Hey Russell,

Per our conversation today , EventMobi provides a license on a per-event basis - there is no subscription, auto-renewal, or monthly fees. The license, once purchased, provides access to the EventMobi platform up until the event, and then 30 days after the event for changes and edits to be made. After 30 days post-event, the app can remain active for users as "read-only".

Hope this helps!

Brandon
