## AGREEMENT

### 1. Period of this Agreement

This Agreement becomes effective when signed by the last party whose signing makes the Agreement fully executed. This Agreement shall remain in effect until terminated as provided in Article 2.

### 2. Termination of this Agreement

This Agreement shall remain in effect until the Project is completed and accepted by all parties, unless:

- B. The Agreement is terminated by one party because of a breach, in which case any cost incurred because of the breach shall be paid by the breaching party;
- C. The Local Government elects not to develop the project and the project does not proceed, in which case the Local Government agrees to reimburse the State for one-hundred percent (100%) of its reasonable actual direct and indirect costs incurred for the project; or
- D. The project is inactive for thirty-six (36) months or longer and no expenditures have been charged against federal funds, in which case the State may at its discretion terminate the agreement.

### 3. Amendments

Amendments to this Agreement may be made due to changes in the character of the work, the terms of the Agreement, or the responsibilities of the parties. Amendments shall be enacted through a mutually agreed upon written amendment executed by all parties to this Agreement.

### 4. Remedies

This Agreement shall not be considered as specifying the exclusive remedy for any Agreement default, but all remedies existing at law and in equity may be availed of by either party to this Agreement and shall be cumulative.

### 5. Scope of Work

**6. Right of Way and Real Property**

- A. The Local Government is responsible for the provision and acquisition of all necessary right of way and will not be reimbursed with federal or state funds for the required right of way.
- B. The Local Government authorizes the State, its consultant, contractor, or other designated representative to enter the sites of these bridges and adjacent right of way or relocation right of way to perform surveys, inspections, construction, and other activities necessary to replace or rehabilitate these bridges and approaches.

**7. Adjustment of Utilities**

The Local Government shall be responsible for the adjustment, removal, or relocation of utility facilities in accordance with applicable state laws, regulations, rules, policies, and procedures, including any cost to the State of a delay resulting from the Local Government's failure to ensure that utility facilities are adjusted, removed, or relocated before the scheduled beginning of construction. The Local Government will not be reimbursed with federal or state funds for the cost of required utility work. The Local Government must obtain advance approval for any variance from established procedures. Before a construction contract is let, the Local Government shall provide, at the State's request, a certification stating that the Local Government has completed the adjustment of all utilities that must be adjusted before construction is completed.

**8. Environmental Assessment and Mitigation**

Development of the Project must comply with the National Environmental Policy Act and the National Historic Preservation Act of 1966, which require environmental clearance of federal-aid projects.

- A. The State is responsible for the identification and assessment of any environmental problems associated with the development of the Project governed by this Agreement.
- B. Cost participation in environmental assessment and remediation work shall be paid by the parties in the same ratio as construction costs and will be included in the construction costs identified in Attachment D, Estimate of Direct Costs.
- C. The State is responsible for providing any public meetings or public hearings required for development of the environmental assessment.
- D. The State will not begin construction of the Project until identified environmental problems have been remediated, unless provided for otherwise.

**9. Compliance with Texas Accessibility Standards and ADA**

All parties to this Agreement shall ensure that the plans for and the construction of the Project subject to this Agreement are in compliance with the Texas Accessibility Standards (TAS) issued by the Texas Department of Licensing and Regulation, under

the Architectural Barriers Act, Article 9102, Texas Civil Statutes. The TAS establishes minimum accessibility requirements to be consistent with minimum accessibility requirements of the Americans with Disabilities Act (P.L. 101-336) (ADA).

**10. Architectural and Engineering Services**

The State is responsible for performance of any required architectural or preliminary engineering work. The Local Government may review and comment on the work as required to accomplish the public purposes of the Local Government. The State will cooperate fully with the Local Government in accomplishing these local public purposes to the degree permitted by state and federal law. The Local Government review shall not unduly delay the development of the Project.

**11. Construction Responsibilities**

- A. The State shall advertise for construction bids, issue bid proposals, receive and tabulate the bids, and award and administer the contract for construction of the Project. Administration of the contract includes the responsibility for construction engineering and for issuance of any change orders, supplemental agreements, amendments, or additional work orders that may become necessary subsequent to the award of the construction contract. In order to ensure federal funding eligibility, projects must be authorized by the State prior to advertising for construction.
- B. Upon completion of the Project, the State will issue a "Notification of Completion" acknowledging the Project's construction completion.

**12. Project Maintenance**

After the Project has been completed, the Local Government shall accept full ownership, and operate and maintain the facilities authorized by this Agreement for the benefit of and at no charge of toll to the public. This covenant shall survive the completion of construction under this Agreement.

**13. Local Project Sources and Uses of Funds**

- A. A Project Cost Estimate is provided in Attachment D, Estimate of Direct Costs.
- B. Attachment D provides a source of funds estimate as well as the estimated direct preliminary engineering, construction engineering, and construction costs for the Project in total and by the Local Government.
- C. The required Local Government participation is based solely upon the State's estimate of the eligible work at the time this Agreement is executed and will not be adjusted during construction except as needed to include any Project cost item or portion of a cost item ineligible for state or federal participation. In addition to its share of estimated direct engineering and construction costs, the Local Government is responsible for the direct cost of any project cost item or

portion of a cost item that is not eligible for federal participation under the federal HBRRP. The Local Government is also responsible for any cost resulting from changes made at the request of the Local Government. The State and the Federal Government will not reimburse the Local Government for any work performed before federal spending authority is formally obligated to the Project by the Federal Highway Administration. After federal funds have been obligated, the State will send to the Local Government a copy of the formal documentation showing the obligation of funds including federal award information.

- D. If the Local Government will perform any work under this contract for which reimbursement will be provided by or through the State, the Local Government must complete training before federal spending authority is obligated. Training is complete when at least one individual who is working actively and directly on the Project successfully completes and receives a certificate for the course entitled *Local Government Project Procedures Qualification for the Texas Department of Transportation*. The Local Government shall provide the certificate of qualification to the State. The individual who receives the training certificate may be an employee of the Local Government or an employee of a firm that has been contracted by the Local Government to perform oversight of the Project. The State in its discretion may deny reimbursement if the Local Government has not designated a qualified individual to oversee the Project.
- E. After execution of this Agreement, but thirty (30) days prior to the performance of any work by the State, the Local Government shall remit to the State the amount specified in Attachment D for the Local Government's contribution for preliminary engineering. The Local Government will pay, at a minimum, its funding share for this estimated cost of preliminary engineering.
- F. Forty-five (45) days prior to the date set for receipt of the construction bids, the Local Government shall remit its remaining financial share for the State's estimated construction oversight and construction costs and any other costs owed.
- G. If, at the completion or termination of the Project, the State determines that additional funding is required by the Local Government, the State shall notify the Local Government in writing. The Local Government shall make payment to the State within thirty (30) days from receipt of the State's written notification.
- H. Whenever funds are paid by the Local Government to the State under this Agreement, the Local Government shall remit a check or warrant made payable to the "Texas Department of Transportation Trust Fund." The check or warrant shall be deposited by the State in an escrow account to be managed by the State. Funds in the escrow account may only be applied to the State Project.
- I. Upon completion of the Project, the State will perform an audit of the Project costs. Any funds due to the Local Government, the State, or the Federal Government will be promptly paid by the owing party.
- J. The State will not pay interest on any funds provided by the Local Government.

- K. The Local Government funding participation responsibilities include Project direct costs only, except when the Project is terminated before completion at the request of the Local Government as addressed in the Termination provision of this Agreement.
- L. The amounts shown on Attachment D are estimates only. If actual costs exceed the estimates, this shall be considered a fixed price agreement, and no additional funding shall be required of the Local Government except to the extent that the additional costs result from changes made at the request of the Local Government or to the extent that the additional costs are not eligible for federal participation under the federal HRRP. If actual costs are less than the estimates, Local Government participation shall be recalculated based on actual costs. If the recalculation results in a reduction in participation by the Local Government, the State shall pay the difference to the Local Government upon completion of the Project.
- M. Under the provisions of Texas Transportation Code Section 222.053 certain counties qualify as Economically Disadvantaged Counties (EDC) in comparison to other counties in the state as below average per capita property value, below average per capita income, and above average unemployment, for certain years. If applicable, in consideration of such EDC status that may be applicable for the Project, the required local match fund participation has been adjusted to 0.8% percent.
- N. The State will not execute the contract for the construction of a Project until the required funding has been made available by the Local Government in accordance with this Agreement.
- O. The state auditor may conduct an audit or investigation of any entity receiving funds from the State directly under this contract or indirectly through a subcontract under this contract. Acceptance of funds directly under this contract or indirectly through a subcontract under this contract acts as acceptance of the authority of the state auditor, under the direction of the legislative audit committee, to conduct an audit or investigation in connection with those funds. An entity that is the subject of an audit or investigation must provide the state auditor with access to any information the state auditor considers relevant to the investigation or audit.
- P. The Local Government is authorized to submit requests for reimbursement by submitting the original of an itemized invoice in a form and containing all items required by the State no more frequently than monthly, and no later than ninety (90) days after costs are incurred. If the Local Government submits invoices more than ninety (90) days after the costs are incurred, and if federal funding is reduced as a result, the State shall have no responsibility to reimburse the Local Government for those costs.

- 14. Performance by Local Government of Equivalent-Match Projects (EMP) in Return for Waiver of Local Match Participation Funding on Participation-Waived Projects (PWP)**
- A. Applicability.** If a request for waiver has been received and approved by the State's District Engineer, then the required ten percent matching fund participation or percent as adjusted for EDC consideration, as shown in Attachment D, Estimate of Direct Costs, but excluding ineligible costs under the bridge program, is waived. This waiver is based on the commitment of the Local Government to spend an equivalent amount of funds for structural or safety improvement on "other" bridge structures and other conditions as specified in 43 TAC Section 15.55(d). If a waiver has been granted, the Project shall be defined to be a PWP and the work on the "other" bridge structures that will be improved by the Local Government shall be defined to be the EMPs. Attachment C to this Agreement shows a list of EMPs under this Agreement.
  - B. Project Cost Estimate for PWP.** Attachment D to this Agreement shows the estimated direct preliminary engineering, construction engineering, and construction costs for the PWP in total and local match fund participation being waived or partially waived.
  - C. Credit Against EMP Work.** Any local match fund participation that has already been paid, or which the Local Government is agreeable to paying to the State, will be credited against EMP work to be performed by the Local Government. If applicable, this credit will be reflected in Attachment D to this Agreement.
  - D. Responsibilities of the Local Government on EMPs.**
    - 1. The Local Government shall be responsible for all engineering and construction, related costs, and compliance with all applicable state and federal environmental regulations and permitting requirements.
    - 2. The structural or safety improvement work on the EMPs shall be performed subsequent to the final execution of this Agreement but within three (3) calendar years after the earliest contract award of the related PWPs.
    - 3. Written documentation, suitable for audit, of the structural or safety improvement work completed on the EMPs shall be kept on file by the Local Government for four (4) years after completion of work or claims, lawsuits, or audits related to those items, whichever is longer. A notice of completion of work on the EMPs shall be delivered to the State's District Engineer no later than thirty (30) calendar days after work is completed on the EMPs.
    - 4. Failure by the Local Government to adequately complete the EMPs within the stated three-year period shall result in the Local Government being excluded from receiving such waivers for a minimum of five (5) years.
  - E. Funding of Ineligible or Additional Work Not Waived.** Regardless of any waiver of eligible program costs, the Local Government shall pay the State one-hundred percent (100%) of the cost of any PWP item or portion of a cost item that is not

eligible for federal or state participation, and one-hundred percent (100%) of the costs resulting from additional work on the PWP performed solely at the request of the Local Government. If the ineligible or additional work is preliminary engineering, the payment shall be made at least thirty (30) days prior to the beginning of preliminary engineering work on the PWP. If the ineligible or additional work is for construction or construction engineering, the payment shall be made at least forty-five (45) days prior to the date set for receipt of bids for construction of the PWP.
