RE: Hidalgo County Courthouse ~ Civil Engineering Procurement

Mrs. Salazar,

On March 7, 2016, and then again on March 22, 2016, Hidalgo County Commissioners Court took action on nominating L&G Engineering to be evaluated and ranked for the necessary Civil Engineering as it relates to the proposed Hidalgo County Courthouse project. While we appreciate the confidence that the Commissioners Court has shown by nominating our firm to be considered for these services, at this time we have to ask to be removed from consideration for this project.

We look forward to continuing our working relationship with Hidalgo County to improve our community for the better.

Sincerely,

Jacinto Garza, P.E.
L&G Engineering ~ President
