Darlene,
My staff and I are currently in route to Laredo for a training and will not be back to the office until tomorrow.

But, as we discuss we are providing a review to verify that the acquisition consultant is following the proper requirements and regulations. We have completed our review. The executed AFA is to reimburse the County for the land acquisition and associated fees, not the acquisition services by L&G.

Let me know if you have any other questions.

Good Morning Norma,

To recap our telephone conversation, late afternoon yesterday regarding the status of the L & G Consulting Engineering Work Authorization for above-reference you advised TXDOT review has been completed and approved in order to allow the County to proceed with our routine protocols regarding these matters.

As you explained, the portion to be reimbursed by TXDOT to Hidalgo County will be the acquisition of the right of way, and not the Professional Services as per particular phase of the project.

Upon submitting final written approval, may you provide a copy to our office for your files.

Thank you once again for your continued cooperation with Hidalgo County and have a great week.
