RE: Accident Free Centers

DATE: May 4, 2017

CC: Mrs. Nora Munoz, Assistant Program Director

*Handwritten signatures in blue ink: Noemi Flores and David Guel.*

Safety education and awareness play a critical part in the overall success of any safety program. We will continue to keep all of our staff fully informed through continuous trainings. Safety is a team effort which involves an active and conscientious participation by everyone. It is the goal of the Head Start Program to make sure that this is the concept adopted by all our staff.

I am very happy to inform you that the following fourteen (14) Head Start Centers are Accident Free for the 2016 – 2017 program year.
