Ms. Garcia,

I have attached the quotes below. I included the M9960HFC as well since we have that unit in stock.... it is available now. The M8560HDC as we stated yesterday, would have to be ordered... could take 30 days to receive it...

You may want to run this by the commissioner and his people....

thanks,
J.P.

Disaster Purchasing FAQs

The following questions and answers are intended to provide detailed information on the GSA Disaster Purchasing Program for policy and procurement professionals.

What is Disaster Purchasing?

Disaster Purchasing is a GSA program that allows state and local governments access to buy from all Federal Supply Schedules in preparation or response to all disasters, as well as recovery from major disaster declared by the President, or recovery from terrorism or nuclear, biological, chemical, or radiological attack.

What Authorizes state and local governments to use Schedules under Disaster Purchasing?

Can state and local governments purchase from all GSA Schedules?

What's the legal definition of state and local government? What if there is a question as to whether or not an entity falls under this definition?

Are state and local government entities required to show proof of eligibility, from GSA, when purchasing through approved GSA state and local programs (Cooperative Purchasing and Disaster Purchasing)?

Define preparedness, response, and recovery as related to the Disaster Purchasing Program?

How do state and local government entities place orders against Schedule contracts?

Can state and local governments use other GSA contracts?

What is the Industrial Funding Fee (IFF)?

Are Disaster Purchasing orders subject to the Industrial Funding Fee (IFF)?

Will GSA waive, or give a portion of, the IFF to state and local government entities?

Are state and local government entities required to use the GSA Schedules Program?

Are Schedule contractors required to accept orders from state and local government entities?

If the contractor does not perform acceptably under a Disaster Purchasing order issued by a state or local entity, should the ordering activity request the GSA contracting officer take corrective measures?

Under Disaster Purchasing, can ordering activities include terms and conditions required by state or local statutes, ordinances, regulations, or orders?

Are any GSA Schedule contract terms and conditions not incorporated by reference into Disaster Purchasing orders?

Are Prompt Payment provisions incorporated into Disaster Purchasing orders?

Are state and local government preference programs affected by Disaster Purchasing?

May state and local government entities use credit cards to purchase products and services under this program?

Can state and local governments issue Blanket Purchase Agreements (BPAs) under the Schedule contracts?

Can state and local government entities be granted additional price reductions under the Schedule contracts?

Can state and local government entities be granted additional price reductions under the Schedule contracts?

Will a spot discount to state and local government entities under the GSA Schedule purchases trigger the Price Reductions clause?

Does the Trade Agreements Act apply to contracts between the Schedule contractor and state and local government entities?

Can Federal grantees purchase from GSA Schedules? If state or local governments themselves receive grant money, can they use these funds to purchase products and services from GSA Schedules?

Can state and local government entities use GSA Advantage!® to place orders under Disaster Purchasing?

How does GSA Advantage!® work?

Can state and local government entities use eBuy under Disaster Purchasing?

Define preparedness, response, and recovery as related to the Disaster Purchasing Program?

"Preparedness" means actions that involve a combination of planning, resources, training, exercising, and organizing to build, sustain, and improve operational capabilities. Preparedness is the process of identifying the personnel, training, and equipment needed for a wide range of potential incidents, and developing jurisdiction – specific plans for delivering capabilities when needed for an incident.

"Response" means immediate actions to save lives, protect property and the environment, and meet basic human needs. Response also includes the execution of emergency plans and actions to support short-term recovery.

"Recovery" means the development, coordination, and execution of service- and site-restoration plans; the reconstitution of government operations and services; individual, private-sector, nongovernmental, and public-assistance programs to provide housing and to promote restoration; long-term care and treatment of affected persons; additional measures for social, political, environmental, and economic restoration; evaluation of the incident to identify lessons learned; post incident reporting; and development of initiatives to mitigate the effects of future incidents.
