Project Tasks

TASK I – PROJECT ORIENTATION AND STARTUP

We propose that an initial project orientation meeting be scheduled so that both the County and our firm may have a clear understanding of the design and construction process, parameters to be used and the final product desired.

TASK II – SURVEY

Necessary field information will be developed by field surveys. Record plans will be used as a guide for the survey work and for the analysis of design alternatives.

TASK III – DESIGN

This task will assure that the paving improvements designed and incorporated in the plans are adequate for the area.

TASK IV – PRELIMINARY PLANS AND ESTIMATES

The preliminary set of plans which will result from Task III along with cost estimates will be reviewed with County staff for input and guidance.

TASK V – FINAL PLANS AND SPECIFICATIONS

Final plans, specifications and estimates will be prepared during this task. The output of this task will be the documents necessary for constructing the project.

TASK VI – CONSTRUCTION

During this stage we will observe ongoing work, provide construction staking for the Precinct. Upon completion, a final inspection will be scheduled with the Precinct. The outcome of this final inspection will be a certificate of completion or a punch list of items for the Precinct to complete.
