RE: Support for the HCRMA SH 365 Project

Dear Mr. Rodriguez,

Please accept this letter as Hidalgo County's official documentation for the support of the Hidalgo County Regional Mobility Authority's (HCRMA) SH 365 project. The Rio Grande Valley is one of the fastest growing areas in the state. As part of this growth it is crucial that the HCRMA and local governments partner with TxDOT to provide transportation solutions for the region.

The SH 365 roadway would provide a much needed route for truck traffic south of I2/US 83 between the international bridges. These bridges are crucial to the economic success of our area and this infrastructure will allow us to further capitalize on this resource. Additionally the improvement to public safety would benefit the traveling public who will no longer interact with this heavy truck traffic.

I commend the RMA for leveraging our resources to advance the development of these projects. I feel that this project will greatly benefit Hidalgo County. If you have any questions or concerns, please feel free to call me at 956-318-2600.

Sincerely,

Ramon Garcia
County Judge
