**Subject:** Electrical Service-North San Juan Park

Charlie: Many thanks for meeting with me today to discuss the need to add electricity to run lights and provide fans and electrical service in the South Texas Master Gardener Educational Garden and classroom, located on the southeast corner of the North San Juan Park. This will greatly improve safety, reduce opportunity for vandalism, and add educational opportunities for folks living around the North San Juan Park, especially in the early evening hours in late spring and early summer.

As I mentioned, the Deep South Texas Master Gardener Association is willing to pay for the cost of the Master Electrician to hook up the service at the park. I would greatly appreciate it if you would contact the companies who quoted you previously for this work so that we can move forward with the educational programs in the park.
