It has been typed but there are a few minor corrections. My secretary left before she could make the corrections. You will have the amendment on Monday. Please place it on the agenda.

Mr. Crain,

Good morning and hope you had a restful labor day weekend. In discussion with our auditing department, it's come to our attention language discrepancies that need might require revision on the ILA approved in commissioners court for the Mile 3 East Improvement project. The conflict lies in the definition of the project description on the 2nd "Where as" states "reconstruction" for project description and then on the Second paragraph on "Therefore" has a description of "over lay" this causing coding conflict. If you could kindly provide a revision for such language in hopes to place on next weeks commissioners court for approval would be greatly appreciated. Please feel free to provide comments.

Thank you,

Jorge Pena
