Leticia,

I have attached a copy of Exhibit "B" from Contract C-14-324-14-02 with notes (in red) about the tire descriptions that are in question. Anywhere the specification was a 10 ply we bid an LT (light truck). LT tires are 10 ply rated tires. In some cases the spec' was for a P size with a 10 ply IE: line 47 the spec' was for P235/75r17 (10 ply). This size comes in only a P. Even though the spec was for a 10 ply. Line 57 the spec' is P265/70R17 (10 ply). This tires comes in a P as well as an LT. We bid the LT because 10 ply was part of the spec.

Hopefully this will clarify these specifications and how we addressed them.
