Daniel,

Please see the attached response from the State on the disposition of the equipment on the McCook Tower. Chief Saladana is requesting to keep all the equipment removed from the tower in our warehouse to be used as needed or for replacement parts. I think the only thing needed to be done moving forward is to request to have assets listed below taken before court for asset removal. Please review and let me know if you have any questions or concerns or how to proceed.

Thank you

Asset 46351 -Antenna Mounting Hardware
Asset 46352 - Antenna Mounting Hardware

Good Morning Belinda,

The Public Safety Office (PSO) has received your disposition request for the Antenna Mounting Hardware purchased with 2003 SHSP funds. Because the current fair market value of the item is less than \$5,000, Hidalgo County is not required to seek disposition instructions from the PSO. In addition, mounting hardware, in and of itself, is not considered equipment or a state-controlled asset and, therefore, Hidalgo County would not need to submit a disposition request to dispose of this item.

It should be noted, however, that the County may need to request disposition for the radio communication equipment that is no longer needed and was removed from the tower. In general, equipment is considered tangible personal property with a useful life of more than one year and a per-unit acquisition cost of \$5,000 or more. More information may be found in the PSO General FAQs and a copy is attached.

Items with a current per-unit fair market value (FMV) of less than \$5,000 may be retained, sold, or otherwise disposed of with no further obligation to the PSO. To dispose of equipment (or items considered by the Office of the Governor to be a controlled asset) with a current per-unit FMV of \$5,000 or more, or to dispose of equipment less than 5 years old (regardless of the FMV), please complete the Public Safety Office (PSO) Equipment Disposition Form located at: https://fs3.formsite.com/OOG_HSGD/EqDisp/index.html. In either case, please note that the methods used to determine the FMV must be documented, kept on file and made available upon request. Your equipment inventory list must also be updated to include the date and method of disposal and fair market value or sale price of the equipment.

Please let me know if you have any questions.

Stay safe,

A handwritten signature in black ink, appearing to read "Kim Hild".

Thank you!

Your disposition request has been received by the Office of the Governor, Public Safety Office (PSO). For reference, a copy of your equipment disposition request is provided below. We will contact you should additional information be required. The approval process typically involves approval from the federal funding agency and it may take two weeks or more to receive approval. You will receive notification from the PSO once a decision regarding the disposition has been reached.

Should you have any questions or concerns, please contact Kim Hild at: 512-463-8570 or by email at: kimberly.hild@gov.texas.gov.

Reference #	11322001
Status	Complete
Agency Name	Hidalgo County Office of Emergency Mgmt
Federal Grant Number	2003SHSP-48215
eGrants Grant Number (does not apply to HSGD grants awarded prior to 2015)	NA
Brief description of item(s).	Antenna Mounting Hardware (radio communication tower)
Serial number(s) or other identification number(s).	NA
Acquisition date	08/17/2006
Is the equipment more than three(3) years old?	Yes
Acquisition Cost (per unit).	2000.00
Current per unit fair market value (FMV).	0
Is the current per unit FMV less than \$5,000?	Yes
Current condition of the property	Scrap
Are you reporting the loss, destruction or theft of grant-funded property?	No

Does the agency intend to:	Retain and use the equipment in other activities currently or previously supported under a FEMA grant or sub-grant.
Comments	Antenna Mounting Hardware- The hardware is part of communication equipment purchased with the 2003 State Homeland Security Grant Program in 2006 and installed on a radio communication tower in 2007. The equipment was removed in September 2020 because it was no longer needed on the tower. The equipment will be stored and used as spare parts for other radio towers if necessary. The antenna mounting hardware was not removed from the tower as the vendor stated the tower was not stable enough to climb. Without the ability to climb the tower we are left with the decision to leave the hardware on the tower. The current value of the hardware is \$0.00.
