Hidalgo County Head Start Program  
Education Department Program Plan  
2018-2019

**Subpart C – Education and Child Development Program Services**

**1302.30 Purpose**

All programs must provide high-quality early education and child development services, including for children with disabilities that promote children’s cognitive, social, and emotional growth for later success in school. A center-based or family child care program must embed responsive and effective teacher-child interactions. A home-based program must promote secure parent-child relationships and help parents provide high-quality early learning experiences.

All programs must implement a research-based curriculum, and screening and assessment procedures that support individualization and growth in the areas of development described in the Head Start Early Learning Outcomes Framework: Ages Birth to Five (HSELOF) and support family engagement in children’s learning and development. A program must deliver developmentally, culturally, and linguistically appropriate learning experiences in language, literacy, mathematics, social and emotional functioning, approaches to learning, science, physical skills, and creative arts. To deliver such high-quality early education and child development services, a center-based or family child care program must implement, at a minimum, the elements contained in:

- 1302.31 Teaching and the Learning Environment
- 1302.32 Curricula
- 1302.33 Child Screenings and Assessment
- 1302.34 Parent and Family Engagement in Education and Child Development Services
- 1302.92 Training and Professional Development
- 1304.11 Classroom Assessment Scoring System (CLASS)

## Special Services Program Plan 2018 - 2019

Committee Approval Date: 04.26.18  
Policy Council Approval Date: 00.00.18  
Commissioners' Court Approval Date: 00.00.18

## **NARRATIVE**

Hidalgo County Head Start Program believes that the early years of life are critical for learning and growth. It is during this time that children's cognitive, language, social and emotional development can be most influenced. If special needs are recognized and met during these years, children with disabilities will have an opportunity to reach their full potential and become independent adults.

Hidalgo County Head Start Program believes that children with disabilities benefit from inclusion in a regular preschool setting. The benefits of inclusion are enhanced by teachers who are able to adapt their teaching techniques and activities. In an inclusive preschool program, children with disabilities will truly have a "Head Start" in achieving their fullest potential.

The Americans with Disabilities Act (ADA) and the Individuals with Disabilities Education Act (IDEA) support the right of young children with disabilities to participate in natural environments such as the Hidalgo County Head Start Program that serve young children without disabilities.

Young children with disabilities require a variety of services to ensure that their developmental needs are appropriately addressed. Hidalgo County Head Start Program believes that appropriate intervention includes addressing the needs of the entire family and that parents need to be actively involved with every phase of their child's program. In order to provide these comprehensive services, integration and collaboration between content areas within the agency and among other community resource agencies are essential.

At Hidalgo County Head Start Program, the overall purpose of the special services effort is to ensure that children with suspected or diagnosed disabilities receive comprehensive services and are included in the full range of activities within the child development program. This effort will continue, though there have been some changes in the identification process of children with disabilities:

Children that will be counted towards the 10% are those children that are referred to the Special Education Department of the local school district (IDEA eligible) and are evaluated and qualified for services. The school district will provide the services to these children through their Individual Education Plan (IEP) with parental consent. The Hidalgo County Head Start Program will continue to assist the parents in arranging to secure services from private providers for our children in need of such services whether we can count them towards our 10% or not. The staff will attempt to secure evaluation reports for record keeping. Therefore, in striving to meet the overall purpose of the Hidalgo County Head Start Program Special Services effort we are committed to the following major goals:

- Recruiting and enrolling a minimum of 10% (IDEA eligible) of the total funded enrollment slots which are for children with disabilities with particular emphasis on providing enrollment opportunities to children with more significant disabilities.
- Providing support to assist parents in the acceptance of, and learning about, their child's special needs.
- Establishing a collaborative effort between Hidalgo County Head Start Program and other agencies and organizations serving children with disabilities to identify and to facilitate a continuity of services necessary to meet the child's developmental needs.
- Promoting content area coordination to ensure the delivery of comprehensive program services for every Hidalgo County Head Start Program child with a disability and their families.
- Enhancing Hidalgo County Head Start Program staff's understanding of disabilities related issues through a proactive staff development program.

Hidalgo County Head Start Program is located in a primarily rural community with a significant Hispanic, Spanish speaking population. Hidalgo County Head Start is funded to serve 3690 children ages 3-4 in the 2018-2019 program year; a minimum of 10% of the total funded enrollment slots are for children with disabilities (IDEA eligible). A Special Services Director and three (3) staff are designated to implement the Special Services Plan. Nineteen Disability Classroom Assistants (DCA's) at the center level are assigned to classrooms that have children with significant disabilities to assist with instruction in small and large group activities. The Health Advisory Committee, which includes parents from all content service areas of the program, as well as community representatives, will review the Special Services Plan for their approval. Ultimately, Policy Council will approve the Special Services Plan.

In an attempt to provide services collaboratively, Hidalgo County Head Start Program has signed agreements with Local Education Agencies (LEA's), Early Childhood Intervention Program's (ECI's), Child Find and Community Resources Agencies.

**Goal:** The Hidalgo County Head Start Program will enroll a minimum of 369, (10%) of the total funded enrollment, children with disabilities as diagnosed by LEA. Only LEA diagnosed children will be counted towards 10%.

**Objective:** Will assure non-discrimination of children with disabilities in the selection process in meeting 10% provided they meet age and income requirements. After 10% enrollment is met, children will compete equally. Will ensure that no child is denied enrollment due to severity of disability, staff attitudes, facility inaccessibility, staff unfamiliarity with disabling conditions, nor need for personalized services or specialized equipment. Children previously identified as having a disability will not be excluded in the recruitment process.

1. The program currently does not have the need to contract private or public transportation services. The program has a collaborative agreement with Teaching and Mentoring Communities Head Start to facilitate transportation should our program not have adequate number of buses for program sponsored events. The program has also developed a "cost per child" report to determine the feasibility of transportation by geographical areas. The program has also contacted the Lower Rio Grande Valley Development Council, but currently the program does not have the need for alternate transportation.
