**Subject:** Re: presentation

Good afternoon Ms. Caitlin,

In discussing the current TCAP agenda item with Judge Cortez this morning, he had the following concerns.

1. Is it correct that the best time to secure an energy contract is early spring or early fall?
2. How do we get ourselves back to that favorable position going forward for the bridge contract even if it means a series of bridge contracts from here to Dec. 2022?

Therefore with those concerns noted, Judge Cortez would like to see options other than a short term 3 months contract. He is hesitant about going to a 3 month contract which would take us to the middle of summer which will likely have higher rates.

Ideally, if options as such are feasible, (like a 3 month, 6 month, 18 month contract) they could be offered during the Zoom discussion by the TCAP representative.

Any thoughts or suggestions would be appreciated.

Thanks!
