Victor,

I just found an email stating that you have already contacted Tabitha and she has already created the account for you. **ESID# 10032789409757695 for a 250W HPS Street light.** Please disregard sending her any more info for this location. Once you have received approval from the board let me know. I will follow through with the design of the street light at that point and release the job to our construction crews.

Good Morning Victor,

As we discussed on the phone, there will not be a cost for the installation of a light at the intersection of El Pinto and Los Cenizos Rd, however the county would still be responsible for them monthly bill. Once approved on your end, I will need an official letter of request for the street light, specifying which wattage of light you want (150w, 250w, 400w etc.) as well as the length of the arm. (6ft or 14ft) Please send that request to Tabitha Haisler. [unmetered@aep.com](mailto:unmetered@aep.com) If you have any questions about billing you will need to direct them to Tabitha. Please let her know that you have already met with a serviceman and the location of the light has been established. If you have any other questions or need further information please let me know.

Thanks.

My cell phone is the best way to reach me. CELL: **956-250-8330**
