

Katrina Park Project

Jennifer Stromberg <jstromberg@nrpa.org>

Thu 11/15/2018 9:26 AM

To: Andrea Valdez <Andrea.Valdez@ag.tamu.edu>;

To Whom It May Concern:

The Katrina Park Project is granted an extension for the steps needed to complete the project.

The project is projected to be completed by December 31, 2018.

Sincerely,
Jennifer

That is great Jennifer I can totally do that! Trail construction will be finished today and that is the main part of our focus. Some smaller playground pieces will go in when they get in mid December. Can you send me an extension approval? My auditors is requesting that to pay purchase orders.

Thanks!

Andrea

Hi Andrea –

As we are under some time constraints as well to provide a report to Disney, we ask that you provide as much survey data as you can by 11/30, with the final report still due on 11/16.

If I can provide any additional information or assistance, please let me know.

Take care,
Jennifer

Hi Jennifer,

I just wanted to follow up on this request. Some of the park equipment won't be in until the end of November/mid December, it is possible to receive an extension on the evaluation until the end of the calendar year? If so, can you please email me a formal extension letter? My auditor's office will not release any payments until they receive notice of this extension. So sorry about this again, but the weather has calmed down for now and we have trail construction this week! We are moving along!

OK – great.

Let me check on that part.

Hi Jennifer,

I am requesting an extension probably in just the surveys as I won't be able to get those until the construction is finished. I should still be able to complete the final report by the 16th.

Thanks,
Andrea

Hi Andrea –

I will definitely look into this for you.

Just to clarify – are you requesting a delay for both the final report and surveys or just the surveys?

If you can let me know, that would be great.

Thanks,
Jennifer

Hi Jennifer,
Just wanted to please request a response to my extension request for this project if possible. As I stated previously, Hidalgo County and in particular, the Mission/Penitas are has had a tremendous amount of rain from June 2018 to present. The construction of the walking trail has not been able to begin because of the wet ground/active rain/ and the Precinct 3 labor employees managing flood control in other areas. We have reached a time, where we can start construction and our goal date is Monday, November 5. Given the November 1 deadline on this project and on the MOU we have signed, I would like to formally request a one month extension on this project so as to complete the walking trail, fitness stations installation, and playground equipment installation (which parts of and complete equipment will be purchased by November 1). Please let me know your decision. I apologize as this has been beyond our control and we are never excited and anxious to get everything installed at the park! Many thanks in advance!

Hi Jennifer,
I was just wondering if you had any update on my previous question?
We are still getting rain (as we are in the middle of hurricane season)
and are still unable to start trail construction. I am continuing to
purchase equipment and store it for now. Or is there some type of
extension we can receive?

Thanks,

Hi Jen,

I hope you are doing well. My name is Andrea and I am working on Disney project granted to Hidalgo County Precinct 3. I just wanted to send you a quick update. I am short 2 Intercept surveys (I have quite a few in upload). We have purchased materials for the walking trail and are working on getting some stationary fitness station vendors set up in the County system. We will have all \$30,000 spent, however, we have had a tremendous amount of rain especially in the area of the park. The County precinct has spent the last month still trying to get residents out of their homes and clear streets of mud and have not been able to do trail construction. I know the money has to be spent by November 1 but does everything have to be constructed by then as well? Please advise how best to proceed.

Thanks,
