ARPA Eligibility Category:

3.4 Education Assistance: Social, Emotional, and Mental Health Services ^*

Project Description:

The Hidalgo County Precinct 2 ToGive International Community Development Project aims to provide a grant to ToGive International, a nonprofit Fine Arts Educational organization located at 2500 Dicker Rd., Suite C Hidalgo, Texas 78557. ToGive International has not stopped providing its services at its three McAllen, Mission, and Hidalgo locations. ToGive International's three locations have played a crucial role in minimizing mental, social, and emotional health issues and the educational disparities exacerbated by the COVID-19 public health emergency. They have been able to address the needs of the community they serve throughout the pandemic, especially those residing in underserved communities.

Fine arts curriculums are an essential component of human development, especially when students' emotional, social, and emotional health is at risk. Students are motivated to become self-driven, empowered individuals capable of possessing the emotional intelligence necessary to make critical decisions by providing these services. By providing this assistance, ToGive International will continue serving hundreds of students that otherwise can't have the opportunity to continue enrolling in their programs, especially those living in low- to moderate-income communities.

Community Need Assessment

The purpose of the ToGive International Community Development Project is congruent with the overall objective of the Hidalgo County American Rescue Plan Act Educational Opportunity and Readiness Program, which is to address educational disparities and provide academic support to help mitigate impacts of the COVID-19 public health emergency.

ToGive International has offered evidence-based educational services and practices through fine arts education after-school curriculum for children and youth. Fine arts in education has been proven to increase cognitive abilities, boost emotional intelligence and wellness, and strengthen self-confidence and self-awareness. They have played a key role by addressing the academic needs of underserved students that were impacted the most by the COVID-19 public health emergency.
