U.S. Communities and National IPA, both wholly-owned subsidiaries of OMNIA Partners, have come together as OMNIA Partners, Public Sector. All public sector participants already registered with National IPA or U.S. Communities continue to have access to all contracts, with certain exceptions, in the portfolio and do not need to re-register to use a legacy National IPA, legacy U.S. Communities, or new OMNIA Partners contract. U.S. Communities and National IPA remain separate legal entities and lead agency contracts completed under each brand are effective and available for use through the contract's approved term. In the event we believe re-registration is necessary for any reason, OMNIA Partners will let you know.

## Hidalgo County Public WiFi Case Study

Case Study

# Hidalgo County Brings Free Public Wi-Fi to More Than 30,000+ Rural Students and Workers

## The client

Situated in south Texas, Hidalgo County is home to more than 850,000 people, encompasses more than a dozen school districts, and hosts several collegiate institutions. Recent census reports have found that the county ranks among the poorest in the U.S., with upwards of one-third of families living below the poverty line.

## The challenge: Narrowing the digital divide at a critical time

As the COVID-19 pandemic continues to spread through the country, its impact on different regions and demographics varies. Federal aid has been provided to help where possible. Hidalgo County received such relief funds from the federal government that could be used for a variety of needs.

Hidalgo County worked with local school districts to identify pockets within the community where students had limited to no access to the internet. Data collaboration was essential to ensure that students in need had access to educational resources. With the pandemic continuing to wreak havoc, remote work is often required, as is distance learning. However, without proper internet access at home, earning a living and receiving an education are basic rights that are simply unattainable in the current environment.

Industry:  
Government
