Hi,

We are currently looking into the purchase of Cop Sync software that runs drivers license, license plates and checks for stolen property etc.,. The information comes from the Sate of Texas data base which requires CJIS policies because of sensitive information. Our constable's precinct 4 office currently has the product. The vendor is providing at no expense to us a demo user package but we have sign a interlocal and forms due to the CJIS polices. Our question, does it need to go before commissioners court after your review.
