Good Afternoon Connie,

I wanted to see if you could please also help me with another project I am working on? It's for Anderson Machinery, they have quoted one of our departments a used item which is no longer being produced(Please see quote attached). The vendor has stated that for this item the line below found on the Buyboard Contract can be used and it would be in compliance. Would this quote be in compliance with the Buyboard Contract? If so, is there any other supporting documentation that can be provided in order to confirm the base/MSRP price that is given on the quote? The vendor mentioned that he didn't have any other supporting documentation for the used item, he just provided the pricing for the new model available on Buyboard.
