Elected Officials and Staff Talk about the Benefits and Savings that Public Power Pool membership brings

Since 2002, P3 members have saved \$125.8 million against market rates

P3 Secures Low-Priced Power, Better Contract Terms Through Bulk Purchasing

“By procuring through the group, P3 members realize \$2,150,558 of group savings each year. Other political subdivisions in and around Dallas County are paying significantly more under contracts negotiated at the same time. P3 membership offers unique opportunities and economies of scale for counties looking to save taxpayer dollars; I urge you to call P3 to discuss the benefits of joining.”

- ***Judge Clay Lewis Jenkins, Dallas County***

“Research shows that counties that go it alone finish up paying much more for electricity than P3 members. One north Texas county that signed a contract directly with a retailer paid an additional \$33,922 per year. Another neighboring county wound up paying \$17,743 more than if they’d procured through our group. As a budget defender, I urge you to consider the bulk purchasing discounts that come from working with 45 counties and 50 political subdivisions in P3.”

- ***Judge Glen Whitley, Tarrant County***

“We are delighted with the service P3 provides; they always deliver on their promise of lower rates. I am happy to recommend them to any West Texas County that is looking for a better contract.”

- ***Judge Fred Deaton, Crockett County***

“Harris MUD 23 had been a P3 member for 14 years. When it was time to procure a new electricity contract the Board decided to test the waters to see what else was available. We received presentations from several brokers as well as from P3. After lengthy discussion regarding the services on offer and the rates provided, the Board determined that its best course of action was to continue with P3 through 2022. When P3 completed its procurement, they delivered a rate that was even lower than their original estimate.” - ***Michael Cole, Harris MUD 23***

“It was time for us to renew our electric contract, and we were contacted by the CUC about joining P3. I viewed it as something similar to us pooling together through TAC for insurance and the advantage of being governed by a Board of elected officials. With our new rate, we’ll be saving over 25% in the coming year.” - ***former Judge Rhita Koches, Van Zandt County***

“We are always being visited by energy brokers trying to get our business by promising the moon; with P3, we get solid facts, accurate analysis and no hogwash. We trust P3 bring us the best contract terms and the lowest rates.” - ***Romeo Salinas, County Treasurer, Zapata County***

P3 Provides Day-to-Day Account Management Assistance

"If your county is looking to save money, do what San Patricio did - join P3. Thanks to their knowledgeable and hard-working staff, they ensured a seamless contract transition and addressed any account problems quickly and efficiently. When it comes to managing our accounts, we know who to call - P3!" – **Former Commissioner Fred Nardini, San Patricio County**

"The relationship and trust that McLennan County has experienced through our membership in the P3 Public Power Pool is second to none. Transparency, services, lower rates, and honesty, P3 has been able to deliver on all points and as promised." - **Commissioner Will Jones, McLennan County**

"Public Power Pool has done an exceptional job in ensuring that we are billed correctly. On the few occasions when bills have contained an error, they have caught it early and moved quickly to ensure that it is corrected on subsequent invoices. P3's management of both our county's procurement and contract has been nothing short of excellent and I'm happy to recommend them to any Texas county looking for a new power contract." - **Kenneth Lind, Purchasing Agent, Ector County**

"With P3's assistance, advice, flexible terms and conditions of our contract, Collin County was able to take advantage of load shedding opportunities at the chiller plant, saving our County thousands of dollars. P3 also negotiated the realignment of a meter to the MCPE index pricing that will provide more flexibility in the future. P3's invaluable assistance on this is not something your typical energy broker or retailer would have done." - **Dan James, Facilities Director, Collin County**

P3's Expert Analysis and Legal Back-Up Supports Your Staff at The Lowest Cost

"By authorizing P3 to handle our RFP, we save thousands of manpower hours and get a great rate. We trust P3 and I'd certainly recommend them to all my neighboring counties or any political subdivision looking to save taxpayer dollars." - **Judge Chris Davis, Cherokee County**

"P3's Board is made up of elected officials who actively review all facets of the organization to make sure taxpayers get the biggest bang for their buck. Last year, the Board reviewed P3's aggregation fee and found that competing aggregations and brokers charge 2-3 times P3's fee. Members get the best advice at the lowest cost and benefit from a range of services such as forward budgeting, bill audits and invoice verification that brokers just don't provide." - **Commissioner Dennis Bailey, Rockwall County**

"P3 provides the customized consumption and spend analysis that we need. They process our adds and deletes promptly and secure beneficial pricing for large-scale load additions. All we have to do is pick up the phone and P3 does the rest. We have no hesitation in recommending them to any political subdivision seeking a better contract at the lowest cost." - **James Mathew, Administrative Director of Engineering, Harris County Hospital District**

P3 is a non-profit political subdivision corporation created by Texas counties to save taxpayer dollars by negotiating lower rates and better electricity contracts. Membership is open to any political subdivision in ERCOT.
