Standard CJD Requirements

CJD Regulations. Grantees must comply with the standards applicable to this funding source cited in the Texas Administrative Code (1 TAC Chapter 3), and all statutes, requirements, and guidelines applicable to this funding.

Uniform Crime Reports. Eligible applicants operating a law enforcement agency must be current on reporting Part I violent crime data to the Texas Department of Public Safety for inclusion in the annual Uniform Crime Report (UCR) and must have been current for the three previous years.

Criminal History Reporting. The county (or counties) in which the applicant is located must have a 90% average on both adult and juvenile criminal history dispositions reported to the Texas Department of Public Safety for calendar years 2010 through 2014.

Immigration and Customs Enforcement Requests. I further certify that the department has no policy, procedure, or agreement that limits or restricts the department's full participation in all aspects of the programs and procedures utilized by DHS to (1) notify DHS of all information requested by DHS related to illegal aliens in the custody of the department, and (2) detain such aliens in accordance with requests by DHS. I agree that failure to comply with this certification will result in CJD terminating the grant and the department shall return all funds received to CJD. Additionally, I agree that the department will remain ineligible for future CJD funding until it can provide satisfactory evidence that the jurisdiction has been in compliance with this requirement for a period of at least one year."

Step 3: Apply via eGrants

Basics

To apply to CJD for these grants, you must complete or make sure you have already completed some standard requirements. All of the following are needed to apply within eGrants:

- Applicants must have a DUNS (Data Universal Numbering System) number assigned to its agency (to request a DUNS number, go to <http://fedgov.dnb.com/webform/displayHomePage.do>).
- Applicants must be registered in the federal System for Award Management (SAM) database located at <https://www.sam.gov/> and maintain an active registration throughout the grant period.

- Applicants must have or register for an account in eGrants at eGrants@gov.texas.gov.

Project-Specific Questions

The eGrants system will provide additional information about the requirements of applying and contents of the application. Answer these questions in Section 1, Project-Specific Questions under the narrative tab. Following are some key aspects:

Drug Testing. Applicants must provide a drug testing policy for their facility indicating the method used for testing, the frequency of testing, and whether or not employees are subject to drug testing.

Sustainment. Applicants must be able to provide the number of years that are planned to request for continuation funding, a longer term sustainment plan or why a plan is not possible.

Project Narrative

Within eGrants, applicants will complete several narrative fields. Below is each area along with specific instructions on the minimum requirements.

Project Abstract. Provide a brief summary of the proposed project. Do not share new information here that you do not include in the questions below. This abstract is a description of your project and intended for the public and policy makers. Be sure that the summary is easy to understand by a person not familiar with your project. (Limit to 1500 characters.)

Problem Statement. Provide a description of the nature and scope of the problem that this project will address. This must be a statement of the core, underlying problem. A lack of resources is not, in and of itself, a problem.

Supporting Data. Provide supporting data, including baseline statistics and the sources of your data, to provide evidence that the problem exists, its size and scope, and its effects on the target population. Do not use statewide data for a local problem or national data for a statewide problem.

Project Approach & Activities. Provide the core information needed to understand the methodologies, approaches, and activities to be employed by the project. A reader should also be able to understand how the approach ties to solving the stated problem.

Capacity & Capabilities. Describe the applicant organization's background as well as organizational and staff capabilities and qualifications to carry out this specific project using the methods provided above.

Performance Management. Provide an understanding of how the applicant organization will measure success for this project. What are the project's goals and objectives and what are the project's performance measures, both output and outcome? How do these goals, objectives, and measures tie to the problem that the project seeks to solve? What is the current baseline information for these measures as well as the goals for the project period?

- Goals are broad statements that indicate the general intentions of the project to achieve some outcome. They do need to be measurable in and of themselves and may be abstract in nature.
- Objectives are clear, tangible, and specific statements of what the project is trying to achieve. Objectives should be expressed in the following form: To [reduce/increase/enhance/etc.] [something], by [x amount], by [dd/mm/yy date]. A project can have multiple objectives.
- Measures use data to provide verifiable, numeric information that tie to one or more objectives and indicate progress toward its achievement. Measures might include volume, time savings, cost savings, resource savings, success rates, conformance rates, timeliness, perception shifts, or other factors. (The most relevant and impactful project-specific measures must be included under the Measures tab in eGrants.)

Data Management. Provide an understanding of how the applicant organization plans to track and maintain the data needed to determine whether the project is meeting the goals, objectives, and measures stated above.

Target Group. Describe the population that this project plans to help or support. For direct service projects, describe the size and basic demographics for the people served. For other projects, describe the specific geographic and demographic populations to be impacted, affected, or helped by this project. Be specific and use supporting data.

Evidence-Based Practices. Describe the research or evidence that led the applicant organization to select the methods described above. Wherever possible, provide at least one citation or link to a supportive evaluation or research study. If the project approach and activities described above are not based on existing evidence, describe why the applicant organization believes the method to be promising.

Step 4: Funding Decisions and Grant Acceptance

Selection Criteria

Final Review. CJD will review all applications for quality, capability, and past performance and may consider other factors in determining which programs to fund such as geographic distribution, fairness among different sizes of population areas, need based on crime rate or other similar factors, including economic factors. If the interest in grant funds exceeds available funding, CJD may not fund all applications or may only award part of the amount requested. Preference may be given to applicants who can demonstrate that their approach is based on evidence that shows it to be promising or effective.

Announcements

After CJD makes final funding decisions, each applicant will receive either an unfunded notice or a preliminary decision notification or final grant award. The award will provide all of the conditions and requirements of the grant. Release of final grant awards are always contingent on CJD's receipt of the

federal grant award under which the program is funded and CJD cannot release or guarantee funding to any applicant until that award is received and acceptance is processed and a determination is made that adequate funding is available.
