Understanding the 2017 NAICS Codes & SBA Size Standards:

SAM uses the 2017 North American Industry Classification System (NAICS) Codes and the Small Business Administration (SBA) Table of Small Business Size Standards to help small business owners assess their small business status by industry. Visit [SBA's Size Standards page](#) for more information.

When you register in SAM to pursue federal contracts, you provide worldwide size metrics and select the NAICS Code(s) most applicable to your business in the Assertions section of your registration. You then certify to the NAICS table displaying your small business status by industry in your Representations and Certifications.

Periodically, SBA updates the size standards for certain industries or sectors. If the size standard changes, and this affects the "Yes" and "No" answer (meaning Small or Other Than Small) on your NAICS tables at 52.212-3 and 52.219-1, SAM will place an exclamation point (!) next to the "Yes" or "No" answer to show it should be reviewed.

The next time you update your Representations and Certifications, the answers will be displayed according to the new size standard. When you complete that update, the exclamation points will be removed. Remember, your entity's small business status to which you originally certified will not be updated until you login to update the record.
