BACKGROUND

On March 17, 2020, pursuant to the authority under Texas Government Code Section 418.108, Hidalgo County Judge Richard Cortez issued a Declaration of Local Disaster for Public Health Emergency due to the imminent threat arising from the Coronavirus (COVID-19). On March 22, 2020, in accordance with Texas Government Code Section 418.108(b), the Commissioners Court of Hidalgo County issued an Order of Continuance of Declaration of Local Disaster for Public Health Emergency that affirmed the activation of the Hidalgo County Emergency Management Plan and extends the Declaration of Local Disaster.

In coordinating the response to this ongoing public health emergency, the Hidalgo County Health Department is in need of additional laboratory testing for its patients and the continued response to the public health emergency related to COVID-19 and needs to have an available turkey full service lab to perform tests and provide faster analyses of laboratory results during the COVID-19 pandemic public health emergency.

In order to increase testing capacity for SARS-CoV-2, the virus that causes Coronavirus Disease 2019 (COVID-19), including specimen collection, Hidalgo County Health & Human Services Department needs to have an available turnkey full service lab to perform tests and provide faster analyses of laboratory results during the COVID-19 pandemic public health emergency. The

Laboratory Response Network (LRN) which is located in Harlingen, Texas is the only public lab that serves the eight thousand square miles of the Lower Rio Grande region. This LRN has a limited capacity conducting forty (40) test per day. Moreover, during this COVID-19 response the LRN ran out the reagent in order to conduct lab tests forcing all labs to be sent to the LRN in Austin, Texas resulting in delayed lab reading results for our community.

The 2010 Census has indicated that Hidalgo County has a low to moderate income level of 54.76% county wide benefit and the Teas Department of State Health Services estimates Hidalgo County's population to be 1,005,539. With this large impoverished population, but limited lab testing capacity, the detection, mitigation, and response to Covid-19 has been largely impacted. Current public health directive emphasize the importance of having available public health testing in order to detect and prevent the spread of COVID-19. With the Lab Services agreement a much needed service will be established and made promptly available to our county residents by means of their clinical laboratory.
