**3. Term.** This Agreement is for a period of **one (1) year**, effective \_\_\_\_\_ and will expire \_\_\_\_\_ or unless sooner terminated as provided herein. The Engineer will not begin to work or incur costs until authorized in writing by the County with each "Work Authorization" particularly described in Exhibit "D".

**4. Compensation.** As consideration for rendering the Services provided for in this Agreement, the County agrees to pay the Engineer the amounts specified in Exhibit "C" attached hereto payable against written invoice submitted by Engineer. The maximum amount payable under this Agreement shall not exceed the amount for each work authorization unless an amendment is executed as provided hereinafter. The Engineer shall submit periodic requests for payment within (30) thirty days after completion of each Work Authorization. The request for payment shall be made using forms acceptable to the County and shall show the total amount earned to the date of submission and the amount due and payable as of the date of the current billing. Upon receipt of said request for payment, County shall submit a requisition for payment for said Services in the customary manner provided for payments utilized by Hidalgo County, Texas. All inspections and evaluations shall be performed in such a manner as will not unduly delay their work.

**6. The County retains the right to reject any such amendment proposed by the Engineer. Any such amendments shall be made in writing, agreed to by all parties hereto, and duly executed before the end of the Agreement as specified. If the County finds it necessary to require changes in completed work because of errors made by the Engineer, the County shall require the Engineer to correct the work at no cost to the County and without amendment to the Agreement. If the changes are made at the request of the County and are not due to errors of the Engineer, the County will reimburse the Engineer for the additional work at the same rate of pay established in Exhibit "C," "Engineering Rates." If payment for the additional work will cause the maximum amount payable under this Agreement to be exhausted, an amendment shall be proposed in accordance with all State procurement laws.

**7. Reporting.** The Engineer shall promptly advise the County in writing of events which have a significant impact upon the Agreement, including:

- a. Problems, delays, or adverse conditions which will materially affect the ability to meet time schedules and goals, or preclude the attainment of project work units by established time periods. **10. Progress and Coordination.** The Engineer shall, from time to time during the progress of the work, confer with the County. The Engineer shall prepare and present such information as may be pertinent and necessary, or as may be requested by the County, in order to evaluate features of the Engineer's services and work.

The Engineer shall promptly advise the County in writing of events which have a significant impact upon the progress of the Engineer's Services and work and the approved Work Schedule, including:

- a. problems, delays, adverse conditions which will materially affect the ability to attain Agreement objectives, prevent the meeting of time schedules and goals, or preclude the timely completion and submittal of Project deliverables by the Engineer within established time periods; this disclosure will be accompanied by a statement by the Engineer of recommended or immediate action taken, or contemplated, and any County or other agency or entity assistance needed to resolve the situation; and
- b. favorable developments or events which enable meeting the Work Schedule goals sooner than anticipated.

The following assumptions were used in preparing the proposal:

- MEG's proposal is dependent on the duration of construction days and additional compensation may be required if the construction sequence is slower or faster than typical construction.
- MEG's proposal is dependent on the construction sequence that is used by the General Contractor. Estimated quantities herein are based on the most efficient scheduling the General Contractor can use to combine our services when applicable. Standby time, weather, and cancellations have not been factored into the proposal.
- The Contractors on the site will work a single shift, on a 5 days per week schedule.
- Construction Material Testing Services will be scheduled with 24 hours notice.
- Services provided outside of regular business hours as outlined in the Provisions section of this proposal, or services provided on Saturday, Sunday, or Holidays will be invoiced at 1.5 times the applicable unit rate.
- Minimum three (3) hour charge for engineering technician per trip, Minimum three (3) density tests per trip.
- Upon request for services by owner, representative of owner, and/or construction team, MEG will assume that our proposal is authorized and will proceed with services, to not delay project. If these terms are not agreeable, please provide MEG written documentation prior to the request for services.
- When invoices need to be delivered to a third party for review, the client shall notify MEG of this request, prior to the request for services. If this is not disclosed before the request for services, MEG shall charge administrative time to prepare, send, and deliver to the third party.
- Unless otherwise notified, MEG assumes that the owner will be responsible for all of the project's invoices. If retests and/or cancellations are to be billed to another party, the owner shall notify MEG before the request for services. An administrative fee will incur with the separation of invoices.
- Invoices are due and payable on receipt. Interest at the rate of 1½% per month will be charged on all past-due amounts, unless not permitted by law.

## **SCHEDULE**

We request that our office be contacted at 956/702-8501 at least 24 hours prior to the time our services are needed to allow for scheduling. Calls for scheduling services will need to be made by 5pm of the previous day when service requests are needed. Cancellation of service requests will need to be made at least 2 hours before the scheduled service request time. Cancellation of services that are scheduled to be performed before 8am (early morning) will need to be made prior to 5pm of the previous day. Our services will be performed as directed by the CLIENT, at the rates presented herein.

The contractor is responsible for performing the work in accordance with the plans and specifications. Our testing & observations of the work does not relieve the contractor of their responsibility to perform the work properly and in accordance with industry standards. Prior to the start of construction and our services, we do request one (1) set of approved project plans and specifications with addendums when applicable. We also request the contact information of the general contractor so cancellations, re-testing, or additional testing when required because of the contractor can be billed to the contractor. The project information form and invoicing instructions form will need to be submitted to our office within 5 days of the authorization date. Failure to do so will require MEG to furnish additional administrative support for this project and will be subject to additional administrative charges as required. In addition, an on-site pre-construction meeting with all involved parties is highly recommended to our CLIENT to clearly specify the expectations, scope, and responsibilities of all involved parties.

MEG does not guarantee the performance of, and shall have no responsibility for, the acts or omissions or health and safety procedures of any contractor, subcontractor, supplier, or any other entity furnishing materials or performing any work on the project. The CLIENT has not retained MEG to provide exhaustive or continuous project review and observation services. It is our understanding that testing will be scheduled by the CLIENT and MEG does not assume the responsibility for assuring all required tests are performed. The CLIENT understands that observation and testing are conducted to reduce and not eliminate project risk. The CLIENT agrees to the level or amount of testing performed and the associated risk. MEG shall not be responsible for the quality and completeness of CLIENT's contractor's work or their adherence to the project documents, and MEG's performance of testing and observation services shall not relieve the CLIENT's contractor in any way from its responsibility for defects discovered in its work, or create a warranty or guarantee.
