Subject : East Rancho Blanco Road**To :** Jaime Salinas <jaime.salinas@co.hidalgo.tx.us>

Mr. Salinas,

Thank you for attending our Board of Directors meeting last week. As you are aware, our Board entertained an offer by Hidalgo County for the purchase of HCID #2 property to accommodate the proposed extension of Rancho Blanco Rd. west to Jackson Road. The County offered \$55,399 for the 24,505 sq. ft. area of our Lateral D Right of Way.

The Board took action accepting \$55,699 for the 24,505 sq. ft. area. The addition of \$300 to the offer is to cover the District's conveyance costs.

Please advise if the Board's action is acceptable to Hidalgo County.

Sonny Hinojosa
Hidalgo County Irrigation District No.2
San Juan, TX.

REAL ESTATE APPRAISAL REPORT - TEXAS DEPARTMENT OF TRANSPORTATION

Address of Property: Rancho Blanco Road (S/S), 0.12 East of
Jackson Road, Pharr, Texas
Property Owner: Hidalgo County Irrigation District No. 2
Address of Property Owner: 326 North Standard Avenue, San Juan,
Texas 78589

District: 21
Parcel: 2
ROW CSJ: N/A

Occupant's Name: Vacant
Whole: Partial: Acquisition

Federal Project No: N/A
Highway: Rancho Blanco Road County: Hidalgo

Purpose of the Appraisal

The purpose of this appraisal is to estimate the market value of the fee simple title to the real property to be acquired, encumbered by any easements not to be extinguished, less oil, gas and Sulphur. If this acquisition is of less than the whole property, then any special benefits and /or damages to the remainder property must be included in accordance with the laws of Texas.

Market Value

Market value is defined as follows: "Market Value is the price which the property would bring when it is offered for sale by one who desires, but is not obliged to sell, and is bought by one who is under no necessity of buying it, taking into consideration all of the uses to which it is reasonably adaptable and for which it either is or in all reasonable probability will become available within the reasonable future."

Certificate of Appraiser

I hereby certify:

That it is my opinion the total compensation for the acquisition of the herein described property is \$55,399 as of August 24, 2017, based upon my independent appraisal and the exercise of my professional judgment;

That on May 23, 2017 (date)(s), I personally inspected in the field the property herein appraised; that I afforded Hidalgo County Irrigation District No. 2, the property owner or the representative of the property owner, the opportunity to accompany me at the time of the inspection;

That the comparables relied upon in making said appraisal were as represented by the photographs contained in the appraisal report and were inspected on July 14, 2017 (date)(s);

That I have not revealed and will not reveal the findings and results of such appraisal to anyone other than the proper officials of the Texas Department of Transportation, and/or their representatives, or officials of the Federal Highway Administration until authorized by State officials to do so, or until I am required to do so by due process of law, or until I am released from this obligation by having publicly testified to such findings;

That my compensation is not contingent upon the reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value estimate, the attainment of a stipulated result, or the occurrence of a subsequent event.

The appraiser has considered access damages in accordance with Section 21.042(d) of the Texas Property Code, as amended by SB18 of the Texas 82nd Regular Legislative Session and finds as follows:

1. Is there a denial of direct access of the parcel? No (yes or no)
2. If so, is the denial of direct access material? N/A (yes, no, or not applicable)
3. The lack of any access denial or the material impairment of direct access on or off the remaining property affects the market value of the remaining property in the sum of \$ 0.00.

I certify to the best of my knowledge and belief:

That the statements of fact contained in this report are true and correct;

That the reported analyses, opinions and conclusions are limited only by the reported assumptions and limiting conditions, and are my personal, unbiased professional analyses, opinions, and conclusions;

That I have no present or prospective interest in the property that is the subject of this report, and I have no personal interest or bias with respect to the parties involved;

That my analyses, opinions and conclusions were developed, and this report has been prepared in conformity with the appropriate State laws, regulations, and policies and procedures applicable to the appraisal of right-of-way for such purposes, and that to the best of my knowledge no portion of the value assigned to such property consists of items which are non-compensable under the established law of said State, and any decrease or increase in the fair market value of subject real property prior to the date of valuation caused by the public improvement for which such property is to be acquired, or by the likelihood that the property would be acquired for such improvement, other than that due to the physical deterioration within the reasonable control of the owner, has been disregarded in estimating the compensation for the property.

Leonel Garza III

Certification of Appraisal

I, Leonel Garza III, certify that, to the best of my knowledge and belief, the statements of fact contained in this report are true and correct. The reported analyses, opinions, and conclusions are limited only by the reported assumptions and limiting conditions and are my personal, impartial, and unbiased professional analyses, opinions, and conclusions. The employment and compensation of this appraiser in completing this appraisal assignment was not based on a requested minimum valuation, a specific valuation, or the approval of a loan.

I have no present or prospective interest in the property that is the subject of this report and no personal interest with respect to the parties involved. I have no bias with respect to the property that is the subject of this report or to the parties involved with this assignment.

My engagement in this assignment was not contingent upon developing or reporting predetermined results.

My compensation for completing this assignment is not contingent upon the development or reporting of a predetermined value or direction in value that favors the cause of the client, the amount of the value opinion, the attainment of a stipulated result, or the occurrence of a subsequent event directly related to the intended use of this appraisal.

My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice.

I have made a personal on-site and off-site visit of the property that is the subject of this report based on the permission granted at the time of inspection. No one other than those mentioned within this certification provided significant real property appraisal assistance to the person(s) signing this certification.

The reported analyses, opinions and conclusions were developed, and this report has been prepared, in conformity with the requirements of the Code of Professional Ethics and the Standards of Professional Appraisal Practice of the Appraisal Institute.

I certify that the use of this report is subject to the requirements of the Appraisal Institute relating to review by its duly authorized representatives. I also acknowledge that Leonel Garza III is an Associate Member of the Appraisal Institute and is not an MAI Designated Appraiser.

The employment and compensation of this appraiser in completing this appraisal assignment was not based on a requested minimum valuation, i.e., a specific valuation. This report was not prepared under the standards required by financial institutions for purposes of applying for a loan. I have performed no other appraisal services, as an appraiser or in any other capacity, regarding the property that is the subject of this report within a three-year period immediately preceding acceptance of this assignment.

This appraisal has been completed with the extraordinary assumption that any and all access denial issues are clearly stated within the scope of this assignment and have been included within the surveys and field notes provided by client. The Texas Department of Transportation can control access in the future by way of permit at the time of redevelopment or re-subdivision of the subject property and/or by way of the Access Management Policy enacted by the State of Texas. This assignment was prepared in accordance with Section 21.042(d) of the Texas Property Code, as amended by SB 18 of the Texas 82nd Regular Legislative Session as follows: "(d) In estimating injury or benefit under Subsection C, the special commissioners shall consider an injury or benefit that is peculiar to the property owner and that relates to the property owner's ownership, use, or enjoyment of the particular parcel of real property including a material impairment of direct access on or off the remaining property that affects the market value of the remaining property, but they may not consider an injury or benefit that the property owner experiences in common with the general community, *including circuitry of travel and diversion of traffic*. In this subsection, "direct access" means ingress and egress on or off a public road, street, or highway at a location where the remaining property adjoins that road, street or highway."

Leonel Garza III
General Certified Real Estate Appraiser
License No. TX 1328375 – General

Assumptions and Limiting Conditions

No responsibility is assumed for the legal description or for matters including legal or title considerations. Title to the property is assumed to be good and marketable, unless otherwise stated.

The property is appraised free and clear of any or all liens or encumbrances, unless otherwise stated.

Responsible ownership and competent property management are assumed.

The information furnished by others is believed to be reliable, but no warranty is given for its accuracy.

All engineering is assumed to be correct. The plot plans and illustrative material in this report are included only to assist the reader in visualizing the property.

It is assumed that there are no hidden or un-apparent conditions of the property, subsoil, or structures that render it more or less valuable. No responsibility is assumed for such conditions or for arranging for engineering studies that may be required to discover them.

It is assumed that the property is in full compliance with all applicable federal, state, and local environmental regulations and laws, unless the lack of compliance is stated, described, and considered in the appraisal report.

It is assumed that all required licenses, certificates of occupancy, consents, or other legislative or administrative authority from any local, state, or national government or private entity or organization have been, or can be, obtained or renewed for any use for which the value estimate contained in this report is based.

It is assumed that the use of the land and improvements is confined within the boundaries or property lines of the property described and that there is no encroachment or trespass, unless noted in the report.

Unless otherwise stated in this report, the existence of hazardous material, which may or may not be present on the property, was not observed by this appraiser. The appraiser does not have any knowledge of the existence of such material on or in the property and is not qualified to detect such substances. The presence of substances such as asbestos, urea-formaldehyde foam insulation or other potentially hazardous materials may affect the value of the property. The value estimate is predicated on the assumption that there is no such material on or in the property that would cause a loss in value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field, if desired.

Any allocation of the total value in this report between land and improvements applies only under the stated program of utilization. The separate allocations for land and buildings must not be used in conjunction with any other appraisal and are invalid if so used.

The appraiser, by reason of this appraisal, is not required to give further consultation, testimony, or be in attendance in court with reference to the property in question, unless arrangements have been previously made.

No part of the contents of this report (especially any conclusions as to value, the identity of the appraiser, or the firm with which the appraiser is connected) shall be disseminated to the public through advertising, public relations, news, sales, or other media without the prior written consent and approval of the appraiser. Possession of this report, or a copy thereof, does not carry with it the right of publication.

Marketing Time: Begins with the date of value estimate and the exposure time indicated.

Exposure to the Open Market: Listing the property on the market for sale with a Realtor, a member of the Multiple Listing Service, or a licensed Real Estate Broker, that will properly expose the property to the Market.

Exposure Time: The length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.

Jurisdictional Exception

Jurisdictional Exception is defined in the current Uniform Standards of Professional Appraisal Practice as an assignment condition established by applicable law or regulation which precludes an appraiser from complying with a part of USPAP. Project impact/influence is disregarded in the appraisal of the subject whole property. This is a departure from Standards Rule 1-4(f), which states that "when analyzing anticipated public or private improvements, located on or off the site, an appraiser must analyze the effect on value, if any, of such improvements to the extent they are reflected in market actions." This report has been prepared in such a manner that any market influences projected by the proposed development shall not be taken into consideration.

Client for Appraisal

The client for this report is Hidalgo County Precinct No. 2, 300 W. Hall Acres , Pharr, Texas. Jaime Salinas and Jaime Cruz Right-of-Way Agents are the project manager for this project and can be reached at (956) 787-1891 Office.

Intended Use and User

The appraisal report is intended for use solely by Hidalgo County Precinct No. 2 and others involved in the project. The purpose of this report is to provide a current market value of the part to be acquired, to begin negotiations for the purchase of the subject property, in part, as described by the survey provided. The report is to be used solely for the acquisition of said property in the name of the County of Hidalgo. The acquisition of the subject property will be utilized for the expansion and Rancho Blanco Road. This report is not intended for any other use, unless specified by the client.

Scope of the Assignment

By contract and written authorization to proceed, Hidalgo County Precinct No. 2 along with L&G Engineering requested that Garza & Associates prepare an appraisal report of the part to be acquired for the proposed right-of-way project. The subject property shall be valued in the fee simple estate in its present condition. The scope of the assignment makes the extraordinary assumption that the subject property is free from contamination and / or other environmental conditions, which would affect the overall market value. In addition, the subject property shall be valued with the Jurisdictional Exception that the subject property shall be valued without project influence. The owner-of-record shall be contacted by letter affording the right to be present on-site with the appraiser at the time of on-site visit. During the appraisal process, other sales in the area shall be analyzed for comparability and reliability in determining the market value of the subject property. Any site or building improvements located within the acquisition area shall be measured and photographed. These improvements shall be itemized for purposes of compensation and/or cost to cure (if any). The report shall establish the market value of the whole, part to be acquired, and the remainder before and after the acquisition. The appraiser shall also review the remainder before and after to determine if there is any diminution of market value. This report shall be prepared and conform to the Texas Department of Transportation ROW A-5 Form Rev. 08/2011.

Property Rights

The property rights being appraised in this report consist of the fee simple estate of the subject property. Fee simple is defined as:

"Absolute ownership unencumbered by any other interest or estate, subject only to the limitations imposed by the governmental powers of taxation, eminent domain, police power, and escheat."

Dictionary of Real Estate Appraisal, Sixth Edition, Copyright 2015

Market Value

Pursuant to the scope of the assignment, the overall market value is to be determined for the subject property. By definition, is based on the use of the Direct Sales Analysis. The Market Value is defined as "The price which the property would bring when it is offered for sale by one who desires, but is not obliged to sell, and is bought by one who is under no necessity of buying it, taking into consideration all of the uses to which it is reasonably adaptable and for which it either is or in all reasonable probability will become available within the reasonable future."

City of Austin v. Cannizzo, 267 S.W. 2d 808 (Tex 1954)

Exposure & Marketing Time

During the analysis of the subject property, the exposure time is determined in order to define trends in the market. Exposure time is defined as the "length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal." Based on research performed within the market area, there is a twelve (12) to eighteen (18) month exposure time and marketing time period, based on current and past listings within the market area.

Personal Property

Pursuant to the scope of the assignment, no personal property within the proposed right-of-way and the remainder before and after the acquisition shall be included for compensation. Any and all personal property and / or realty located within the existing road right-of-way shall be deemed non-compensable.

Extraordinary Assumptions & Hypothetical Conditions

An extraordinary assumption that the subject property is owned in fee simple and that there are no adverse easements nor encroachments that would affect market value.

Accessibility To Site

The Hidalgo County Irrigation District No. 2 was contacted by L&G Engineering and by Precinct No. 2 concerning this project and have been in communication with the District Manager Sonny Hinojosa throughout this process. The property owner shall always reserve the right to contact the office of Leonel Garza, Jr. & Associates, LLC, at (956) 687-7295 or leonel3@garza-associates.com, after the date of inspection for an additional on-site inspection with appraiser, Leonel Garza III.

Photo 4
View of frontage along Jackson Road

Whole Property
The subject property is part of a large network of irrigation canal systems that traverse the Southern Portion of Hidalgo County, Texas. This system is responsible for delivering water to farms, homes and other operations in the region controlled and maintained by the Hidalgo County Irrigation District No. 2 Office. The subject property is a narrow tract of land with limited site utility. The portion of the property to be purchased is the southern half of the canal system. The purchase is for the overall Rancho Blanco Road Project.

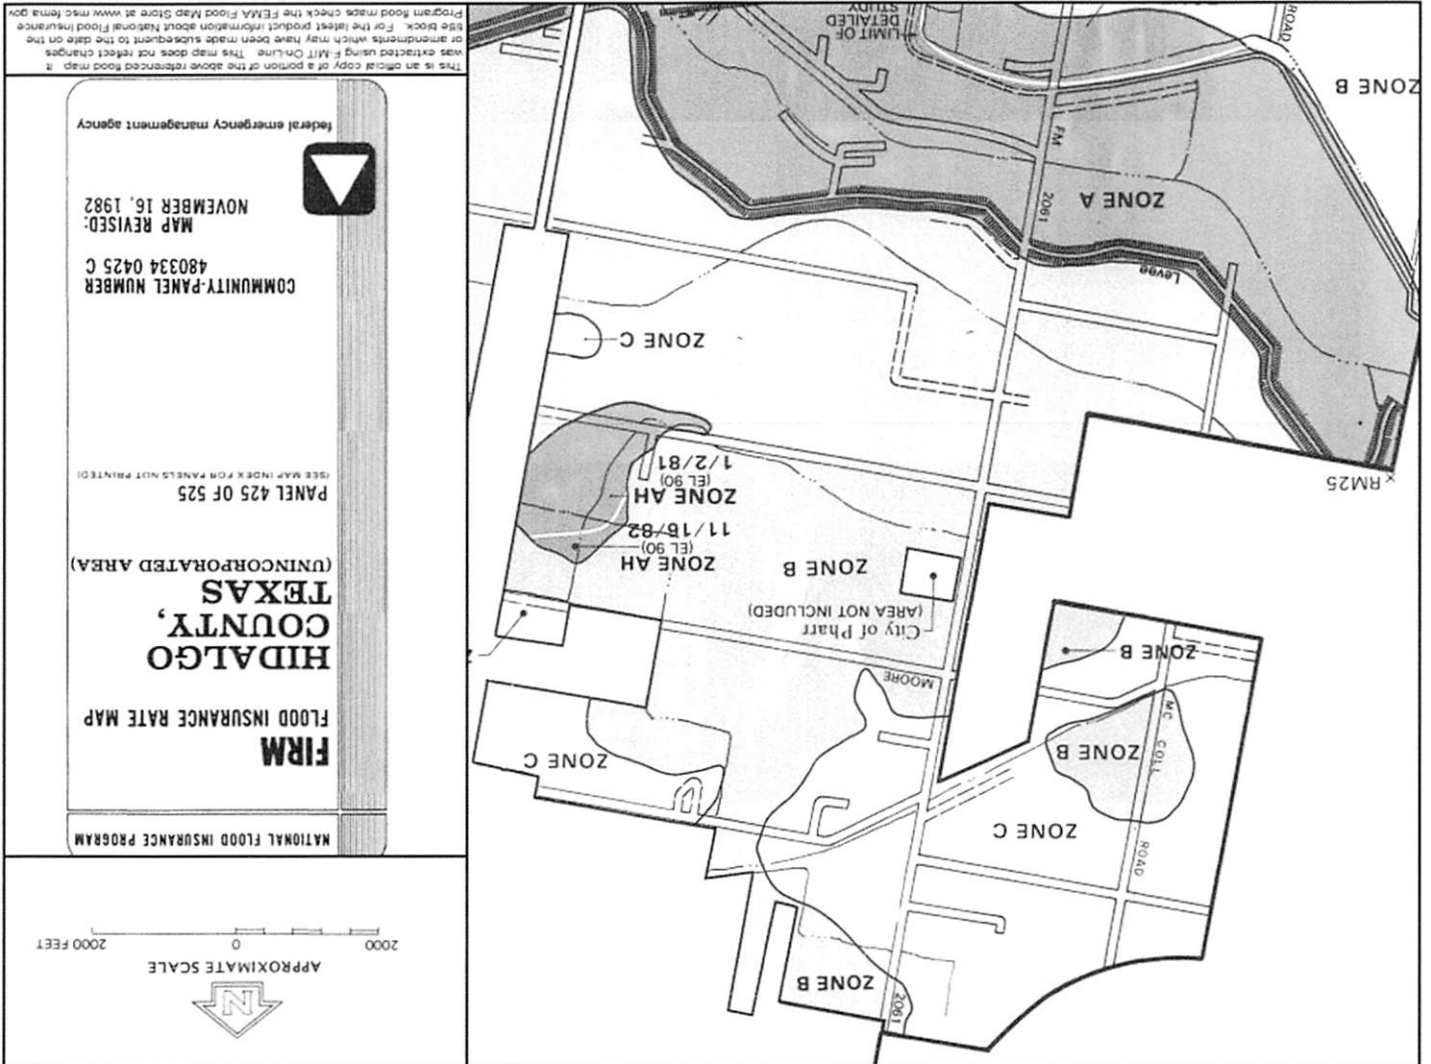

Municipal Zoning

The property is located within Hidalgo County just outside the city limits of Pharr. The subject property is located within the extraterritorial jurisdiction of the City, however, no zoning designation has been assigned.

Flood Zone Designation

The property is located in Flood Zone B. Zone B is not designated as a Special Flood Hazard area. "A Flood Insurance Rate Map (FIRM), Flood Boundary and Floodway Map (FBFM), and Flood Hazard Boundary Map (FHBM) are all flood maps that have been produced by FEMA.

www.fema.gov

Tax Assessment

The Hidalgo County Appraisal District provides general information about the District and the property tax system in Texas, as well as general information regarding properties assessed for taxes. This data source does not replace the use of a title search but will inform the appraiser of the current owner-of-record. The Appraisal District will annually appraise properties according to the Texas Property Tax Code and the Uniform Standards of Professional Appraisal Practices (USPAP). Since the owner of record is a taxing authority, no assessed value is required for said tract as the subject is exempt.

Highest & Best Use

The reasonably probable and legal use of vacant land or an improved property that is physically possible, appropriately supported, financially feasible, and that results in the highest value. The four criteria the highest and best use must meet are legal permissibility, physical possibility, financial feasibility, and maximum productivity. Alternatively, the probable use of land or improvement property – specific with respect to the user and timing of the use – that is adequately supported and results in the highest present value.

“Among all reasonable, alternative uses, the use that yields the highest present land value, after payments are made for labor, capital, and coordination. The use of a property based on the assumption that the parcel of land is vacant or can be made vacant by demolishing any improvements.”

The Dictionary of Real Estate Appraisal. 6TH Edition Chicago: Appraisal Institute

Legally Permissible

The subject property is located outside the City of Pharr. Therefore, municipal zoning does not apply to the subject property. However, the property still will have to maintain the model subdivision rules as developed by the Hidalgo County Planning Department in the event the subject property is re-subdivided. The overall use of the property is limited for drainage and or irrigation use based on the subjects overall size and shape. However, portion of the canal system including the area of acquisition can be assembled with adjoining tracts of land for commercial and or light industrial use, which is legally permissible.

Physically Possible

Based on the overall acreage of the subject property and the existing use of the track the property is physically possible to maintain a light industrial and/or commercial use under the premise of assemblage.

Financially Feasible

Due to the location of the property, it appears that it is financially feasible to use the tract for continued irrigation and or drainage use with an alternative as assembled with the neighboring tract to the south for light industrial use.

Maximally Productive

The subject property is currently at its maximally developed state as a canal system, however an alternative use as assembled for light industrial is feasible.

The overall highest and best use of the subject property is confirmed to be for assemblage for light industrial and / or commercial use in the before and after acquisition. Therefore, no diminution of market value is indicated for the remainder after the acquisition as the canal system will be able to operate in a similar manner as before.

Explanation of Adjustments with Reconciliation:

The sales comparison approach utilizes comparable sales with similar highest and best uses as the subject property, in order to determine the overall market value. Each of these sales was gathered through various sources, including but not limited to, the Greater McAllen Multiple Listing Service, local Realtors & Brokers, Real Estate Appraisers, and conversations with various property owners in the surrounding market area. Each sale was confirmed with at least two sources, which include the Hidalgo County Deed Records and the Hidalgo County Appraisal District. Each sale is reviewed for items recognized by the market that affect market value, which include conditions of the sale, market conditions, relative location, physical characteristics, available utilities and other factors that are recognized for arms-length transactions. Each of these factors may require adjustments for any differences found in comparison to the subject property, based on a direct sales analysis approach to value. After the appropriate adjustments were made to each sale, an adjusted unit range of value per square foot of \$1.11 to \$1.69 was calculated for the subject property. A unit rate of \$1.25 per square foot was determined for the land valuation.

Acquisition area outlined in yellow.

Part To Be Acquired

The part to be acquired is to be utilized for the expansion and extension of Rancho Blanco Road. In order to determine the unit market value of the part to be acquired, the Sales Comparison Approach "as vacant" is utilized to determine the subject land value. Once completed, the appraiser shall utilize the determined unit rate for the pro-rata valuation and include any compensable structural and/or site improvements located within the acquisition area. This determination of market value is based on the fee simple estate for the property. During the analysis of the unit rate, the appraiser has been instructed by jurisdictional exception to disregard any decreases or increases in the market value that are directly caused by the proposed public improvement or its likelihood, prior to the date of valuation. This is applied to the valuation of the property as a whole, part to be acquired and the remainder before acquisition. In the remainder after scenario, the determination of market value will consider the effect of the proposed acquisition on the remainder after, in order to determine if any damages (diminution in value) were incurred, as required by State Law. Any utilities that are affected by the part to be acquired shall be relocated during construction and therefore, shall not be included as a compensable item for purposes of this report.

PART TO BE ACQUIRED

Highest and Best Use:

The highest and best use of the subject property is for light industrial / commercial use under the premise of assemblage.

Diminution of Market Value _____ **0%**

Market Value Remainder After _____ \$ **55,399**

Explanation of Adjustments with Reconciliation:

The sales comparison approach utilizes comparable sales with similar highest and best uses as the subject property, in order to determine the overall market value. Each of these sales was gathered through various sources, including but not limited to, the Greater McAllen Multiple Listing Service, local Realtors & Brokers, Real Estate Appraisers, and conversations with various property owners in the surrounding market area. Each sale was confirmed with at least two sources, which include the Hidalgo County Deed Records and the Hidalgo County Appraisal District. Each sale is reviewed for items recognized by the market that affect market value, which include conditions of the sale, market conditions, relative location, physical characteristics, available utilities and other factors that are recognized for arms-length transactions. Each of these factors may require adjustments for any differences found in comparison to the subject property, based on a direct sales analysis approach to value. After the appropriate adjustments were made to each sale, an adjusted unit range of value per square foot of \$1.11 to \$1.69 was calculated for the subject property. A unit rate of \$1.25 per square foot was determined for the land valuation.

Hidalgo County Subdivision Advisory Board Chairman of the Board

This county board on subdivision reviews primary goal is to ensure that proper standards, set by Texas Water Development Board and the Texas Subdivision Model Rules and/or opinions from the Texas State Attorney General's Office, are conducted in the development of proposed subdivision within the County of Hidalgo and/or Extraterritorial Jurisdiction of municipalities throughout the County of Hidalgo. The board's secondary function is to review applications for variances against the Flood Plain Administrators decisions of the base flood elevations throughout the County of Hidalgo. Appointed to the board since May 1999.

Hidalgo County Building Line of Adjustments Chairman of the Board

This county board reviews applications of variances to general set-back regulations set forth by the County of Hidalgo. This review includes the review of existing and/or proposed encroachments into set-backs, easements, road right-of-way set-back, subdivision plat requirements and/or requirements set forth by adjoining municipalities of which the subject is within the extraterritorial jurisdiction. Appointed to the board since January 2005.

McAllen Planning and Zoning Board Former Member & Chairman

This board is charged with submitting reports, plans, and recommendations to the City Commission for the orderly growth, development, and welfare of the City. They review and make recommendations on zoning change requests, conditional use permits for longer than one year, and variances to Subdivision Ordinance requirements for development. Member of board from February 8, 2010 to January 28, 2016.

McAllen Traffic Commission Board Former Member & Vice Chairman

Makes recommendations to the City Commission to reduce and eliminate traffic congestion and flow throughout the City. Member of board from April 14, 2008 to June 24, 2014.

McAllen Zoning Board of Adjustments and Appeals

Former Member & Chairman

This city board has the duty to hear and decide appeals where it is alleged there is error in any requirement, or determination made administratively in the enforcement of the Zoning Ordinance. The Board hears appeals that grant variances to setback requirements and special exceptions to reconstruction of nonconforming buildings. Member of board from February 2002 to February 2008.

McAllen Ambulance Advisory Committee

Former Member & Vice Chairman

Evaluates and reports to the City Commission on the operation of the emergency ambulance service rendered by company or companies rendering such service.

McAllen Building Board of Adjustments and Appeals

Former Member

The BBOA reviews the decision of City Staff for the demolition of properties deemed unsafe through the City for a variety of reasons. The board review all facts and concerns and make the decision to secure or proceed with demolition based upon the safety of the neighboring property owners and occupants. The greatest concern for the commission is the safety of the surrounding neighborhood occupants. Board member from January 28, 2002 to December 31, 2003.
