Chief,

Per our conversation, please advise which type of items the county is thinking of purchasing with a budget of \$65k.

The funding is from the RGV Partnership Foundation. The funding can be used for equipment, material, products, or compensation provided to staff as a result of the February freeze (unexpected expenses as a result of the February freeze). We won't be asking for quotes, receipts, invoicing or reports after you purchase the items.

The AEP Foundation awarded the funds to our foundation so that we may support our region with unexpected expenses as a result of the February freeze.

Please advise if you need additional information.
