is thoroughly dry and satisfactory for receiving prime coat.
3. Apply prime coat to cleaned base, at a rate of 0.2 to 0.5 gallons per square yard of surface area, using an approved type of self-propelled pressure distributor so constructed and operated to distribute the material evenly and smoothly.
4. Provide necessary facilities for the determination of temperature of asphaltic material in all heating equipment and distributors; and for determination of rate at which it is applied; and for securing uniformity at the junction of two distributor loads.
5. Keep in clean and good working condition all storage tanks, piping, reports, booster tanks and distributors used in the storage and handling of asphaltic materials.
6. Operate all associated equipment in a manner such that there is no contamination of asphaltic material with foreign material.
7. Calibrate distributor and furnish ENGINEER with an accurate and satisfactory record of such calibrations.

* If penetration of residue is more than 200 and its ductility at 77 F is less than 100, the material will be acceptable if the ductility at 60 F is greater than 100.

** Using 85% Standard Naphtha and 15% Xylene.

NOTE: Viscosity tests may be made by either Kinematic or Furol test methods.

8. Recalibrates distributor, in a manner satisfactory to the ENGINEER, after the beginning of work, should the yield on the asphaltic material applied appear to be in error.
9. No traffic, hauling or placing of subsequent courses shall be permitted over freshly applied prime coat until authorized by the ENGINEER.
10. Apply asphaltic material at a temperature within 15 F of temperature of application selected by the ENGINEER based on temperature viscosity relationship noted in Table 2610-1.
11. Maintain surface until work is Blotter Material.

C. Application of Asphaltic and Blotter Material

1. Haul blotter material in vehicles of uniform capacity and placed on shoulders at spacings designated by the ENGINEER.
2. After application of asphaltic material as specified above, cover surface with blotter material as directed by the ENGINEER.
3. After application of blotter material, drag surface with approved drag broom, evenly and smoothly distributing the blotter material.
   Brooming or dragging operation shall continue, as directed by the ENGINEER, until the course has properly cured under traffic.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 PRIME COAT:

A. Asphaltic material for prime coat will be measured for payment at point of delivery on the project in gallons at applied temperature. Payment will be paid at the unit bid price for "Prime Coat".

B. When not listed as a separate contract pay item, prime coat shall be considered as incidental work, and the cost thereof shall be included in such contract pay item(s) as are provided in the proposal contract.

C. Compensation, whether by contract pay item or incidental work will be for furnishing all material, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

## 4.02 BLOTTER MATERIALS:

A. Blotter mater will be considered incidental to asphaltic material for prime coat with no direct payment or payment therefor.

*** * * * END OF SECTION * * * ***

# SECTION 02612

## HOT MIX ASPHALT CONCRETE PAVEMENT

## PART 1 - GENERAL

### 1.01 DESCRIPTION:

A. Hot mix asphalt concrete (HMAC) pavement shall consist of a binder course, a leveling up course, a surface course or a combination of the courses as shown on the plans, or as directed by the ENGINEER.

B. HMAC pavement shall be composed of a compacted mixture of mineral aggregate and asphaltic material, constructed on previously completed and approved sub-grade, sub-base course, base course, or existing pavement.

C. HMAC pavement shall be in accordance with the specifications herein and in conformity with the lines, grades, quantities and typical sections in the contract and/or as directed by the ENGINEER.

### 1.02 QUALITY CONTROL:

A. HMAC pavement and its constituent part shall conform to the ASTM, AASHTO and/or Texas SDHPT test methods noted below.

## PART 2 PRODUCTS

### 2.01 ASPHALTIC MATERIALS

A. Asphalt cement binders shall be un-cracked petroleum asphalt and shall be carefully refined, by steam, vacuum, or solvent, from asphaltic or semi-asphaltic base crude petroleum at a temperature not to exceed 700 degrees F. Asphalt cements shall be free from thermal decomposition products and shall not be blended with any materials which have been subjected to cracking or produced from a crude petroleum source other than that of the original material. The asphalt cement shall not contain residues from non-asphaltic sources. Asphalt cement shall be homogeneous, free from water, and shall not foam when heated to 347 degrees F.

B. Paving asphalt shall be classified by penetration or viscosity and shall conform to the requirements set forth in one of the following tables as designated by the ENGINEER. The CONTRACTOR may supply asphalt meeting the requirements of one of the following tables provided that he obtains prior approval of the ENGINEER and with the provision that once approval has been obtained, that the CONTRACTOR will remain with that grade throughout the project.

**TABLE 02612-1**

C. A minimum of two percent, by weight, latex additive (solid basis) shall be added to the OA-175 Asphalt or to AC-5 Asphalt when specified in the contract. The latex additive shall be governed by the following specifications:

The latex is to be an anionic emulsion of butadiene-styrene low-temperature copolymer in water, stabilized with fatty-acid soap so as to have good storage stability, and possessing the following properties:

Monomer ration, B/S ..... 70/30
Minimum solids content ..... 67%

Solids content per gal. @ 67% ..... 5.3 lbs.
Coagulum on 80-mesh screen ..... 0.01% max.
Type Anti-oxidant ..... staining
Mooney viscosity of Polymer(M/L 4@212F) 100 min.

PH of Latex ..... 9.4 - 10.5
Surface tension ..... 28 - 42 dynes/cm2

The finished latex-asphalt blend shall met the following requirements:

Viscosity at 140 F, stokes..... 1500 max.
Ductility at 39.2 F. 1 cm. per., cm..... 100 min.

D. Asphalt content shall be within the limits noted below:

| HMAC Type | Percent of Mixture by Weight | Percent of Mixture by Volume |
|---|---|---|
| "A" | 3.5 - 7.0 | 8.0 - 16.0 |
| "B" | 3.5 - 7.0 | 8.0 - 16.0 |
| "C" | 3.5 - 7.0 | 8.0 - 16.0 |
| "D" | 4.0 - 8.0 | 9.0 - 19.0 |
| "F" | 3.5 - 6.5 | 8.0 - 16.0 |

E. At the time of delivery of each shipment of asphalt, the vendor supplying the material shall deliver to the purchaser certified copies of the test report which shall indicate the name of the vendor, type and grade of asphalt delivered, date and point of delivery, quantity delivered, delivery ticket number, and results of the above-specified tests. The test report shall be certified and signed by an authorized representative of the vendor that the product delivered conforms to the specifications for the type and grade indicated.

F. Until the certified test reports and samples of the material have been checked by the ENGINEER to determine their conformity with the prescribed requirements, the material to which such report relates an any work in which it may have been incorporated as an integral component will be only tentatively accepted by the COUNTY. Final acceptance will be dependent upon the determination of the ENGINEER that the material involved fulfills the requirements prescribed therefor. The certified test reports and the testing required in connection with the reports will be at the expense to the COUNTY.

G. Unless otherwise specified in these specifications or in the Supplementary Specifications, the various grades of paving asphalt shall be applied at a temperature range of from 210 F, the exact temperature to be determined by the ENGINEER.

H. Paving asphalt shall be heated in such a manner that steam or hot oils will not be introduced directly into the paving asphalt during heating. The CONTRACTOR shall furnish and keep on the site, at all times, an accurate thermometer suitable for determining the temperature of the paving asphalt.

I. HMAC asphalt shall be the grade having the highest penetration, within specified

limits, to produce a mix having a maximum stability of the compacted mixtures.

J. Only one (1) grade of asphalt shall be required unless otherwise shown on the plans or as required by the ENGINEER.

**2.02 AGGREGATES:**

A. HMAC aggregate will be tested in accordance with the following test:

| | |
|---|---|
| AASHTO T-30 | Mechanic Testing |
| AASHTO T-27 | Passing No. 200 Sieve |
| AASHTO T-89 | Liquid Limit |
| AASHTO T-96 | Los Angeles Abrasion |
| AASHTO T-104 | Soundness ( Magnesium Sulfate) |
| ASTM C - 131 | Resistance to Degradation |
| ASTM C - 136 | Sieve Analysis |
| ASTM C -2419 | Sand Equivalence Value |
| SDHPT Tex - 416 - E | Method of Calculating Plasticity Index of Solids |
| SDHPT Tex - 217 - F | (I & II) Determination of Deleterious Materials and Decantation Test |
| SDHPT Tex - 203 - F | Quality Test for Mineral Aggregates |

B. Aggregates shall have an abrasion of not more than 40 for all course except the non-skid surface course, which shall have an abrasion of not more than 35.

C. When property proportioned, HMAC aggregate shall produce a gradation which will conform to the limitations for classification for HMAC type shown below, or as directed by the ENGINEER.

D. Course aggregate to be crushed limestone rock or crushed gravel with hydrated lime or limestone filler. (Crushed gravel shall be per Highway Department Specifications.)

E. Binder aggregate to be composed of 15% crushed limestone screening or as directed by the ENGINEER.

**1. Type "A" - Course Graded Base Course**

Percent Aggregate by

Weight or Volume

| | |
|---|---|
| Passing 2" sieve | 100 |
| Passing 1-3/4" sieve | 95 to 100 |
| Passing 1-3/4" sieve, retained on 7/8" sieve | 16 to 42 |
| Passing 7/8" sieve, retained on 3/8" sieve | 16 to 42 |
| Passing 3/8" sieve, retained on No. 4 sieve | 10 to 26 |
| Passing No. 40 sieve, retained on No. 10 sieve | 5 to 21 |
| Total retained on No. 10 sieve | 68 to 84 |
| Passing No. 10 sieve, retained on No. 40 sieve | 5 to 21 |
| Passing No. 40 sieve, retained on No. 80 sieve | 3 to 16 |
| Passing No. 80 sieve, retained on No. 200 sieve | 2 to 16 |
| Passing No. 200 sieve | 1 to 8 |

**2. Type "B" - Fine Graded or Leveling-Up Course**

Percent Aggregate by
Weight or Volume

| | |
|---|---|
| Passing 1" sieve | 100 |
| Passing 7/8" sieve | 95 to 100 |
| Passing 7/8" sieve | 21 to 53 |
| Passing 3/8" sieve, retained on 3/8" sieve | 11 to 42 |
| Passing No. 4 sieve, retained on NO. 10 sieve | 5 to 26 |
| Total retained on No. 10 sieve | 58 to 74 |
| Passing No. 10 sieve, retained on No. 40 sieve | 6 to 32 |
| Passing No. 40 sieve, retained on NO. 80 sieve | 4 to 21 |
| Passing No. 80 sieve, retained on No. 200 sieve | 3 to 21 |
| Passing No. 200 sieve | 1 to 8 |

**3. Type "C" - Course Graded Surface Course**

Percent Aggregate by
Weight or Volume

| | |
|---|---|
| Passing 7/8" sieve | 100 |
| Passing 5/8" sieve, retained on 3/8" sieve | 95 to 100 |

| Passing No. 40 sieve, retained on No. 80 sieve | 4 to 27 |
| Passing No. 80 sieve, retained on No. 200 sieve | 3 to 27 |
| Passing No. 200 sieve | 1 to 8 |

**5. Type "F" - Fine Graded Surface Course**

| | Percent Aggregate by Weight or Volume |
|---|---|
| Passing 3/8" sieve | 100 |
| Passing No. 4 sieve | 95 to 100 |
| Passing No. 4 sieve, retained on No.10 sieve | 58 to 73 |
| Passing No. 10 sieve, retained on No. 40 sieve | 6 to 26 |
| Passing No. 40 sieve, retained on No. 80 sieve | 3 to 13 |
| Passing No. 80 sieve, retained on No. 200 sieve | 2 to 11 |
| Passing No. 200 sieve | 1 to 8 |

**2.03 PRIME COAT:**

A. Prime coat, when specified on the plans, or as directed by the ENGINEER, shall be in accordance with Section 02610 - Prime Coat, and as specified herein.

B. Prime coat shall be applied to surfaces of bases at least 12 hours prior to placing the HMAC unless otherwise directed by the ENGINEER.

C. Asphalt prime shall be applied uniformly at the rate of 0.10 to 0.30 gallon per square yard or as directed by the ENGINEER. It shall be applied only when permitted by the ENGINEER and when the air temperature is not less than 40 F.

D. In order to prevent lapping at the junction of two applications, the distributor shall be promptly shut off. A hand spray shall be used to touch up all spots unavoidably missed by the distributor.

E. Immediately prior to application of the asphalt prime, an inspection will be made by the ENGINEER to verify that the base course has been constructed as specified. Also, all loose and foreign material shall be removed by light sweeping. Material so removed shall not be mixed with cover aggregate.

F. The surface to be primed shall be in a smooth an well-compacted condition, true to grade and cross section, and free from ruts and inequalities.

G. The pressure distributor used for applying prime coat material shall be equipped with pneumatic tires and shall be so designed and operated as to distribute the prime material in a uniform spray without atomization, in the amount an between the limits of temperature specified. It shall be equipped with a speed tachometer registering feet per minute and so located as to be visible to the truck driver to enable him to maintain the constant speed required for application at the specified rate.

H. The pressure distributor shall be equipped with a tachometer registering the pump speed, pressure gauge, and a volume gauge. The rates of application shall not vary from the rates specified by the ENGINEER by more than 10%. Suitable means for accuracy indicating at all times the temperature of the prime material shall be provided. The thermometer well shall be so placed as not to be in contact with a heating tube.

I. The distributor shall be so designed that the normal width of application shall not be less than 6 feet, with provisions for the application of lesser width when necessary. If provided with heating attachments, the distributor shall be so equipped and operated that the prime material shall be circulated or agitated through the entire heating process.

J. The asphalt prime coat should preferably be entirely absorbed by the base course and, therefore, require no sand cover. If, however, it has not been completely absorbed prior to the start of placing the asphalt concrete mixture and in the meantime it is necessary to permit traffic thereon, just sufficient sand shall be spread over the surface to blot up the excess liquid asphalt and prevent picking it up under traffic. Also, sand shall be used in areas where traffic may pass over the prime coat. Prior to placing the asphalt concrete, loose or excess sand shall be swept from the base. If a sand cover is specified in the Supplementary Specifications or noted on the plans to cover asphalt prime, it shall be applied within 4 hours after the application of said prime coat, unless otherwise ordered by the ENGINEER.

K. Liquid asphalt shall be prevented from spraying upon adjacent pavements, structures, guard rails, guide posts, culvert markers, trees, and shrubbery that are not to be removed; adjacent property and improvements; and other facilities or that portion of the traveled way being used by traffic.

L. The CONTRACTOR shall protect the prime coat against all damage and markings, both from and other traffic. Barricades shall be places where necessary to protect the prime coat. If, after prime coat has been applied satisfaction of the ENGINEER and has been accepted by him, it is distributed by negligence on the part of the CONTRACTOR, it shall be restored at his expense to its condition at the time of acceptance. No material shall be placed until the prime coat is in a condition satisfactory to the ENGINEER.

## 2.04 TACK COAT:

A. If the asphalt concrete pavement is being constructed directly upon an existing hard-surfaces pavement, a tack coat shall be evenly and uniformly applied to such existing pavement preceding the placing of the asphalt concrete. The surface shall be free of water, all foreign material, or dust when the tack coat is applied. No greater area shall be treated in any one day than will be covered by the asphalt concrete during the same day. Traffic will not be permitted over tack coating.

B. Tack coat for HMAC shall consist of either rapid curing cut-back asphalt RC-2 diluted by addition of (not to exceed 15 percent by volume) an approved grade of gasoline and/or kerosene; emulsified asphalt, EA-11M diluted with 50 percent water, or a cut-back asphalt made by combining 50 to 70 percent of the asphaltic materials specified for the paving mixture with 30 to 50 percent gasoline and/or kerosene by volume.

C. Tack coat shall conform to the requirements of Section 02620 - Tack Coat, or as specified herein.

D. Application rate shall be 0.10 it 0.15 gallons per square yard as directed by the ENGINEER.

E. A similar tack coat shall be applied to the surface of any course if, in the opinion of the ENGINEER, the surface is such that a satisfactory bond cannot be obtained between it and the succeeding course.

F. When required, the contact surfaces of all cold pavement joints, curbs, gutters, manholes, and the like shall be painted with a tack coat immediately before the adjoining asphalt concrete is placed. Asphalt tack coat shall be applied in controlled amounts as shown on the plans or determined by the ENGINEER. Surfaces where a tack coat is required shall be cleaned to the satisfaction of the ENGINEER before the tack coat is applied.

## 2.05 MINERAL FILLER:

A. Mineral filler, other than hydrated lime, shall consist of a thoroughly dry stone dust, portland cement or other mineral dust approved by the ENGINEER.

B. The mineral filler shall be free from foreign or other deleterious matter.

C. When tested by the method outlines in SDHPT Test Method Tex-200-F (Part 1 or 3), mineral filler shall meet the following gradations by weight:

| | |
|---|---|
| Passing No. 30 Sieve | 95 to 100% |
| Passing No. 80 Sieve | 75% |
| Passing No. 200 Sieve | 55% |

## 2.06 Anti-Stripping compound, as required in the job mix formula, shall be furnished in the amounts calculated therein.

## 2.07 JOB MIX FORMULA:

A. A job mix formula based on representative samples, including filler if required, shall be determines by the ENGINEER, or submitted by the CONTRACTOR for approval of the ENGINEER.

B. The resultant job mix formula shall be within the master range for the specified type of HMAC.

C. The job mix formula for each mixture shall established a single percentage of aggregate passing each required sieve size, and a single percentage of bituminous material to be added to the aggregate and shall provide for 3 to 5% air voids in the resultant design mix. During the mix design process the ENGINEER will consider other factors, in addition to air voids and Marshall stability, such as durability, water resistance and asphalt film thickness when developing the mix design.

D. After the job mix formula is established, mixtures for the project shall conform thereto within the following tolerances which may fall outside of the specified master range:

Passing 1-3/4" sieve, retained on 7/8" sieve ..... Plus or minus 5
Passing 7/8" sieve, retained on 3/8" sieve ..... Plus or minus 5
Passing 5/8" sieve, retained on 3/8" sieve ..... Plus or minus 5
Passing 3/8" sieve, retained on No. 4 sieve ..... Plus or minus 5
Passing No. 4 sieve, retained on No. 10 sieve ..... Plus or minus 5
Total retained on No. 10 sieve ..... Plus or minus 5
Passing No. 10 sieve, retained on No. 40 sieve ..... Plus or minus 3
Passing No. 40 sieve, retained on No. 80 sieve ..... Plus or minus 3
Passing No. 80 sieve, retained on No. 200 sieve ..... Plus or minus 3
Passing No. 200 sieve ..... Plus or minus 3

Asphaltic Material ..... Plus or minus 0.05 by weight or 1.2 by volume

Mixing Temperature ..... Plus or minus 20 F

E. Asphaltic mixture shall be tested in accordance with SDHPT Test Method Tex-200-4 (Part I or Part III) and shall have the following laboratory values:

| | **Surface Course** | **Base Course** |
|---|---|---|
| Density - Minimum | 95% | 95% |
| Maximum | 99% | 99% |
| Optimum | 97% | 97% |

| | | |
|---|---|---|
| Stability - (Hveenm) | | |
| Minimum | 30% | 30% |
| Maximum | 45% | 45% |
| Stability (Marshall - 75 Blow Briquette) | 1500 lbs. | 1500 - lbs. |
| Voids | 3 - 7% | 4 - 7% |
| Voids Filled With Asphalt | 75 - 85% | 65 - 80% |
| Sand Equivalent | 40 | 40 |

**2.08 EQUIPMENT:**

A. All equipment for the handling of all material, mixing, and placing of HMAC shall be in accordance with the provisions of Texas SDHPT Item 340.

**2.09 STOCKPILING, STORAGE, PROPORTIONING AND MIXING:**

A. Stockpiling, storage proportioning and mixing operations shall be in accordance with the Provisions of Texas SDHPT Item 340.

## PART 3 - EXECUTION

**3.01 WEATHER AND TEMPERATURE LIMITATIONS:**

A. Asphaltic mixture, when placed with a spreading and finishing machine, or the tack coat shall not be placed when the air temperature is 50 F and falling, but may be placed when the air temperature is 40 F and rising.

B. Asphaltic mixture, when placed with a motor grader, shall not be placed when the air temperature is 60 F and falling, but may be placed when the air temperature is 50 F and rising.

C. Mat thicknesses of 1> inches or less shall not be placed when the temperature on which the mat is to be laid is below 50 F.

D. No tack coat or asphaltic mixture shall be placed when the humidity, general weather conditions and temperature and moisture condition of the base, in the opinion of the ENGINEER, are unsuitable.

E. If, after being discharged from the mixer and prior to placing, the temperature of the asphaltic mixture is 50 F or more below the temperature established by the ENGINEER, all or any part of the load may be rejected and payment will not be made for the rejected material.

## 3.02 EQUIPMENT

A. Hauling Equipment:

1. Trucks used for hauling asphaltic mixtures shall have tight, clean, smooth metal beds which have been thinly coated with a minimal amount of paraffin oil, lime slurry, time solution or other approved material to prevent mixture adhesion to the bed.
2. The dispatching of hauling equipment shall be arranged so that all material delivered may be placed and all rolling completed during daylight hours, unless otherwise directed by the ENGINEER.
3. All trucks shall be equipped with a cover of canvas, or other suitable material to protect the mixture from weather or on hauls where the temperature of the mixture will fall below specified level. Use of covers will be as directed by the ENGINEER.

B. Rollers:

1. Pneumatic Tile Roller. This roller shall consist of not less than seven pneumatic tire wheels, running on axles in such manner that the rear group of tires shall cover the entire gap between adjacent tires of the forward group; mounted in a rigid frame; and provided with a loading platform or body suitable for ballast loading. The front axle shall be attached to the frame in such manner that the roller may be turned within a minimum circle. The tire shall afford surface contact pressures up to 90 pounds per square inch or more. The roller shall be so constructed as to operate in both a forward and a reverse direction with suitable provisions for moistening the surface of the tires while suitable provisions for moistening the surface of the tires while operating; and shall be approved by the ENGINEER.
2. Two Axle Tandem Roller. This roller shall be acceptable power-driver, steel-wheel, tandem roller weighing not less than eight tons. It must operate in forward and reverse directions; contain provision for moistening the surface of the wheels while in motion; and shall be approved by the ENGINEER.
3. Three Wheel Roller. This roller shall be an acceptable power-driven, all steel three wheel roller weighing not less than 10 tons. It must operate in forward and reverse directions; contain provisions for moistening the surface of the wheel while in motion; and shall be approved by the ENGINEER.
4. Vibratory Steel Wheel Roller. If approved for use by the OWNER, this roller shall have a minimum weight of six tons. The compactor shall be equipped with amplitude and frequency controls and shall be specifically designed to compact the material on which it is used. It shall be operated in accordance with the manufacturer's recommendations.

C. Straight Edges:

1. The CONTRACTOR shall provide an acceptable 16-foot straight-edges for surface testing. Satisfactory templates shall be provided as required by the ENGINEER.

D. Spreading and Finishing Machine:

1. Bituminous pavers shall be self-contained, power-propelled units, provided with an activated screed or a strike-off assembly, heated if necessary, and capable of spreading and finishing courses of bituminous plant mix material in lane widths applicable to the specified typical section and thickness shown on the plans.
2. The paver shall be equipped with a receiving hopper having sufficient capacity for a uniform spreading operation. The hopper shall be equipped with a distribution system to place the mixture uniformly in from of the screed. Design will be such that no part of the truck weight will be supported by the paver.
3. The screed or strike-off assembly shall effectively produce a finished surface of the required evenness and texture without tearing, shoving or gouging the mixture. When laying mixtures, the paver shall be capable of being operated at forward speeds consistent with satisfactory laying of the mixture. The screed shall be adjustable for both height and crown and shall be equipped with a controlled heating device.
4. The bituminous paver shall be equipped with an automatic leveling device controlled from an external guide. The initial pass for each course shall be made using a paver equipped with a 40-foot minimum external reference, except that this requirements will not apply when asphalt concrete is placed adjacent to portland cement concrete pavement. Subsequent passes may utilize the matching device of one foot minimum length riding on the adjacent lay.

## 3.03 CONSTRUCTION METHODS:

A. Spreading and Finishing:

1. The asphalt concrete mixture shall be laid on the approved surface, spread and struck off to the grade and elevation established. It shall be spread and compacted in layers as shown on the plans or as directed by the ENGINEER. Bituminous pavers shall be used to distribute the mixture either over the entire width or over such partial width as may be practicable.
2. The ENGINEER will determine a minimum placement temperature, which is measured immediately behind the laydown machine, shall not vary more than 20 F.
3. A conventional paver or suitable equipment approved by the ENGINEER may be used to place asphalt concrete material on shoulders depressed from the traveled lanes in order to established a uniform typical section. Approval of the equipment used will be based upon the results obtained.

4. The asphalt concrete may be dumped from the hauling vehicles directly into the paving machine or it may be dumped upon the surface being paved and subsequently loaded into the paving surface being paved and subsequently loaded into the paving machine; however, no asphaltic concrete shall be dumped from the hauling vehicles at a distance greater than 250 feet in

front of the paving machine. When asphaltic concrete is dumped first upon the surface being paved, the loading equipment shall be self-supporting and shall not exert any vertical load on the paving machine. Substantially all of the asphaltic concrete dumped shall be picked up and loaded into the paving machine.

5. To achieve, as far as practicable, a continuous operation, the speed of the paving machine shall be coordinated with the production of the plant. Sufficient hauling equipment shall be available to insure continuous operation.
6. The control system shall control the elevation of the screed at each end by controlling the elevation of one end directly and the other indirectly either through controlling the transverse slope or alternately when directed, by controlling the elevation of each end independently, including any screed attachment used for widening, etc. Failure of the control system to function properly shall be cause for the suspension of the asphaltic concrete operations.
7. When dumping directly into the paving machine from trucks, care shall be taken to avoid jarring the machine or moving it out of alignment.
8. All courses of asphaltic concrete shall be placed and finished by means of self-propelled paving machines except under certain conditions or at certain locations where the ENGINEER deems the use of self-propelled paving machines impracticable.
9. Self-propelled paving machines shall spread the asphaltic concrete without segregation or tearing within the specified tolerances, true to the line, grade, and crown indicated on the plans. Pavers shall be equipped with hoppers and augers which will place the asphaltic concrete evenly in front of adjustable screeds without segregation. Screeds shall include any strike-off device operated by tamping or vibrating action which is effective without tearing, shoving or gouging the asphaltic concrete and which produces a finished surface of an even and uniform texture for the full width being paved. Screeds shall be adjustable as to height and crown and shall be equipped with a controlled heating device for use when required.
10. On areas where irregularities or unavoidable obstacles make the use of mechanical spreading and finishing equipment impracticable, the mixture shall be spread, raked, fluted and compacted with hand tools. For such areas the mixture shall be dumped, spread and screed to give the required compacted thickness.

B. Compaction:

1. Rolling with the 3-wheel and tandem roller shall start longtitudally at the sides and proceed toward the center of the surface course, overlapping on successive trips by at least half the width of the rear wheels.

2. Alternate trips of the roller shall be slightly different in length.
3. Rolling with a pneumatic tired roller shall be as directed by the ENGINEER.
4. Rolling shall continue with no further compression can be obtained and all roller marks are eliminated
5. The motion of the roller shall be slow enough at all times to avoid displacement of asphaltic materials. If displacement occurs, it shall be

corrected immediately by use of rakes and fresh asphaltic mixtures, where required.

6. The roller shall not be allowed to stand on the surface course when it has not been fully compacted and allowed to cool.
7. To prevent adhesion of the surface course to the roller, the wheels shall be kept thoroughly moistened with water; however, excess water shall not be allowed.
8. All precautions shall be taken to prevent dripping of gasoline, oil, grease, or other foreign substances on the surface or base courses during rolling operations or while rollers are standing.
9. With the approval of the ENGINEER, a vibratory steel wheeled roller may be substituted for the 3-wheel roller and tandem roller.
10. Along forms, curbs, headers, walls and other places not accessible to the rollers, the mixture shall be thoroughly compacted with hot hand tampers, smoothing irons, or with mechanical tampers. On depressed areas, a trench roller may be used or cleated compression strips may be used under the roller to transmit compression to the depressed area.
11. Any mixture that becomes loose, broken, mixed with dirt, segregated, or is in any way defective shall be removed and replaced with fresh hot bituminous mixture, which shall be compacted to conform with the surrounding area. Any area showing excess or deficiency of bituminous material shall be corrected immediately as directed by the ENGINEER.

C. In-Place Density:

1. In-place density shall be required for all mixtures except thin irregular depth leveling courses.
2. Each course, after final compaction, shall have a density of not less than 95 percent of the density developed in the laboratory test method outlines in Texas SDHPT Bulletin C-14.
3. Density shall be determined with a portable nuclear test device in conformity with ASTM D-2950.76.
4. Calibration of the portable nuclear device will be established by the ENGINEER from cut pavement samples tested in accordance with AASHTO T-166 (weight, volume method). The density readings of the cut pavement samples determined in accordance with AASHTO T-166 (weight, volume method), and the density readings of the pavement samples determined by the portable nuclear test device in conformity with ASTM D 2950 will be correlated by the ENGINEER.
5. Other methods of determining in-place density may be used as deemed necessary by the ENGINEER.
6. It is intended that acceptance density testing will be done while the bituminous mixture is hot enough to permit further compaction if necessary. If the density of an acceptance section does not meet the specified requirements, the CONTRACTOR shall continue the compaction effort until the optimum density is obtained, but rolling for any compactive effort will not be allowed when the temperature of the mix is below 175 F unless authorized in writing by the ENGINEER. Rerolling the paved surface after it has initially cooled will not be allowed.

7. If in-place density tests of the mixture produce a value lower than specified and in the opinion of the ENGINEER is not due to a change in the quality of the material, production may proceed with subsequent changes in the mix and/or construction procedures until in-place density equals or exceeds the specified density.
8. In-place density tests will be provided by the ENGINEER unless otherwise specified.

D. Joints:

1. Placing of the asphalt concrete shall be as continuous as possible. Rollers shall not pass over the unprotected end of a freshly laid mixture unless authorized by the ENGINEER.
2. When plant mix bituminous pavement is places over plant mix bituminous treated base or when plant mixed seal coat is places over plant mix bituminous pavement, longitudinal joints shall be staggered at least 6 inches with relation to the longitudinal joints of the underlying course.
3. Transverse joints shall have two foot or 12:1 minimum taper. Longitudinal joints shall have a one foot or 6:1 minimum taper. All transverse tapers shall be cut and squared off prior to commencing new work. Tapered longitudinal joints from previous operations shall be cleaned and tack coated if directed by the ENGINEER. All joints shall be completely bonded. The surface of each course at all joints shall be smooth and shall not show any deviations in excess of 3/16 of an inch when tested with a 10-foot straightedge in any direction.
4. When paving under traffic the CONTRACTOR shall plan his daily surfacing operations on a schedule which will result in not more than one (1) day's operation of exposed longitudinal joints. The longitudinal joints shall not have a height greater than two (2) inches and shall not be left exposed longer than 24 hours.

E. Surface Tolerance:

1. Upon completion, the pavement shall be true to grade and cross section. Except at intersections or any changes of grade, when a 16 foot straight edge is laid on the finished surface parallel to the centerline of the roadway, the surface shall not vary from the edge of the straight edge more than 1/16-inch per foot. Areas that are not within this tolerance shall be brought to grade immediately following the initial rolling. After the completion of final rolling, the smoothness of the course shall be checked, and the irregularities that exceed the specified tolerances or that retain water on the surface shall be corrected by removing the defective work and replacing with new material as directed by the ENGINEER at the expense of the CONTRACTOR.

F. Manholes and Valve Covers:

1. Manhole frames and valve covers shall be adjusted prior to placing the surface course.

G. Compacted Thickness of HMAC surface and Base Courses:

1. Surface Courses. The compacted thickness or depth of the asphaltic concrete surface course shall be as shown on the plans. Where the plans require a depth or thickness of the surface course greater than two inches compacted depth, same shall be placed in multiple courses of equal depth, each of which shall not exceed two inches compacted depth. If, in the opinion of the ENGINEER, an additional tack coat is considered necessary between any of the multiple courses, it shall be applied at the rate as directed.
2. Base Courses. The compacted thickness or depth of each base course shall be as shown on the plans. Where the plans require a depth or thickness of the course greater than 4 inches, same shall be accomplished by constructing multiple lifts of approximately equal depth, each of which shall not exceed these maximum compacted depths. If, in the opinion of the ENGINEER, an additional tack coat is considered necessary between any of the multiple lifts, it shall be applied as herein before specified and at the rate as directed.

H. Pavement Thickness Tests:

1. Pavement Thickness Test. Upon completion of the work and before final acceptance and final payment shall be made, pavement thickness test shall be made by the ENGINEER or his authorized representative unless otherwise specified in the special provisions or in the plans. The number and location of tests shall be at the discretion of the OWNER. The cost for the initial pavement thickness test shall be at the expense of the ENGINEER. In the event a deficiency in the thickness of pavement is revealed during normal testing operations, subsequent tests necessary to isolate the deficiency shall be at the CONTRACTOR's expense. The cost for the additional coring test shall be at the same rate charged by commercial laboratories.

I. Price Adjustment for Roadway Density:

1. The pavement of the unit price will be adjusted for roadway density as outlined in the following table. The adjustment will be applied on a lot by lot basis for each lift. The adjustment will be based on the average of five density tests. The price adjustment will be applied to the entire asphalt concrete mix which includes the HMAC aggregate, the asphalt cement and anti-stripping compound, is used.

| **Average Density % of Lab Density** | **Percent of Contract Price To Be Paid** |
|---|---|
| Above 95% | 100% |
| 94.0 to 94.99 | 96% |
| 93.0 to 93.99 | 91% |

| | |
|---|---|
| 92.0 to 92.99 | 85% |
| Less than 92.0 | * |

* This lot shall be removed and replaced to meet specification requirements as ordered by the ENGINEER. In lieu thereof, the CONTRACTOR and the ENGINEER may agree in writing that for practical purposes, the lot shall not be removed and will be paid for at 50% of the contract price.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 INCIDENTAL WORK:

A. Prime coat, anti-stripping compound, where used and tack coat shall not be measured for direct payment, but shall be considered as subsidiary work pertaining to the placing of asphaltic mixtures of the contract price.

### 4.02 MEASUREMENT:

A. Hot-mix asphalt concrete material shall be measured by the ton of 2,000 pounds or by the square yard of the type or types used in the completed and accepted work.

B. Weight shall be determined by a certified scale approved by the OWNER and recorded serially numbered weight tickets, identifying the vehicle and presented to the ENGINEER's representative on the job.

### 4.03 PAYMENT:

A. Work performed and materials furnished, as prescribed by this item, measured as provided herein, shall be paid at the unit bid price per ton or square yard for the type or types of hot mix asphalt concrete pavement shown on the proposal.

B. Unit bid price shall be payment in full for quarrying; furnishing all materials; for all heating; mixing; hauling; cleaning existing base course or pavement; placing asphaltic mixtures; rolling and finishing; and for all labor, tools, equipment and incidentals necessary to complete the work, including the work and materials involved in the application of prime coat and tack coat.

*** * * END OF SECTION * * ***

# SECTION 02615

# STABILIZED AGGREGATE LAYER (SAL)
# PAVED ROADWAY APPLICATIONS

## PART 1 GENERAL

### 1.01 SUMMARY

A. Section Includes – These specifications cover the requirements for constructing a Stabilized Aggregate Layer (SAL) in conjunction with other components and/or activities typical of paved or unpaved roadways or parking lots (i.e. subgrade preparation, asphalt, etc.). The work includes all materials, labor, equipment, storage, private lab testing, sampling, handling, excavation, disposal, tools, removal, placement, hauling, shaping, compacting, surveying, finishing to grade, curing, fees, permits, test-rolling and/or proof-rolling the aggregate including all appurtenances and incidentals necessary to complete the work. This specification is for stabilization of the pavement section aggregate base layer only. The properties and performance of the SAL have been considered in and are integral to the structural design of the pavement structure; thus no modification of the pavement structure shall be made other than the alternative stabilization methods described herein and in accordance with the requirements for submission of alternatives described herein.

B. Mechanically Stabilized Layer - This work shall consist of Mechanical Stabilization to reinforce the aggregate base layer. Mechanically Stabilized Aggregate includes, but is not limited to, the confinement of the aggregate material by use of a geogrid reinforcement system whereby the design requirements of the project are achieved.

C. Related Sections
   1. Section 02200 - Site Preparation
   2. Section 02300 - Earthwork
   3. Section 02700 - Bases, Ballasts, Pavements, and Appurtenances

### 1.02 DEFINITIONS

A. Stabilized Aggregate Layer (SAL) – A SAL is a layer of a defined thickness of unbound aggregate or base course materials that have been modified or improved through mechanical or chemical methods whereby the resulting layer behaves as a composite layer and has improved properties and performance capabilities.'

B. Mechanically Stabilized Layer (MSL) – A composite layer of a defined thickness comprised of unbound aggregate or base course materials combined with one or more layers of a polymeric geogrid grid structure that has been formed by a regular network of integrally connected, multi-directional tensile elements of appropriate orientation, size and shape with triangular apertures of appropriate size and shape to allow interlocking with the unbound aggregate or base course materials. The combination of the two materials creates an improved or modified composite layer with significantly improved properties and performance capabilities.

C. Chemical Stabilized Layer (CSL) – A composite layer of a defined thickness comprised of unbound aggregate or base course materials combined with some means of chemical (lime, cement, or other) that creates an improved or modified composite layer with significantly improved properties and performance capabilities.

D. Unbound Aggregate Layer – A layer of a defined thickness of unbound aggregate or base course materials that has not be modified or improved in any way. To achieve equivalent properties and performance to a SAL, an unbound aggregate layer will require greater thickness than a SAL.

E. Unpaved Application – Use of a SAL immediately over a soft subgrade soil in order to improve the bearing capacity and mitigate deformation of the subgrade soil under repeated loads. The goal of this application may be to reduce undercut requirements, improve construction efficiency, reduce the amount of aggregate subbase/base material required, provide a stiff working platform for pavement construction, or combination of these. The use of a SAL may also be considered as "unpaved" when the composite structure is utilized beneath a paved surface (rigid or flexible pavement) for the purpose of achieving the needed subgrade improvement for construction trafficking and site access.

F. Paved Application – Use of a SAL beneath or within the aggregate base course of a flexible (asphalt) pavement system to improve the stiffness of the system. The goal of this application may be to reduce the amount of aggregate or asphalt material required (reducing initial cost), increase the life of the pavement (reduce life-cycle cost), or a combination of the two.

## 1.04 SYSTEM DESCRIPTION

A. Option A – Mechanically Stabilized Layer - This work shall consist of Mechanical Stabilization to reinforce the aggregate base layer. Mechanically Stabilized Aggregate includes, but is not limited to, the confinement of the aggregate material by use of a geogrid reinforcement system whereby the design requirements of the project are achieved.

## 1.05 DESIGN & PERFORMANCE

A. The design of the pavement shall be in accordance with the 1993 American Association of State Highway and Transportation Officials (AASHTO) Guide for Design of Pavement Structures.

B. The Mechanically Stabilized Layer within the pavement structure shall have a thickness of 10.5 inches (267 mm) or as shown on the contract plans.

C. The design of the pavement shall be based on the following parameters:
1. Design traffic = 1000000 ESALs
2. Mechanically Stabilized Layer SN = 1.68

D. The MSL shall be incorporated into the pavement design by utilizing modified layer coefficients. Modified layer coefficients shall be calibrated and validated with the results of full scale laboratory, field and/or accelerated pavement testing where actual geogrids are tested in-soil and in representative conditions.

E. In-air index testing of geogrid properties, or explanations of performance based on in-air index testing of geogrid properties are not sufficient to understand the complex mechanisms involved in soil/geogrid interaction and/or the performance of MSLs. Therefore, no acceptance of alternates based on material property comparisons or explanations of performance based on in-air testing of geogrid properties will not be allowed.

F. Any submittal for an alternative MSL must be submitted at least 2 weeks in advance of the bid date and must be accompanied with the following:

1. A design signed and sealed by a professional engineer registered to practice in the country, state or province in which the project is located.
2. A written statement from the alternative MSL design engineer-of-record that the design is based on the AASHTO 1993 Pavement Design Guide and utilizes modified layer coefficient that have been properly calibrated and validated for the geogrid reinforcement utilized in the MSL in accordance with this Section.

## 1.06 SUBMITTALS

A. Submit representative geogrid product sample.

B. Submit geogrid product data sheet and certification from the Manufacturer that the geogrid product supplied meets the requirements of sub-part 2.02A of this Section.

C. Submit Manufacturer's installation instructions and general recommendations.

## 1.07 QUALITY ASSURANCE

A. Pre-Construction Conference - Prior to the start of construction of the MSL, the Contractor shall arrange a meeting at the site with the geogrid material supplier and, where applicable, the geogrid installer. The Owner and the Engineer shall be notified at least 3 days in advance of the time of the meeting. A representative of the geogrid supplier shall be available on an "as needed" basis during construction.

## 1.08 DELIVERY, STORAGE, AND HANDLING

A. Storage and Protection

1. Prevent excessive mud, wet concrete, epoxy, or other deleterious materials from coming in contact with and affixing to the geogrid materials.
2. Store at temperatures above -20 degrees F (-29 degrees C).
3. Rolled materials may be laid flat or stood on end.
4. Geogrid materials should not be left directly exposed to sunlight for a period longer than the period recommended by the manufacturer.

## PART 2 PRODUCTS

### 2.01 MANUFACTURERS

A. An approved source of geogrid is The Tensar Corporation, Morrow, GA or their designated representative.

### 2.02 MATERIALS

A. Structural Soil Reinforcement Geogrid – The geogrid component of the SAL shall be TriAx TX5 or TX7 and shall be integrally formed and produced from a punched sheet of polypropylene which is then oriented in three substantially equilateral directions so that the resulting ribs shall have a high degree of molecular orientation, which continues at least in part through the mass of the integral node.

B. The resulting geogrid structure shall have apertures that are triangular in shape, and shall have ribs with a depth-to-width ratio greater than 1.0.

C. The geogrid shall have the nominal characteristics shown in the table below, and shall be certified in writing by the manufacturer to be TX5 or TX7:

TX5

| **Properties** | **Longitudinal** | **Diagonal** | **Transverse** | **General** |
|---|---|---|---|---|
| Rib pitch, mm (in) | 40 (1.60) | 40 (1.60) | - | |
| Mid-rib depth, mm (in) | - | 1.3 (0.05) | 1.2 (0.05) | |
| Mid-rib width, mm (in) | - | 0.9 (0.04) | 1.2 (0.05) | |
| Rib shape | | | | rectangular |
| Aperture shape | | | | triangular |

## PART 3 EXECUTION

### 3.01 EXAMINATION

A. The Contractor shall check the geogrid upon delivery to verify that the proper material has been received. The geogrid shall be inspected by the Contractor to be free of flaws or damage occurring during manufacturing, shipping, or handling.

### 3.02 PREPARATION

A. The subgrade soil shall be prepared as indicated on the construction drawings or as directed by the Engineer.

### 3.03 INSTALLATION

A. The SAL shall be constructed at the proper elevation and alignment as shown on the construction drawings.

B. The geogrid shall be installed in accordance with these plans and specifications and any installation guidelines provided by the manufacturer or as directed by the Engineer.

C. The geogrid may be temporarily secured in place with ties, staples, pins, sand bags or backfill as required by fill properties, fill placement procedures or weather conditions or as directed by the Engineer.

### 3.04 GRANULAR FILL PLACEMENT OVER GEOGRID

A. Granular fill material shall be placed in lifts and compacted as directed under Section N/A and Section N/A. Granular fill material shall be placed, spread, and compacted in such a manner that minimizes the development of wrinkles in the geogrid and/or movement of the geogrid.

B. A minimum loose fill thickness of 6 inches (150mm) is required prior to operation of tracked vehicles over the geogrid. Turning of tracked vehicles should be kept to a minimum to prevent tracks from displacing the fill and damaging the geogrid. When underlying substrate is trafficable with minimal rutting, rubber-tired equipment may pass over the geogrid reinforcement at slow speeds (less than 5 mph). Sudden braking and sharp turning movements shall be avoided.

### 3.05 INSPECTION

A. The Owner or Owner's representative may randomly inspect geogrid before, during and after (using test pits) installation.

B. Any damaged or defective geogrid (i.e. frayed coating, separated junctions, separated layers, tears, etc.) will be repaired/replaced in accordance with Section 3.06.

### 3.06 REPAIR

A. Any roll of geogrid damaged before, during and after installation shall be replaced by the Contractor at no additional cost to the Owner.

B. Proper replacement shall consist of replacing the affected area adding 3ft (1m) of geogrid beyond the limits of the affected area.

### 3.07 PROTECTION

A. Follow the Manufacturer's recommendations regarding protection from exposure to sunlight.

## PART 4 BASIS OF PAYMENT – <u>ALL OPTIONS</u>

### 4.01 Unit of Measure

Stabilized Aggregate Layer shall be paid for by the square yard (square meter).

The unit price bid per square yard (square meter) shall include all materials, labor, equipment, storage, private lab testing, sampling, handling, excavation, disposal, tools, removal, placement, hauling, shaping, compacting, surveying, finishing to grade, curing, fees, permits, and proof-rolling the SAL including all appurtenances and incidentals necessary to complete the work. Test rolling and/or Proof rolling shall be considered incidental to the contract and will not be measured or paid for separately.

Payment will be made under:

| PAY ITEM | PAY UNIT |
|---|---|
| Stabilized Aggregate Layer | Square Yard (Square Meter) |

*** * *END OF SECTION * * ***

# SECTION 02660

# CONCRETE CURB AND GUTTER AND VALLEY GUTTER

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK

A. This work shall consist of the construction of concrete curb, concrete curb and gutter, concrete gutter or valley gutter, or combination thereof in compliance with these specifications, lines, grades, and details shown on the plans, or as directed by the ENGINEER.

## PART 2 - PRODUCTS

### 2.01 MATERIALS

A. Concrete and manufactured curb and gutter materials shall be subject to inspection and tests at plants and construction sites for compliance with quality requirements.

B. Concrete curb and gutter or concrete valley gutter shall be constructed with concrete conforming to the provisions of Section 02614 - Portland Cement Concrete Paving, or Class "B" concrete conforming to the requirements of Section 03300 - Cast-In-Place Concrete.

C. Preformed expansion Joint Filler shall conform to the requirements of AASHTO M-33 or M-153.

D. Linseed Oil shall conform to the requirements of AASHTO D-260.

E. Mineral Spirits shall conform to the requirements of AASHTO D-235.

### 2.02 FOUNDATION

A. Concrete curb and gutter or concrete valley gutter shall be placed on an approved foundation conforming to the requirements of the following City Of McAllen Specifications:

1. Section 02210 - Subgrade Preparation,

2. Section 02601 - Flexible Base,

3. Section 02230 - Roadway Excavation, Borrow, and Embankment.

## PART 3 - EXECUTION

### 3.01 EXCAVATION

A. When required, excavation shall be made to the specified depth, and the base upon which the curb and gutter or valley gutter is to be placed shall be compacted to a firm, even surface conforming to the requirements of Subsection 2.02 above.

B. All soft and unacceptable material shall be removed an replaced with material approved by the ENGINEER in conformance with the requirements of Subsection 2.02 above.

### 3.02 FORMS

A. Forms shall be of wood or metal, straight, free from warp, and of such construction that there will be no interference to the inspection of grade or alignment.

B. All forms shall extend for the entire depth of the curb and gutter and shall be braced and secured sufficiently so that no deflection from alignment or grade will occur during the placing of the concrete. Flexible forms shall be used in curved sections so that the top surface of the forms will form a smooth, continuous arc.

### 3.03 MIXING AND PLACING

A. Concrete shall be proportioned, mixed, and placed in accordance with the requirements of Section 02614 and Section 03300.

B. Compaction of the concrete placed in forms shall be by vibration or other acceptable methods.

C. Unless otherwise provided, the exposed surfaces of curbs and gutters shall be finished by belting or with wooden floats. Forms shall be left in place until the concrete has set sufficiently so that they can be removed without injury to the curb and gutter.

### 3.04 SECTIONS

A. Curb and gutter shall be constructed in sections having a uniform length of 20 feet, unless otherwise directed by the ENGINEER. Sections shall be separate by open joints 1/8 inch wide except at expansion joints.

### 3.05 EXPANSION JOINTS

A. Expansion joints shall be formed at the intervals shown on the plans using a performed expansion joints filler having a thickness of 3/4 inch.

B. When the curb and gutter is constructed adjacent to or on concrete pavement, expansion joints, shall be located opposite or at expansion joints in the pavement.

## 3.06 CURING

A. Immediately upon completion of the finishing, the curb and gutter shall be moistened and kept moist for 3 days, or the curb and gutter shall be cured by the use of membrane-forming material. The method and details of curing shall be subject to the approval of the ENGINEER.

## 3.07 SURFACE TREATMENT

A. The surface of concrete curb and gutter or concrete valley gutter shall be treated with a solution of Linseed Oil and Mineral Spirits in accordance with the applicable requirements of Section 03300 - Cast-In-Place Concrete.

## 3.08 BACKFILLING

A. After the concrete has set sufficiently, the spaces in front and back of the curb shall be refilled to the required elevation with material approved by the ENGINEER, and shall be thoroughly tamped in layers of not more than 6 inches.

## 3.09 SLIP-FORM CONCRETE CURB, CONCRETE CURB AND GUTTER OR CONCRETE VALLEY GUTTER

A. Any concrete curb or concrete curb and gutter, except on structures, may be placed using a slip form machine provided that the finished concrete curb or concrete curb and gutter is true to line and grade and the concrete is dense and of the required surface texture.

B. The concrete shall be of a consistency that it will maintain the shape of the concrete curb or concrete curb and gutter section without support after slip forming.

C. The top and face of the finished concrete curb or concrete curb and gutter shall be true an straight and the top surface of the concrete curb or concrete curb and gutter shall be of uniform width and free from humps, sags, or other irregularities.

D. The forming portion of the slip form machine shall be readily adjustable vertically during the forward motion of the slip from machine to provide a variable height of concrete curb or concrete curb and gutter grade when necessary. A grade line gauge or pointer shall be attached to the slip form machine in such a manner that a continual comparison can be made between the concrete curb or concrete curb and gutter grade as indicated by the offset guidelines.

E. Concrete shall be fed to the slip form machine at a uniform rate. The slip form machine shall be operated under sufficient uniform restraint to forward motion to produce a well compacted mass of concrete free from surface pits larger than 3/16 inch in diameter and requiring no further finishing, other than light brushing with a wet brush. Finishing with a brush application of grout will not be permitted.

F. Transverse weakened plane and expansion joints shall be constructed at right angles to the line of the concrete curb, concrete curb and gutter, or concrete valley gutter.

G. Expansion joints may be constructed by sawing through the concrete curb or concrete curb and gutter section to its full depth. The width of the cut shall be such as to admit the joint filler with a snug fit.

H. The operations of sawing and inserting the joint filler shall be completed before curing the concrete. At the conclusion of the curing period the filler in each joint shall be checked for tightness of fit. The loose filler in any joint shall be mortared in place and cured.

I. Excavation shall be as per Subsection 2.02 above.

J. All remaining provisions of Subsection 2.02 above also apply, unless otherwise specified.

## PART 4 - MEASUREMENT AND PAYMENT

### 4.01 MEASUREMENT

A. Curb and gutter, curb, and valley gutter shall be measured by the linear foot.

1. Curb shall be measured along the front face of the section at the finished grade elevation.

2. Combination curb and gutter will be measured along the face of the curb at the flowline of the gutter.

3. Valley gutter will be measured along the flowline of the gutter.

B. A deduction in length shall be made for drainage structures, such as catch basins or inlets, in the curb, gutter, or combination thereof.

C. There will be no direct measurement or payment of materials used to construct curb and gutter, curb or valley gutter.

D. Excavation or construction of embankment for foundation of curb, valley gutter, or combination curb and gutter will not be measured for payment.

### 4.02 PAYMENT

A. The accepted quantities of curb, valley gutter, and curb and gutter will be paid for at the contract unit bid price per linear foot for each kind and type specified complete in place.

B. Foundation preparation by excavating or constructing embankment to the required sub-grade elevation is considered incidental to the completion of the work and no direct payment will be made thereof.

C. Compensation will be for furnishing all materials, labor, equipment, tools and incidentals required for the work, all in accordance with the plans and these specifications.

*** * * * END OF SECTION * * * ***

**SECTION 02780**

# FLAT WHEEL ROLLING

## PART 1- GENERAL

1.01 GENERAL DESCRIPTION OF WORK:

A. This work shall consist of the compaction of subgrade, embankment, flexible base, surface treatments and asphalt surfaces by the operation of approved power roller as herein specified and as directed by the ENGINEER.

## PART 2 - PRODUCTS

2.01 EQUIPMENT:

A. Embankments and Flexible Bases

1. Power rollers shall be of the 3-wheel, self-propelled type, weighing not less than 10 tons and shall provide a compression on the rear wheels of not less than 325 pounds per linear of wheel width. All wheels shall be flat.

2. The rear wheels shall have a diameter of not less than 48 inches and each shall have a wheel width of not less than 20 inches.

B. Surface Treatments and Pavements

1. Power rollers shall be the 3-wheel or tandem, self-propelled type, weighing not less than 3 tons nor more than 6 tons. All wheels shall be flat.

2. Rollers shall be equipped with an adequate scraping or cleaning device on each wheel.

3. Rollers used to compact asphalt mixture shall be equipped with a water system which will keep all tires uniformly wet.

4. In lieu of the rolling equipment specified, the CONTRACTOR may, upon written permission from the ENGINEER, operate other compacting in the same period of time as the specified equipment. If the substituted compaction within the same period of time as would be expected of the specified equipment, as determined by the ENGINEER, its use shall be discontinued.

5. Rollers shall be maintained in good repair and operating condition and shall be approved by the ENGINEER.

## PART 3 - EXECUTION

3.01 CONSTRUCTION METHODS:

A. Subgrades, Embankments and Flexible Base

1. The subgrade or embankment layer or the base course shall be sprinkled if directed and rolling with a power roller shall start longitudinally at the sides and proceed towards the center, overlapping on successive trips by at least 1/2 the width of the rear wheel of the power roller.

2. On super-elevated curves, rolling shall begin at the low sides and progress toward the high sides. Alternate trips of the roller shall be slightly different in length.

3. The rollers, unless otherwise directed, shall be operated at a speed between 2 and 3 miles per hour.

B. Surface Treatments and Pavements

1. Rolling shall be done to produce a satisfactory surface as called for in surface treatment and pavement items.

2. The sequence of work shall be as indicated for embankment layer or base course.

3. The operating speed shall be determined by the CONTRACTOR.

## PART 4 - MEASUREMENT AND PAYMENT

4.01 MEASUREMENT AND PAYMENT:

A. No additional compensation will be made for materials, equipment or labor required by this item, but shall be considered incidental to the other items included in the contract.

*** * * END OF SECTION * * ***

**SECTION 02782**

**PNEUMATIC TIRE ROLLING**

## PART 1 - GENERAL

### 1.01 GENERAL DESCRIPTION OF WORK:

A. This work shall consist of the compaction of embankment, flexible base, surface treatments or pavements by the operation of approved pneumatic tire rollers.

## PART 2 - PRODUCTS

### 2.01 GENERAL REQUIREMENTS:

A. When used on seal coats, asphaltic surface treatments and bituminous mixture pavements, the roller shall be self propelled and equipped with smooth tread tires with 45 psi tire pressure.

B. The roller shall be so constructed as to be capable of being operated in both a forward and a reverse direction.

C. When used on bituminous mixture pavements, the roller shall have suitable provision for moistening the surface of the tires while operating.

D. When turning is impractical or detrimental to the work and when specifically directed by the ENGINEER, the roller shall be of the self-propelled type.

E. In lieu of the rolling equipment specified, the CONTRACTOR may operate other compacting equipment that will produce equivalent relative compaction in the same period of time as the specified equipment. If the substituted compaction equipment fails to produce the desired compaction within the same period of time, its use shall be discontinued.

F. Rollers shall be maintained in good repair and operating condition and shall be approved by the ENGINEER.

### 2.02 LIGHT PNEUMATIC TIRE ROLLER:

A. The light pneumatic tire roller shall consist of not less than 9 pneumatic tire wheels, running on axles in such manner that the rear group of tires will cover the entire gap between adjacent tires of the forward group and mounted in a rigid frame and provided with a loading platform or body suitable for ballast loading.

B. The front axle shall be attached to the frame in such manner that the roller may be turned within a minimum circle.

C. The pneumatic tire roller under working conditions shall have an effective rolling width of approximately 60 inches and shall be so designed that by ballast loading the total load be varied uniformly from 9,000 pounds or less to 18,000 pounds or more.

D. The roller shall be equipped with tires that will afford ground contact pressures to 45 pounds per square inch or more. The operating load and tire air pressure shall be within the range of the manufacturer's chart. The roller under working conditions shall provide a uniform compression under all wheels.

E. Individuals tire inflation pressures shall be within +5 psi of each other.

F. The pneumatic tire roller shall be drawn by either a suitable crawler type tractor, a pneumatic tired tractor, a truck of adequate tractive effort or may be of the self-propelled type and the roller, when drawn or propelled by either type of equipment, shall be considered a light pneumatic tire roller unit.

**2.03 MEDIUM PNEUMATIC TIRE ROLLER (TYPE A):**

A. The medium pneumatic tire roller (Type A) shall consist of not less than 7 pneumatic tired wheels, running on axles in such manner that the rear group of tires will cover the entire gap between adjacent tires of the forward group and mounted in a rigid frame and provided with a loading platform or body suitable for ballast loading.

B. The front axles shall be attached to the frame in such a manner that the roller may be turned within a minimum circle. The pneumatic tire roller, under working conditions, shall have an effective rolling width of approximately 84 inches and shall be so designed that, by ballast loading, the total load may be varied uniformly from 23,500 pounds or less to 50,000 pounds or more.

C. The roller shall be equipped with tires that will afford ground contact pressures to 80 pounds per square inch or more. Individual tire inflation pressures shall be within +5 psi of each other.

D. The operating load and tire air pressure shall be within the range of the manufacturer's chart.

E. The pneumatic tire roller shall be drawn by either a suitable crawler type tractor, a pneumatic tired tractor, a truck of adequate tractive effort or may be of the self-propelled type.

F. The roller, when drawn or propelled by any type of equipment, shall be considered a medium pneumatic tire roller unit.

G. The power unit shall have adequate tractive effort to properly move the operating roller at variable uniform speeds up to approximately 5 miles per hour.

## 2.04 MEDIUM PNEUMATIC TIRE ROLLER (Type B):

A. The medium pneumatic tire roller (Type B) shall conform to the requirements for Medium Pneumatic Tire Roller (Type A) as specified above, except that the roller shall be equipped with tires that will afford ground contact pressures to 90 psi or more.

# PART 3 -EXECUTION

## 3.01 CONSTRUCTION METHODS:

A. The embankment layer or the base course be sprinkled if directed and rolling with a pneumatic tire roller shall start longitudinally at the sides and proceed towards the center, overlapping on successive trips by at least 1/2 of width of the pneumatic tire roller.

B. On super-elevated curves, rolling shall begin at the low sides and progress towards the high sides.

C. Alternative trips of the roller shall be slightly different in length.

D. The light pneumatic tire roller shall be operated at speeds between 2 and 6 miles per hour for asphalt surfacing work and all other work.

E. The medium pneumatic tire roller shall be operated at speeds which produce a satisfactory product.

F. Sufficient rollers shall be provided to compact the material in a satisfactory manner. When operations are so isolated from one another that 1 roller unit cannot perform the required compaction satisfactorily, additional roller units shall be provided.

# PART 4 - MEASUREMENT AND PAYMENT

## 4.01 MEASUREMENT AND PAYMENT:

A. No additional compensation will be made for materials, equipment or labor required by this item, but shall be considered subsidiary to the various items of the contract.

*** * * END OF SECTION * * ***

**SECTION 02786**

**PROOF ROLLING**

## PART 1 - GENERAL

1.01 GENERAL DESCRIPTION WORK:

A. This work shall consist of furnishing and operating heavy pneumatic tired compaction equipment for testing the compaction of embankment, sub-grade or flexible base.

B. Proof roll is to be used to locate unstable areas.

## PART 2 - PRODUCTS

2.01 EQUIPMENT:

A. The proof rolling equipment shall consist of not less than 4 pneumatic tired wheels, running on axles carrying not more than 2 wheels and mounted in a rigid frame and provided with loading platform or body suitable for ballast loading.

B. All wheels shall be arranged so that they will carry approximately equal loads when operating on uneven surfaces.

C. The proof roller under working conditions shall have a rolling width of from 8 feet to 10 feet and shall be so designed that, by ballast loading, the gross load may be varied uniformly from 25 tons to 50 tons.
