See Ross's email below. He notes that we are okay to proceed as he has already reviewed it. He wants to be informed when we begin and finish the project.

Thank you,

Sabrina Rodríguez

Sabrina,

Sorry but I have been in the field most of this week but I have reviewed the documentation you provided. Please forward the design documents mentioned in the scope of work. I will need to verify the construction will meet our requirements. If it is more convenient feel free to call me and discuss the information that I am requesting.

Regarding the partition project I just needed to know its status as I have already reviewed the project. I would like to know when the installation process begins and is completed. In addition to the notification of completion I would like to receive photos of the partitions once installed.

Thanks,

Jason T. Ross

Good morning Jason,

I was just wondering if there was any update on the padded cell project? Are we okay to proceed?  
Please advise.

Respectfully,

Sabrina Rodríguez

Good morning Jason,

Attached I have included a copy of an email that was sent to us by our purchasing department, along with the AI that was presented to CC on 1/16/18, and work authorization with all required signatures. Please feel free to let me know if you may need anything else for this padded call project.

In regards to the Partition Shields Project, there is no engineering services required so we have gotten approval from our purchasing department to go ahead and follow through with the project by requesting a purchase order from them.

We will be doing so as soon as we receive an updated work schedule from the contractor (Mr. Hunt). I can go ahead and send you that schedule also if you may need it.

Thank you and respectfully,

Sabrina Rodríguez

>> Good morning Mr. Ross. This is Lieutenant David Friedlein with the Hidalgo County Sheriff's Office. We had spoken a few times months back. We are about ready to start the padded cell project but found that an Engineer is needed due to plumbing issues. The Engineering Firm would like to make contact with you to confirm specs and scope of work before we begin. Can I direct him to you? Please let me know. Thanks
