Approved Market Area: National

APPROVED PRODUCT OR SERVICE:

Furniture, Fixtures and Equipment

MWBE/HUB Status: Certified

ABOUT THIS PARTNER:

Uniting domestic favorites with the best of European vendors, we offer one of the most comprehensive portfolios of library furniture and shelving available today.

Library Interiors of Texas offers a cooperative approach to all aspects of furnishing a library from needs assessment through design, procurement of exclusive products, project management, to installation and after sales care. Architects, designers and library professionals can be assured that they will be offered the finest furnishing choices, delivered on time, within budget, and with continuing service.

Trevor Taylor, the driving force behind the development of the company, was born in London, England. Trevor's career began in 1977 and through building strong working relationships with architects, designers, and librarians internationally, became a highly respected specialist in the library community. He has worked on projects across the globe from England, to Eldoret, Kenya to libraries damaged in Kuwait City after the Gulf War. He now brings his vision and international expertise to American architects, designers and librarians, throughout the country. A desire to provide a more personal and exclusive service to a select group of clients prompted a decision to establish Library Interiors of Texas, based in Austin.

Dave Gaskins studied architecture and mechanical engineering at Old Dominion University, and began his career in the library furniture business in 1996 as VP of Sales and Marketing for Texwood Furniture. Texwood, a venerable Texas-based library furniture maker had been producing "fine furniture for education since 1959." Under Dave's direction the company grew significantly, and became more sophisticated in their production methods, including the deployment of the first 'green' finishing system in the nation. Dave actively managed new product development, and oversaw the interior design of educational facilities of all types. He has been intimately involved in the supply of thousands of K-12 installations throughout the continental United States, hundreds of which are located right here in Texas. Dave is our corporate specialist for the K-12 learning environment. He knows what Texans want, and how to supply quality furnishings and services on time, and within budget.
