Raquel,

No, that's not necessary. Items with a current per-unit fair market value (FMV) of less than \$5,000 may be retained, sold, or otherwise disposed of with no further obligation to the Public Safety Office (PSO). If the current FMV is \$2,000 you do not need to submit a disposition request. Please ensure that you maintain on file the methods used to determine the FMV and, once the item is disposed of, update your equipment inventory list to include the date and method of disposal and fair market value or sale price of the equipment. If this is the case I will delete your disposition request.

If the FMV is more than \$5,000 please let me know and I will continue to process your disposition request and let you know once it is approved (no need to resubmit the form).

I have attached a copy of the PSO General FAQs for additional information. You may also want to refer to 2 CFR 200.313(e) which contains disposition information for original or replacement equipment acquired under a Federal award. Please let me know if you have any questions.

Thank you,

Kim Hild

**Comments**

2011 Chevrolet Tahoe VIN 1GNLC2E06BR118438  
Vehicle has a blown motor and will cost more to replace and

repair the unit than the fair market value says the vehicle is worth. Currently the vehicle is in a secure gated area at our department. Once the vehicle is sold, the department can use those funds to equip other units used for regular patrol and border security operations after regular shifts.
