Jonathan,

Please see the prescribed language

*As Lerch Bates is unable to attain the ISO AI endorsement CG2010 10 01 as stipulated, we recommend allowing the firm to submit an equivalent form to meet insurance requirements.*

Please feel free to edit as needed.

Best,

Óscar D. García | Global Buildings & Infrastructure | **JACOBS** | *Project Manager* | M (956) 357-4507

Good afternoon Jonathan,

I was curious if you had looked into the issue of forms for Lerch Bates COI? I have posted the previous conversation below with HDR for reference. I know a week has already slipped by and if this is something that will need to be approved through the courts we really need to get it on the agenda for Tuesday if possible. I would appreciate any update you could provide.

Lerch Bates' carrier is unable to attain the ISO AI endorsement CG2010 10 01. As such, they use their own form which is an equivalent to the CG2010 form. According to our insurance manager, Matt Peterson, it contains the exact wording. Would you please encourage Mr. Comiskey to read the form content instead of just looking at the form number? I've been

assured by the carrier and by Matt that they've incorporated the same qualities that are covered by the CG2010 form.

If a conference call with the insurance carrier is required to bridge this impasse, they are willing to make this happen.

Regards,

**Colleen Daniel** | **JACOBS** | Activation Project Manager | Buildings & Infrastructure |
