Sandy,

As I explained, there is NO PAPERWORK that lists the price of the Unpublished Engine. The price is figured out from the List price in our Data Book with Factory Concessions and percentage discounts. There is no place that has that number listed anywhere.

I don't know what else to tell you.

Hi Sandy

I am sorry we do not verify pricing under Unpublished Options we just make sure it doesn't go over 25%. But you can notify the vendor and have you to send you the paperwork on the pricing.

Thank You

Good Afternoon Ms. Chappel,

I'm sorry, but I need to bother you, hopefully for the last time on this same project. There is an item listed on Mr. McCarthy's Pricing Worksheet, Under part C. Unpublished Options - Cummins ISL 370HP. Where can I find a price verification for this or where can I find in the contract where it states this is allowable?

Your assistance is greatly appreciated.
