Darlene,

We don't have a specific email from TxDOT approving the Bid Documents. However, we do have the email where TxDOT states they have requested the FPAA. TxDOT will not request the FPAA until they have approved the Bid Documents.

I have attached Margil's email where he states he has submitted the paperwork for the FPAA on November 2nd. If you scroll down within that same email chain, you will see an email from Mando where he previously submitted the final Bid Documents addressing all of TxDOT's comments. In addition, in Margil's email he mentions he still needed the rate certification from HCDD #1. So I have also attached Mando's reply to Margil sending him HCDD #1's rate sheet that we utilized for the LD calculations. I would think the "official" approval for record purposes will be when we receive the release to advertise. I will definitely make sure you are in the loop and receive that paperwork when it comes in. Thanks and if you need anything else please let me know...

Mr. Macheska,

May you provide a copy of TXDOT's approval correspondence related to this RFB Construction packet. As customary practice to ensure all approvals are maintained for the file.

Should you have any questions related to this matter, do not hesitate in contacting me.

Thank you again for your prompt responses.

Respectfully,
Darlene H. Betancourt, CPPB
Hidalgo

Of course, please see attached. Just as a point of clarification, TxDOT has approved the attached package we are just waiting for them to release the project funding from the FEDS. Once they release the project funding (the FPAA & SLOA forms) then we can begin the advertisement process.

If TxDOT continues to delay the release of the funding, then I'm assuming we will have to update the bid number to reflect whatever bid opening date we think best. Other than that, we should be good to go. Thanks and have a great weekend as well!
