What is the procedure to terminate the contract? We are not utilizing his services enough to justify paying monthly for his services.

Also, is there a way to do another contract that would be on an as needed basis on an hourly rate?

Thank you for your guidance with this matter. Have a great day

Hi Heidi,

What is the procedure to terminate the contract? We are not utilizing his services enough to justify paying monthly for his services.

Also, is there a way to do another contract that would be on an as needed basis on an hourly rate?

Thank you for your guidance with this matter. Have a great day
